See MANAGEMENT'S DISCUSSION AND ANALYSIS - FUTURE EARNINGS POTENTIAL - "Construction Program - Integrated Coal Gasification Combined Cycle" of The Southern Company ("Southern Company"), MANAGEMENT'S DISCUSSION AND ANALYSIS - FUTURE EARNINGS POTENTIAL - "Integrated Coal Gasification Combined Cycle - Rate Recovery of Kemper IGCC Costs" of Mississippi Power Company ("Mississippi Power") and Note 3 to the financial statements of Southern Company and Mississippi Power under "Integrated Coal Gasification Combined Cycle - Rate Recovery of Kemper IGCC Costs" in each company's Annual Report on Form 10-K for the year ended December 31, 2016 (the "Form 10-K"). See also MANAGEMENT'S DISCUSSION AND ANALYSIS - FUTURE EARNINGS POTENTIAL - "Construction Program - Integrated Coal Gasification Combined Cycle" of Southern Company, MANAGEMENT'S DISCUSSION AND ANALYSIS - FUTURE EARNINGS POTENTIAL - "Integrated Coal Gasification Combined Cycle - Rate Recovery of Kemper IGCC Costs" of Mississippi Power and Note (B) to the Condensed Financial Statements under "Integrated Coal Gasification Combined Cycle - Rate Recovery of Kemper IGCC Costs" in each company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2017 for additional information regarding rate recovery for costs associated with Mississippi Power's integrated coal gasification combined cycle project in Kemper County, Mississippi (the "Kemper IGCC"), including the order issued in July 2017 by the Mississippi PSC (the "Kemper Settlement Order") directing Mississippi Power to pursue a settlement under which the Kemper County energy facility would be operated as a natural gas plant, rather than an integrated coal gasification combined cycle plant and establishing a related settlement docket (the "Kemper IGCC Settlement Docket"), including the request that any such proposed

settlement agreement reflect: (1) at a minimum, no rate increase to Mississippi Power customers (with a rate reduction focused on residential customers encouraged); (2) removal of all cost risk to customers associated with the Kemper IGCC gasifier and related assets; and (3) modification or amendment of the certificate of public convenience and necessity (the "CPCN") for the Kemper IGCC to allow only for ownership and operation of a natural gas facility. On August 21, 2017, Mississippi Power and Denbury Resources, Inc., Central Mississippi Building and Construction Trades Council, East Mississippi Business Development Corporation and Ministerial Alliance Partnership reached a settlement agreement with respect to the matters in the Kemper IGCC Settlement Docket (the "Kemper Settlement Agreement"). Consistent with the terms of the Kemper Settlement Order, the Kemper Settlement Agreement provides: (1) the annual revenue requirement for 2018 Kemper IGCC-related costs would be \$126 million, which would result in no rate increase for customers; (2) this annual revenue requirement would not include any recovery for the costs associated with the gasifier portion of the Kemper IGCC and Mississippi Power would not seek recovery for such costs in the future; (3) the CPCN for the Kemper IGCC would be modified to limit the Kemper County energy facility to natural gas combined cycle operation; and (4) Mississippi Power would, in the future, file a reserve margin plan with the Mississippi PSC.

The Mississippi PSC is expected to consider whether to approve the Kemper Settlement Agreement in the fourth quarter 2017.

In the event the Kemper Settlement Agreement is approved, Mississippi Power expects to incur additional pre-tax costs, which would not be recovered from customers, estimated at approximately \$100 million to \$200 million, in connection with the cancellation of the gasification portion of the Kemper IGCC.

The ultimate outcome of these matters cannot be determined at this time.
