PART I

ITEM 1. DESCRIPTION OF BUSINESS

(a) RECENT DEVELOPMENT

On September 27, 2005 the company announced that the Observation Wheel would be located on the north end of the Las Vegas Strip at the site currently known as the Westward Ho Hotel and Casino. It is anticipated that the project will be part of a larger master planned resort.

The primary focus of the company over the next 12 months will be on the Las Vegas Project and selecting a site location in the UAE.

The Company is currently dependent upon funding operations through the sale of its Common Stock and securing debt through private individuals. If the Company can not continue to raise funds through the sale of its Common Stock and securing loans from private individuals, the Company may have to cease operations thus rendering the Company insolvent or requiring the Company to seek protection under the federal bankruptcy laws. While the company is seeking funding there can be no guarantee that funding will be attained.

(b) GENERAL BUSINESS DEVELOPMENT

On March 17, 2005 the company signed a joint venture agreement with Allied Investment House, Inc. to build a 600ft Observation Wheel in the United Arab Emirates. Allied Investment House, Inc. will provide 100% of the financing of an Observation Wheel in the UAE up to \$150 million.

Voyager and Allied will form a UAE corporation in order for the transaction to be completed. Both Voyager (or its assigns) and Allied (or its assigns) will operate and govern the newly formed company. Voyager and Allied will jointly own the newly formed company.

Using "best efforts" within 180 days and depending on current prevailing market Conditions, Allied will cause the newly formed company to offer its stock in a public offering that will cause the newly formed company's stock to be traded on an internationally recognized stock exchange.

As a result of the signing of the agreement Voyager will be responsible for the management of the construction of the project and will receive a premium above and beyond the cost of building the project. There will be a management agreement which allows Voyager to contract a third party management company to perform day-to-day operations. Voyager will also receive a percentage of gross revenues from operations.

Voyager Entertainment International, Inc., a Nevada corporation, formerly named Dakota Imaging, Inc., was originally incorporated in North Dakota on January 31, 1991. Effective February 8, 2002, the Company completed a reverse triangular merger between Dakota Subsidiary Corp. ("DSC"), a wholly owned subsidiary of the Company, and Voyager Ventures, Inc., a Nevada corporation ("Ventures"), whereby the Company issued 3,660,000 shares of its Series A Convertible Preferred Stock in exchange for 100% of Ventures outstanding common stock. Pursuant to the terms of the merger, Ventures merged with DSC wherein DSC ceased to exist and Ventures became a wholly owned subsidiary of the Company.

On November 15, 2002, we entered into a loan and security agreement with Mr. Dan Fugal, an unaffiliated individual, whereby Mr. Fugal was to provide us with a credit facility in the form of a secured line of credit not to exceed \$2.5 million. The company does not plan to exercise any additional funds from this credit line.

On February 15, 2003, we executed an amendment to the Loan and Security Agreement to amend the term date from February 15, 2003 to April 15, 2003. As of the year ending December 31, 2003 Mr. Fugal has loaned \$605,000 to the Company. The loan and security agreement with Mr. Fugal has expired and requires the company to repay \$605,000 to Mr. Fugal as well as a one time interest payment of \$605,000. Any agreements or amendments for Mr. Fugal to provide additional funds have been canceled, and the Company is obligated to repay a total of \$1,210,000.

By written consent dated April 23, 2003, a majority of the Company's stockholders elected to reincorporate the Company in the State of Nevada, [pursuant to a reincorporation merger between the Company and its then wholly-owned subsidiary, Voyager Entertainment International, Inc. Nevada unknown if this was the name will find out from prior counsel, formed for the purpose of the reincorporation merger, and which constituent company survived the reincorporation merger]. The reincorporation became effective on June 23, 2003. In connection with the reincorporation, the Company increased its authorized Common Stock, \$0.001 par value, from 100,000,000 shares to 200,000,000 shares and its authorized Preferred Stock, \$0.001 par value, from 25,000,000 shares to 50,000,000 shares.

The consolidated financial statements included in this filing have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has no established source of revenue, incurred significant losses since inception of \$12,079,389 and used cash for operations of \$887,534 and \$1,094,500 during the years ended December 31, 2005 and 2004, respectively. The Company also has a working capital deficit of \$3,148,210 and a stockholders' deficit of \$3,132,424 as of December 31, 2005. Additionally, a lender has the right to foreclose on the assets of the Company if the demand for repayment of \$1.2 million is not made. These factors raise substantial doubt about the Company's ability to continue as a going concern. The Company's cash position may be inadequate to pay all of the costs associated with production and marketing. Management intends to use borrowings and security sales to mitigate the effects of its cash position. However, no assurance can be given that debt or equity financing, if and when required, will be available. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets and classification of liabilities that might be necessary should the Company be unable to continue existence.

(c) OUR BUSINESS

Our current business plan is to build multiple observation Ferris wheels ("Observation Wheels"). Currently proposed sites for the construction of Observations Wheels include Las Vegas, Nevada; UAE and Shanghai, China.

For the past 6 years, through its subsidiaries, the Company has extensively planned and/or evaluated the available locations at both the North and South ends of the Las Vegas Strip as well as other off-strip locations in Las Vegas, Nevada for the construction of the L.V. Voyager Project.

The L.V. Voyager Project is intended to be designed as a visual ICON and experience overlooking the "Las Vegas Strip". With 30 vehicles called Orbiters, the L.V. Voyager Project is intended to be a revolving Ferris wheel that will overlook the Las Vegas Strip as it revolves higher than a 60-story building at approximately 600 feet. One rotation in an Orbiter will last approximately 27 minutes. Each Orbiter will be controlled by an on-board Navigator, who will be part entertainer and part steward, and who will also be skilled in life-safety and security. Due to lack of adequate financing, the Company has not been able to successfully launch these projects.

ORGANIZATION AND OPERATION

The L.V. Voyager Project will be owned by the Company, however, it will be designed, developed, built and operated by Voyager Entertainment Holdings, Inc., "VEHI"), a wholly owned subsidiary of the Company. VEHI will manage the project pursuant to a performance-based contract between the Company and VEHI [and an as-yet unidentified partner of the Company]. All covenants, restrictions and protocols will be detailed in the performance-based contract.

As the management company, VEHI will be responsible for the design, development, construction, and operation of the L.V. Voyager Project, and will provide the following: concept development, project design, location assessment and acquisition, strategic alliances in both entertainment and gaming, business plans and budgets, financial oversight and management during both construction and operation, marketing plans, insurance procurement and risk management, senior operational management including development of policies and procedures, and overall strategic focus for the L.V. Voyager Project.

The L.V. Voyager Project is fundamentally an entertainment attraction, and its operational and maintenance requirements are very similar to those found in the theme park industry. In addition, Las Vegas is a unique marketplace, and each visitor, when placed in the environment, is also unique. The ability to understand each visitor, and successfully attract customers to the L.V. Voyager Project will come as a result of clearly understanding the marketing strategies of the gaming industry. VEHI intends to employ highly skilled individuals from the theme park industry and combine their specialized skills with those from the gaming industry.

Star of Shanghai Voyager Project

The western bank (Puxi) of the Huangpu River, the Bund, is the anticipated location for a master planned development with the "Star of Shanghai" Observation Wheel as the dominant feature (the "Star of Shanghai Voyager Project"). The Star of Shanghai Voyager Project is to be designed as a special tribute to the legendary figure Huang Daopo who invented the "spinning wheel" that reformed the technique of cotton weaving, and gained fame for its production of clothing. The Company does not currently have any agreements for a proposed site and has not secured financing for the planned project.

The Company will require substantial additional funds to fulfill its business plan and successfully develop its three Observation Wheel projects. The Company intends to raise these needed funds from private placements of its securities, debt financing or internally generated funds from the licensing of

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

its intellectual property or service fees. As of the date of this filing the Company has not received a firm commitment for financing of any of the projects And the company has not acquired the appropriate location for the project. The company continues to receive and evaluate opportunities throughout Asia as well as Shanghai, China.

4

United Arab Emirates (UAE)

On March 17, 2005 the company issued a press release announcing the signing of a joint venture agreement with Allied Investment House, Inc. to build a 600ft Observation Wheel in the United Arab Emirates. Allied Investment House, Inc. will provide 100% of the financing of an Observation Wheel in the UAE up to \$150 million.

Voyager and Allied will form a UAE corporation in order for the transaction to be completed. Both Voyager (or its assigns) and Allied (or its assigns) will operate and govern the newly formed company. Voyager and Allied will jointly own the newly formed company.

As a result of the signing of the agreement Voyager will be responsible for the management of the construction of the project and will receive a premium above and beyond the cost of building the project. There will be a management agreement which allows Voyager to contract a third party management company to perform day-to-day operations. Voyager will also receive a percentage of gross revenues from operations.

Currently the the primary effort of the UAE project is acquiring the proper location. There can be no guarantees that we will find a suitable location. However, we continue our best efforts.

Other "Observation Wheels"

Currently, the Company is primarily focusing on the L.V. Voyager Project and the UAE Project. However, the Company has plans to build additional Observation Wheels in other various locations in addition to Las Vegas, UAE and Shanghai.

Market Overview

Management believes that, in the foreseeable future, cash generated from operations will be inadequate to support full marketing roll out and ongoing product development, and that we will thus be forced to rely on additional debt and/or equity financing. Management believes that it can identify sources and obtain adequate amounts of such financing. We intend to enter into a cooperative arrangement with distributors or vendors, whereby we will receive marketing and sales benefits from the professional staff of such distributors or vendors. To date, we have not established any such arrangements. In the event we are unsuccessful in generating equity capital, then the Company will be unable to continue with product development and/or marketing. The lack of equity capital may in turn cause the Company to become insolvent.

Competition

We compete with numerous other hospitality and entertainment companies. Many of these competitors have substantially greater resources than we do. Should a larger and better financed company decide to directly compete with us, and be successful in its competitive efforts, our business could be adversely

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

affected. Other competitors could announce and build an observation wheel who are better financed. If this occurs it would make it very difficult for the company to have a successful project within the same city.

There have been other companies that have announced possible development of a large Observation Wheel.

There have been several other companies that have announced to the public plans to build an observation wheel in Las Vegas. If any of these companies are successful it would diminish the possibility of the company obtaining financing or a acquiring a proper location.

We have a limited operating history, which could make it difficult to evaluate our business.

We have yet to establish any history of profitable operations. Although some of our affiliates have been engaged in the acquisition and administration of various industries for several years, we have a limited operating history. As a result, we may not be able to successfully achieve profitability. The

5

likelihood of our success must be considered in light of the problems, expenses and complications frequently encountered in connection with the development of a project this size and the competitive environment in which we operate. Accordingly, our limited operating history makes an effective evaluation of our potential success difficult. Our viability and continued operation depend on future profitability, our ability to generate cash flows and our successful development and management of other business opportunities. There can be no assurance that we will be able to successfully implement our business plan or that if implemented, it will be profitable.

We may be unable to obtain the appropriate funding to run our company.

We do not presently have sufficient financial resources and have no assurance that sufficient funding will be available to us to build our project. There can be no assurance that we will be able to obtain adequate financing in the future or that the terms of such financing will be favorable. Failure to obtain such additional financing could result in delay or indefinite postponement of constructing an Observation Wheel.

Research and Development

From the inception to our predecessor in interest, Voyager Ventures, Inc., in March of 1997 through present, we have devoted a majority of our time on research and development. During the period from March 1, 1997 through December 31, 2005, we incurred operating expenses of \$10,751,272 and interest expense of \$1,328,118 against no revenues, which resulted in accumulated losses of \$12,079,389.

Employees

As of December 31, 2005, we only had unpaid Officers and Directors. We are dependent upon Richard Hannigan, President, CEO and a Director of the Company; Tracy Jones, COO and Director, and Myong Hannigan Secretary/Treasurer and a Director. We do not have any employees at this time and do not anticipate the need to hire any employees until such time as we have been sufficiently capitalized.

Our future success also depends on our ability to attract and retain other qualified personnel, for which competition is intense. The loss of Mr.

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

Hannigan, Mr. Jones or our inability to attract and retain other qualified employees could have material adverse effect on us.

Currently there are no patents, trademarks or copyrights filed on behalf of the company protecting the current design of the Observation Wheel. We currently do not have a site for the Observation Wheel. However, when a proper site is obtained the Company will be required to obtain proper permitting and government approvals unless that site currently approved for the construction of an Observation Wheel. There can be no guarantees that the Company will be successful in securing a suitable site or the appropriate approvals needed.

ITEM 2. DESCRIPTION OF PROPERTY

We currently lease 2,100 square feet of office space in Las Vegas, Nevada from Synthetic Systems, LLC, of which our President is the owner. We lease the office space at cost with no mark up for \$2,325 per month on a month-to-month basis. We believe that the property leased from Synthetic Systems, LLC., is in reasonably good condition and is suitable for our current and anticipated needs for the near future.

ITEM 6. MANagements' DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

This report contains forward-looking statements. Actual results and events could differ materially from those projected, anticipated, or implicit, in the forward-looking statements as a result of the risk factors set forth below and elsewhere in this report.

With the exception of historical matters, the matters discussed herein are forward looking statements that involve risks and uncertainties. Forward looking statements include, but are not limited to, statements concerning anticipated trends in revenues and net income, the date of introduction or completion of our products, projections concerning operations and available cash flow. Our actual results could differ materially from the results discussed in such forward-looking statements primarily as the result of insufficient cash to pursue production and marketing efforts. The following discussion of our financial condition and results of operations should be read in conjunction with our financial statements and the related notes thereto appearing elsewhere herein.

Overview

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

Voyager Entertainment International, Inc., formerly named Dakota Imaging, Inc., was incorporated in North Dakota on January 31, 1991. Effective February 8, 2002 the Company completed a reverse triangular merger between Dakota Subsidiary Corp. ("DSC"), a wholly owned subsidiary of the Company, and Voyager Ventures, Inc., a Nevada Corporation ("Ventures"), whereby the Company issued 3,660,000 shares of its Series A preferred stock in exchange for 100% of Ventures outstanding common stock. Pursuant to the terms of the merger, DSC merged with and into Ventures and ceased to exist, and Ventures became a wholly owned subsidiary of the Company.

On April 2, 2002 we amended our Certificate of Incorporation to change our name from Dakota Imaging, Inc. to Voyager Entertainment International, Inc.

In June 2003 the company reincorporated in the State of Nevada. The reincorporation became effective in the states of North Dakota and Nevada on June 23, 2003, the date the Certificate of Merger was issued by the Secretary of State of North Dakota.

Section 15(g) of the Exchange Act -----

The Company's shares are covered by Section 15(g) of the Securities Exchange Act of 1934, as amended, and Rules 15g-1 through 15g-6 promulgated thereunder, which impose additional sales practice requirements on broker-dealers who sell our securities to persons other than established customers and accredited investors.

Rule 15g-2 declares unlawful any broker-dealer transactions in penny stocks unless the broker-dealer has first provided to the customer a standardized disclosure document.

Rule 15g-3 provides that it is unlawful for a broker-dealer to engage in a penny stock transaction unless the broker-dealer first discloses and subsequently confirms to the customer the current quotation prices or similar market information concerning the penny stock in question.

Rule 15g-4 prohibits broker-dealers from completing penny stock transactions for a customer unless the broker-dealer first discloses to the customer the amount of compensation or other remuneration received as a result of the penny stock transaction.

Rule 15g-5 requires that a broker-dealer executing a penny stock transaction, other than one exempt under Rule 15g-1, disclose to its customer, at the time of or prior to the transaction, information about the sales person's compensation.

The Company's common stock may be subject to the foregoing rules. The application of the penny stock rules may affect our stockholder's ability to sell their shares because some broker-dealers may not be willing to make a market in our common stock because of the burdens imposed upon them by the penny stock rules.

Plan of Operation

During the next 12 months, we plan to focus our efforts on our development of the Observation Wheels; however, actual production will not commence until we have sufficient capital for construction and marketing. Currently, our monthly cash need is approximately \$74,000 per month. As of the year ending December 31, 2005 the Company did not have enough cash on hand to continue operations through the next quarter. However, from time-to-time the officers of the company loan funds to provide for operations. There can be no guarantees that the company's officers and directors will continue to loan funds to the company on an ongoing basis. However, if we do not receive a substantial amount of funding it will be unlikely we can continue operations. We have been

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

successful in the past in selling our common stock in private transactions to provide for minimal operations. We plan to seek additional funding through debt transactions and the sale of our common stock either privately or publicly. There can be no guarantees we will continue to be successful in completing those transactions. The primary expenses for the company consist of consulting fees that are primarily paid by the issuance of our common stock.

We are not the traditional company that has the standard research and development expenses. As a result, most of our research and development expenses consist of presentation materials and architectural designs. Upon funding of the project the initial expense will be engineering and architectural.

11

Our primary costs consist mainly of professional and consulting, legal and accounting fees along with those fees paid to related parties, rent expenses and printing expenses. As the project is being developed we are incurring additional architectural and travel related fees. The company expects that travel expenses will increase throughout 2005 as a result of the agreement signed to develop a observation wheel in the United Arab Emirates. If this project is successful there will be a significant increase in expenses for all aspects of the construction process to include an additional office set up and continual travel.

We plan to focus primarily on the development of the Observation Wheel in Las Vegas and the UAE over the next 12 months. However, we will also actively seek partnerships and locations for other Observation Wheels throughout the United States and other foreign countries.

Other than presentation materials, if a suitable site is acquired and selected the primary focus will be on completing engineering and starting the construction of an Observation Wheel.

We will face considerable risk in each of our business plan steps, such as difficulty of hiring competent personnel within our budget and a shortfall of funding due to our inability to raise capital in the equity securities market. If no funding is received during the next twelve months, we will be forced to rely on existing cash in the bank. As stated above, our current cash reserves are not sufficient to fund operations for the next twelve months.

We have no operating history, no significant current operations, minimum cash on hand, and no profit. Because of these factors, our auditors have issued an audit opinion for us which includes a statement describing doubts about our going ability to continue as a going concern status. This means there is substantial doubt about our ability to continue as a going concern. While we believe we have made good faith estimates of our ability to secure additional capital in the future to reach our goals, there is no guarantee that we will receive sufficient funding to implement any future business plan steps. In the event that we do not receive additional financing, we will not be able to continue our operations.

The timing of most of our capital expenditures is discretionary. Currently there are no material long-term commitments associated with our capital expenditure plans. Consequently, we have a significant degree of flexibility to adjust the level of such expenditures as circumstances warrant. The level of our capital expenditures will vary in future periods depending on market conditions and other related economic factors.

Revenues. We did not have any revenues for the fiscal year ending December 31, 2005 and 2004. There was no change in revenues from the year ending 2005 versus 2004 because we are still in a development stage and revenues will not be generated until operations of an Observation Wheel begin.

Blue Prints/Project Costs for the year ended December 31, 2005 were \$11,592 which is \$8,129 more than the \$3,463 of project costs incurred in the year ended December 31, 2004. These expenses consisted primarily of presentation and development materials provided to prospective funding sources. In the fiscal year ended December 31, 2005 the Company converted the presentation materials into mini DVD presentations. The increase in projects costs was attributed to the purchase Of mini DVD players and metal boxes necessary to ship the presentations to prospective funding partners. Our total project costs since inception are \$120,504.

Computer Supplies. For the year ended December 31, 2005 computer expenses Were \$10,884 versus \$20,272 for the year ending December 32, 2004. There was a total in computer supplies expense of \$9,388 or 46% for 2005 versus 2004. The company was not required to purchase as many computers and printers in 2005 versus 2004.

Entertainment Expense. We had entertainment expenses for the year ending December 31, 2005 of \$21,251 versus \$14,851 for the year ending December 31, 2004 that attributed to a gain in entertainment Expenses of \$6,400 or 43%.

Operating Expenses. We had operating expenses of \$1,666,948 for the year ended December 31, 2005 verses operating expenses of \$2,386,798 for the year ended December 31, 2004 which primarily consisted of office rental expenses, legal and accounting fees and professional expenses. There was a decrease in our operating expenses for the year ending December 31, 2005 of \$719,850. The decrease in operating expenses for the year ending December 31, 2005 was primarily due to the fact that the company utilized fewer consultants

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

throughout 2005, and was not required to issue its common stock for services. We did not incur any settlement expenses in 2005. If the company receives funding for either the Las Vegas Project or the UAE Project we expect these fees to increase substantially including support for employees that will be required.

Professional and Consulting Fees. We paid professional and consulting fees of \$1,469,866 for the year ending December 31, 2005 versus \$2,211,423 for the year ending December 31, 2004 that attributed to a decrease of \$741,558 or 34%. Our primary expense is the issuance of common stock to consultants as well as professional fees to Synthetic Systems totaling \$800,000 during 2005 of which an accrued but unpaid bonus of \$390,000 remains outstanding. Synthetic Systems is controlled by our President. In 2005 we issued fewer shares to consultants for services than in 2004.

Miscellaneous Expenses. In the year ending December 31, 2005 we did not incur any miscellaneous expenses versus \$10,000 in miscellaneous expenses for the year ending December 31, 2004 or a decrease of 100%.

Office Supplies and Postage. We incurred \$21,954 in office supplies and postage Expenses for the year ending December 31, 2005 versus \$12,851 for the year ending December 31, 2004 that was an increase of \$9,103 or 71%.

Travel Expenses. We had travel expenses of \$38,981 for the year ending December 31, 2005 versus \$21,092 for the period ending December 31, 2004 that was an increase of \$17,889 or 85%. The increase in travel expenses was attributable to an increase in travel of our executives to UAE in 2004.

Net Losses from Operations. As a result of the decreases, primarily in professional and consulting fees where our common stock was issued for services, net loss from operations for the period ended December 31, 2005 was \$1,736,658 and was a decrease of \$719,227 as compared to the net loss from operations of \$2,455,885 for the year ended December 31, 2004.

13

Interest Expense. Our interest expense for the year ending December 31, 2005 was \$69,710 versus \$69,088. The slight increase in interest expense for 2005 was primarily due to the fact the company accrues interest expense on a payable at the rate of 8% per annum.

Liquidity and Capital Resources

A critical component of our operating plan impacting our continued existence is the ability to obtain additional capital through additional equity and/or debt financing. We do not anticipate enough positive internal operating cash flow until such time as we can generate substantial revenues, which may take the next few years to fully realize. In the event we cannot obtain the necessary capital to pursue our strategic plan, we may have to cease or significantly curtail our operations. This would materially impact our ability to continue operations.

Our near term cash requirements are anticipated to be offset through the receipt of funds from private placement offerings and loans obtained through private sources. Since inception, we have financed cash flow requirements through debt financing and issuance of Common Stock for cash and services. As we initiate operational activities, we may continue to experience net negative cash flows from operations, pending receipt of servicing or licensing fees, and will be required to obtain additional financing to fund operations through stock offerings and bank borrowings to the extent necessary to provide working capital.

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

Over the next twelve months, we believe that existing capital and anticipated funds from operations will not be sufficient to sustain operations and planned development. Consequently, we will be required to seek additional capital in the future to fund growth and expansion through additional equity or debt financing or credit facilities. No assurance can be made that such financing would be available, and if available it may take either the form of debt or equity. In either case, the financing could have a negative impact on our financial condition and our stockholders.

We anticipate incurring operating losses over the next twelve months. Our lack of operating history makes predictions of future operating results difficult to ascertain. Our prospects must be considered in light of the risks, expenses and difficulties frequently encountered by companies in their early stage of development, particularly companies in new and rapidly evolving markets such as development related companies. Such risks include, but are not limited to, an evolving and unpredictable business model and the management of growth. To address these risks we must, among other things, implement and successfully execute our business and marketing strategy, continue to develop and upgrade technology and products, respond to competitive developments, and attract, retain and motivate qualified personnel. There can be no assurance that we will be successful in addressing such risks, and the failure to do so can have a material adverse effect on our business prospects, financial condition and results of operations.

As of December 31, 2005, we had current assets of \$108,552, which consisted primarily of cash on hand and current liabilities of \$3,256,762, resulting in working capital deficit of \$3,148,210 versus current assets of \$24,438, current liabilities of \$2,918,204 and a working capital deficit of \$2,893,766 respectively for the year ending December 31, 2004. The increase in cash was attributable to the Company conducting private placement transactions throughout 2005.

OFF BALANCE SHEET ARRANGEMENTS

The Company does not have any off-balance sheet arrangements and does not participate in non-exchange traded contracts requiring fair value accounting treatment.

NOTE PAYABLE

On November 15, 2002, we entered into a loan and security agreement with Mr. Dan Fugal, an unaffiliated individual, whereby Mr. Fugal was to provide us with a credit facility in the form of a secured line of credit not to exceed \$2.5 million.

On February 15, 2003, we executed an amendment to the Loan and Security Agreement to amend the term date from February 15, 2003 to April 15, 2003. As of the year ending December 31, 2005 Mr. Fugal has loaned \$605,000 to the Company. The loan and security agreement with Mr. Fugal has expired and requires the company to repay \$605,000 to Mr. Fugal as well as a one time interest payment of

\$605,000. Any agreements or amendments for Mr. Fugal to provide additional funds have been canceled, and the Company is obligated to repay a total of \$1,210,000. As a requirement of the Agreement the Company is obligated to repay Mr. Fugal when an adequate amount of funding is received. At this time unless funding is received it is likely that the Company will be unable to repay the debt. As collateral for the Loan and Security Agreement with Mr. Fugal, Mr. Fugal filed a UCC-1 against the assets and intellectual property of the company which would

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

give Mr. Fugal the right to institute foreclosure proceedings toward the Company. Mr. Fugal could institute foreclosure proceedings at any time if he believes that he will not be repaid. As of this date Mr. Fugal has not indicated any intentions to institute foreclosure proceedings. However, we can not guarantee that Mr. Fugal will not attempt to institute foreclosure proceedings against the Company. The company does not plan to exercise any additional funds from this credit facility.

United Arab Emirates (UAE)

On March 17, 2005 the company issued a press release announcing the signing of a definitive joint venture agreement with Allied Investment House, Inc. to build a 600ft Observation Wheel in the United Arab Emirates. Allied Investment House, Inc. will provide 100% of the financing of an Observation Wheel in the UAE up to \$150 million.

Voyager and Allied will form a UAE corporation in order for the transaction to be completed. Both Voyager (or its assigns) and Allied (or its assigns) will operate and govern the newly formed company. Voyager and Allied will jointly own the newly formed company.

As a result of the signing of the agreement Voyager will be responsible for the management of the construction of the project and will receive a premium above and beyond the cost of building the project. There will be a management agreement which allows Voyager to contract a third party management company to perform day-to-day operations. Voyager will also receive a percentage of gross revenues from operations.

The primary goal for the UAE project is locating an appropriate site for the project To be located. Their can be no guarantees that if a site is located that it will Be attainable at terms acceptable to the Company and its partner.

Risks that could cause actual performance to differ from expected performance are detailed in the remainder of this section, and under the section titled "Factors That May Affect the Company's Future Operating Results."

15

FACTORS THAT MAY AFFECT THE COMPANY'S FUTURE OPERATING RESULTS

We must comply with penny stock regulations which could effect the liquidity and price of our stock.

The Securities and Exchange Commission has adopted rules that regulate broker-dealer practices in connection with transactions in "penny stocks." Penny stocks generally are equity securities with a price of less than \$5.00, other than securities registered on certain national securities exchanges or quoted on NASDAQ, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system. Prior to a transaction in a penny stock, a broker-dealer is required to: Deliver a standardized risk disclosure document prepared by the SEC; Provide the customer with current bid and offers quotations for the penny stock; Explain the compensation of the broker-dealer and its salesperson in the transaction; Provide monthly account statements showing the market value of each penny stock held in the customer's account; Make a special written determination that the penny stock is a suitable investment for the purchaser and receives the purchaser's; and Provide a written agreement to the transaction. These requirements may have the effect of reducing the level of trading activity in the secondary market for our stock. Because our shares are subject to the penny

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

stock rules, you may find it more difficult to sell your shares.

We may in the future issue additional shares of our common stock which would reduce investors percentage ownership and may dilute our share value.

Our articles of incorporation authorize the issuance of 200,000,000 shares of common stock. As of March 31, 2006 we have 77,994,460 shares of our common stock issued and outstanding. We are also authorized to issue 50,000,000 shares of our Preferred Stock par value \$.001 of which there are 500,000 shares of Series A, with no face value, convertible to Common Stock at 10 to 1 and 1,500,000 shares of Preferred B Stock face value of \$.10 convertible to Common Stock at 2 to 1. The future issuance of all or part of our remaining authorized Common Stock, Preferred Stock or any combination of either, may result in substantial dilution in the percentage of our common stock held by our then existing shareholders. We may value any common stock issued in the future on an arbitrary basis. The issuance of common stock for future services or acquisitions or other corporate actions will have the effect of diluting the value of the shares held by our investors, and might have an adverse effect on any trading market for our common stock.

We are a development stage company, recently reorganized and have minimal operating history, which makes an evaluation of us extremely difficult. At this stage of our business operations, even with our good faith efforts, potential investors have a high probability of losing their investment.

As a result of our reorganization in 2002, we have yet to generate revenues from operations and have been focused on organizational, start-up, market analysis and fund raising activities. Although we have a project to market [please confirm], there is nothing at this time on which to base an assumption that our business operations will prove to be successful or that we will ever be able to operate profitably. Our future operating results will depend on many factors, including our ability to raise adequate working capital, demand and acceptance of our project, the level of our competition and our ability to attract and maintain key management and employees.

Our auditor's report reflects the fact that without realization of additional capital, it would be unlikely for us to continue as a going concern. If we are unable to continue as a going concern, it is unlikely that we will continue in business.

16

As a result of our deficiency in working capital and other factors, our auditors have included a paragraph in their report regarding substantial doubt about our ability to continue as a going concern. Our plans in this regard are to seek additional funding through future equity private placements or debt facilities. Without funding for one of our projects the company would have to rely primarily on raising capital through investors. There can be no guarantee that we are capable of continuing to raise additional capital.

There is a limited current public market for our common stock.

Although our common stock is listed on the Over-the-Counter Bulletin Board, there is a limited volume of sales, thus providing a limited liquidity into the market for our shares. As a result of the foregoing, stockholders may be unable to liquidate their shares for any reason.

Operating in Foreign Countries

Currently we have a signed definitive agreement to build a Voyager

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

Project in the UAE. Operating in a foreign country provides additional risks such as, permitting and licensing can be more difficult to obtain, obtaining personnel for the daily operations could present significant challenges, if the local government were to become unstable our results could be severely affected.

Acts of Terrorism

Because the Voyager Project will depend upon tourism, if there is a terrorist attack in the city or country where the project will be located, the anticipated results could be dramatically affected.

Personnel

As of December 31, 2005, we had three Officers and Directors. The Company pays approximately \$35,000 a month in consulting fees to Synthetic Systems LLC, an entity wholly owned by Richard Hannigan. We are dependent upon Richard Hannigan, President, CEO and Director and Tracy Jones, COO and Director and Myong Hannigan Secretary and Treasurer. We do not have any employees at this time and do not anticipate the need to hire any employees until such time as we have been sufficiently capitalized.

Going Concern

The consolidated financial statements included in this filing have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has no established source of revenue, incurred significant losses since inception of \$12,079,389 and used cash for operations of \$887,534 and \$1,094,500 during the years ended December 31, 2005 and 2004, respectively. The Company also has a working capital deficit of \$3,148,210 and a stockholders' deficit of \$3,132,424 as of December 31, 2005. Additionally, a lender has the right to foreclose on the assets of the Company if the demand for repayment of \$1.2 million is not made. These factors raise substantial doubt about

the Company's ability to continue as a going concern. The Company's cash position may be inadequate to pay all of the costs associated with production and marketing.

Management intends to use borrowings and security sales to mitigate the effects of its cash position. However, no assurance can be given that debt or equity financing, if and when required, will be available. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets and classification of liabilities that might be necessary should the Company be unable to continue existence.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors
Voyager Entertainment International, Inc. and Subsidiaries
Las Vegas, Nevada

We have audited the accompanying consolidated balance sheet of Voyager Entertainment International, Inc. (a Development Stage Company) and Subsidiaries as of December 31, 2005 and the related consolidated statements of operations, stockholders' deficit and cash flows for the year then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of Voyager Entertainment International, Inc. as of December 31, 2004. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included in the period ending December 31, 2004, is based solely on the report of the other auditors.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States of America). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our audit and the report of other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Voyager Entertainment International, Inc. as of December 31, 2005, and the results of their consolidated operations and cash flows for the year ended December 31, 2005 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the accompanying consolidated financial statements, the Company has no established

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

source of revenue, has a working capital deficit of \$3,148,210, has debt of \$1.2 million which can be called at any time, has an accumulated deficit of \$10,342,732, incurred significant net losses of \$1,736,658 and has used cash for operating activities of \$887,534 in 2005 all of which raise substantial doubt about its ability to continue as a going concern. Management's plan in regard to these matters is also discussed in Note 1. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

(1) Summary of Significant Accounting Policies:

The Company is in the entertainment development business and is planning the development of the world's tallest Ferris wheel on the Las Vegas Strip area. The Company's corporate offices are located in Las Vegas, Nevada.

Business Activity:

The Company is in the entertainment development business and is planning the development of the world's tallest Ferris wheel on the Las Vegas Strip area. The Company's corporate offices are located in Las Vegas, Nevada.

Basis of Presentation:

The accompanying consolidated financial statements include the accounts of Voyager Entertainment International, Inc. (the "Company"), formerly known as Dakota Imaging, Inc., ("Dakota"), incorporated under the laws of the state of North Dakota on January 31, 1991, and its subsidiaries:

a) Voyager Ventures, Inc. ("Ventures"), incorporated under the laws of the State of Nevada on January 15, 2002 (owned 100% by the Company); b) Outland Development, LLC ("Outland"), a limited liability company formed under the laws of the State of Nevada on March 1, 1997(owned 100% by Ventures); and c) Voyager Entertainment Holdings, Inc. ("Holdings"), incorporated under the laws of the State of Nevada on May 2, 2002 (owned 100% by the Company).

The Company is currently a development stage enterprise reporting under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 7.

During April 2002, the Company changed its name from Dakota Imaging, Inc. to Voyager Entertainment International, Inc. and adopted a new fiscal year-end of

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

December 31.

Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has no established source of revenue, has a working capital deficit of \$3,148,210, has debt of \$1.2 million which can be called at any time, has an accumulated deficit of \$12,079,389 incurred significant net losses of \$1,736,658 and \$2,455,855 and has used cash for operating activities of \$887,534 and \$1,094,500 in 2005 and 2004, respectively all of which raise substantial doubt about its ability to continue as a going concern. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

..

The Company has limited operations and is still in the development stage. The Company will need to raise a substantial amount of capital in order to continue its business plan. This situation raises substantial doubt about its ability to continue as a going concern. The accompanying

F-6

consolidated financial statements do not include any adjustments relative to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result from the outcome of this uncertainty. Management intends to initiate their business plan and will continue to seek out joint venture partners, attempt to locate the appropriate location for the Las Vegas Project as well as other projects and continually seek funding opportunities. Management also intends to raise additional capital through the sale of it's stock to private individuals that have prior relationships with the company and have been successful in providing enough capital in the past for minimal operations in the past. However, there can be no guarantees that management will continue to be successful in the future. The company is currently indebted to two creditors and will not have the ability to repay either of the creditors if significant project funding is not received. If repayment does not occur, it is possible that a creditor could foreclose on the assets of the company causing the Company to be insolvent.

Use of Estimates:

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value:

Unless otherwise indicated, the fair values of all reported assets and liabilities which represent financial instruments, none of which are held for trading purposes, approximate carrying values of such amounts.

Comprehensive Income:

SFAS No. 130, "Reporting Comprehensive Income," establishes standards for the reporting and display of comprehensive income and its components in the financial statements. For the years ended December 31, 2005 and 2004, the

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

Company has no items that represent other comprehensive income and, accordingly, has not included a Statement of Comprehensive Income in the financial statements.

Stock Based Compensation:

SFAS No. 123, "Accounting for Stock-Based Compensation," establishes and encourages the use of the fair value based method of accounting for stock-based compensation arrangements under which compensation cost is determined using the fair value of stock-based compensation determined as of the date of grant and is recognized over the periods in which the related services are rendered. The statement also permits companies to elect to continue using the current intrinsic value accounting method specified in Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," to account for stock-based compensation.

F-7

For options granted to employees where the exercise price is less than the fair value of the stock at the date of grant, the Company recognizes an expense in accordance with APB 25.

For non-employee stock based compensation the Company recognizes an expense in accordance with SFAS No. 123 and values the equity securities based on the fair value of the security on the date of grant. For stock-based awards the value is based on the market value for the stock on the date of grant and if the stock has restrictions as to transferability a discount is provided for lack of tradability.

Stock option awards are valued using the Black-Scholes option-pricing model. The Company did not issue any Stock option rewards during the years ended December 31, 2005 and 2004.

Net Loss Per Share:

In accordance with SFAS No. 128, "Earnings Per Share," the basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive.

Cash and Cash Equivalents:

Equivalents - For purposes of the statement of cash flows, cash equivalents include all highly liquid debt instruments with original maturities of three months or less which are not securing any corporate obligations.

Concentration - The Company maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. As of December 31, 2005 there was \$8,552 over the federally insurable limit. The Company has not experienced any losses in such accounts.

Property and Equipment:

Property and equipment are stated at cost. Depreciation is computed using the straight-line method based on estimated useful lives from 5 to 7 years. Expenditures for maintenance and repairs are charged to operations as incurred while renewals and betterments are capitalized. Gains and losses on disposals are included in the results of operations.

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

Advertising and Marketing Costs

The Company expenses costs of advertising and marketing as incurred. Advertising and marketing expense for the years ended December 31, 2005 and 2004 was \$7,005 and \$5,919, respectively.

Segment Information:

The Company's management believes it operates in a single business segment; all operations for the year ended December 31, 2005 and 2004 are domestic.

F-8

Income Taxes:

The Company accounts for income taxes in accordance with SFAS No. 109, "Accounting for Income Taxes." Deferred taxes are provided on the liability method whereby deferred tax assets are recognized for deductible temporary differences, and deferred tax liabilities are recognized for taxable temporary differences.

Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Recent Accounting Pronouncements:

(7) Recent Accounting Pronouncements

Standard (SFAS) No. 154, Accounting Changes and Error Corrections - a Replacement of APB Opinion No. 20 and FASB Statement No. 3. SFAS No. 154 requires Retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. SFAS No. 154 also requires that retrospective application of a change in accounting principle be limited to the direct effects of the change. Indirect effects of a change in accounting principle, such as a change in nondiscretionary profit-sharing payments resulting from an accounting change, should be recognized in the period of the accounting change. SFAS No. 154 also requires that a change in depreciation, amortization or depletion method for long-lived, non-financial assets be accounted for as a change in accounting estimate effected by a change in accounting principle. SFAS No. 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Early adoption is permitted for accounting changes and corrections of errors made in fiscal years beginning after the date this Statement is issued. Management does not expect the implementation of this new standard to have a material impact on our financial position, results of operations and cash flows.

In March 2005, the SEC released Staff Accounting Bulletin No. 107, "Share-Based Payment" ("SAB 107"), which provides interpretive guidance related to the interaction between SFAS 123(R) and certain SEC rules and regulations. It also provides the SEC staff's views regarding valuation of share-based payment arrangements. In April 2005, the SEC amended the compliance dates for SFAS 123(R), to allow companies to implement the standard at the beginning of their next fiscal year, instead of the next reporting period beginning after June 15, 2005. Management is currently evaluating the impact SAB 107 will have on our

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

consolidated financial statements.

In March 2005, the SEC released Staff Accounting Bulletin No. 107, "Share-Based Payment" ("SAB 107"), which provides interpretive guidance related to the interaction between SFAS 123(R) and certain SEC rules and regulations. It also provides the SEC staff's views regarding valuation of share-based payment arrangements. In April 2005, the SEC amended the compliance dates for SFAS 123(R), to allow companies to implement the standard at the beginning of their next fiscal year, instead of the next reporting period beginning after June 15, 2005. Management believes that this will not have a material impact on the financial statements.

In June 2005, the Emerging Issues Task Force, or EITF, reached a consensus on Issue 05-6, Determining the Amortization Period for Leasehold Improvements, which requires that leasehold improvements acquired in a business combination or purchased subsequent to the inception of a lease be amortized over the lesser of the useful life of the assets or a term that includes renewals that are reasonably assured at the date of the business combination or purchase. EITF 05-6 is effective for periods beginning after July 1, 2005. We do not expect the provisions of this consensus to have a material impact on the our financial position, results of operations or cash flows.

In March 2005, the FASB issued FASB Interpretation No. 47, "Accounting for Conditional Asset Retirement Obligations" ("FIN 47"). FIN 47 provides guidance relating to the identification of and financial reporting for legal obligations to perform an asset retirement activity. The Interpretation requires recognition of a liability for the fair value of a conditional asset retirement obligation when incurred if the liability's fair value can be reasonably estimated. FIN 47 also defines when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation. The provision is effective no later than the end of fiscal years ending after December 15, 2005. The Company will adopt FIN 47 beginning the first quarter of fiscal year 2006 and does not believe the adoption will have a material impact on its consolidated financial position or results of operations or cash flows.

In February 2006, the FASB issued Statement of Financial Accounting Standards No. 155, Accounting for Certain Hybrid Financial Instruments ("SFAS No. 155"), which amends Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities ("SFAS No. 133") and Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities ("SFAS No. 140"). SFAS No. 155 permits fair value measurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation, establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or hybrid financial instruments containing embedded derivatives. We do not expect the adoption of SFAS 155 to have a material impact on its consolidated financial position, results of operations or cash flows.

In March 2006, the FASB issued Statement of Financial Accounting Standards No. 156, Accounting for Servicing of Financial Assets ("SFAS No. 156"), which amends FASB Statement No. 140 ("SFAS No. 140"). SFAS 156 may be adopted as early as January 1, 2006, for calendar year-end entities, provided that no interim financial statements have been issued. Those not choosing to early adopt are required to apply the provisions as of the beginning of the first fiscal year that begins after September 15, 2006 (e.g., January 1, 2007, for calendar year-end entities). The intention of the new statement is to simplify accounting for separately recognized servicing assets and liabilities, such as those common with mortgage securitization activities, as well as to simplify efforts to obtain hedge-like accounting. Specifically, the FASB said FAS No. 156 permits a

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

servicer using derivative financial instruments to report both the derivative financial instrument and related servicing asset or liability by using a consistent measurement attribute, or fair value. We do not expect the adoption of SFAS 155 to have a material impact on its consolidated financial position, results of operations or cash flows.

(2) Property and equipment:

The cost of property and equipment at December 31, 2005 consisted of the following:

Computer equipment	\$ 32,148
Less accumulated depreciation	(16,362)

	\$ 15,786
	=====

Depreciation expense for the years ended December 31, 2005 and 2004 was \$7,566 and \$2,065 respectively.

(3) Loan Payable:

Loans payable had no stated interest rate, were due on demand and unsecured. Interest has been accrued at an estimated market interest rate of 8% and is included with the principal balance. The original balance was \$228,239 and the proceeds were received and used for operating capital during the year ended December 31, 2002. In March 2003, a claim of \$1,460,000 was asserted by the lender. Although management believed the claims were frivolous, due to the additional resources needed by management to defend against these claims and the likely distraction of management's efforts from moving forward with the business plan, a settlement agreement was executed with the lender in August 2003.

Pursuant to the Settlement Agreement, the Company agreed to pay a settlement amount of an additional \$650,000, without claiming any fault or wrong doing. As of December 31, 2005, the total obligation included loans of \$228,239 in principal, the settlement obligation of \$650,000, and accrued interest of \$248,893 amounted to an aggregate of \$1,127,132. One half of this amount, or \$563,566 is due and payable at the closing of the first round of project funding and the remaining balance is due and payable at the closing of any subsequent project funding. Since the loan payable does not have a maturity date, the entire balance has been presented as a current liability. Mr. Tyner who controls First Nevada Development is a shareholder in our company and owns approximately 7.4 million shares of our common stock.

(4) Note Payable:

On November 19, 2002, the Company entered into a line of credit financing agreement which entitled the Company to borrow from Dan Fugal up to an aggregate of \$2,500,000. Advances

F-10

under this line of credit are based on achievement of certain milestones pursuant to the agreement. Upon the receipt of funds, the Company was required to issue up to 1,500,000 shares of its Common Stock on a pro rata basis. The

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

Company has borrowed \$605,000 against this line of credit and issued 1,500,000 shares. The balance payable under this line of credit was due on April 15, 2003 and is secured by all of the Company's assets. The original line of credit bore interest at the rate of 12% per annum. This line of credit has expired and no principal or accrued interest has been paid back. Consequently, during the year ended December 31, 2003, the Company agreed to pay 100% interest related to this line of credit. Interest of \$605,000 has been accrued and included with the principal balance in the accompanying consolidated financial statements. As of December 31, 2005, the total obligation including loans of \$605,000, and accrued interest of \$605,000, amounted to \$1,210,000. Mr. Fugal has agreed to be repaid from those funds received by the Company at its next project funding. If the Company does not receive significant project funding it will not be able to repay Mr. Fugal. As collateral for the Loan and Security Agreement with Mr. Fugal, Mr. Fugal filed a UCC-1 against the assets and intellectual property of the company which gives Mr. Fugal the right to institute foreclosure proceedings against the Company. Mr. Fugal could institute foreclosure proceedings at any time if he believes that he will not be repaid. As of the date of this Annual Report on Form 10-KSB, Mr. Fugal has not indicated any intentions to institute foreclosure proceedings. However, management can not guarantee that Mr. Fugal will not attempt to institute foreclosure proceedings against the Company.

(5) Related Party Transactions:

During February 2004, the Company paid \$300,000 in cash to Western Architectural Services, LLC, an entity owned by an officer-stockholder and director of the Company pursuant to a Contractor Agreement between Western Architectural Services and the Company to design and build a car for the Voyager project and conduct a feasibility study.

During the year ended December 31, 2005, the Company awarded a bonus of \$380,000 payable to Synthetic Systems, LLC, an entity jointly owned by its Chief Executive Officer and Secretary. At December 31, 2005 accrued expenses - related party consists of the \$785,000 unpaid bonus balance, which includes \$380,000 and \$370,000 from the years ended December 31, 2005 and 2004, respectively.

During the year ended December 31 2005, the Company paid consulting fees of approximately \$35,000 per month to Synthetic Systems, LLC. For a total of \$420,000. Synthetic Systems is jointly owned by Richard L. Hannigan Sr. and his spouse Myong Hannigan. The company also paid to Synthetic Systems LLC, office rent expenses of approximately \$31,794 and furniture and equipment lease Of \$13,800 or \$1,150 per month.

cash consideration of \$100,000 to one investor at \$0.10 per share. The Company recognized a beneficial conversion feature of \$80,000 accounted for as a preferred stock dividend during the year. Since these shares are immediately convertible into common stock of the Company, pursuant to EITF 00-27 and EITF 98-5, the Company recognized the dividend immediately.

In August 2003, the Company sold 500,000 of the Series B Preferred Stock Shares for total cash consideration of \$50,000 to one investor at \$0.10 per share. The Company recognized a beneficial conversion feature of \$50,000 accounted for as a preferred stock dividend during the year. Since these shares are immediately convertible into common stock of the Company, pursuant to EITF 00-27 and EITF 98-5, the Company recognized the dividend immediately.

In December 2003, the Company issued 2,500,000 of the Series B Preferred Stock Shares for total consideration valued at \$2,350,000, or \$0.94 per share, to its officer-stockholders. The fair value of the services received was determined based on the fair value of the underlying trading common stock.

On March 5, 2004, Richard L. Hannigan, Sr. an officer and director converted 500,000 Series A Preferred shares into 5,000,000 Common shares of the Company.

On March 31, 2004, Gregg Giuffria, a former officer and director converted

500,000 Series A Preferred shares into 5,000,000 Common shares of the Company.

In August 2005 Richard L. Hannigan, Sr. an officer and director converted 1,000,000 Series B Preferred shares into 2,000,000 Common shares of the Company.

In August 2005 Myong Hannigan, an officer and director converted 1,000,000 Series B Preferred shares into 2,000,000 Common shares of the Company.

In August 2005 Varna Group LC, an entity of which Tracy Jones has control and officer and director of the Company converted 500,000 Series B Preferred shares into 1,000,000 Common shares of the Company.

Common Stock Issuances

On February 15, 2002 the Company sold 800,000 restricted shares of common stock at a price of \$0.50 per share for \$400,000, which represented the fair market value of the common stock on date of issuance.

On April 5, 2002, the Company issued 200,000 restricted shares of common stock in exchange for services performed totaling \$200,000. The fair market value of the common stock on the date of issuance totaled \$400,000. Therefore, the Company has recognized stock discount expense of \$200,000.

On April 5, 2002, the Company issued 125,000 restricted common shares for Investor Relations Services. The shares were being held by the Company in anticipation of executing a formal definitive agreement with the service provider. On June 6, 2002 the Company cancelled the shares due to an inability to reach an agreement with the service provider.

On May 30, 2002, the Company executed a Contractor Agreement with Western Architectural Services, LLC ("WAL") whereby Western Architectural will provide to be determined architectural services to the Company for its Voyager Project to be located on the Las Vegas Strip.

The Company issued 2,812,500 shares of restricted common stock to Western Architectural ("WAL") in consideration for Western Architecture's contract sum of \$18,141,533 classified as deferred financing costs, to be expensed as earned. As of December 31, 2005, no amounts have been earned by WAL and accordingly, no amounts have been expensed. Although he is now a related party, at the time of this transaction, this principal of WAL was not a related party.

Stock Option Plan

The Company's stockholders approved the 2002 Stock Option Plan on April 2, 2002 at the Company's annual meeting. The plan authorizes the Company to issue 5,000,000 shares of common stock for issuance upon exercise of options.

The plan is intended to encourage directors, officers, employees and consultants of the Company to acquire ownership of Common Stock. Officers (including officers who are members of the Board of Directors), directors (other than members of the Stock Option Committee (the

F-15

"Committee") to be established to administer the Stock Option Plan) and other employees and consultants of the Company and its subsidiaries (if established) will be eligible to receive options under the planned Stock Option Plan. The Committee will administer the Stock Option Plan and will determine those persons to whom options will be granted, the number of options to be granted, the provisions applicable to each grant and the time periods during which the options may be exercised. No options may be granted more than ten years after the date of the adoption of the Stock Option Plan.

Unless the Committee, in its discretion, determines otherwise, non-qualified stock options will be granted with an option price equal to the fair market value of the shares of Common Stock to which the non-qualified stock option relates on the date of grant. In no event may the option price with respect to an incentive stock option granted under the Stock Option Plan be less than the fair market value of such Common Stock to which the incentive stock option relates on the date the incentive stock option is granted. Each option granted under the Stock Option Plan will be exercisable for a term of not more than ten years after the date of grant. Certain other restrictions will apply in connection with this Plan when some awards may be exercised.

In the event of a change of control (as defined in the Stock Option Plan), the date on which all options outstanding under the Stock Option Plan may first be exercised will be accelerated. Generally, all options terminate 90 days after a change of control. As of December 31, 2005, no options have been issued under this plan.

(8) Commitments and Contingencies:

During January 2002, the Company entered into a month-to-month office lease totaling \$2,350 per month with a related party.

Contingent Liability

During the year ended December 31, 2002, an officer of the Company who lacked appropriate authority offered approximately 16.4 million options to investors at an exercise price of \$0.001. There were no written agreements and Board approval was required for such transactions, and hence, the officer did not have the authority to grant the options. These options were contingently issuable upon the successful completion of debt financing of amounts ranging from \$100 million to \$300 million, unrelated to the above. The Company and its Board of Directors have denied any liability for the issuance of these options, plans to vigorously defend its position and accordingly, no amount has been accrued for this contingency in the accompanying consolidated financial statements. These

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

disputed options expired in August 2003.

Deferred Construction Costs

On May 30, 2002, the Company executed a Contractor Agreement with Western Architectural Services, LLC ("Western"), pursuant to which Western will provide to the Company certain architectural services for the L.V. Voyager Project and in exchange for which the Company issued 2,812,500 shares of restricted Common Stock to Western. Moreover, pursuant to the Contractor Agreement, Western is entitled to earn up to an aggregate of \$18,141,533. Although he was not an affiliate of the Company upon execution of the Contractor Agreement, Mr. Jones, currently an executive officer, director and significant stockholder of the Company, formed Western in 1982 and is currently its 85% majority owner and managing member.

Western plans to sell the amount of common stock at the time before and during the contract to purchase supplies and pay sub contractors. At the time the contract was issued the shares of the company were trading at \$6.50 per share. The current stock price of the company has a trading range of \$0.10 to \$0.50. If at the time Western performs the services contracted and the share price is below \$6.50 per share the Company will be required to issue new shares to Western in order for the contract to be fulfilled. Mr. Jones, the majority owner of Western is currently an affiliate of the company which will also limit the amount of shares that can be sold by an based on the trading volume and shares outstanding in accordance with Rule 144 of the Securities Act of 1933.

(9) Income Taxes:

The reconciliation of the effective income tax rate to the federal statutory rate for the years ended December 31, 2005 and 2004 is as follows:

	2005	2004
Federal income tax rate	35.0%	35.0%
Accrued expenses and stock based	(17.0)	(17.0)
Effect of net operating loss	(28.0)%	(28.0)%
	-----	-----
Effective income tax rate	0.0%	0.0%
	-----	-----

F-16

Deferred tax assets and liabilities reflect the net effect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and amounts used for income tax purposes. Significant components of the Company's deferred tax assets and liabilities at December 31, 2005 are as follows:

Loss carry forwards	\$ 2,530,000
Accrued expenses	700,000
Stock based compensation	320,000
Less valuation allowance	(3,550,000)

\$ --

At December 31, 2005, the Company has provided a valuation allowance for the deferred tax asset since management has not been able to determine that the realization of that asset is more likely than not. The net change in the valuation allowance for the years ended December 31, 2005 and 2004 were an increase of approximately \$850,000 and \$2,100,000, respectively. Net operating loss carry forwards start to expire in 2021.

(10) SUBSEQUENT EVENTS

In February 2006, \$25,000 was received for 166,667 common shares at \$0.15 per share.

F-17

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

SUBSEQUENT EVENTS

On January 17, 2006 Stonefield Josephson, Inc. ("Stonefield") resigned as the Company's independent registered public accounting firm.

As a result, the Company's board of directors believed that it was in the best interest of the Company to seek local representation. On January 23, 2006 upon approval of the board of directors the Company engaged De Joya Griffith & Company, LLC ("De Joya Griffith") of Las Vegas, Nevada to serve as the Company's independent auditors.

Stonefield Josephson, Inc. had audited the Company's financial statements for each of the two fiscal years ended December 31, 2004 and December 31, 2003. The report of Stonefield Josephson, Inc. for each of those years did not contain an adverse opinion or disclaimer of opinion and was not modified as to uncertainty, audit scope, or accounting principles, except that the audit report of Stonefield Josephson, Inc. on the financial statements of the registrant as of and for the fiscal year ended December 31, 2004 contained an explanatory paragraph expressing substantial doubt about the registrant's ability to continue as a going concern.

During the two most recent fiscal years and the subsequent interim period through the date of Stonefield's resignation there were no disagreements with Stonefield Josephson, Inc. on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to the satisfaction of Stonefield Josephson, Inc., would have caused it to make reference to the subject matter of the disagreement in connection with its report.

There were no other "reportable events" as that term is described in Item 304 (a) (1) (iv) (B) of Regulation S-B occurring within the registrant's two most recent fiscal years and through the subsequent interim period through the date of Stonefield's resignation.

During the two most recent fiscal years ended December 31, 2005 and December 31,

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

2004 and the subsequent interim period ending through the date of engagement, the Company did not consult De Joya Griffith with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements, or any disagreement as described under Item 304(a)(1)(iv)(B) of Regulation S-B, or event described under Item 304(a)(2) of Regulation S-B.

ITEM 8A. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. We do realize that we are a small company and as a small company with only the officers and directors participating in the day to day management, with the ability to override controls, each officer and director has multiple positions and responsibilities that would normally be distributed among several employees in larger organizations with adequate segregation of duties to ensure the appropriate checks and balances.

EVALUATION OF DISCLOSURE, CONTROLS AND PROCEDURES

Based on their evaluation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this annual report on Form 10-KSB the Company's chief executive officer has concluded that the Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and are operating in an effective manner.

CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING

There were no significant changes to our internal controls or in other factors that could significantly affect internal controls over financial reporting subsequent to the date of our accountant's evaluation.

Mr. Jones formed Western Architectural Services, LLC ("Western") in 1982, as an architectural design and fabrication company. Over the past 20 years Mr. Jones has been instrumental in the development of "themed" environments for the Hotel/Casino, Restaurant, and Theme Park industry. At Western, Mr. Jones [has revolutionized] the use of digitized computer enhancement for the replication of historical features.

Mr. Jones created methods that reduced the time to produce large-scale projects such as the Statue of Liberty at the New York - New York Hotel and Casino in Las Vegas. Previously, this project would have taken almost 1-1/2 years to recreate. However, with methods developed at Western, this project was fabricated in just over 6 months.

Mr. Jones has a history of producing the most difficult projects on time, and on budget. With his new position at the Company, Mr. Jones can take this same approach to developing the Observation Wheels. Through many years of difficult construction projects and budgetary restraints, Mr. Jones has developed creative and effective means of manufacturing and construction that will revolutionize] this industry.

Mr. Jones will bring his expertise of manufacturing to this world class project. Mr. Jones will focus on product development, quality control, safety,

state and federal regulations, freight issues, and on-time production and overall construction review.

Myong Hannigan has served as Secretary of the Company, and a Board member, since April 4, 2004. Ms. Hannigan also serves as the Secretary and Treasurer of VEHI, our wholly-owned subsidiary. Ms. Hannigan attended college at Seoul University in Seoul, South Korea for general studies and business management. Ms. Hannigan has been a managing partner of a design and construction company, Synthetic Systems, Inc., since 1991. This company specializes in custom design for interior and exterior casino construction. Prior to Synthetic Systems, Inc., Ms. Hannigan was a managing partner for Architectural Services, Inc. and Architectural Systems, Inc., from 1983-1991. This company specialized in design and installation of custom glass and glazing systems. Prior to Architectural Services, Inc. and Architectural Systems, Ms. Hannigan owned and managed Antiqua Stain Glass Company in Honolulu, Hawaii from 1979-1981, which was relocated from Bloomington, Illinois (1976-1979). This company specialized in design, manufacturing, installation and retail/wholesale products. Ms. Hannigan is the wife of Richard Hannigan, President, Chief Executive Officer and Director of the Company.

AUDIT COMMITTEE AND FINANCIAL EXPERT

The Board of Directors does not have a separate Audit Committee; rather the Board as a whole performs all functions of an Audit Committee. The Board the Board currently does not have an "audit committee financial expert" as defined by the Securities and Exchange Commission Regulation S-B, Item 401(c)(2). The Board believes that, given the developmental stage of the Company, the Company is not currently in a position to attract the services of a Board member who does qualify as a financial expert. However, the Board will continue its search for an individual who would qualify as a financial expert.

BOARD OF DIRECTORS COMMITTEES AND COMPENSATION

COMPENSATION COMMITTEE INTERLOCK AND INSIDER PARTICIPATION

The Board of Directors does not have a Compensation Committee. Richard Hannigan, President, oversaw the compensation of our executive officers.

BOARD OF DIRECTOR'S REPORT ON EXECUTIVE REPORT ON EXECUTIVE COMPENSATION

General. As noted above, our Board of Directors does not have a Compensation Committee and, accordingly, during the year ended December 31, 2005, the Board of Directors, through the President, reviewed and approved the compensation of our executive officers.

Overall Policy; Significant Factors. The compensation decisions made by the Board of Directors in respect of our executive officers were influenced by two major factors. First, our start-up nature brings with it all of the normal capital requirements to sustain growth; therefore, certain stock compensation was granted in lieu of salaries or commissions for services rendered. This practice may be extended into the future on a case-by-case basis. Finally, as we continue to mature, certain additions to the executive staff will be required. As we are required to seek talent in the outside market, we will be required to provide a competitive compensation package.

As an overall policy, however, the Board continues to believe that long-term compensation tied to the creation of stockholder value should constitute a significant component of the compensation to be earned by our executive officers. In this respect, it will be the Board's policy to attempt to

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10KSB

restrain base cash compensation (subject to competitive pressures), while providing the incentive for management to increase stockholder value by providing such officers with significant numbers of market-price stock that will not confer value upon the officers unless and until the Company's share price rises. The Board of Directors expects that stock options will constitute a significant component of the compensation package provided to executive officers.

The Board believes that cash bonuses are, at times, appropriate based upon the performance of our business compared to our internal expectations and general business conditions.

STOCK OPTION PLAN

Our stockholders approved the 2002 Stock Option Plan on April 2, 2002 at our annual meeting. The plan authorizes the Company to issue 5,000,000 shares of common stock for issuance upon exercise of options.

The plan is intended to encourage directors, officers, employees and consultants of the Company to acquire ownership of Common Stock. Officers (including officers who are members of the Board of Directors), directors (other than members of the Stock Option Committee (the "Committee") to be established to administer the Stock Option Plan) and other employees and consultants of the Company and its subsidiaries (if established) will be eligible to receive options under the planned Stock Option Plan. The Committee will administer the Stock Option Plan and will determine those persons to whom options will be granted, the number of options to be granted, the provisions applicable to each grant and the time periods during which the options may be exercised. No options may be granted more than ten years after the date of the adoption of the Stock Option Plan.

21

Unless the Committee in its discretion determines otherwise, non-qualified stock options will be granted with an option price equal to the fair market value of the shares of Common Stock to which the non-qualified stock option relates on the date of grant. In no event may the option price with respect to an incentive stock option granted under the Stock Option Plan be less than the fair market value of our Common Stock on the date the incentive stock option is granted. Each option granted under the Stock Option Plan will be exercisable for a term of not more than ten years after the date of grant. Certain other restrictions will apply in connection with this Plan when some awards may be exercised.

In the event of a change of control (as defined in the Stock Option Plan), the date on which all options outstanding under the Stock Option Plan may first be exercised will be accelerated. Generally, all options terminate 90 days after a change of control. As of December 31, 2004, no options have been issued under this plan.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), requires our executive officers and directors, and persons who beneficially own more than ten percent of our common stock, to file initial reports of ownership and reports of changes in ownership with the SEC. Executive officers, directors and greater than ten percent beneficial owners are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file. Based upon a review of the copies of such forms furnished to us, and written representations from our executive officers and directors, our belief is that during and prior to the year ended 2005, all reports were filed timely as
