**AstraZeneca Outlines Strategy to Further Strengthen Its Product Pipeline While Delivering Continued Sales and Earnings Growth**

AstraZeneca will provide an update on its strategy and development pipeline through to the end of the decade at a business review meeting to be held in London today.

David Brennan, Chief Executive Officer of AstraZeneca, will set the agenda for the Company's business review by outlining the measures being taken to further strengthen the new product pipeline and his expectations for sustaining the current business momentum.

Commenting on the Company's pipeline, Mr Brennan said, "There are three elements to our strategy to strengthen the pipeline: improve the productivity of our in-house Discovery and Development efforts; aggressively pursue promising products and technologies from external sources; and, beginning with our offer for Cambridge Antibody Technology, build a major international presence in the research and development of biological therapeutics to complement our small molecule capabilities.□

Commenting on AstraZeneca's ambitions to sustain its current business momentum, Brennan said, "We know what it will take to continue to deliver a strong performance over the next five years. While new products will play a role, many of the ingredients for continuing our momentum can be found in our current product range. Effective lifecycle management and commercial excellence in support of key growth products such as Symbicort™, Crestor™ and Seroquel™ should continue to drive top line growth. This will give us the potential to grow sales in line with projected market growth and, in conjunction with continued cost discipline, the delivery of earnings growth ahead of sales is within our reach.□

Dr John Patterson, Executive Director of Development, will highlight progress with the R&D pipeline:

- Expansion of the potential of key marketed products (Seroquel™, Crestor™, Symbicort™) through lifecycle management.
- Progress of the development pipeline within key therapy areas which totals 103 projects, 79 of which involve new chemical entities (NCEs) and 24 for the lifecycle management of products already on the market.

- Enhancement of the Company's discovery and development capability through productivity improvements, the increased use of biomarkers and translational science and investment in biological therapeutics.

The recently announced recommended cash offer for Cambridge Antibody Technology (CAT), adds to the momentum of the Company's expanded business development activities and will supplement the progress being made internally to deliver a flow of products that will meet its growth objectives in the next decade.

- Excellent progress is being made through externally sourced products and technologies from the following companies: Renovis Inc. (NXY-059), AtheroGenics Inc. (AGI-1067), Abgenix Inc. (human monoclonal antibodies), Array BioPharma Inc. (MEK inhibitors), Avanir Pharmaceuticals (reverse cholesterol transport), CAT (human monoclonal antibodies, peptides and proteins), KuDOS Pharmaceuticals Ltd (DNA repair), NPS Pharmaceuticals Inc. (treatment of intractable pain), Protherics PLC (CytoFab™), Targacept Inc. (neuronal nicotinic agents for cognition) and Theravance Inc. (novel intravenous anaesthetic agent).

Jonathan Symonds, Chief Financial Officer, will review the business performance over the last two years and the potential for this to be sustained for the next five years. Over the last two years the strong performance has been based on five key growth products, excellent execution in the market and productivity improvements across the whole business. AstraZeneca believes these performance trends can continue. The Company has the potential to grow sales over the next five years in line with projected market growth while absorbing generic competition to a number of its products. This sales performance, when combined with further productivity gains, is expected to lead to further improvements in operating margin and to generation of substantial cash flow for reinvestment in the business and for return to shareholders. Investment will be targeted at accelerating internal innovation as well as improving the strength of the pipeline through a combination of acquisition, licensing and collaboration, leading to increased investment in research and development.

Progress in key therapy areas will be covered at the meeting:

**Cardiovascular:**

- The current market momentum of Crestor™ is based on its clearly defined best in class efficacy as demonstrated by studies such as STELLAR and ASTEROID.
  - Positive results from EXPLORER, AstraZeneca's study comparing Crestor™ (40mg) with Crestor™ (40mg) and ezetimibe in high-risk patients, are due to report at the forthcoming International Symposium on Atherosclerosis.
-

- The Phase III programme for **AZD6140** will evaluate the impact of this reversible oral anti-platelet agent on morbidity and mortality in patients with Acute Coronary Syndrome. The pivotal Phase III trial (PLATO) is in the late planning phase. Discussions with regulatory authorities to finalise the protocol are ongoing and are expected to be completed in time for a study start during the second half of 2006.
- The **AGI-1067** ARISE trial is anticipated to reach its target number of events in the second half of 2006, with results anticipated in early 2007 and subsequent regulatory submissions in the first half of 2007. If successful, AGI-1067 will herald a new approach to the treatment of atherosclerosis with a profile that would make it complementary to statins including Crestor™ in the market place.
- Based on the results of early clinical studies, the Company plans to take the alpha-partial gamma PPAR agonist **AZD6610** a treatment for combined dyslipidaemia, into Phase II later this year.
- **AZD9684** is the first member of a new anti-thrombotic class (CPU inhibitors). Results from an intravenous concept study evaluating its ability to dissolve clots in patients with pulmonary embolism will be available during the second half of 2006.
- One of the major focuses of the Company's early stage cardiovascular development pipeline is to build a strong anti-atheroma franchise, based on novel approaches to this disease. **AZD4121**, a cholesterol absorption inhibitor, will be taken into Phase I early next year.

**Neuroscience:**

- Following the recent regulatory submissions based on the BOLDER studies in bipolar depression, **Seroquel™** is set to become the first medication to offer a single treatment effective at both poles of bipolar disease (depression and mania).
  - An NDA for the use of Seroquel SR™ formulation in schizophrenia will be filed in the US in Q3 2006. The formulation, has patent protection to 2017 and is being used in a clinical programme now underway to study Seroquel SR™ in Major Depressive Disorder (MDD) and Generalised Anxiety Disorder (GAD) designed to deliver indications from 2009, creating an opportunity to access up to 20 percent of the depression and anxiety market.
  - At current recruitment rates, the **NXY-059** SAINT II study is expected to complete enrolment before the end of June with results during the fourth quarter of this year. First regulatory filings are planned for the first half of next year.
  - AstraZeneca will develop the neuronal nicotinic receptor agonist **AZD3480**, licensed from Targacept Inc. for its first indications in Alzheimer's disease and cognitive deficits in schizophrenia.
-

- A licensing deal has been signed with Theravance Inc. for development of a novel intravenous anaesthetic agent, currently at the pre-clinical phase of development.
- Eight new molecules have been added to the Neuroscience pipeline and four projects have progressed into clinical Phase I.

**Respiratory/Inflammation:**

- The COMPASS and SMILE studies illustrate the benefits of **Symbicort Maintenance and Reliever Therapy™** (SMART) when compared with current asthma treatments.
- FDA review of the use of the Symbicort™ pMDI device for the treatment of asthma is on track, with a scheduled first PDUFA date in July 2006. The Company anticipates more than one review cycle.

- Phase II trials of the P2X7 antagonist **AZD9056** in COPD and inflammatory bowel disease will read out in the next nine months. A positive clinical signal has already been shown in rheumatoid arthritis.

  - **AZD2171**'s combination of potency, selectivity and pharmacokinetics gives it the potential to be the best in class VEGFR-TKI, with activity in all forms of lung cancer including squamous cell carcinoma. A Phase II/III study in first line NSCLC is underway with the National Cancer Institute of Canada and a second study in this indication will start next year. Data from these studies will be available in 2009. Data from Phase III studies in colorectal cancer will be available in 2010. This programme will be supported by US NCI-sponsored studies in other tumours under the auspices of the recently finalised Collaborative Research and Development Agreement (CRADA).

AstraZeneca announces that it has acquired, or received valid acceptances of the Offer in respect of, 37,261,730 CAT Shares in aggregate, representing approximately 86.7 per cent. of the CAT Shares to which the Offer relates.

As at 3.00pm (London time), 10.00am (New York City time) on 21 June 2006, being the first closing date of the recommended cash offer for the entire issued and to be issued share capital of CAT not otherwise held by AstraZeneca, valid acceptances of the Offer had been received in respect of 31,661,730 CAT Shares (including CAT Shares represented by 1,840,347 CAT ADSs), representing approximately 73.7 per cent. of the CAT Shares to which the Offer relates. None of these acceptances were received from persons acting in concert with AstraZeneca. Of these valid acceptances, valid elections for the Loan Note Alternative had been received in respect of a total of 516,924 CAT Shares. For the purposes of this announcement, the number of CAT Shares (including those represented by CAT ADRs) to which the Offer relates is 42,988,803, being the 53,206,786 shares in issue as of the date of this announcement less the 10,217,983 shares held by AstraZeneca prior to the commencement of the Offer Period.

The Initial Offer Period is extended and remains open for acceptance, and withdrawal rights of persons that have tendered their securities into the Offer continue to exist, until the closing of the Initial Offer Period which is now expected to be 3.00pm (London time), 10.00am (New York City time) on 29 June 2006, unless further extended.

Alternative had been received in respect of a total of 512,743 CAT Shares. Including the 5,700,000 CAT Shares acquired by AstraZeneca since 23 May 2006, AstraZeneca has acquired, or received valid acceptances of the Offer in respect of, 41,262,279 CAT Shares (including CAT Shares represented by 2,085,549 CAT ADSs) in aggregate, representing approximately 95.95 per cent. of the CAT Shares to which the Offer relates.

For the purposes of this announcement, the number of CAT Shares (including those represented by CAT ADRs) to which the Offer relates is 43,002,698, being the 53,220,681 shares in issue as of the date of this announcement less the 10,217,983 shares held by AstraZeneca prior to the commencement of the Offer Period.

Including the 10,217,983 CAT Shares held by AstraZeneca prior to the commencement of the Offer Period, AstraZeneca has acquired, or received valid acceptances of the Offer in respect of, 51,480,262 CAT Shares (including CAT Shares represented by 2,085,549 CAT ADSs) in aggregate, representing 96.73 per cent. of the existing issued share capital of CAT.

In addition to CAT ADSs tendered prior to 3.00pm (London time), 10.00am (New York City time), on 29 June 2006, 30,814 ADSs are subject to notice of guaranteed delivery period.

The Offer was declared unconditional in all respects on 22 June 2006. AstraZeneca announces that the Initial Offer Period, which was extended until 29 June, is now closed for acceptance and the withdrawal rights of persons that have tendered their securities will be terminated.

Prior to the announcement of the Offer, AstraZeneca had received irrevocable undertakings to accept the Offer in respect of 190,569 CAT Shares in aggregate, representing approximately 0.36 per cent. of the existing issued share capital of CAT. Valid acceptances have been received in respect of all of these CAT Shares and such acceptances are included in the total referred to above.

As at the date of this announcement, affiliates of Goldman Sachs International and Deutsche Bank (who are acting in concert (within the meaning of the City Code) with AstraZeneca) held 78,084 CAT Shares in aggregate, representing 0.15 per cent. of the existing issued share capital of CAT.

### **Commencement of Subsequent Offer Period and Settlement**

AstraZeneca also announces the commencement of the Subsequent Offer Period, which is expected to remain open for acceptance until such time as the compulsory acquisition procedures referred to in part II of the Offer Document are completed or until 3.00pm (London time), 10.00am (New York City time) on 22 September 2006, whichever occurs earlier. If CAT Securities are tendered into the Offer during the Subsequent Offer Period, such holders will not have the ability to withdraw their tender of such securities, subject to certain conditions set out in the Offer Document. If the CAT Securities are acquired pursuant to compulsory acquisition procedures described below, no withdrawal rights will exist in respect of the securities so acquired.

To the extent they have not already done so, holders of CAT Shares and CAT ADSs who hold such securities in certificated form who have not yet accepted the Offer but wish to do so should complete and return their Form of Acceptance and Letter of Transmittal as soon as possible in accordance with the instructions set out in the Offer Document and in the Form of Acceptance and Letter of Transmittal. The CAT Shareholders and ADS holders who hold their CAT Shares in uncertificated or book-entry form and who have not yet accepted the Offer but wish to do so are reminded to take the necessary steps through CREST or their respective Agent Institution (as applicable) as soon as possible.

Settlement of the consideration to accepting CAT Shareholders and accepting holders of CAT ADSs (including holders of CAT ADSs that deliver a Notice of Guaranteed Delivery in a timely manner) or their designated agents will be effected as set out below:

- (a) in the case of acceptances received complete in all respects by 22 June 2006 and not withdrawn before today, within 14 calendar days of such date; or

---

- (b) in the case of acceptances received complete in all respects after 22 June 2006 but while the Offer remains open for acceptance, within 14 calendar days of such receipt.

### **De-listing and Compulsory Acquisition**

As AstraZeneca has attained the required 75 per cent. of the voting rights attaching to CAT Shares, AstraZeneca is taking steps to procure the application by CAT for the cancellation of the listing of CAT Shares from the Official List and the cancellation of trading in CAT Shares on the London Stock Exchange's market for listed securities. It is anticipated that cancellation of listing and trading will take effect no earlier than 28 July 2006. AstraZeneca also intends to procure that CAT apply for de-listing of the CAT ADSs from NASDAQ. Such de-listings would significantly reduce the liquidity and marketability of any CAT Shares or CAT ADSs that are not acquired by AstraZeneca. AstraZeneca will also request that CAT terminate the existing deposit agreement through which the ADS programme is operated. In addition, if the number of holders of CAT Securities in the United States falls below 300 (calculated in accordance with Rule 12g3-2(a) under the Exchange Act), AstraZeneca intends to procure that CAT file a Form 15 with the SEC to request that its registration under the Exchange Act be terminated or suspended. It is also anticipated that, after such cancellations, CAT will be re-registered as a private company under the relevant provisions of the Companies Act.

Given that AstraZeneca has received acceptances under the Offer in respect of, or otherwise acquired, more than 90 per cent. of CAT Shares to which the Offer relates, AstraZeneca intends to exercise its rights pursuant to the provisions of Schedule 2 of the Interim Regulations to acquire compulsorily, on the same terms as the Offer, the remaining CAT Shares (including shares underlying CAT ADSs) in respect of which the Offer has not been accepted.

Defined terms used in this announcement have the same meanings as in the Offer Document dated 23 May 2006.

ANNUAL REPORT

OCTOBER 31, 2008

---

## Trust Summary as of October 31, 2008

## BlackRock Global Equity Income Trust

## Investment Objective

**BlackRock Global Equity Income Trust (BFD) (the Trust )** seeks current income and current gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve these objectives by investing in a diversified portfolio of domestic and foreign common stocks that pay dividends and writing (selling) stock index call options with respect to a portion of its common stock portfolio.

## Performance

For the 12 months ended October 31, 2008, the Trust returned (42.44)% based on market price and (38.56)% based on NAV. For the same period, the MSCI World Index posted a return of (41.85)%. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The covered call premium strategy allowed the Trust some protection on the downside, as management was able to take advantage of market volatility. However, during steep sell-offs like those experienced over the past 12 months, the premium only provides a small cushion, as the Trust is still exposed to the broader equity market downturns. At period-end, volatility in the market persists; as such, the Trust is defensively positioned.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## BlackRock Global Opportunities Equity Trust

## Investment Objective

**BlackRock Global Opportunities Equity Trust (BOE) (the Trust )** seeks current income and current gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve its objectives by investing primarily in equity securities issued by companies located in countries throughout the world and utilizing an option writing strategy to enhance current gains.

For the same period, the benchmark S&P Global Broad Market Index posted a return of (43.97)%. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust's outperformance during the period was primarily attributed to strong stock selection, particularly within the financials, materials and healthcare sectors. Sector allocation also contributed positively, as underweight positions in financials, industrials and information technology, along with an overweight in consumer staples, aided return comparisons.

The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust's comparative performance benefited equally from stock selection and sector allocation. Most notably, selection within the healthcare equipment and biotechnology sub-sectors helped returns. An overweight allocation to healthcare equipment and biotechnology, as well as an underweight within managed healthcare, also had a positive impact on the Trust's relative return for the trailing 12-month period.

## BlackRock Real Asset Equity Trust

## Investment Objective

**BlackRock Real Asset Equity Trust (BCF) (the Trust )** seeks to provide total return through a combination of current income, current gains and capital appreciation. The Trust attempts to achieve this objective by investing primarily in equity securities of companies engaged in energy, natural resources and basic materials businesses and companies in associated businesses and equity derivatives with exposure to those companies.

## Performance

For the 12 months ended October 31, 2008, the Trust returned (51.69)% based on market price and (50.14)% based on NAV. For the same period, the closed-end Lipper Sector Equity Funds category returned (35.59)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust's significant relative underperformance was due primarily to the allocation to commodity-related market segments, such as mining and energy, both of which have lagged the broader market. In particular, base and precious metals producers have come under significant pressure as commodity prices have collapsed in the last several months on waning demand.

## BlackRock S&amp;P Quality Rankings Global Equity Managed Trust

## Investment Objective

**BlackRock S&P Quality Rankings Global Equity Managed Trust (BQY) (the Trust )** seeks to provide total return through a combination of current income and capital appreciation investing primarily in equity securities of issuers that pay above average dividends and have the potential for capital appreciation.

## Performance

For the 12 months ended October 31, 2008, the Trust returned (38.42)% based on market price and (37.53)% based on NAV. For the same period, the MSCI World Developed Value Index posted a return of (42.47)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. One of the key investment objectives of the portfolio is to generate income through positions in stocks with attractive dividend yields. Over the past six months, this detracted as higher-yielding stocks have modestly underperformed. However, throughout the course of the annual period in particular, during the past six months when the global credit crisis intensified higher-quality stocks significantly outperformed lower-quality issues globally, which was beneficial. Significant exposure to the North American region also aided results, as this was the best-performing area over the last 12 months.
