Dr. Reddy's confirms that Eli Lilly dismissed Willful Infringement Claim in Olanzapine

Hyderabad, India, August 21, 2003:

Dr. Reddy's Laboratories (NYSE:RDY) confirmed today that in response to Dr. Reddy's motion for summary judgment on the willful infringement claim in the Olanzapine patent challenge, Eli Lilly and Company has agreed to dismiss with prejudice its claim of willful infringement. In addition, Dr. Reddy's has agreed to dismiss certain defenses or counterclaims related to the patent statute, 35 U.S.C. 112, including specific defenses related to enablement and indefiniteness.

The trial over the validity of Eli Lilly's compound patent is set to begin on January 26, 2004 in the United States District Court for the Southern District of Indiana. In 2001, Dr. Reddy's filed an Abbreviated New Drug Application (ANDA) for Olanzapine tablets 5, 10, 15 and 20 mg dosage strengths. Dr. Reddy's believes it has first to file status on the 20 mg dosage strength.

Olanzapine is the generic version of Eli Lilly's Zyprexa® and is indicated for the management of the manifestation of psychotic disorders. The brand has annual sales in the United States of approximately \$2.8 billion. (Source: IMS 2002)

About Dr Reddy's

Established in 1984, Dr. Reddy's Laboratories (NYSE: RDY) is an emerging global pharmaceutical company with proven research capabilities. The Company is vertically integrated with a presence across the pharmaceutical value chain. It produces finished dosage forms, active pharmaceutical ingredients and biotechnology products and markets them globally, with focus on India, US, Europe and Russia. The Company conducts research in the areas of cancer, diabetes, cardiovascular, inflammation and bacterial infection.

This press release includes forward-looking statements, as defined in the U.S. Private Securities Litigation Reform Act of 1995. We have based these forward-looking statements on our current expectations and projections about future events. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results to differ materially. Such
