## Press Release

Acceleration of organic revenue growth during the fiscal year resulted primarily from:

Development in Healthcare and Seniors (+ 8.1%),  
Progress in Business & Industry (+ 6.4%), and  
Strong growth in Service Vouchers and Cards (+ 15.9%).

In Education, the modest growth reflects the Group's selectivity in public sector markets (+ 3.7%).

Michel Landel, Chief Executive Officer of Sodexho, said: *During Fiscal 2006, we have continued to implement our strategy. Our client retention rate continued to improve, reaching 93.9%. Comparable unit sales growth on existing sites exceeded 3% and our development rate of new contracts awarded during the fiscal year was above 9%.*

*The Group is currently closing and auditing its accounts for Fiscal 2006 in IFRS. These accounts will be published on November 16. Growth in our operating profit should be consistent with, if not slightly above, our objective of + 6%.*

*This performance gives us confidence in our medium term objective to achieve average annual organic revenue growth of 7%.*

### Organic growth revenue analysis

(See table in Annex 2 and a selection of new clients in Annex 3)

#### § **Food and Facilities Management Services**

In **North America**, revenue reached 5.5 billion euros, with organic growth gaining 0.6% to reach 5.0% for the full fiscal year.

Revenue in Business & Industry increased for the first time in three years. The 2.4% growth resulted, in particular, from improved client retention and from the development of sales on existing sites, including in leisure activities, such as the Houston Space Center, and also from increased demand for catering services.

The solid growth in Healthcare and Seniors (+ 7.2%) was driven by:

The ramp-up of significant contracts signed last year, notably those concluded with New York City and with the Hermann Memorial (Texas),

New contracts in Facilities Management, representing two thirds of the sales development over the year. Included among Sodexho's new clients are the Mount Clemens General Hospital (Michigan) and the North East Medical Center (Texas),

Robust development of sales on existing sites.

Education was up 4.7% compared to the prior year, despite:

§ the negative impact of hurricanes during the first months of the fiscal year, and

§ the effect of contracts that were not renewed with certain public schools at the end of Fiscal 2005, a result of Sodexho's non-acceptance of price reductions to a level that would have prevented the Group from maintaining its quality standards.

## Press Release

In Universities, the revenue growth on existing sites benefitted from good summer camp activity in the last months of the fiscal year as well as from continued development in Facilities Management, such as Ohio Northern University where the foodservice contract was extended to facilities management.

In **Continental Europe**, revenue reached 4.1 billion euros and internal growth improved to 5.2% compared to 4.0% in Fiscal 2005.

In Business & Industry, the revenue increase (+ 5.3%) resulted from three main factors:

- new contract awards across the continent,
- positive development of leisure activities in France, as highlighted by the signature of a master agreement with the Pierre & Vacances Group, and by the foodservice concession at the chateau of Vaux-le-Vicomte in the fourth quarter,
- the progressive start-up of services in two new correctional facilities under public- private partnership arrangements in France.

In Healthcare and Seniors, robust organic growth (+7.7%) resulted from the highly effective Fiscal 2005 new sales efforts and from continuing extension of the Group's service offerings. Recent new contracts awarded to Sodexho include both a hospital and the public schools of Saint-Malo.

Slower growth in Education (+1.4%) reflects Sodexho's continued selective approach, particularly in public sector markets.

In the **United Kingdom and Ireland**, revenue rose to 1.4 billion euros. For the first time in three years, and in line with the Group's plans, Sodexho returned to growth, recording an increase of +4.8% compared to -2.6% in Fiscal 2005.

This progress results primarily from new contracts won in Healthcare, Correctional Facilities and Defense, segments where revenues include a significant facilities management component. The summer months were strong in leisure and hospitality, for example at the Chelsea Flower Show and the Ascot races.

Action plans are in place to continue to further improve client retention rates.

In the **Rest of the World**, revenue was 1.4 billion euros. Organic growth of 16.1%, was primarily driven by:

- double-digit development in Latin America, in Asia and in Australia,
- a robust level of activity in Remote Sites, given the strength of raw material prices,
- the start-up of operations in Correctional Facilities in Chile.

The Group also continued to rapidly expand its activities in mainland China and in India.

## Press Release

### Service Vouchers and Cards

Revenues increased to 373 million euros, with organic growth improving from 13.2% to 15.9% . The issue volume (or face value multiplied by the number of service vouchers and cards issued) was 6.3 billion euros, up 13.8% (at constant consolidation scope and exchange rates).

Demand for traditional services (Restaurant Pass and Food Pass) remained very strong in Latin America where growth exceeded 20% over the past 12 months.

During Fiscal 2006, the Group increased its penetration in Europe with the launch of new services such as Childcare Pass in the United Kingdom, the Sport and Culture Pass in Belgium or the Childcare Pass in Spain.
