Form 10-Q
August 02, 2012
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE QUARTERLY PERIOD ENDED June 30, 2012

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE TRANSITION PERIOD FROM _____ TO _____.

Alliance One International, Inc.

(Exact name of registrant as specified in its charter)

Virginia

001-13684

54-1746567

(State or other jurisdiction of incorporation)

(Commission File Number)

(I.R.S. Employer Identification No.)

8001 Aerial Center Parkway
Morrisville, NC 27560-8417
(Address of principal executive offices)

(919) 379-4300

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer
filer

Accelerated

Non-accelerated filer

Smaller reporting company

]
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes [] No [X]

As of July 27, 2012, the registrant had 87,428,839 shares outstanding of Common Stock (no par value) excluding 7,853,121 shares owned by a wholly owned subsidiary.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(in thousands)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Because of the seasonal nature of the Company's business, the results of operations for any fiscal quarter will not necessarily be indicative of results to be expected for other quarters or a full fiscal year. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair statement of financial position, results of operation and cash flows at the dates and for the periods presented have been included. The unaudited information included in this Form 10-Q should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2012.

Beginning April 1, 2012, the Company's management began evaluating the performance of its Value Added Services business as a separate operating segment from the Company's five geographic operating segments. Value Added Services is comprised of the Company's crushed rolled expanded stem (CRES), cut rag, toasted burley and other specialty products and services. The economic characteristics of the Value Added Services segment are dissimilar from the other operating segments. Therefore, effective April 1, 2012, the Company's reportable segments are Value Added Services, South America Region and Other Regions.

Taxes Collected from Customers

Certain subsidiaries are subject to value added taxes on local sales. These amounts have been included in sales and cost of sales and were \$5,147 and \$5,515 for the three months ended June 30, 2012 and 2011, respectively.

Other Deferred Charges

Other deferred charges are primarily deferred financing costs that are amortized over the life of the debt.

New Accounting Standards

Recently Adopted Accounting Pronouncements

On April 1, 2012, the Company adopted new accounting guidance, as amended, on comprehensive income. The objective of this accounting guidance is to improve the comparability, consistency and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income. The guidance eliminates the option to present components of other comprehensive income as part of the statement of stockholders' equity and requires them to be presented in the statement of comprehensive income instead. The Company adopted this new accounting guidance and is reporting other comprehensive income in a separate financial statement.

Recent Accounting Pronouncements Not Yet Adopted

In September 2011, the FASB issued new accounting guidance on testing goodwill for impairment. The primary objective of this accounting guidance is to reduce complexity and costs by allowing an entity to make a qualitative evaluation about the likelihood of goodwill impairment to determine whether it should calculate the fair value of a reporting unit. If, after assessing qualitative factors, an entity determines that it is not more likely than not (a likelihood of more than 50 percent) that the fair value of a reporting unit is less than its carrying amount, then the two-step goodwill impairment test is unnecessary. This accounting guidance is effective for the Company in fiscal 2013 when it performs its annual goodwill testing on January 1, 2013. The Company does not expect the impact of this new accounting guidance to have a material impact on its financial condition or results of operations.

In December 2011, the FASB issued new accounting guidance on disclosures about offsetting assets and liabilities. The requirements for offsetting are different under U.S. GAAP and IFRS. Therefore, the objective of this accounting guidance is to facilitate comparison between financials statements prepared under U.S. GAAP and IFRS

by enhancing disclosures of the effect or potential effect of netting arrangements on an entity's financial position, including the effect or potential effect of rights of setoff associated with certain assets and liabilities. This accounting guidance will be effective for the Company on April 1, 2013. The Company does not expect the impact of this new accounting guidance to have a material impact on its financial condition or results of operations.

Alliance One International, Inc. and Subsidiaries

2. INCOME TAXES

Accounting for Uncertainty in Income Taxes

As of June 30, 2012, the Company's unrecognized tax benefits totaled \$11,038, all of which would impact the Company's effective tax rate if recognized.

The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense. As of June 30, 2012, accrued interest and penalties totaled \$5,318 and \$1,110 respectively.

The Company expects to continue accruing interest expense related to the unrecognized tax benefits described above. Additionally, the Company may be subject to fluctuations in the unrecognized tax liability due to currency exchange rate movements.

Other than the expiration of an assessment period under local guidance and administrative practice pertaining to an international unrecognized tax benefit of \$1,359, interest of \$4,663, and penalties of \$343, the Company does not foresee any reasonably possible changes in the unrecognized tax benefits in the next twelve months but must acknowledge circumstances can change due to unexpected developments in the law. In certain jurisdictions, tax authorities have challenged positions that the Company has taken that resulted in recognizing benefits that are material to its financial statements. The Company believes it is more likely than not that it will prevail in these situations and accordingly have not recorded liabilities for these positions. The Company expects the challenged positions to be settled at a time greater than twelve months from its balance sheet date.

The Company and its subsidiaries file a U.S. federal consolidated income tax return as well as returns in several U.S. states and a number of foreign jurisdictions. As of June 30, 2012, the Company's earliest open tax year for U.S. federal income tax purposes was its fiscal year ended March 31, 2009. Open tax years in state and foreign jurisdictions generally range from three to six years.

Provision for the Three Months Ended June 30, 2012

The effective tax rate used for the three months ended June 30, 2012 was (44.3)% compared to 354.2% for the three months ended June 30, 2011. The effective tax rates for these periods are based on the current estimate of full year results including the effect of taxes related to specific events which are recorded in the interim period in which they occur. The Company expects the tax rate for the year ended March 31, 2013 to be 37.8% after absorption of discrete items.

For the three months ended June 30, 2012, the Company recorded a specific event adjustment expense of \$6,327, bringing the effective tax rate estimated for the three months of (14.0)% to (44.3)%. This specific event adjustment expense relates primarily to net exchange losses on income tax accounts and net exchange gains related to liabilities for unrecognized tax benefits. For the three months ended June 30, 2011, the Company recorded a specific event adjustment benefit of \$3,914, bringing the effective tax rate estimated for the three months of (382.9)% to 354.2%. This specific event adjustment expense relates primarily to additional income tax, interest, and exchange losses related to liabilities for unrecognized tax benefits and net exchange gains on income tax accounts. The significant difference in the estimated effective tax rate for the three months ended June 30, 2012 from the statutory rate is primarily due to net exchange losses on income tax accounts, foreign income tax rates lower than the U.S. rate and certain losses for which no benefit is currently recorded.

3. GUARANTEES

The Company and certain of its foreign subsidiaries guarantee bank loans to suppliers to finance their crops. Under longer-term arrangements, the Company may also guarantee financing on suppliers' construction of curing barns or other tobacco production assets. Guaranteed loans are generally repaid concurrent with the delivery of tobacco to the Company. The Company is obligated to repay any guaranteed loan should the supplier default. If default occurs, the Company has recourse against the supplier. The Company also guarantees bank loans of certain unconsolidated subsidiaries in Asia and Zimbabwe.

The following table summarizes amounts guaranteed and the fair value of those guarantees:

	June 30, 2012	June 30, 2011	March 31, 2012
Amounts guaranteed (not to exceed)	\$ 101,852	\$ 145,223	\$ 127,132
Amounts outstanding under guarantee	76,960	96,573	105,403
Fair value of guarantees	5,803	2,950	5,265

Of the guarantees outstanding at June 30, 2012, approximately 93% expire within one year and the remainder within five years. The fair value of guarantees is recorded in Accrued Expenses and Other Current Liabilities in the Condensed Consolidated Balance Sheets and included in crop costs except for Zimbabwe which is included in Accounts Receivable, Related Parties.

In Brazil, some suppliers obtain government subsidized rural credit financing from local banks that is guaranteed by the Company. The Company withholds amounts owed to suppliers related to the rural credit financing of the supplier upon delivery of tobacco to the Company. The Company remits payments to the local banks on behalf of the guaranteed suppliers. Terms of rural credit financing are such that repayment is due to local banks based on contractual due dates. As of June 30, 2012 and 2011 and March 31, 2012, respectively, the Company had balances of \$24,042, \$32,839 and \$27,619 that were due to local banks on behalf of suppliers. These amounts are included in Accounts Payable in the Condensed Consolidated Balance Sheets.

Alliance One International, Inc. and Subsidiaries

4. RESTRUCTURING CHARGES

In response to shifting supply and demand balances and the changing business models of the Company's customers, the Company began implementing several strategic initiatives during the third quarter of fiscal 2011 and during fiscal 2012. At March 31, 2012, these initiatives were substantially complete. The following table summarizes the restructuring charges recorded in the Company's reporting segments during the three months ended June 30, 2012 and 2011:

	Three Months Ended	
	June 30,	
	2012	2011
Restructuring and Asset Impairment Charges		
Employee separation and other cash charges:		
Beginning balance	\$ 1,960	\$ 6,193
Period charges:		
Severance charges	—	738

Payments through June 30	(555)(1,742)
Ending balance June 30	\$ 1,405	\$ 5,220
Total restructuring and asset impairment charges for the period	\$—	\$ 769

April 1, 2012, the Company revised its reportable segments. See Note 1 "Basis of Presentation and Significant Accounting Policies" to the "Notes to Condensed Consolidated Financial Statements." The following table summarizes the employee separation and other cash charges recorded in the Company's South America, Value Added Services and Other Regions segments during the three months ended June 30, 2012 and 2011:

	Three Months Ended	
	June 30,	
	2012	2011
Employee Separation and Other Cash Charges		
Beginning balance:	\$ 1,960	\$ 6,193
South America	183	1,073

Ending balance June 30:	\$ 1,405	\$ 5,220
South America	165	993
Value added services	—	—
Other regions	1,240	4,227

5. GOODWILL AND INTANGIBLES

Goodwill represents costs in excess of fair values assigned to the underlying net assets of acquired businesses. Goodwill is not subject to systematic amortization, but rather is tested for impairment annually or whenever events and circumstances indicate that an impairment may have occurred. The Company has chosen the first day of the last quarter of its fiscal year as the date to perform its annual goodwill impairment test.

Alliance One International, Inc. and Subsidiaries

5. GOODWILL AND INTANGIBLES (continued)

The Company has no intangible assets with indefinite useful lives. It does have intangible assets which are being amortized. The following table summarizes the changes in the Company's goodwill and other intangibles for the three months ended June 30, 2012 and 2011:

	Unamortizable Goodwill	Amortizable Intangibles Customer Relationship Intangible	Production and Supply Contract Intangibles	Internally Developed Software Intangible	Total
Weighted average remaining useful life in years as of June 30, 2012		12.75	3.75	1.75	
March 31, 2011 balance:					
Gross carrying amount	\$ 2,794	\$ 33,700	\$ 7,893	\$ 15,767	\$ 60,154
Accumulated amortization	—	(9,899)	(1,948)	(7,102)	(18,949)

* Estimated amortization expense for the internally developed software is based on costs accumulated as of June 30, 2012. These estimates will change as new costs are incurred and until the software is placed into service in all locations.

Alliance One International, Inc. and Subsidiaries

6. VARIABLE INTEREST ENTITIES

The Company holds variable interests in four joint ventures that are accounted for under the equity method of accounting. These joint ventures procure inventory on behalf of the Company and the other joint venture partners. The variable interests relate to equity investments and advances made by the Company to the joint ventures. In addition, the Company also guarantees one of its joint venture's borrowings which also represent a variable interest in that joint venture. The Company is not the primary beneficiary, as it does not have the power to direct the activities that most significantly impact the economic performance of the entities as a result of the entities' management and board of directors structure. Therefore, these entities are not consolidated. At June 30, 2012 and 2011, and March 31, 2012, the Company's investment in these joint ventures was \$23,150, \$24,753, and \$23,346, respectively and is classified as Investments in Unconsolidated Affiliates in the Condensed Consolidated Balance Sheets. The Company's advances to these joint ventures were \$9, \$1,965 and \$9 at June 30, 2012 and 2011, and March 31, 2012, respectively and are classified as Accounts Receivable, Related Parties in the Condensed Consolidated Balance Sheets. The Company guaranteed an amount to a joint venture not to exceed \$19,164, \$19,348 and \$19,712 at June 30, 2012 and 2011, and March 31, 2012, respectively. The investments, advances and guarantee in these joint ventures represent the Company's maximum exposure to loss.

7. SEGMENT INFORMATION

The Company purchases, processes, sells and stores leaf tobacco. Tobacco is purchased in more than 35 countries and shipped to more than 90 countries. The sales, logistics and billing functions of the Company are primarily concentrated in service centers outside of the producing areas to facilitate access to its major customers. Within certain quality and grade constraints, tobacco is fungible and, subject to these constraints, customers may choose to fulfill their needs from any of the areas where the Company purchases tobacco.

Beginning April 1, 2012, the Company has revised its reportable segments. Prior year segment data has been recast to conform with the current year segment presentation. See Note 1 "Basis of Presentation and Significant Accounting Policies" to the "Notes to Condensed Consolidated Financial Statements" for further information.

Selling, logistics, billing, and administrative overhead, including depreciation, which originates primarily from the Company's corporate and sales offices are allocated to the segments based upon segment operating income. The Company reviews performance data from the purchase of the product or the service provided through sale based on the source of the product or service and all intercompany transactions are allocated to the operating segment that either purchases or processes the tobacco.

The following table presents the summary segment information for the three months ended June 30, 2012 and 2011:

	Three Months Ended June 30,	
	2012	2011
Sales and other operating revenues:		
South America	\$ 178,345	\$ 155,845
Value added services	33,632	36,111
Other regions	145,793	169,608
Total revenue	\$ 357,770	\$ 361,564
Operating income:		
South America	\$ 869	\$ 14,322
Value added services	1,648	4,385
Other regions	2,762	5,047

Edgar Filing: ALLIANCE ONE INTERNATIONAL, INC. - Form 10-Q

Total operating income	5,279	23,754
Interest expense	27,115	25,776
Interest income	998	1,491
Income (loss) before income taxes and other items	\$(20,838)	\$(531)

Alliance One International, Inc. and Subsidiaries

7. SEGMENT INFORMATION (continued)

Analysis of Segment Assets	June 30, 2012	June 30, 2011	March 31, 2012
Segment assets:			
South America	\$766,979	\$740,715	\$534,169
Value added services	151,266	135,969	117,288
Other regions	1,187,849	1,080,020	1,298,388
Total assets	\$2,106,094	\$1,956,704	\$1,949,845

8. EARNINGS PER SHARE

The weighted average number of common shares outstanding is reported as the weighted average of the total shares of common stock outstanding net of shares of common stock held by a wholly owned subsidiary. Shares of common stock owned by the subsidiary were 7,853 at June 30, 2012 and 2011. This subsidiary waives its right to receive dividends and it does not have the right to vote.

Certain potentially dilutive options were not included in the computation of earnings per diluted share because their exercise prices were greater than the average market price of the shares of common stock during the period and their effect would be antidilutive. These shares totaled 7,445 at a weighted average exercise price of \$6.01 per share at June 30, 2012 and 4,413 at a weighted average exercise price of \$6.06 per share at June 30, 2011.

In connection with the offering of the Company's 5 1/2% Convertible Senior Subordinated Notes due 2014, issued on July 2, 2009 (the "Convertible Notes"), the Company entered into privately negotiated convertible note hedge transactions (the "convertible note hedge transactions") equal to the number of shares that underlie the Company's Convertible Notes. These convertible note hedge transactions are expected to reduce the potential dilution of the Company's common stock upon conversion of the Convertible Notes in the event that the value per share of common stock exceeds the initial conversion price of \$5.0280 per share. These shares were not included in the computation of earnings per diluted share because their inclusion would be antidilutive.

On July 28, 2010, the Company's board of directors authorized the purchase up to \$40,000 of its common stock through June 30, 2012. As of June 30, 2012, the Company had purchased 2,380 shares of its common stock at a weighted average price paid per share of \$3.78.

The following table summarizes the computation of earnings per share for the three months ended June 30, 2012 and 2011, respectively.

(in thousands, except per share data)	Three Months Ended	
	June 30, 2012	2011
BASIC EARNINGS (LOSS)		
Net income (loss) attributable to Alliance One International, Inc.	\$(30,743)	\$1,321
SHARES		
Weighted average number of shares outstanding	87,192	86,812
BASIC EARNINGS (LOSS) PER SHARE	\$(0.35)	\$0.02
DILUTED EARNINGS (LOSS)		
Net income (loss) attributable to Alliance One International, Inc.	\$(30,743)	\$1,321
Plus interest expense on 5 1/2% convertible notes, net of tax	— *	1,028
Net income (loss) attributable to Alliance One International, Inc. as adjusted	\$(30,743)	\$2,349
SHARES		

Edgar Filing: ALLIANCE ONE INTERNATIONAL, INC. - Form 10-Q

Weighted average number of common shares outstanding	87,192		86,812	
Plus: Restricted shares issued and shares applicable to stock options and restricted stock units, net of shares assumed to be purchased from proceeds at average market price	—	*	398	
Assuming conversion of 5 1/2% convertible notes at the time of issuance	—	*	22,872	
Shares applicable to stock warrants	—	**	—	**
Adjusted weighted average number of common shares outstanding	87,192		110,082	
DILUTED EARNINGS (LOSS) PER SHARE	\$(0.35)	\$0.02	

*Assumed conversion of convertible notes at the beginning of the period has an antidilutive effect on earnings (loss) per share. All outstanding restricted shares and shares applicable to stock options and restricted stock units are excluded because their inclusion would have an antidilutive effect on the loss per share.

** For the three months ended June 30, 2012 and 2011, the warrants were not assumed exercised because the exercise price was more than the average price for the periods presented.

- 13 -

Alliance One International, Inc. and Subsidiaries

9. STOCK-BASED COMPENSATION

The Company recorded stock-based compensation expense related to stock-based awards granted under its various employee and non-employee stock incentive plans of \$2,625 and \$1,018 for the three months ended June 30, 2012 and 2011, respectively.

The Company's shareholders approved amendments to the 2007 Incentive Plan (the "2007 Plan") at its Annual Meeting of Shareholders on August 11, 2011 and August 6, 2009. The 2007 Plan is an omnibus plan that provides the flexibility to grant a variety of equity awards including stock options, stock appreciation rights, stock awards, stock units, performance awards and incentive awards to officers, directors and employees of the Company.

During the three months ended June 30, 2012, 3,350 stock-based compensation awards were granted. No stock options were granted during the three months ending June 30, 2011.

Assumptions used to determine the fair value of options issued during the three months ended June 30, 2012 include the following:

	Three Months Ended June 30, 2012	
Grant Price	\$3.50	
Exercise Price	\$6.00	
Expected Term in Years	6 to 6.5 years	
Expected Volatility	60.4% to 61.0%	
Weighted Average Volatility	60.9	%
Annual Dividend Rate	0.00	%
Risk Free Rate	2.00	%
Weighted Average Fair Value	\$1.64	

10. CONTINGENCIES AND OTHER INFORMATION

Non-Income Tax

The government in the Brazilian State of Parana ("Parana") issued a tax assessment on October 26, 2007 with respect to local intrastate trade tax credits that result primarily from tobacco transferred between states within Brazil. The assessment for intrastate trade tax credits taken is \$6,518 and the total assessment including penalties and interest at June 30, 2012 is \$15,943. The Company believes it has properly complied with Brazilian law and will contest any assessment through the judicial process. Should the Company lose in the judicial process, the loss of the intrastate trade tax credits would have a material impact on the financial statements of the Company.

The Company also has local intrastate trade tax credits in the Brazil State of Rio Grande do Sul and the State of Santa Catarina. These jurisdictions permit the sale or transfer of excess credits to third parties, however approval must be obtained from the tax authorities. The Company has agreements with the state governments regarding the amounts and timing of credits that can be sold. The tax credits have a carrying value of \$27,261, which is net of impairment charges based on management's expectations about future realization. The intrastate trade tax credits will continue to be monitored for impairment in future periods based on market conditions and the Company's ability to use or sell the tax credits.

In 2001, the Company's subsidiary in Brazil won a claim related to certain excise taxes ("IPI credit bonus") for the years 1983 through 1990. The Company used this IPI credit bonus to offset federal income and other taxes until January 2005 when it received a Judicial Order to suspend the IPI compensation. In addition, the Company received an assessment in 2006 for federal income taxes that were offset by the IPI credit bonus. The assessment is valued at \$24,052 at June 30, 2012. The Company appealed the assessment and believes it has properly utilized the IPI credit bonus. No benefit for the utilization of the IPI credit bonus has been recognized as it has been recorded in Pension, Postretirement and Other Long-Term Liabilities. On September 9, 2011, the Court affirmed the Company's position

regarding the IPI credit bonus which is subject to appeal. The Company does not expect resolution in the near future, which would directly impact the outcome of the Company's appeal of the tax assessment as well as its utilization of its remaining IPI credit bonus. No benefit for any potential future utilization of IPI credit bonus has been recognized.

Alliance One International, Inc. and Subsidiaries

10. CONTINGENCIES AND OTHER INFORMATION (continued)

Other

In October 2001, the Directorate General for Competition (“DGCOMP”) of the European Commission (“EC”) began an administrative investigation into certain tobacco buying and selling practices alleged to have occurred within the leaf tobacco industry in some countries within the European Union, including Spain and Italy. In respect of the investigation into practices in Spain, in 2004 the EC fined the Company and its Spanish subsidiaries €4,415 (US \$5,641) in the aggregate. In respect of the investigation into practices in Italy, in October 2005 the EC announced the assessment of fines against the Company and its Italian subsidiaries of €24,000 (US \$28,800) in the aggregate. With respect to both the Spanish and Italian investigations, the fines imposed on the Company and its predecessors and subsidiaries were part of fines assessed on several participants in the applicable industry. The Company, along with its applicable subsidiaries, lodged several appeals against the EC decisions and these cases are currently at various stages of appeal before the European Court of Justice (the “ECJ”). On July 19, 2012, the ECJ denied the Company's appeal in joined cases C-628/10 and C-14/11 relating to a €1,800 fine imposed by the EC on one of the Company's Spanish subsidiaries, and as to which the EC further imposed joint and several parent company liability on the Company and such subsidiary's other shareholders (being a corporate predecessor of the Company, and a current subsidiary of the Company). The outcome of the remaining appeals, relating to a second case involving a different Spanish subsidiary regarding the remainder of the above-referenced €4,415 in fines, and the matters involving the Company and its Italian subsidiaries with respect to the above-referenced €24,000 in fines are uncertain as to both timing and results. A hearing before the ECJ relating to one of the appeals-pertaining to one of the Company's Italian subsidiaries which had been individually fined €3,990 (for which the Company was held jointly liable) has been scheduled for October 15, 2012. The Company has fully recognized the impact of each of the fines set forth above and has paid all of such fines as part of the appeal process.

Mindo, S.r.l., the purchaser in 2004 of the Company's Italian subsidiary Dimon Italia, S.r.l., has asserted claims against subsidiaries of the Company arising out of that sale transaction in an action filed before the Court of Rome on April 12, 2007. The claim, allegedly arising from a guaranty letter issued by a consolidated subsidiary of the Company in connection with the sale transaction, seeks the recovery of €7,377 (US \$9,277) plus interest and costs. A hearing for the disposition of this matter was held in December 2011 and the court's ruling is pending. Due to the uncertain legal interpretation in a foreign jurisdiction and the complexity of the matter, the Company is not able to reasonably estimate the outcome.

On June 6, 2008, the Company's Brazilian subsidiary and a number of other tobacco processors were notified of a class action initiated by the ALPAG - Associação Lourenciana de Pequenos Agricultores (“Association of Small Farmers of São Lourenço”). The case is currently before the 2^d civil court of São Lourenço do Sul. On April 20, 2012, the Company's motion to dismiss the class action was granted in part and denied in part. Hearings with respect to the remaining claims, which relate to practices regarding the weighing and grading of tobacco, commenced on June 27, 2012 and are continuing. The Company believes the remaining claims in the action to be without merit and is vigorously defending the action. Due to the broad scope of the pleading, the ultimate exposure if an unfavorable outcome is received is not estimable.

The Company has been named as one of several defendants in Hupan, et al. v. Alliance One International, Inc., et al., and Chalanuk, et al. v. Alliance One International, Inc., et al., which are distinct but related lawsuits respectively filed in New Castle County, Delaware state court on February 14, 2012 and April 5, 2012. The lawsuits were brought by approximately 130 individuals claiming to be tobacco farmers and their family members, all residing in Misiones Province, Argentina. The complaints seek compensatory and punitive damages from the Company and other multinational defendants under U.S. and Argentine law for alleged injuries, including birth defects, purportedly caused by exposure to agricultural chemicals in connection with the production and cultivation of tobacco. The Company has not yet filed answers or other responsive pleadings in these actions, as to which the time for filing has been extended. Based on its preliminary investigation, the Company believes the claims against it to be without merit and intends to vigorously defend against them. Because the Company has only recently been named in the lawsuits, the ultimate exposure if an unfavorable outcome is received is not estimable.

In accordance with generally accepted accounting principles, the Company records all known asset retirement obligations (“ARO”) for which the liability can be reasonably estimated. Currently, it has identified an ARO associated with one of its facilities that requires it to restore the land to its initial condition upon vacating the facility. The Company has not recognized a liability under generally accepted accounting principles for this ARO because the fair value of restoring the land at this site cannot be reasonably estimated since the settlement date is unknown at this time. The settlement date is unknown because the land restoration is not required until title is returned to the government, and the Company has no current or future plans to return the title. The Company will recognize a liability in the period in which sufficient information is available to reasonably estimate its fair value. The Company has no additional material AROs.

11. DEBT ARRANGEMENTS

At June 30, 2012, borrowings under the senior secured credit facility were \$165,000 and the 8 1/2% senior notes due 2012 of \$6,000 were repaid during the quarter. The Company continuously monitors its compliance with the covenants of its senior secured credit facility and its senior notes. Significant changes in market conditions could adversely affect the Company's business. As a result, there can be no assurance that the Company will be able to maintain compliance with its financial covenants in the future.

Alliance One International, Inc. and Subsidiaries

11. DEBT ARRANGEMENTS (continued)

The fifth amendment to the senior secured credit facility eliminated the basket for restricted payments for the term of this facility and accordingly, the Company may not pay any dividends under the facility for its remaining term. In addition, the indenture governing its senior notes contains similar restrictions and also prohibits the payment of dividends and other distributions if the Company fails to satisfy a ratio of consolidated EBITDA to fixed charges of at least 2.0 to 1.0. At June 30, 2012, the Company did not satisfy this fixed charge coverage ratio. The Company may from time to time not satisfy this ratio.

12. DERIVATIVE FINANCIAL INSTRUMENTS

Fair Value of Derivative Financial Instruments

The Company recognizes all derivative financial instruments, such as foreign exchange contracts at fair value. Changes in the fair value of derivative financial instruments are either recognized periodically in income or in shareholders' equity as a component of other comprehensive income depending on whether the derivative financial instrument qualifies for hedge accounting, and if so, whether it qualifies as a fair value hedge or a cash flow hedge. Estimates of fair value were determined in accordance with generally accepted accounting principles. The Company has elected not to offset fair value amounts recognized for derivative instruments with the same counterparty under a master netting agreement. See Note 16 "Fair Value Measurements" to the "Notes to Condensed Consolidated Financial Statements" for further information on fair value methodology.

The following table summarizes the fair value of the Company's derivatives by type at June 30, 2012 and 2011, and March 31, 2012.

Derivatives Not Designated as Hedging Instruments:	Fair Values of Derivative Instruments			
	Assets		Liabilities	
	Balance Sheet Account	Fair Value	Balance Sheet Account	Fair Value
Foreign currency contracts at June 30, 2012	Other Current Assets	\$624	Accrued Expenses and Other Current Liabilities	\$431
Foreign currency contracts at June 30, 2011	Other Current Assets	\$940	Accrued Expenses and Other Current Liabilities	\$633
Foreign currency contracts at March 31, 2012	Other Current Assets	\$312	Accrued Expenses and Other Current Liabilities	\$16

Earnings Effects of Derivatives

The Company periodically enters into forward or option currency contracts to protect against volatility associated with certain non-U.S. dollar denominated forecasted transactions. These contracts are for green tobacco purchases and processing costs as well as selling, general and administrative costs as the Company deems necessary. These contracts do not meet the requirements for hedge accounting treatment under generally accepted accounting principles, and as such, all changes in fair value are reported in income each period.

The following table summarizes the earnings effects of derivatives in the Condensed Consolidated Statements of Operations for the three months ended June 30, 2012 and 2011.

Derivatives Not Designated as Hedging Instruments	Location of Gain (Loss) Recognized in Income	Gain (Loss) Recognized in Income for the Three Months Ending June 30,	
		2012	2011
Foreign currency contracts	Cost of goods and services sold	\$(12,955)	\$6,771

Foreign currency contracts	Selling, general and administrative expenses	—	(35)
Total		\$(12,955)	\$6,736

Credit Risk

Financial instruments, including derivatives, expose the Company to credit loss in the event of non-performance by counterparties. The Company manages its exposure to counterparty credit risk through specific minimum credit standards, diversification of counterparties, and procedures to monitor concentrations of credit risk. If a counterparty fails to meet the terms of an arrangement, the Company's exposure is limited to the net amount that would have been received, if any, over the arrangement's remaining life. The Company does not anticipate non-performance by the counterparties and no material loss would be expected from non-performance by any one of such counterparties.

Alliance One International, Inc. and Subsidiaries

13. PENSION AND POSTRETIREMENT BENEFITS

The Company has multiple benefit plans at several locations. The Company has a defined benefit plan that provides retirement benefits for substantially all U.S. salaried personnel based on years of service rendered, age and compensation. The Company also maintains various other Excess Benefit and Supplemental Plans that provide additional benefits to (1) certain individuals whose compensation and the resulting benefits that would have actually been paid are limited by regulations imposed by the Internal Revenue Code and (2) certain individuals in key positions. The Company funds these plans in amounts consistent with the funding requirements of federal law and regulations.

Additional non-U.S. defined benefit plans sponsored by certain subsidiaries cover certain full-time employees located in Germany, Turkey, and the United Kingdom. In the quarter ended June 30, 2011, Malawi enacted legislation that terminated the statutorily required defined benefit plan and replaced it with a defined contribution plan. This terminated defined benefit plan resulted in a curtailment gain of \$4,989. The new statutorily required defined contribution plan has been integrated with the Company's existing defined contribution plan which resulted in an additional liability of \$4,172 at June 30, 2011.

Components of Net Periodic Benefit Cost

Net periodic pension cost for continuing operations consisted of the following:

	Three Months Ended	
	June 30,	
	2012	2011
Service cost	\$512	\$614
Interest expense	1,842	2,140
Expected return on plan assets	(1,569)	(1,637)
Amortization of prior service cost	55	27
Actuarial loss	498	306
Curtailment gain recognized	—	(4,989)
Net periodic pension cost (benefit)	\$1,338	\$(3,539)

Employer Contributions

The Company's investment objectives are to generate consistent total investment return to pay anticipated plan benefits, while minimizing long-term costs. Financial objectives underlying this policy include maintaining plan contributions at a reasonable level relative to benefits provided and assuring that unfunded obligations do not grow to a level to adversely affect the Company's financial health. As of June 30, 2012, contributions of \$2,599 were made to pension plans for fiscal 2013. Additional contributions to pension plans of approximately \$7,163 are expected during the remainder of fiscal 2013. However, this amount is subject to change, due primarily to asset performance significantly above or below the assumed long-term rate of return on pension assets and significant changes in interest rates.

Postretirement Health and Life Insurance Benefits

The Company also provides certain health and life insurance benefits to retired employees, and their eligible dependents, who meet specified age and service requirements. As of June 30, 2012, contributions of \$166 were made to the plans for fiscal 2013. Additional contributions of \$771 to the plans are expected during the rest of fiscal 2013. The Company retains the right, subject to existing agreements, to modify or eliminate the postretirement medical benefits.

Components of Net Periodic Benefit Cost

Net periodic benefit cost for postretirement health and life insurance benefit plans consisted of the following:

	Three Months Ended	
	June 30,	
	2012	2011
Service cost	\$16	\$18
Interest expense	157	167
Amortization of prior service cost	(411)	(411)
Actuarial loss	117	101
Net periodic pension (benefit)	\$(121)	\$(125)

- 17 -

Alliance One International, Inc. and Subsidiaries

14. INVENTORIES

The following table summarizes the Company's costs in inventory:

	June 30, 2012	June 30, 2011	March 31, 2012
Processed tobacco	\$746,496	\$723,000	\$555,341
Unprocessed tobacco	177,781	231,295	240,811
Other	53,571	46,016	43,750
	\$977,848	\$1,000,311	\$839,902

15. SALE OF RECEIVABLES

The Company sells trade receivables to unaffiliated financial institutions under two accounts receivable securitization programs. Under the first program, the Company continuously sells a designated pool of up to \$250,000 trade receivables to a special purpose entity, which in turn sells 100% of the receivables to an unaffiliated financial institution. This program allows the Company to receive a cash payment and a deferred purchase price receivable for sold receivables. Following the sale and transfer of the receivables to the special purpose entity, the receivables are isolated from the Company and its affiliates, and upon the sale and transfer of the receivables from the special purpose entity to the unaffiliated financial institutions effective control of the receivables is passed to the unaffiliated financial institution, which has all rights, including the right to pledge or sell the receivables. This program requires a minimum level of deferred purchase price to be retained by the Company in connection with the sales. The Company services, administers and collects the receivables on behalf of the special purpose entity and receives a servicing fee of .5% of serviced receivables per annum. As the Company estimates the fee it receives in return for its obligation to service these receivables is at fair value, no servicing assets or liabilities are recognized. Servicing fees recognized were not material and are recorded as a reduction of Selling, General and Administrative Expenses within the Condensed Consolidated Statements of Operations.

The agreement for the second securitization program also allows the Company to receive a cash payment and a deferred purchase price receivable for sold receivables. This is an uncommitted program, whereby the Company offers receivables for sale to the unaffiliated financial institution, which are then subject to acceptance by the unaffiliated financial institution. Following the sale and transfer of the receivables to the unaffiliated financial institution, the receivables are isolated from the Company and its affiliates, and effective control of the receivables is passed to the unaffiliated financial institution, which has all rights, including the right to pledge or sell the receivables. The investment limit with this financial institution is \$35,000. The Company receives no servicing fee from the unaffiliated financial institution and as a result, has established a servicing liability based upon unobservable inputs, primarily discounted cash flow. This liability is recorded in Accrued Expenses and Other Current Liabilities in the Condensed Consolidated Balance Sheets.

Under both programs, all of the receivables sold for cash are removed from the Condensed Consolidated Balance Sheets and the net cash proceeds received by the Company are included as cash provided by operating activities in the Condensed Consolidated Statements of Cash Flows. A portion of the purchase price for the receivables is paid by the unaffiliated financial institutions in cash and the balance is a deferred purchase price receivable, which is paid as payments on the receivables are collected from account debtors. The deferred purchase price receivable represents a continuing involvement and a beneficial interest in the transferred financial assets and is recognized at fair value as part of the sale transaction. The deferred purchase price receivables are included in Trade and Other Receivables, Net in the Condensed Consolidated Balance Sheets and are valued using unobservable inputs (i.e., level three inputs), primarily discounted cash flow. See Note 16 "Fair Value Measurements" to the "Notes to Condensed Consolidated Financial Statements" for further information.

The difference between the carrying amount of the receivables sold under these programs and the sum of the cash and fair value of the other assets received at the time of transfer is recognized as a loss on sale of the related

receivables and recorded in Other Income (Expense) in the Condensed Consolidated Statements of Operations.

Alliance One International, Inc. and Subsidiaries

15. SALE OF RECEIVABLES (continued)

The following table summarizes the Company's accounts receivable securitization information as of the dates shown:

	June 30, 2012	2011	March 31, 2012
Receivables outstanding in facility	\$96,280	\$82,912	\$182,856
Beneficial interest	\$35,368	\$13,972	\$25,864
Servicing liability	\$9	\$—	\$45
Cash proceeds for the three months ended June 30:			
Cash purchase price	\$109,475	\$99,977	
Deferred purchase price	63,909	37,494	
Service fees	156	85	
Total	\$173,540	\$137,556	

16. FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. A three-level valuation hierarchy based upon observable and non-observable inputs is utilized. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical assets or liabilities in active markets.

Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

The Company's financial assets and liabilities measured at fair value include derivative instruments, securitized beneficial interests and guarantees. The application of the fair value guidance to our non-financial assets and liabilities primarily includes assessments of investments in subsidiaries, goodwill and other intangible assets and long-lived assets for potential impairment.

Following are descriptions of the valuation methodologies the Company uses to measure different assets or liabilities at fair value.

Debt

The fair value of debt is measured for purpose of disclosure. Debt is shown at historical value in the Condensed Consolidated Balance Sheets. When possible, to measure the fair value of its long-term debt the Company uses quoted market prices of its own debt with approximately the same remaining maturities. When this is not possible, the fair value of long-term debt is calculated using discounted cash flow models with interest rates based upon market based expectations, the Company's credit risk and the contractual terms of the debt instrument. The Company also has portions of its long-term debt with maturities of one year or less. Due to the short-term nature of this debt, the Company believes book value is a reasonable approximation of this debt. The fair value of long-term debt is considered to fall within Level 2 of the fair value hierarchy as significant value drivers such as interest rates are readily observable. The carrying value and estimated fair value of the Company's Long-Term Debt are shown in the table below.

Edgar Filing: ALLIANCE ONE INTERNATIONAL, INC. - Form 10-Q

	June 30, 2012	June 30, 2011	March 31, 2012
Carrying value	\$ 985,327	\$ 738,033	\$ 828,503
Estimated fair value	979,247	737,654	841,558

16. FAIR VALUE MEASUREMENTS (continued)

Derivative financial instruments

The Company's derivatives consist of foreign currency contracts. The fair value of the derivatives are determined using a discounted cash flow analysis on the expected future cash flows of each derivative. This analysis utilizes observable market data including forward yield curves and implied volatilities to determine the market's expectation of the future cash flows of the variable component. The fixed and variable components of the derivative are then discounted using calculated discount factors developed based on the LIBOR swap rate and are netted to arrive at a single valuation for the period. The Company also incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. As of June 30, 2012 and 2011 and March 31, 2012 the inputs used to value the Company's derivatives fall within Level 2 of the fair value hierarchy. However, credit valuation adjustments associated with its derivatives could utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. Should the use of such credit valuation adjustment estimates result in a significant impact on the overall valuation, this would require reclassification to Level 3.

Securitized beneficial interests

The fair value of securitized beneficial interests is based upon a valuation model that calculates the present value of future expected cash flows using key assumptions for payment speeds and discount rates. The assumptions for payment speed are based on the Company's historical experience. The discount rates are based upon market trends and anticipated performance relative to the particular assets securitized which have been assumed to be commercial paper rate plus a margin or LIBOR plus a margin. Due to the use of the Company's own assumptions and the uniqueness of these transactions, securitized beneficial interests fall within Level 3 of the fair value hierarchy. Since the discount rate and the payment speed are components of the same equation, a change in either by 10% or 20% would change the value of the recorded beneficial interest at June 30, 2012 by \$58 and \$99, respectively.

Guarantees

The Company guarantees funds issued to tobacco suppliers by third party lending institutions and also guarantees funds borrowed by a deconsolidated subsidiary. The fair value of guarantees is based upon either the premium the Company would require to issue the same inputs or historical loss rates and as such these guarantees fall into Level 3 of the fair value hierarchy.

Tobacco supplier guarantees - The Company provides guarantees to third parties for indebtedness of certain tobacco suppliers to finance their crops. The fair value of these guarantees is determined using historical loss rates on both guaranteed and non-guaranteed tobacco supplier loans. Should the loss rates change 10% or 20%, the fair value of the guarantee at June 30, 2012 would change by \$196 or \$392, respectively.

Deconsolidated subsidiary guarantees - The fair value of these guarantees is determined using a discounted cash flow model based on the differential between interest rates available with and without the guarantees. The fair value of these guarantees is most closely tied to the theoretical interest rate differential. Should interest rates used in the model change by 10% or 20%, the fair value of the guarantee, at June 30, 2012 would change by \$342 or \$409, respectively.

Input Hierarchy of Items Measured at Fair Value on a Recurring Basis

The following table summarizes the items measured at fair value on a recurring basis:

June 30, 2012	June 30, 2011	March 31, 2012

Reconciliation of Change in Recurring Level 3 Balances

The following tables present the changes in Level 3 instruments measured on a recurring basis.

	Three Months Ended June 30, 2012		
	Securitized Beneficial Interests	Guarantees	
Beginning Balance March 31, 2012	\$25,864	\$5,265	
Issuances of guarantees/sales of receivables	56,338	3,892	
Settlements	(46,280)	(3,354))
Losses recognized in earnings	(554))—)
Ending Balance June 30, 2012	\$35,368	\$5,803	

	Three Months Ended June 30, 2011		
	Securitized Beneficial Interest	Guarantees	
Beginning Balance March 31, 2011	\$15,797	\$4,575	
Issuances of guarantees/sales of receivables	35,093	1,293	
Settlements	(36,274)	(2,398))
Changes in anticipated loss rate	—	(520))
Losses recognized in earnings	(644))—)
Ending Balance June 30, 2011	\$13,972	\$2,950	

The amount of unrealized losses relating to assets still held at the respective dates of June 30, 2012 and 2011 and March 31, 2012 were \$516, \$381 and \$1,373 on securitized beneficial interests.

Gains and losses included in earnings are reported in Other Income (Expense).

Information About Fair Value Measurements Using Significant Unobservable Inputs

The following table summarizes significant unobservable inputs and the valuation techniques thereof for the period ended June 30, 2012:

	Fair Value at 6/30/2012	Valuation Technique	Unobservable Input	Range (Weighted Average)	
Securitized Beneficial Interests	\$35,368	Discounted Cash Flow	Discount Rate Payment Speed	2.58% to 3.91% 42 to 64 days	
Tobacco Supplier Guarantees	\$1,958	Historical Loss	Historical Loss	6% to 8%	
Deconsolidated Subsidiary Guarantees	\$3,845	Discounted Cash Flow	Market Interest Rate	12	%

17. RELATED PARTY TRANSACTIONS

The Company's operating subsidiaries engage in transactions with related parties in the normal course of business. The following is a summary of balances and transactions with related parties of the Company:

	June 30, 2012	June 30, 2011	March 31, 2012
Balances:			
Accounts receivable	\$ 110,357	\$ 71,392	\$ 32,316
Accounts payable	27,602	31,386	37,520
			Three Months Ended
			June 30,
			2012
Transactions:			2011
Purchases			\$ 26,319
			\$ 30,725

The Company's operating subsidiaries have entered into transactions with affiliates of the Company for the purpose of procuring inventory.

The Company's balances due to and from related parties are primarily with its deconsolidated Zimbabwe subsidiary. The remaining related party balances and transactions relate to the Company's equity basis investments in companies located in Asia which purchase and process tobacco. The balance due from the Zimbabwe subsidiary at June 30, 2011 includes a \$32,094 pledge to a bank, which has been recorded in Notes Payable to Banks. This pledge is no longer required.

Alliance One International, Inc. and Subsidiaries

Item 2. Management's Discussion and Analysis of
Financial Condition and Results of Operations

Management evaluates performance of our reportable segments principally on the basis of revenues and gross profit. Beginning April 1, 2012, management began evaluating the performance of our Value Added Services business as a separate operating segment from our five geographic operating segments. Value Added Services is comprised of our crushed rolled expanded stem (CRES), cut rag, toasted burley and other specialty products and services. The economic characteristics of the Value Added Services segment are dissimilar from the other operating segments. Therefore, effective April 1, 2012, our reportable segments are Value Added Services, South America Region and Other Regions.

EXECUTIVE OVERVIEW

The following executive overview is intended to provide significant highlights of the discussion and analysis that follows.

Financial Results

Sales and other operating revenues for the quarter were down as a result of lower processing and other revenues due to the later timing of the Brazilian crop this year. Our profitability and pre-tax income were negatively impacted by \$19.7 million during the quarter due to foreign currency hedges. The hedge expense is primarily a result of significant Brazilian Real volatility due to changing global economic outlook that will be offset as we sell the associated lower U.S. dollar cost inventory later this year. Foreign exchange rate volatility also impacted taxes by \$14.8 million due to balance sheet re-measurement.

Liquidity

Our liquidity requirements are affected by crop seasonality, foreign currency and interest rates, green tobacco prices, crop size and quality, as well as other factors. We monitor and adjust funding sources based on a number of industry, business, and financial market dynamics. Movement and changes between these various funding sources enhances enterprise agility and ability to drive various business opportunities. We will continue to modify available liquidity as required to maintain appropriate business flexibility and cost controls.

Outlook

We anticipate that processing volumes in Brazil will be reduced this year as a result of the smaller crop size due to lower tobacco prices paid to suppliers last year. However, based on orders for this fiscal year and current cost estimates, we anticipate improved volumes, revenue and profitability for the full year versus last year. We will continue to execute on our plan that includes additional investment to further improve efficiencies and where our customers recognize value. Continued focus on efficiency opportunities, combined with our strong global team executing our plan, should lead to another year of operational improvements as we strive to deliver enhanced shareholder value.

Processing and other revenues	\$13.9	\$(4.1)	(22.8)	\$18.0
Total sales and other operating revenues	\$357.8	\$(3.8)	(1.1)	\$361.6

Three Months Ended June 30, 2012 Compared to Three Months Ended June 30, 2011

Summary. Compared to the prior year, sales and other operating revenues decreased 1.1% primarily due to the impact on third party processing from delays in delivery of the current crop in Brazil. Tobacco revenues remained consistent when compared to the prior year. Gross profit as a percentage of sales decreased from 15.6% in 2011 to 11.6% in 2012 primarily due to losses on Brazilian derivative financial instruments partially offset by exchange gains from operating costs denominated in other currencies. The losses experienced during the period on foreign currency hedges should be offset by lower U.S. dollar operating costs of foreign sourced tobaccos that will be sold in future periods. Selling, general and administrative costs increased 3.1% due to increased stock-based compensation costs. Primarily as a result of the impact of foreign currency exchange losses, operating income decreased \$18.5 million compared to the prior year. After increased interest costs related to higher average borrowings and higher average rates, pretax income decreased \$20.3 million compared to last year.

Our effective tax rate decreased from 354.2% in 2011 to (44.3)% in 2012. The significant variance in the effective tax rate between 2012 and 2011 is primarily related to a specific event adjustment expense related to unrecognized tax benefit liabilities and net exchange losses on income tax accounts this year compared to exchange gains on income tax accounts last year.

South America Region. Tobacco revenues increased \$26.5 million or 18.6% primarily due to an increase of 5.2 million kilos in quantities sold and an increase of \$0.02 per kilo in average sales prices. The increase in volume is mainly attributable to change in customer mix and opportunistic sales of old crop in the current quarter. Partially offsetting increased tobacco revenues are decreased processing and other revenues of \$4.1 million primarily due to the later timing of the Brazilian crop this year.

Alliance One International, Inc. and Subsidiaries

RESULTS OF OPERATIONS: (continued)

South America Region. (continued)

Gross profit decreased \$16.4 million and gross profit as a percentage of sales decreased 11.4 percentage points due to losses on derivative financial instruments, higher green costs due to the smaller crop this year and the related impact on processing costs. The derivative losses should be offset by lower U.S. dollar operating costs of the Brazilian crop as it is sold in future periods.

Value Added Services. Tobacco revenues decreased \$2.3 million or 6.9% primarily from a decrease of 0.5 million kilos in quantities sold due to timing shifts resulting from customer competition partially offset by an increase of \$0.06 per kilo in average sales prices due to product mix. Gross profit decreased \$0.5 million and gross profit as a percentage of sales remained consistent with the prior year.

Other Regions. Tobacco revenues decreased \$23.9 million or 14.3% primarily as a result of a decrease of 3.2 million kilos in quantities sold and a decrease of \$0.29 per kilo in average sales price. Gross profit increased \$2.3 million and gross profit as a percentage of sales increased 3.4 percentage points in 2012 compared to 2011 primarily due to exchange gains related to the devaluation of the Malawi Kwacha, the Euro and other foreign denominated operating costs.

Average sales prices decreased primarily due to the change in green costs between crops. Decreased revenues were due to the timing of shipments that were accelerated into fiscal 2012 from Asia, the currency impact on Euro-denominated sales and the non-recurrence of opportunistic sales in Europe. Gross profit percentage increases were attributable to the exchange rate impact on foreign denominated operating costs.

LIQUIDITY AND CAPITAL RESOURCES:

Overview

Our business is seasonal, and purchasing, processing and selling activities have several associated peaks where cash on hand and outstanding indebtedness may be significantly greater or less than at fiscal year-end. We utilize capital in excess of cash flow from operations to finance accounts receivable, inventory and advances to tobacco suppliers in foreign countries, including Argentina, Brazil, Guatemala, Malawi, Tanzania, Turkey and Zambia. In addition, from time to time, we may elect to purchase, redeem, repay, retire or cancel indebtedness prior to stated maturity under our various foreign credit lines, senior secured credit agreement or indentures, as permitted therein.

As of June 30, 2012, we are approaching the seasonally adjusted high for our South American crop lines as we are completing purchasing and processing in these markets with shipping stepping into full mode. In Africa, purchasing will continue through August in most sourcing areas while processing and consequently shipping will peak in the second and third quarters. In Asia, the Chinese crop is fully processed and the Thai crops are fully purchased, with significant shipping still to come, while some Indian traditional crop is still left to purchase and process. The Indonesian purchasing season begins in August. Europe has completed purchases of the 2012 crop and is finishing processing with most shipping to come. North America is preparing to begin flue cured purchasing in August with processing and shipping to follow, which will commence its seasonally elevated working capital needs. Depreciation of the U.S. dollar versus many of the currencies in which we have costs may continue to have an impact on our working capital requirements, as such, we will monitor and hedge foreign currency costs actively, and as needed on a currency by currency basis.

Working Capital

Our working capital seasonally increased from \$828.6 million at March 31, 2012 to \$953.5 million at June 30, 2012. Our current ratio was 2.4 to 1 at June 30, 2012 compared to 2.3 to 1 at March 31, 2012. The increase in working capital is primarily related to increased inventories and advances to tobacco suppliers partially offset by increased notes payable to banks. These changes are attributable to the seasonal buildup of purchasing and processing tobacco in

Africa and Brazil and the related seasonal increase in financing of those crops.

Alliance One International, Inc. and Subsidiaries

LIQUIDITY AND CAPITAL RESOURCES: (continued)

Working Capital (continued)

The following table is a summary of items from the Condensed Consolidated Balance Sheet and Condensed Consolidated Statements of Cash Flows.

(in millions except for current ratio)	June 30, 2012	June 30, 2011	March 31, 2012
Cash and cash equivalents	\$127.9	\$70.4	\$119.7
Trade and other receivables, net	233.1	172.5	303.1
Inventories and advances to tobacco suppliers	1,081.2	1,086.4	929.3
Total current assets	1,636.0	1,464.5	1,477.8
Notes payable to banks	416.2	497.5	374.5
Accounts payable	99.1	104.5	120.1
Advances from customers	28.9	24.2	14.9
Total current liabilities	682.5	767.2	649.2
Current ratio	2.4 to 1	1.9 to 1	2.3 to 1
Working capital	953.5	697.3	828.6
Long-term debt	984.1	737.0	821.5
Stockholders' equity attributable to Alliance One International, Inc.	297.2	316.8	327.5
Net cash provided (used) by:			
Operating activities	(186.9)	(71.8)	59.0
Investing activities	(5.1)	(11.2)	(65.1)
Financing activities	198.8	111.9	80.9

Operating Cash Flows

Net cash used by operating activities increased \$115.1 million in 2012 compared to 2011. The increase in cash used was primarily due to an increase in receivables primarily from increased advances to our Zimbabwe operations as a result of a larger crop this year.

Investing Cash Flows

Net cash used by investing activities decreased \$6.1 million in 2012 compared to 2011. The decrease in cash used was primarily attributable to reduced purchases of property, plant and equipment due to timing of investment in capital assets.

Financing Cash Flows

Net cash provided by financing activities increased \$86.9 million in 2012 compared to 2011. This increase was primarily due to an increase in net proceeds of long-term debt primarily due to our revolver borrowings outstanding in the current year that were not outstanding at year end partially offset by net repayment of short-term borrowings. We continuously monitor and adjust our funding sources based on business dynamics in order to enhance business flexibility and reduce costs.

Debt Financing

We continue to finance our business with a combination of short-term and long-term seasonal credit lines, our revolving credit facility, long-term debt securities, customer advances and cash from operations. At June 30, 2012, we had cash of \$127.9 million and total debt outstanding of \$1,401.6 million comprised of \$501.7 million of notes payable to banks and long-term seasonal lines, \$165.0 million under our revolving credit facility, \$3.8 million of other long-term debt, \$616.1 million of 10.0% senior notes and \$115.0 million of 5.5% convertible senior subordinated notes. The \$41.7 million seasonal increase in notes payable to banks from March 31, 2012 to June 30, 2012 results from anticipated seasonal fluctuation to account for the current purchase and processing of African and Brazilian

tobaccos. Aggregated peak borrowings by facility occurring at anytime during the three months ended June 30, 2012 and 2011, respectively, were \$593.7 million at a weighted average interest rate of 3.9% and \$540.0 million at a weighted average interest rate of 3.0%. Aggregated peak borrowings by facility occurring at anytime during the three months ended June 30, 2012 and 2011 were repaid with cash provided by operating activities. Available credit as of June 30, 2012 was \$388.2 million comprised of \$85.0 million under our revolver, \$254.2 million of notes payable to banks, \$40.0 million of long-term foreign seasonal lines and other long-term debt and \$9.0 million of availability exclusively for letters of credit. We expect to incur approximately \$75.0 million for routine replacement of equipment as well as investment in assets that will add value to the customer or increase efficiency during fiscal 2013. No cash dividends were paid to stockholders during the quarter ended June 30, 2012 and payment of dividends is restricted under the terms of our Credit Agreement and the indenture governing our senior notes. We believe that these sources of liquidity versus our requirements will be sufficient to fund our anticipated needs for the remainder of fiscal year 2013.

Alliance One International, Inc. and Subsidiaries

LIQUIDITY AND CAPITAL RESOURCES (continued)

Debt Financing (continued)

The following table summarizes our debt financing as of June 30, 2012:

	Outstanding March 31, 2012	June 30, 2012	June 30, 2012 Lines and Letters Available	Interest Rate	
Senior secured credit facility:					
Revolver ⁽¹⁾	\$—	\$165.0	\$85.0	6.0	%
Senior notes:					
10% senior notes due 2016	615.2	616.1	—	10.0	%

	\$828.5	\$985.4			
Letters of credit	\$7.2	\$7.7	\$9.0		
Total credit available			\$388.2		

(1) As of June 30, 2012 pursuant to Section 2.1 (A) (iv) of the Credit Agreement, the full Revolving Committed Amount was available based on the calculation of the lesser of the Revolving Committed Amount and the Working Capital Amount.

(2) Weighted average rate for the three months ended June 30, 2012.

(3) Primarily foreign seasonal lines of credit

Foreign Seasonal Lines of Credit

We have typically financed our non-U.S. operations with uncommitted unsecured short-term seasonal lines of credit at the local level. These operating lines are seasonal in nature, normally extending for a term of 180 to 270 days corresponding to the tobacco crop cycle in that location. These facilities are typically uncommitted in that the lenders have the right to cease making loans and demand repayment of loans at any time. These loans are typically renewed at the outset of each tobacco season. As of June 30, 2012, we had approximately \$416.2 million drawn and outstanding on foreign seasonal lines with maximum capacity totaling \$687.1 million subject to limitations as provided for in the Credit Agreement. Additionally against these lines there was \$9.0 million available in unused letter of credit capacity with \$7.7 million issued but unfunded.

The Company also has foreign seasonal borrowings with maturity greater than one year. As of June 30, 2012, approximately \$85.5 million was drawn and outstanding with maximum capacity totaling \$125.0 million. Certain of these foreign seasonal borrowings are secured by certain of the subsidiary borrowers' accounts receivable and inventories totalling \$35.8 million and restrict the payment of dividends by the subsidiary borrower during the term of

the agreement. The Company records outstanding borrowings under its foreign seasonal revolver agreement as long-term as the Company intends to extend repayment terms to the maturity date in accordance with the agreement.

RECENT ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED:

In September 2011, the FASB issued new accounting guidance on testing goodwill for impairment. The primary objective of this accounting guidance is to reduce complexity and costs by allowing an entity to make a qualitative evaluation about the likelihood of goodwill impairment to determine whether it should calculate the fair value of a reporting unit. If, after assessing qualitative factors, an entity determines that it is not more likely than not (a likelihood of more than 50 percent) that the fair value of a reporting unit is less than its carrying amount, then the two-step goodwill impairment test is unnecessary. This accounting guidance is effective for the Company in fiscal 2013 when it performs its annual goodwill testing on January 1, 2013. The Company does not expect the impact of this new accounting guidance to have a material impact on its financial condition or results of operations.

Alliance One International, Inc. and Subsidiaries

LIQUIDITY AND CAPITAL RESOURCES (continued)

RECENT ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED: (continued)

In December 2011, the FASB issued new accounting guidance on disclosures about offsetting assets and liabilities. The requirements for offsetting are different under U.S. GAAP and IFRS. Therefore, the objective of this accounting guidance is to facilitate comparison between financials statements prepared under U.S. GAAP and IFRS by enhancing disclosures of the effect or potential effect of netting arrangements on an entity's financial position, including the effect or potential effect of rights of setoff associated with certain assets and liabilities. This accounting guidance will be effective for the Company on April 1, 2013. The Company does not expect the impact of this new accounting guidance to have a material impact on its financial condition or results of operations.

FACTORS THAT MAY AFFECT FUTURE RESULTS:

Readers are cautioned that the statements contained in this report regarding expectations of our performance or other matters that may affect our business, results of operations or financial condition are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. These statements, which are based on current expectations of future events, may be identified by use of words such as "strategy," "expects," "continues," "plans," "anticipates," "believes," "will," "estimates," "intends," "projects," "goals," "targets" and other words of similar meaning. The statements also may be identified by the fact that they do not relate strictly to historical or current facts. If underlying assumptions prove inaccurate or if known or unknown risks or uncertainties materialize, actual results could vary materially from those anticipated, estimated or projected. Some of these risks and uncertainties include changes in the timing of anticipated shipments, changes in anticipated geographic product sourcing, political instability in sourcing locations, currency and interest rate fluctuations, shifts in the global supply and demand position for our tobacco products, and the impact of regulation and litigation on our customers. A further list and description of these risks, uncertainties and other factors can be found in the "Risk Factors" section of our Annual Report on Form 10-K for the fiscal year ended March 31, 2012 and in our other filings with the Securities and Exchange Commission. We do not undertake to update any forward-looking statements that we may make from time to time.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no significant changes to our market risk since March 31, 2012. For a discussion on our exposure to market risk, refer to Part II, Item 7A "Quantitative and Qualitative Disclosures About Market Risk" contained in our Annual Report on Form 10-K for the year ended March 31, 2012.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) designed to provide reasonable assurance that the information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that this information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. It should be noted that, because of inherent limitations, our disclosure controls and procedures, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the disclosure controls and procedures are met.

In connection with the preparation of this Quarterly Report on Form 10-Q, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as required by Rule 13a-15(b) of the Exchange Act), as of June 30, 2012. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded our disclosure

controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) were effective to provide reasonable assurance as of June 30, 2012.

Changes in Internal Control Over Financial Reporting

As required by Rule 13a-15(d) under the Exchange Act, the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, have evaluated the Company's internal control over financial reporting to determine whether any changes occurred during the quarter covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company is currently implementing an ERP system using SAP applications. The implementation is part of a multi-year plan to install SAP at certain operations throughout the world to improve the Company's business processes and deliver enhanced operational and financial performance. During the three months ended June 30, 2012, further developments to the financial reporting process were implemented for operations that have previously implemented SAP. This phase of the project has involved changes to certain internal controls over financial reporting, which the Company believes were material.

Other than the financial reporting developments for the Company's operations that have previously implemented SAP discussed above there were no changes that occurred during the three months ended June 30, 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Alliance One International, Inc. and Subsidiaries

Part II. Other Information

Item 1. Legal Proceedings

In October 2001, the Directorate General for Competition (“DGCOMP”) of the European Commission (“EC”) began an administrative investigation into certain tobacco buying and selling practices alleged to have occurred within the leaf tobacco industry in some countries within the European Union, including Spain and Italy. In respect of the investigation into practices in Spain, in 2004 the EC fined the Company and its Spanish subsidiaries €4.4 million (US\$5.6 million) in the aggregate. In respect of the investigation into practices in Italy, in October 2005 the EC announced the assessment of fines against the Company and its Italian subsidiaries of €24.0 million (US\$28.8 million) in the aggregate. With respect to both the Spanish and Italian investigations, the fines imposed on the Company and its predecessors and subsidiaries were part of fines assessed on several participants in the applicable industry. The Company, along with its applicable subsidiaries, lodged several appeals against the EC decisions and these cases are currently at various stages of appeal before the European Court of Justice (the “ECJ”). On July 19, 2012, the ECJ denied the Company's appeal in joined cases C-628/10 and C-14/11 relating to a €1.8 million fine imposed by the EC on one of the Company's Spanish subsidiaries, and as to which the EC further imposed joint and several parent company liability on the Company and such subsidiary's other shareholders (being a corporate predecessor of the Company, and a current subsidiary of the Company). The outcome of the remaining appeals, relating to a second case involving a different Spanish subsidiary regarding the remainder of the above-referenced €4.4 million in fines, and the matters involving the Company and its Italian subsidiaries with respect to the above-referenced €24.0 million in fines, are uncertain as to both timing and results. A hearing before the ECJ relating to one of the appeals-pertaining to one of the Company's Italian subsidiaries which had been individually fined €3.99 million (for which the Company was held jointly liable)-has been scheduled for October 15, 2012. The Company has fully recognized the impact of each of the fines set forth above and has paid all of such fines as part of the appeal process.

Mindo, S.r.l., the purchaser in 2004 of the Company's Italian subsidiary Dimon Italia, S.r.l., has asserted claims against subsidiaries of the Company arising out of that sale transaction in an action filed before the Court of Rome on April 12, 2007. The claim, allegedly arising from a guaranty letter issued by a consolidated subsidiary of the Company in connection with the sale transaction, seeks the recovery of €7.4 million (US\$9.3 million) plus interest and costs. A hearing for the disposition of this matter was held in December 2011 and the court's ruling is pending. Due to the uncertain legal interpretation in a foreign jurisdiction and the complexity of the matter, the Company is not able to reasonably estimate the outcome.

On June 6, 2008, the Company's Brazilian subsidiary and a number of other tobacco processors were notified of a class action initiated by the ALPAG - Associação Lourenciana de Pequenos Agricultores (“Association of Small Farmers of São Lourenço”). The case is currently before the 2^d civil court of São Lourenço do Sul. On April 20, 2012, the Company's motion to dismiss the class action was granted in part and denied in part. Hearings with respect to the remaining claims, which relate to practices regarding the weighing and grading of tobacco, commenced on June 27, 2012 and are continuing. The Company believes the remaining claims in the action to be without merit and is vigorously defending the action. Due to the broad scope of the pleading, the ultimate exposure if an unfavorable outcome is received is not estimable.

The Company has been named as one of several defendants in *Hupan, et al. v. Alliance One International, Inc., et al.*, and *Chalanuk, et al. v. Alliance One International, Inc., et al.*, which are distinct but related lawsuits respectively filed in New Castle County, Delaware state court on February 14, 2012 and April 5, 2012. The lawsuits were brought by approximately 130 individuals claiming to be tobacco farmers and their family members, all residing in Misiones Province, Argentina. The complaints seek compensatory and punitive damages from the Company and other multinational defendants under U.S. and Argentine law for alleged injuries, including birth defects, purportedly caused by exposure to agricultural chemicals in connection with the production and cultivation of tobacco. The Company has not yet filed answers or other responsive pleadings in these actions, as to which the time for filing has been extended. Based on its preliminary investigation, the Company believes the claims against it to be without merit and intends to vigorously defend against them. Because the Company has only recently been named in the lawsuits,

the ultimate exposure if an unfavorable outcome is received is not estimable.
