CHINA WIRELESS COMMUNICATIONS, INC.

NOTES TO AND FORMING PART OF THE CONDENSED FINANCIAL STATEMENTS (UNAUDITED)  
Six Months Ended June 30, 2004

1. BASIS OF PRESENTATION

The accompanying financial data as of June 30, 2004 and for the three months and six months ended June 30, 2004 have been prepared by China Wireless Communications, Inc. (the "Company"), without audit. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. However, the Company believes that the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the financial statements and the notes thereto of the Company, included in the Company's filings on form 10-KSB for the fiscal year ended December 31, 2003.

In the opinion of the management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows of the Company have been made. The results of operations for the six months ended June 30, 2004 are not necessarily indicative of the operating results for the full year.

Prior to April 1, 2004, the Company's planned principal operations were underway but had not yet generated any significant revenue. Accordingly, the Company's financial statements for all periods prior to April 1, 2004 were presented as a development stage enterprise, as prescribed by Statement of Financial Accounting Standards No. 7,

## Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

"Accounting and Reporting by Development Stage Enterprises." In the second quarter of fiscal year 2004, the Company has started to generate a fair amount of revenue during the quarter. As a result, the Company exited the development stage in the quarter ended June 30, 2004.

### 2. CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of our financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. In applying our accounting principles, we must often make individual estimates and assumptions regarding expected outcomes or uncertainties. As you might expect, the actual results or outcomes are generally different than the estimated or assumed results or outcomes. These differences are usually minor (but they could be material) and are included in our consolidated financial statements as soon as they are known. Our estimates, judgments and assumptions are continually evaluated based on available information and experience. Because of the use of estimates inherent in the financial reporting process, actual results could differ materially from those estimates.

### 3. FOREIGN CURRENCIES

Balance Sheet transactions in foreign currencies are translated at the rates of exchange on the date of the Balance Sheet. Income Statement transactions in foreign currencies are translated at the average rates of exchange for the reporting period. Exchange gains and losses are recorded in the statement of operations.

Page 7 of 17

CHINA WIRELESS COMMUNICATIONS, INC.

NOTES TO AND FORMING PART OF THE CONDENSED FINANCIAL STATEMENTS (UNAUDITED)  
Six Months Ended June 30, 2004

=====

### 4. PREPARATION OF FINANCIAL STATEMENTS

The Company has incurred losses of US\$7,858,249 since inception, which raise substantial doubt about the Company's ability to continue as a going concern. The continuation of the Company as a going concern is dependent upon the successful implementation of its business plan and ultimately achieving profitable operations. However, there can be no assurance that the business plan will be successfully implemented. The inability of the Company to implement the business plan successfully could adversely impact the Company's business and prospects. Details of the plans of operations of the Company are set out in Item 2 of this Form 10-QSB under the heading "Plan of Operation".

### 5. LOSS PER COMMON STOCK

## Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

Weighted average number of shares of common stock outstanding used in the calculation of basic loss per share for the six months ended June 30, 2004 and three month ended June 30, 2004 are 29,125,034 shares and 31,305,143 shares respectively.

As of June 30, 2004, 2,891,122 shares in total could be issued pursuant to the convertible debts, stock warrants and stock options of the Company. No diluted loss per share is presented because their effects would be anti-dilutive.

### 6. STOCK-BASED COMPENSATION

The Company records compensation expense for stock-based employee compensation plans using the intrinsic value method in which compensation expense, if any, is measured as the excess of the market price of the stock over the exercise price of the award on the measurement date.

As the exercise prices of the Company's stock options are either the same as or approximate to the market prices of the underlying stock on the grant dates, no compensation expense has been recognized for the stock options.

Had compensation expenses for the same stock options been determined based on their fair values at the dates of grant and been amortized over the period from the date of grant to the date that the award is vested, consistent with the provisions of SFAS No. 123, the Company's net loss and loss per share would have been reported as follows:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

FORWARD-LOOKING STATEMENTS

Included in this report are various forward-looking statements, which can be identified by the use of forward looking terminology such as "may", "will," "expect," "anticipate," "estimate," "continue," "believe," or similar words. We have made forward-looking statements with respect to the following, among others: our goals and strategies; our expectations related to growth of our broadband internet, content and wireless access and transport in China and the performance under our agreements; our ability to obtain and operate licenses and permits to operate in China; our ability to earn sufficient revenues in China; the importance and expected growth of satellite communications, broadband internet, content and wireless access and transport in China and the demand for these services in China; our ability to continue as a going concern; and our future performance and our results of operations. These statements are forward looking and reflect our current expectations. We are subject to a number of risks and uncertainties, including but not limited to, changes in the economic and political environments in China, economic and political uncertainties affecting the capital markets, changes in technology, changes in satellite communications, broadband internet, content and wireless access and transport in the marketplace in China, competitive factors and other risks described in our annual report on Form 10-KSB which has been filed with the United States Securities and Exchange Commission. In light of the many risks and uncertainties surrounding the Company, China, and the satellite communications, broadband internet, content and wireless access and the transport marketplace in China, you should keep in mind that we cannot guarantee that the forward-looking statements described in this report will transpire and you should not place undue reliance on forward-looking statements.

OVERVIEW

On March 22, 2003, I-Track Inc., a company quoted on the primary exchange of the US OTC ("Over the Counter Bulletin Board") acquired Strategic Communications Partners, Inc., a Wyoming corporation ("SCP"), through a Share Exchange Agreement, resulting in the shareholders and management of SCP having actual and effective control of I-Track Inc. On March 24, 2003, I-Track Inc. changed its name to China Wireless Communications, Inc ("CWC") to better reflect the business activities of the Company.

We are a facilities-based provider of broadband data, video and voice communications services to customers that are not served by existing landline based fiber networks. We typically deliver our services over fixed wireless networks that we design, construct, own and operate. Over this infrastructure, we offer ultra high-speed Internet access, and other broadband data services. Other value added services being offered by us include systems integration and

## Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

other telecom services.

STRATEGIC COMMUNICATIONS PARTNERS, INC.

SCP was incorporated in the State of Wyoming on August 13, 2002 and is a wholly owned subsidiary of CWC. It provides financial, technical, and marketing services for its operation in Beijing, People's Republic of China ("PRC"). Strategic Communications Partners Limited ("SCPL") is a subsidiary of SCP. SCPL was incorporated in Hong Kong on December 9, 2002. SCP's and SCPL's operations to date consist solely of supporting the Beijing operations.

Page 10 of 17

CHINA WIRELESS COMMUNICATIONS, INC.

BEIJING IN-TOUCH INFORMATION SYSTEM COMPANY LIMITED

On March 4, 2003, SCP set up a wholly owned foreign enterprise, Beijing In-Touch Information System Co. Ltd ("In-Touch") in the PRC. In-Touch has commenced operations in Beijing, through cooperation agreements with local telecommunications operators.

In-Touch deployed a high speed broadband fiber network as the backbone to construct its fixed wireless broadband network system in Beijing, starting in December, 2003. That company is now selling its services over that network. This network will make available 2.5 Gbps of capacity on a fiber network that surrounds the 66 kilometer-long fourth ring road in Beijing. The new additional capacity will support over 100,000 business-class broadband business customers on its Beijing network.

The first phase of the fixed wireless broadband network system in Beijing was completed April 2004, at which time In-Touch began full-service operations. In-Touch will be providing high speed wireless services, Virtual Private Network's and other wireless access, transport and enhanced data services.

We continue to build innovative partnership and acquisition strategies to maximize the coverage of our network in Beijing. We plan to replicate our Beijing model in other strategic cities in China during late 2004 and 2005.

As of June 30, 2004, we have three employees, all of whom are full-time in the United States. As of June 30, 2004, SCPL has no full-time employees in Hong Kong and In-Touch has 62 full-time employees all of whom are located in Beijing. None of our employees is covered by a collective bargaining agreement.

BEIJING PAN-ASIA INNOVATIVE SCIENCE AND TECHNOLOGY COMPANY LIMITED

The Company has purchased the 100% interest in Beijing Pan-Asia Innovative Science and Technology Company Limited ("Pan-Asia") in the late 2003 to extend its operations and the cost of investment was Rmb40,000. Pan-Asia has commenced operations in Beijing in the 2nd quarter of 2004. The principal activity of Pan-Asia is trading of telecommunication-related products.

ALLIANCES AND PARTNERSHIPS

We are in the midst of developing a technologically advanced wireless network to serve areas of business concentration in Beijing, China. In order to effectively deploy the broadband wireless network, we need to partner with companies whose business and products are complimentary to those of the Company. However, there is no guarantee that we can find suitable partner and we will be able to come to

## Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

mutually agreeable terms if suitable partner could be found.

On August 14, 2003, we signed a cooperative agreement with P-Com, Inc. ("P-Com") to develop a broadband wireless network within China. P-Com will provide equipment and support for their line of wireless products to assist us in building a wireless broadband network in China. We will use our marketing resources and sales platform to recommend and popularize the products of P-Com.

On August 15, 2003, we signed a contract with MCI International Ltd. Co. ("MCI"). This contract permits us to extend the reach of our Broadband Wireless Access Network in Beijing, China. We will be adding MCI International ATM asynchronous transport mode services to reach North America, South Pacific, Asian and European markets to our existing suite of broadband product and service offerings.

Page 11 of 17

CHINA WIRELESS COMMUNICATIONS, INC.

Alliances and partnerships with Tier One Telecom Carriers are critical to our growth strategy. We believe current broadband access providers in China are searching for economically viable ways to connect more end users to their backbones and to direct more traffic to their underutilized networks. We provide services meeting this growing demand. Over the last few months we have entered into agreement with China Netcom Group Beijing Company to cooperate in building out a network to serve its customers. We expect this and other such partnerships to help us enter and develop in China's highly regulated telecom sector successfully as a foreign invested enterprise. There are however, no guarantees that these partnerships will be successful.

### CHINESE TAX HOLIDAY

In-Touch is registered in the Beijing Zhong Guan Cun High Tech Park and also recognized as a High Tech company. In-Touch will receive a tax holiday from 2003 to 2005 followed by a 50% reduction for the next three years.

Pan-Asia is registered in the Beijing Zhong Guan Cun High Tech Park and also recognized as a High Tech company. Pan-Asia is now applying the preferential tax treatment of tax holiday and reduction of tax rate.

Page 12 of 17

## Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

CHINA WIRELESS COMMUNICATIONS, INC

RESULTS OF OPERATIONS. During the second quarter of 2004, CWC continued its work of expanding its network in Beijing and reviewing the opportunities in the local market. CWC has also put a great deal of effort into establishing and testing a variety of equipment to provide its services from different vendors in Beijing, China. Service revenues in the second quarter of 2004 soared to \$94,567, an increase of over 270 percent from first quarter 2004. This explosive growth is a direct result from China Wireless effectively bringing more customers and services onto the Beijing broadband network. Revenues generated from inception to June 30, 2004 total \$155,256.

Operational expenses totaled \$2,778,113 and \$3,329,338 for the three months and six months ended June 30, 2004 respectively. Of this amount, \$2,446,283 and \$2,812,783, respectively, are costs recorded for common stock issued for compensation for these same periods. Our focus is three fold: (a) raising capital, (b) providing and establishing long-term relationships with equipment providers, and (c) finalizing operational procedures for the Beijing office.

In comparison, operational expenses for the three months and six months ended June 30, 2003 were \$475,976 and \$1,779,102 respectively. Of this amount, \$113,000 and \$1,022,900 were recorded for common stock issued for compensation for these same periods. The increase in operational expenses is due primarily to high consulting expenses and commissions.

LIQUIDITY AND CAPITAL RESOURCES. For the six-month period ended June 30, 2004, CWC used cash of \$205,279 for operating activities, decreased 64% compared to six month ended June 30, 2003. The decrease is due mainly to decreases in legal fees and accounting agency expenses. The most significant adjustment to reconcile the net loss to net cash used in operations was common stock issued as compensation amounting to \$2,812,783, whereas \$1,022,900 in six-month period ended June 30, 2003. Investing activities also used cash of \$117,366 and \$162,963 during six-month period ended June 30, 2004 and 2003, The Company has \$263,423 of cash and cash equivalent and pledged deposits of \$1,381 at June 30, 2004.

As reflected in the statement of cash flows, the Company is still dependent upon issuance of its common stock for cash utilized in its operations. For the six months ended June 30, 2004, net proceeds from the issuance of common stock provided cash of \$661,702.

At June 30, 2004, the Company had a working capital deficit of \$641,165, as compared to a deficit of \$693,279 at December 31, 2003.

Page 13 of 17

CHINA WIRELESS COMMUNICATIONS, INC.

### PLAN OF OPERATION

We have been focusing our efforts on finishing the design and construction of our Fixed Wireless Broadband Network System in Beijing. This system successfully opened and commence operations in the second quarter of 2004. We will focus our primary marketing efforts on providing high-speed Internet access, VOIP, VPN private circuit, International leased line, and other broadband services to our clients. We are also in the midst of building partnership(s) with major telecom carriers of China. To connect more users to their backbone networks, we believe the carriers have motivation to cooperate with us in providing the high-speed wireless services to their customers on a revenue sharing basis. Following entering into the cooperative agreement with China Netcom Beijing Company on September 1, 2003, we are in the process of reviewing a similar arrangement with

## Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

another Tier One Carrier. However, there is no guarantee that we will enter into such agreement and no guarantee that the terms will be favorable to us.

During 2004 we will develop Beijing, providing additional infrastructure which will allow us to expand our geographical coverage in Beijing. Using this same model, we plan to replicate our wireless broadband network in a dozen selected major metropolitan areas in the PRC. In each city, we will deploy multi-advanced technologies, including MSTP, ATM/IP, broadband wireless, soft switch, to provide high-speed Internet access, VOIP, Virtual Private Network, private circuit, International leased line and other value added services. We plan to expand Network Systems beyond Beijing starting in late 2004 and 2005. Our ability to do this will be primarily limited by our ability to raise capital. There is no guarantee that we will be successful in raising funds or if we do raise funds it will be at terms more favorable to us.

We have positioned ourselves as a high quality service provider, offering network reliability complemented with quality customer support. We are setting up a call center to accommodate queries and to provide a quick response to any queries from customers. We will focus our effort on customer satisfaction by attracting and retaining a core team of professionals.

The continuation of us as a going concern is dependent upon the successful implementation of our business plan, raising capital, and ultimately achieving profitable operations. However, there can be no assurance that the business plan will be successfully implemented. The inability of us to implement the business plan successfully could adversely impact our business and prospects.

We plan currently to increase our staffing levels only as required by our operations.

### ITEM 3. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer / Chief Financial Officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-14(c) promulgated under the Securities Exchange Act of 1934 as of June 30, 2004. Based on his evaluation, our Chief Executive Officer / Chief Financial Officer concluded that the design and operation of our disclosure controls and procedures were effective as of the date of the evaluation.

There have been no significant changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation referenced in the preceding paragraph.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings

Not Applicable.

### Item 2. Changes in Securities

In the Second quarter of 2004, we raised \$224,134, selling 898,000 shares of our common stock. The principal underwriter was Bellador Advisory Services Ltd.

## Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB

("Bellador"), a Malaysian-based international business company and the securities were sold under Regulation S promulgated under the Securities Act. The total offering price of these securities was \$498,420, less \$274,286 in underwriting discounts and commissions. The Agreement signed with Bellador, provides that the Company is to receive a price equivalent to 45% of the market price, that its common stock trades, all as defined in our agreement with Bellador. Bellador further has an agreement with each investor, that the stock must be held for one year, before its Regulation S restriction is removed.

In addition, we raised \$120,000, selling 522,224 shares of our common stock and three-year warrants to purchase 261,112 shares of common stock at \$0.50 per share to four investors, pursuant to the exemption from registration contained in Section 4(20) of the Securities Act of 1933. No underwriters were involved in this private placement. The investors were deemed to be sophisticated with respect to an investment in our securities as they consisted of one management-level employee and three existing investors.

### Item 3. Defaults Upon Senior Securities

Not Applicable.

### Item 4. Submission of Matters to a Vote of Security Holders

Not Applicable.

### Item 5. Other Information

Not Applicable
