Internet Gold Reports Financial Results for Q3 2005

Tuesday November 8, 8:42 am ET

Revenue Growth of 35% YOY Reflecting Successful Expansion Into Internet Media and International Telephony Businesses Focus for Third Quarter: Consolidation & Efficiency PETACH TIKVA, Israel, November 8 /PRNewswire-FirstCall/ -- Internet Gold, (Nasdaq: IGLD - News) today reported its financial results for the third quarter ended September 30, 2005.

#### Highlights of the Quarter

- \$15.9 million revenues, up 35% year-over-year
- Strongest growth drivers: Internet Advertising/Portal and International Telephony businesses
- 'smile' re-branding program successful: will improve marketing efficiency
- Bottom-line impacted by re-branding, consolidation and efficiency program and unusually high financing expenses
- Following completion of new VoIP activity implementation, company launched consolidation/efficiency program to optimize customer service operations and improve margins

#### Financial Results

Revenues for the third quarter were NIS 73.3 million (US\$ 15.9 million), an increase of 35% compared with NIS 54.3 million in the third quarter of 2004. Gross margin for the quarter was to 46.6% reflecting marketing strategies adopted to build market share in the competitive Internet Access and International Telephony markets.

Operating income for the quarter reached NIS 5.7 million (US\$ 1.2 million), an increase of 200% compared to the parallel quarter of 2004.

Net income for the quarter was NIS 1.6 million (US \$0.4 million), or NIS 0.09 (US\$ 0.02) per share, reflecting unusually high financing expenses of NIS 3.5 million (US\$ 0.8 million). The rise in financing expenses resulted from a 1.4% rise in Israel's Consumer Price Index (CPI) for the quarter. This raised the interest due on the Group's CPI-linked bonds, although the effect was mitigated somewhat by the Group's successful hedging activities. Net income for the third quarter of 2004 was NIS 1.5 million, or NIS 0.08 per share.

#### Comments of Management

"The growth of our business over the past twelve months reflects the successful launch and build-out of our International Telephony business, which took place

## Edgar Filing: INTERNET GOLD GOLDEN LINES LTD - Form 6-K

exactly one year ago, and the continuous ramp-up of our Internet Advertising/Portal and e-Commerce businesses, together with the ongoing development of our core Internet access business," commented Eli Holtzman, Internet Gold's CEO. "To build our leadership and market share in extremely competitive markets, we have utilized aggressive pricing and marketing strategies, and, during the last quarter, carried out a successful re-branding program."

"During recent quarters, our team continued building and optimizing our new VoIP operations. With all operating systems in place and functioning well, we have now combined the call centers of our access and international telephony businesses into a single facility with a unified support staff and consolidated the engineering teams of our various activities. Most of these costly activities were completed during the third quarter. We anticipate that this step will reduce our costs significantly in the coming quarters and open up new cross-sales opportunities within our existing customer base."

Mr. Holtzman continued, "On the Media side of the business, market trends continue to operate in our favor. Internet advertising budgets continue to grow dramatically, along with Internet usage and online purchases. Our acquisitions, partnerships and marketing efforts over the past year have established Internet Gold as a leading Internet Media Group, and we continue to expand our content franchise. We believe our Internet Media and e-Commerce businesses will become our strongest revenue and profit drivers over the long-term."

### Overview of Business Segments

smile.net - access and access-related value added services: During the third quarter, sales of the Group's Business Division grew by 11% compared to the previous quarter, while revenues from the Group's WiFi based home networking services grew by more than 70%.

smile.media - e-Advertising/Content: In line with its goal of expanding its positioning as a primary Internet Media Group, during the third quarter, the Group closed additional acquisitions and partnerships, expanding the range of Internet media properties that it offers to potential advertisers:

- GetPrice: the Group's subsidiary, MSN-Israel, acquired a 51% interest in getprice.co.il, one of Israel's most popular price comparison sites. Working with GetPrice, MSN-Israel intends to establish a new price comparison site called MSN-Compare.

- Hype/Tipo: the Group's subsidiary GoldMind acquired a 50.1% interest in tipo.co.il, Israel's leading children's portal with approximately 30 million page views per month.

- MSNJobs: in partnership with Redmatch, one of the world's fastest-growing online job-search companies, MSN-Israel launched MSNJobs, a new Hebrew-language job search site, at the end of September.

- Net-Express: by the end of the third quarter, the Group extended its strategic partnership with Net-Express, the founder of netex.co.il, one of Israel's most popular Hebrew language Internet search engines and web directory sites.

- Nirshamim: Revenues from Nirshamim, an acquisition completed earlier in 2005, grew by 19% during the third quarter and the site achieved strong profitability.

## Edgar Filing: INTERNET GOLD GOLDEN LINES LTD - Form 6-K

smile.015 - International Telephony: Company has maintained its market share in the residential segment while putting special emphasis on its business customers. In conjunction with its ongoing marketing activity, the company focused its marketing efforts on Israel's Russian-speaking populations, resulting in a significant rise in costumers from this high-potential niche market. During the third quarter, the Company expanded its base of international carriers to allow for future growth.

smile.shops - e-Commerce: Q3 revenues of P-1000, the Group's e-Commerce business, rose by 8% during the quarter compared to Q2, while operating income rose by 12%. The Group continues to evaluate acquisition and consolidation opportunities in the sector.

### About Internet Gold

Internet Gold is a group of communications companies that provide Internet access and related value-added services, international telephony, e-advertising, content and e-Commerce services throughout Israel under the brand name "smile". The broad range and popularity of these services have established Internet Gold as one of Israel's leading Internet Communications groups.

The Internet Gold Group includes four subsidiaries. MSN-Israel, its 50.1% owned joint-venture with Microsoft Corp. (49.9% owned), provides Microsoft-branded Search, Instant Messaging, Hotmail and a variety of portal services. Internet Gold International, a fully-owned subsidiary, provides international Internet and communication services. GoldMind, a fully-owned subsidiary, provides value-added services to Internet subscribers. GoldTrade, the Group's fully-owned e-Commerce subsidiary, operates e-Commerce sites.
