TERNIUM S.A.

Notes to the Consolidated Condensed Interim Financial Statements (Contd.)

1 General information and basis of presentation

Ternium S.A. (the Company or Ternium), a Luxembourg Corporation (Société Anonyme), was incorporated on December 22, 2003 under the name of Zoompart Holding S.A. to hold investments in flat and long steel manufacturing and distributing companies. The extraordinary shareholders meeting held on August 18, 2005, changed the corporate name to Ternium S.A.

Following a corporate reorganization carried out during fiscal year 2005, in January 2006 the Company successfully completed its registration process with the United States Securities and Exchange Commission (SEC). As from February 1, 2006, the Company s shares are listed in the New York Stock Exchange.

The name and percentage of ownership of subsidiaries that have been included in consolidation in these Consolidated Condensed Interim Financial Statements is disclosed in Note 2 to the audited Consolidated Financial Statements for the year ended December 31, 2009.

Certain comparative amounts have been reclassified to conform to changes in presentation in the current period.

The preparation of consolidated condensed interim financial statements requires management to make estimates and assumptions that might affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the statement of financial position, and also the reported amounts of revenues and expenses for the reported periods. Actual results may differ from these estimates.

Material intercompany transactions and balances have been eliminated in consolidation. However, the fact that the functional currency of the Company s subsidiaries differ, results in the generation of foreign exchange gains that are included in the consolidated condensed interim income statement under Other financial income (expenses), net .

These Consolidated Condensed Interim Financial Statements were approved by the Board of Directors of Ternium on November 3, 2010.

2 Accounting policies

These Consolidated Condensed Interim Financial Statements have been prepared in accordance with IAS 34, Interim Financial Reporting . These Consolidated Condensed Interim Financial Statements should be read in conjunction with the audited Consolidated Financial Statements for the year ended December 31, 2009, which have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board, and adopted by the European Union.

Recently issued accounting pronouncements were applied by the Company as from their respective dates.

These Consolidated Condensed Interim Financial Statements have been prepared following the same accounting policies used in the preparation of the audited Consolidated Financial Statements for the year ended December 31, 2009, except for the application of the following accounting pronouncements, which became effective on January 1, 2010:

IFRS 3 (revised January 2008), Business Combinations

The revised standard continues to apply the acquisition method to business combinations, with some significant changes. Those changes refer principally to the following:

Partial acquisitions: Non-controlling interests are measured either as their proportionate interest in the net identifiable assets (which is the original IFRS 3 requirement) or at fair value (which is the new requirement).

Step acquisitions: The requirement to measure at fair value every asset and liability at each step for the purposes of calculating a portion of goodwill has been removed. Instead, goodwill is measured as the difference at acquisition date between the fair value of any investment in the business held before the acquisition, the consideration transferred and the net assets acquired.

Acquisition-related costs: Acquisition-related costs are generally recognised as expenses (rather than included in goodwill).

TERNIUM S.A.**Notes to the Consolidated Condensed Interim Financial Statements (Contd.)****2 Accounting policies (continued)**

Contingent consideration: Contingent consideration must be recognised and measured at fair value at the acquisition date. Subsequent changes in fair value are recognised in accordance with other IFRSs, usually in profit or loss (rather than by adjusting goodwill).

3 Segment information**Reportable operating segments**

For management purposes, the Company is organized on a worldwide basis into the following segments: flat steel products, long steel products and others.

The flat steel products segment comprises the manufacturing and marketing of hot rolled coils and sheets, cold rolled coils and sheets, tin plate, welded pipes, hot dipped galvanized and electro-galvanized sheets, pre-painted sheets and other tailor-made products to serve its customers' requirements.

The long steel products segment comprises the manufacturing and marketing of billets (steel in its basic, semi-finished state), wire rod and bars.

The other products segment includes products other than flat and long steel, mainly pig iron, pellets and pre-engineered metal buildings.

TERNIUM S.A.**Notes to the Consolidated Condensed Interim Financial Statements (Contd.)****3 Segment information (continued)****Geographical information**

Ternium sells its products to three main geographical areas: South and Central America, North America, and Europe and others. The North American area comprises principally United States, Canada and Mexico. The South and Central American area comprises principally Argentina, Colombia, Chile, Paraguay, Ecuador, Guatemala, Costa Rica and Brazil.

9 Distribution of dividends

During the annual general shareholders meeting held on June 2, 2010, the shareholders approved the consolidated financial statements and unconsolidated annual accounts for the year ended December 31, 2009 and a distribution of dividends of USD 0.05 per share (USD 0.50 per ADS), or USD 100.2 million. The dividends were paid on June 10, 2010.

10 Contingencies, commitments and restrictions on the distribution of profits

This note should be read in conjunction with Note 27 to the Company's audited Consolidated Financial Statements for the year ended December 31, 2009. Significant changes or events since the date of issue of such financial statements are as follows:

*(i) Siderar***(a) Expansion project**

Within the investment plan to increase its production capacity, Siderar has entered into several commitments to acquire new production equipment for a total consideration of USD 130.3 million.

Furthermore, related to operating activities and to the investment plan, Siderar entered into an agreement with Air Liquide Argentina S.A. (Alasa) for the supply of oxygen, nitrogen and argon for a contracted amount of USD 173.7 million which is due to terminate in 2025.

Given the severe international financial crisis initiated in 2008, its impact on the steel global market and the uncertainty about the evolution of steel demand, Siderar rescheduled the execution of its investment plan. Consequently, Siderar agreed with some suppliers to cancel or postpone some purchase orders.

Regarding the agreement entered with Alasa and after several negotiations, a provisory suspension of services and supplies from both parties related to the construction of the new gas facility was agreed until December 31, 2010. If a new postponement is not agreed, or a definitive agreement is not reached, Alasa would be entitled to claim Siderar

fulfillment of the commitments starting January 1, 2011.

(b) Raw material contracts

Siderar has assumed fixed commitments for the purchase of raw materials for the next three years for a total consideration USD 649.8 million, which include purchases of certain raw materials at prices that are USD 32.4 million higher than market prices at the end of the period. The Company records the actual cost incurred for the purchase of such raw materials and does not recognize any anticipated losses, as sales prices of finished goods are expected to exceed production cost.

TERNIUM S.A.**Notes to the Consolidated Condensed Interim Financial Statements (Contd.)****10 Contingencies, commitments and restrictions on the distribution of profits (continued)***(ii) Steel supply contracts*

Grupo Imsa (now Ternium Mexico), together with Grupo Marcegaglia, Duferco International and Dongkuk Steel were parties to a ten-year steel slab off-take framework agreement with Corus UK Limited dated as of December 16, 2004, which was supplemented by bilateral off-take agreements. Under the agreements, the offtakers could be required, in the aggregate, to purchase approximately 78% of the steel slab production of Corus Teeside facility in the North East of England, of which Grupo Imsa's share was 15.38%, or approximately 0.5 million tons per year.

In addition, the offtakers were required to make, in the aggregate and according to their respective pro rata shares, significant payments to Corus to finance capital expenditures. In December 2007, all of Grupo Imsa's rights and obligations under this contract were assigned to Ternium Procurement S.A. (formerly known as Alvory S.A.).

On April 7, 2009, Ternium Procurement S.A., together with the other offtakers, declared the early termination of the off-take framework agreement and their respective off-take agreements with Corus pursuant to a provision allowing the offtakers to terminate the agreements upon the occurrence of certain events specified in the off-take framework agreement. Corus initially denied the occurrence of the alleged termination event, stated that it would pursue specific performance and initiated an arbitration proceeding against the offtakers and Ternium Mexico (as guarantor of Ternium Procurement's obligations) seeking damages arising out of the alleged wrongful termination of the off-take agreements, which damages Corus did not quantify but stated would exceed the USD150 million (approximately USD 29.7 million in the case of Ternium Procurement), the maximum aggregate cap on liability that the offtakers understand would have under the off-take framework agreement (a limitation that Corus disputes). In addition, Corus threatened to submit to arbitration further claims in tort against the offtakers, and also threatened to submit such claims against certain third parties to such agreements, including the Company. The offtakers and Ternium Mexico, in turn, denied Corus's claims and brought counterclaims against Corus which, in the aggregate, would also be greater than USD150 million. On May 12, 2009, Corus, by a letter from its lawyers, alleged that the offtakers's termination notice amounted to a repudiatory breach of the agreements and stated that it accepted that the agreements had come to an end and that it would no longer pursue a claim for specific performance in the arbitration; the claim for damages, for all losses caused by the alleged offtakers' wrongful repudiation of the agreements, however, would be maintained. On July 9, 2009, Corus submitted an amended request for arbitration adding tortious claims against the offtakers and adding to its claims the payment of punitive or exemplary damages. The arbitration proceeding has not yet concluded. At the date of issue of these financial statements it is impossible to foresee the final outcome of this arbitration proceeding.

(iii) Restrictions on the distribution of profits

Under Luxembourg law, at least 5% of net income per year calculated in accordance with Luxembourg law and regulations must be allocated to a reserve until such reserve equals 10% of the share capital. At December 31, 2009, this reserve reached the above-mentioned threshold.

Ternium may pay dividends to the extent that it has distributable retained earnings and distributable reserves calculated in accordance with Luxembourg law and regulations. Therefore, retained earnings included in these consolidated condensed interim financial statements may not be wholly distributable.

Shareholders' equity under Luxembourg law and regulations comprises the following captions:

| | At December 31, 2009 |
|---|---------------------------------|
| Share capital | 2,004,743 |
| Legal reserve | 200,474 |
| Distributable reserves | 201,674 |
| Non distributable reserves | 1,414,123 |
| Accumulated profit at December 31, 2009 | 1,535,379 |

| | |
|--|------------------|
| Total shareholders equity under Luxembourg GAAP | 5,356,393 |
|--|------------------|

TERNIUM S.A.

Notes to the Consolidated Condensed Interim Financial Statements (Contd.)

11 Nationalization of Sidor

On March 31, 2008, Ternium S.A. (the Company) controlled approximately 59.7% of Sidor, while Corporación Venezolana de Guayana, or CVG (a Venezuelan governmental entity), and Banco de Desarrollo Económico y Social de Venezuela, or BANDES (a bank owned by the Venezuelan government), held approximately 20.4% of Sidor and certain Sidor employees and former employees held the remaining 19.9% interest.

Further to several threats of nationalization and various adverse interferences with management in preceding years, on April 8, 2008, the Venezuelan government announced its intention to take control over Sidor. On April 29, 2008, the National Assembly of Venezuela passed a resolution declaring that the shares of Sidor, together with all of its assets, were of public and social interest, and authorizing the Venezuelan government to take any action it deemed appropriate in connection with any such assets, including expropriation.

On May 11, 2008, Decree Law 6058 of the President of Venezuela regulating the steel production activity in the Guayana, Venezuela region (the Decree), dated April 30, 2008, was published. The Decree ordered that Sidor and its subsidiaries and associated companies be transformed into state-owned enterprises (empresas del Estado), with the government owning not less than 60% of their share capital. The Decree required the Venezuelan government to create two committees: a transition committee to be incorporated into Sidor's management and to ensure that control over the current operations of Sidor and its subsidiaries and associated companies was transferred to the government on or prior to July 12, 2008, and a separate technical committee, composed of representatives of the government and the private shareholders of Sidor and its subsidiaries and associated companies, to negotiate over a 60-day period (extendable by mutual agreement) a fair price for the shares to be transferred to Venezuela. The Decree also stated that, in the event the parties failed to reach agreement by the expiration of the 60-day period, the Venezuelan Ministry of Basic Industries and Mining (the MIBAM) would assume control and exclusive operation of, and the Executive Branch would order the expropriation of, the shares of the relevant companies in accordance with the Venezuelan Expropriation Law.

Upon expiration of the term contemplated under the Decree, on July 12, 2008, Venezuela, acting through CVG, assumed operational control and complete responsibility for Sidor's operations, and Sidor's board of directors ceased to function. However, negotiations between the Venezuelan government and the Company regarding the terms of the compensation continued over several months, and the Company retained formal title over the Sidor shares during that period.

On May 7, 2009, the Company completed the transfer of its entire 59.7% interest in Sidor to CVG. The Company agreed to receive an aggregate amount of USD 1.97 billion as compensation for its Sidor shares. Of that amount, CVG paid USD 400 million in cash at closing. The balance was divided in two tranches: the first tranche of USD 945 million is being paid in six equal quarterly installments beginning in August 2009 until November 2010, while the second tranche will be due in November 2010, subject to quarterly mandatory prepayment events based on the increase of the WTI crude oil price over its May 6, 2009 level. Under the agreements with CVG and Venezuela, in the event of non-compliance by CVG with its payment obligations, the Company has reserved the rights and remedies that it had prior to the transfer of the Sidor shares in relation to any claim against Venezuela, subject to certain limitations, including that the Company may not claim an amount exceeding the outstanding balance due from CVG.

TERNIUM S.A.

Notes to the Consolidated Condensed Interim Financial Statements (Contd.)

11 Nationalization of Sidor (continued)

At September 30, 2010, the carrying amount of the Sidor financial asset (following the receipt of USD 1,721.0 million cash payments) amounted to USD 253.7 million after application of a 14.36% annual discount rate to adequately reflect, and only for the purpose of recording, the present accounting value of the receivable with CVG. The Company estimated the 14.36% annual discount rate on the basis of the yield (13.3%) of Venezuelan sovereign debt with maturities similar to that of the receivable held by Ternium against CVG. However, as the Venezuelan sovereign debt with similar maturities was governed by New York law while the receivable with CVG was governed by Venezuelan law, the discount rate was further adjusted to adequately reflect the specific risk of Ternium's receivable.

In the three-month period ended June 30, 2009, the Company recorded a net gain, in accounting terms, of USD 428.0 million in connection with this transaction which was disclosed within *Income from discontinued operations* in the Income Statement. This result represents the difference between (i) the fair value, in accounting terms, net of taxes and other transaction costs, of the compensation for the Sidor financial asset (which comprised a USD 400 million cash payment and a receivable against CVG that, at May 7, 2009, had a fair value of USD 1,382.0 million after application of the discount rate stated above, net of taxes and other transaction costs of USD 35.1 million) and (ii) the carrying amount of the Sidor financial asset at March 31, 2009.

In the nine-month period ended September 30, 2010, the Company recorded a gain in the amount of USD 56.7 million included in *Interest income - Sidor financial asset* in the Income Statement, representing the accretion income over the receivable held against CVG. All the above is without prejudice to the rights of the Company, including the rights and remedies reserved in the agreement with CVG and Venezuela as described above, in the event of non-compliance by CVG with its payment obligations.

12 Acquisition of business

On August 25, 2010, Ternium S.A. completed the acquisition of a 54% ownership interest in Ferrasa S.A.S., a company organized under the laws of Colombia (*Ferrasa*) through a capital contribution in the amount of USD 74.5 million. Ferrasa has a 100% ownership interest in Sidecaldas S.A.S. (*Sidecaldas*), Figuraciones S.A.S. (*Figuraciones*) and Perfilamos del Cauca S.A.S. (*Perfilamos*), all of which are also Colombian companies. Ternium has also completed the acquisition of a 54% ownership interest in Ferrasa Panamá S.A. (*Ferrasa Panamá*) for USD 0.5 million. On the mentioned date the Company obtained control over the assets and liabilities of the acquired companies.

Ferrasa is a long and flat steel products processor and distributor. Sidecaldas is a scrap-based long steel making and rolling facility, with an annual production capacity of approximately 140,000 tons. Figuraciones and Perfilamos manufacture welded steel tubes, profiles and beams. These companies have combined annual sales of approximately 300,000 tons, of which approximately 70% are long products and 30% are flat and tubular products, used mainly in the construction sector. Ferrasa Panamá is a long steel products processor and distributor based in Panama, with annual sales of approximately 8,000 tons.

The former controlling shareholders have an option to sell to Ternium, at any time, all or part of their remaining 46% interest in each of Ferrasa and Ferrasa Panamá, and Ternium has an option to purchase all or part of that remaining interest from the former controlling shareholders, at any time after the second anniversary of the closing.

TERNIUM S.A.**Notes to the Consolidated Condensed Interim Financial Statements (Contd.)****12 Acquisition of business (continued)**

Ferrasa and Ferrasa Panamá contributed revenues of USD 33.1 million and a net loss of USD 0.7 million (net of USD 0.6 million of non-controlling interests) in the period from August 25, 2010 to September 30, 2010. The fair value and book value of assets and liabilities arising from the transaction are as follows:

| | Fair value | Book value |
|--|-------------------|-------------------|
| Property, plant and equipment | 140,118 | 140,413 |
| Previously recognized goodwill | | 37,377 |
| Trademarks | 4,407 | |
| Customer relationships | 15,403 | |
| Other contractual rights | 4,064 | |
| Other intangible assets | 42 | 42 |
| Inventories | 76,771 | 76,241 |
| Cash and cash equivalents | 6,593 | 6,593 |
| Deferred Tax Assets | 7,832 | 1,180 |
| Borrowings | (134,120) | (134,120) |
| Other assets and liabilities, net | 15,141 | 15,141 |
| Non-controlling interest in subsidiaries | (236) | (236) |
| Net | 136,015 | 142,631 |
| Non-controlling interest | (62,572) | |
| Goodwill | 1,557 | |

Total Purchase Consideration**75,000**

Goodwill, representing the excess of the purchase price paid over the fair value of identifiable assets, liabilities and contingent liabilities totaled USD 1.6 million. Goodwill derives mainly from the fair value of the going concern element of the acquiree.

The Company has chosen to recognize the non-controlling interest at its proportionate share in net identifiable assets acquired.

Acquisition related costs are included in the income statement.

13 Related party transactions

The Company is controlled by San Faustín N.V.. As of September 30, 2010, San Faustin N.V. beneficially owned 60.64% and Tenaris, which is also controlled by San Faustin, held 11.46%, of our outstanding voting stock. Rocca & Partners S.A. controls a significant portion of the voting power of San Faustin N.V. and has the ability to influence matters affecting, or submitted to a vote of the shareholders of San Faustin N.V., such as the election of directors, the approval of certain corporate transactions and other matters concerning the Company's policies. There are no controlling shareholders for Rocca & Partners S.A..

14 Recently issued accounting pronouncements

(i) Improvements to International Financial Reporting Standards

In May 2010, the IASB issued *Improvements to International Financial Reporting Standards* by which it amended several international accounting and financial reporting standards.

The effective date of each amendment is included in the IFRS affected.

The Company's management estimates that the application of these improvements will not have a material effect on the Company's financial condition or results of operations.

TERNIUM S.A.

Notes to the Consolidated Condensed Interim Financial Statements (Contd.)

14 Recently issued accounting pronouncements (continued)

(ii) Amendments to IFRS 7, Financial Instruments: Disclosures

In October 2010, the IASB amended International Financial Reporting Standard 7 Financial Instruments- Disclosures . The amendment requires disclosures to help users of financial statements evaluate the risk exposures relating to transfers of financial assets that are not derecognised and the effect of those risks on an entity s financial position. Entities shall apply these amendments for annual periods beginning on or after 1 July 2011. Earlier application is permitted.

The Company s management estimates that the application of this amendment will not have a material effect on the Company s financial condition or results of operations.

15 Subsequent events Agreement to establish a joint venture in Mexico

On October 4, 2010, Ternium S.A. and Nippon Steel Corporation signed a definitive agreement to form a joint venture in Mexico for the manufacturing and sale of hot-dip galvanized and galvanized steel sheets to serve the Mexican automobile market. The joint venture will operate under the name of Tenigal SRL de CV (Tenigal). Ternium and Nippon Steel will hold 51% and 49% participations in Tenigal, respectively.

Tenigal plans to build a hot-dip galvanizing plant in the vicinity of Monterrey City with a production capacity of 400,000 tons per year. Construction of the facility would require a total investment of approximately USD 350 million. The plant is expected to commence production of high-grade and high-quality galvanized and galvanized automotive steel sheets, including outer-panel and high-strength qualities, in 2013.
