We have not included separate financial statements of any of the co-registrant statutory trusts in this prospectus and we will not prepare separate financial statements of any of these trusts in the future. We do not consider that such financial statements would be material to holders of the capital securities of a particular trust because Fulton Financial will fully, irrevocably and unconditionally guarantee, on a subordinated basis, payments on those capital securities to the extent described in this prospectus and the applicable prospectus supplement and each of the trusts is a newly-formed special purpose entity, has no operating history or independent operations, is not engaged in and does not propose to engage in any activity other than holding as its assets our debt securities, issuing, in the future, its capital securities to investors and common securities to Fulton Financial and engaging in incidental activities. Fulton Financial does not expect that any of these trusts will file reports, proxy statements and other information under the Exchange Act with the SEC.

DESCRIPTION OF SUBORDINATED NOTES

The subordinated notes will be general unsecured subordinated obligations of Fulton Financial. The indenture to be executed between Fulton Financial and Wilmington Trust Company, as Trustee, referred to as the indenture, does not limit the amount of subordinated notes that we may issue from time to time in one or more series. The indenture provides that subordinated notes may be issued up to the principal amount authorized by us from time to time. Unless otherwise specified in the prospectus supplement for a particular series of subordinated notes, we may reopen a previous issue of a series of subordinated notes and issue additional subordinated notes of that series.

Table of Contents

We will specify in the prospectus supplement relating to a particular series of subordinated notes being offered the terms relating to the offering. The terms may include:

the form of the subordinated notes of the series;

the title of the subordinated notes of the series (which shall distinguish the subordinated notes of the series from all other subordinated notes);

any limit upon the aggregate principal amount of the subordinated notes of the series which may be authenticated and delivered under the indenture (except for subordinated notes authenticated and delivered upon registration of transfer of, or in exchange for, or in lieu of, other subordinated notes of the same series pursuant to article two of the indenture);

the date or dates on which such subordinated notes may be issued;

the date or dates on which the subordinated notes will mature;

the date or dates, which may be serial, on which the principal of, and premium, if any, on the subordinated notes of such series shall be payable;

the rate or rates, or the method of determination thereof, at which the subordinated notes of such series shall bear interest, if any, the date or dates from which such interest shall accrue and the interest payment dates on which such interest shall be payable;

the place or places where the principal of, and premium, if any, and interest, if any, on subordinated notes of the series shall be payable;

if other than denominations of 1,000 and any integral multiple thereof, in dollars or the foreign currency or currency unit in which the subordinated notes of such series are denominated, the denominations in which subordinated notes of such series shall be issuable;

if other than the principal amount thereof, the portion of the principal amount of subordinated notes of such series which shall be payable upon declaration of acceleration of the maturity date thereof or provable in bankruptcy;

whether payment of the principal of, premium, if any, and interest, if any, on the subordinated notes of such series shall be with or without deduction for taxes, assessments or governmental charges, and with or without reimbursement of taxes, assessments or governmental charges paid by noteholders;

any events of default with respect to the subordinated notes of such series;

in case the subordinated notes of such series do not bear interest, the applicable dates for providing notice to noteholders;

a description of any provisions providing for redemption, exchange or conversion of the subordinated notes of the series at Fulton Financial's option, a noteholder's option or otherwise, and the terms and provisions of such redemption, exchange or conversion;

the currency or currencies, or currency unit or currency units, whether in dollars or a foreign currency or currency unit, in which the principal of, and premium, if any, and interest, if any, on the subordinated notes of

such series or any other amounts payable with respect thereto will be payable, and whether such principal, premium, if any, and interest, if any, payable otherwise than in dollars

Table of Contents

may, at the option of the noteholders of any subordinated notes of such series, also be payable in dollars; the provisions for the satisfaction and discharge of the indebtedness represented by the subordinated notes of such series;

whether the subordinated notes of such series are issuable as a global note and, in such case, the identity of the depositary for such series;

if the amount of payment of principal of (and premium, if any) or interest on the subordinated notes of such series may be determined with reference to an index, formula or other method based on a coin, currency or currency unit other than that in which the subordinated notes are stated to be payable or otherwise, the manner in which such amounts shall be determined;

any other terms of such series (which terms shall not be inconsistent with the provisions of the indenture); and

any trustees, paying agents, or registrars with respect to the subordinated notes of such series.

We intend for any subordinated notes offered to qualify (subject to applicable limitations) as Tier 2 capital under Federal Reserve Board interpretations.

If any of the subordinated notes are sold for, or if the principal of or any interest on any series of subordinated notes is payable in, foreign currencies or foreign currency units, the relevant restrictions, elections, tax consequences, specific terms and other information will be set forth in the applicable prospectus supplement.

Each series of subordinated notes will be issued in fully registered form unless the prospectus supplement provides otherwise.

The principal of, and premium and interest on, subordinated notes will be payable at the place of payment designated for such securities and stated in the prospectus supplement. Fulton Financial also has the right to make interest payments by check mailed to the holder at the holder's registered address. The principal of, and premium, if any, and interest on any subordinated notes in other forms will be payable in the manner and at the place or places as may be designated by Fulton Financial and specified in the prospectus supplement.

You may exchange or transfer the subordinated notes at the corporate trust office of the trustee for the series of subordinated notes or at any other office or agency maintained by us for those purposes. We will not require payment of a service charge for any transfer or exchange of the subordinated notes, but Fulton Financial may require payment of a sum sufficient to cover any applicable tax or other governmental charge.

Unless the prospectus supplement provides otherwise, each series of the subordinated notes will be issued only in denominations of \$1,000 or any integral multiple thereof and payable in dollars. Under the indenture, however, subordinated notes may be issued in any denomination and payable in a foreign currency or currency unit.

We may issue subordinated notes with original issue discount. Original issue discount subordinated notes bear no interest or bear interest at below-market rates and will be sold below their stated principal amount. The prospectus supplement will describe any special federal income tax consequences and other special considerations applicable to any securities issued with original issue discount.

Table of Contents

The subordinated notes will rank equally with all other unsecured subordinated indebtedness of Fulton Financial, provided that the subordinated notes will rank senior to the junior subordinated debentures Fulton Financial issues to its capital trust subsidiaries. The subordinated notes will be subordinated in right of payment to all senior indebtedness (as defined in the applicable prospectus supplement) of Fulton Financial. The subordinated notes will rank senior to our obligations relating to the junior subordinated notes issued in connection with trust preferred securities of our special purpose entity subsidiaries. The subordinated notes will effectively be subordinated to all of the existing and future liabilities and obligations of our subsidiaries, including the deposit liabilities and claims of other creditors of our subsidiary banks.

Upon any payment or distribution of our assets to creditors upon our liquidation, dissolution, winding up, reorganization, assignment for the benefit of our creditors, marshaling of our assets or any bankruptcy, insolvency, debt restructuring or similar proceedings in connection with any insolvency or bankruptcy proceeding involving us, the allocable amounts (as defined in the applicable prospectus supplement) in respect of the senior indebtedness must be paid in full before the holders of the subordinated notes will be entitled to receive or retain any payment in respect of the subordinated notes.

In addition, Fulton Financial may not make any payment on the subordinated notes of a series in the event:

Fulton Financial has failed to make full payment of the principal of, or premium, if any, interest or any other payment due on any senior indebtedness of Fulton Financial, or

the maturity of the subordinated notes of such series has been accelerated, until the holders of all senior indebtedness of Fulton Financial outstanding at the time of such acceleration receive payment, in full, of all allocable amounts due on or in respect of such senior indebtedness (including any amounts due upon acceleration).
