REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Retirement Plans Administrative Committee  
Fulton Financial Corporation  
Profit Sharing Plan  
Lancaster, Pennsylvania

We have audited the accompanying statements of net assets available for benefits of Fulton Financial Corporation Profit Sharing Plan (the Plan) as of December 31, 2004 and 2003 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003 and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2004 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2004 financial statements taken as a whole.

PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS  
December 31, 2004 and 2003

**NOTE 1 DESCRIPTION OF PLAN**

The following description of the Fulton Financial Corporation Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan which covers substantially all eligible employees of Fulton Financial Corporation (Company) and its wholly owned subsidiaries that are not covered under the Company's defined benefit and 401(k) plans and who have either (1) completed one year of service upon attaining age 21; or (2) have completed three years of service. The Plan provides for retirement, death, and disability benefits. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

In connection with the mergers of certain qualified defined contribution plans into the Plan, the Plan shall receive and accept certain promissory notes from unpaid loans previously made by these qualified plans to participants.

Contributions: Participants in the Plan are classified as either Category A or Category B participants. In general, a Category A participant is a participant who was employed by the Corporation prior to January 1, 1996. A Category B participant is generally an employee of the Corporation that was hired after December 31, 1995. Special rules apply in the case of employees who transfer to and from affiliates that do not participate in this Plan.

Employer profit sharing contributions are made to the Plan equal to a specific percentage of participants' compensation for the year. For Category A participants, the contribution percentage is 15% of compensation; for Category B participants, the contribution percentage is 10% of compensation. In any particular year, the Plan sponsor has the option of determining a different contribution amount.

Eligible employees may elect to make contributions up to a maximum dollar amount prescribed by law. Any participant who has attained age 50 by the end of the Plan year may make catch-up contributions in accordance with Code Section 414(v).

Participant Accounts: Each participant's account is credited with the participant's contribution, an allocation of the Company contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

PROFIT SHARING PLAN  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2004 and 2003

**NOTE 1 DESCRIPTION OF PLAN (Continued)**

Vesting: Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of the accounts is based on years of service. Participants become 100% vested after completion of five years of credited service.

Payment of Benefits: Upon termination of service, death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. Benefit payments are distributed as either a lump sum or in installment payments over a period. The period over which benefits are paid is not to exceed either the life expectancy of the participant or the joint life expectancies of the participant and the participant's beneficiary.

Forfeitures: Forfeitures represent the nonvested portion of the participant's account plus earnings thereon that are not fully distributable to participants who terminate employment before they are 100% vested. Forfeitures are used to reduce the future contributions to the Plan. As of December 31, 2004 and 2003, there were no forfeitures available. Forfeitures used to reduce the employer contribution for the plan year ended December 31, 2004 and 2003 were \$292,710 and \$282,326, respectively.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Accounting Method: The Plan's financial statements are prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles.

Investments: The investments held by the Plan are shown at fair value. Securities which are traded on national securities exchange are valued at the last reported sales price on the last business day of the year. The Plan's investments in common trust funds are valued at the aggregate of the fair values of the underlying securities.

Purchases and sales of securities are reflected on a trade date basis.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

**NOTE 2 SUMMARY OF ACCOUNTING POLICIES (Continued)**

**Risk and Uncertainties:** The Plan provides for various investment options including any combination of certain mutual funds, common stock of the Company, or common/collective trust funds. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

**Payment of Benefits:** Benefits are recorded when paid.

**Concentration of Credit Risk:** At December 31, 2004 and 2003, approximately 23% and 22%, respectively, of the Plan's assets were invested in Fulton Financial Corporation common stock.

**NOTE 3 RIGHTS UPON PLAN TERMINATION**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.
