

Edgar Filing: INTRICON CORP - Form 10-K/A

INTRICON CORP
Form 10-K/A
June 28, 2005

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-K/A

- ANNUAL REPORT PURSUANT TO SECTION 13 or 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended December 31, 2004
or
- TRANSITION REPORT PURSUANT TO SECTION 13 or 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____.

Commission File Number 1-5005

INTRICON CORPORATION
(Exact name of registrant as specified in its charter)

Pennsylvania ----- (State or other jurisdiction of Incorporation or organization)	23-1069060 ----- (I.R.S. Employer Identification No.)
--	---

1260 Red Fox Road Arden Hills, Minnesota ----- (Address of principal executive offices)	55112 ----- (Zip Code)
--	------------------------------

Registrant's telephone number, including area code (651) 636-9770

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
-----	-----
Common Shares, \$1 par value per share	American Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is an accelerated filer (as defined in Exchange Act Rule 12b-2 of the Act) Yes No

The aggregate market value of the voting common shares held by non-affiliates of the registrant on June 30, 2004 was \$7,080,846. Common shares held by each officer and director and by each person who owns 10% or more of the outstanding common shares have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes.

Edgar Filing: INTRICON CORP - Form 10-K/A

The number of outstanding shares of the registrant's common shares on March 18, 2005 was 5,129,214.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Company's amended 2004 annual report to shareholders are incorporated by reference into Part II of this report. Portions of the Company's definitive proxy statement for the 2005 annual meeting of shareholders are incorporated by reference into Part III of this report; provided, however, that the Compensation Committee Report, The Audit committee Report, the graph showing the performance of the Company's stock and any other information in such Proxy Statement that is not required to be included in this Annual Report on Form 10-K, shall not be deemed to be incorporated herein or filed for the purposes of the Securities Act of 1933 or the Securities Exchange Act of 1934. Except for the parts of such documents that have been specifically incorporated herein by reference, such documents shall not be deemed "filed" for the purposes of this report.

2

EXPLANATORY NOTE

We are filing this Amendment No. 1 to our Annual Report on Form 10-K for the fiscal year ended December 31, 2004 as filed with the Securities and Exchange Commission (SEC) on April 1, 2005 to reflect the restatement of the Company's financial statements, as discussed in Note 2 to Consolidated Financial Statements, and other information related to such restated financial statements. Except for information contained or incorporated by reference in Items 1, 6, 7, 8, 9A, and 15 or described herein, no other information included in the original Annual Report on Form 10-K is amended by this Form 10-K/A. We are also updating the table of contents, the signature page and certifications contained in exhibits 31.1, 31.2, 32.1 and 32.2.

Items not being amended are presented for the convenience of the reader only. This report continues to be presented as of the date of the original Annual Report on Form 10-K and the Company has not updated the disclosure in this report to a later date. Therefore, this amendment should be read together with other documents that the Company has filed with the Securities and Exchange Commission subsequent to the filing of the original Annual Report on Form 10-K. Information in such reports and documents updates and supersedes certain information contained in this amendment.

PART I

ITEM 1. Business

IntriCon Corporation, formerly Selas Corporation of America (together with its subsidiaries referred herein as the "Company") is an international firm with operations and sales that engages in the design, development, engineering and manufacturing of micro-miniature components, systems and molded plastic parts primarily for the hearing instrument, electronics, telecommunications, computer

Edgar Filing: INTRICON CORP - Form 10-K/A

and medical equipment industries. The Company, headquartered in Arden Hills, Minnesota has facilities in Minnesota, California, Singapore, and Germany, and operates directly or through subsidiaries. Within discontinued operations, the Company has facilities in Pennsylvania, Japan and Germany. The Company is a Pennsylvania corporation that was founded in 1930.

Currently, the Company has one operating segment, its precision miniature medical and electronics products segment. In the past the Company had operated three segments, precision miniature medical and electronics products segment, heat technology segment, and tire holders, lifts and related products segment. Since 2001, the Company began focusing on its precision miniature medical and electronics products segment and developing plans to exit the businesses that comprised the heat technology segment, and tire holders, lifts and related products segment. The Company exited the tire holders, lifts and related products business in 2003 and the heat technology segment in the first quarter of 2005. For fiscal year 2004, the Company classified its heat technology segment as discontinued operations.

RECENT DEVELOPMENTS

Sale of Burners and Components Business - In the first quarter of 2005, the Company sold the remainder of its Heat Technology segment. The total purchase price was approximately \$3.6 million, subject to adjustment, of which approximately \$2.7 million was paid in cash and \$900,000 was paid in the form of a subordinated promissory note. This segment consisted of the operating assets and liabilities of Selas Corporation of America (Dresher, Pennsylvania), Nippon Selas (Tokyo, Japan) and Selas Waermetechneik GmbH (Ratingen, Germany). This business was classified as a discontinued operation in 2004. For more detailed information, see note 2 to the Consolidated Financial Statements included herein.

With the completed sale of the burner and components business, the Company has successfully completed the shift from its traditional business segments to the emerging prospects in its precision miniature medical and electronic products business. To reflect the Company's redefined focus, it has changed its name to IntriCon Corporation.

MAJOR EVENTS IN 2004

Sale of Dresher Property - On June 23, 2004, the Company completed the sale of its property in Dresher, PA, to BT Limekiln LP, a Pennsylvania limited partnership, for approximately \$3.6 million in cash, net of expenses. A gain of \$3.1 million was recognized on the sale. The property was the headquarters for the Company's discontinued Heat Technology business and was previously classified as an asset held for sale on the Company's consolidated balance sheet. In connection with the sale, the Company leased back the property for a term of nine months at a base rental of \$20,000 per month, plus expenses. Proceeds of the sale were used to reduce the Company's outstanding bank debt.

Reduction of Overhead - In 2004, the Company experienced weakness in the hearing health markets. The weakness was due to competitive pricing pressures, customer inventory management programs resulting in more just-in-time inventory, and unfavorable legislation in the German market reducing the reimbursement amount for the purchase of hearing aids. These factors resulted

in both reduced sales and lower product margins. In an effort to return to operating profitability, the Company took steps during 2004 to reduce its overhead. These steps included the elimination of several management and other

Edgar Filing: INTRICON CORP - Form 10-K/A

support positions, resulting in an annualized savings of over \$3 million.

Reacquisition of Selas Waermettechnik - In the third quarter of 2004, the Company reacquired Selas Waermettechnik GmbH, which was previously part of Selas SAS. Selas SAS filed insolvency in July of 2003. Since that time, Selas Waermettechnik GmbH was under the control of a French court administrator. The Company owned the rights to the Selas name and the technology for the European market. This enabled the Company to reacquire the subsidiary for the minimal amount of \$10,500 and record an extraordinary gain within discontinued operations of approximately \$684,000 on the acquisition. The Company sold this subsidiary during the first quarter of 2005, as part of its Burners and Components business; therefore it has classified the subsidiary as a discontinued operation. See note 3 of the consolidated financial statements for further information regarding this issue.

MAJOR EVENTS IN 2003

SALE OF DEUER MANUFACTURING - In July 2003, the Company completed the planned sale of its Tire Holders, Lifts and Related Products segment. This segment consisted of one wholly owned subsidiary, Deuer Manufacturing Inc. (Deuer), which operated on a stand-alone basis. In 2003, prior to its sale, Deuer generated approximately \$8.5 million of revenue and \$8,000 in net income. The net purchase price of \$6.6 million was determined by negotiations between the parties. The Company recognized a gain of approximately \$1.5 million, net of tax, on the transaction. Proceeds from the transaction were used primarily to reduce the Company's outstanding bank debt. The Company classified the subsidiary as a discontinued operation beginning in December 2002. For more detailed information, see note 2 to the Consolidated Financial Statements included herein.

INSOLVENCY OF FRENCH SUBSIDIARY - Selas SAS, the Company's French subsidiary, filed insolvency in France in July 2003 after four consecutive quarters of substantial losses. Under French law, Selas SAS is now under the control of a French insolvency court administrator. Because Selas SAS and its subsidiaries are no longer under the control of the Company, its results of operations are excluded from the Company's continuing operations and the Company's historical financial information has been restated to reflect these subsidiaries as discontinued operations. For more detailed information, see note 2 to the Consolidated Financial Statements included herein.

FORWARD-LOOKING STATEMENTS

Certain statements included or incorporated by reference in this Annual Report on Form 10-K or the Company's other public filings and releases, which are not historical facts, are forward-looking statements (as such term is defined in the Securities Exchange Act of 1934, and the regulations thereunder), which are intended to be covered by the safe harbors created thereby. These statements may include, but are not limited to:

- o statements in "Business," "Legal Proceedings" and "Risk Factors", such as the Company's ability to focus on the precision miniature medical and electronics products business, the ability to compete, the adequacy of insurance coverage, and potential increase in demand for the Company's products; and
- o statements in "Management's Discussion and Analysis of Financial Condition and Results of Operations" statements in "Notes to the Consolidated Financial Statements," which are incorporated by reference into this Annual Report on Form 10-K from the 2004 Annual Report to Shareholders, such as the potential impact of new digital products to gain market share, recovery of the telecommunications market, potential growth in the Company's medical profits, future gross profit margins, future cost

savings, net operating loss carryforwards, the impact of future cash flows, the ability to maintain financial covenants, the ability to meet working capital requirements, future level of funding of employee benefit plans, the ability to negotiate extension on purchases, the impact of foreign currencies and litigation.

Forward-looking statements also include, without limitation, statements as to the Company's expected future results of operations and growth, the Company's business strategy, the expected benefits of reduction in employee headcount, the expected increases in operating efficiencies, anticipated trends in the hearing health market related to the Company's precision miniature medical and electronic products business, estimates of goodwill impairments and amortization expense of other intangible assets, the effects of changes in accounting pronouncements, the effects of litigation and the amount of insurance coverage, and statements as to trends or the Company's or management's beliefs, expectations and opinions. Forward-looking statements are subject to risks and uncertainties and may be affected by various factors that may cause actual results to differ materially from those in the forward-looking statements. In addition to the factors discussed in this Annual Report on Form 10-K, certain risks, uncertainties and other factors can cause actual results and developments to be materially different from those expressed or implied by such forward-looking statements, including, without limitation, the following:

- o the ability to implement the Company's business strategy;
- o risks arising in connection with the insolvency of Selas SAS and potential liabilities and actions arising in connection therewith;
- o the volume and timing of orders received by the Company;
- o changes in estimated future cash flows;
- o foreign currency movements in markets the Company services;
- o changes in the global economy and financial markets;
- o changes in the mix of products sold;
- o acceptance of the Company's products;
- o competitive pricing pressures;
- o pending and potential future litigation;
- o availability of electronic components for the Company's products;
- o ability to create and market products in a timely manner;
- o ability to pay debt when it comes due; and
- o risks associated with terrorist attacks, war and threats of attacks and wars.

The Company does not undertake to update any forward-looking statement that may be made from time to time by or on behalf of the Company.

RISK FACTORS

You should carefully consider the risks described below. If any of the risks actually occur, the Company's business, financial condition or results of future operations could be materially adversely affected. This Annual Report on Form 10-K contains forward-looking statements that involve risk and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of many factors, including the risks faced by the Company described below and elsewhere in this Annual Report on Form 10-K.

THE COMPANY HAS EXPERIENCED AND EXPECTS TO CONTINUE TO EXPERIENCE FLUCTUATIONS IN ITS RESULTS OF OPERATIONS, WHICH COULD ADVERSELY AFFECT THE COMPANY.

Factors that affect the Company's results of operations include, but are not

Edgar Filing: INTRICON CORP - Form 10-K/A

limited to, the volume and timing of orders received, changes in the global economy and financial markets, changes in the mix of products sold, market acceptance of the Company's and its customer's products, competitive pricing pressures, global currency valuations, the availability of electronic components that the Company purchases from suppliers, the Company's ability to meet increasing demand, the Company's ability to introduce new products on

7

a timely basis, the timing of new product announcements and introductions by the Company or its competitors, changing customer requirements, delays in new product qualifications, and the timing and extent of research and development expenses. These factors have caused and may continue to cause the Company to experience material fluctuations in operating results on a quarterly and/or annual basis. These fluctuations could materially adversely affect the Company's business, financial condition and results of operations, which in turn, could adversely affect the price of the Company's common stock.

IF THE COMPANY'S PRECISION MINIATURE MEDICAL AND ELECTRONIC PRODUCTS BUSINESS IS UNABLE TO CONTINUE TO DEVELOP NEW PRODUCTS THAT ARE INEXPENSIVE TO MANUFACTURE, THE COMPANY'S RESULTS OF OPERATIONS COULD BE ADVERSELY AFFECTED.

The Company may not be able to continue to achieve its historical profit margins in its precision miniature medical and electronic products business due to advancements in technology. The ability to continue its profit margins is dependent upon the Company's ability to stay competitive by developing products that are technologically advanced and inexpensive to manufacture.

The precision miniature medical and electronic products business has also been affected by unfavorable conditions in the hearing instrument market and the impact of the Asian economic situation. The Company is unable to predict with any certainty when and if these conditions will improve.

THE COMPANY OPERATES IN SINGAPORE AND GERMANY, VARIOUS FACTORS RELATING TO ITS INTERNATIONAL OPERATIONS COULD AFFECT ITS RESULTS OF OPERATIONS.

In 2004, the Company operated in Singapore, Germany, and Japan. Approximately 12 percent of the Company's revenues were derived from these countries in 2004. The Company currently operates in Singapore and Germany. Political or economic instability in these countries could have an adverse impact on the Company's results of operations due to diminished revenues in these countries. The Company's future revenues, costs of operations and profit results could be affected by a number of factors related to the Company's international operations, including changes in foreign currency exchange rates, changes in economic conditions from country to country, changes in a country's political condition, trade protection measures, licensing and other legal requirements and local tax issues. Unanticipated currency fluctuations in the Euro and Singapore Dollar could lead to lower reported consolidated revenues due to the translation of these currencies into U.S. dollars when the Company consolidates its revenues.

THE COMPANY OPERATES IN A HIGHLY COMPETITIVE BUSINESS AND IF THE COMPANY IS UNABLE TO BE COMPETITIVE, ITS FINANCIAL CONDITION COULD BE ADVERSELY AFFECTED.

Several of the Company's competitors have been able to offer more standardized and less technologically advanced hearing products at lower prices. Price competition has had an adverse effect on the Company's sales and margins. There can be no assurance that the Company will be able to maintain or enhance its technical capabilities or compete successfully with its existing and future

Edgar Filing: INTRICON CORP - Form 10-K/A

competitors.

THE COMPANY MAY EXPERIENCE DIFFICULTY IN PAYING ITS DEBT WHEN IT COMES DUE, WHICH COULD LIMIT ITS ABILITY TO OBTAIN FINANCING.

The Company's ability to pay the principal and interest on its indebtedness as it comes due will depend upon its current and future performance. The Company's performance is affected by general economic conditions and by financial, competitive, political, business and other factors. Many of these factors are beyond the Company's control. The Company believes that the amended credit facility combined with funds expected to be generated from

8

operations, the available borrowing capacity through its revolving credit loan facilities, curtailment of the dividend payment and control of capital spending will be sufficient to meet its anticipated cash requirements for operating needs through April 1, 2006. If, however, the Company is unable to renew these facilities in the future, or does not generate sufficient cash or complete such financings on a timely basis, it may be required to seek additional financing or sell equity on terms which may not be as favorable as it could have otherwise obtained. No assurance can be given that any refinancing, additional borrowing or sale of equity will be possible when needed or that the Company will be able to negotiate acceptable terms. In addition, the Company's access to capital is affected by prevailing conditions in the financial and equity capital markets, as well as its own financial condition.

THE COMPANY'S SUCCESS DEPENDS ON ITS SENIOR MANAGEMENT TEAM AND IF THE COMPANY IS NOT ABLE TO RETAIN THEM, IT COULD HAVE A MATERIALLY ADVERSE EFFECT ON THE COMPANY.

The Company is highly dependent upon the continued services and experience of its senior management team, including Mark S. Gorder, the Company's President, Chief Executive Officer and a director. Mr. Gorder is also the President of the Company's Precision Miniature Medical and Electronics Products segment. The Company depends on the services of Mr. Gorder and the other members of its senior management team to, among other things, continue the development and implementation of the Company's business strategies and maintain and develop its client relationships.

THE COMPANY IS SUBJECT TO NUMEROUS ASBESTOS-RELATED LAWSUITS, WHICH COULD ADVERSELY AFFECT THE COMPANY'S FINANCIAL POSITION, RESULTS OF OPERATIONS OR LIQUIDITY.

The Company is a defendant along with a number of other parties in approximately 123 lawsuits as of December 31, 2004, (approximately 101 lawsuits as of December 31, 2003) alleging that plaintiffs have or may have contracted asbestos-related diseases as a result of exposure to asbestos products or equipment containing asbestos sold by one or more named defendants. Due to the noninformative nature of the complaints, the Company does not know whether any of the complaints state valid claims against the Company. Certain carriers have informed the Company that the primary policies for the period August 1, 1970-1973, have been exhausted and that the carriers will no longer provide a defense under those policies. The Company has requested that the carriers substantiate this situation. The Company believes it has additional policies available for other years which have been ignored by the carriers. As settlement payments are applied to all years a litigant was deemed to have been exposed to asbestos, the Company believes when settlement payments are applied to these additional policies, the Company will have availability under the years deemed exhausted. If the Company's insurance policies do not cover the costs and any awards for

Edgar Filing: INTRICON CORP - Form 10-K/A

the asbestos-related lawsuits, the Company will have to use its cash or obtain additional financing to pay the asbestos-related obligations and settlement costs. There is no assurance that the Company will have the cash or be able to obtain additional financings on favorable terms, or at all to pay asbestos related obligations or settlements should they occur. The ultimate outcome of any legal matter cannot be predicted with certainty. In light of the significant uncertainty associated with asbestos lawsuits, there is no guarantee that these lawsuits will not materially adversely affect the Company's financial position, results of operations or liquidity.

THE MARKET PRICE OF THE COMPANY'S COMMON STOCK HAS BEEN AND IS LIKELY TO CONTINUE TO BE VOLATILE, WHICH MAY MAKE IT DIFFICULT FOR SHAREHOLDERS TO RESELL COMMON STOCK WHEN THEY WANT TO AND AT PRICES THEY FIND ATTRACTIVE.

9

The market price of the Company's common stock has been and is likely to be highly volatile, and there has been limited trading volume in the common stock. The common stock market price could be subject to wide fluctuations in response to a variety of factors, including the following:

- o announcements of fluctuations in the Company's or its competitors' operating results;
- o the timing and announcement of sales or acquisitions of assets by the Company or its competitors;
- o changes in estimates or recommendations by securities analysts;
- o adverse or unfavorable publicity about the Company's services or the Company;
- o the commencement of material litigation, or an unfavorable verdict, against the Company;
- o terrorist attacks, war and threats of attacks and war;
- o additions or departures of key personnel; and
- o sales of common stock.

In addition, the stock market in recent years has experienced significant price and volume fluctuations. Such volatility and decline has affected many companies irrespective of, or disproportionately to, the operating performance of these companies. These broad fluctuations and limited trading volume may materially adversely affect the market price of the common stock, and the ability to sell said common stock.

Most of the Company's outstanding shares are available for resale in the public market without restriction. The sale of a large number of these shares could adversely affect the share price and could impair the Company's ability to raise capital through the sale of equity securities or make acquisitions for common stock.

MERGER AND ACQUISITION ACTIVITY IN THE COMPANY'S HEARING HEALTH MARKET HAS RESULTED IN A SMALLER CUSTOMER BASE. RELIANCE ON FEWER CUSTOMERS MAY HAVE AN ADVERSE EFFECT ON THE COMPANY.

Several of the Company's customers in the hearing health market, have undergone mergers or acquisitions, resulting in a smaller customer base with larger customers. If the Company is unable to maintain satisfactory relationships with the reduced customer base, it may adversely affect the company's operating profits and revenue.

UNFAVORABLE LEGISLATION IN THE HEARING HEALTH MARKET MAY DECREASE THE DEMAND FOR THE COMPANY'S PRODUCTS, AND MAY NEGATIVELY IMPACT THE FINANCIAL CONDITION OF THE

Edgar Filing: INTRICON CORP - Form 10-K/A

COMPANY.

In some of the Company's foreign markets government subsidies cover a portion of the cost of hearing aids. A change in legislation that would reduce or eliminate these subsidies could decrease the demand for the Company's hearing health products. This could result in an adverse effect on the Company's operating results. The Company is unable to predict the likelihood of any such legislation.

TERRORIST ATTACKS, WAR AND THREATS OF ATTACKS AND WAR MAY NEGATIVELY IMPACT THE COMPANY'S RESULTS OF OPERATIONS, REVENUE AND COMMON STOCK MARKET PRICE.

Terrorist attacks, war and threats of attacks and war may negatively impact the Company's results of operations, revenue and share price. Recent terrorist attacks in the United States, as well as future events occurring in response or in connection to them, including, without limitation, future terrorist attacks against United States targets and threats of war or actual conflicts involving the United States or its allies, may impact the Company's operations, including affecting its ability to operate its subsidiary's abroad. More generally, any of these events could cause consumer confidence and spending to decrease or result in increased volatility in the economy.

10

They could also result in the deepening of the economic recession in the United States. Any of these occurrences could have a material adverse effect on the Company's operating results, revenue, and may result in the volatility of the market price for the Company's common stock.

"ANTI-TAKEOVER" PROVISIONS MAY MAKE IT MORE DIFFICULT FOR A THIRD PARTY TO ACQUIRE CONTROL OF THE COMPANY, EVEN IF THE CHANGE IN CONTROL WOULD BE BENEFICIAL TO SHAREHOLDERS.

The Company is a Pennsylvania corporation. Anti-takeover provisions in Pennsylvania law and the Company's charter and bylaws could make it more difficult for a third party to acquire control of the Company. These provisions could adversely affect the market price of the common stock and could reduce the amount that shareholders might receive if the Company is sold. For example, the Company's charter provides that the board of directors may issue preferred stock without shareholder approval. In addition, the Company's bylaws provide for a classified board, with each board member serving a staggered three-year term. Directors may be removed only with the approval of the holders of at least two-thirds of all of the shares outstanding and entitled to vote.

IF WE FAIL TO MAINTAIN AN EFFECTIVE SYSTEM OF INTERNAL CONTROLS, WE MAY NOT BE ABLE TO ACCURATELY REPORT OUR FINANCIAL RESULTS OR PREVENT FRAUD. AS A RESULT, CURRENT AND POTENTIAL SHAREHOLDERS AND CUSTOMERS COULD LOSE CONFIDENCE IN OUR FINANCIAL REPORTING, WHICH COULD HARM OUR BUSINESS, THE TRADING PRICE OF OUR STOCK AND OUR ABILITY TO RETAIN OUR CURRENT CUSTOMERS OR OBTAIN NEW CUSTOMERS.

Beginning in fiscal 2004, we began a process to document and evaluate our internal controls over financial reporting in order to satisfy the requirements of Section 404 of the Sarbanes-Oxley Act, which requires annual management assessments of the effectiveness of our internal controls over financial reporting and a report by our independent auditors addressing these assessments. In this regard, management has been dedicating internal resources, has engaged outside consultants and has adopted a detailed work plan to (i) assess and document the adequacy of internal controls over financial reporting, (ii) take steps to improve control processes, where appropriate, (iii) validate through testing that controls are functioning as documented and (iv) implement a

Edgar Filing: INTRICON CORP - Form 10-K/A

continuous reporting and improvement process for internal control over financial reporting. At this time, we are not aware, and our outside auditors have not advised us, of any "material weaknesses" or "significant deficiencies" in our internal controls, as defined in the relevant literature. If we fail to identify and correct any issues in the design or operating effectiveness of internal controls over financial reporting or fail to prevent fraud, current and potential shareholders and customers could lose confidence in our financial reporting, which could harm our business, the trading price of our stock and our ability to retain our current customers and obtain new customers.

11

PRECISION MINIATURE MEDICAL AND ELECTRONIC PRODUCTS

The precision miniature medical and electronics products business represents the continuing operations of the Company. All other businesses are now included in discontinued operations.

Resistance Technology, Inc. ("RTI"), and RTI Tech PTE LTD ("RTI Tech") both wholly-owned subsidiaries of the Company, manufacture microminiature components, systems and molded plastic parts for hearing instrument, medical equipment, electronics, professional audio, telecommunications and computer industry manufacturers. RTI Electronics, Inc. ("RTIE"), a wholly owned subsidiary of the company, has expanded RTI's microminiature components business through the manufacture of thermistors and film capacitors.

Products and Industries Served. RTI is a leading manufacturer and supplier of microminiature electromechanical components to hearing instrument manufacturers. These components consist of volume controls, microphones, trimmer potentiometers and switches. RTI also manufactures hybrid amplifiers and integrated circuit components ("hybrid amplifiers"), along with faceplates for in-the-ear and in-the-canal hearing instruments. Components are offered in a variety of sizes, colors and capacities in order to accommodate a hearing manufacturer's individualized specifications. Sales to hearing instrument manufacturers represented approximately 52% of 2004 annual net sales for the Company's precision miniature medical and electronic products business.

Hearing instruments, which fit behind or in a person's ear to amplify and process sound for a hearing impaired person, generally are composed of four basic parts and several supplemental components for control or fitting purposes. The four basic parts are microphones, amplifier circuits, miniature receivers/speakers and batteries. RTI's hybrid amplifiers are a type of amplifier circuit. Supplemental components include volume controls, trimmer potentiometers, which shape sound frequencies to respond to the particular nature of a person's hearing loss, and switches used to turn the instrument on and off and to go from telephone to normal speech modes. Faceplates and an ear shell molded to fit the user's ear often serve as a housing for hearing instruments. RTI manufactures its components on a short lead-time basis in order to supply "just-in-time" delivery to its customers and, consequently, order backlog amounts are not meaningful.

Using DSP technology, RTI is building a new generation of affordable, high-quality hearing aids and similar amplifier devices. Compared to most products currently on the market, DSP devices have better clarity, attractive pricing points and an improved ability to filter out background noise. Low to moderately-priced DSP hearing aids, like newly introduced line of ClariD Digital ONE(TM) DSP hearing-aid amplifiers, represent the fastest-growing segment in the hearing-aid market.

Edgar Filing: INTRICON CORP - Form 10-K/A

In the medical market, the Company is focused on sales of microelectronics, micromechanical assemblies and high-precision plastic molded components to medical device manufacturers. Targeted customers include medical product manufacturers of portable and lightweight battery powered devices, large AC-powered units often found in clinics and hospitals, as well as a variety of sensors designed to connect a patient to an electronic device.

The medical industry is faced with pressures to reduce the costs of healthcare. RTI offers medical manufacturers the capabilities to design, develop and manufacture components for medical devices that are easier to use, measure with greater accuracy and provide more functions while reducing the costs to manufacture these devices. Examples of RTI products used by medical device manufacturers include components found in intravenous fluid administration pumps that introduce drugs into the bloodstream. RTI manufactures and supplies bubble sensors and flow restrictors that monitor and control the flow of fluid in an intravenous infusion system.

12

RTI also manufactures a family of safety needle products for an OEM customer that utilizes RTI's insert and straight molding capabilities. These products are assembled using full automation including built-in quality checks within the production lines. Other examples include sensors used to detect pathologies in specific organs of the body and monitoring devices to detect cardiac and respiratory functions. The early and accurate detection of pathologies allows for increased likelihood for successful treatment of chronic diseases and cancers. Accurate monitoring of multiple functions of the body, such as heart rate and breathing, aids in generating more accurate diagnosis and treatments for patients.

RTI entered the high-quality audio communication device market in 2001, and now has a line of miniature, professional audio headset products used by performers and support staff in the music and stage performance markets. For customers focusing on homeland security needs, the line includes several communication devices that are more portable and perform well in noisy or hazardous environments. These products are also well suited for applications in the fire, law enforcement, safety, aviation and military markets.

RTIE manufactures and sells thermistors and thermistor assemblies, which are solid state devices that produce precise changes in electrical resistance as a function of any change in absolute body temperature. RTIE's Surge-Gard™ product line, an inrush electric current limiting device used primarily in computer power supplies, represented approximately 28 percent of RTIE's sales in 2004. The balance of sales represents various industrial, commercial and military sales for thermistor and thermistor assemblies to domestic and international markets.

RTI's and RTIE's principal raw materials are plastics, polymers, metals, various metal oxide powders and silver paste, for which there are multiple sources of supply.

Marketing and Competition. RTI sells its hearing instrument components directly to domestic hearing instrument manufacturers through an internal sales force. Sales of microphone products and of molded plastic parts to industries other than hearing instrument manufacturers are made mainly through an internal sales force. In recent years, five companies have accounted for a substantial portion of the sales in the United States hearing instrument industry. In 2004 no one customer accounted for more than 10 percent of the Company's consolidated net sales, during 2004 the top five customers accounted for approximately \$12 million or 34 percent of the Company's consolidated net sales. See note 5 to the

Edgar Filing: INTRICON CORP - Form 10-K/A

consolidated financial statements for a discussion of net sales and long-lived assets by geographic area.

Internationally, sales representatives employed by Resistance Technology, GmbH ("RT, GmbH"), a German company 90% of whose capital stock is owned by RTI, solicits sales from European hearing instrument manufacturers on behalf of RTI.

RTI believes that it is the largest supplier worldwide of micro-miniature electromechanical components to hearing instrument manufacturers and that its full product line and automated manufacturing process allow it to compete effectively with the two other manufacturers within this market.

In the market of hybrid amplifiers and molded plastic faceplates, RTI's primary competition is from the hearing instrument manufacturers themselves. The hearing instrument manufacturers produce a substantial portion of their internal needs for these components.

RTI markets its high performance microphone products to the radio communication and professional audio industries and has several larger competitors who have greater financial resources. RTI holds a small market

13

share in the global market for microphone capsules and other related products.

RTIE sells its thermistors and film capacitors through a combination of independent sales representatives and internal sales force.

RTIE has many competitors, both domestic and foreign, that sell various thermistor and film capacitors and some of these competitors are larger and have greater financial resources. In addition, RTIE holds a relatively small market share in the world-market of thermistor and film capacitor products.

Operations. The precision miniature medical and electronic products business has a total of 372 employees. RTI currently employs 178 people, of whom 16 are executive and administrative personnel, eight sales, and 154 engineering and operations personnel at RTI's two facilities near Minneapolis, Minnesota. At RT, GmbH, the Company employs three sales personnel located in Munich, Germany. In Singapore, RTI Tech PTE Ltd. employs 116 people, of whom four are administrative personnel, four sales, and 108 engineering and operations personnel. At its facilities in Anaheim, California, RTIE employs 75 employees, of which four are administrative, four are sales, and 67 are engineering and operations personnel.

As a supplier of parts for consumer and medical products, RTI is subject to claims for personal injuries allegedly caused by its products. The Company maintains what it believes to be adequate insurance coverage.

Research and Development. RTI and RTIE conduct research and development activities primarily to improve its existing products and technology. Their research and development expenditures were \$1,616,000, \$2,111,000 and \$1,186,000 in 2004, 2003 and 2002, respectively. See note 1 to the consolidated financial statements for information regarding customer funded research and development projects.

RTI owns a number of United States patents which cover a number of product designs and processes. The Company believes that, although these patents collectively add some value to the Company, no one patent or group of patents is of material importance to its business as a whole.

DISCONTINUED OPERATIONS - HEAT TECHNOLOGY

Edgar Filing: INTRICON CORP - Form 10-K/A

The Company specialized in the controlled application of heat to achieve precise process and temperature control. The Company's principal heat technology equipment and systems were smaller standard-engineered systems, burners and combustion control equipment. The Company sold this business in the first quarter of 2005 and has accounted for it as discontinued operations in the accompanying financial statements.

Standard Engineered Systems. The Company engineered and fabricated a variety of small heat treating furnaces and heat processing equipment. This standard equipment and small-furnace business was conducted principally by its then wholly-owned subsidiaries, Nippon Selas (Tokyo, Japan) and Selas Waermetchnik (Ratingen, Germany).

Burners and Combustion Control Equipment. At its Dresher, Pennsylvania facility and through its subsidiaries in Japan, Nippon Selas (Tokyo) and Germany, Selas Waermetchnik, (Ratingen) the Company designed, manufactured and sold an array of original equipment and replacement gas-fired industrial burners for many applications.

The Company was a producer of burners used in fluid processing furnaces serving the petrochemical industry. The Company also produced burners suitable for creating a high temperature furnace environment desirable in steel and glass heat treating furnaces. The Company's burners accommodated a

14

wide variety of fuel types, environmental constraints and customer production requirements.

The Company furnished many industries with gas combustion control equipment sold both as component parts and as systems that were engineered to meet a particular customer's needs. This equipment was provided with the Company's original custom-engineered and standard heat treating equipment, as replacement or additional components for existing furnaces being refurbished or upgraded, and as original components for heat treating equipment manufactured by others.

Marketing and Competition. The Company marketed its standard-engineered systems products on a global basis through its sales and marketing personnel located in Dresher, Pennsylvania, and also sold these products through licensees and agents located in various parts of the world.

Operations. The heat technology segment had a total of 48 employees. At its Dresher facility, the Company had 32 employees; 6 were executive and administrative personnel, 10 were sales and engineering personnel and 16 were personnel engaged in manufacturing. The hourly personnel were represented by a union, and the current union contract expires in May 2005. The Company considered its relations with its employees to be satisfactory. Selas Waermetchnik had 6 employees; 1 was an administrative personnel, 3 were sales and engineering personnel and 2 were personnel engaged in manufacturing.

In April 2001, the Company sold a minority interest of Nippon Selas to three directors of Nippon Selas. This minority interest was reacquired by the Company in the first quarter of 2005 in contemplation of the sale of this business, which was completed in the first quarter of 2005. Its Tokyo facility employed 10 people; 3 administrative and 7 sales and engineering.

Research and Development. The Company conducted limited research and development activities at its Dresher facility to support its heat processing services and products. Research and development expenditures for heat processing aggregated

Edgar Filing: INTRICON CORP - Form 10-K/A

\$18,000, \$16,000 and \$66,000 in 2004, 2003 and 2002, respectively.

AVAILABLE INFORMATION

The Company files or furnishes annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and other information with the SEC. You may read and copy any reports, statements and other information that the Company files with the SEC at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C., 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The Company's filings are also available on the SEC's Internet site as part of the EDGAR database (<http://www.sec.gov>).

The Company maintains an internet web site at www.IntriCon.com. The Company maintains a link to the SEC's website by which you may review its annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act.

The information on the website listed above, is not and should not be considered part of this annual report on Form 10-K and is not incorporated by reference in this document. This website is and is only intended to be an inactive textual reference.

In addition, we will provide, at no cost (other than for exhibits), paper or electronic copies of our reports and other filings made with the SEC. Requests should be directed to:

15

Corporate Secretary
IntriCon Corporation
1260 Red Fox Road
Arden Hills, MN 5112

ITEM 2. Properties

Continuing Operations

RTI leases a 47,000 sq. ft. manufacturing facility in Arden Hills, Minnesota, which also serves as the Company's headquarters, from a partnership consisting of two former officers of RTI and Mark S. Gorder who serves as an officer of the Company and RTI and on the Company's Board of Directors. At this facility, RTI manufactures all of its products other than plastic component parts. The lease expires in October 2011.

In addition, RTI owns, subject to a mortgage from a third party lender, a 34,000 sq. ft. building in Vadnais Heights, Minnesota at which RTI produces plastic component parts. See notes 16 and 17 to the Company's consolidated financial statements, which are incorporated by reference into "Item 8. Financial Statements and Supplementary Data" from the 2004 annual report to shareholders.

RTIE leases a building in Anaheim, California, which contains its manufacturing facilities and offices and consists of a total of 50,000 square feet. The lease expires in September 2008.

RTI Technologies PTE LTD leases a 6,000 square foot building in Singapore which houses its production facilities and administrative offices. This lease expires in June 2007.

Discontinued Operations

In June 2004, the Company sold its manufacturing facility, on a 17 acres site in Dresher, Pennsylvania at which it produced standard-engineered systems, burners and combustion control equipment. The Company leased this facility back until it sold the Burners and Components Business in March 2005. The 136,000 square foot Dresher facility had substantially more space than was needed for the Company's operations. See note 8 to the Company's consolidated financial statements, which are incorporated by reference into "Item 8. Financial Statements and Supplementary Data" from the 2004 annual report to shareholders. Additionally, Nippon Selas leased office space in Tokyo, Japan for its sales and administrative facilities pursuant to a month-to-month lease. Selas Waermetechneik, Germany leased facilities in Ratingen, Germany which were used for sales, administrative and engineering activities and assembly of small furnaces and furnace components.

ITEM 3. Legal Proceedings

The Company is a defendant along with a number of other parties in approximately 123 lawsuits as of December 31, 2004, (approximately 101 lawsuits as of December 31, 2003) alleging that plaintiffs have or may have contracted asbestos-related diseases as a result of exposure to asbestos products or equipment containing asbestos sold by one or more named defendants. Due to the noninformative nature of the complaints, the Company does not know whether any of the complaints state valid claims against the Company. Certain carriers have informed the Company that the primary policies for the period August 1, 1970-1973, have been exhausted and that the carriers will no longer provide a defense under those policies. The Company has requested that the carriers substantiate this situation. The Company believes it has additional policies available for other years which have been ignored

16

by the carriers. As settlement payments are applied to all years a litigant was deemed to have been exposed to asbestos, the Company believes when settlement payments are applied to these additional policies, the Company will have availability under the years deemed exhausted. The Company does not believe that the asserted exhaustion of the primary insurance coverage for this period will have a material adverse effect on its financial condition, liquidity, or results of operations. Management believes that the number of insurance carriers involved in the defense of the suits and the significant number of policy years and policy limits, to which these insurance carriers are insuring the Company, make the ultimate disposition of these lawsuits not material to the Company's consolidated financial position or results of operations.

The Company is also involved in other lawsuits arising in the normal course of business. While it is not possible to predict with certainty the outcome of these matters, management is of the opinion that the disposition of these lawsuits and claims will not materially affect the Company's consolidated financial position, liquidity, or results of operations.

ITEM 4. Submission of Matters to a Vote of Security Holders

None

Edgar Filing: INTRICON CORP - Form 10-K/A

ITEM 4A. Executive Officers of the Registrant

The names, ages and offices (as of March 18, 2005) of the Company's executive officers were as follows:

Name	Age	Position
Mark S. Gorder	58	President, Chief Executive Officer and Director of the Company; President of Resistance Technology, Inc.
Robert F. Gallagher	49	Chief Financial Officer, Treasurer and Secretary of the Company

Mr. Gorder joined the Company in October 1993 when Resistance Technology, Inc. ("RTI") was acquired by the Company. Prior to the acquisition, Mr. Gorder was President and one of the founders of RTI, which began operations in 1977. Mr. Gorder was promoted to Vice President of the Company and elected to the Board of Directors in April 1996. In December 2000, he was elected President and Chief Operating Officer and in April 2001, Mr. Gorder assumed the role of Chief Executive Officer.

Mr. Gallagher has served as the Company's Chief Financial Officer from August 2002 until April 1, 2005. From October 2000 until June 2002, he was Chief Financial Officer for Visionics Corporation (which merged with Identix Corporation in June 2002). From October 1989 until June 2000 he was employed by TSI Incorporated (which was acquired and taken private in June 2000), most recently as Chief Financial Officer. Both Visionics Corporation and TSI Incorporated were publicly-held manufacturing companies. Mr. Gallagher has left the Company to pursue other opportunities.

17

PART II

ITEM 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The Company's common shares are listed on the American Stock Exchange under the ticker symbol "SLS". The Company expects that its common shares will begin trading under the symbol "IIN" on or after April 4, 2005.

The high and low sale prices during each quarterly period during the past two years were as follows:

MARKET AND DIVIDEND INFORMATION

	2004		2003	
	Market		Market	
	Price Range		Price Range	
Quarter	High	Low	High	Low
First.....	\$3.60	\$2.82	\$1.89	\$1.29

Edgar Filing: INTRICON CORP - Form 10-K/A

Second.....	3.24	2.36	1.62	1.15
Third.....	2.99	1.40	1.95	1.40
Fourth.....	2.40	1.70	3.85	1.58

At March 25, 2005 the Company had 378 shareholders of record of common shares.

The Company ceased paying quarterly cash dividends in the fourth quarter of 2001 and has no intention of paying cash dividends in the foreseeable future. The payment of any future cash dividends is subject to the discretion of the Board of Directors and is dependent on a number of factors, including the Company's capital requirements, financial condition, financial covenants and cash availability. Terms of the Company's banking agreements prohibit the payment of cash dividends without prior bank approval.

See "ITEM 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters -- Equity Compensation Plans" for disclosure regarding our equity compensation plans.

ITEM 6. Selected Financial Data

Certain selected financial data is incorporated by reference from "Five-Year Summary of Operations" and "Other Financial Highlights" as contained in the Company's 2004 annual report to shareholders, which is filed as an exhibit to this Form 10-K.

ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations is incorporated by reference from the Company's 2004 annual report to shareholders, which is filed as an exhibit to this Form 10-K.

ITEM 7A. Quantitative and Qualitative Disclosures About Market Risk

Quantitative and qualitative disclosure about market risk is incorporated by reference from the Company's 2004 annual report to shareholders, which is filed as an exhibit to this Form 10-K.

18

ITEM 8. Financial Statements and Supplementary Data

The Company's Consolidated Financial Statements, the "Notes to the Consolidated Financial Statements", and the "Report of Independent Auditors" are incorporated by reference from the Company's 2004 annual report to shareholders, which is filed as an exhibit to this Form 10-K.

ITEM 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

None

Item 9A. Controls and Procedures

The Company's management, with the participation of its chief executive officer and chief financial officer, conducted an evaluation of the effectiveness of the

Edgar Filing: INTRICON CORP - Form 10-K/A

Company's disclosure controls and procedures, as defined in Exchange Act Rule 13a-15(e), as of December 31, 2004. Based on the evaluation reported on April 1, 2005 in the original filing of the Company's annual report on Form 10-K for the year ended December 31, 2004, the Company's chief executive officer and chief financial officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

On May 31, 2005, subsequent to the original evaluation, the Company concluded, after discussions among the Audit Committee of the Board of Directors of the Company and management, that it would restate financial results for the years 2000 through 2004 in order to correct the accounting for certain research and development expenditures that were erroneously capitalized on the balance sheet instead of being recorded as charges on the statement of operations. As the result of this error, the Company's chief executive officer and chief financial officer re-evaluated the Company's disclosure controls and procedures and concluded that control deficiencies existed with respect to our historical financial reporting related to capitalization of research and development expenditures and accordingly, have concluded that the Company's disclosure controls and procedures were not effective as of the end of the period covered by this report. We have subsequently corrected our methodology for accounting for our research and development expenses and implemented policies and procedures to ensure that the expense is properly reported in our financial statements.

There were no changes in our internal controls over financial reporting during the quarter ended December 31, 2004 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

19

Item 9B. Other Information

ASSET PURCHASE AGREEMENT

On March 31, 2005, the Company entered into an asset purchase agreement with Selas Heat Technology Company LLC, a Delaware limited liability company, pursuant to which the Company sold the remaining assets and certain liabilities of its heat technology business including its subsidiaries Nippon Selas Co. Ltd., a Japanese company and Selas Waernetchnik GmbH, a German company. The Company also sold the rights to the name "Selas Corporation of America". The total purchase price was approximately \$3.6 million, subject to adjustment, of which approximately \$2.7 million was paid in cash and \$900,000 was paid in the form of a subordinated promissory note. The asset purchase agreement included representations, warranties, covenants and indemnifications typical for transactions of this type.

AMENDMENT TO ARTICLES OF INCORPORATION

On April 1, 2005, the Company amended its articles of incorporation to change its name effective immediately from Selas Corporation of America to IntriCon

Edgar Filing: INTRICON CORP - Form 10-K/A

Corporation. Additionally, the Company's common shares are now listed on the American Stock Exchange under the ticker symbol "IIN".

CREDIT FACILITIES

In March 2005, the Company entered into amended agreements for its domestic revolver and long-term debt. The new facility provides the Company with a revolving credit limit of \$4.5 million which was reduced to \$4.0 million upon the sale of burners and components business in the first quarter of 2005. The agreement also stipulates that a portion of the proceeds from the sale of the Burners and Components business be used to payoff the approximately \$1.5 million outstanding principal balance on the term loan. These facilities expire on April 1, 2006. See note 8 to the consolidated financial statements for additional information regarding this agreement.

DEPARTURE OF CHIEF FINANCIAL OFFICER

Robert F. Gallagher will no longer serve as the Company's chief financial officer, treasurer and secretary effective April 1, 2005. Mr. Gallagher is pursuing other opportunities.

EMPLOYMENT AGREEMENT FOR CHIEF EXECUTIVE OFFICER

On March 30, 2005, the Corporation entered into an employment agreement with Mr. Gorder, dated as of December 4, 2004, whereby Mr. Gorder agreed to serve as the Corporation's Chief Executive Officer and President. The employment agreement will expire on April 30, 2006, unless further extended by Mr. Gorder and the Corporation. Mr. Gorder's base salary will be established from time to time by the Board of Directors of the or the Compensation Committee of the Board of Directors of the Corporation. In no event will Mr. Gorder's base salary be less than \$275,000. For 2005, the Compensation Committee has set Mr. Gorder's base salary at \$275,000. Mr. Gorder is entitled to receive performance bonuses in accordance with the policies and plans of the Corporation in place from time to time with respect to the payment of bonuses to executive officers. Mr. Gorder is also entitled to participate in the Corporation's employee benefit plans and benefit programs, including medical benefit programs, stock options under the Corporation's 2001 Stock Option Plan or any additional plans or programs, as may from time to time be provided by the Corporation for its executive officers. Additionally, the Corporation maintains disability insurance for his benefit. Under the employment agreement, the Corporation is required to reimburse Mr. Gorder for his country club membership fees and provide him with an automobile for use in connection with the performance of his duties under the employment agreement and reimburse him for all expenses reasonably incurred by him for the maintenance and operation, including fuel, of the automobile. The Corporation reimbursed Mr. Gorder \$2,500 for the cost of consulting with counsel in connection with the negotiation of the employment agreement.

20

Upon termination of Mr. Gorder's employment due to a disability, Mr. Gorder is entitled to continue to receive medical benefits coverage for him and his wife (if any) in accordance with the Corporation's policies in effect from time to time through the remainder of the then-current term of the employment agreement, and is entitled to benefits under the disability policy to the extent provided therein. In the event of Mr. Gorder's death during the term of the employment agreement, his wife (if any) is entitled to continue to receive medical benefits coverage in accordance with the Corporation's policies in effect from time to time through the remainder of the then-current term of the employment agreement.

The Corporation may terminate Mr. Gorder's employment for Cause (as defined in the employment agreement). If Mr. Gorder's employment is terminated by the Corporation prior to the end of the term for any reason other than Cause (as

Edgar Filing: INTRICON CORP - Form 10-K/A

defined in the employment agreement) or the death or disability: (i) the Corporation must either (A) continue to pay Mr. Gorder his base salary or any performance bonus accrued (based on not less than the previous year's bonus and prorated to the end of the term) during the remainder of the then-current term of the employment agreement, or (B) if Mr. Gorder requests in writing, pay him in a lump sum upon such termination the present value of the payments that would have been made under clause (A), using a discount rate of 6 percent per year. Additionally, Mr. Gorder will be entitled to continue to receive medical benefits coverage in accordance with the Corporation's policies in effect from time to time through the remainder of the then-current term of the employment agreement. To be entitled to any payments Mr. Gorder must execute and deliver to the Corporation an agreement releasing the Corporation from all claims, undertaking to maintain confidentiality of the agreement and indemnify the Corporation if Mr. Gorder breaches such agreement. If Mr. Gorder's employment is terminated by the Corporation during the term of the employment agreement for any reason other than for Cause (as defined in the employment agreement) or if he terminates his employment during the term of the employment agreement under circumstances that would constitute an Involuntary Termination (as defined in the Change-of-Control Agreement), then any stock options granted to him which have not been exercised prior to his termination will accelerate and be exercisable in full.

If Mr. Gorder becomes entitled to any payment by the terms of the Change-of-Control Agreement, he is not entitled to any additional payment under the employment agreement (other than accrued and unpaid bonus, salary and benefits) unless otherwise provided for in the employment agreement.

PART III

Item 10. Directors and Executive Officers of the Registrant

The information called for by Item 10, except for the information concerning executive officers included in Item 4A hereof, is incorporated by reference from the Company's definitive proxy statement relating to its 2005 annual meeting of shareholders. The information concerning executive officers contained in Item 4A hereof is incorporated by reference into this Item 10.

Code of Ethics

The Company has adopted a code of ethics that applies to its directors, officers and employees, including its chief executive officer, chief financial officer, controller and persons performing similar functions. Copies of the Company's code of ethics are available without charge upon written request directed to Cari Sather, Director Human Resources, IntriCon Corporation, 1260 Red Fox Road, Arden Hills, MN 55112.

21

Item 11. Executive Compensation

The information called for by Item 11 is incorporated by reference from the Company's definitive proxy statement relating to its 2005 annual meeting of shareholders.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholders Matters

The information called for by Item 12 is incorporated by reference from the Company's definitive proxy statement relating to its 2005 annual meeting of

Edgar Filing: INTRICON CORP - Form 10-K/A

shareholders.

Equity Compensation Plans

The following table details information regarding the Company's existing equity compensation plans as of December 31, 2004:

Plan Category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights
Equity compensation plans approved by security holders.....	453,400	\$5.03
Equity compensation plans not approved by security holders (1).....	207,500	\$3.03
Total.....	660,900	\$4.40

(1) Represents shares issuable under the Non-Employee Directors Stock Option Plan, pursuant to which directors who are not employees of the Corporation or any of its subsidiaries receive an automatic one-time grant of an option to acquire 5,000 common shares upon their initial election or appointment to the Board of Directors. The Plan also permits discretionary grants. The exercise price of the option is the fair market value of the stock on the date of grant. Options become exercisable in equal one-third annual installments beginning one year from the date of grant, except that the vesting schedule for discretionary grants is determined by the Compensation Committee.

Item 13. Certain Relationships and Related Transactions

The information called for by Item 13 is incorporated by reference from the Company's definitive proxy statement relating to its 2005 annual meeting of shareholders.

Item 14. Principal Accountant Fees and Service

The information called for by Item 14 is incorporated by reference from the Company's definitive proxy statement relating to its 2005 Annual Meeting of shareholders.

PART IV

ITEM 15. Exhibits, Financial Statement Schedules

Edgar Filing: INTRICON CORP - Form 10-K/A

(a) The following documents are filed as a part of this report:

1. Financial Statements - The Company's consolidated financial statements, as described below, are incorporated by reference as contained in the Company's 2004 annual report to shareholders, which is filed as an exhibit to this Form 10-K.

Consolidated Statements of Operations for the years ended December 31, 2004, 2003 and 2002.

Consolidated Balance Sheets at December 31, 2004 and 2003.

Consolidated Statements of Cash Flows for the years ended December 31, 2004, 2003 and 2002.

Consolidated Statements of Shareholders' Equity and Comprehensive Loss for the years ended December 31, 2004, 2003 and 2002.

Notes to Consolidated Financial Statements.

Report of Independent Registered Public Accounting Firm.

2. Financial Statement Schedules

The Board of Directors and Shareholders
IntriCon Corporation:

Under date of March 18, 2005, except as to notes 3, 4, 8 and 18, which are as of March 31, 2005 and note 2 which is as of June 24, 2005, we reported on the consolidated balance sheets of IntriCon Corporation (formerly Selas Corporation of America) and subsidiaries as of December 31, 2004 and 2003, and the related consolidated statements of operations, stockholders' equity and comprehensive income (loss), and cash flows for each of the years in the three-year period ended December 31, 2004, as contained in the 2004 annual report to shareholders. These consolidated financial statements and our report thereon are incorporated by reference in the annual report on Form 10-K for the year 2004. In connection with our audits of the aforementioned consolidated financial statements, we also audited the related financial statement schedule. This financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement schedule based on our audits.

In our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

As discussed in note 2 to the consolidated financial statements, the Company has restated its consolidated financial statements as of December 31, 2004 and 2003 and for each of the years in the three-year period ended December 31, 2004.

As discussed in note 1 to the consolidated financial statements, the Company adopted Statement of Financial Accounting Standards No. 142 "Goodwill and Other Intangible Assets" on January 1, 2002.

/s/ KPMG LLP

Minneapolis, Minnesota

March 18, 2005, except as to notes 3, 4, 8 and 18 which are as of March 31, 2005 and note 2 which is as of June 24, 2005
