The Company has entered into employment agreements with each of Messrs. Murphy, Stote, Price, Gyurik and Horvath which set forth their relationships with the Company. The agreements expire on December 31, 2003 and renew annually for one year terms. Under the agreements, each individual is paid a base salary and provided with life insurance, with salary increases, bonuses and stock option grants at the discretion of the board's compensation committee (except for Mr. Murphy's agreement, which provides for a minimum stock option grant of 50,000 options per annum and Mr. Horvath's initial agreement, which provides for minimum salary increases of 5% per year). All employees are full time, with the exception of Dr. Stote who is a part-time employee.

The agreements may be terminated on one year's notice and, if terminated earlier without cause, upon payment of severance equal to one year's salary, a bonus equal to the greater of the employee's bonus for the current year or bonus for the prior year and vesting of options based on the number of months' employment during the vesting period. If the employee is terminated within 12 months of a change of control of the Company, or if the employee terminates his employment within 12 months after a change of control because his job changes, the Company breaches his employment agreement or he is required to move his residence, then the severance is increased to twice his annual salary, twice the average of bonuses in the prior two years, immediate vesting of all stock options and continuation of health benefits for two years (or until receiving comparable benefits from another employer), and the option to keep in place life insurance at the employee's expense. No severance is paid on a termination for cause. In Mr. Murphy's agreement, severance following a change in control is 2.99 times salary. Mr. Horvath's initial agreement provides that, on termination without cause, severance will be two years' salary and acceleration of all options and, following a termination after a change of control, severance will be 2.99 times salary and bonus.

STOCK OPTION PLANS

1991 Stock Option Plan. The Company's 1991 Stock Option Plan was adopted in 1991 and was amended several times to increase the number of shares issuable under it to a total of 1,000,000. While no options could be granted under the 1991 plan after September 30, 2001, all options granted prior to that date continued to vest and remain outstanding in accordance with the terms of the 1991 Plan.

2001 Employee Stock Option Plan. The Company's 2001 Employee Stock Option Plan was adopted and approved in 2001. The Company may issue incentive stock options, as defined in the Internal Revenue Code of 1986, or non-qualified stock options to purchase up to 1,000,000 shares of the Company's Common Stock to the Company's employees under this plan. During 2002, options to purchase 142,000 shares of the Company's Common Stock were granted to employees who are not executive officers. Such

options were granted at prices ranging from \$8.30 to \$11.72 per share, representing the fair market value of the Company's Common Stock on the dates of grant. These options expire on various dates ranging from January 3, 2012 to October 2, 2012. See Proposal 3 below for a further description of this plan and a proposal to amend this plan to increase the number of shares issuable upon exercise of options which may be granted under the plan.

2001 Directors' Stock Option Plan. The Company's 2001 Directors' Stock Option Plan was adopted and approved in 2001. The Company may issue non-qualified stock options to purchase up to 500,000 shares of the Company's Common Stock to the Company's Directors under this plan. See Proposal 4 below for a further description of this plan and a proposal to amend this plan to increase the number of shares issuable upon exercise of options which may be granted under the plan.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's executive officers and directors, and any persons who own more than 10% of any class of the Company's equity securities, to file certain reports relating to their ownership of such securities and changes in such ownership with the Securities and Exchange Commission, the American Stock Exchange and the Pacific Stock Exchange and to furnish the Company with copies of such reports. To the Company's knowledge, during 2002, all Section 16(a) filing requirements have been satisfied, with the exception that Robert J. 401(k) RETIREMENT PLAN

The Company sponsors a 401(k) retirement plan (the "401(k) Plan") under which eligible employees may contribute, on a pre-tax basis, between 1% and 15% of their respective total annual income from the Company, subject to maximums set by U.S. tax law. All employees who work for the Company in the U.S. are eligible to participate in the 401(k) Plan. All employee contributions are allocated to the employee's individual account and are invested in various investment options as directed by the employee. Employees' cash contributions are fully vested and nonforfeitable. The Company made matching contributions to the 401(k) Plan in 2002 by granting 9,320 shares of the Company's Common Stock valued at \$92,155. The Company currently matches 100% of each eligible employee's contribution in 2003 with shares of the Company's Common Stock. All of the Company's matching contributions vest 25% each year for the first four years of each employee's employment.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In March 2000 the Company made loans to three executive officers to assist each of them in making their income tax payments for shares of the Company's Common Stock which the Company granted to them in 1999. The Company loaned \$250,000 to Mr. Murphy, \$50,000 to Mr. Price and \$140,000 to Mr. Gyurik. The loans had an interest rate of 2.37% annually, were due in March 2003 and were secured by shares of the Company's Common Stock owned by the three individuals (Mr. Murphy, 18,700 shares; Mr. Price, 4,000 shares; Mr. Gyurik, 10,700 shares). Interest on the loans accrued quarterly. In December 2001, January 2002 and March 2003, the Company agreed to forgive part of the principal and interest on the loans as detailed in the following chart. There are no further amounts currently due on these loans. All of the amounts forgiven are considered taxable income to the three individuals.

COMPENSATION COMMITTEE REPORT

The Corporate Governance and Compensation Committee of the Board of Directors (the "Compensation Committee") determines, to the extent not fixed pursuant to the terms of applicable employment agreements, the compensation of the Chief Executive Officer, other employee members of the Board of Directors,

Edgar Filing: BENTLEY PHARMACEUTICALS INC - Form PRE 14A

and all other executive employees whose annual compensation exceeds \$250,000. The compensation levels of such officers, directors and employees are subject to the approval of the Board of Directors. All of the members of the Compensation Committee are Directors who are not employees of the Company.

The Compensation Committee, being responsible for overseeing and approving executive compensation and grants of stock options, is in a position to appropriately balance the current cash compensation considerations with the longer-range incentive-oriented growth outlook associated with stock options and shares of Common Stock.

The main objectives of the Company's compensation structure include rewarding individuals for their respective contributions to the Company's performance, providing executive officers with a stake in the long-term success of the Company and providing compensation programs and policies that will attract, retain and motivate qualified executive personnel. The Board of Directors and the Compensation Committee place a great deal of importance on recruiting, hiring, retaining and motivating high quality personnel and recognize that by offering executives employment agreements, it can be more successful in recruiting experienced executives from large, established pharmaceutical companies. Historically, the members of the Board of Directors and the Compensation Committee have chosen to achieve these objectives through salary increases, cash and stock bonuses and periodic stock option grants. The Committee considered each of these factors in approving the compensation for Mr. Murphy, who serves as President and Chief Executive Officer.

In determining compensation, the Compensation Committee considers, among other things, the performance of the Company, improvement in financial position, strategic alliances, acquisition of products, product registration, raising of capital, compensation levels in competing companies, individual contributions to the Company and the length of service with the Company. The Compensation Committee has also surveyed executive compensation of similarly situated companies and retained the services of an independent law firm, experienced in employment and compensation matters, for the purpose of obtaining independent, objective guidance with respect to the Committee's performance of its duties.

Compensation through the periodic grant of Common Stock and stock options under the Company's stock option plans is intended to coordinate executives' and stockholders' long-term interests by creating a direct link between a portion of executive compensation and increases in the price of Common Stock and the long-term success of the Company. This method of compensation also permits the Company to preserve its cash resources.

During 2002 the Committee completed its comprehensive review of the employment agreements that the Company enters into with each of its officers. It updated the provisions of the agreement and the Company is entering into the new agreement with each officer as their current agreement expires.

For the year 2002, Mr. Murphy, recommended merit increases and base salary amounts for each officer other than himself based on his assessment of each officer's individual performance and accomplishment of corporate and personal objectives. We evaluated Mr. Murphy's recommendations regarding each officer's compensation, taking into account the officer's tenure and our subjective assessment of individual performance. We considered Mr. Murphy's recommendations with respect to merit increases and base salary amounts. We reviewed the accomplishments and performance of such

Edgar Filing: BENTLEY PHARMACEUTICALS INC - Form PRE 14A

officers and comparative compensation data from similar or competing companies and then approved compensation packages for each of the Company's officers.

A significant portion of the direct compensation of officers consists of annual incentive bonuses. Bonus targets are closely tied to performance measures, at both the corporate level and at individual areas of responsibility. Mr. Murphy recommended specific bonuses for all officers other than himself. We evaluated Mr. Murphy's recommendations regarding each officer's bonus, taking into account Mr. Murphy's assessment of each officer's individual performance and our subjective assessment of individual performance, in addition to accomplishment of corporate objectives. We then approved the bonuses to be awarded for the calendar year 2002.

Future increases in executive compensation will be based upon the satisfaction of pre-established individual objectives, extraordinary individual contributions, corporate milestones and financial performance of the Company.

PROPOSAL 2

AMENDMENT OF RESTATED CERTIFICATE OF INCORPORATION

The Board of Directors has approved, subject to stockholder approval, an amendment to the Company's Restated Certificate of Incorporation to increase the number of shares of Common Stock that the Company is authorized to issue from 35,000,000 shares to 100,000,000 shares.

The Board of Directors believes that it is in the best interests of the Company and its stockholders to have additional shares of Common Stock authorized which would be available for issuance for general corporate purposes,

Edgar Filing: BENTLEY PHARMACEUTICALS INC - Form PRE 14A

including raising capital to support business expansion, stock splits, stock dividends, acquisitions or other developments which might make its issuance desirable. This would provide the Company with additional flexibility to use its capital for business and financial purposes in the future. The Company has 17,457,601 shares of Common Stock issued and outstanding as of the Record Date for the Meeting, in addition to 7,036,088 reserved for issuance pursuant to the Company's outstanding warrants and options, leaving 10,506,311 authorized shares (including 645 treasury shares) available for issuance. If authorization of an increase in the Common Stock is postponed until a specific need arises, the delay and expense incident to obtaining approval of the stockholders at that time could impair the Company's ability to meet its objectives. The Company does not now have any agreement, understanding, arrangement or commitment which would result in the issuance of any of the additional shares to be authorized and no assurance can be given at this time that additional shares will, or as to the circumstances under which such shares might, in fact be issued. No further action or authorization by the stockholders would be necessary prior to the issuance of the additional shares for purposes such as raising capital, establishing strategic relationships with other companies and expanding the Company's business or product lines through the acquisition of other businesses or products. However, there are restrictions on further issuances of shares under applicable laws, regulations and the rules of the stock exchange on which the Company's securities may then be listed. The Company's stock is currently traded on the American Stock Exchange which restricts certain issuances of the Company's Common Stock without stockholder approval.

The holders of any of the additional shares of Common Stock issued in the future would have the same rights and privileges as the holders of the shares of Common Stock currently authorized and outstanding. Those rights do not include preemptive rights with respect to the future issuance of any additional shares. Adoption of the proposed amendment and issuance of the Common Stock would not affect the rights of the holders of currently outstanding Common Stock, except for effects incidental to increasing the number of shares of the Company's Common Stock outstanding, such as dilution of the earnings per share and voting rights of current holders of Common Stock. If the amendment is approved, it will become effective upon filing a Certificate of Amendment of the Company's Restated Certificate of Incorporation with the Secretary of State of the State of Delaware. A copy of the form of such certificate is attached as Appendix A.

As stated above, the Company has no immediate plans, arrangements, commitments, or understanding with respect to the issuance of any additional shares of common stock authorized by the proposed amendment. However, the increased authorized shares could be used to make a hostile takeover attempt more difficult by using the shares to make a counter-offer for the shares of a bidder or by selling shares to dilute the voting power of the bidder. As of this date, the Board is unaware of any effort to accumulate the Company's shares or to obtain control of the Company by means of a merger, tender offer, solicitation in opposition to management, or otherwise. This proposal has been prompted by business and financial considerations and not by the threat of any hostile takeover attempt.

THE DIRECTORS RECOMMEND A VOTE FOR THE AMENDMENT TO THE RESTATED CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK.

Edgar Filing: BENTLEY PHARMACEUTICALS INC - Form PRE 14A

THE COMPANY'S 2001 EMPLOYEE STOCK OPTION PLAN

On March 30, 2001, the Board of Directors adopted, and on May 9, 2001, the Company's stockholders approved the Company's 2001 Employee Stock Option Plan. The 2001 Employee Stock Option Plan is herein referred to as the "Employee Plan". The Employee Plan is designed to provide an incentive to key employees of the Company and to offer an additional inducement in obtaining the services of such persons. The proceeds derived from the sale of shares subject to options will be used for general corporate purposes of the Company.

The Employee Plan originally provided for the issuance of options to purchase up to 1,000,000 shares of Common Stock. As of March 31, 2003, options to purchase 988,600 shares of Common Stock have been granted, leaving a total of 11,400 shares of Common Stock available for future grants under the Employee Plan. The Board of Directors has amended the Employee Plan, subject to stockholder approval, to increase the number of shares authorized for issuance by 1,500,000 shares from 1,000,000 shares to 2,500,000 shares. If the amendment is approved, there would be 1,511,400 shares available for future grants under the Employee Plan. Adoption of this amendment to the Employee Plan requires that it be approved by an affirmative vote of a majority of shares voted at the Meeting. A copy of the amendment to the Employee Plan is attached as Appendix B.

The following summary of certain material features of the Employee Plan does not purport to be complete and is qualified in its entirety by reference to the text of the Employee Plan, a copy of which is set forth as Appendix B to the Company's Proxy Statement for the Annual Meeting of Stockholders of May 9, 2001.

SHARES SUBJECT TO THE EMPLOYEE PLAN AND ELIGIBILITY

The Employee Plan authorizes the grant of options to purchase a maximum of 1,000,000 shares of the Company's Common Stock (subject to increase as described in the amendment above and to other adjustment as described below) to employees (including officers and directors who are employees) of the Company. Upon expiration, cancellation or termination of unexercised options, the shares of the Company's Common Stock subject to such options will again be available for the grant of options under the Employee Plan. All of the employees of the Company are currently eligible to receive grants of options under the Employee Plan.

Options to purchase 988,600 shares of the Company's Common Stock have been granted under the Employee Plan, of which options to purchase 15,000 shares of Common Stock have been exercised. Options to purchase an additional 185,000 shares have been authorized for grant to employees under the Employee Plan (155,000 of which are for executive officers) upon stockholder approval of the amendment to increase the number of shares available under the Employee Plan. These shares are allocated to the individuals listed in the Summary Compensation Table as follows:

TYPE OF OPTIONS

Options granted under the Employee Plan may either be incentive stock options ("ISOs"), within the meaning of Section 422 of the Code, or nonqualified stock options which do not qualify as ISOs ("NQSOs").

ADMINISTRATION

The Employee Plan will be administered by the Corporate Governance and Compensation Committee of the Board of Directors (the "Committee") consisting of at least two members of the Board, each of whom is a "non-employee director" within the meaning of Rule 16b-3 promulgated under the Securities Exchange Act of 1934. It is also intended that each member of the Committee will be an "outside director" within the meaning of Section 162(m) of the Code. The current members of the Committee are Michael McGovern (chairman), Miguel Fernandez and John Spiegel.

Among other things, the Committee is empowered to determine, within the express limits contained in the Employee Plan: the employees to be granted options, the times when options shall be granted, whether an option is to be an ISO or a NQSO, the number of shares of Common Stock to be subject to each option, the exercise price of each option, the term of each option, the date each option shall become exercisable as well as any terms, conditions or installments relating to the exercisability of each option, whether and under what conditions to accelerate the date of exercise of any option or installment, the form of payment of the exercise price, the amount, if any, required to be withheld with respect to an option and, with the consent of the optionee, to

Edgar Filing: BENTLEY PHARMACEUTICALS INC - Form PRE 14A

modify an option. The Committee is also authorized to prescribe, amend and rescind rules and regulations relating to the Employee Plan and to make all other determinations necessary or advisable for administering the Employee Plan and to construe the Employee Plan.

TERMS AND CONDITIONS OF OPTIONS

Options granted under the Employee Plan will be subject to, among other things, the following terms and conditions:

(a) The exercise price of each option will be determined by the Committee; provided, however, that the exercise price of an ISO, or of any option intended to satisfy the performance-based compensation exemption to the deduction limitation under Section 162(m) of the Code, and may not be less than the fair market value of the Company's Common Stock on the date of grant (110% of such fair market value if the optionee owns (or is deemed to own) more than 10% of the voting power of the Company).

(b) Options may be granted for terms determined by the Committee; provided, however, that the term of an ISO may not exceed 10 years (5 years if the optionee owns (or is deemed to own) more than 10% of the voting power of the Company).

(c) The maximum number of shares of the Company's Common Stock for which options may be granted to an employee in any calendar year is 250,000. In addition, the aggregate fair market value of shares with respect to which ISOs may be granted to an employee which are exercisable for the first time during any calendar year may not exceed \$100,000.

(d) The exercise price of each option is payable in full upon exercise or, if the applicable stock option contract ("Contract") entered into by the Company with an optionee permits, in installments. Payment of the exercise price of an option may be made in cash, certified check or, if the applicable Contract permits, in previously acquired shares of the Company's Common Stock having an aggregate fair market value on the date of exercise, equal to the aggregate exercise price of all options being exercised, or any combination thereof. The Committee may, in its sole discretion, permit payment of the exercise price of an option by delivery by the optionee of a properly executed notice, together with a copy of the optionee's irrevocable instructions to a broker acceptable to the Committee, to deliver promptly to the Company the amount of sale or loan proceeds sufficient to pay the exercise price.

(e) Options may not be transferred other than by will or by the laws of descent and distribution, and may be exercised during the optionee's lifetime only by the optionee or his or her legal representatives.

(f) Except as may otherwise be provided in the applicable Contract, if the optionee's relationship with the Company as an employee is terminated for any reason (other than the death, disability or retirement of the optionee), the option may be exercised, to the extent exercisable at the time of termination of such relationship, within three months thereafter, but in no event after the expiration of the term of the option. If the employee is terminated following a change of control of the Company, the employee may exercise all options whether or not they had become exercisable. However, if the relationship is terminated either

for cause or without the consent of the Company, the option will terminate

Edgar Filing: BENTLEY PHARMACEUTICALS INC - Form PRE 14A

immediately. In the case of the death of an optionee while an employee (or, generally, within three months after termination of such relationship, or within one year after termination of such relationship by reason of disability or (retirement), except as otherwise provided in the Contract, his or her legal representative or beneficiary may exercise the option, to the extent exercisable on the date of death, within one year after such date, but in no event after the expiration of the term of the option. Except as otherwise provided in the Contract, an optionee whose relationship with the Company was terminated by reason of his or her disability or retirement may exercise the option, to the extent exercisable at the time of such termination, within one year thereafter, but not after the expiration of the term of the option. Options are not affected by a change in the status of an optionee so long as he or she continues to be an employee of the Company.

(g) The Company may withhold cash and/or shares of the Company's Common Stock having an aggregate value equal to the amount which the Company determines is necessary to meet its obligations to withhold any federal, state and/or local taxes or other amounts incurred by reason of the grant or exercise of an option, its disposition or the disposition of shares acquired upon the exercise of the option. Alternatively, the Company may require the optionee to pay the Company such amount, in cash, promptly upon demand.

ADJUSTMENT IN EVENT OF CAPITAL CHANGES

Appropriate adjustments will be made in the number and kind of shares available under the Employee Plan, in the number and kind of shares subject to each outstanding option and the exercise prices of such options, as well as the number of shares subject to future grants to optionees and limitation on the number of shares that may be granted to any employee in any calendar year, in the event of any change in the Company's Common Stock by reason of any stock dividend, split-up, spin off, combination, reclassification, recapitalization, merger in which the Company is not the surviving corporation, exchange of shares or the like. In the event of (a) the liquidation or dissolution of the Company, or (b) a merger in which the Company is not the surviving corporation or a consolidation, the Board of Directors of the Company shall, as to outstanding options, either (i) make appropriate provisions for the protection of any such outstanding options by the substitution on an equitable basis of appropriate stock of the Company or of the merged, consolidated or otherwise reorganized corporation which will be issuable in respect to one share of Common Stock of the Company; provided, only that the excess of the aggregate fair market value of the shares subject to the options immediately after such substitution over the purchase price thereof is not more than the excess of the aggregate fair market value of the shares subject to such options immediately before such substitution over the purchase price thereof, or (ii) upon written notice to an optionee, provide that all unexercised options must be exercised within a specified number of days of the date of such notice or they will be terminated. In any such case, the Board of Directors may, in its discretion, advance the lapse of any waiting or installment periods and exercise dates.

DURATION AND AMENDMENT OF THE EMPLOYEE PLAN

No option may be granted under the Employee Plan after March 30, 2011. The Board of Directors may at any time terminate or amend the Employee Plan; provided, however, that, without the approval of the Company's stockholders, no amendment may be made which would (a) except as a result of the anti-dilution adjustments described above, increase the maximum number of shares available for the grant of options or increase the maximum number of options that may be granted to an employee in any calendar year, (b) change the eligibility requirements for persons who may receive options or (c) make any changes for which applicable law or regulatory authority requires stockholder approval. No termination or amendment may adversely affect the rights of an optionee with respect to an outstanding option without the optionee's consent.

FEDERAL INCOME TAX TREATMENT

The following is a general summary of certain material federal income tax consequences of the grant and exercise of the options under the Employee Plan and the sale of any underlying security. This description is based on current law, which is subject to change, possibly with retroactive effect. This discussion does not purport to address all tax considerations relating to the grant and exercise of the options or resulting from the application of special rules to a particular optionee (including an optionee subject to the reporting and short-swing profit provisions under Section 16 of the Securities Exchange Act of 1934, as amended), and state, local, foreign and other tax consequences inherent in the ownership and exercise of stock options and the ownership and disposition of any underlying security. An optionee should consult with the optionee's own tax advisors with respect to the tax consequences inherent in the ownership and exercise of stock options and the ownership and disposition of any underlying security.

ISOs Exercised With Cash

No taxable income will be recognized by an optionee upon the grant or exercise of an ISO. The optionee's tax basis in the shares acquired upon the exercise of an ISO with cash will be equal to the exercise price paid by the optionee for such shares.

If the shares received upon exercise of an ISO are disposed of more than one year after the date of transfer of such shares to the optionee and more than two years from the date of grant of the option, the optionee will recognize long-term capital gain or loss on such disposition equal to the difference between the selling price and the optionee's basis in the shares, and the Company will not be entitled to a deduction. Long-term capital gain is generally subject to more favorable tax treatment than short-term capital gain or ordinary income.

If the shares received upon the exercise of an ISO are disposed of prior to the end of the two-years-from-grant/one-year-after-transfer holding period (a "disqualifying disposition"), the excess (if any) of the fair market value of the shares on the date of transfer of such shares to the optionee over the exercise price (but not in excess of the gain realized on the sale of the shares) will be taxed as ordinary income in the year of such disposition, and the Company generally will be entitled to a deduction in the year of disposition equal to such amount. Any additional gain or any loss recognized by the optionee on such disposition will be short-term or long-term capital gain or loss, as the case may be, depending upon the period for which the shares were held.

NQSOs Exercised With Cash

No taxable income will be recognized by an optionee upon the grant of an NQSO. Upon the exercise of an NQSO, the excess of the fair market value of the shares received at the time of exercise over the exercise price therefor will be taxed as ordinary income, and the Company will generally be entitled to a corresponding deduction. The optionee's tax basis in the shares acquired upon the exercise of such NQSO will be equal to the exercise price paid by the optionee for such shares plus the amount of ordinary income so recognized.

Any gain or loss recognized by the optionee on a subsequent disposition of shares purchased pursuant to an NQSO will be short-term or long-term capital gain or loss, depending upon the period during which such shares were held, in

Edgar Filing: BENTLEY PHARMACEUTICALS INC - Form PRE 14A

an amount equal to the difference between the selling price and the optionee's tax basis in the shares.

25

Exercises of Options Using Previously Acquired Shares

If previously acquired shares are surrendered in full or partial payment of the exercise price of an option (whether an ISO or a NQSO), gain or loss generally will not be recognized by the optionee upon the exercise of such option to the extent the optionee receives shares which on the date of exercise have a fair market value equal to the fair market value of the shares surrendered in exchange therefor ("Replacement Shares"). If the option exercised is an ISO or if the shares used were acquired pursuant to the exercise of an ISO, the Replacement Shares are treated as having been acquired pursuant to the exercise of an ISO.

However, if an ISO is exercised with shares which were previously acquired pursuant to the exercise of an ISO but which were not held for the required two-years-from-grant/one-year-after-transfer holding period, there is a disqualifying disposition of such previously acquired shares. In such case, the optionee would recognize ordinary income on such disqualifying disposition equal to the difference between the fair market value of such shares on the date of exercise of the prior ISO and the amount paid for such shares (but not in excess of the gain realized). Special rules apply in determining which shares are considered to have been disposed of and in allocating the basis among the shares. No capital gain is recognized.

The optionee will have an aggregate basis in the Replacement Shares equal to the basis of the shares surrendered, increased by any ordinary income required to be recognized on the disposition of the previously acquired shares. The optionee's holding period for the Replacement Shares generally includes the period during which the surrendered shares were held.

Any shares received by the optionee on such exercise in addition to the Replacement Shares will be treated in the same manner as a cash exercise of an option for no consideration.

Alternative Minimum Tax

In addition to the federal income tax consequences described above, an optionee who exercises an ISO may be subject to the alternative minimum tax, which is payable only to the extent it exceeds the optionee's regular tax liability. For this purpose, upon the exercise of an ISO, the excess of the fair market value of the shares over the exercise price is an adjustment, which increases the optionee's alternative minimum taxable income. In addition, the optionee's basis in such shares is increased by such amount for purposes of computing the gain or loss on disposition of the shares for alternative minimum tax purposes. If the optionee is required to pay an alternative minimum tax, the amount of such tax which is attributable to deferral preferences (including the ISO adjustment) is allowable as a tax credit against the optionee's regular tax liability (net of other non-refundable credits) in subsequent years. To the extent the credit is not used, it is carried forward. An optionee holding an ISO should consult with the optionee's tax advisors concerning the applicability and effect of the alternative minimum tax.

THE DIRECTORS RECOMMEND A VOTE FOR THE AMENDMENT TO THE EMPLOYEE PLAN.

PROPOSAL 4

APPROVAL OF THE COMPANY'S 2001 DIRECTORS' STOCK OPTION PLAN

On March 30, 2001, the Board of Directors adopted, and on May 9, 2001, the Company's stockholders approved the Company's 2001 Directors' Stock Option Plan. The 2001 Directors' Stock Option Plan is herein referred to as the "Directors' Plan". The Directors' Plan is designed to provide an incentive to key non-employee directors of the Company and to offer an additional inducement in obtaining the services of such persons. The proceeds derived from the sale of shares subject to options will be used for general corporate purposes of the Company.

The Directors' Plan originally provided for the issuance of options to purchase up to 500,000 shares of Common Stock. As of March 31, 2003, options to purchase 492,900 shares of Common Stock were issued and outstanding, leaving a total of 7,100 shares of Common Stock available for future grants under the Directors' Plan. The Board of Directors has amended the Directors' Plan, subject to stockholder approval, to increase the number of shares authorized for issuance by 500,000 shares from 500,000 shares to 1,000,000 shares. If the amendment is approved, there would be 507,100 shares available for future grants under the Directors' Plan. Adoption of this amendment to the Directors' Plan requires that it be approved by an affirmative vote of a majority of shares voted at the Meeting. A copy of the amendment to the Directors' Plan is attached as Appendix C.

The following summary of certain material features of the Directors' Plan does not purport to be complete and is qualified in its entirety by reference to the text of the Directors' Plan, a copy of which is set forth as Appendix C to the Company's Proxy Statement for the Annual Meeting of Stockholders of May 9, 2001.

For a description of the current practice of the Company regarding the award of options to non-employee directors, see "Proposal 1 - Election of Directors - Remuneration of Non-Employee Directors."

SHARES SUBJECT TO THE DIRECTORS' PLAN AND ELIGIBILITY

The Directors' Plan authorizes the grant of options to purchase a maximum of 500,000 shares of the Company's Common Stock (subject to increase as described in the amendment above and to other adjustment as described below) to non-employee directors of the Company. Upon expiration, cancellation or termination of unexercised options, the shares of the Company's Common Stock subject to such options will again be available for the grant of options under the Directors' Plan. All of the non-employee directors of the Company are currently eligible to receive grants of options under the Directors' Plan.

Options to purchase 492,900 shares of the Company's Common Stock have been granted under the Directors' Plan. No additional options have been approved for grant following approval of this amendment. However, certain options are automatically issuable to Directors at the conclusion of the Meeting, as described above under "Proposal 1 - Election of Directors - Remuneration of Non-Employee Directors."

On March 31, 2003, the high and low sales prices of the Company's Common Stock as reported by the American Stock Exchange were \$8.53 and \$8.02 per share, respectively.

TYPE OF OPTIONS

Options granted under the Directors' Plan shall be nonqualified stock options ("NQSOs") which do not qualify as incentive stock options ("ISOs"), within the meaning of Section 422 of the Code.

ADMINISTRATION

The Directors' Plan will be administered by the Corporate Governance and Compensation Committee of the Board of Directors (the "Committee") consisting of at least two members of the Board, each of whom is a "non-employee director" within the meaning of Rule 16b-3 promulgated under the Securities Exchange Act of 1934. The current members of the Committee are Michael McGovern (chairman), Miguel Fernandez and John Spiegel.

Among other things, the Committee is empowered to determine, within the express limits contained in the Directors' Plan: the directors to be granted options, the times when options shall be granted, the number of shares of Common Stock to be subject to each option, the exercise price of each option, the term of each option, the date each option shall become exercisable as well as any terms, conditions or installments relating to the exercisability of each option, whether and under what conditions to accelerate the date of exercise of any option or installment, the form of payment of the exercise price, the amount, if any, required to be withheld with respect to an option and, with the consent of the optionee, to modify an option. The Committee is also authorized to prescribe, amend and rescind rules and regulations relating to the Directors' Plan and to make all other determinations necessary or advisable for administering the Directors' Plan and to construe the Directors' Plan.

TERMS AND CONDITIONS OF OPTIONS

Options granted under the Directors' Plan will be subject to, among other things, the following terms and conditions:

(a) The exercise price of each option will be determined by the Committee but may not be less than the fair market value of the Company's Common Stock on the date of grant.

(b) Options may be granted for terms determined by the Committee; provided, however, that the term may not exceed 10 years.

(c) The exercise price of each option is payable in full upon exercise or, if the applicable stock option contract ("Contract") entered into by the Company with an optionee permits, in installments. Payment of the exercise price of an option may be made in cash, certified check or, if the applicable Contract permits, in previously acquired shares of the Company's Common Stock having an aggregate fair market value on the date of exercise, equal to the aggregate exercise price of all options being exercised, or any combination thereof. The Committee may, in its sole discretion, permit payment of the exercise price of an option by delivery by the optionee of a properly executed notice, together with a copy of the optionee's irrevocable instructions to a broker acceptable to the Committee, to deliver promptly to the Company the amount of sale or loan proceeds sufficient to pay the exercise price.

(d) Options may not be transferred other than by will or by the laws of descent and distribution, and may be exercised during the optionee's lifetime only by

Edgar Filing: BENTLEY PHARMACEUTICALS INC - Form PRE 14A

the optionee or his or her legal representatives.

(e) Except as may otherwise be provided in the applicable Contract, if the optionee's relationship with the Company as a director is terminated for any reason (other than the death or disability of the optionee),

28

the option may be exercised, to the extent exercisable at the time of termination of such relationship, within three months thereafter, but in no event after the expiration of the term of the option. However, if the board appoints the optionee as a director emeritus, the option will expire in accordance with its terms, not in three months. If an optionee ceases to be a director because of his removal or failure to be nominated for re-election to the board or due to a termination of director emeritus status, within three years following a change of control of the Company, the optionee may exercise all options whether or not they had become exercisable. However, if the relationship is terminated either for cause or without the consent of the Company, the option will terminate immediately. In the case of the death of an optionee (or, generally, within three months after termination of such relationship, or within one year after termination of such relationship by reason of disability or retirement), except as otherwise provided in the Contract, his or her legal representative or beneficiary may exercise the option, to the extent exercisable on the date of death, within one year after such date, but in no event after the expiration of the term of the option. Except as otherwise provided in the Contract, an optionee whose relationship with the Company was terminated by reason of his or her disability may exercise the option, to the extent exercisable at the time of such termination, within one year thereafter, but not after the expiration of the term of the option.

(f) The Company may withhold cash and/or shares of the Company's Common Stock having an aggregate value equal to the amount which the Company determines is necessary to meet its obligations to withhold any federal, state and/or local taxes or other amounts incurred by reason of the grant or exercise of an option, its disposition or the disposition of shares acquired upon the exercise of the option. Alternatively, the Company may require the optionee to pay the Company such amount, in cash, promptly upon demand.

ADJUSTMENT IN EVENT OF CAPITAL CHANGES

Appropriate adjustments will be made in the number and kind of shares available under the Directors' Plan, in the number and kind of shares subject to each outstanding option and the exercise prices of such options, as well as the number of shares subject to future grants to optionees, in the event of any change in the Company's Common Stock by reason of any stock dividend, split-up, spin off, combination, reclassification, recapitalization, merger in which the Company is not the surviving corporation, exchange of shares or the like. In the event of (a) the liquidation or dissolution of the Company, or (b) a merger in which the Company is not the surviving corporation or a consolidation, the Board of Directors of the Company shall, as to outstanding options, either (i) make appropriate provisions for the protection of any such outstanding options by the substitution on an equitable basis of appropriate stock of the Company or of the merged, consolidated or otherwise reorganized corporation which will be issuable in respect to one share of Common Stock of the Company; provided, only that the excess of the aggregate fair market value of the shares subject to the options immediately after such substitution over the purchase price thereof is not more than the excess of the aggregate fair market value of the shares subject to such options immediately before such substitution over the purchase price thereof, or (ii) upon written notice to an optionee, provide that all unexercised options

Edgar Filing: BENTLEY PHARMACEUTICALS INC - Form PRE 14A

must be exercised within a specified number of days of the date of such notice or they will be terminated. In any such case, the Board of Directors may, in its discretion, advance the lapse of any waiting or installment periods and exercise dates.

DURATION AND AMENDMENT OF THE DIRECTORS' PLAN

No option may be granted under the Directors' Plan after March 30, 2011. The Board of Directors may at any time terminate or amend the Directors' Plan; provided, however, that, without the approval of the Company's stockholders, no amendment may be made which would (a) except as a result of the anti-dilution adjustments described above, increase the maximum number of shares available for the grant of options, (b) change the eligibility requirements for persons who may receive options or (c)

29

make any changes for which applicable law or regulatory authority requires stockholder approval. No termination or amendment may adversely affect the rights of an optionee with respect to an outstanding option without the optionee's consent.

FEDERAL INCOME TAX TREATMENT

The following is a general summary of certain material federal income tax consequences of the grant and exercise of the options under the Directors' Plan and the sale of any underlying security. This description is based on current law, which is subject to change, possibly with retroactive effect. This discussion does not purport to address all tax considerations relating to the grant and exercise of the options or resulting from the application of special rules to a particular optionee (including an optionee subject to the reporting and short-swing profit provisions under Section 16 of the Securities Exchange Act of 1934, as amended), and state, local, foreign and other tax consequences inherent in the ownership and exercise of stock options and the ownership and disposition of any underlying security. An optionee should consult with the optionee's own tax advisors with respect to the tax consequences inherent in the ownership and exercise of stock options and the ownership and disposition of any underlying security.

NQSOs Exercised With Cash

No taxable income will be recognized by an optionee upon the grant of an NQSO. Upon the exercise of an NQSO, the excess of the fair market value of the shares received at the time of exercise over the exercise price therefor will be taxed as ordinary income, and the Company will generally be entitled to a corresponding deduction. The optionee's tax basis in the shares acquired upon the exercise of such NQSO will be equal to the exercise price paid by the optionee for such shares plus the amount of ordinary income so recognized.

Any gain or loss recognized by the optionee on a subsequent disposition of shares purchased pursuant to an NQSO will be short-term or long-term capital gain or loss, depending upon the period during which such shares were held, in an amount equal to the difference between the selling price and the optionee's tax basis in the shares.

Exercises of Options Using Previously Acquired Shares

If previously acquired shares are surrendered in full or partial payment of the exercise price of an option, gain or loss generally will not be recognized by the optionee upon the exercise of such option to the extent the

Edgar Filing: BENTLEY PHARMACEUTICALS INC - Form PRE 14A

optionee receives shares which on the date of exercise have a fair market value equal to the fair market value of the shares surrendered in exchange therefor ("Replacement Shares").

The optionee will have an aggregate basis in the Replacement Shares equal to the basis of the shares surrendered. The optionee's holding period for the Replacement Shares generally includes the period during which the surrendered shares were held.

Any shares received by the optionee on such exercise in addition to the Replacement Shares will be treated in the same manner as a cash exercise of an option for no consideration.

THE DIRECTORS RECOMMEND A VOTE FOR THE AMENDMENT TO THE DIRECTORS' PLAN.

30

MISCELLANEOUS
