You may obtain a description of the Fund's proxy voting policies and procedures, and information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, without charge. Simply visit AllianceBernstein's web site at www.alliancebernstein.com, or go to the Securities and Exchange Commission's (the "Commission") web site at www.sec.gov, or call AllianceBernstein at (800) 227-4618.

The Fund files its complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's web site at www.sec.gov. The Fund's Forms N-Q may also be reviewed and copied at the Commission's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330

AllianceBernstein Investment Research and Management, Inc. is an affiliate of Alliance Capital Management L.P., the manager of the funds, and is a member of the NASD.

Semi-Annual Report

This report provides management's discussion of fund performance for ACM Municipal Securities Income Fund (the "Fund") for the semi-annual reporting period ended April 30, 2005. The Fund is a closed-end fund that trades under the New York Stock Exchange symbol "AMU".

Investment Objective and Policies

The Fund is a closed-end management investment company designed to provide high current income exempt from regular federal income tax. The Fund invests substantially all of its assets in investment grade municipal securities. For more information regarding the Fund's risks, please see "A Word About Risk" on page 3 and "Note G--Risks Involved in Investing in the Fund" of the Notes to Financial Statements on page 21.

Investment Results

The table on page 4 provides performance data for the Fund and its benchmark, the Lehman Brothers (LB) Municipal Index, for the six- and 12-month periods ended April 30, 2005. For comparison, returns for the Lipper General Municipal Debt Funds (Leveraged) Average (the "Lipper Average") are also included. The funds that comprise the Lipper Average have generally similar investment objectives to the Fund, although some may have different investment policies and sales and management fees.

The Fund outperformed its benchmark and its peer group, as represented by the Lipper Average, during both the six- and 12-month periods ended April 30, 2005. The Fund's stronger relative performance versus its benchmark during the six-month reporting period was largely the result of security selection in the insured, pre-refunded and hospital sectors. Security selection in the industrial revenue bond sector detracted from performance. The Fund's relative exposure to the industrial revenue bond, hospital and pre-refunded sectors also contributed positively to the Fund's performance.

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

Market Review and Investment Strategy

During the six-month period ended April 30, 2005, long-term municipal bond yields declined and short-term municipal bond yields increased. Yields moved in a similar manner in the Treasury bond market. The rise in short-term bond yields was in response to the U.S. Federal Reserve increasing the target for the Federal Funds rate by 1.00% through four rate hikes over the period. Inconclusive economic signals and moderate inflation expectations, however, allowed longer-term bond yields to decline. On a pre-tax basis, the municipal market outperformed the taxable bond market for the six-month period ended April 30, 2005. The LB Municipal Index gained 1.93%, versus the LB U.S. Aggregate Index, representing taxable bonds, which returned 0.98% during the same time frame. As of April 30, 2005, 30-year municipal bonds were yielding approximately 97% of comparable maturity Treasury bonds.

Interest rates are still low by historical standards versus inflation and indications of economic growth. As such, the Fund's portfolio managers (the "managers") continue to maintain shorter-

ACM MUNICIPAL SECURITIES INCOME FUND o 1

than-benchmark portfolio durations. The low-rate environment has led to relatively strong demand for lower-rated bonds as investors seek higher income producing bonds. As the yield premium on lower-rated bonds declined, making them more expensive to buy/own versus high quality bonds, the managers sold lower-rated bonds opportunistically. Stronger economic growth has helped boost state and local government tax revenues, improving the creditworthiness of state and local issuers. Holdings in general obligation bonds benefited from this trend.

2 o ACM MUNICIPAL SECURITIES INCOME FUND

HISTORICAL PERFORMANCE

An Important Note About the Value of Historical Performance

The performance on the following page represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance information shown. Returns are annualized for periods longer than one year. All fees and expenses related to the operation of the Fund have been deducted. Performance assumes reinvestment of distributions and does not account for taxes.

ACM Municipal Securities Income Fund Shareholder Information

Daily market prices for the Fund's shares are published in the New York Stock Exchange Composite Transaction section of The Wall Street Journal under the abbreviation "ACM MuniSec." The Fund's NYSE trading symbol is "AMU." Weekly comparative net asset value (NAV) and market price information about the Fund is published each Monday in The Wall Street Journal, each Sunday in The New York Times and each Saturday in Barron's and other newspapers in a table called "Closed-End Bond Funds." For additional shareholder information regarding this Fund, please see page 37.

Benchmark Disclosure

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

The unmanaged Lehman Brothers (LB) Municipal Index does not reflect fees and expenses associated with the active management of a mutual fund portfolio. The Index is a total return performance benchmark for the long-term, investment grade, tax-exempt bond market. For both the six- and 12-month periods ended April 30, 2005, the Lipper General Municipal Debt Funds (Leveraged) Average consisted of 67 funds. These funds have generally similar investment objectives to the Fund, although some may have different investment policies and sales and management fees. An investor cannot invest directly in an index or average, and their results are not indicative of the performance for any specific investment, including the Fund.

A Word About Risk

Among the risks of investing in the Fund are changes in the general level of interest rates or bond credit quality ratings. Changes in interest rates have a greater effect on bonds with longer maturities than on those with shorter maturities. Please note, as interest rates rise, existing bond prices fall and can cause the value of your investment in the Fund to decline. While the Fund invests principally in bonds and other fixed-income securities, in order to achieve its investment objectives, the Fund may at times use certain types of investment derivatives, such as options, futures, forwards and swaps. These instruments involve risks different from, and in certain cases, greater than, the risks presented by more traditional investments. At the discretion of the Fund's Adviser, the Fund may invest up to 20% of its total assets in securities that are not rated and up to 10% in securities that are not readily marketable.

The issuance of the Fund's preferred stock results in leveraging of the Common Stock, an investment technique usually considered speculative. Leverage creates certain risks for holders of Common Stock, including higher volatility of both the net asset value and market value of the Common Stock, and fluctuations in the dividend rates on the preferred stock will affect the return to holders of Common Stock. If the Fund were fully invested in longer-term securities and if short-term interest rates were to increase, then the amount of dividends paid on the preferred shares would increase and both net investment income available for distribution to the holders of Common Stock and the net asset value of the Common Stock would decline. At the same time, the market value of the Fund's Common Stock (that is, its price as listed on the New York Stock Exchange) may, as a result, decline. Furthermore, if long-term interest rates rise, the Common Stock's net asset value will reflect the full decline in the price of the portfolio's investments, since the value of the Fund's Preferred Stock does not fluctuate. In addition to the decline in net asset value, the market value of the Fund's Common Stock may also decline.

16 o ACM MUNICIPAL SECURITIES INCOME FUND

NOTES TO FINANCIAL STATEMENTS
April 30, 2005 (unaudited)

Notes to Financial Statements

NOTE A

Significant Accounting Policies

ACM Municipal Securities Income Fund, Inc. (the "Fund"), was incorporated in the state of Maryland on February 11, 1993 and is registered under the Investment Company Act of 1940 as a diversified, closed-end management investment company. The financial statements have been prepared in conformity with U.S. generally accepted accounting principles, which require management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

followed by the Fund.

1. Security Valuation

Portfolio securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at "fair value" as determined in accordance with procedures established by and under the general supervision of the Fund's Board of Directors.

In general, the market value of securities which are readily available and deemed reliable are determined as follows. Securities listed on a national securities exchange or on a foreign securities exchange are valued at the last sale price at the close of the exchange or foreign securities exchange. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities not listed on an exchange but traded on The NASDAQ Stock Market, Inc. ("NASDAQ") are valued in accordance with the NASDAQ Official Closing Price; listed put or call options are valued at the last sale price. If there has been no sale on that day, such securities will be valued at the closing bid prices on that day; open futures contracts and options thereon are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuation, the last available closing settlement price is used; securities traded in the over-the-counter market, (OTC) (but excluding securities traded on NASDAQ) are valued at the mean of the current bid and asked prices as reported by the National Quotation Bureau or other comparable sources; U.S. Government securities and other debt instruments having 60 days or less remaining until maturity are valued at amortized cost if their original maturity was 60 days or less; or by amortizing their fair value as of the 61st day prior to maturity if their original term to maturity exceeded 60 days; fixed-income securities, including mortgage backed and asset backed securities, may be valued on the basis of prices provided by a pricing service or at a price obtained from one or more of the major broker/dealers. In cases where broker/dealer quotes are obtained, Alliance Capital Management, L.P. (the "Adviser") may

ACM Municipal Securities Income Fund o 17

establish procedures whereby changes in market yields or spreads are used to adjust, on a daily basis, a recently obtained quoted price on a security; and OTC and other derivatives are valued on the basis of a quoted bid price or spread from a major broker/dealer in such security.

Securities for which market quotations are not readily available (including restricted securities) or are deemed unreliable are valued at fair value. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, analysis of the issuer's financial statements or other available documents. In addition, the Fund may use fair value pricing for securities primarily traded in non-U.S. markets because, most foreign markets close well before the Fund values its securities at 4:00 p.m., Eastern Time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim and may materially affect the value of those securities.

2. Taxes

It is the Fund's policy to meet the requirements of the Internal Revenue Code

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

applicable to regulated investment companies and to distribute substantially all of its investment company taxable income and net realized gains, if any, to shareholders. Therefore, no provisions for federal income or excise taxes are required.

3. Investment Income and Investment Transactions

Interest income is accrued daily. Investment transactions are accounted for on the trade date securities are purchased or sold. Investment gains and losses are determined on the identified cost basis. The Fund amortizes premiums and accretes original issue discounts and market discounts as adjustments to interest income.

4. Dividends and Distributions

Dividends and distributions to shareholders are recorded on the ex-dividend date. Income and capital gains distributions are determined in accordance with federal tax regulations and may differ from those determined in accordance with U.S. generally accepted accounting principles. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on their federal tax basis treatment; temporary differences do not require such reclassification.

NOTE B

Advisory, Administrative Fees and Other Transactions with Affiliates

Under the terms of an investment advisory agreement, the Fund pays the Adviser an advisory fee at an annual rate of .50 of 1% of the average weekly net assets of the Fund. Such fee is accrued daily and paid monthly.

Under the terms of a Shareholder Inquiry Agency Agreement with Alliance Global Investor Services, Inc. (AGIS), an affiliate of the Adviser, the Fund reim-

18 o ACM MUNICIPAL SECURITIES INCOME FUND

burses AGIS for costs relating to servicing phone inquiries for the Fund. During the six months ended April 30, 2005, there was no reimbursement paid to AGIS.

Under the terms of an Administration Agreement, the Fund pays Alliance Capital Management L.P. (the "Administrator") an administration fee at an annual rate of .15 of 1% of the average weekly net assets of the Fund. Such fee is accrued daily and paid monthly. Effective February 11, 2005, the Administrator has agreed to reimburse the Fund for administrative expenses at an annual rate of .10 of 1% of the average weekly net assets of the Fund. The Administrator has engaged Prudential Investments LLC (the "Sub-Administrator"), an indirect, wholly-owned subsidiary of Prudential Financial, Inc., to act as sub-administrator. The Administrator, out of its own assets, will pay the Sub-Administrator a monthly fee equal to an annual rate of .10 of 1% of the Fund's average weekly net assets. The Sub-Administrator prepares financial and regulatory reports for the Fund and provides other clerical services.

NOTE C

Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the six months ended April 30, 2005, were as follows:

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

	Purchases	Sales
Investment securities (excluding		
U.S. government securities)	\$22,489,997	\$17,873,963
U.S. government securities	-0-	-0-

The cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes. Accordingly, gross unrealized appreciation and unrealized depreciation (excluding swaps) are as follows:

Gross unrealized appreciation	\$10,619,614
Gross unrealized depreciation	(750,733)

Net unrealized appreciation	\$9,868,881

Swap Agreements

The Fund may enter into swaps to hedge its exposure to interest rates and credit risk and for investment purposes. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specific amount of an underlying asset. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of the counterparty is generally limited to the net interest payment to be received by the Fund, and/or the termination value at the end of the contract. Therefore,

 ACM MUNICIPAL SECURITIES INCOME FUND o 19

the Fund considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying securities.

As of November 1, 2003, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standards Board Statement No. 133. The Fund accrues for the interim payments on swap contracts on a daily basis, with the net amount recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities. Once the interim payments are settled in cash, the net amount is recorded as realized gain/loss on swaps, in addition to realized gain/loss recorded upon the termination of swap contracts on the statement of operations. Prior to November 1, 2003, these interim payments were reflected within interest income/expense in the statement of operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation/depreciation of investments.

NOTE D

Distributions To Common Shareholders

The tax character of distributions to be paid for the year ending October 31, 2005 will be determined at the end of the current fiscal year. The tax character of distributions paid to common shareholders during the fiscal years ended October 31, 2004 and October 31, 2003 were as follows:

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

	2004	2003
	-----	-----
Distributions paid from:		
Ordinary income	\$65,384	\$87,103
Tax-exempt income	9,595,248	8,715,232
	-----	-----
Total distributions paid	\$9,660,632	\$8,802,335
	-----	-----

As of October 31, 2004, the components of accumulated earnings/(deficit) applicable to common shareholders on a tax basis were as follows:

Undistributed net tax exempt income	\$162,944
Accumulated capital and other losses	(23,465,455) (a)
Unrealized appreciation/(depreciation)	9,127,197 (b)

Total accumulated earnings/(deficit)	\$(14,175,314) (c)

(a) On October 31, 2004, the Fund had a net capital loss carryforward of \$23,465,455 of which \$6,110,148 expires in the year 2007, \$10,294,946 expires in the year 2008, \$1,971,343 expires in the year 2010, and \$5,089,018 expires in the year 2011. To the extent future capital gains are offset by capital loss carryforward, such gains will not be distributed. During the current fiscal year capital loss carryforward of \$365,370 was utilized.

(b) The difference between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable primarily to the tax deferral of losses on wash sales and the difference between the book and tax treatment of swap income.

(c) The difference between book-basis and tax-basis components of accumulated earnings/(deficits) is attributable primarily to dividends payable.

20 o ACM MUNICIPAL SECURITIES INCOME FUND

During the current fiscal year, permanent differences, primarily due to the tax treatment of swap income, resulted in a net decrease of undistributed net investment income, and a decrease in accumulated net realized loss on investment transactions. This reclassification had no effect on net assets.

NOTE E

Common Stock

There are 99,996,400 shares of \$0.01 par value common stock authorized. There are 11,145,261 shares of common stock outstanding at April 30, 2005. During the six months ended April 30, 2005 and the year ended October 31, 2004, the Fund issued 4,791 and 65,850 shares, respectively, in connection with the Fund's dividend reinvestment plan.

NOTE F

Preferred Stock

The Fund has issued and outstanding 3,600 shares of Auction Preferred Stock, consisting of 1,200 shares each of Series A, Series B and Series C. The preferred shares have a liquidation value of \$25,000 per share plus accumulated, unpaid dividends.

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

The dividend rate on Series A is 2.70%, effective through May 4, 2005. The dividend rate on Series B is 2.25%, effective through December 12, 2005. The dividend rate on Series C is 2.71%, effective through May 5, 2005.

At certain times, the Preferred Shares are redeemable by the Fund, in whole or in part, at \$25,000 per share plus accumulated, unpaid dividends.

Although the Fund will not ordinarily redeem the Preferred Shares, it may be required to redeem shares if, for example, the Fund does not meet an asset coverage ratio required by law or to correct a failure to meet a rating agency guideline in a timely manner. The Fund voluntarily may redeem the Preferred Shares in certain circumstances.

The Preferred Shareholders, voting as a separate class, have the right to elect at least two Directors at all times and to elect a majority of the Directors in the event two years' dividends on the Preferred Shares are unpaid. In each case, the remaining Directors will be elected by the Common Shareholders and Preferred Shareholders voting together as a single class. The Preferred Shareholders will vote as a separate class on certain other matters as required under the Fund's Charter, the Investment Company Act of 1940 and Maryland law.

NOTE G

Risks Involved in Investing in the Fund

Interest Rate Risk and Credit Risk--Interest rate risk is the risk that changes in interest rates will affect the value of the Fund's investments in fixed-income debt

ACM MUNICIPAL SECURITIES INCOME FUND o 21

securities such as bonds or notes. Increases in interest rates may cause the value of the Fund's investments to decline. Credit risk is the risk that the issuer or guarantor of a debt security, or the counterparty to a derivative contract, will be unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations. The degree of risk for a particular security may be reflected in its credit risk rating. Credit risk is greater for medium quality and lower-rated securities. Lower-rated debt securities and similar unrated securities (commonly known as "junk bonds") have speculative elements or are predominantly speculative risks.

Indemnification Risk--In the ordinary course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

NOTE H

Legal Proceedings

As has been previously reported, the staff of the U.S. Securities and Exchange Commission ("SEC") and the Office of the New York Attorney General ("NYAG") have been investigating practices in the mutual fund industry identified as "market timing" and "late trading" of mutual fund shares. Certain other regulatory authorities have also been conducting investigations into these practices within the industry and have requested that the Adviser provide information to them. The Adviser has been cooperating and will continue to cooperate with all of these authorities. The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

the market. Accordingly, the Fund and its shareholders are not subject to the market timing and late trading practices that are the subject of the investigations mentioned above or the lawsuits described below. Please see below for a description of the agreements reached by the Adviser and the SEC and NYAG in connection with the investigations mentioned above.

Numerous lawsuits have been filed against the Adviser and certain other defendants in which plaintiffs make claims purportedly based on or related to the same practices that are the subject of the SEC and NYAG investigations referred to above. Some of these lawsuits name the Fund as a party. The lawsuits are now pending in the United States District Court for the District of Maryland pursuant to a ruling by the Judicial Panel on Multidistrict Litigation transferring and centralizing all of the mutual fund cases involving market and late trading in the District of Maryland. Management of the Adviser believes that these private lawsuits are not likely to have a material adverse effect on the results of operations or financial condition of the Fund.

22 o ACM MUNICIPAL SECURITIES INCOME FUND

On December 18, 2003, the Adviser confirmed that it had reached terms with the SEC and the NYAG for the resolution of regulatory claims relating to the practice of "market timing" mutual fund shares in some of the AllianceBernstein Mutual Funds. The agreement with the SEC is reflected in an Order of the Commission ("SEC Order"). The agreement with the NYAG is memorialized in an Assurance of Discontinuance dated September 1, 2004 ("NYAG Order"). Among the key provisions of these agreements are the following:

(i) The Adviser agreed to establish a \$250 million fund (the "Reimbursement Fund") to compensate mutual fund shareholders for the adverse effects of market timing attributable to market timing relationships described in the SEC Order. According to the SEC Order, the Reimbursement Fund is to be paid, in order of priority, to fund investors based on (i) their aliquot share of losses suffered by the fund due to market timing, and (ii) a proportionate share of advisory fees paid by such fund during the period of such market timing;

(ii) The Adviser agreed to reduce the advisory fees it receives from some of the AllianceBernstein long-term, open-end retail funds, commencing January 1, 2004, for a period of at least five years; and

(iii) The Adviser agreed to implement changes to its governance and compliance procedures. Additionally, the SEC Order contemplates that the Adviser's registered investment company clients, including the Fund, will introduce governance and compliance changes.

The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing practices described in the SEC Order and are not expected to participate in the Reimbursement Fund. Since the Fund is a closed-end fund, it will not have its advisory fee reduced pursuant to the terms of the agreements mentioned above.

The Adviser and approximately twelve other investment management firms were publicly mentioned in connection with the settlement by the SEC of charges that an unaffiliated broker/dealer violated federal securities laws relating to its receipt of compensation for selling specific mutual funds and the disclosure of such compensation. The SEC indicated publicly that, among other things, it was considering enforcement action in connection with mutual funds' disclosure of such arrangements and in connection with the practice of considering mutual fund sales in the direction of brokerage commissions from fund portfolio

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

transactions. The SEC issued subpoenas to the Adviser, and the NASD issued requests for information in connection with this matter and the Adviser provided documents and other information to the SEC and NASD and cooperated fully with the

ACM MUNICIPAL SECURITIES INCOME FUND o 23

investigations. On June 8, 2005 the NASD announced that it had reached a settlement with AllianceBernstein Investment Research and Management, Inc., a wholly owned subsidiary of the Adviser and the distributor of the open-end mutual funds sponsored by the Adviser, in connection with this matter. Management of the Adviser expects that the settlement has resolved both regulatory inquires described above.

On June 22, 2004, a purported class action complaint entitled Aucoin, et al. v. Alliance Capital Management L.P., et al. ("Aucoin Complaint") was filed against the Adviser, Alliance Capital Management Holding L.P., Alliance Capital Management Corporation, AXA Financial, Inc., AllianceBernstein Investment Research & Management, Inc., certain current and former directors of the AllianceBernstein Mutual Funds, and unnamed Doe defendants. The Aucoin Complaint names certain of the AllianceBernstein mutual funds as nominal defendants. The Aucoin Complaint was filed in the United States District Court for the Southern District of New York by an alleged shareholder of an AllianceBernstein mutual fund. The Aucoin Complaint alleges, among other things, (i) that certain of the defendants improperly authorized the payment of excessive commissions and other fees from fund assets to broker-dealers in exchange for preferential marketing services, (ii) that certain of the defendants misrepresented and omitted from registration statements and other reports material facts concerning such payments, and (iii) that certain defendants caused such conduct as control persons of other defendants. The Aucoin Complaint asserts claims for violation of Sections 34(b), 36(b) and 48(a) of the Investment Company Act, Sections 206 and 215 of the Advisers Act, breach of common law fiduciary duties, and aiding and abetting breaches of common law fiduciary duties. Plaintiffs seek an unspecified amount of compensatory damages and punitive damages, rescission of their contracts with the Adviser, including recovery of all fees paid to the Adviser pursuant to such contracts, an accounting of all fund-related fees, commissions and soft dollar payments, and restitution of all unlawfully or discriminatorily obtained fees and expenses.

Since June 22, 2004, numerous additional lawsuits making factual allegations substantially similar to those in the Aucoin Complaint were filed against the Adviser and certain other defendants, and others may be filed.

The Adviser believes that these matters are not likely to have a material adverse effect on the Fund or the Adviser's ability to perform advisory services relating to the Fund.

ACM MUNICIPAL SECURITIES INCOME FUND o 25

(a) As of November 1, 2003, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standards Board Statement No. 133. These interim payments are reflected within net realized and unrealized gain (loss) on swap contracts, however, prior to November 1, 2003, these interim payments were reflected within interest income/expense on the statement of operations. For the year ended October 31, 2004, the effect of this change to the net investment income and the net realized and unrealized gain (loss) on investment transactions was less than \$0.01 per share and the ratio of net investment income to average net assets was less than .01%.

(b) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of the period. Total investment returns for periods of less than one full year are not annualized.

(c) These expense and net investment income ratios do not reflect the effect of dividend payments to preferred shareholders.

(d) Annualized.

(e) Net of fee waiver. If the Administrator had not waived expenses, the ratios to average net assets applicable to common shareholders for expenses, net investment income before preferred stock dividends and net investment income net of preferred stock dividends would have been 1.63%, 7.33% and 6.04%, respectively, for the six months ended April 30, 2005.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase at market prices from time to time shares of its Common Stock in the open market.

This report, including the financial statements therein, is transmitted to the shareholders of ACM Municipal Securities Income Fund for their information. This is not a prospectus, circular or representation intended for use in the purchase of shares of the Fund or any securities mentioned in the report.

Annual Certifications--As required, on April 21, 2005, the Fund submitted to the New York Stock Exchange ("NYSE") the annual certification of the Fund's Chief Executive Officer certifying that he is not aware of any violation of the NYSE's Corporate Governance listing standards. The Fund also has included the certifications of the Fund's Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act of 2002 as exhibits to the Fund's Form N-CSR filed with the Securities and Exchange Commission for the annual period.

(1) Member of the Audit Committee, the Independent Directors Committee and the Governance and Nominating Committee.

(2) Messrs. Dowden and Hults are the persons primarily responsible for the day-to-day management of the Fund's investment portfolio.

28 o ACM MUNICIPAL SECURITIES INCOME FUND

Information Regarding the Review and Approval of the Fund's Advisory and Administration Agreements

The Fund's disinterested directors (the "directors") unanimously approved the continuance of the Advisory Agreement between the Fund and the Adviser and the continuance of the Administration Agreement between the Adviser (in such capacity, the "Administrator") and the Fund at a meeting held on February 7-10, 2005.

In preparation for the meeting, the directors had requested from the Adviser and evaluated extensive materials, including performance and expense information for other investment companies with similar investment objectives

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

derived from data compiled by Lipper Inc. ("Lipper"). Prior to voting, the directors reviewed the proposed continuance of the Advisory Agreement and Administration Agreement with management and with experienced counsel who are independent of the Adviser and received a memorandum from such counsel discussing the legal standards for their consideration of the proposed continuance. The directors also discussed the proposed continuance in two private sessions at which only the directors, their independent counsel and the Fund's Independent Compliance Officer were present. In reaching their determinations relating to continuance of the Advisory Agreement, the directors considered all factors they believed relevant, including the following:

1. information comparing the performance of the Fund to other investment companies with similar investment objectives and to an index;
2. the nature, extent and quality of investment, compliance, administrative and other services rendered by the Adviser;
3. payments received by the Adviser from all sources in respect of the Fund and all investment companies in the AllianceBernstein Fund complex;
4. the costs borne by, and profitability of, the Adviser and its affiliates in providing services to the Fund and to all investment companies in the AllianceBernstein Fund complex;
5. comparative fee and expense data for the Fund and other investment companies with similar investment objectives;
6. the extent to which economies of scale would be realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of investors;

ACM MUNICIPAL SECURITIES INCOME FUND o 29

7. the Adviser's policies and practices regarding allocation of portfolio transactions of the Fund, including the extent to which the Adviser benefits from soft dollar arrangements;
8. portfolio turnover rates for the Fund;
9. fall-out benefits which the Adviser and its affiliates receive from their relationships with the Fund;
10. the Adviser's representation that it does not advise other clients with similar investment objectives and strategies;
11. the professional experience and qualifications of the Fund's portfolio management team and other senior personnel of the Adviser;
12. the terms of the Advisory Agreement; and
13. the terms of the Administration Agreement and the Administrator's proposed one-year waiver of 10 basis points of the fees payable by the Fund pursuant to the Administration Agreement.

The directors also considered their knowledge of the nature and quality of the services provided by the Adviser to the Fund gained from their experience as directors or trustees of most of the funds advised by the Adviser, their overall confidence in the Adviser's integrity and competence they have gained from that experience and the Adviser's responsiveness to concerns raised by

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

them in the past, including the Adviser's willingness to consider and implement organizational and operational changes designed to improve investment results and the services provided to the AllianceBernstein Funds.

In their deliberations, the directors did not identify any particular information that was all-important or controlling, and each director attributed different weights to the various factors.

The directors determined that the overall arrangements (i) between the Fund and the Adviser, as provided in the Advisory Agreement, and (ii) between the Fund and the Administrator, as provided in the Administration Agreement, were fair and reasonable in light of the services performed, expenses incurred and such other matters as the directors considered relevant in the exercise of their business judgment.

The material factors and conclusions that formed the basis for the directors' reaching their determinations to approve the continuance of the Advisory Agreement and Administration Agreement (including their determinations that

30 o ACM MUNICIPAL SECURITIES INCOME FUND

the Adviser should continue to be the investment adviser for the Fund, that the Administrator should continue to be the administrator for the Fund, and that the fees payable to the Adviser pursuant to the Advisory Agreement and to the Administrator pursuant to the Administration Agreement are appropriate) were separately discussed by the directors.

Nature, extent and quality of services provided by the Adviser

The directors noted that, under the Advisory Agreement, the Adviser, subject to the control of the directors, administers the Fund's business and other affairs. The Adviser manages the investment of the assets of the Fund, including making purchases and sales of portfolio securities consistent with the Fund's investment objective and policies. The Adviser also provides the Fund with such office space, administrative and other services (exclusive of, and in addition to, any such services provided by any others retained by the Fund) and executive and other personnel as are necessary for the Fund's operations. The Adviser pays all of the compensation of directors of the Fund who are affiliated persons of the Adviser and of the officers of the Fund.

The directors also noted that under the Administration Agreement, the Administrator, subject to the supervision of the directors, renders certain administrative services to the Fund, including specified duties with respect to, among other things, the preparation of reports required to be sent to shareholders, the preparation of reports required to be filed with the Securities and Exchange Commission on Form N-SAR, arranging for the dissemination to shareholders of proxy materials, negotiating the terms and conditions under which custodian and dividend disbursing services will be provided and the related fees, the calculation of net asset value of the Fund, determining the amounts available for distribution as dividends and distributions to shareholders, assisting independent accountants of the Fund with the filing of tax returns, assisting the Adviser in monitoring compliance of the Fund's operations with the Investment Company Act of 1940, and providing accounting and bookkeeping services. The directors noted that the Administration Agreement provides that the Administrator may subcontract with Prudential Investments LLC ("Prudential") for the provision of all or any part of the services to be provided by it thereunder, and that Prudential has been retained at the Administrator's expense as the Fund's Sub-Administrator since it commenced operations. The directors noted that the Sub-Administration

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

Agreement between the Administrator and Prudential provides that Prudential, subject to the supervision of the Administrator, renders certain specified administrative services delegated to Prudential by the Administrator and renders certain other administrative services to the extent requested by the Administrator. All of the administrative services performed by Prudential are services that the Administrator is required to provide to the Fund pursuant to the Administration Agreement.

ACM Municipal Securities Income Fund o 31

The directors considered the scope and quality of services provided by the Adviser under the Advisory Agreement and by the Administrator under the Administration Agreement and noted that the scope of services provided by the Adviser had expanded over time as a result of regulatory and other developments. The directors noted that, for example, the Adviser is responsible for maintaining and monitoring its own and, to varying degrees, the Fund's compliance programs, and these compliance programs have recently been refined and enhanced in light of new regulatory requirements. The directors considered the quality of the investment research capabilities of the Adviser and the other resources it has dedicated to performing services for the Fund. The quality of administrative and other services, including the Adviser's role in coordinating the activities of the Fund's other service providers, also were considered. The directors also considered the Adviser's response to recent regulatory compliance issues affecting many of the investment companies in the AllianceBernstein Fund complex. The directors concluded that, overall, they were satisfied with the nature, extent and quality of services provided to the Fund under the Advisory Agreement and the Administration Agreement.

Costs of Services Provided and Profitability to the Adviser

The directors reviewed a schedule of the revenues, expenses and related notes indicating the profitability of the Fund to the Adviser (including in its capacity as Administrator) for calendar years 2002 and 2003. The directors reviewed the assumptions and methods of allocation used by the Adviser in preparing fund-specific profitability data, and noted the Adviser's representation to them that it believed that the methods of allocation used in preparing the profitability information were reasonable and appropriate and that the Adviser had previously discussed with the directors that there is no generally accepted allocation methodology for information of this type.

The directors recognized that it is difficult to make comparisons of profitability from fund management contracts because comparative information is not generally publicly available and is affected by numerous factors, including the structure of the particular adviser, the types of funds it manages, its business mix, numerous assumptions regarding allocations and the adviser's capital structure and cost of capital. In considering profitability information, the directors considered the effect of fall-out benefits on the Adviser's expenses. The directors focused on the profitability of the Adviser's relationship with the Fund before taxes. The directors recognized that the Adviser should generally be entitled to earn a reasonable level of profits for the services it provides to the Fund and, based on their review, concluded that they were satisfied that the Adviser's level of profitability from its relationship with the Fund was not excessive.

32 o ACM MUNICIPAL SECURITIES INCOME FUND

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

Fall-Out Benefits

The directors considered that the Adviser benefits from soft dollar arrangements whereby it receives brokerage and research services from many of the brokers and dealers that execute purchases and sales of securities on behalf of its clients, including the Fund. While the Fund does not normally engage in brokerage transactions, the Adviser may benefit from soft dollar arrangements when the Fund purchases securities in fixed price underwritings. They noted that the Adviser makes presentations to the directors regarding its trading practices and brokerage allocation policies, including its policies with respect to soft dollar arrangements, from time to time and had made a special presentation to the directors in 2004 on this subject. The directors noted that the Adviser has represented to them that all of its soft dollar arrangements are consistent with applicable legal requirements including the achievement of best execution. At the special presentation, the directors received and reviewed information concerning the Adviser's soft dollar arrangements, which included a description of the Adviser's policies and procedures with respect to allocating portfolio transactions for brokerage and research services, data on the dollar amount of commissions allocated for third-party research and brokerage services and for proprietary research and brokerage services, and a list of firms providing third-party research and brokerage to the Adviser.

The directors also noted that a subsidiary of the Adviser provides certain shareholder services to the Fund and receives compensation from the Fund for such services.

The directors recognized that the Adviser's profitability would be somewhat lower if it did not receive research for soft dollars or if the Adviser's subsidiary did not receive the other benefits described above. The directors believe that the Adviser derives reputational and other benefits from its association with the Fund.

Investment Results

In addition to the information reviewed by the directors in connection with the meeting, the directors receive detailed comparative performance information for the Fund at each regular Board meeting during the year. At the meeting, the directors reviewed information showing performance of the Fund compared to other funds in the Lipper General Municipal Debt Average (Leveraged) for periods ending December 31, 2004, and compared to the Lehman Brothers Municipal Bond Index. The directors noted that the Fund had outperformed the Lipper medians significantly in the 1- and 3-month and 1-year periods although its performance was somewhat below the Lipper median in the 10-year period and significantly below the Lipper medians in the 3- and 5-year and since inception periods (April 1993 inception). Based on their review, the directors concluded that the Fund's relative investment performance was acceptable and noted the improvement in more recent periods.

ACM MUNICIPAL SECURITIES INCOME FUND o 33

Advisory Fees and Other Expenses

The directors considered the advisory fee rate paid by the Fund to the Adviser and information prepared by Lipper concerning fee rates paid by other funds in the same Lipper category as the Fund. The directors also considered the separate administration fees paid to the Administrator for administrative services. They compared the combined advisory and administration fees paid by the Fund to the advisory fees of other funds where there is no separate

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

administrator. The directors noted that under the Fund's Sub-Administration Agreement, the Administrator pays the sub-administrators's fee out of the Administrator's own assets. The directors recognized that it is difficult to make comparisons of advisory fees because there are variations in the services that are included in the fees paid by other funds.

The directors noted that in connection with the settlement of the market timing matter with the New York Attorney General, the Adviser agreed to material reductions (averaging 20%) in the fee schedules of most of the open-end funds sponsored by the Adviser (other than money market funds). As a result of that settlement, the Adviser's fees (i) for managing open-end high income funds are .50% of the first \$2.5 billion of average daily net assets, .45% for average daily net assets over that level to \$5 billion, and .40% for average daily net assets over \$5 billion; and (ii) for managing open-end low risk income funds are .45% of the first \$2.5 billion of average daily net assets, .40% for average daily net assets over that level to \$5 billion, and .35% for average daily net assets over \$5 billion.

At their December 14-16, 2004 meetings, the directors requested a reduction in the advisory fees of the Fund to the fee levels charged to comparable open-end funds managed by the Adviser and deferred renewal of the Fund's Advisory Agreement and Administration Agreement pending receipt and consideration of proposals by the Adviser. At the February 7-10, 2005 meeting, the directors considered the Administrator's proposal to waive 10 basis points of its fee for a one year period in order to reduce the fee rate under the Administration Agreement for such period from 0.15% to 0.5%. The directors noted that since the Administrator currently pays Prudential .10% for its services in respect of the Fund, the Administrator's fee for the Fund would be less than Prudential's for the one year period.

The directors also considered the total expense ratio of the Fund in comparison to the fees and expenses of funds within the relevant Lipper category. The expense ratio of the Fund was based on the Fund's latest fiscal year expense ratio. The directors recognized that the expense ratio information for the Fund potentially reflected on the Adviser's provision of services, as the Adviser is responsible for coordinating services provided to the Fund by others. The directors noted that the expense ratios of some funds in the Fund's Lipper category also were lowered by waivers or reimbursements by those funds' investment advisers, which in some cases were voluntary and perhaps temporary.

34 o ACM MUNICIPAL SECURITIES INCOME FUND

The information reviewed by the directors showed that the Fund's at current size combined advisory and administration contractual effective fee rate of 65 basis points was slightly above the Lipper average and the Lipper median. The directors noted that the proposed reduction in the administration fee results in a combined advisory and administration fee of 55 basis points, a level somewhat below the Lipper average and the Lipper median. The directors also noted that the Fund's expense ratio was significantly higher than the Lipper median. The Adviser explained that the Fund's relatively high expense ratio was in part due to the Fund's relatively small size (approximately \$217 million). The directors recognized that the Fund's expense ratio would be favorably impacted by the proposed one-year reduction in the administration fee rate and concluded that the Fund's expense ratio was acceptable in light of the Fund's relatively small size.

Economies of Scale

The directors considered that the Fund is a closed-end Fund and that it was not expected to have meaningful asset growth as a result. In such circumstances,

Edgar Filing: ACM MUNICIPAL SECURITIES INCOME FUND INC - Form N-CSRS

the directors did not view the potential for realization of economies of scale as the Fund's assets grow to be a material factor in their deliberations. The directors noted that if the Fund's net assets were to increase materially as a result of, e.g., an acquisition or rights offering, they would review whether potential economies of scale would be realized.
