Item 1.01. Entry into a Material Definitive Agreement

On January 8, 2008, we entered into an Assignment Agreement with Gujarat State Petroleum Corporation Limited (“GSPC”) pursuant to which we assigned all our rights to receive a 30% participating interest in two exploration blocks awarded by the Arab Republic of Egypt in exchange for an option, also entered into on January 8, 2008, exercisable on or before April 30, 2008 to reacquire all or a portion of those rights. Our rights in the two exploration blocks arise out of a July 2006 joint study and bid agreement we entered into with GSPC and Alkor Petroo Limited to participate in the Egyptian government’s bid solicitation process related to six exploration blocks. The bid partners subsequently bid and won the right to explore two of the blocks, GANOPE Block 8 onshore (also known as South Diyur) and E-GAS Block 6 offshore (also known as N. Hap’y).

We previously provided GSPC with non-refundable bank guarantees totaling US\$1.17 million, approximately 2% of our share of the joint bidders’ total financial commitments for conducting the first exploration phase on the two exploration blocks. In the event we exercise the option, we will be required to pay to GSPC our pro rata share of all costs and expenses from the effective date of the option agreement (December 31, 2007). We will also have to provide to GSPC bank guarantees equal to the remaining 98%, based upon our share of the rights we elect to reacquire, of the total financial commitment for conducting the first exploration phase on the two exploration blocks. If we elected to participate to the full 30%, these additional bank guarantees would amount to approximately US\$56.4 million. In addition to the non-refundable US\$1.17 million of bank guarantees, our oil and gas assets included at December 31, 2007 approximately US\$2.4 million relating to our interests in the two exploration blocks which will be carried forward as an investment in the option pending our determination whether we will exercise any portion of the option.
