Crompton Corporation ("Crompton") has entered into a definitive agreement to sell its organosilicones business to the GE Specialty Materials division of General Electric Company ("General Electric") and to acquire General Electric's Specialty Chemicals business. At closing, Crompton will receive \$645 million in cash and the General Electric Specialty Chemicals business, which has an agreed value of \$160 million. The earn-out, which is based on incremental contribution margin, will be a minimum of \$105 million and a maximum of \$250 million payable quarterly over a three-year period. The transaction is subject to regulatory approvals and other customary conditions and is
