REPORT OF INDEPENDENT ACCOUNTANTS

To the Participants and Administrator of the
Fort James 401(k) Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Fort James 401(k) Plan (the "Plan") at December 31, 2000 and 1999, and the changes in net assets available for benefits for the year ended December 31, 2000 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2000 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Plan is intended to be a qualified profit sharing plan with a cash or deferred arrangement pursuant to Sections 401(a) and 401(k) of the Internal Revenue Code (the "Code"). Eligible employees of Fort James and its domestic subsidiaries are eligible to participate in the Plan upon commencement of employment. Eligible employees who elect to participate are referred to as "Participants." The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

(b) Contributions

Participants may contribute up to 15% (limits may vary by collective bargaining agreements) of their Compensation, as defined in the Plan, on a pre-tax basis. Participants may transfer into the Plan certain assets previously held under any other tax-qualified plan.

Matching contributions made by the Company vary by employee group, but generally are equal to 60% of employee contributions up to 10% of the Participant's Compensation for salaried employees and 6% of Compensation for certain bargaining unit employees. The Company does not match Participant contributions in excess of these percentages. The Plan also allows for discretionary employer contributions. There were no discretionary employer contributions made during the Plan year ended December 31, 2000. Matching contributions are invested in the same investment funds and in the same proportions as a Participant's investment direction applicable to Participant contributions. Prior to November 27, 2000, matching contributions and discretionary

6

employer contributions were made to the FJ Stock Fund. Participants may transfer these contributions to other investment funds at any time.

Participant and Company matching contributions are subject to certain statutory limitations.

(c) Participant Accounts

Each Participant account is credited with the Participant's contributions and allocations of the Company's matching contribution, any discretionary employer contributions, and Plan earnings. Allocations of Company contributions and investment earnings are based on Participant contributions or account balances, as provided by the Plan. Participant accounts are charged with an allocation of administrative expenses including a quarterly fee and certain transaction fees, as applicable.

(d) Vesting

Participants are 100% vested in all contributions to their account plus actual earnings thereon.

(e) Investment Options

The investment funds listed below have been established for the investment of Plan assets. An investment fund consists of a variety of investments selected by a professional manager to meet specific objectives of return and risk. Participants are allowed to direct all contributions made to their accounts to any of the core investment funds and combination funds described below.

(f) Participant Loans

Edgar Filing: GEORGIA PACIFIC CORP - Form 11-K

A Participant is permitted to borrow up to the lesser of one-half of the Participant's account balance or \$50,000. The minimum loan is \$1,000. The maximum loan repayment term is five years, except for loans to purchase a primary residence which have a maximum repayment term of ten years. Loans bear interest at a minimum of the prime rate in effect on the first day of the month in which the loan application is received plus 1%. All principal and interest payments are credited to the investment funds from which the loan was made.

(g) Distributions

If a Participant retires, dies, terminates employment, or becomes permanently disabled, distributions of the Participant's account will be made either in a lump sum payment or in monthly, quarterly, or annual installments over a period not to exceed the Participant's, or the Participant's beneficiary's, life expectancy. The timing and form of distributions are subject to certain minimum balance and age restrictions as provided by the Plan.

Distributions from the Georgia-Pacific Group Stock Fund are payable either in whole shares of G-P Group Stock, with the value of fractional shares paid in cash, or entirely in cash. Distributions from the remaining investment funds are payable in cash.

(h) Withdrawals

The Plan provides for both hardship and non-hardship withdrawals. With limited exceptions, after-tax and rollover contributions may be withdrawn at any time. Before-tax contributions may only be withdrawn without penalty at age 59 1/2 or in the event of retirement, death, disability, termination or financial hardship. Financial hardship includes certain medical expenses, purchase of a primary residence, tuition and related education fees, or to prevent eviction from, or foreclosure on the mortgage on, the primary residence.

Withdrawals and distributions are recorded when paid.

(i) Administrative Expenses

Investment manager fees and broker commissions are paid out of Plan assets and recorded as a reduction of the net income allocation. Administrative expenses, including administrative service, trust, legal and accounting fees and other miscellaneous expenses are paid by the Plan.

8

(j) Trustee and Recordkeeper

The assets of the Plan were held under an Agreement of Trust with Northern Trust Company, Chicago, Illinois. Northern Trust Retirement Consulting, L.L.C., Atlanta, Georgia, serves as recordkeeper for the Plan.

(k) Voting, Tender and Exercise of Other Rights

Each Participant is entitled to exercise voting, tender, and similar rights attributable to the shares of G-P Group Stock allocated to the Participant's account and is notified by the trustee prior to the time that such rights are to be exercised. If timely instructions are not received from a Participant, the trustee is entitled to vote, tender

Edgar Filing: GEORGIA PACIFIC CORP - Form 11-K

or exercise similar rights with respect to shares of G-P Group Stock in the Participant's account as the trustee deems appropriate.

(1) Non-Discrimination Requirements

The Plan is required to meet the non-discrimination requirements for highly compensated employees as set forth in Section 401(k) of the Code. For years in which the Plan does not meet these requirements, a refund of Participant contributions made by highly compensated employees and the related Company matching contributions must be made within two and one-half months after the close of the Plan year. Refunds made to highly compensated employees are reflected as a reduction of contributions on the statement of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting, in accordance with generally accepted accounting principles.

(b) Use of Estimates

Financial statements prepared in conformity with generally accepted accounting principles require management to make estimates and assumptions that significantly affect amounts reported therein. Actual results could differ from those estimates.

(c) Cash Equivalents

Cash equivalents are stated at cost, which approximates market value.

(d) Investment Valuation

Investments are stated at fair value as determined by quoted market prices except for employee loans which are stated at cost which approximates fair value.

The market value of investments traded on national securities exchanges is based on the last reported sale price or, if no sale, the latest available bid price on the last business day of the Plan year end. Securities traded in the over-the-counter market are valued at the latest available and appropriate bid price on that date. Government securities are valued based upon bid prices. The market value of convertible securities is based on institutional trading lots and is more often closer to the bid than the ask price.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividend income is recorded on the ex-dividend date.

9

	=====

(f) Realized Gains (Losses) on Common Stock

When a Participant borrows funds, makes a transfer between funds, or receives a distribution, available cash from the Georgia-Pacific Group Stock Fund is used. For accounting purposes, the Participant's average cost basis of shares which would have been sold by the Plan to provide funds for the borrowing, transfer, or distribution is deducted from the Participant's account, and the value of such shares is reallocated to Participants' accounts. Accordingly, the Participant realizes a gain or loss for the difference between the Participant's average cost basis of shares, which would have been sold, and the fair value of such shares on the distribution date.

(g) Net Appreciation (Depreciation) in Fair Value of Investments

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

(h) Contributions and Deposits

Edgar Filing: GEORGIA PACIFIC CORP - Form 11-K

 Both Participant and Company contributions are recorded as soon as practicable after Participant's contributions are withheld from the Participant's Compensation. All contributions are transferred to the trustee as soon as practicable after the Participant's contributions are withheld from Compensation.

(i) Reclassification

 Certain amounts from the prior year have been reclassified to conform with current year presentation.

3. Plan Termination

 The Company has the right under the Plan to discontinue its contributions at any time and to amend, modify, or terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, the net assets will be allocated to the participants of the Plan in amounts equal to the individual account balances.

4. Number of Participants

 There were 18,828 Participants in the Plan as of December 31, 2000 and 21,545 Participants as of December 31, 1999. The number of Participants investing in each of the Plan's funds as of those dates was as follows (Participants may be included in more than one fund, as applicable):

U.S. Equity Fund	244,753,345	1.75
Non U.S. Equity Fund	112,074,594	1.10

6. Tax Status

 The Plan is intended to be a qualified profit sharing plan with a cash or deferred arrangement under Sections 401(a) and 401(k) of the Code, and as such is not subject to federal income taxes. The Company has received a favorable determination letter from the Internal Revenue Service, dated January 11, 2001, with respect to the qualification of the Plan. The Plan administrator and the Plan's tax counsel believe that the Plan is designed

Edgar Filing: GEORGIA PACIFIC CORP - Form 11-K

and operated in accordance with the applicable requirements of the Code.

7. Concentration of Credit Risk

Financial instruments which potentially subject the Plan to concentrations of credit risk consist of cash investments in excess of the Federal Deposit Insurance Corporation insurance limit and investments in the various funds. Credit and market risk associated with these instruments relates to the performance

11

of the underlying investments. The Plan has no formal policy requiring collateral to support the financial instruments subject to credit risk.

8. Related Parties
