Radnor, Pennsylvania
July 1, 2002

The Company's Annual Report for the fiscal year ended March 31, 2002, accompanies this notice, but is not incorporated as part of the proxy statement and is not to be regarded as part of the proxy solicitation material.

AIRGAS, INC.

PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation of proxies at the direction of the Board of Directors of Airgas, Inc. (the "Company") for use at the Annual Meeting of Stockholders to be held on July 31, 2002.

Stockholders of record at the close of business on June 17, 2002, will be entitled to vote at the Annual Meeting. At the close of business on June 17, 2002, 75,290,738 shares of the Company's \$0.01 par value common stock ("Common Stock") were outstanding and entitled to vote. A stockholder is entitled to one vote for each share of Common Stock held by such stockholder. This Proxy Statement and the enclosed form of proxy are being mailed to the Company's stockholders on or about July 1, 2002.

Shares represented by a proxy in the accompanying form, unless previously revoked, will be voted at the Meeting if the proxy is returned to the Company properly executed and in sufficient time to permit the necessary examination and tabulation before a vote is taken. A proxy may be revoked at any time prior to its exercise by giving written notice to the Secretary of the Company, by giving a later dated proxy, or by voting in person at the meeting. Mere attendance at the Annual Meeting will not revoke the proxy. Any specific instructions indicated on your proxy will be followed. Unless you indicate otherwise on your proxy card, your shares will be voted **FOR** each of the Company's proposals 1, 2 and 3, and at the discretion of the proxy holders on such other business as may properly come before the Annual Meeting. The Board of Directors unanimously recommends that you vote to approve each of the Company's proposals.

Edgar Filing: AIRGAS INC - Form DEF 14A

Abstentions are counted as shares present for purposes of determining the presence or absence of a quorum for the transaction of business, but are not counted as shares voted and therefore have the effect of a vote against Proposals 2 and 3. Brokers holding shares for beneficial owners must vote their shares according to the specific instructions they receive from the owners. If specific instructions are not received, brokers may vote these shares at their discretion, except if they are precluded from exercising their voting discretion on certain proposals pursuant to the rules of the New York Stock Exchange. In such a case, the broker may not vote on the proposal absent specific voting instructions. This results in what is known as a "broker non-vote." A broker non-vote has the effect of a negative vote when a majority of the shares issued and outstanding is required for approval of the proposal. A broker non-vote has the effect of reducing the number of required affirmative votes when a majority of the shares present and entitled to vote is required for approval of the proposal.

The election of each nominee for director (Proposal 1) requires a plurality of votes cast. Brokers have discretionary authority to vote on this proposal. Approval of the amendment to the 1997 Stock Option Plan (Proposal 2) and the ratification of the selection of the auditors (Proposal 3) require the approval of a majority of the outstanding shares of Common Stock present and entitled to vote at the meeting. Brokers are not precluded from voting on Proposals 2 and 3, and therefore there will be no broker non-votes. The New York Stock Exchange determines whether brokers have discretionary authority to vote on a given proposal.

The cost of proxy solicitation, including the cost of reimbursing banks and brokers for forwarding proxies and proxy statements to beneficial owners of the Common Stock, will be paid by the Company. Proxies will be solicited without extra compensation by certain officers and regular employees of the Company by mail and, if found to be necessary, by telephone and personal interviews. The Company has also retained Georgeson Shareholder Communications, Inc. to assist in the solicitation of proxies at an anticipated fee of \$15,500.

GOVERNANCE OF THE COMPANY

Corporate Governance Commitment

The Company's Board of Directors believes strongly that good corporate governance accompanies and greatly aids the Company's long-term business success. This success has been the direct result of the Company's key business strategies and the highest business standards. The Board strongly supports these key strategies, advising on design and implementation, and seeing that they guide the Company's operations. To accomplish its strategic goals, the Company has, consistently over many years, developed and followed a program of corporate governance, the highlights of which are described below. The Board sponsors the Company's Business Conduct Policy which promotes the highest ethical standards in all of the Company's business dealings and its relationships with its employees and the communities where it conducts business. An executive legal officer oversees compliance with these standards. The Board also plays a major role in developing the Company's business strategy. It reviews the Company's strategic plans and receives detailed briefings throughout the year on critical aspects of its implementation. These include subsidiary performance reviews, product category reviews, presentations regarding human resources initiatives and reports from specific disciplines such as information technology.

Board Independence and Expertise

Board and Committee Independence

Since 1987, the Board of Directors has been comprised entirely of outside independent directors, with the exception of the Chief Executive Officer. It is the policy of the Board of Directors that the committees of the Board be composed solely of outside directors, with the exception of the Executive Committee, of which the Chief Executive Officer is a member. There are no interlocking directorships, and none of the outside directors receives any consulting, legal or any other non-director fees from the Company. No director is a former employee of the Company or was ever affiliated with the Company's auditors.

Board Experience and Diversity

As the composition of the Board of Directors exemplifies, the Company values experience in business, educational achievement, moral and ethical character and diversity.

Audit Committee Independence and Financial Literacy

All members of the Audit Committee are outside directors, and the Board of Directors, in its business judgment, has determined that they meet the independence and financial literacy requirements of the NYSE. The chairman of the Audit Committee has accounting or related financial management expertise. The Audit Committee regularly holds separate executive sessions with (1) the independent auditors, without management present, (2) the Chief Financial Officer and (3) the director of the Company's internal auditors.

Directors are Stockholders

Significant Levels of Director Stock Ownership

Board members own significant amounts of Company stock. For more information on director stock ownership, please see the table included in "Security Ownership" on page 17. Board members receive stock options each year as part of their compensation.

2

Direct Access to Management

Management Participation at Board Meetings

Key senior managers regularly attend Board meetings. Topics are presented to the Board by the members of management who are most knowledgeable about the issue at hand, irrespective of seniority, which allows dialogue to develop between directors and management.

Ensuring Management Accountability

Performance-Based Compensation

The Company has linked the pay of its managers and employees at all levels to the Company's performance. As described in greater detail in the Governance and Compensation Committee Report on Executive Compensation included herein, the Governance and Compensation Committee adheres to this pay-for-performance philosophy, and stock-based incentives comprise a significant component of senior management's overall compensation.

CEO Evaluation Process

The Board's evaluation of the CEO is a formal, annual process. The CEO is evaluated against the goals set each year, including both objective measures and subjective criteria reflective of the Company's core values. As part of the overall evaluation process, the Board meets informally with the CEO to give and seek feedback on a regular basis. The Board meets in executive session to review the CEO's performance.

Board Practices Promote Effective Oversight

Board Size

Designed to maximize board effectiveness, the Company's Bylaws fix the number of directors between seven and thirteen. Currently, there are nine directors.

Directorship Limits

To devote sufficient time to properly discharge their duties, no director presently serves on more than three other boards of public companies.

Meeting Attendance

Each director attended at least 75% of the meetings of the Board and the Committees on which they served in fiscal 2002.

Continuous Improvement through Evaluation

Board Evaluation Process

The Board of Directors conducts an annual self-evaluation. The directors first evaluate overall Board performance against certain criteria that the Board has determined are important to its success. These include financial oversight, succession planning, compensation, corporate governance, strategic planning and Board structure and role. The Board then reviews the results of the evaluation and meaningful steps to enhance its performance.

ELECTION OF DIRECTORS

The Bylaws of the Company presently provide that the Board of Directors shall designate the number of directors constituting the Board of Directors, which shall be no less than seven and no more than thirteen members. Currently, that number has been fixed by the Board of Directors at nine. The Board of Directors consists of three classes, with directors of one class to be elected each year, for terms extending to the annual meeting of stockholders held in the third year following the year of their election. The three directors whose terms expire at the 2002 Annual Meeting have been nominated to serve for a term expiring at the 2005 Annual Meeting.

The names and biographical summaries of the three persons who have been nominated to stand for election at the 2002 Annual Meeting and the remaining directors whose terms are continuing until the 2003 or 2004 Annual Meetings appear below. The purpose of the Committee is to review, advise and make recommendations to senior management and to the Board of Directors on the financial affairs, policies and programs of the Company. The Committee meets periodically, but not less than three times per year, to review financial issues of the Company, including the following: capital structure; policies regarding dividends, stock splits and stock repurchases; current and projected capital requirements and the issuance of debt and equity securities; credit agreements and major changes thereto and borrowings and financings of every nature; insurance programs and practices for managing insurable risks; and strategic and business planning processes.

Compensation of Directors

Directors who are not employees of the Company are paid an annual retainer of \$12,000 plus a fee of \$1,500 for each Board or Committee meeting attended, and are entitled to participate in the 1997 Directors' Stock Option Plan (the "Directors' Plan").

In order to closely align the interests of directors with those of stockholders, a majority of the directors' compensation is in the form of stock options. The number of options granted is determined annually by the Governance and Compensation Committee. The exercise price of each option is equal to the fair market value on the date of grant, and each option is exercisable immediately and has a term of 10 years. On August 1, 2001, each Board member was granted 10,000 options with a \$12.40 exercise price.

7

The Chairmen of the Audit Committee, the Governance and Compensation Committee and the Finance Committee also receive an additional \$3,000 annual retainer. Directors are also reimbursed for their travel expenses for attendance at Board and Committee meetings.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities and Exchange Act of 1934 requires the Company's officers and directors, and persons who own more than ten percent of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership of the securities with the Securities and Exchange Commission and the New York Stock Exchange. Such persons are also required to furnish the Company with copies of all Section 16(a) forms they file. The Company is aware of one ten percent stockholder, who is also an officer and director, and his spouse.

Based solely on its review of the copies of the forms received by it with respect to the 2002 fiscal year, or written representations from certain reporting persons that no Forms 5 were required, the Company believes that all of its officers and directors complied with all filing requirements applicable to them, with the following exceptions: (i) Peter McCausland failed to file one Form 4 regarding one transaction for the fiscal year ended March 31, 1999; (ii) Christopher E. Giangrasso, a former officer of the Company, failed to file a Form 3 on a timely basis; and (iii) Patrick M. Visintainer failed to file one Form 4 regarding one transaction on a timely basis. Peter McCausland filed an amended Form 5 for the fiscal year ended March 31, 1999 to correct the failure to report the referenced transaction, and Mr. Giangrasso and Mr. Visintainer have each filed corrective forms.

- (1) These amounts, based on assumed appreciation rates of 0%, 5% and 10% prescribed by the Securities and Exchange Commission rules, are not intended to forecast possible future appreciation, if any, of the Company's stock price.
- (2) Represents options to acquire shares of Common Stock, which become exercisable in four equal annual installments beginning on the date of their grant.
- (3) No gain to the optionees is possible without an increase in stock price, which will benefit all stockholders. If the named executive officers realize the appreciated values based on the 5% and 10% appreciation rates set forth in the table, total stockholder value will have appreciated by approximately \$426 million and \$1.1 billion, respectively, and the aggregate value of the named executive officers' appreciation will be approximately 0.4% of the total stockholders' appreciation. Potential stock price appreciation to all stockholders is calculated based on a total of 75.3 million shares of Common Stock outstanding and entitled to vote on June 17, 2002 and a price of \$8.99 per share, the weighted average exercise price of options granted in fiscal year 2002 referred to in the table above.

in the aggregate, 0.5% of shares of Common Stock of the Company issued and outstanding on any date of grant.

(4)

Includes (a) shares issuable upon exercise of warrants granted to an outside consulting firm for services rendered to the Company. The warrants have a term of three years from the date of grant and have exercise prices in excess of the fair market value on the date of grant, ranging from \$11.98 to \$18.78 per share; and (b) options to acquire 70,984 shares, at a weighted average exercise price of \$5.21 per share, under a plan assumed in connection with the merger of Carbonic Industries Corporation in June 1997. The options under the assumed plan expire on March 29, 2005, and no further awards will be made under the plan.

Deferred Compensation Plan

The Company's Deferred Compensation Plan provides that an eligible employee may elect to defer a specified percentage of his or her annual salary and/or bonus by making a timely deferral election. Participants may choose to have amounts credited to a retirement account, to provide funds to the participant after retirement, and/or an in-service account, to provide funds to the participant while still employed by the Company. Participants make elections as to how their deferred amounts shall be deemed invested among several options available under the plan. The participant's accounts will be credited with earnings, gains and losses as if the amounts were actually invested in accordance with the participant's investment elections. The Company's obligations under the plan will be unsecured general obligations to pay the compensation in the future in accordance with the terms of the plan.

12

Termination of Employment and Change of Control Arrangements

The Company has entered into "change-of-control" agreements ("Change-of-Control Agreements") with Mr. McCausland, Mr. Fischer, Mr. Millay, Mr. Schulte, Mr. Powers and seven other key management personnel. The terms of the agreements are consistent with similar agreements used in other major U.S. public corporations and provide salary and benefit continuation if the executive is terminated upon a change-of-control. A change-of-control is defined to include events in which a party (other than Mr. McCausland) acquires 20% or more of the combined voting power of the Company's then outstanding securities; or in which Mr. McCausland, together with all affiliates and associates, acquires 30% or more of the combined voting power of the Company's then outstanding securities. Under the Change-of-Control Agreements, following the executive's termination, he or she would be entitled to a lump sum payment equal to one to three times (depending upon the executive) the executive's annual base salary at the time of termination plus the executive's potential bonus amount for the fiscal year in which the change-of-control occurred. The executive's health and welfare benefits would also continue for two or three years, depending upon the executive, and the executive would be vested in all stock options and restricted stock. The cash and non-cash amounts payable under the Change-of-Control Agreements and under any other arrangements with the Company are limited to the maximum amount permitted without the imposition of an excise tax under the Internal Revenue Code. Generally, this would limit an executive's benefits to 2.99 times the executive's average annual compensation for the preceding five years.

Subject to the above limitation of 2.99 times average annual compensation, in addition to Mr. McCausland's right to payment of two times his annual salary and bonus under his Change-of-Control Agreement, under an arrangement entered into in 1992, in the event of the termination of Mr. McCausland's employment for any reason including a change of control, Mr. McCausland is entitled to a payment equal to two times his annual salary, the continuation of health insurance and other employee benefits for a three-year period and automatic vesting of all of his stock options. Generally, the limitation under Mr. McCausland's Change-of-Control Agreement would reduce the amount payable under his 1992 arrangement to the extent that the aggregate benefits under the Change-of- Control Agreement and the 1992 arrangement exceed 2.99 times his average annual compensation for the preceding five years.

GOVERNANCE AND COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Governance and Compensation Committee of the Board of Directors has furnished the following report on executive compensation. Under the supervision of the Governance and Compensation Committee, the Company has developed and implemented compensation policies, plans and programs. The Committee is composed of three independent, non-employee directors. Following review and approval by the Governance and Compensation Committee, all issues pertaining to executive compensation (other than the granting of stock options or restricted stock awards under the Company's stock option plans and the establishment of performance goals under the Company's management bonus plans) are submitted to the full Board of Directors for approval.

Since its inception, the Company has maintained the philosophy that compensation of its entire management team, including executive officer level positions through operating management positions at the Company's operating subsidiaries, should be directly and materially linked to operating performance. To achieve this linkage, compensation is heavily weighted towards bonuses paid on the basis of performance and towards the award of stock options to a relatively broad level of operating management associates.

Compensation Principles

The foundation of the management compensation program is based on beliefs and guiding principles designed to align compensation with business strategy, Company values and management initiatives. The program:

Rewards executives for long-term strategic management and the enhancement of shareholder value through the award of stock options as a significant percentage of total compensation.

Integrates compensation programs with both the Company's annual and longer-term strategic planning and measurement processes.

Provides flexibility in order to maximize local autonomy, which the Company views as an important element of its success.

Executive Compensation Program

The total compensation program consists of both cash and equity-based compensation. The annual compensation consists of a base salary and an annual bonus under the Company's management bonus plans. Incentive compensation is closely tied to corporate and individual performance in a manner that encourages a continuing focus on building profitability and shareholder value. Periodically, the Committee determines the salary ranges for executive officers upon review of salary ranges in companies comparable in size in terms of annual sales and capitalization. The comparison group includes companies in the specialty chemicals industry plus distribution companies outside of the Company's industrial classification. The Committee includes companies outside of the Company's industry in the comparison group because it believes that the Company is similar in certain respects to such companies. Actual salary changes are based upon individual and Company-wide performance, and total compensation levels generally are comparable to the median total compensation levels paid at companies in the comparison group. The individual's performance is measured against specific management objectives, such as operating profits, return on capital, safety targets, programs for training and development of personnel and sales and marketing programs.

In addition to salary, there is the opportunity to earn significantly higher total compensation through incentive bonus and stock option programs. The bonus and stock option components are "at risk," meaning that the ultimate value of the compensation depends on such factors as Company financial performance, individual performance and stock price. This at risk portion of the Company's executive compensation generally ranges from approximately 45% to 65% of total compensation. The Committee approves the participation of key executives in the Executive Bonus Plan. Awards for executive officers vary with a combination of the Company's achievement of return on capital and earnings goals and are then adjusted up or down for the executive's achievement of specified objectives and individual job performance. The objectives that the Committee considers are the same as those used to determine salary. The Committee relies on these quantitative and qualitative measures and it uses subjective judgment and discretion in light of these measures and the Company's compensation principles described above to determine base salaries and bonuses.

Long-term incentives are provided through the grant of stock options. The Committee reviews and approves the participation of executive officers of the Company and its subsidiaries under the Company's stock option plan. The Committee has the authority to determine the individuals to whom stock options are awarded, the terms of the options and the number of shares subject to each option. In determining the total number of options to be granted, the Committee considers the percentage dilution of the grants and the value of the options using the Black-Scholes method. The size of the individual option grants is generally based upon position level. As with the determination of base salaries and bonuses, the Committee relies on quantitative and qualitative measures, exercising subjective judgment and discretion in view of these measures and the Company's general policies. During fiscal 2002, the value of options granted was generally between 25% and 40% of an executive officer's total compensation. Through grants of stock options, the objective of aligning executive officers' long-range interests with

those of the stockholders are met by providing the executive officers with the opportunity to build a meaningful stake in the Company. Executive officers may also participate in the Company's Deferred Compensation Plan, under which the executive may elect to defer a portion of his or her salary and bonus, the Company's 401(k) Plan, which includes Company matching contributions and discretionary contributions based on the Company's profitability, and the Company's Employee Stock Purchase Plan, which permits eligible employees to purchase shares of the Company's Common Stock at a 15% discount from the market price.

Chief Executive Officer Compensation

The Governance and Compensation Committee reviewed the Chief Executive Officer's compensation for fiscal year 2002 and determined that his base salary would increase to \$600,000. This base salary approximates the median level of chief executive officers of the comparison group of companies and is consistent with the Company's objective of paying a higher level of compensation through its at risk bonus and stock option programs. A fiscal year 2002 bonus of \$750,000 was awarded to the Chief Executive Officer. This was the result of the Company achieving the objective earnings performance targets as set forth in the Executive Bonus Plan, and certain other operating objectives. In determining the number of shares to be awarded as stock options, the Committee considered the executive compensation paid by the comparison group of companies and the Chief Executive Officer's performance.

Deductibility

The Committee's policy is to pursue a compensation strategy which is performance-based, minimizing the non-deductibility of compensation for the Company's executive officers under Section 162(m) of the Internal Revenue Code, while maintaining the flexibility of its compensation programs to attract and retain highly qualified executives in a competitive environment. Accordingly, the Committee may award non-deductible compensation when necessary to enable the Company to meet its overall objectives.

**PROPOSAL TO APPROVE AN AMENDMENT
TO THE 1997 STOCK OPTION PLAN**

On May 15, 1997, the Board of Directors adopted the 1997 Stock Option Plan (the "1997 Plan"). The 1997 Plan was approved by a majority of the outstanding shares of Common Stock represented and entitled to vote at the Annual Meeting of Stockholders held on August 4, 1997. The Governance and Compensation Committee, recognizing that insufficient shares are available to provide future grants of stock options under the 1997 Plan, advised the Board of Directors that it is in the best interest of the Company to increase the number of shares available for grant under the 1997 Plan. Accordingly, on May 7, 2002, the Board of Directors adopted, subject to stockholder approval, an amendment to the 1997 Plan (the "Amendment") to increase the total number of shares of Common Stock reserved for sale upon the exercise of Options and Restricted Stock Awards (as such terms are defined below) granted under the 1997 Plan from 8,000,000 to 11,200,000. The text of the 1997 Plan, as amended, is set forth in Exhibit A to this Proxy Statement. The following summary is subject to, and qualified in its entirety by reference to, Exhibit A.

The Company believes that the granting of stock options is a significant incentive to employees to enter into employment with, or remain employees of, the Company and to devote themselves to the Company's success. The Board believes that continuing to offer the Company's employees long-term performance-based compensation through the 1997 Plan, will enable the Company to continue to attract, motivate and retain experienced and highly qualified employees who will contribute to the Company's financial success. The Board believes that the stock option program that the Company has maintained throughout its history, under which the Company grants options to a broad-based category of employees, is an integral part of its compensation structure and success, and allows the Company to align its goals and strategies with those of its non-executive officer employees located throughout its decentralized organization. The Committee considers the dilutive effect of the grant of options, and, accordingly, over the past ten years, has limited the number of options granted as compared to the number of shares outstanding to an average of less than 2% per year. As of March 31, 2002, there were approximately 990 employees who were participants under the 1997 Plan, 978 of whom were non-executive officers.

Upon stockholder approval of the 1997 Plan, no additional options were granted under the 1984 Stock Option Plan.

Vote Required for Amendment to the 1997 Stock Option Plan

To be amended, the 1997 Plan must be approved by a majority of the outstanding shares of Common Stock represented and entitled to vote at the meeting.

The Board unanimously recommends a vote FOR the adoption of the Amendment to the 1997 Plan.

Description of the Plan

Eligibility

Those persons who are employees and independent contractors of the Company are eligible to be selected by the Governance and Compensation Committee (the "Committee") of the Board of Directors. In selecting participants, the Committee may consider the nature of the person's services and responsibilities, the person's present and potential contribution to the Company's success, and other factors it deems relevant.

20

Types of Grants

The 1997 Plan authorizes (i) the granting of incentive stock options ("Incentive Options") to purchase shares of the Company's Common Stock, (ii) the granting of nonqualified stock options ("Nonqualified Options") to purchase shares of the Company's Common Stock, and (iii) the granting of shares of the Company's Common Stock subject to conditions of forfeiture ("Restricted Stock Awards"). Unless the context otherwise requires, the term "Option" includes both Incentive Options and Nonqualified Options.

Administration

The 1997 Plan is administered by the Committee which consists of at least two non-employee members of the Board of Directors. The Committee in its sole discretion determines the eligible persons to be awarded Options and Restricted Stock Awards, the number of shares subject thereto and the exercise price of Options, subject to certain limitations. In addition, the determinations and the interpretation and construction of any provision of the 1997 Plan by the Committee is final, binding and conclusive.

Common Stock Subject to the 1997 Plan

A total of 8,000,000 shares of Common Stock (subject to adjustment as discussed below) have been reserved for sale upon exercise of Options and Restricted Stock Awards granted under the 1997 Plan, provided that the Committee may not issue more than 1,000,000 shares as Restricted Stock Awards, and that Restricted Stock Awards under the 1997 Plan and the 1997 Directors' Stock Option Plan in any calendar year may not exceed, in the aggregate, 0.5% of the shares of Common Stock issued and outstanding on any date of grant. No Restricted Stock Awards have ever been granted under the 1997 Plan or the 1997 Directors' Stock Option Plan.

If the amendment to the 1997 Plan is approved by the stockholders, a total of 11,200,000 shares of Common Stock (subject to adjustment as discussed below) will be reserved for sale upon exercise of Options and Restricted Stock Awards under the 1997 Plan.

Participation in the 1997 Plan

As of the date hereof, there were approximately 8,500 employees who were eligible to receive Options and Restricted Stock Awards under the 1997 Plan. The grant of Options and Restricted Stock Awards under the 1997 Plan is subject to the discretion of the Committee. As of the date of this Proxy Statement, there has been no determination by the Committee with respect to future awards under the 1997 Plan. Accordingly, future awards are not determinable at this time. Non-employee directors are not eligible to participate in the 1997 Plan. No Restricted Stock Awards were granted during fiscal year 2002.

The following table summarizes option grants made under the 1997 Plan during fiscal year 2002 to:

the executive officers named in the Summary Compensation Table;

all current executive officers as a group;

all other employees as a group; and

each other person who received or will receive five percent (5%) of such options.

Options may not be granted with an exercise price per share that is less than the closing price of a share of Common Stock at the date of grant.

Payment of Exercise Price

The exercise price of an Option may be paid in cash, by certified check, by the delivery of already owned Common Stock having a fair market value equal to the exercise price, by the use of the cashless exercise features of the 1997 Plan, or by such other mode of payment as the Committee may approve, provided, however, that if the optionee acquired such stock directly or indirectly from the Company, he shall have owned such stock to be surrendered for six months prior to tendering such stock for the exercise of an Option.

Special Provisions for Incentive Options

An employee may receive more than one Incentive Option, but the maximum aggregate fair market value of the Common Stock (determined when the Incentive Option is granted) with respect to which Incentive Options are first exercisable by such employee in any calendar year cannot exceed \$100,000. In addition, no Incentive Option may be granted to an employee owning directly or indirectly stock possessing more than 10% of the total combined voting power of all classes of stock of the Company unless the exercise price is set at not less than 110% of the fair market value of the shares subject to such Incentive Option on the date of grant and such Incentive Option expires not later than five years from the date of grant.

Transferability of Options

No Incentive Option granted under the 1997 Plan is assignable or transferable, otherwise than by will or by the laws of descent and distribution or pursuant to a qualified domestic relations order. The Committee may grant Nonqualified Options that are transferable without consideration, to immediate family members.

Exercisability of Options

Unless the Committee provides otherwise, Options are exercisable in four cumulative, annual installments of 25% of the shares subject to the Option beginning one year after grant, provided that the Optionee remains an employee of the Company on such dates. If an optionee's employment terminates due to death, disability or retirement, the next annual installment which would become exercisable on the next anniversary will become exercisable. The 1997 Plan provides that upon the occurrence of certain changes in control, mergers or sales of substantially all of the assets of the Company, each Option shall immediately become exercisable in full.

Expiration of Options

The expiration date of an Option is determined by the Committee at the time of the grant, but, unless otherwise provided by the Committee, Options will not be exercisable after the expiration of 10 years from the date of grant of the Option. Options generally terminate 90 days after the date that the optionee's employment terminates, except that Incentive Options terminate on the expiration of the Incentive Option if termination is due to death. Nonqualified Options remain exercisable for the full term of the Option if termination is due to death, disability or retirement. Options terminate immediately if the Committee finds that the optionee has engaged in certain dishonest acts, has disclosed trade secrets or confidential information or has engaged in competition with the Company.

Edgar Filing: AIRGAS INC - Form DEF 14A

As described below, an Option becomes exercisable in full upon the occurrence of certain corporate transactions.

Restricted Stock Awards

A Restricted Stock Award is an award of Common Stock that vests at such time and in such installments as may be determined by the Committee, and until it vests, is subject to restrictions on transferability and to the possibility of forfeiture. In addition, each grant of Restricted Stock Awards will be subject to such other restrictions as are set by the Committee. If the Committee finds that the participant has engaged in certain dishonest acts, has disclosed trade secrets or confidential information or has engaged in competition with the Company, the nonvested shares will be forfeited, and all shares become nonforfeitable if a change in control occurs.

Adjustments

The 1997 Plan provides for adjustments to the number of shares for which Options may be granted, to the number of shares subject to outstanding Options and to the exercise price of such outstanding Options in the event of a declaration of a stock dividend or any recapitalization resulting in a stock split-up, combination or exchange of the Company's Common Stock.

Certain Corporate Transactions

All outstanding Options that are not exercisable automatically become immediately exercisable upon a change in control, as defined in the 1997 Plan. In general, a change in control is deemed to have occurred when (1) a change in the majority of the Board of Directors occurs during any two-year period without the approval of a majority of directors in office at the beginning of such period, (2) any person or group, other than the Company, an affiliate, or an employee benefit plan, becomes the beneficial owner of securities representing more than 20% of combined voting power of Company's outstanding securities, or (3) the stockholders approve a merger or other disposition of all or substantially all of the Company's assets, if the Company's stockholders immediately before the transaction own, immediately after such transaction, equity securities possessing less than 50% of the voting power of the surviving or acquiring corporation.

23

Amendments; Term of Plan

The Board may amend or terminate the 1997 Plan at any time subject to stockholder approval in certain instances. The Board may not amend the 1997 Plan without stockholder approval to increase the number of shares of Common Stock as to which Options or Restricted Stock Awards may be granted or to change the class of individuals eligible to participate in the 1997 Plan. No Options or Restricted Stock Awards may be granted under the 1997 Plan after May 15, 2007.

Tax Withholding

A grantee of an Option or a Restricted Stock Award may elect to satisfy withholding taxes by delivering to the Company shares of the Company's Common Stock having a fair market value equal to such withholding taxes. The Committee may impose such limitations and prohibitions on the use of shares of Common Stock to satisfy withholding tax requirements as it deems appropriate.

Federal Income Tax Consequences

Grants of Options

Under current tax laws, the grant of an Option will not be a taxable event to the recipient optionee and the Company will not be entitled to a deduction with respect to such grant.

Exercise of Nonqualified Options and Subsequent Sale of Stock

Upon the exercise of a Nonqualified Option, an optionee will recognize ordinary income at the time of exercise equal to the excess of the then fair market value of the Company's Common Stock received over the exercise price. The taxable income recognized upon exercise of a Nonqualified Option will be treated as compensation income subject to withholding and the Company will be entitled to deduct as a compensation expense an amount equal to the ordinary income an optionee recognizes with respect to such exercise. When shares of the Common Stock received upon the exercise of a Nonqualified Option subsequently are sold or exchanged in a taxable transaction, the holder thereof generally will recognize capital gain (or loss) equal to the difference between the total amount realized and the fair market value of the Common Stock on the date of exercise; the character of such gain or loss as long-term or short-term capital gain or loss will depend upon the

holding period of the shares following exercise.

Exercise of Incentive Options and Subsequent Sale of Stock

The exercise of an Incentive Option will not be taxable to the optionee, and the Company will not be entitled to any deduction with respect to such exercise. However, to qualify for this favorable tax treatment of incentive stock options under the Code, the optionee may not dispose of the Common Stock acquired upon the exercise of an Incentive Option until after the later of two years following the date of grant or one year following the date of exercise. The surrender of shares of the Company's Common Stock acquired upon the exercise of an Incentive Option in payment of the exercise price of an Option within the required holding period for incentive stock options under the Code will be a disqualifying disposition of the surrendered shares. Upon any subsequent taxable disposition of the Company's Common Stock received upon exercise of an Incentive Option, the optionee generally will recognize long-term or short-term capital gain (or loss) equal to the difference between the total amount realized and the exercise price of the Option.

If an Option that was intended to be an incentive stock option under the Code does not qualify for favorable incentive stock option treatment under the Code due to the failure to satisfy the holding period requirements, the optionee may recognize ordinary income in the year of the disqualifying disposition. Provided the amount realized in the disqualifying disposition exceeds the exercise price, the

24

ordinary income an optionee shall recognize in the year of a disqualifying disposition shall be the lower of (i) the excess of the amount realized over the exercise price or (ii) excess of the fair market value of the Company's Common Stock at the time of the exercise over the exercise price. In addition, the optionee shall recognize a capital gain on the disqualifying disposition in the amount, if any, by which the amount realized in the disqualifying disposition exceeds the fair market value of the Company's Common Stock at the time of the exercise. Such capital gain shall be taxable as long-term or short-term capital gain, depending on the optionee's holding period for such shares.

Notwithstanding the favorable tax treatment of Incentive Options for regular tax purposes, as described above, for alternative minimum tax purposes, an Incentive Option is generally treated in the same manner as a Nonqualified Option. Accordingly, an optionee must generally include in alternative minimum taxable income for the year in which an Incentive Option is exercised the excess of the fair market value on the date of exercise of the Company's Common Stock received over the exercise price. If, however, an optionee disposes of the Company's Common Stock acquired upon the exercise of an Incentive Option in the same calendar year as the exercise, only an amount equal to the optionee's ordinary income for regular tax purposes with respect to such disqualifying disposition will be recognized for the optionee's calculation of alternative minimum taxable income in such calendar year.

Restricted Stock Awards

The recipient of a Restricted Stock Award recognizes no income and the Company can take no deduction for federal income tax purposes when a Restricted Stock Award is granted, unless the recipient makes an election to recognize income on the date of grant. On the date of vesting of shares subject to a Restricted Stock Award (or if a participant so elects, on the date of grant) a participant will realize ordinary income in an amount equal to the fair market value of the shares on that date and the Company, upon compliance with certain withholding tax rules, will be entitled to a deduction in the same amount. If a participant who elects to recognize income on the date of grant subsequently forfeits shares subject to the participant's Restricted Stock Award, the participant will not be entitled to either a deduction for the amount previously recognized as income with respect to the forfeited shares or refund of any taxes paid thereon.

Stock Price Information

The closing price of the Company's Common Stock on the New York Stock Exchange on June 21, 2002, was \$16.69.

EXHIBIT A

AIRGAS, INC. 1997 STOCK OPTION PLAN, AS AMENDED

Edgar Filing: AIRGAS INC - Form DEF 14A

(Effective May 15, 1997, and as amended through May 7, 2002)

1. *Purpose.* AIRGAS, INC. (the "Company") hereby adopts the Airgas, Inc. 1997 Stock Option Plan effective May 15, 1997 (the "Plan") as an additional incentive to eligible employees and eligible independent contractors (as determined under Section 3) to enter into or remain in the employ or service of the Company or any Affiliate (as defined below) and to devote themselves to the Company's success by providing them with an opportunity to acquire or increase their proprietary interest in the Company through receipt of (a) rights (the "Options") to purchase the Company's Common Stock, par value \$0.01 per share (the "Common Stock") or (b) Common Stock subject to conditions of forfeiture (the "Restricted Stock Awards"). Each Option granted under the Plan shall specify whether or not it is intended to be an incentive stock option ("ISO") within the meaning of section 422(b) of the Internal Revenue Code of 1986, as amended (the "Code") or a nonstatutory stock option ("NSO") for federal income tax purposes. For purposes of the Plan, the term "Affiliate" shall mean a corporation which is a parent corporation or a subsidiary corporation with respect to the Company within the meaning of section 424(e) or (f) of the Code.

2.

Administration.

(a) *Committee.* The Plan shall be administered by the Governance and Compensation Committee designated by the Company's Board of Directors (the "Committee") which shall consist of at least two persons, each of whom is a "non-employee director" as defined under Rule 16b-3 under the Securities Exchange Act of 1934 (the "Exchange Act"), and an "outside director" as defined under section 162(m) of the Code (the "Non-Employee Director"). If any Committee member does not qualify as a Non-Employee Director, then such member shall not participate in any way with respect to Committee action under the Plan and shall not be treated as a member of the Committee for purposes of the Plan.

(b) *Meetings.* The Committee shall hold meetings at such times and places as it may determine. Acts approved at a meeting by a majority of the directors who are members of the Committee and present at a meeting at which there is a quorum or acts approved in writing by the unanimous consent of the directors who are members of the Committee (not counting any director who is an employee for either purpose) shall be the valid acts of the Committee.

(c) *Grants.* The Committee shall from time to time at its discretion direct the Company to grant Options or Restricted Stock Awards pursuant to the terms of the Plan. Subject to the express provisions of the Plan, the Committee shall have plenary authority to determine the persons to whom and the times at which Options or Restricted Stock Awards shall be granted, the number of shares of Common Stock to be granted under an Option or Restricted Stock Award and the price and other terms and conditions thereof, including a specification with respect to whether or not an Option is intended to be an ISO. In making such determinations the Committee may take into account the nature of the person's services and responsibilities, the person's present and potential contribution to the Company's success and such other factors as it may deem relevant. The Committee's interpretation of any provision of the Plan or of any Option or Restricted Stock Award granted under it shall be final, binding and conclusive.

(d) *Exculpation.* Each Committee member shall be acting in the capacity of a director of the Company for the purpose of Article VI of the Company's Certificate of Incorporation in connection with the administration of the Plan or the granting of Options or Restricted Stock Awards under the Plan.

A-1

(e) *Indemnification.* Each Committee member shall be entitled to indemnification by the Company in accordance with the provisions and limitations of Article VII of the Company's Bylaws, as the same may be amended from time to time, in connection with or arising out of any action, suit or proceeding with respect to the administration of the Plan or the granting of Options or Restricted Stock Awards under the Plan in which he may be involved by reason of his being or having been a Committee member, whether or not he continues to be a Committee member at the time of the action, suit or proceeding.

3. *Eligibility.* All persons the Company or its Affiliates employ as employees or retain as independent contractors (other than directors who are not employees) who, in the Committee's judgment, hold positions of responsibility or whose performance can have a significant or material effect on the Company's long-term success or achievement of specific objectives shall be eligible to participate (the "Participants"). The Committee, in its sole discretion, shall determine whether an individual qualifies as a Participant. Subject to the Plan's terms and restrictions, a Participant may receive more than one Option or Restricted Stock Award; provided, however, a Participant may not receive Options and Restricted Stock Awards in any one calendar year for more than an aggregate of 1,000,000 Shares. A Participant who is an independent contractor may not receive an Option which is intended to be an ISO.

Edgar Filing: AIRGAS INC - Form DEF 14A

4. *Available Shares.* The aggregate maximum number of shares of the Common Stock for which the Committee may issue Options or Restricted Stock Awards under the Plan is 11,200,000 shares, adjusted as provided in Section 9 (the "Plan Shares" or "Shares"); provided, however, the Committee may not issue more than 1,000,000 Shares as Restricted Stock Awards in the aggregate, and Restricted Stock Awards under this Plan and the Company's 1997 Directors' Stock Option Plan in any calendar year may not exceed 0.5% of the shares of Common Stock issued and outstanding on any date of grant. Plan Shares shall be issued from authorized and unissued Common Stock or Common Stock held in or hereafter acquired for the Company's treasury. If any outstanding Option or Restricted Stock Award granted under the Plan expires, lapses or is terminated for any reason, the Plan Shares allocable to the unexercised portion of such Option or forfeited portion of such Restricted Stock Award may again be the subject of grant pursuant to the Plan.

5. *Term of Plan.* The Plan is effective as of May 15, 1997, the date on which it was adopted by the Company's Board of Directors. No Option or Restricted Stock Award granted under the Plan shall be exercisable or nonforfeitable unless the Plan is approved by vote of a majority of the outstanding voting stock of the Company on or before May 15, 1998. No Option or Restricted Stock Award may be granted under the Plan after May 15, 2007.

6. *Terms and Conditions of Options.* Options granted pursuant to the Plan shall be evidenced by written documents (the "Option Documents") in such form or forms as the Committee shall from time to time approve. Option Documents shall comply with and be subject to the terms and conditions set forth below and such other terms and conditions which the Committee shall from time to time specify with respect to a particular Option or Options provided they are not inconsistent with the terms of the Plan. The applicable terms need not be uniform between or among Options.

(a) *Number of Shares.* Each Option Document shall state the number of Shares to which it pertains.

(b) *Option Price.* Each Option Document shall state the price at which Shares under Option may be purchased (the "Option Price"), which shall be at least 100% of the Common Stock's closing price on the New York Stock Exchange (or such other exchange as the Committee selects) on the date the Option is granted; provided, however, if an ISO is granted to a Participant who then owns, directly or by attribution under section 424(d) of the Code, shares possessing more than ten percent of the total combined voting power of all classes of stock of the Company or an Affiliate, then the Option Price for such ISO shall be at least 110% of the Common Stock's closing price on the date the Option is granted.

A-2

(c) *Exercisability.*

(i) *General Rule.* Unless the Committee provides otherwise in an Option Document, each Option granted under the Plan shall be exercisable in cumulative equal installments of 25% of the Shares under Option on each of the first four anniversaries of the date of grant provided the Participant remains an employee of the Company or an Affiliate on such date(s). Further, if a Participant terminates employment due to death, disability, or retirement (as defined below) prior to the date an Option is 100% exercisable, the installment which would become exercisable on the next anniversary shall become exercisable. For the purposes of this Plan, a Participant's employment will be deemed to terminate due to "retirement" if, on his termination date, the Participant is at least age 65 or the sum of the Participant's age and completed years of employment with the Company or an Affiliate measured from his date of hire is at least 75. Except to the limited extent provided in the preceding sentence, the portion of an Option which is exercisable shall be fixed on the Participant's employment termination date. No Option shall be exercisable after its term expires pursuant to subsection 6(e), 6(f) or 6(g).

(ii) *Change in Control.* If a Change in Control of the Company (as defined below) occurs, then all Options which both were not exercisable and have not terminated as of the date of such "Change in Control" shall as of such date become immediately exercisable except to the extent the Participant waives such accelerated right to exercise. A "Change in Control" shall be deemed to have taken place upon the date when (A) as a result of a tender offer, stock purchase, other stock acquisition, merger, consolidation, recapitalization, reverse split, sale or transfer of any asset or other transaction any person or group (as such terms are used in and under Section 13(d) of the Exchange Act) other than the Company, any Affiliate, or any employee benefit plan of the Company or an Affiliate, shall become the beneficial owner (as defined in Rule 13-d under the Exchange Act) directly or indirectly of securities of the Company representing more than 20% of the combined voting power of the Company's then outstanding securities; providing, however, that this provision shall not apply to Peter McCausland ("McCausland"), unless and until McCausland, together with all affiliates and associates, becomes the beneficial owner of 30% or more of the combined voting power of the Company's then outstanding securities; (B) stockholders approve the consummation of any merger of the Company or any sale or other disposition of all or substantially all of its assets, if the Company's stockholders immediately before such transaction own, immediately after consummation of such transaction, equity securities (other than options and other rights to acquire equity securities) possessing less than 50% of the voting power of the surviving or acquiring corporation; or (C) a change in the majority of the individuals who

Edgar Filing: AIRGAS INC - Form DEF 14A

constitute the Company's Board of Directors occurs during any period of two years for any reason without the approval of at least a majority of directors in office at the beginning of such period.

(d) *Medium of Payment.* A Participant shall pay for Shares under Option (i) in cash, (ii) by certified check payable to the order of the Company, (iii) in shares of the Common Stock held by the Participant for at least six months as of the exercise date, (iv) by a combination of the foregoing, (v) by delivery to the Company of a properly executed notice of exercise together with irrevocable instructions to a broker to deliver to the Company promptly the amount of the proceeds of the sale of all or a portion of the Shares or of a loan from the broker to the Participant necessary to pay the aggregate exercise price payable for the purchased Shares plus all applicable federal, state and local income and employment taxes required to be withheld by the Company by reason of such exercise or (vi) by such other mode of payment as the Committee may approve. If payment is made in whole or in part in shares of the Common Stock, then the Participant shall deliver to the Company certificates registered in the name of such Participant representing shares of Common Stock owned by such Participant, free of all liens, claims and

A-3

encumbrances of every kind and having a fair market value on the date of delivery that is not greater than the Option Price of the Shares with respect to which such Option is to be exercised, accompanied by stock powers duly endorsed in blank by the Participant. Notwithstanding the foregoing, the Committee may impose such limitations and prohibitions on the use of shares of the Common Stock to exercise an Option as it deems appropriate.

(e) *Termination of ISOs.* Unless the Committee provides otherwise in an Option Document, an ISO shall not be exercisable after the first to occur of the following:

(i) *Term Expiration.* Expiration of the term specified in the Option Document, which shall not exceed ten years from the date of grant or five years from the date of grant if the Participant on the date of grant owns, directly or by attribution under section 424(d) of the Code, shares possessing more than ten percent of the total combined voting power of all classes of stock of the Company or of an Affiliate;

(ii) *Employment Termination.* Expiration of 90 days from the date the Participant's employment with the Company or its Affiliates terminates unless any of subsection 6(e)(iii) 6(e)(vi) applies;

(iii) *Retirement.* Expiration of 90 days from the date the Participant's employment with the Company or its Affiliates terminates due to "retirement";

(iv) *Disability.* Expiration of one year from the date the Participant's employment with the Company or its Affiliates terminates if the Participant terminates due to disability (within the meaning of section 22(e)(3) of the Code);

(v) *Death.* Expiration of the Option term if the Participant's employment terminates due to death; or

(vi) *Forfeiture.* The date on which forfeiture occurs under subsection 6(g).

(f) *Termination of NSOs.* Unless the Committee provides otherwise in an Option Document, an NSO shall not be exercisable after the first to occur of the following:

(i) *Term Expiration.* Expiration of the term specified in the Option Document, which shall not exceed ten years from the date of grant;

(ii) *Employment Termination Before Death, Disability or Retirement.* Expiration of 90 days from the date the Participant's employment with the Company or its Affiliates terminates for reasons other than death, disability (within the meaning of section 22(e)(3) of the Code) or "retirement"; or

(iii) *Forfeiture.* The date on which forfeiture occurs under subsection 6(g).

(g) *Forfeiture.* An Option shall terminate immediately upon a finding by the Committee, after full consideration of the facts presented on behalf of both the Company and the Participant, that the Participant has engaged in any sort of disloyalty to the Company or an Affiliate, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty in the course of his employment or service or has disclosed trade secrets or confidential information of the Company or an Affiliate or engaged in

Edgar Filing: AIRGAS INC - Form DEF 14A

competition with the Company or an Affiliate. In such event, in addition to immediate termination of the Option, the Participant, upon a determination by the Committee, shall automatically forfeit all Shares for which the Company has not yet delivered the share certificates upon the Company's refund of the Option Price.

(h) *Transfers.* Generally, a Participant may not transfer any Option granted under the Plan, except that (i) during his lifetime, a Participant may transfer an NSO to a spouse or a lineal ascendant or descendant or a trust for the benefit of such a person or persons or a partnership in

A-4

which such persons are the only partners, provided the Participant receives no consideration for any such transfer and (ii) at the Participant's death, a Participant may transfer an Option by will or by the laws of descent and distribution. If a transfer occurs under this subsection, the transferred Option shall remain subject to all Plan provisions. A transferee shall be required to furnish proof satisfactory to the Committee of the transfer to him by gift or by will or laws of descent and distribution.

(i) *Limits on ISOs.* Each ISO shall provide that to the extent the aggregate fair market value of Plan Shares with respect to which a Participant may exercise an ISO for the first time during any calendar year under any Company plan exceeds \$100,000, then such Option shall be treated as an NSO rather than as an ISO.

(j) *Other Provisions.* The Option Documents shall contain such other provisions including, without limitation, additional restrictions upon the exercise of the Option or additional limitations upon the term of the Option, as the Committee shall deem advisable.

(k) *Amendment.* The Committee shall have the right to amend Option Documents issued to a Participant subject to the Participant's consent.

7. *Method of Option Exercise.*

(a) *Notice.* No Option shall be deemed to have been exercised prior to the Company's receipt of written notice of such exercise and of payment in full of the Option Price for the Shares to be purchased. Each such notice shall specify the number of Shares to be purchased.

(b) *Securities Laws.* Each notice of exercise shall (unless the Shares are covered by a then current registration statement under the Securities Act of 1933, as amended (the "Act")), contain the Participant's acknowledgment in form and substance satisfactory to the Company that (i) such Option Shares are being purchased for investment and not for distribution or resale (other than a distribution or resale which, in the opinion of counsel satisfactory to the Company, may be made without violating the registration provisions of the Act), (ii) the Participant has been advised and understands that (A) the Option Shares may not be registered under the Act and may be "restricted securities" within the meaning of Rule 144 under the Act and may be subject to restrictions on transfer and (B) the Company is under no obligation to register the Option Shares under the Act or to take any action which would make available to the Participant any exemption from such registration, and (iii) such Option Shares may not be transferred without compliance with all applicable federal and state securities laws. Notwithstanding the foregoing, should the Company be advised by counsel that issuance of Shares should be delayed pending (iv) registration under federal or state securities laws or (v) the receipt of an opinion that an appropriate exemption therefrom is available, the Company may defer exercise of any Option granted hereunder until either such event in (iv) or (v) has occurred.

(c) *Brokerage Account.* Each notice of exercise may instruct the Company, in such form as the Committee shall prescribe, to deliver Shares upon Option exercise to any registered broker or dealer which the Company approves in lieu of delivery to the Participant.

8. *Terms and Conditions of Restricted Stock Awards.* Restricted Stock Awards made pursuant to the Plan shall be evidenced by written documents (the "Award Documents") in such form or forms as the Committee shall from time to time approve.

(a) *Number of Shares.* Subject to Section 4, each Award Document shall state the number of Shares to which it pertains.

(b) *Restrictions and Limitations.* Each grant shall be subject to such restrictions as the Committee may impose. The applicable restrictions may lapse separately or in combination at such time or times, or in such installments, as the Committee may deem appropriate. In addition, the

A-5

Committee may impose limits on the Participant's right to vote Shares or receive dividends or distributions on Shares under a Restricted Stock Award until such Shares become nonforfeitable. Each Award Document shall provide that the Participant shall forfeit all forfeitable Shares upon a finding by the Committee that the Participant has engaged in conduct which violates subsection 6(g) and that all forfeitable Shares shall become nonforfeitable upon the occurrence of a Change in Control (as defined in subsection 6(c)(ii)).

(c) *Legend.* Any certificate issued in respect of a Restricted Stock Award shall be registered in the Participant's name and shall bear an appropriate legend referring to the terms, conditions and restrictions applicable under the Plan and Award Document to the covered Shares. In addition, until such time as all restrictions applicable to the Shares lapse, the Committee may provide for the certificate to be held in escrow by an escrow agent which the Committee selects and the Company compensates.

(d) *Forfeiture.*

(i) *General Rule.* If a Participant terminates employment during any restriction period under circumstances which result in a forfeiture of Shares covered by the Restricted Stock Award or any event occurs or fails to occur which results in a forfeiture, the restricted Shares shall revert to the Company. Notwithstanding the foregoing, the Committee may waive any restriction applicable to any Restricted Stock Award whenever the Committee determines that such waiver is in the Company's best interests.

(ii) *Forfeiture for Cause.* A Participant shall forfeit all forfeitable Shares covered by a Restricted Stock Award immediately upon a finding by the Committee, after full consideration of the facts presented on behalf of both the Company and the Participant, that the Participant has engaged in any sort of disloyalty to the Company or an Affiliate, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty in the course of his employment or service or has disclosed trade secrets or confidential information of the Company or an Affiliate or engaged in competition with the Company or an Affiliate.

(e) *Transfers.* Generally, a Participant may not transfer, assign, alienate, sell, encumber, or pledge Shares under a Restricted Stock Award until they are nonforfeitable and any purported transfer, assignment, alienation, sale, encumbrance or pledge shall be void and unenforceable. Notwithstanding the foregoing, (i) a Participant may transfer forfeitable Shares under a Restricted Stock Award to a spouse or a lineal ascendant or descendant or a trust for the benefit of such a person or persons or a partnership in which such persons are the only partners, provided the Participant receives no consideration for any such transfer and (ii) at the Participant's death, a Participant may transfer forfeitable Shares under a Restricted Stock Award by will or by the laws of descent and distribution. If a permitted transfer occurs under this subsection, the transferred Shares shall remain subject to all Plan provisions and all applicable conditions and restrictions under the Award Document. A transferee shall be required to furnish proof satisfactory to the Committee of the transfer to him by gift or by will or laws of descent and distribution.

(f) *Securities Laws.* Upon the advice of counsel, the Committee may require a Participant to take or defer any action with respect to Shares covered under a Restricted Stock Award which counsel determines is necessary to comply with federal or state securities laws.

9. *Adjustments on Changes in Common Stock.* The aggregate number of shares and class of shares as to which Options or Restricted Stock Awards may be granted hereunder, the number of Shares covered by each outstanding Option and the Option Price thereof and each Restricted Stock Award shall be appropriately adjusted in the event of a stock dividend, stock split, recapitalization or other change in the number or class of issued and outstanding equity securities of the Company resulting from a subdivision or consolidation of the Common Stock and/or other outstanding equity

security or a recapitalization or other capital adjustment (not including the issuance of Common Stock upon the conversion of other securities of the Company which are convertible into Common Stock) affecting the Common Stock which is effected without receipt of consideration by the Company. The Committee shall have authority to determine the adjustments to be made under this Section and any such determination by the Committee shall be final, binding and conclusive; provided, however, that no adjustment shall be made which causes an ISO to lose its status as such without the consent of the Participant.

10. *Amendment of the Plan.* The Board of Directors of the Company may amend the Plan from time to time in such manner as it may deem advisable or terminate the Plan in full. Nevertheless, the Board of Directors of the Company may not, without obtaining approval by vote of a majority of the outstanding voting stock of the Company within twelve months before or after such action, change the class of individuals eligible to receive grants under the Plan or increase the maximum number of shares of Common Stock as to which Options or Restricted Stock Awards may be granted, except as provided in Section 9 hereof.

11. *Continued Employment.* The grant of an Option or a Restricted Stock Award pursuant to the Plan shall not be construed to imply or to constitute evidence of any agreement, express or implied, on the part of the Company or any Affiliate to retain the Participant in the employ of the Company or an Affiliate or as a member of the Company's or an Affiliate's Board of Directors or in any other capacity.

12. *Withholding of Taxes.*

(a) *General Rule.* As a condition for the receipt of an Option or Restricted Stock Award, the Participant agrees that the Company (or the Affiliate employing him) may deduct from wages or other amounts payable to him or that he will pay over to the Company any amount necessary to satisfy any federal, state and/or local withholding tax requirements and that the Company shall have the right to take whatever action it deems necessary to protect its interests with respect to tax liabilities resulting from any act or event in connection with the Plan.

(b) *Payment in Shares.* The Participant may elect that the Company satisfy any applicable minimum federal, state and/or local withholding tax requirement by retaining Shares the Company would otherwise transfer to him upon his exercise of an Option or satisfaction of all vesting conditions under a Restricted Stock Award which have a fair market value equal to such withholding requirement. Notwithstanding the foregoing, the Committee may impose such limitations and prohibitions on the use of shares of the Common Stock to satisfy withholding tax requirements as it deems appropriate.

13. *Rules of Interpretation.* Regardless of the number and gender specifically used, words used in the Plan shall be deemed and construed to include any other number (singular or plural) and any other gender (masculine, feminine or neuter) as the context indicates is appropriate. Section headings are for convenience only; they form no part of the Plan.
