CANARGO ENERGY CORPORATION

Subscription Rights to Purchase 242,107,390 Shares of Common Stock at \$0.10 per Full Share

We are distributing at no charge to the holders of our common stock transferable subscription rights (Rights) to purchase an aggregate of 242,107,390 shares of our common stock. Each Right entitles the subscription rights holder to purchase one (1) share of our common stock at the subscription price of \$0.10 per full share. Fractional shares of our common stock will not be issued in this rights offering.

The aggregate purchase price of shares offered in this rights offering is expected to be approximately \$24.2 million. Only stockholders of record as of 5:00 p.m., U.S. Eastern time (11:00 p.m. Central European Time), on October 2, 2008, which is the record date for this rights offering, will be entitled to receive Rights. See the Rights Offering beginning on page 30.

The eight Standby Underwriters listed in the table in the Standby Underwriting and Plan of Distribution section below (collectively, the Standby Underwriters), have severally agreed to underwrite the unsubscribed for shares (the Unsubscribed Shares) in their respective pro rata portions of their respective underwriting commitments at the subscription price for up to 242,000,000 of such shares in aggregate. See Standby Underwriting and Plan of Distribution beginning on page 44.

The Rights will expire if they are not exercised by 4:00 p.m., U.S. Eastern time, on October 24, 2008 with respect to Rights held by U.S. holders and 5:30 p.m. Central European Time on October 14, 2008 with respect to Rights held in the VPS System (as defined herein), which are the respective expiration dates of the Rights Offering in the U.S. and in Norway. We have the option to extend this rights offering and the period for exercising your Rights for any reason, subject to the receipt of the prior consent of the Standby Underwriters if the rights offering is extended beyond four weeks in length, including if we determine that changes in the market price of our common stock warrant an extension or if we decide to give investors more time to exercise their Rights in this rights offering, although we do not presently intend to do so. All exercises of Rights are irrevocable. ***After the Expiration Time, the Rights will no longer be exercisable and will have no value.***

You should carefully consider whether or not to exercise, sell or let lapse your Rights and in doing so you should consider all of the information about us and this rights offering contained or incorporated by reference in this prospectus, including the risk factors set forth or incorporated herein. We are not making any recommendations as to whether or not you should exercise, sell or let lapse your Rights.

Our common stock is traded on The American Stock Exchange (AMEX) and the Oslo Stock Exchange (OSE) under the symbol CNR . The last reported sale price of our common stock on the American Stock Exchange Composite Transactions Tape on September 30, 2008 was \$0.14 per share and on the OSE was Norwegian kroner (NOK) 0.72. On September 30, 2008, one U.S. dollar equaled NOK 5.7435 as reported on www.oanda.com. All references herein to \$ refer to United States dollars.

We have been advised by the AMEX and the OSE that the Rights will be traded on the AMEX under the symbol CNR.RT (CNR.RT.WI until the first business day after the distribution date) and on the OSE under the symbol CNR T , respectively, beginning on October 6, 2008 on the AMEX, the commencement date of this rights offering, and on October 7, 2008 on the OSE, until 5:00 p.m. U.S. Eastern time (11:00 p.m. Central European Time), on October 23, 2008, the last business day prior to the scheduled October 24, 2008 U.S. expiration date of this rights offering, and 5:30 p.m. (Central European Time) on October 14, 2008, the scheduled Norwegian expiration date. We cannot predict if an active trading market for the Rights will develop or the price at which such Rights may be purchased or sold.

See Risk Factors beginning on page 12 to read about the risks you should consider carefully before exercising any Rights and buying shares of our common stock.

We have engaged Glitnir Securities AS (Glitnir) to act as manager and Norwegian subscription agent in connection with this rights offering. This prospectus will be used by the Standby Underwriters to sell Unsubscribed Shares (as defined below) in connection with the standby underwriting arrangements agreed to with us. Prior to and after the Expiration Time, the Standby Underwriters may only offer common stock acquired pursuant to the standby arrangements directly to the public located outside the United States and who are not U.S. Persons (as each is defined in Regulation S promulgated under the United States Securities Act of 1933, as amended (the Securities Act)) at prices set from time to time by the Standby Underwriters. Each such price when set will not exceed the highest price at which a dealer not participating in the distribution is then offering shares of common stock to other dealers plus the amount of any concession to dealers, and an offering price on any calendar day will not be increased more than once during such day. In effecting such transactions, the Standby Underwriters may realize profits or losses independent of the compensation referred to under Standby Underwriting and Plan of Distribution. The Standby Underwriters may also make sales to dealers outside the United States at prices that represent concessions from the prices at which such shares are then being offered to the public. The amount of such concessions will be determined from time to time by the Standby Underwriters. Any common stock so offered is offered subject to prior sale, when, as and if received by the Standby Underwriters, and subject to its right to reject orders in whole or in part, and any commissions received by the Standby Underwriters and any profit on the resale of the common stock purchased by the Standby Underwriters may be deemed underwriting commissions or discounts under the Securities Act. The Standby Underwriters and any dealers participating in the offer and sale of the shares will be subject to the prospectus delivery requirements of the Securities Act. The common stock may be offered and sold by the Standby Underwriters in one or more transactions through the facilities of the OSE on which the shares are then listed for trading or in negotiated transactions or a combination of these and other methods of sale. Until the expiration of the 40-day period beginning from the date hereof, an offer to sell or a sale of the Rights or the Underlying Shares (as defined below) within the United States by a broker/dealer may violate the registration requirements of the Securities Act if such offer to sell or sale is made otherwise than pursuant to the foregoing. See Standby Underwriting and Plan of Distribution beginning on page 44.

Neither the Securities and Exchange Commission nor any state securities regulators have approved or disapproved these securities, or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

- (1) The commissions will be paid to the Standby Underwriters whether or not the Rights Offering is completed. The Standby Underwriters are entitled to receive, in the aggregate, a commission equal to 7% of the aggregate Subscription Price in respect of all of the 242,000,000 shares of the Rights Offering that are being underwritten by the Standby Underwriters, and each Standby Underwriter has a conditional right to elect to receive his or its commission in shares of common stock in lieu of cash; provided, however, that if a Standby Underwriter is an existing shareholder, he or it will only receive a commission for his or its part of the underwritten amount that exceeds the pro rata amount of shares that he or it would receive pursuant to an exercise of his or its Rights.
- (2) Calculated on the basis of a maximum of 242,000,000 underwritten Shares, instead of 242,107,390 shares issuable upon exercise in full of the Rights Offering by existing shareholders, and without giving effect to any reduction to a commission otherwise payable to a Standby Underwriter who is an existing shareholder on account of his or its pro rata amount of shares that he or it would receive pursuant to the exercise of his or its Rights. Assumes that all underwriting commissions are paid in cash and that no Standby Underwriter exercises his or its election to receive commissions in shares of common stock in lieu of cash.
- (3) After underwriters' commissions but before other expenses of the Rights Offering.

Investors agree to the foregoing by accepting delivery of this prospectus. Prospective holders of the Rights and prospective subscribers for the Offered Shares should make an independent assessment as to whether the information in this prospectus is relevant, and any acquisition or exercise of the Rights and any subscription for the Offered Shares should be based on the examinations that the holder or subscriber in question may deem necessary. In addition to their own examination of the Company and the terms of the Offering, including the merits and risks involved, investors should rely only on the information contained in this prospectus, including the risk factors described herein, and any notices required under any orders, rules or regulations issued by any Norwegian securities regulators on issuers' duties to disclose information, and the rules of the Oslo Børs, that are published by the Company and that expressly amend this prospectus or which are filed with the United States Securities and Exchange Commission and are incorporated by reference herein.

Potential acquirers of Rights and subscribers of Offered Shares shall comply with all applicable laws and provisions in countries or regions in which they acquire, subscribe, offer, sell or exercise the Rights or the Offered Shares or possess or distribute this prospectus and shall obtain consent, approval or permission, as required, for the acquisition of the Rights or subscription for the Offered Shares.

Notice to Investors in the European Economic Area

In relation to each Member State of the European Economic Area (each a Relevant Member State) which has implemented the EU Directive 2003/71 (together with all current implementing measures in the individual Member States, the Prospectus Directive), not including Norway, no offering of Rights and Offer Shares to the public will be made in any Relevant Member State prior to the publication of a prospectus concerning the Rights and the Offered Shares, which has been approved by the competent authority in such Relevant Member State or, where relevant, approved in another Relevant Member State and notified to the competent authority in such Relevant Member State, all pursuant to the Prospectus Directive, except that with effect from and including the date of implementation of the Prospectus Directive in such Relevant Member State, an offering of Rights and Offered Shares may be made to the public at any time in such Relevant Member State:

to legal entities that are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

to any legal entity fulfilling at least two of the following conditions: (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43 million; and (3) an annual net revenue of more than 50 million, as shown in its last annual or consolidated accounts;

to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the Standby Underwriters, for any such offer; or

in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of Offered Shares shall result in a requirement for the publication by the Company or the Standby Underwriters of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of the above, the expression an offer of Rights and Offered Shares to the public in relation to Rights and Offered Shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the Offering, the Rights and Offered Shares so as to enable an investor to decide to exercise or acquire Rights or subscribe for Offered Shares, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State.

Notice Concerning Canada, Australia and Japan

This prospectus may not be distributed or otherwise made available, the Offered Shares may not be directly or indirectly offered, sold or subscribed, and the Rights may not be directly or indirectly offered, sold, acquired or exercised in Canada, Australia or Japan, unless such distribution, offering, sale, acquisition, exercise or subscription is permitted under applicable laws of the relevant jurisdiction, and the Company and the Standby Underwriters receive satisfactory documentation to that effect. Due to such restrictions under applicable legislation and regulations, the Company expects that certain investors residing in Canada, Australia, Japan and other jurisdictions may not be able to receive this prospectus and may not be able to exercise their Rights or subscribe for the Offered Shares. No offering and no solicitation to any person is being made by the Company in any circumstances that would be unlawful.

Presentation of Financial and Certain Other Information

Our audited financial statements as at December 31, 2006 and 2007 and for each of the three years in the three year period ending December 31, 2007 incorporated by reference in this prospectus from our Annual Report on Form 10-K for the fiscal year ended December 31, 2007, as amended, have been prepared in accordance with generally accepted U.S. accounting principles (GAAP), which differs in certain respects from International Financial Reporting Standards as adopted by the EU and the additional Norwegian disclosure requirements for financial statements of listed companies. Financial information set forth in such financial statements and associated schedules has been rounded. Accordingly, in certain instances, the sum of the numbers in a column or row may not conform exactly to the total figure given for that column or row. In addition, certain percentages presented in such information reflect calculations based upon the underlying information prior to rounding and, accordingly, may not conform exactly to the percentages that would be derived if the relevant calculations were based upon the rounded numbers.

In this prospectus all references to Kroner , kroner , or NOK are to the currency of the Kingdom of Norway, all references to U.S. dollars , U.S. Dollars , US\$, USD , or \$ are to the currency of the U.S., all references to pound , pounds sterling , UK £ or £ are to the currency of the United Kingdom and all references to Euro , euro and currency introduced from the start of the third stage of the European Economic and Monetary Union pursuant to the Treaty establishing the European Community, as amended. References to U.S. Eastern time and to CET refer to local time on the east coast of the United States and local Central European Time, respectively. References to the VPS System refer to the securities clearance and registration system maintained by the Norwegian Central Securities Depository and DNB NOR bank.

Enforceability of Judgments

The Company is organized under the laws of the State of Delaware in the United States, with our domicile in the municipality of Dover, County of Kent, State of Delaware. All of the members of our Board of Directors and Executive Management and certain of the experts named herein are residents of British Isles or other jurisdictions

outside the U.S. All of our assets as well as the assets of such non-resident persons are located in jurisdictions outside the U.S.

As a result, it may not be possible for investors to effect service of process upon such persons or us with respect to litigation that may arise under U.S. federal securities law or to enforce against them or us judgments

obtained in U.S. courts, whether or not such judgments were made pursuant to civil liability provisions of the federal or state securities laws of the U.S. or any other laws of the U.S. We have been advised by our Norwegian counsel that there is not currently a treaty between the U.S. and Norway providing for reciprocal recognition and enforceability of judgments rendered in connection with civil and commercial disputes and accordingly that a final judgment rendered by a U.S. court based on civil liability would not be enforceable in Norway. Considerable uncertainty exists whether Norwegian courts would allow actions to be predicated on the securities laws of the U.S. or other jurisdictions outside Norway.

Foreign Currency Presentation

We publish our financial statements in United States Dollars. Certain financial information included in this prospectus contains conversions of certain Dollar amounts into Kroner amounts, Pounds Sterling and into Euros at specified rates. These conversions should not be construed as representations that the Dollar amounts actually represent such Kroner, Pound or Euro amounts or could be converted into Kroner, Pounds or Euros at the rates indicated or at any other rate. In addition, certain additional information herein has been presented in U.S. dollars. The conversions in our financial statements of financial information into other currencies have been made using the rates disclosed therein. Unless otherwise indicated, conversions of financial information have been made using the foreign exchange reference rates set forth on the cover page of this prospectus.

Independent Auditors

Our audited consolidated financial statements as at December 31, 2006 and 2007 and for each of the three years in the three year period ending December 31, 2007 included herein by reference have been reported upon by LJ Soldingier Associates LLC, independent registered public accountants.

Financial Calendar

We are subject to the periodic reporting requirements and other disclosure requirements of the U.S. Securities Exchange Act of 1934, as amended (Exchange Act), and, accordingly, as an accelerated filer (as defined in the Exchange Act) we are required to file an Annual Report on Form 10-K with the SEC within 75 days after the end of each fiscal year, which report includes audited consolidated financial statements among other matters. In addition, we file interim Quarterly Reports on Form 10-Q containing unaudited interim financial information as well as other required information with the SEC within 40 days after the end of each of the first three fiscal quarters ended March 31, June 30 and September 30 in each year. Finally, in connection with the solicitation of proxies for our Annual General Meetings we are required to file proxy materials with the SEC.

The described guaranteed delivery procedures will not be applicable for foreign registered stockholders or stockholders holding shares through the

VPS System. See The Rights Offering Exercise of Rights by Rights Holders.

If you hold shares of our common stock through a broker, custodian bank or other nominee, we will ask your broker, custodian bank or other nominee to notify you of this Rights Offering. If you wish to sell or exercise your Rights, you will need to have your broker, custodian bank or other nominee act for you. If you are a U.S. stockholder to exercise your Rights, you should complete and return to your broker, custodian bank or other nominee the form entitled **Beneficial Owner Election Form** such that it will be received by 5:00 p.m., U.S. Eastern time, on October 23, 2008, the last business day prior to the U.S. Expiration Time of this Rights Offering. You should receive this form or similar form from your broker, custodian bank or other nominee with the other Rights Offering materials. You should contact your broker, custodian bank or other nominee if you do not receive this form. See **The Rights Offering** **Beneficial Owners**.

If you are a foreign registered stockholder or hold your shares in the VPS System, see **Foreign and Other Stockholders** below and **The Rights Offering** **Foreign and Other Stockholders**.

No Revocation of Exercise

All exercises of Rights are irrevocable, even if you later learn information that you consider to be unfavorable to the exercise of your Rights. You should thus not exercise your Rights unless you are certain that you wish to purchase additional shares of our common stock at a subscription price of \$0.10 per full share. Rights not exercised prior to the expiration of this Rights Offering will expire and will be void and no longer exercisable. Please see **Risk Factors** for a discussion relating to the irrevocability of subscription exercises and **The Rights Offering** **No Revocation**.

Persons Holding Common Stock, or Wishing to Exercise Rights Through Others

Persons holding shares of common stock beneficially, and receiving the Rights issuable with respect thereto, through a broker, dealer, commercial bank, trust company or other nominee, as well as persons holding certificates for common stock directly who would prefer to have such institutions effect transactions relating to the Rights on their behalf, should contact the appropriate institution or nominee and request it to effect such transactions for them. See **The Rights Offering** **Exercise of Rights by Rights Holders** and **The Rights Offering** **Beneficial Owners**.

Issuance of Common Stock

Certificates representing shares of common stock purchased pursuant to the Basic Subscription Privilege will be delivered to subscribers as soon as practicable after the closing of the Rights Offering, corresponding Rights have been validly exercised and payment therefor has been received by the Company with the exception of those stockholders whose shares are registered in the VPS System in Norway or are included in the book entry system maintained by DTC. Such stockholders will not receive stock certificates and instead will have their shareholdings appropriately registered in such book entry systems.

Extension of the Rights Offering

We have the option to extend this Rights Offering and the period for exercising your Rights for any reason, subject to the prior receipt of the consent of the Standby Underwriters if we extend the Rights Offering beyond four weeks in length, including if we determine that changes in the market price of our common stock warrant an extension or if we decide to give stockholders more time to exercise their Rights in this Rights Offering, although we do not presently intend to do so. See The Rights Offering Expiration and Extension of the Rights Offering.

Commissions or Fees

We will not charge a brokerage commission or a fee to Rights Holders for exercising their Rights. However, if you exercise your Rights through a broker, custodian bank or other nominee, you will be responsible for any fees charged by your broker, custodian bank or other nominee.

If you sell your Rights, you will be responsible for any commissions, taxes or broker fees arising from any such sale. If a Subscription Agent sells Rights for you, it will aggregate and sell concurrently all Rights being sold on a particular day and will send you a check for the net proceeds from the sale of any of your Rights, less a commission and any applicable taxes or broker fees, as soon as practicable following the sale. Any sales through a Subscription Agent will be deemed to be effected at the weighted average net sale price of all Rights sold by the Subscription Agent on the relevant date of sale.

If you sell your Rights through your broker, custodian bank or other nominee either because you are a beneficial holder or because you are a record holder that chooses to sell your Rights through a broker, custodian bank or other nominee, you may receive a different amount of proceeds than if you are a record holder and you choose to sell the same amount of Rights through the Subscription Agent. If you sell your Rights through your broker, custodian bank or other nominee instead of a Subscription Agent, your sales proceeds will be the actual sales price of your Rights less any applicable broker's commission, taxes or other fees, rather than the weighted average net sale price of all Rights sold by the Subscription Agent on the relevant date as described above.

Standby Underwriting Commitments

The Standby Underwriters named in the table set forth in the Standby Underwriting and Plan of Distribution section below (collectively, the Standby Underwriters) have each severally and not jointly agreed to underwrite up to a maximum of 242,000,000 of the unsubscribed for Underlying Shares (the Unsubscribed Shares) at the Subscription Price per share pro rata to their respective underwriting commitments as indicated in the table. See The Rights Offering Standby Underwriting Commitments and Standby Underwriting and Plan of Distribution Standby Underwriting Agreements.

AMEX and OSE Symbols for Common Stock and Rights

CNR is the symbol for the common stock on both the AMEX and OSE; we have been advised that the AMEX and OSE symbols for

the Rights are CNR.RT (CNR.RT.WI until the first business day after the distribution date) and CNR T, respectively.

Use of Proceeds

The proceeds from the Rights Offering, before the payment of expenses of the Rights Offering, including any compensation due to the Standby Underwriters, are estimated to be a minimum of \$24,200,000. Of such proceeds: \$12,000,000 is expected to be used for the implementation of a production enhancement program at the Ninotsminda Field in Georgia which may include the drilling of a new well in the eastern part of the Field with up to two horizontal completions and a new vertical well on the northern flank of the Field; \$3,000,000 is expected to be used for the further evaluation of the Manavi prospect in Georgia with a focus on the completion of well testing operations at the M12 well; \$1,000,000 will be used to further our farm-out strategy in respect of our other exploration acreage in Georgia; \$5,000,000 is expected to be used for the repayment of indebtedness; and \$3,200,000 is expected to be used for general working capital purposes (including payment of the expenses of the Offering and the commission in respect of the underwriting of the Offering, in the event that the Standby Underwriters elect to receive their commission in cash). See Use of Proceeds.

Deciding Not to Exercise Subscription Rights

You will retain your current number of shares of our common stock even if you do not exercise your Rights. You are not required to subscribe in this Rights Offering. However, if you do not exercise your Rights, the percentage of our common stock that you own will decrease, and your voting and other rights will be diluted as a result of the issuance of approximately 259,047,390 shares of our common stock pursuant to this Rights Offering (assuming this Rights Offering is fully subscribed and the Standby Underwriters elect to take their commissions in shares of common stock rather than in cash). See Dilution.

Manager

We and Glitnir Securities AS have entered into an engagement agreement, dated June 26, 2008, pursuant to which Glitnir is acting as manager and Norwegian Subscription Agent in connection with this Rights Offering. We will pay a fee and all expenses of Glitnir in connection with the Rights Offering for acting as the manager and as Norwegian Subscription Agent. The fee attributable to the Rights Offering is 2.5% of the gross proceeds to be raised in the rights offering, or approximately \$600,000. We will also pay all fees and expenses of Computershare related to its role as U.S. Subscription Agent in connection with this Rights Offering. See Standby Underwriting and Plan of Distribution The Manager.

No Recommendations

An investment in our common stock must be made pursuant to each investor's evaluation of such investor's best interests. Accordingly, the Company, the manager and the Standby Underwriters make no recommendations to the holders of our common stock regarding whether they should exercise, sell or let lapse their Rights. Stockholders that exercise Rights risk loss of their investment. We cannot assure you that the market price for our common stock will be above the Subscription

Price or that anyone

6

purchasing shares at the Subscription Price will be able to sell those shares in the future at the same price or a higher price. Neither the manager nor any Standby Underwriter will engage in any stabilization transactions which may maintain the market price of our common stock above the Subscription Price. You are urged to make your decision based on your own assessment of our business and this Rights Offering. Please see **Risk Factors** for a discussion of some of the risks involved in investing in our common stock and **The Rights Offering** **No Recommendation**.

Certain U.S. Federal Income Tax Considerations

For U.S. federal income tax purposes, you should not recognize income or loss upon receipt or exercise of a Right. You should consult your own tax advisor as to the tax consequences to you of the receipt, exercise or lapse of the Rights in light of your particular circumstances. See **Certain Income Tax Considerations**.

Foreign and Other Stockholders

We will not mail the Subscription Rights Certificates to stockholders with addresses that are outside the United States or that have an army post office or fleet post office address. The U.S. Subscription Agent will hold these Subscription Rights Certificates for their account. If stockholders have an address outside the U.S. or an army post office or a fleet post office address, to exercise their Rights they must notify the U.S. Subscription Agent before 5:00 p.m., U.S. Eastern time, on October 21, 2008, three business days prior to the U.S. expiration date of the Rights Offering, and with respect to holders whose addresses are outside the U.S. they must provide evidence satisfactory to us, such as a legal opinion from local counsel, that it is lawful for them to receive and exercise their Rights under applicable law. Stockholders who hold their shares in the VPS System will be delivered a copy of the Norwegian Offering Circular and other documents upon request in order to exercise, subdivide, transfer or sell their Rights and must follow the procedures set forth therein. See **The Rights Offering** **Foreign and Other Stockholders** herein.

About CanArgo

We are an independent oil and gas exploration and production company incorporated with limited liability under the laws of the State of Delaware, U.S.A., headquartered in St Peter Port, Guernsey, British Isles, but not regulated in Guernsey, operating in Georgia, a former part of the former Soviet Union. We operate and carry out our activities as a holding company through a number of operating subsidiaries and associated or affiliated companies. Each of these operating companies is generally focused on one of our projects, and this structure assists in maintaining separate cost centers for these different projects.

Our principal activities are oil and gas exploration, development and production in Georgia, although in the past we have also operated in other former Soviet Union countries. We are currently directing all of our efforts and resources to our exploration and appraisal program in Georgia and the development of the Ninotsminda Field in Georgia. Our management and technical staff have substantial experience in our areas of operation. Currently our principal product is crude oil, and the sale of crude oil is our principal source of revenue.

Our oil and natural gas reserves and production have to date been derived principally through development of the Ninotsminda Field. We are currently focused on properties that either offer us existing or near term production as well as additional exploitation opportunities, or exploration prospects which management believes have significant potential. We have additional exploratory and developmental oil and gas properties and prospects in Georgia. We operate in a global market and have an insignificant market share in such market.

Going Concern

Our ability to continue to pursue our principal activities of acquiring interests in and developing oil and gas fields is dependent upon generating funds from internal sources, external sources and, ultimately, maintaining sufficient

positive cash flows from operating activities (see *Our ability to pursue our activities is dependent on our ability to generate cash flows,* under Risk Factors starting on page 12 below).

Our financial statements have been prepared in accordance with U.S. GAAP, which contemplates continuation of the Company as a going concern. In respect of the Company's 2007 audited financial statements, the audit opinion issued in the auditors' independent report contained additional explanatory language to the standard audit report in respect of the Company's ability to continue as a going concern.

We currently have sufficient cash on hand to support our current operations through to at least the end of 2008. In order to fund our planned capital expenditure program and to continue our operations after 2008, we need to raise substantial funds. Accordingly, we are pursuing raising additional funds through the Rights Offering to stockholders. We are also actively pursuing the farming out of a number of our exploration projects.

We will use a portion of the proceeds from the Rights Offering for a short term production enhancement recovery program at the Ninotsminda Field in order to generate additional near term cash flows. We believe that if we improve near term cash flow as a result of our production enhancement efforts and if we are eventually able to successfully complete the Manavi 12 well such that a significant quantity of oil flows are produced, we will be able to raise additional debt and/or equity funds in order to continue operations, continue our development plans for the Ninotsminda Field, properly develop the Manavi Field, continue appraising the Norio discoveries, and further develop our business in the region.

Our Business Strategy

Our business strategy is focused on the following:

Further Development Of Existing Properties

Assuming available financial resources, we intend to further develop our properties that have established oil and gas resources. We seek to add proved reserves and increase production through the use of advanced technologies, including conducting further seismic programs and detailed technical analysis of our properties, horizontal drilling, multilateral drilling, drilling new structures from existing locations and selectively recompleting existing wells. We also plan to drill step-out wells to expand known field limits.

Growth Through Exploitation And Exploration

Assuming available financial resources, we intend to conduct an active technology-driven exploitation and exploration program that will be designed to complement our property acquisition and development drilling efforts with moderate to high-risk exploration projects that have greater reserve potential. In the past we have generated exploration prospects through the analysis and integration of geological and geophysical data and the interpretation of seismic data. Assuming available financial resources, we intend to manage our exploration expenditures through the optimal scheduling of our drilling program and, if considered appropriate, selectively reducing our participation in certain exploratory prospects through farm-outs or sales of interests to industry partners.

Pursuit Of Strategic Acquisitions

We continually review opportunities to acquire producing properties, leasehold acreage and drilling prospects and seek to acquire operational control of properties that we believe have significant exploitation and exploration potential. We are especially focused on increasing our holdings in fields and basins from which we are able to leverage existing infrastructure and resources.

Recent Developments

On January 8, 2008, we announced that we had received a deficiency letter from AMEX advising the Company that in view of its continued non-compliance with Section 121(A)(1) and Section 121(B)(2)a of the continued listing standards of the AMEX Company Guide, which require that at least a majority of the directors qualify as independent directors and that the Audit Committee be comprised of at least three

independent directors, the Company had until January 18, 2008 to submit a plan to the AMEX of steps it has taken, or will take, in order to regain compliance with these requirements by no later than April 4, 2008. The Company subsequently submitted its plan to regain compliance to the Staff of the AMEX on January 18, 2008.

Effective February 7, 2008, Dr. David Robson, the Company's former Chief Executive Officer and after his resignation as Chief Executive Officer in June 2007, the Non-Executive Chairman and a Non-Executive Director of the Board of Directors, resigned from the Board. Effective the same date, Vincent McDonnell became acting Chairman of the Board in addition to his duties as President and Chief Executive Officer. In connection with Dr. Robson's departure the Company agreed:

to make a payment to Vazon Energy Limited (Vazon) of UK£30,000 in settlement of Dr. Robson's Service Agreement (Vazon being the company which provided the services of Dr. Robson); and

that the 1,800,000 share options granted to Dr. Robson pursuant to the Company's Long Term Stock Incentive Plans (LTSIP) will remain valid and be exercisable until 31 December 2008 under the terms of such plans. These options comprise:

1,500,000 options granted at an exercise price of \$0.65 (issued September 24, 2004); and

300,000 options granted at an exercise price of \$1.00 (issued July 27, 2005).

On February 14, 2008, we announced that the Staff of the AMEX had determined that the plan submitted by the Company reasonably demonstrated the Company's ability to regain compliance with such continued listing standards by the end of the plan period.

In accordance with the requirements of the AMEX, on March 18, 2008, we announced that in respect of the Company's 2007 audited financial statements, the audit opinion issued in the auditors' independent report contained additional explanatory language to the standard audit report in respect of the Company's ability to continue as a going concern. The independent audit report is contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007, as amended, and is available at www.sec.gov.
