1. BASIS OF PRESENTATION

FINANCIAL STATEMENT PRESENTATION

The condensed consolidated financial statements of Radica Games Limited (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the rules and regulations of the Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. The accompanying unaudited condensed consolidated financial statements contain all normal and recurring adjustments, which, in the opinion of management, are necessary to present fairly the financial position of the Company as of March 31, 2004, and its results of operations and cash flows for the periods presented herein. These unaudited condensed consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 20-F for the year ended December 31, 2003.

Because the Company's business is seasonal, revenues, expenses, assets and liabilities can vary during each quarter of the year. Accordingly, the operating results and trends in these unaudited condensed consolidated interim financial statements are not necessarily indicative of future results that may be expected for any other interim period or the full year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of certain assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities as of and during the reporting periods. Significant items subject to such estimates and assumptions include the carrying amount of goodwill, property, plant and equipment, valuation allowances for receivables, inventories and deferred income tax assets and reserves for product returns and warranties, as well as in estimates used in accounting for legal contingencies. Actual results could differ from the estimated results. Differences from those estimates are recorded in the period they become known.

ACCOUNTING FOR STOCK BASED COMPENSATION

The Company applies the intrinsic-value-based method of accounting prescribed by Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations including FASB Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation, an interpretation of APB Opinion No. 25, issued in March 2000, to account for its fixed-plan stock options. Under this method, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price. SFAS No. 123, Accounting for Stock-based Compensation, established accounting and disclosure requirements using a fair-value-based method of accounting for stock-based employee compensation plans. As allowed by SFAS No. 123, the Company has elected to continue to apply the intrinsic-value-based method of accounting described above, and has adopted only the disclosure requirements of SFAS No. 123. The following table illustrates the effect on net loss if the fair value based method had been applied to all outstanding and unvested awards in the period:

Reported net loss per share	\$ (0.06)	\$ (0.03)
Pro forma net loss per share	\$ (0.07)	\$ (0.04)

In April 2003, the Financial Accounting Standards Board ("FASB") announced that it would mandate the fair value method of accounting for all stock-based awards. The FASB issued an Exposure Draft of a proposed statement on March 31, 2004, which is subject to a comment period. If enacted, the change in accounting is not expected to be effective for the Company until fiscal 2005. Until a final statement is issued, the Company cannot estimate the effect that this change in accounting would have on its consolidated statement of operations.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2003, the FASB issued FASB Interpretation No. 46 (revised December 2003), Consolidation of Variable Interest Entities, which addresses how a business enterprise should evaluate whether it has a controlling financial interest in an entity through means other than voting rights and accordingly should consolidate the entity. FIN 46R replaces FASB Interpretation No. 46, Consolidation of Variable Interest Entities, which was issued in January 2003. The Company will be required to apply FIN 46R to variable interests in VIEs created after December 31, 2003. For variable interests in VIEs created before January 1, 2004, the Interpretation will be applied beginning on January 1, 2005. For any VIEs that must be consolidated under FIN 46R that were created before January 1, 2004, the assets, liabilities and noncontrolling interests of the VIE initially would be measured at their carrying amounts with any difference between the net amount added to the balance sheet and any previously recognized interest being recognized as the cumulative effect of an accounting change. If determining the carrying amounts is not practicable, fair value at the date FIN 46R first applies may be used to measure the assets, liabilities and noncontrolling interest of the VIE.

The Company has evaluated the impact of applying FIN 46R and believes that, other than those entities already consolidated in the Company's consolidated financial statements, no additional entities would need to be consolidated by the Company.

In April 2003, the FASB issued SFAS No. 149, Amendment of Statement 133 on

Edgar Filing: RADICA GAMES LTD - Form 6-K

Derivative Instruments and Hedging Activities. SFAS No. 149 amends and clarifies the accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. SFAS No. 149 is generally effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003. The adoption of SFAS No. 149 did not have a material affect on the Company's results of operations or financial position.

1. BASIS OF PRESENTATION (CONTINUED)

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. SFAS No. 150 requires that certain financial instruments, which under previous guidance were accounted for as equity, must now be accounted for as liabilities. The financial instruments affected include mandatorily redeemable stock, certain financial instruments that require or may require the issuer to buy back some of its shares in exchange for cash or other assets and certain obligations that can be settled with shares of stock. For the Company, the Statement was effective for instruments entered into or modified after May 31, 2003 and otherwise will be effective as of January 1, 2004, except for mandatorily redeemable financial instruments. For certain mandatorily redeemable financial instruments, the Statement will be effective for the Company on January 1, 2005. The effective date has been deferred indefinitely for certain other types of mandatorily redeemable financial instruments. The Company currently does not have any financial instruments that are within the scope of this Statement.

RECLASSIFICATIONS

Certain reclassifications have been made to prior year amounts to conform to the current year's presentation. These reclassifications had no effect on net loss or shareholders' equity.

2. EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is based on the weighted average number of shares of common stock, and with respect to diluted earnings per share, also includes the effect of all dilutive potential common stock outstanding. Dilutive potential common stock results from dilutive stock options and warrants. The effect of such dilutive potential common stock on net income per share is computed using the treasury stock method. Dilutive potential common stock has no effect on net loss per share.

The following table sets forth the computations of loss per share for the three-month periods ended March 31:

3. BUSINESS SEGMENTS

The Company is a worldwide designer, producer and marketer of electronic entertainment devices. The Company has two reportable segments from which it derives its revenues: the Games business that sells product under the Company's Radica(R) and Girl Tech(R) brand names, and the Video Game Accessory ("VGA") business that sells product under the Company's Gamester(R) brand name. The Company also sources certain VGA and other electronic products through third party manufacturers for retailers to sell under their own brands; this is also included in the VGA segment. The reportable segments are strategic businesses that offer different products.

The Company measures segment performance based on net income before interest and other income and income taxes. Inter-segment sales and transfers have been eliminated and are not included in the following table. Certain corporate expenses are managed outside of the operating segments. Corporate expenses consist primarily of costs related to business integration and other general and administrative expenses. All corporate and indirect costs have been apportioned on the basis of corresponding sales and direct costs.

Information by segment for the three months ended March 31, 2004 and 2003 are as follows:

4. GOODWILL

At March 31, 2004 and December 31, 2003, the Company's cost in excess of fair value of assets purchased (goodwill) related to the 1999 acquisition of Leda Media Products Limited, now called Radica UK Limited ("Radica UK"). On June 24, 1999, the Company purchased Radica UK for approximately \$15,970. During the quarter ended June 30, 2000, upon claiming certain breaches of warranty at Radica UK, the Company and the ex-shareholders of Radica UK mutually agreed to cancel certain loan notes such that the purchase price was reduced by \$1,399. The Company recorded goodwill of approximately \$12,100 resulting from the adjusted purchase price. Accumulated amortization related to goodwill of \$2,518 arising prior to the adoption of SFAS No. 142 has been reflected in the gross carrying amount of goodwill as of December 31, 2001.

Effective January 1, 2002, the Company adopted SFAS No. 142, Goodwill and Other Intangible Assets. Goodwill is required to be tested for impairment on an annual basis at the reporting unit level. Furthermore, goodwill is required to be tested on an interim basis if an event or change in circumstances indicates that the asset might be impaired. The goodwill arising from the purchase of Radica UK was allocated to the Video Games Accessories ("VGA") reporting unit. In December 2003, the Company has undertaken goodwill impairment testing to determine whether the goodwill was impaired and the extent of such impairment. After performing this evaluation there was no impairment of goodwill as at December 31, 2003 as the fair value of the reporting unit (as determined using the expected present value of future cash flows) exceeded the carrying amount of the reporting unit (including goodwill). There have been no events since December 31, 2003 which would cause the Company to change this assessment.

5. INVENTORIES

Inventories by major categories are summarized as follows:

	March 31, 2004	December 31, 2003

8. PLEDGE OF ASSETS

At March 31, 2004, the Company's general banking facilities including overdraft and trade facilities were collateralized by leasehold land and buildings and bank balances with an aggregate net book value of \$2,262 and \$2,288, respectively.

9. LITIGATION

On April 4, 2000 a lawsuit was filed by the Lemelson Foundation ("Lemelson") against the Company in Arizona Court for patent infringement. Lemelson claims to be owners of nearly 800 issued and pending patents,

Edgar Filing: RADICA GAMES LTD - Form 6-K

including the patent on Machine Vision and Automatic Identification (Auto ID) operations. The Auto ID operation is used in machines that are part of the Company's bonding and heat-sealing manufacturing processes. Lemelson is contesting that the use of machines that incorporate this patented technology infringes on their IP rights and therefore the Company is obligated to pay a royalty based on the use of this technology. The suit by Lemelson has been stayed pending the outcome of Lemelson vs. Cognex, a similar suit filed by Lemelson, which will have some bearing on the Radica case with Lemelson. On January 23, 2004 a declaratory judgment was given in the Cognex case that the Lemelson's patent claims are invalid. If this judgment is upheld following appeal, assuming an appeal is made, the Company believes that this result is favorable to the Company's defense of the Lemelson lawsuit.

The Company cannot predict the outcome of the Lemelson case or the effect of such litigation on the financial results of the Company. No accrual has been recorded at March 31, 2004 and December 31, 2003 in respect of the Lemelson case or other claims or legal actions, in accordance with SFAS No. 5 Accounting for Contingencies. Management does not believe that the ultimate disposition of the other matters will have a material adverse effect on the Company's consolidated financial position, results of operations or liquidity.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

----- AND RESULTS OF OPERATIONS -----

The following discussion should be read in conjunction with the attached financial statements and notes thereto, and with the audited financial statements, accounting policies and notes included in the Company's Annual Report on Form 20-F for the year ended December 31, 2003, as filed with the United States Securities and Exchange Commission.

DESCRIPTION OF BUSINESS

Founded in 1983 by Americans living in Hong Kong, Radica Games Limited (NASDAQ: RADA) was incorporated in Bermuda in 1993. We are headquartered in Hong Kong and manufacture our products in our factory in southern China. In 1994 we went public when our shares began trading on the Nasdaq National Market.

We manufacture and market a diverse line of electronic entertainment products covering multiple product lines - electronic games carrying the Radica, Play TV(R) and Arcade Legends(TM) brand names, Gamester(R) branded video game controllers & accessories, girls' lifestyle electronics carrying the Girl Tech(R) and Barbie(TM) brand names and two new categories being introduced in 2004, a doll line carrying the Twinkleberries(TM) brand name and a remote control car line carrying the Nitro Battlerz(TM) brand name. Our factory also manufactures for other companies in the electronic game industry and provides sourcing services for retail customers. We market our products through subsidiaries in the United States, the United Kingdom, Canada and Hong Kong. Our largest market is in the United States where in 2003 we had the second largest market share in the electronic handheld and tabletop electronic games categories according to industry data source, The NPD Group, Inc.

RESULTS OF OPERATIONS

Edgar Filing: RADICA GAMES LTD - Form 6-K

The following table sets forth items from our Consolidated Statements of Operations as a percentage of net revenues:

	Three months ended March 31,	
	2004	2003
Net sales	100.0%	100.0%
Cost of sales	(57.6%)	(62.0%)
Gross Margin	42.4%	38.0%
Selling, general and administrative expenses	(41.1%)	(32.9%)
Research and development	(7.6%)	(5.7%)
Depreciation and amortization	(3.5%)	(3.7%)
Operating loss	(9.8%)	(4.3%)
Net interest and other income	1.9%	0.7%
Foreign currency (loss) gain, net	(0.3%)	0.0%
Loss before income taxes	(8.2%)	(3.6%)
Provision for income taxes	(1.0%)	(0.2%)
Net loss	(9.2%)	(3.8%)

We reported a net loss for the first quarter of \$1.1 million or \$0.06 per diluted share compared to a net loss of \$0.6 million or \$0.03 per diluted share in the first quarter of 2003.

Summary of sales achieved from each category of products:

	Three months ended March 31,		
	2004		2003
Product Lines	% of Net Sales Value	Net Sales Value	% of Net Sales Value
(US dollars in thousands)			
Electronic Games	53.7%	\$ 6,512	51.5%
Youth Electronics	16.3%	1,978	10.4%
VGA	16.4%	1,992	20.2%
Manufacturing Services	13.6%	1,643	17.9%
Total	100.0%	\$ 12,125	100.0%

Gross profit margin for the first quarter of 2004 was 42.4% compared to 38.0% in the first quarter of 2003 due to the decrease of lower margin Manufacturing Services business, together with improved margin in other product lines. In the first quarter of 2004, the continued movement away from our lower margin Manufacturing Services business resulted in a \$1.2 million reduction in Manufacturing Services sales compared to the first quarter of 2003.

Edgar Filing: RADICA GAMES LTD - Form 6-K

Total sales of Radica Brands (excluding Manufacturing Services) for the quarter decreased by 20.5% to \$10.5 million from \$13.2 million due to a reluctance of certain major retailers to take in inventory during January and February. Video Game Accessories ("VGA") sales were down by 38.4% compared to the first quarter of last year due to the soft VGA retail markets. A 21.2% decline in Electronics Games sales was partially offset by sales growth of 17.9% in Youth Electronics sales. The decrease in Electronics Games sales was largely due to \$1.0 million in Q1 2003 sales of our handheld Tetris game to Avon that did not recur in Q1 2004.

Operating expenses decreased to \$6.3 million for the quarter from \$6.8 million in the first quarter of 2003. The decrease was mainly due to a reduction of depreciation and amortization costs combined with lower variable costs.

The following table shows the major operating expenses:

(US dollars in millions)	Three months ended March 31,	
	2004	2003
Advertising expenses	0.5	0.7
Other selling and promotion expenses	0.5	0.7
Indirect salaries and bonus	2.0	2.0
Other general & administrative expenses	2.0	1.9
Research and development expenses	0.9	0.9
Depreciation and amortization	0.4	0.6

LIQUIDITY AND CAPITAL RESOURCES

Our cash and investment securities totaled \$46.0 million at March 31, 2004. We had cash and cash equivalents of \$17.9 million at March 31, 2004. We generated \$4.0 million in cash from operating activities during the first quarter of 2004, up from \$3.0 million generated in the first quarter of 2003. This increase from the same period of last year was primarily the result of higher accounts receivable collections. Our inventories increased to \$18.0 million from \$15.5 million at December 31, 2003 but were lower than March 31, 2003 inventories by \$1.0 million. This was due to a combination of lower inventory build compared with the same period last year and large inventory write-downs taken in the fourth quarter of 2003.

Accounts receivables were \$4.6 million at March 31, 2004 as compared to \$15.4 million at December 31, 2003 and \$5.5 million at March 31, 2003. The \$0.9 million drop in receivables compared at March 31, 2003 was due to lower comparative first quarter sales. Our business is inherently seasonal. Normally our sales have been lowest during the first and second quarters. Receivables have been lowest during the succeeding first and second quarters.

15

Current liabilities were \$10.6 million at March 31, 2004, down \$2.5 million from the \$13.1 reported at December 31, 2003. As a result of lower sales in the first quarter of 2004 from the fourth quarter of 2003, accrued warranty, royalty and advertising expenses decreased from December 31, 2003.

Cash used from investing activities was \$0.3 million, up from a net utilization of \$0.2 million in the first quarter of 2003. The increase was the result of purchases of property, plant and machinery during the quarter.

During the first quarter of 2004, \$0.7 million in funds were received from stock options exercised. This was offset by \$0.7 million in dividends paid. On January 5, 2004, we declared a dividend of 4 cents per share which was paid on January

Edgar Filing: RADICA GAMES LTD - Form 6-K

30, 2004. On March 29, 2004, we declared a second dividend of 4 cents per share which was paid on April 30, 2004.

At March 31, 2004, we had net assets of \$87.5 million compared with \$89.2 million at December 31, 2003. Our business generates a significant majority of its cash from its normal operations but seasonal cash requirements have been met with the use of short-term borrowings, which included borrowings under secured lines of credit. We had no derivative instruments or off-balance sheet financing activities during the quarter ended March 31, 2004. We believe that our existing cash and cash equivalents and cash generated from operations are sufficient to satisfy the current anticipated working capital needs of our core business.

Management believes that our existing credit lines are sufficient to meet future short-term cash demands, including seasonal build up of inventory. We fund our operations and liquidity needs primarily through cash flow from operations, as well as utilizing borrowings under secured and unsecured credit facilities when needed. During 2004, we expect to continue to fund our working capital needs through operations and the revolving credit facility and we believe that the funds are available to meet our needs. However, unforeseen circumstances such as severe softness in, or a collapse of, the retail environment may result in a significant decline in revenues and operating results, thereby causing us to exhaust our cash resources. If this were to occur, we may be required to seek alternative financing of working capital.

CRITICAL ACCOUNTING POLICIES

For a discussion of our critical accounting policies, see "Item 5, operating and financial review and prospects" in our 2003 Form 20-F.

RECENTLY ISSUED ACCOUNTING STANDARDS

A discussion of certain recently issued accounting standards and the estimated impact on us is set out in note 1 to the condensed consolidated financial statements.

RISK FACTORS

For a discussion of our risk factors, see "Item 3. Key Information - Risk Factors" in our Form 20-F and "Item 5. Operating and Financial Review and Prospects" in our 2003 Form 20-F. Additional risk factors:

Foreign Currency Risk

Efforts to increase worldwide distribution have made our business increasingly global, with international revenue representing 35% of total revenue in the first three months of 2004. We expect that international sales may continue to represent a significant portion of our revenue. Fluctuations in foreign currencies may have an impact on our financial results, although to date the impact has not been material. We are prepared to hedge against fluctuations in foreign currencies if the exposure is material, although we have not engaged in hedging activities to date.

We have net monetary asset and liability balances in foreign currencies other than the U.S. dollar, including the Pound Sterling, the Canadian dollar, the Hong Kong dollar and the RMB. International distribution and sales revenues usually are made by our subsidiaries in the United States, United Kingdom and Canada, and are denominated typically in their local currency. However, the expenses incurred by these subsidiaries are also denominated in the local currency. As a result, our operating results are exposed to changes in exchange rates between the United States Dollar and the Pound Sterling or the Canadian dollar. Our operating results could also be affected by changes in the exchange rate between the US dollar and the RMB if the Chinese currency were to stop

being pegged to the US dollar.

FORWARD-LOOKING STATEMENTS AND CAUTIONARY FACTORS THAT MAY AFFECT FUTURE RESULTS (CAUTIONARY STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995)

Certain written and oral statements made or incorporated by reference from time to time by us or our representatives in this Form 6-K, other filings or reports filed with the Securities and Exchange Commission, press releases, conferences, or otherwise, contain certain "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. You can identify these forward-looking statements by the fact they use words such as "should", "expect", "anticipate", "estimate", "may", "will", "project", "guidance", "intend", "plan", "believe" and other words and terms of similar meaning and expression in connection with any discussion of future operating or financial performance. One can also identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. Such forward-looking statements are based on current expectations and involve inherent risks and uncertainties, including factors that could delay, divert or change any of them, or depend on the outcome of contingencies such as legal proceedings. Management cautions you that forward-looking statements involve risks and uncertainties that may cause actual results to differ materially from the forward-looking statements. For a more complete discussion of our risk factors, you are referred to the sections in our Form 20-F and Form 6-K identified above under the caption "Risk Factors". The forward-looking statements made in this Form 6-K speak only as of the date on which the statements are made.
