All forward-looking statements are based on several assumptions, certain of which appear proximate to the applicable forward-looking statements herein, and are developed based on assumptions about such risks, uncertainties and other factors set out herein. Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Goldcorp to be materially different from those expressed or implied by such forward-looking statements, including but not limited to: risks related to the integration of acquisitions; risks related to international operations, including economical and political instability in foreign jurisdictions in which Goldcorp Inc. operates; risks related to current global financial conditions; risks related to joint venture operations; actual results of current exploration activities; environmental risks; future prices of gold, silver,

**CAUTIONARY NOTE TO UNITED STATES INVESTORS
REGARDING PRESENTATION OF MINERAL RESERVE AND MINERAL RESOURCE ESTIMATES**

This short form prospectus has been prepared in accordance with the requirements of Canadian securities laws, which differ from the requirements of United States securities laws. Unless otherwise indicated, all reserve and resource estimates included in this short form prospectus have been prepared in accordance with Canadian National Instrument 43-101 *Standards of Disclosure for Mineral Projects* (NI 43-101) and the Canadian Institute of Mining, Metallurgy and Petroleum classification system as well as the Australasian Code for Reporting Mineral Resources and Ore Reserves, or the JORC Code, which is accepted under the Canadian Standards. NI 43-101 is a rule developed by the Canadian Securities Administrators which establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects.

Canadian standards, including NI 43-101, differ significantly from the requirements of the SEC, and reserve and resource information contained or incorporated by reference in this short form prospectus may not be comparable to similar information disclosed by United States companies. In particular, and without limiting the generality of the foregoing, the term "resource" does not equate to the term "reserve". Under United States standards, mineralization may not be classified as a "reserve" unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. The SEC's disclosure standards normally do not permit the inclusion of information concerning "measured mineral resources", "indicated mineral resources" or "inferred mineral resources" or other descriptions of the amount of mineralization in mineral deposits that do not constitute "reserves" by United States standards in documents filed with the SEC. United States investors should also understand that "inferred mineral resources" have a great amount of uncertainty as to their existence and as to their economic and legal feasibility. It cannot be assumed that all or any part of an "inferred mineral resource" will ever be upgraded to a higher category. Under Canadian rules, estimated "inferred mineral resources" may not form the basis of feasibility or pre-feasibility studies except in rare cases. Investors are cautioned not to assume that all or any part of an "inferred mineral resource" exists or is economically or legally mineable. Disclosure of "contained ounces" in a mineral resource estimate is permitted disclosure under Canadian regulations; however, the SEC normally only permits issuers to report mineralization that does not constitute "reserves" by SEC standards as in place tonnage and grade without reference to unit measures. The requirements of NI 43-101 for identification of "reserves" are also not the same as those of the SEC, and reserves reported by Goldcorp in compliance with NI 43-101 may not qualify as "reserves" under SEC standards. Accordingly, information concerning mineral deposits set forth herein may not be comparable with

information made public by companies that report in accordance with United States standards.

See Description of the Business Technical Information in the Annual Information Form, which is incorporated by reference herein, for a description of certain of the mining terms used in this short form prospectus and the documents incorporated by reference herein.

The risks described therein are not the

only risks facing the Corporation. Additional risks and uncertainties not currently known to the Corporation, or that the Corporation currently deems immaterial, may also materially and adversely affect its business.

CONSOLIDATED CAPITALIZATION

There have not been any material changes in the share and loan capital of the Corporation since December 31, 2009, the date of the Corporation's most recently filed financial statements.

DESCRIPTION OF COMMON SHARES

The authorized share capital of the Corporation consists of an unlimited number of common shares (the "Common Shares"). As of March 18, 2010, 733,855,826 Common Shares were issued and outstanding. Holders of Common Shares are entitled to receive notice of any meetings of shareholders of the Corporation, to attend and to cast one vote per Common Share at all such meetings. Holders of Common Shares do not have cumulative voting rights with respect to the election of directors and, accordingly, holders of a majority of the Common Shares entitled to vote in any election of directors may elect all directors standing for election. Holders of Common Shares are entitled to receive on a pro-rata basis such dividends, if any, as and when declared by the Corporation's board of directors at its discretion from funds legally available therefor and upon the liquidation, dissolution or winding up of the Corporation are entitled to receive on a pro-rata basis the net assets of the Corporation after payment of debts and other liabilities, in each case subject to the rights, privileges, restrictions and conditions attaching to any other series or class of shares ranking senior in priority to or on a pro-rata basis with the holders of Common Shares with respect to dividends or liquidation. The Common Shares do not carry any pre-emptive, subscription, redemption or conversion rights, nor do they contain any sinking or purchase fund provisions.

PLAN OF DISTRIBUTION

This short form prospectus is being filed by the Corporation to qualify the distribution of up to 8,439,425 Warrant Shares issuable upon the exercise of 8,439,425 Warrants. Each Warrant is exercisable to purchase one Warrant Share at a price of C\$45.75 at any time prior to 5:00 p.m. (Vancouver time) on June 9, 2011.

The Warrants were originally (a) qualified for distribution in Canada by the Corporation's short form base shelf prospectus (the "Shelf") dated May 5, 2006, and (b) registered in the United States under the Corporation's registration statement on Form F-10 (the "Original Registration Statement") which became effective on May 9, 2006. The registration of the Warrants in the United States does not include the registration of the issuance of the Warrant Shares (as it does in Canada). The Original Registration Statement is intended to remain effective in order to register the issuance of the Warrant Shares upon the exercise of the Warrants for United States holders of the Warrants. Under the Multijurisdictional Disclosure System ("MJDS"), Canadian home jurisdiction requirements control the period of effectiveness of the Shelf and the Original Registration Statement which, in this case, is 25 months following effectiveness. As a result, the Shelf and the Original Registration Statement were deemed to have expired on June 9, 2008. Under United States securities laws, the Corporation must file the Registration Statement to register the issuance of the Warrant Shares in the United States until the June 9, 2011, the expiry date of the Warrants, so that the Warrant Shares can be freely tradable upon issuance.

Certain legal matters will be passed upon by (a) Cassels Brock & Blackwell LLP, the Corporation's Canadian counsel, on matters of Ontario law and the federal laws of Canada applicable in Ontario, and (b) Neal, Gerber & Eisenberg LLP, the Corporation's United States counsel, on matters of United States federal securities law.

On the date of this short form prospectus, the partners and associates of Cassels Brock & Blackwell LLP and Neal, Gerber & Eisenberg LLP, each as a group, own beneficially, directly or indirectly, in the aggregate, less than 1% or no securities of the Corporation.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in the Province of British Columbia provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. The securities legislation in the Province of British Columbia further provides a purchaser with remedies for rescission or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the *Securities Act* (British Columbia). The purchaser should refer to any applicable provisions of the *Securities Act* (British Columbia) for the particulars of these rights or consult with a legal adviser.

Rights and remedies may also be available to purchasers under United States law; purchasers may wish to consult with a United States lawyer for particulars of these rights.

ENFORCEABILITY OF CERTAIN CIVIL LIABILITIES

The Corporation is an Ontario corporation and its principal place of business is in Canada. The majority of the directors and officers of the Corporation are resident outside of the United States and a substantial portion of its assets and the assets of such persons are located outside of the United States. Consequently, it may be difficult for United States investors to effect service of process within the United States on the Corporation or its directors or officers, or to realize in the United States on judgments of courts of the United States predicated on civil liabilities under the U.S. Securities Act. Investors should not assume that Canadian courts would enforce judgments of United States courts obtained in actions against the Corporation or such persons predicated on the civil liability provisions of the United States federal securities laws or the securities or blue sky laws of any state within the United States or would enforce, in original actions, liabilities against the Corporation or such persons predicated on the United States federal securities or any such state securities or blue sky laws. The Corporation has been advised by its Canadian counsel, Cassels Brock & Blackwell LLP, that a judgment of a United States court predicated solely upon civil liability under United States federal securities laws would probably be enforceable in Canada if the United States court in which the judgment was obtained has a basis for jurisdiction in the matter that would be recognized by a Canadian court for the same purposes. The Corporation has also been advised by Cassels Brock & Blackwell LLP, however, that there is substantial doubt whether an action could be brought in Canada in the first instance on the basis of liability predicated solely upon United States federal securities laws.

The Corporation filed with the SEC, concurrently with its registration statement on Form F-10 of which this short form prospectus is a part, an appointment of agent for service of process on Form F-X. Under the Form F-X, the Corporation appointed CT Corporation System as its agent for service of process in the United States in connection with any investigation or administrative proceeding conducted by the SEC, and any civil suit or action brought against or involving the Corporation in a United States court arising out of or related to or concerning the offering of securities under this short form prospectus.

PART II

INFORMATION NOT REQUIRED TO BE DELIVERED TO OFFEREES OR PURCHASERS

INDEMNIFICATION

Under the *Business Corporations Act* (Ontario), the Registrant may indemnify a present or former director or officer or person who acts or acted at the Registrant's request as a director or officer, or an individual acting in a similar capacity, of another entity, against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by the individual in respect of any civil, criminal or administrative action, investigative or other proceeding, to which the individual is involved because of that association with the Registrant or other entity and provided that the director or officer acted honestly and in good faith with a view to the best interests of the Registrant or, as the case may be, to the best interests of the other entity for which the individual acted as a director or officer or in a similar capacity at the Registrant's request and, in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, had reasonable grounds for believing that the individual's conduct was lawful. A director is entitled to indemnification in respect of all costs, charges and expenses reasonably incurred by the individual in connection with the defense from the Registrant as a matter of right if the individual was not judged by a court or other competent authority to have committed any fault or omitted to do anything that the individual ought to have done and fulfilled the conditions set forth above.

In accordance with the *Business Corporations Act* (Ontario), the by-laws of the Registrant indemnify a director or officer, a former director or officer, or a person who acts or acted at a Registrant's request as a director or officer, or an individual acting in a similar capacity, of another entity, against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by the individual in respect of any civil, criminal, administrative, investigative or other proceeding in which the individual was made a party by reason of being or having been a director or officer of the Registrant or other corporation if the individual acted honestly and in good faith with a view to the best interests of the Registrant, or, as the case may be, to the best interests of the other entity for which the individual acted at the Registrant's request; in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, the individual had reasonable grounds in believing that the individual's conduct was lawful; and a court or other competent authority has not judged that the individual has committed any fault or omitted to do anything that the individual ought to have done.

A policy of directors' and officers' liability insurance is maintained by the Registrant which insures directors and officers for losses as a result of claims against the directors and officers of the Registrant in their capacity as directors and officers and also reimburses the Registrant for payments made pursuant to the indemnity provisions under the by-laws and the *Business Corporations Act* (Ontario).

Insofar as indemnification for liabilities under the Securities Act of 1933 may be permitted to directors, officers or persons controlling the Registrant pursuant to the foregoing provisions, the Registrant has been informed that in the opinion of the U.S. Securities and Exchange Commission such indemnification is against public policy in the United States as expressed in the Securities Act of 1933 and is therefore unenforceable.
