SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM N-CSR

CERTIFIED SHAREHOLDER REPORT OF REGISTERED MANAGEMENT
INVESTMENT COMPANIES

Investment Company Act file number 811-21129

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated
(Exact name of registrant as specified in charter)

301 E. Colorado Boulevard, Suite 720
Pasadena, CA 91101
(Address of principal executive offices) (Zip code)

Donald F. Crumrine
Flaherty & Crumrine Incorporated
301 E. Colorado Boulevard, Suite 720
Pasadena, CA 91101
(Name and address of agent for service)

registrant's telephone number, including area code: 626-795-7300

Date of fiscal year end: November 30

Date of reporting period: May 31, 2010

Form N-CSR is to be used by management investment companies to file reports with the Commission not later than 10 days after the transmission to stockholders of any report that is required to be transmitted to stockholders under Rule 30e-1 under the Investment Company Act of 1940 (17 CFR 270.30e-1). The Commission may use the information provided on Form N-CSR in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-CSR, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-CSR unless the Form displays a currently valid Office of Management and Budget ("OMB") control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. Section 3507.

ITEM 1. REPORTS TO STOCKHOLDERS.

The Report to Shareholders is attached herewith.

FLAHERTY & CRUMRINE/CLAYMORE PREFERRED SECURITIES INCOME FUND

To the Shareholders of Flaherty & Crumrine/Claymore Preferred Securities Income Fund:

After several quarters of extreme volatility, the Fund's second fiscal quarter performance was relatively tame. During the three month period ending May 31, 2010, the total return on net asset value of the Fund was +1.7%. Over the same period, the total return based on the market price of the Fund's shares was +2.1%. The following table presents the Fund's performance over longer time periods as well as the returns on two broad investment measures, one for common stocks and one for corporate bonds.

TOTAL RETURN ON NET ASSET VALUE
FOR PERIODS ENDED MAY 31, 2010

	ACTUAL RETURNS			AVERAGE ANNUALIZED RETURNS		
	THREE MONTHS	SIX MONTHS	ONE YEAR	THREE YEARS	FIVE YEARS	LIFE OF FUND (1)
Flaherty & Crumrine/Claymore Preferred Securities Income Fund	1.7%	13.0%	62.6%	-2.7%	0.3%	3.3%
Barclays Capital U.S. Aggregate Index(2) ..	1.8%	2.1%	8.4%	6.9%	5.3%	5.1%
S&P 500 Index(3)	-0.9%	0.4%	21.0%	-8.7%	0.3%	5.3%

(1) Since inception on January 29, 2003.

(2) The Barclays Capital U.S. Aggregate Index represents securities that are SEC-registered, taxable, and dollar denominated. The index covers the U.S. investment grade fixed rate bond market, with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities. It is generally considered to be representative of the domestic, investment-grade, fixed-rate, taxable bond market. Unless otherwise noted, index returns reflect the reinvestment of dividends and capital gains, if any, but do not reflect fees, brokerage commissions or other expenses of investing. This index was formerly known as the Lehman Brothers U.S. Aggregate Index.

(3) The S&P 500 is a capitalization-weighted index of 500 stocks. The index is designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries.

Conditions in the market for preferred securities have largely stabilized in recent months, though to varying degrees for different market sectors. Issues of companies in industries other than financial services (primarily utilities) have performed consistently well, with far less price volatility than witnessed in prior quarters. Prices on financial issues (primarily banks and insurance companies) bounced around a bit more, but in light of the continued effects of the financial crisis, this is to be expected.

When markets seem calm on the surface, there is usually something to be wary of lurking below. At present, we don't need to look too far. The items we consider most relevant to the Fund are discussed in greater detail in the discussion section below. These include the overhaul of financial regulation, changes to standards for capital, and turmoil in the Euro-zone. We continue to believe that the Fund is well positioned to weather each.

As managers of your Fund, our job revolves around evaluating risk. Investment decisions, like most decisions, essentially boil down to evaluating risk and then determining what risk is worth.(1) When it comes to preferred securities, we think we have an edge in both; the preferred market is our primary focus and has been for a very long time.

The financial crisis pulled back the curtain on the national system of money and banking, and exposed a number of problems. In our view, the most fundamental cause of the crisis was a severe imbalance between risk and opportunity. More specifically, an asymmetry existed between those bearing risk and those reaping rewards. As a result, a lot of really bad decisions were made, and when the proverbial chickens came home to roost, the entire financial system laid an egg.

Many of these ill-fated decisions involved inappropriate use of leverage. The poster child for debt-run-amok was, of course, the residential real estate market. However, abuse of leverage wasn't limited to residential real estate--easy access to cheap money fueled a widespread borrowing binge, with individuals, corporations and governments spending too much time at the "cheap money" punchbowl.

Leverage is an important component of the Fund's investment strategy as well, so we understand the challenges of operating a business funded in part with borrowed money. Fortunately, the Fund is designed to use leverage prudently, with limitations on the amount of debt employed at any point in time. Because of these restrictions, the Fund avoided many of the severe problems faced by other borrowers. That's not to say it hasn't been challenging. When asset prices fell, the Fund was required to reduce leverage proportionately by selling securities at prices that were severely depressed; conversely, as prices recovered, we have been able to borrow additional sums for the purpose of buying additional preferred securities at attractive prices.

The bottom line for shareholders is that the Fund is working as intended--a steady improvement in the Fund's investment portfolio over the past few quarters, along with effective use of relatively inexpensive leverage, enabled the Fund to raise the monthly distribution to shareholders to \$0.12 from \$0.114, an increase of 5.3%.

More information is always available on the Fund's website at www.fcclaymore.com.

Sincerely,

/s/ Donald F. Crumrine

Donald F. Crumrine
Chairman of the Board

/s/ Robert M. Ettinger

Robert M. Ettinger
President

THE FUND'S PORTFOLIO RESULTS AND COMPONENTS OF TOTAL RETURN ON NAV

The table below reflects performance of each investment strategy available for use by the Fund to achieve its objective, namely: (a) investing in a portfolio of securities; (b) possibly hedging that portfolio against significant increases in long-term interest rates (although no hedge positions were in place during the six months ended May 31st); and (c) utilizing leverage to enhance returns to shareholders. Next, we compute the impact of the Fund's operating expenses. All of the parts are then summed to determine total return on the Fund's NAV.

COMPONENTS OF FFC'S TOTAL RETURN ON NAV
FOR THE SIX MONTHS ENDED MAY 31, 2010

	SIX MONTHS*

Total Return on Unleveraged Securities Portfolio	
(including principal and income)	+9.3%
Return from Interest Rate Hedging Strategy	0.0%
Impact of Leverage (including leverage expense) ...	+4.2%
Expenses (excluding leverage expense)	-0.5%

TOTAL RETURN ON NAV	+13.0%

* Actual, not annualized.

The recovery in preferred security valuations continued over the Fund's fiscal year-to-date, but at a slower pace than during 2009. However, over this recent six month period the Fund's investment portfolio outperformed all sectors of the preferred securities market, as can be seen by comparing total return on the Fund's portfolio (the first row of the above table) to the results of various Bank of America Merrill Lynch preferred indices in the following table.

TOTAL RETURNS OF BANK OF AMERICA MERRILL LYNCH PREFERRED SECURITIES INDICES*
FOR THE SIX MONTHS ENDED MAY 31, 2010

	SIX MONTHS*

BofA Merrill Lynch 8% Capped DRD Preferred Stock Index(SM)	+8.1%
BofA Merrill Lynch 8% Capped Hybrid Preferred Securities	
Index(SM)	+7.3%
BofA Merrill Lynch 8% Capped Corporate U.S. Capital Securities	
Index(SM)	+8.0%
BofA Merrill Lynch Adjustable Preferred Stock, 7% Constrained	
Index(SM)	+2.5%

* The Bank of America Merrill Lynch 8% Capped DRD Preferred Stock Index(SM) includes investment grade preferred securities issued by both corporations and government agencies that qualify for the corporate dividend received deduction with issuer concentration capped at a maximum of 8%. The Bank of America Merrill Lynch 8% Capped Hybrid Preferred Securities Index(SM) includes taxable, fixed-rate, U.S. dollar-denominated investment-grade, preferred securities listed on a U.S. exchange with issuer concentration capped at 8%. The Bank of America Merrill Lynch 8% Capped Corporate U.S.

Capital Securities Index(SM) includes investment grade fixed rate or fixed-to-floating rate \$1,000 par securities that receive some degree of equity credit from the rating agencies or their regulators with issuer concentration capped at a maximum of 8%. The Bank of America Merrill Lynch Adjustable Preferred Stock, 7% Constrained Index(SM) includes adjustable rate preferred securities issued by U.S. corporations and government agencies with issuer concentration capped at a maximum of 7%. All index returns include interest and dividend income and, unlike the Fund's returns, are unmanaged and do not reflect any expenses.

3

The Fund's NAV performance (bottom line of the first table) demonstrates continued success of the strategy of using a moderate amount of leverage to enhance return on the Fund's portfolio sufficiently to cover its expenses and permit the NAV of the Fund to still outperform the unleveraged preferred market indices.

TOTAL RETURN ON MARKET PRICE OF FUND SHARES

While our focus is primarily on managing the Fund's investment portfolio, an investor's actual return is comprised of monthly dividend payments plus changes in the market price of Fund shares. Even following very strong results during the prior fiscal year, the market price continued to recover during the current fiscal year-to-date, producing a total return of +23.1% on the market price of Fund shares over the past six months.

In a perfect world, the market price of Fund shares would closely track the Fund's net asset value. As can be seen from the graph below, this often is not the case. Since the Fund's inception, its market price has generally been moderately below its NAV (in market parlance, "trading at a discount"), and dropped well below the underlying value of each Fund share during the depths of the financial crisis 1 1/2 years ago. However, more recently the market price has traded much more in line with the underlying value of its shares, and as of June 30, 2010 traded at a premium to NAV.

Based on a closing price of \$15.64 on June 30th, the current distribution rate on market price of the Fund's shares (assuming the current monthly distribution of \$0.12 does not change) is 9.2%. In our opinion, this distribution rate is very competitive with comparable alternative investment opportunities.

PREFERRED MARKET CONDITIONS

Conditions in the preferred securities market have improved markedly since the depth of the financial crisis in March 2009. And despite the uncertainties discussed elsewhere in this report, the preferred market is alive and well. Along the path to improvement, however, there have been some bone-rattling bumps. The preferred market began and ended this past quarter in pretty good shape, but in-between we experienced (and survived!)

4

a pretty significant jolt. We expect that this pattern of generally rising preferred prices, punctuated by sharp setbacks and above-average volatility, will be the hallmark of the preferred market in 2010.

We judge the health of the market by two primary measures: relative price performance (compared to other segments of credit markets), and overall liquidity (how easy is it to buy and sell securities without impacting prices).

In our opinion, preferred securities continue to offer investors attractive levels of income and potential for price appreciation when compared to other types of fixed-income investments. During the darkest days of the market collapse (late 2008 to early 2009) preferred prices were weaker than every other fixed-income product except junk bonds. The gap has narrowed appreciably over the past year, but preferred securities still offer good relative value to investors.

Not only do preferreds look attractive versus broader credit markets, but the broader credit markets also appear undervalued versus other types of investments. Measures of cash flows into and out of mutual funds indicate demand for higher yielding fixed-income products is strong. This is no surprise. With high levels of volatility and uncertainty about the stock market, huge deficits faced by state and local municipalities, and money-market fund yields hovering around zero, many investors have turned to corporate bonds and preferred securities.

Liquidity, the other measure of market health, is also relatively good at present, but some explanation is required. The preferred securities market is never highly liquid, at least by the standards of most other securities markets. A large-cap, exchange-traded common stock may trade hundreds or thousands of times each day, with tiny bid-offer spreads; in the preferred universe, most trades require greater effort. But relative to historical measures of liquidity, the preferred market has been reasonably active recently.

Things were not quite as rosy during the first couple weeks of May. Preferred securities traded down significantly, as fears over the potential for a European debt crisis intensified. Prices fell despite surprisingly strong economic data in the United States, where the bulk of preferred issuers are domiciled. As discussed below, the European Union took dramatic steps to stem the crisis, and the market heaved a sigh of relief. Debt burdens remain high throughout developed markets, however, leaving conditions ripe for renewed market turbulence at some point down the road.

Preferred market participants are also scratching their collective heads as legislators and regulators address the role of certain types of preferred securities in the capital structure of financial institutions. The outcome could have far-reaching implications for the market, and our thoughts are discussed more fully below. Despite the uncertainty, we view the range of outcomes to be mostly positive for investors in preferred securities. Just be prepared for more bumps in the road.

FINANCIAL REGULATION

The Senate is poised to vote on financial regulatory reform legislation, the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank). While the vote in the Senate is likely to be very close, the House has already approved it and we expect that Dodd-Frank will be enacted. The legislation will make significant changes to both the operations and capitalization of financial companies. Below we discuss the key features and implications of the bill for preferred investors.

First, Dodd-Frank will set capital standards for financial institutions. The bill largely leaves decisions about capital up to the relevant regulators, with the important constraint that capital requirements be set NO LOWER than they are today. In addition, capital requirements will apply to average rather than period-end

assets. At most financial institutions, average assets tend to be higher than end-of-period assets. Thus, Dodd-Frank will raise effective capital requirements for most financial companies and make it more difficult to lower them in the future. For preferred investors, this is good news.

Second, Dodd-Frank contains a provision that will make trust preferred securities (TruPS) ineligible as Tier 1 capital. (Tier 1 capital is one of the primary measures of capital for a financial company; it includes common equity, retained earnings, qualifying preferred capital, and certain regulatory assets.) For banks with less than \$15 billion in assets as of December 31, 2009, TruPS issued before May 19, 2010 will retain Tier 1 capital eligibility permanently. For banks over that size, their TruPS will remain Tier 1 eligible until January 1, 2013; Tier 1 eligibility will phase out over the following three years (presumably, 75% eligibility in 2013, 50% in 2014, and 25% in 2015), with no Tier 1 credit by January 1, 2016. All TruPS issued on or after May 19, 2010 will not receive Tier 1 capital treatment, regardless of the size of the issuing bank. (There has been no public issuance of TruPS since that date.) This is mixed news for preferred investors. Banks are more likely to call TruPS that are no longer eligible as Tier 1 capital, and most TruPS allow issuers to call them at par if they no longer qualify as Tier 1 capital. That's potentially good news for TruPS that trade below par, but it's bad news for the small number of issues that trade at a premium. The provision may also be negative for traditional non-cumulative preferred stock, which will continue to count as Tier 1 capital,

since supply might increase substantially if financial companies decide to replace TruPS with traditional preferreds.

Third, Dodd-Frank will restrict the activities of financial institutions in a number of ways. For preferred investors, two of the most important are (1) the "Volker Rule" limiting proprietary trading and investments in hedge funds and private equity and (2) the requirements for derivatives activities. Without getting into specifics, we see these provisions as reducing both the risks that financial institutions can take and the profits they can generate. The former is good for preferred investors, while the latter could be negative if it cuts deeply enough into profitability - since preferred investors ultimately are paid out of earnings. At this point, it appears that the bill takes moderate ground on both of these provisions, although we can't say definitively until regulators write the rules enforcing the provisions. On balance, we think these limitations on bank activities will benefit preferred investors.

Overall, we think Dodd-Frank will force banks to hold more capital, take less risk, or both. When we combine that with regulators' desire for banks to hold a higher proportion of high-quality capital (i.e., common equity), we see it as decidedly good news for preferred investors. We may need to reassess that conclusion when regulators turn the legislation into final rules. However, for now we are cautiously optimistic about the impact of Dodd-Frank on preferreds.

CHANGES TO CAPITAL STANDARDS

While the U.S. Congress is moving to pass Dodd-Frank, regulators here and abroad are formulating new capital standards for banks. These new rules, Basel III, will replace current Basel II guidelines that, in retrospect, permitted banks to operate with inadequate capital as markets became stressed. While the new rules are still being negotiated, two things are clear. First, banks will need to hold higher levels of capital than under Basel II, partly because certain asset classes will carry higher "risk weights" and partly because required capital ratios have increased or will increase.

Second, the "quality" of capital will improve, with a particular emphasis on the strongest form of capital, common equity. As preferred investors, we have always paid a great deal of attention to the composition of capital at the companies in which we invest, and we are happy to see regulators do the same. Over time, this should result in banks with higher common equity ratios and less reliance on preferred and hybrid securities

6

(in percentage terms). That no doubt will prompt changes to the preferred market, with shrinkage in some areas, expansion in others, and eventually emergence of some new forms of hybrid capital. While these changes may generate some volatility in the preferred market, we expect they will offer plenty of opportunities as well.

EUROZONE DEBT PROBLEMS

One of the major challenges facing credit markets today is the sovereign debt situation in Europe. The global recession caused government budget deficits to swell almost everywhere. Portugal, Ireland, Italy, Greece, and Spain (the so-called PIIGS countries) each ran high budget deficits in 2009 (over 9% of GDP, except for Italy, which posted a deficit of 5.3% of GDP), with the prospect of still-sizable deficits for years to come. Markets became worried about these countries' ability to repay their debt, resulting in sharply higher long-term interest rates in those countries (especially Greece), which only intensified

the problems they face in bringing their debt under control.

Normally, a country has three "levers" it can pull to help address its fiscal imbalance: the exchange rate, monetary policy, and fiscal policy. As members of the European Monetary Union (EMU), however, individual countries don't control the first two. That leaves fiscal policy as the only real tool for reestablishing fiscal balance - and markets came to doubt that the PIIGS could move quickly enough to right the ship.

With Greece on the verge of a liquidity crisis - it had debt coming due without the cash to repay it or market access to refinance it - the EMU and International Monetary Fund (IMF) combined to offer a E110 billion assistance package to Greece in exchange for commitments from Greece to sharply reduce its deficit. This averted an immediate crisis, but markets quickly turned on the other high-deficit countries. Within days, European officials launched a more comprehensive set of proposals to address the widening crisis. In addition to the E110 billion assistance package for Greece, officials announced a massive increase in the debt stabilization fund for EU nations. The E750 billion plan consists of E440 billion in loans from Euro-zone governments, E60 billion from an EU emergency fund, and E250 billion from the IMF. In addition, the European Central Bank has begun purchasing EU government debt in order to provide liquidity to the markets, and the U.S. Federal Reserve reinstated foreign exchange swap lines to give foreign central banks access to U.S.dollars.

All of these concerns about Europe have weighed on the preferred securities market for two broad reasons. First, investors worry about the direct exposure that companies may have to these countries. On that score, the Fund has no direct exposure to foreign sovereign debt, and we cannot identify any investments with material exposure to Greece, the weakest of the EMU sovereigns. However, some of the companies in the Fund's portfolio do have material exposure to Spain, Italy, and (to a lesser extent) Portugal - although we still would characterize the Fund's exposure to those issuers as modest.

The second broad concern facing investors is the possibility that sovereign debt problems could lead to a breakup of the EMU and the Euro. Given the interconnectedness of the global financial system, breakup of the EMU would be highly disruptive to say the least, and there is no doubt it would negatively affect the preferred market. While we think this is an extremely low probability scenario, until markets have concluded it's a "no chance" scenario, we have to keep our eye on it. The creation of the debt stabilization fund and renewed budget restraint in high-deficit countries gives us comfort that sovereign risks are moving in the right direction.

21

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated (the "Fund") was incorporated as a Maryland corporation on May 23, 2002, and commenced operations on January 31, 2003 as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund's investment objective is to provide its common shareholders with high current income consistent with the preservation of capital.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The

preparation of the financial statements is in conformity with U.S. generally accepted accounting principles ("US GAAP") and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

PORTFOLIO VALUATION: The net asset value of the Fund's Common Stock is determined by the Fund's Administrator no less frequently than on the last business day of each week and month in accordance with the policies and procedures approved by the Board of Directors of the Fund. It is determined by dividing the value of the Fund's net assets available to Common Stock by the number of shares of Common Stock outstanding. The value of the Fund's net assets available to Common Stock is deemed to equal the value of the Fund's total assets less (i) the Fund's liabilities and (ii) the aggregate liquidation value of any outstanding preferred stock.

The Fund's preferred and debt securities are valued on the basis of current market quotations provided by independent pricing services or dealers approved by the Board of Directors of the Fund. Each quotation is based on the mean of the bid and asked prices of a security. In determining the value of a particular preferred or debt security, a pricing service or dealer may use information with respect to transactions in such investments, quotations, market transactions in comparable investments, various relationships observed in the market between investments, and/or calculated yield measures based on valuation technology commonly employed in the market for such investments. Common stocks that are traded on stock exchanges are valued at the last sale price or official close price on the exchange, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available mean price. Futures contracts and option contracts on futures contracts are valued on the basis of the settlement price for such contracts on the primary exchange on which they trade. Investments in over-the-counter derivative instruments, such as interest rate swaps and options thereon ("swaptions"), are valued using prices supplied by a pricing service, or if such prices are unavailable, prices provided by a single broker or dealer that is not the counterparty or, if no such prices are available, at a price at which the counterparty to the contract would repurchase the instrument or terminate the contract. Investments for which market quotations are not readily available or for which management determines that the prices are not reflective of current market conditions are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund, including reference to valuations of other securities which are comparable in quality, maturity and type.

22

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

Investments in money market instruments and all debt and preferred securities which mature in 60 days or less are valued at amortized cost. Investments in money market funds are valued at the net asset value of such funds.

FAIR VALUE MEASUREMENT: The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 - quoted prices in active markets for identical securities

- Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. A summary of the inputs used to value the Fund's investments as of May 31, 2010 is as follows:

	TOTAL VALUE AT MAY 31, 2010	LEVEL 1 QUOTED PRICE	LEVEL 2 SIGNIFICANT OBSERVABLE INPUTS	LEVEL 3 SIGNIFICANT UNOBSERVABLE INPUTS

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

The following is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	TOTAL INVESTMENTS	PREFERRED SECURITIES		
		BANKING	FINANCIAL SERVICES	CORPORATE DEBT SECURITIES
BALANCE AS OF 11/30/09	\$2,574,696	\$158,400	\$1,920,537	\$495,759
Accrued discounts/premiums	--	--	--	--
Realized gain/(loss)	--	--	--	--

Change in unrealized appreciation/ (depreciation)	1,718,344	27,648	1,588,142	102,554
Net purchases/(sales)	--	--	--	--
Transfers in and/or out of Level 3	--	--	--	--
	-----	-----	-----	-----
BALANCE AS OF 05/31/10	\$4,293,040	\$186,048	\$3,508,679	\$598,313

As of May 31, 2010, total change in unrealized gain/(loss) on Level 3 securities still held at period-end and included in the change in net assets was \$1,718,344. Total unrealized gain/(loss) for all securities (including Level 1 and Level 2) can be found on the accompanying Statement of Operations.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME: Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the specific identified cost basis. Dividend income is recorded on ex-dividend dates. Interest income is recorded on the accrual basis. The Fund also amortizes premiums and accretes discounts on fixed income securities using the effective yield method.

OPTIONS: In the normal course of pursuing its investment objectives, the Fund is subject to interest rate risk and may purchase or write options to hedge against this risk. Purchases of options are recorded as an investment, the value of which is marked-to-market at each valuation date. When the Fund enters into a closing sale transaction, the Fund will record a gain or loss depending on the difference between the purchase and sale price. The risks associated with purchasing options and the maximum loss the Fund would incur are limited to the purchase price originally paid.

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability, the value of which is marked-to-market at each valuation date. When a written option expires, the Fund realizes a gain equal to the amount of the premium originally received. When the Fund enters into a closing purchase transaction, the Fund realizes a gain (or loss if the cost of the closing purchase transaction exceeds the premium received when the option was written) without regard to any unrealized gain or loss on the underlying security, and the liability related to such option is eliminated. When a call option is exercised, the Fund realizes a gain or loss from the sale of the underlying security and the proceeds from such sale are increased by the amount of the premium originally received. When a put option is exercised, the amount of the premium originally received will reduce the cost of the security which the Fund purchased upon exercise.

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

The risk in writing a call option is that the Fund may forego the opportunity for profit if the market price of the underlying security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. There were no purchased or written options for the six months ended May 31, 2010.

REPURCHASE AGREEMENTS: The Fund may engage in repurchase agreement transactions. The Fund's investment adviser reviews and approves the eligibility of the banks and dealers with which the Fund may enter into repurchase agreement

transactions. The value of the collateral underlying such transactions is at least equal at all times to the total amount of the repurchase obligations, including interest. The Fund maintains possession of the collateral through its custodian and, in the event of counterparty default, the Fund has the right to use the collateral to offset losses incurred. There is the possibility of loss to the Fund in the event the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities.

FEDERAL INCOME TAXES: The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and intends to distribute substantially all of its taxable net investment income to its shareholders. Therefore, no federal income tax provision is required.

Management has analyzed the Fund's tax positions taken on Federal income tax returns for all open tax years (November 30, 2009, 2008, 2007 and 2006), and has concluded that no provision for federal income tax is required in the Fund's financial statements. The Fund's major tax jurisdictions are federal and California. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS: The Fund expects to declare dividends on a monthly basis to shareholders of Common Stock ("Shareholders"). Distributions to Shareholders are recorded on the ex-dividend date. Any net realized short-term capital gains will be distributed to Shareholders at least annually. Any net realized long-term capital gains may be distributed to Shareholders at least annually or may be retained by the Fund as determined by the Fund's Board of Directors. Capital gains retained by the Fund are subject to tax at the capital gains corporate tax rate. Subject to the Fund qualifying as a regulated investment company, any taxes paid by the Fund on such net realized long-term capital gains may be used by the Fund's Shareholders as a credit against their own tax liabilities. The Fund may pay distributions in excess of the Fund's net investment company taxable income and this excess would be a tax-free return of capital distributed from the Fund's assets.

Income and capital gain distributions are determined and characterized in accordance with income tax regulations which may differ from US GAAP. These differences are primarily due to (1) differing treatments of income and gains on various investment securities held by the Fund, including timing differences, (2) the attribution of expenses against certain components of taxable investment income, and (3) federal regulations requiring proportionate allocation of income and gains to all classes of shareholders.

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

Distributions from net realized gains for book purposes may include short-term capital gains, which are included as ordinary income for tax purposes and may exclude amortization of premium on certain fixed income securities, which are not reflected in ordinary income for tax purposes. The tax character of distributions paid, including changes in accumulated undeclared distributions to AMPS shareholders, during 2010 and 2009 were as follows:

	DISTRIBUTIONS PAID IN FISCAL YEAR 2010		DISTRIBUTIONS PAID IN FISCAL YEAR 2009		
	ORDINARY INCOME	LONG-TERM CAPITAL GAINS	ORDINARY INCOME	LONG-TERM CAPITAL GAINS	RETURN OF CAPITAL
Common	N/A	N/A	\$57,566,298	\$0	\$762,372
Preferred	N/A	N/A	\$ 1,646,350	\$0	\$ 0

As of November 30, 2009, the components of distributable earnings (i.e., ordinary income and capital gain/loss) available to Common and Preferred Stock Shareholders, on a tax basis, were as follows:

CAPITAL (LOSS) CARRYFORWARD	UNDISTRIBUTED ORDINARY INCOME	UNDISTRIBUTED LONG-TERM GAIN	NET UNREALIZED APPRECIATION/(DEPRECIATION)
\$(293,625,371)	\$0	\$0	\$(144,882,843)

At November 30, 2009, the composition of the Fund's \$293,625,371 accumulated realized capital losses was \$39,515,188, \$17,502,863, \$19,167,841, \$126,679,158 and \$90,760,321 incurred in 2004, 2005, 2007, 2008 and 2009, respectively. These losses may be carried forward and offset against any future capital gains through 2012, 2013, 2015, 2016 and 2017, respectively.

EXCISE TAX: The Internal Revenue Code of 1986, as amended, imposes a 4% nondeductible excise tax on the Fund to the extent the Fund does not distribute by the end of any calendar year at least (1) 98% of the sum of its net investment income for that year and its capital gains (both long-term and short-term) for its fiscal year and (2) certain undistributed amounts from previous years. The Fund paid \$14,343 of Federal excise taxes attributable to calendar year 2009 in March 2010.

ADDITIONAL ACCOUNTING STANDARDS: In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06, "Improving Disclosures about Fair Value Measurements". ASU No. 2010-06 amends FASB Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures, to require additional disclosures regarding fair value measurements. Certain disclosures required by ASU No. 2010-06 are effective for interim and annual reporting periods beginning after December 15, 2009, and other required disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Management is currently evaluating the impact ASU No. 2010-06 will have on its financial statement disclosures.

3. INVESTMENT ADVISORY FEE, SERVICING AGENT FEE, ADMINISTRATION FEE, TRANSFER AGENT FEE, CUSTODIAN FEE, DIRECTORS' FEES AND CHIEF COMPLIANCE OFFICER FEE

Flaherty & Crumrine Incorporated (the "Adviser") serves as the Fund's investment adviser. The Fund pays the Adviser a monthly fee at an annual rate of 0.525% of the first \$200 million of the Fund's average weekly total managed assets, 0.45% of the next \$300 million of the Fund's average weekly total managed assets, and 0.40% of the Fund's average weekly total managed assets above \$500 million.

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

For purposes of calculating the fees payable to the Adviser, Servicing Agent, Administrator and Custodian, the Fund's average weekly total managed assets means the total assets of the Fund (including any assets attributable to any Fund auction market preferred stock that may be outstanding or otherwise attributable to the use of leverage) minus the sum of accrued liabilities (other than debt, if any, representing financial leverage). For purposes of determining total managed assets, the liquidation preference of any outstanding preferred shares issued by the Fund is not treated as a liability.

Claymore Securities, Inc. (the "Servicing Agent") serves as the Fund's shareholder servicing agent. As compensation for its services, the Fund pays the Servicing Agent a fee computed and paid monthly at the annual rate of 0.025% of the first \$200 million of the Fund's average weekly total managed assets, 0.10% of the next \$300 million of the Fund's average weekly total managed assets and 0.15% of the Fund's average weekly total managed assets above \$500 million.

PNC Global Investment Servicing (U.S.) Inc. ("PNC") serves as the Fund's Administrator. As Administrator, PNC calculates the net asset value of the Fund's shares attributable to Common Stock and generally assists in all aspects of the Fund's administration and operation. As compensation for PNC's services as Administrator, the Fund pays PNC a monthly fee at an annual rate of 0.10% of the first \$200 million of the Fund's average weekly total managed assets, 0.04% of the next \$300 million of the Fund's average weekly total managed assets, 0.03% of the next \$500 million of the Fund's average weekly total managed assets and 0.02% of the Fund's average weekly total managed assets above \$1 billion.

PNC also serves as the Fund's Common Stock dividend-paying agent and registrar (Transfer Agent). As compensation for PNC's services, the Fund pays PNC a fee at an annual rate of 0.02% of the first \$150 million of the Fund's average weekly net assets attributable to Common Stock, 0.0075% of the next \$350 million of the Fund's average weekly net assets attributable to Common Stock, and 0.0025% of the Fund's average weekly net assets attributable to Common Stock above \$500 million, plus certain out of pocket expenses. For the purpose of calculating such fee, the Fund's average weekly net assets attributable to Common Stock are deemed to be the average weekly value of the Fund's total assets minus the sum of the Fund's liabilities. For this calculation, the Fund's liabilities are deemed to include the aggregate liquidation preference of any outstanding preferred shares and the loan principal balance.

PFPC Trust Company ("PFPC Trust") serves as the Fund's Custodian. PFPC Trust is an indirect subsidiary of PNC Financial Services. As compensation for PFPC Trust's services as custodian, the Fund pays PFPC Trust a monthly fee at the annual rate of 0.01% of the first \$200 million of the Fund's average weekly total managed assets, 0.008% of the next \$300 million of the Fund's average weekly total managed assets, 0.006% of the next \$500 million of the Fund's average weekly total managed assets and 0.005% of the Fund's average weekly total managed assets above \$1 billion.

The Fund currently pays each Director who is not a director, officer or employee of the Adviser a fee of \$9,000 per annum, plus \$750 for each in-person meeting of the Board of Directors or Audit Committee, \$500 for each in-person meeting of the Nominating Committee, and \$250 for each telephone meeting. The Audit Committee Chairman receives an additional annual fee of \$3,000. The Fund

also reimburses all Directors for travel and out-of-pocket expenses incurred in connection with such meetings.

27

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

The Fund currently pays the Adviser a fee of \$37,500 per annum for Chief Compliance Officer services and reimburses out-of-pocket expenses incurred in connection with providing services in this role.

4. PURCHASES AND SALES OF SECURITIES

For the six months ended May 31, 2010, the cost of purchases and proceeds from sales of securities excluding short-term investments, aggregated \$152,315,249 and \$102,406,454, respectively.

At May 31, 2010, the aggregate cost of securities for federal income tax purposes was \$1,029,488,476, the aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$56,950,064 and the aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$159,223,888.

5. COMMON STOCK

At May 31, 2010, 240,000,000 shares of \$0.01 par value Common Stock were authorized.

Common Stock transactions were as follows:

	SIX MONTHS ENDED 05/31/10		YEAR ENDED 11/30/09	
	SHARES	AMOUNT	SHARES	AMOUNT
Shares issued under the Dividend Reinvestment and Cash Purchase Plan.....	65,672	\$972,159	71,860	\$738,448

6. AUCTION MARKET PREFERRED STOCK (AMPS)

The Fund's Articles of Incorporation authorize the issuance of up to 10,000,000 shares of \$0.01 par value preferred stock. Prior to July 30, 2009, the Fund had preferred stock issued in the form of AMPS. The AMPS was senior to the Common Stock and resulted in the financial leveraging of the Common Stock. As of July 30, 2009, the Fund redeemed and cancelled the last remaining shares of AMPS and does not currently have any issued and outstanding shares of preferred stock.

The Fund redeemed AMPS shares as detailed in the table below. Shares were redeemed at a redemption price equal to the liquidation preference of \$25,000 per share, plus the amount of accumulated but unpaid dividends for each redemption date, respectively. After these redemptions, borrowings from its debt

facility were the Fund's sole source of leverage.

REDEMPTION DATE	\$ AMOUNT OF AMPS
-----	-----
May 21, 2008	\$105,025,000
May 22, 2008	55,650,000
May 23, 2008	55,650,000
May 27, 2008	111,300,000
June 5, 2008	49,375,000
October 20, 2008	13,875,000
October 27, 2008	11,850,000

28

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

REDEMPTION DATE	\$ AMOUNT OF AMPS
-----	-----
November 3, 2008	42,050,000*
November 10, 2008	5,450,000*
July 13, 2009	13,550,000
July 14, 2009	13,550,000
July 15, 2009	25,575,000
July 16, 2009	13,550,000
July 17, 2009	13,550,000
July 30, 2009	12,000,000

* Shares were redeemed on the dates reflected; however, from the Fund's perspective, the November 3rd and November 10th redemptions were effective as of October 24, 2008. The earlier effective date was due to the unconditional deposit of funds with the paying agent.

7. COMMITTED FINANCING AGREEMENT

The Fund entered into a committed financing agreement ("Financing Agreement") on May 1, 2008 which allowed the Fund to borrow up to an initial limit of \$385 million on a secured basis. The primary use of the initial proceeds was to redeem a portion of the outstanding shares of AMPS (See Note 6), although the Fund will use the borrowing facility in the normal course of business as financial leverage. Such leveraging tends to magnify both the risks and opportunities to Shareholders. On August 28, 2009, the Financing Agreement was amended to allow for changes in the committed amount. As of May 31, 2010, the committed amount, and amount borrowed, under the Financing Agreement was \$331.975 million.

Under the original terms of the Financing Agreement, the lender charged an annualized rate of 0.60% on the undrawn (committed) balance ("Commitment Fee"), and the Overnight London Interbank Offered Rate ("Overnight LIBOR") plus 0.70% on the drawn (borrowed) balance. The terms of the Financing Agreement were

subsequently renegotiated and became effective as of October 20, 2008. Under the new terms of the Financing Agreement, the lender charges an annualized rate of 1.00% on the undrawn (committed) balance, and Three-Month London Interbank Offered Rate - reset every three months - plus 1.10% on the drawn (borrowed) balance. For the six months ended May 31, 2010, the daily weighted average annualized interest rate on the drawn balance was 1.371% and the average daily loan balance was \$307,901,923. In addition, the Fund paid the lender an arrangement fee (at the origination of the facility on May 1, 2008) equal to 0.25% of the committed amount of \$385 million. The arrangement fee was amortized to expenses over a period of six months. LIBOR rates may vary in a manner unrelated to the income received on the Fund's assets, which could have either a beneficial or detrimental impact on net investment income and gains available to Shareholders.

The Fund is required to meet certain asset coverage requirements under the Financing Agreement and under the 1940 Act. In accordance with the asset coverage requirements, at least two-thirds of the Fund's assets are expected to be pledged as collateral assuming the full committed amount is drawn. Securities pledged as collateral are identified in the portfolio of investments. If the Fund fails to meet these requirements, or maintain other financial covenants required under the Financing Agreement, the Fund may

29

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

be required to repay immediately, in part or in full, the amount borrowed under the Financing Agreement. Additionally, failure to meet the foregoing requirements or covenants could restrict the Fund's ability to pay dividends to Shareholders and could necessitate sales of portfolio securities at inopportune times. The Financing Agreement has no stated maturity, but may be terminated by either party without cause with six months' advance notice.

8. PORTFOLIO INVESTMENTS, CONCENTRATION AND INVESTMENT QUALITY

The Fund invests primarily in a diversified portfolio of preferred securities. This includes fully taxable preferred securities and traditional preferred stocks eligible for the inter-corporate dividends received deduction ("DRD"). Under normal market conditions, at least 80% of the value of the Fund's total assets will be invested in preferred securities. Also, under normal market conditions, the Fund invests at least 25% of its total assets in securities issued by companies in the utilities industry and at least 25% of its total assets in securities issued by companies in the banking industry. The Fund's portfolio may therefore be subject to greater risk and market fluctuation than a portfolio of securities representing a broader range of investment alternatives.

The Fund may invest up to 25% of its assets at the time of purchase in securities rated below investment grade. These securities must be rated at least either "Ba3" by Moody's Investors Service, Inc. or "BB-" by Standard & Poor's or, if unrated, judged to be comparable in quality by the Adviser, in any case, at the time of purchase. However, these securities must be issued by an issuer having a class of senior debt rated investment grade outstanding.

The Fund may invest up to 15% of its total assets in common stocks, which total includes those convertible securities that trade in close relationship to the underlying common stock of an issuer, and, under normal market conditions, may invest up to 20% of its total assets in debt securities. Certain of its

investments in hybrid, i.e., fully taxable, preferred securities, will be subject to the foregoing 20% limitation to the extent that, in the opinion of the Adviser, such investments are deemed to be debt-like in key characteristics. Typically, a security will not be considered debt-like (a) if an issuer can defer payment of income for eighteen months or more without triggering an event of default and (b) if such issue is a junior and fully subordinated liability of an issuer or its ultimate guarantor.

In addition to foreign money market securities, the Fund may invest up to 30% of its total assets in the securities of companies organized or having their principal place of business outside the United States. All foreign securities held by the Fund will be denominated in U.S. dollars.

9. SPECIAL INVESTMENT TECHNIQUES

The Fund may employ certain investment techniques in accordance with its fundamental investment policies. These may include the use of when-issued and delayed delivery transactions. Securities purchased or sold on a when-issued or delayed delivery basis may be settled within 45 days after the date of the transaction. Such transactions may expose the Fund to credit and market valuation risk greater than that associated with regular trade settlement procedures. The Fund may also enter into transactions, in accordance with its investment policies, involving any or all of the following: short sales of securities,

30

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

purchases of securities on margin, futures contracts, interest rate swaps, swap futures, options on futures contracts, options on securities, swaptions and certain credit derivative transactions, including, but not limited to, the purchase and sale of credit protection. As in the case of when-issued securities, the use of over-the-counter derivatives, such as interest rate swaps, swaptions, and credit default swaps may expose the Fund to greater credit, operations, liquidity, and valuation risk than is the case with regulated, exchange traded futures and options. These transactions are used for hedging or other appropriate risk-management purposes, or, under certain other circumstances, to increase return. No assurance can be given that such transactions will achieve their desired purposes or will result in an overall reduction of risk to the Fund.

10. SECURITIES LENDING

The Fund may lend up to 15% of its total assets (including the value of the loan collateral) to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand. As of May 31, 2010 there were no securities on loan by the Fund.

11. SUBSEQUENT EVENTS

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued, and has determined that there was the following subsequent event:

On July 1, 2010, The PNC Financial Services Group, Inc. sold the outstanding stock of PNC Global Investment Servicing Inc. to The Bank of New York Mellon Corporation. At the closing of the sale, PNC Global Investment Servicing (U.S.) Inc. changed its name to BNY Mellon Investment Servicing (US) Inc. PFPC Trust Company will not change its name until a later date to be announced.

31

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

ADDITIONAL INFORMATION (UNAUDITED)

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

Under the Fund's Dividend Reinvestment and Cash Purchase Plan (the "Plan"), a shareholder whose Common Stock is registered in his or her own name will have all distributions reinvested automatically by PNC as agent under the Plan, unless the shareholder elects to receive cash. Distributions with respect to shares registered in the name of a broker-dealer or other nominee (that is, in "street name") may be reinvested by the broker or nominee in additional shares under the Plan, but only if the service is provided by the broker or nominee, unless the shareholder elects to receive distributions in cash. A shareholder who holds Common Stock registered in the name of a broker or other nominee may not be able to transfer the Common Stock to another broker or nominee and continue to participate in the Plan. Investors who own Common Stock registered in street name should consult their broker or nominee for details regarding reinvestment.

The number of shares of Common Stock distributed to participants in the Plan in lieu of a cash dividend is determined in the following manner. Whenever the market price per share of the Fund's Common Stock is equal to or exceeds the net asset value per share on the valuation date, participants in the Plan will be issued new shares valued at the higher of net asset value or 95% of the then current market value. Otherwise, PNC will buy shares of the Fund's Common Stock in the open market, on the New York Stock Exchange ("NYSE") or elsewhere, on or shortly after the payment date of the dividend or distribution and continuing until the ex-dividend date of the Fund's next distribution to holders of the Common Stock or until it has expended for such purchases all of the cash that would otherwise be payable to the participants. The number of purchased shares that will then be credited to the participants' accounts will be based on the average per share purchase price of the shares so purchased, including brokerage commissions. If PNC commences purchases in the open market and the then current market price of the shares (plus any estimated brokerage commissions) subsequently exceeds their net asset value most recently determined before the completion of the purchases, PNC will attempt to terminate purchases in the open market and cause the Fund to issue the remaining dividend or distribution in shares. In this case, the number of shares received by the participant will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares. These remaining shares will be issued by the Fund at the higher of net asset value or 95% of the then current market value.

Plan participants are not subject to any charge for reinvesting dividends or capital gains distributions. Each Plan participant will, however, bear a proportionate share of brokerage commissions incurred with respect to PNC's open market purchases in connection with the reinvestment of dividends or capital gains distributions. For the six months ended May 31, 2010, \$1,141 in brokerage commissions were incurred.

The automatic reinvestment of dividends and capital gains distributions will not relieve Plan participants of any income tax that may be payable on the dividends or capital gains distributions. A participant in the Plan will be treated for Federal income tax purposes as having received, on the dividend payment date, a dividend or distribution in an amount equal to the cash that the participant could have received instead of shares.

32

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

ADDITIONAL INFORMATION (UNAUDITED) (CONTINUED)

In addition to acquiring shares of Common Stock through the reinvestment of cash dividends and distributions, a shareholder may invest any further amounts from \$100 to \$3,000 semi-annually at the then current market price in shares purchased through the Plan. Such semi-annual investments are subject to any brokerage commission charges incurred.

A shareholder whose Common Stock is registered in his or her own name may terminate participation in the Plan at any time by notifying PNC in writing, by completing the form on the back of the Plan account statement and forwarding it to PNC, or by calling PNC, directly. A termination will be effective immediately if notice is received by PNC not less than 10 days before any dividend or distribution record date. Otherwise, the termination will be effective, and only with respect to any subsequent dividends or distributions, on the first day after the dividend or distribution has been credited to the participant's account in additional shares of the Fund. Upon termination and according to a participant's instructions, PNC will either (a) issue certificates for the whole shares credited to the shareholder's Plan account and a check representing and fractional shares or (b) sell the shares in the market. Shareholders who hold Common Stock registered in the name of a broker or other nominee should consult their broker or nominee to terminate participation.

The Plan is described in more detail in the Fund's Plan brochure. Information concerning the Plan may be obtained from PNC at 1-800-331-1710.

ADDITIONAL COMPENSATION AGREEMENT

The Adviser has agreed to compensate Merrill Lynch from its own resources at an annualized rate of 0.10% of the Fund's total managed assets for certain services, including after-market support services designed to maintain visibility of the Fund.

PROXY VOTING POLICIES AND PROXY VOTING RECORD ON FORM N-PX

The Fund files Form N-PX with its complete proxy voting record for the 12 months ended June 30th no later than August 31st of each year. The Fund filed its latest Form N-PX with the Securities and Exchange Commission ("SEC") on August 21, 2009. This filing as well as the Fund's proxy voting policies and procedures are available (i) without charge, upon request, by calling the Fund's transfer agent at 1-800-331-1710 and (ii) on the SEC's website at www.sec.gov.

In addition, the Fund's proxy voting policies and procedures are available on the Fund's website at www.fcclaymore.com.

PORTFOLIO SCHEDULE ON FORM N-Q

The Fund files a complete schedule of portfolio holdings with the SEC for the first and third fiscal quarters on Form N-Q, the latest of which was filed for the quarter ended February 28, 2010. The Fund's Form N-Q is available on the SEC's website at www.sec.gov or may be viewed and obtained from the SEC's Public Reference Room in Washington D.C. Information on the operation of the Public Reference Section may be obtained by calling 1-800-SEC-0330.

BOARD CONSIDERATION AND APPROVAL OF CONTINUANCE OF INVESTMENT ADVISORY AGREEMENT

On January 26, 2010, the Board of Directors of the Fund approved the continuation of the existing investment advisory agreement with the Adviser (the "Investment Advisory Agreement"). The following paragraphs summarize the material information and factors considered by the Board, including the Non-Interested Directors, as well as their conclusions relative to such factors.

In considering whether to approve the Fund's Investment Advisory Agreement, the Board members considered and discussed a substantial amount of information and analysis provided, at the Board's request, by the Adviser. The Board members also considered detailed information regarding performance and expenses of other investment companies thought to be generally comparable to the Fund. The Board members discussed with management this and other information relating to the Agreement during the Special Meeting held on January 14, 2010 for that specific purpose. On January 26, 2010, the Board members approved the continuance of the Investment Advisory Agreement. In reaching their determinations relating to continuance of the Investment Advisory Agreement, the Board members considered these discussions and all other factors they believed relevant, including the factors discussed below. In their deliberations, the Board members did not identify any particular information that was all-important or controlling, and Board members may have attributed different weights to the various factors. The Board members evaluated this information, and all other information available to them, for the Fund, and their determinations were made separately in respect of each other fund advised by the Adviser. In particular, the Board members focused on the following with respect to the Fund.

NATURE, EXTENT AND QUALITY OF SERVICES

The Board members reviewed in detail the nature and extent of the services provided by the Adviser and the quality of those services over the past year and since inception. The Board members noted that these services included managing the Fund's investment program, as well as providing significant administrative services beyond what the Investment Advisory Agreement required. The Board members noted that the Adviser also provided, generally at its expense: office facilities for use by the Fund; personnel responsible for supervising the performance of administrative, accounting and related services; and investment compliance monitoring. The Board members also considered the Adviser's sound financial condition and the Adviser's commitment to its business, in part evidenced by the Adviser maintaining its staff despite lower revenues due to the recent difficult financial period. The Board members evaluated the Adviser's services based on their direct experience serving as Directors for many years, focusing on (i) the Adviser's knowledge of the preferred securities market generally and the sophisticated hedging strategies the Fund had employed until recently, the reasons why that strategy has been ineffective during the current market dislocation, why the Adviser has suspended its customary hedging strategy, and its focus on, and internal resources dedicated to, identifying opportunities to add additional value through hedging and other sophisticated financial transactions, and (ii) the Adviser's culture of compliance. The Board members reviewed the personnel responsible for providing services to the Fund and observed that, based on their experience and interaction with the Adviser: (1) the Adviser's personnel exhibited a high level of personal integrity, diligence and attention to detail in carrying out

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

ADDITIONAL INFORMATION (UNAUDITED) (CONTINUED)

their responsibilities under the Investment Advisory Agreement; (2) the Adviser was responsive to requests of the Board and its personnel were available between Board meetings to answer questions from Board members; and (3) the Adviser had kept the Board apprised of developments relating to the Fund. The Board members also considered the continued efforts undertaken by the Adviser to maintain an effective compliance program. The Board members concluded that the nature and extent of the services provided were reasonable and appropriate in relation to the Fund's investment goals and strategies, the corporate and regulatory environment in which the Fund operates, and the level of services provided by the Adviser, and that the quality of the Adviser's service continues to be high.

INVESTMENT PERFORMANCE

The Board members took note of the extraordinary market conditions prevailing over almost the past two years and at present, the sharp recovery in the market for the Fund's securities and the Fund's superior recent performance, which evidenced the Adviser's continued adherence to its investment discipline. The Board members considered the Fund's relative performance since inception, including its performance in recent fiscal periods, including its disappointing absolute performance over certain periods that preceded the recent period of excellent performance. The Board members reviewed the Fund's performance compared to relevant indices and funds thought to be generally comparable to the Fund and examined the differences between the Fund and certain funds in the comparison group. The Board members considered their expectation at the time of last year's review, which had been realized, that the Fund's absolute performance would improve as markets normalized as the Adviser continued to follow its investment approach.

PROFITABILITY

The Board members considered the Adviser's methodology for determining its profitability with respect to the Fund, and the Adviser's profit margin on an after-tax basis attributable to managing the Fund. The Board members noted in recent years, including the last, that declining assets under management, when compared to historic highs, has led to declining Adviser profitability, but noted with approval the Adviser's continued commitment to maintain existing personnel and service levels. The Board members also considered that the Adviser provided, at a lower cost, services to separate account clients and determined that the difference was justified in light of the additional services and costs associated with managing registered investment companies, such as the Fund. The Board members accepted the Adviser's statement that it did not realize material indirect benefits from its relationship with the Fund and did not obtain soft dollar credits from securities trading.

ECONOMIES OF SCALE

The Board members noted that the Fund, as a closed-end investment company, was not expected to increase materially in size and, based on recent adverse market conditions and related deleveraging, the Fund's size had declined significantly from historic highs. Thus, in both these circumstances, the Adviser would not benefit from economies of scale, especially where personnel and other Adviser costs of providing services did not decline commensurately.

The Board members considered whether economies of scale could be realized because the Adviser advises other similar funds. Based on their experience, the Board members accepted the Adviser's explanation that significant economies of scale would not be realized because of the

39

Flaherty & Crumrine/Claymore Preferred Securities Income Fund Incorporated

ADDITIONAL INFORMATION (UNAUDITED) (CONTINUED)

complexity of managing preferred securities for separate funds and other portfolios. Nonetheless, the Board members noted that the Fund's advisory fee schedule declines as assets increase beyond a certain level (commonly known as a "breakpoint"), and that breakpoints provide for a sharing with shareholders of benefits derived as a result of economies of scale arising from increased assets. Accordingly, the Board members determined that the existing advisory fee levels reflect possible economies of scale, and possibly at levels more favorable to the Fund than might have been negotiated had the substantial volatility of the Fund's asset levels been anticipated at the time the breakpoints had been agreed upon.

In light of their discussions and considerations as described above, the Board members made the following determinations as to the Fund:

- the nature and extent and quality of the services provided by the Adviser are reasonable and appropriate and the quality of the services is high;
- the Fund's overall performance over time has been satisfactory and its performance for recent periods of absolute underperformance was reflective of market conditions, given the Fund's investment policies and strategies and the Adviser's adherence to them, which is responsible for the recent superior performance as markets stabilized;
- the fee paid to the Adviser was reasonable in light of (i) comparative performance and expense and advisory fee information, considered over relevant time periods, (ii) the cost of the services provided and profits to be realized, and (iii) the benefits derived or to be derived by the Adviser from its relationship with the Fund; and
- there were not at this time significant economies of scale to be realized by the Adviser in managing the Fund's assets, and the fee was structured to provide for a sharing of the benefits of economies of scale.

Based on these conclusions, the Board members determined that approval of the Investment Advisory Agreement was in the best interests of the Fund and its shareholders.

THIS REPORT IS SENT TO SHAREHOLDERS OF FLAHERTY & CRUMRINE/CLAYMORE PREFERRED SECURITIES INCOME FUND INCORPORATED FOR THEIR INFORMATION. IT IS NOT A PROSPECTUS, CIRCULAR OR REPRESENTATION INTENDED FOR USE IN THE PURCHASE OR SALE OF SHARES OF THE FUND OR OF ANY SECURITIES MENTIONED IN THIS REPORT.

ITEM 2. CODE OF ETHICS.

Not applicable.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

Not applicable.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not applicable.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable.

ITEM 6. INVESTMENTS.

(a) Schedule of Investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the report to shareholders filed under Item 1 of this form.

(b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

There has been no change, as of the date of this filing, in any of the portfolio managers identified in response to paragraph (a)(1) of this Item in the registrant's most recently filed annual report on Form N-CSR.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which the shareholders may recommend nominees to the registrant's board of directors, where those changes were implemented after the registrant last provided disclosure in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by Item 22(b)(15) of Schedule 14A (17 CFR 240.14a-101)), or this Item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

- (a) (1) Not applicable.
- (a) (2) Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
- (a) (3) Not applicable.
- (b) Certifications pursuant to Rule 30a-2(b) under the 1940 Act and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto.
