CAPITAL SENIOR LIVING CORPORATION
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2011

1. BASIS OF PRESENTATION

Capital Senior Living Corporation, a Delaware corporation (together with its subsidiaries, the Company), is one of the largest operators of senior living communities in the United States in terms of resident capacity. The Company owns, operates, develops and manages senior living communities throughout the United States. As of March 31, 2011, the Company operated 77 senior living communities in 23 states with an aggregate capacity of approximately 11,000 residents, including 32 senior living communities which the Company either owned or in which the Company had an ownership interest and 45 senior living communities that the Company leased. As of March 31, 2011, the Company also operated one home care agency. The accompanying consolidated financial statements include the financial statements of Capital Senior Living Corporation and its wholly owned subsidiaries. All material intercompany balances and transactions have been eliminated in consolidation. The Company accounts for significant investments in unconsolidated companies, in which the Company has significant influence, using the equity method of accounting. The accompanying consolidated balance sheet, as of December 31, 2010, has been derived from audited consolidated financial statements of the Company for the year ended December 31, 2010, and the accompanying unaudited consolidated financial statements, as of March 31, 2011 and 2010, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in the annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to those rules and regulations. For further information, refer to the financial statements and notes thereto for the year ended December 31, 2010, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 14, 2011.

In the opinion of the Company, the accompanying consolidated financial statements contain all adjustments (all of which were normal recurring accruals) necessary to present fairly the Company's financial position as of March 31, 2011, results of operations for the three months ended March 31, 2011 and 2010, and cash flows for the three months ended March 31, 2011 and 2010. The results of operations for the three months ended March 31, 2011, are not necessarily indicative of the results for the year ending December 31, 2011.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments in Joint Ventures

The Company accounts for its investments in joint ventures under the equity method of accounting. As of March 31, 2011, the Company owns member interests in seven joint ventures. The Company has not consolidated these joint venture interests because the Company has concluded that the limited partners or the other members of each joint venture have substantive kick-out rights or substantive participating rights. Under the equity method of accounting the Company records its investments in joint ventures at cost and adjusts such investments for its share of earnings and losses of the joint ventures.

Development Guarantees

The Company, on three joint venture developments, has guarantees that the communities will be completed and operated at the budgeted costs approved by the joint venture members. These costs include the hard and soft construction costs and operating costs until each community reaches breakeven. The budgeted costs include contingency reserves for potential cost overruns and other unforeseen costs. The terms of these guarantees generally do not provide for a limitation on the maximum potential future payments. These joint venture communities are currently in lease up and one of the joint ventures had exhausted its lease up reserve under the existing loan commitment. The Company will be required to fund any operating deficits until the joint venture reaches breakeven for three consecutive months. Any amounts funded by the Company under this commitment, up to \$0.5 million, may be recoverable from the joint ventures in the event of liquidation. As of March 31, 2011, the Company has recognized deficit charges of approximately \$0.5 million under these development agreement guarantees. The Company does not currently anticipate funding any deficits in excess of the amounts estimated to be recoverable from the joint ventures.

Table of Contents

Assets Held for Sale

Assets are classified as held for sale when the Company has committed to selling the asset and believes that it will be disposed of within one year. The Company determines the fair value, net of costs of disposal, of an asset on the date the asset is categorized as held for sale, and the asset is recorded at the lower of its fair value, net of cost of disposal, or carrying value on that date. The Company periodically reevaluates assets held for sale to determine if the assets are still recorded at the lower of fair value, net of cost of disposal, or carrying value. The fair value of properties are generally determined based on market rates, industry trends and recent comparable sales transactions. The actual sales price of these assets could differ significantly from the Company's estimates.

The Company had a parcel of land in Fort Wayne, Indiana, held for sale at March 31, 2011. The parcel of land was written down to its fair value, less costs to sell, to \$0.4 million during fiscal 2008. The Company currently estimates that this parcel of land has an aggregate fair value, net of costs of disposal, that approximates its carrying value of \$0.4 million at March 31, 2011. The amount that the Company will ultimately realize on the parcel of land could differ materially from this estimate.

Lease Accounting

The Company determines whether to account for its leases as either operating, capital or financing leases depending on the underlying terms of each lease agreement. This determination of classification is complex and requires significant judgment relating to certain information including the estimated fair value and remaining economic life of the community, the Company's cost of funds, minimum lease payments and other lease terms. As of March 31, 2011, the Company leased 45 communities and classified each of the leases as an operating lease. The Company incurs lease acquisition costs and amortizes these costs over the term of the respective lease agreement. Certain leases entered into by the Company qualified as sale/leaseback transactions and as such any related gains have been deferred and are being amortized over the respective lease term. Facility lease expense in the Company's statement of income includes rent expense plus amortization expense relating to leasehold acquisition costs offset by the amortization of deferred gains and lease incentives.

As of March 31, 2011, the Company has a non-cancelable lease which expires in 2013 for ten 12-passenger Ford Minibuses that are used to transport residents of certain communities. The lease is classified as a capital lease because it contains a bargain purchase option which resulted in the Company initially recording a capital lease obligation for \$247,000 of which \$183,000 remains outstanding at March 31, 2011.

There are various financial covenants and other restrictions in the Company's lease agreements. Under the terms of certain lease agreements, the Company has previously deposited additional cash collateral. The balance of the additional cash collateral totaled approximately \$1.3 million at March 31, 2011. Once the Company reaches certain performance targets, the additional cash collateral paid is returnable to the Company. During the first quarter of 2011, the Company entered into a lease modification amendment and made a pay down of approximately \$3.8 million on a certain lease to cure a lease covenant violation. Subsequent to March 31, 2011, the Company executed a lease modification amendment which was effective March 15, 2011, and extended the cure provisions for one of its properties through September 31, 2011. With this amendment, the Company was in compliance with all lease covenants at March 31, 2011.

Income Taxes

At March 31, 2011, the Company had recorded on its consolidated balance sheet net deferred tax assets of approximately \$4.1 million. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Management regularly evaluates the future realization of deferred tax assets and provides a valuation allowance, if considered necessary, based on such evaluation. As part of the evaluation, management has evaluated future expectations of net income. However, the benefits of the net deferred tax assets might not be realized if actual results differ from expectations. The Company believes based upon this analysis that the realization of the net deferred tax assets is reasonably assured and therefore has not provided for a valuation allowance.

The Company evaluates uncertain tax positions through consideration of accounting and reporting guidance on criteria, measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial-statement comparability among different companies. The

Company is required to recognize a tax benefit in its financial statements for an uncertain tax position only if management's assessment is that its position is more likely than not (i.e., a greater than 50 percent likelihood) to be upheld on audit based only on the technical merits of the tax position. The Company's policy

Table of Contents

is to recognize interest related to unrecognized tax benefits as interest expense and penalties as income tax expense. The Company is not subject to income tax examinations for tax years prior to 2007.

Net Income Per Share

Basic net income per common share is computed by dividing net income remaining after allocation to unvested restricted shares by the weighted average number of common shares outstanding for the period. Except when the effect would be anti-dilutive, the calculation of diluted net income per common share includes the net impact of unvested restricted shares and shares that could be issued under outstanding stock options.

The following table sets forth the computation of basic and diluted net income per share (in thousands, except for per share amounts):

	Three Months Ended March 31,	
	2011	2010
Net income	\$ 1,298	\$ 725
Net income allocable to unvested restricted shares	(26)	(13)
Undistributed net income attributable to common shares	\$ 1,272	\$ 712
Weighted average shares outstanding basic	26,884	26,540
Effects of dilutive securities:		
Employee equity compensation plans	109	98
Weighted average shares outstanding diluted	26,993	26,638
Basic income per share	\$ 0.05	\$ 0.03
Diluted income per share	\$ 0.05	\$ 0.03

Awards of unvested restricted stock representing approximately 550,000 and 463,000 shares were outstanding for the first quarters ended March 31, 2011 and 2010, respectively, and were included in the computation of allocable net income.

Treasury Stock

The Company accounts for treasury stock under the cost method and includes treasury stock as a component of stockholders' equity.

3. TRANSACTIONS WITH AFFILIATES*SHPII/CSL*

In November 2004, the Company with Senior Housing Partners II, L.P. (SHPII) formed four joint ventures (collectively, SHPII/CSL) that own four senior living communities (the Spring Meadows Communities). As of March 31, 2011, the Company had contributed \$1.3 million for its interests in SHPII/CSL. The Company accounted for its investment in SHPII/CSL under the equity method of accounting and the Company recognized earnings in the equity of SHPII/CSL of \$61,000 and \$70,000 in the first quarters ended March 31, 2011 and 2010, respectively. After closing costs and taxes, the Company received net proceeds of approximately \$11.5 million from the transaction. The gain realized

from the sale will be deferred and amortized as a reduction in facility rent expense over the life of the initial lease term. The Company may receive additional proceeds after the joint ventures settle their customary post-closing costs.

Shares of stock repurchased under the program will be held as treasury shares. Pursuant to this authorization, during fiscal 2009, the Company purchased 349,800 shares at an average cost of \$2.67 per share for a total cost to the Company of approximately \$0.9 million. All such purchases were made in open market transactions. The Company has not purchased any additional shares of its common stock pursuant to the Company's share repurchase program subsequent to fiscal 2009.

6. STOCK-BASED COMPENSATION

The Company recognizes compensation expense for share-based stock awards to employees, including grants of employee stock options and awards of restricted stock, in the statement of income based on their fair values.

On May 8, 2007, the Company's stockholders approved the 2007 Omnibus Stock and Incentive Plan for Capital Senior Living Corporation (the 2007 Plan), which provides for, among other things, the grant of restricted stock awards and stock options to purchase shares of the Company's common stock. The 2007 Plan authorizes the Company to issue up to 2.6 million shares of common stock and the Company has reserved 1.9 million shares of common stock for future issuance pursuant to awards under the 2007 Plan. Effective May 8, 2007, the 1997 Omnibus Stock and Incentive Plan (as amended, the 1997 Plan) was terminated and no additional shares will be granted under the 1997 Plan. The Company has reserved 0.9 million shares of common stock for future issuance upon the exercise of stock options that remain outstanding pursuant to the 1997 Plan.

Stock Options

The Company's stock option program is a long-term retention program that is intended to attract, retain and provide incentives for employees, officers and directors and to align more closely stockholder and employee interests. The Company's options generally vest over a period of one to five years and the related expense is amortized on a straight-line basis over the vesting period.

A summary of the Company's stock option activity and related information for the three-month period ended March 31, 2011, is presented below:

Table of Contents

	Outstanding at Beginning of				Outstanding at End of		Options
	Period	Granted	Exercised	Forfeited	Period	Exercisable	
Shares	516,334		197,100		319,234	319,234	
Weighted average exercise price	\$ 4.44	\$	\$ 2.14	\$	\$ 5.86	\$ 5.86	

The options outstanding and the options exercisable at March 31, 2011, each had an intrinsic value of \$1.5 million.

Restricted Stock

The Company may grant restricted stock awards to employees, officers, and directors. For restricted stock awards without performance-based vesting conditions, the Company records compensation expense for the entire award on a straight-line basis over the requisite service period, which is generally a period of three to four years, but such awards are considered outstanding at the time of grant since the holders thereof are entitled to dividends and voting rights. For restricted stock awards with performance-based vesting conditions, total compensation expense is recognized over the requisite service period for each separately vesting tranche of the award as if the award is, in substance, multiple awards once the performance target is deemed probable of achievement. Performance goals are evaluated periodically and if such goals are not ultimately met or it is not probable the goals will be achieved, no compensation expense is recognized and any previously recognized compensation expense is reversed.

The Company recognizes compensation expense of a restricted stock award over its respective vesting period based on the fair value of the award on the grant date, net of forfeitures. A summary of the Company's restricted stock awards activity and related information for the three-month period ended March 31, 2011, is presented below:

	Outstanding at Beginning of				Outstanding at End of	
	Period	Issued	Vested	Forfeited	Period	
Shares	449,893	271,080	167,331	4,000	549,642	

The restricted stock outstanding at March 31, 2011, had an intrinsic value of \$5.8 million.

Stock Based Compensation

The Company uses the Black-Scholes option pricing model to estimate the grant date fair value of its stock options. The Black-Scholes model requires the input of certain assumptions including expected volatility, expected dividend yield, expected life of the option and the risk free interest rate. The expected volatility used by the Company is based primarily on an analysis of historical prices of the Company's common stock. The expected term of options granted is based primarily on historical exercise and vesting patterns on the Company's outstanding stock options. The risk free rate is based on zero-coupon U.S. Treasury yields in effect at the date of grant with the same period as the expected option life. The Company does not currently plan to pay dividends on its common stock and therefore has used a dividend yield of zero in determining the fair value of its awards. The option forfeiture rate assumptions used by the Company, which affect the expense recognized as opposed to the fair value of the awards, are based primarily on the Company's historical option forfeiture patterns. The Company issued no stock options during each of the first quarters of fiscal 2011 and 2010.

The Company has total stock-based compensation expense, including estimated forfeitures, of \$1.4 million, which was not recognized as of March 31, 2011, and expects this expense to be recognized over approximately a three to four year period.

7. CONTINGENCIES

The Company has claims incurred in the normal course of its business. Most of these claims are believed by management to be covered by insurance, subject to normal reservations of rights by the insurance companies and

possibly subject to certain exclusions in the applicable insurance policies. Whether or not covered by insurance, these claims, in the opinion of management, based on advice of legal counsel, should not have a material effect on the consolidated financial statements of the Company if determined adversely to the Company.

Table of Contents**8. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The carrying amounts and fair values of financial instruments at March 31, 2011, and December 31, 2010, are as follows (in thousands):

	2011		2010	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	\$ 29,941	\$ 29,941	\$ 31,248	\$ 31,248
Restricted cash	8,907	8,907	6,334	6,334
Notes payable	173,652	165,879	175,671	170,466

The following methods and assumptions were used in estimating its fair value disclosures for financial instruments:

Cash and cash equivalents and Restricted cash: The carrying amounts reported in the balance sheets for cash and cash equivalents and restricted cash approximate fair value.

Notes payable: The fair value of notes payable is estimated using discounted cash flow analysis, based on current incremental borrowing rates for similar types of borrowing arrangements.

9. SUBSEQUENT EVENTS

On April 8, 2011, SHPII/CSL closed the sale of the four senior living communities to Health Care REIT, Inc. (HCN). Upon closing the sale, the Company leased the four senior living communities from HCN. The Company received proceeds, including incentive distributions, from the sale by SHPII/CSL of approximately \$17.0 million, compared to its original investment of approximately \$1.3 million. After closing costs and taxes, the Company received net proceeds of approximately \$11.5 million from the transaction. The gain realized from the sale will be deferred and amortized as a reduction in facility rent expense over the life of the initial lease term. The Company may receive additional proceeds after the joint ventures settle their customary post-closing costs.

The Company cautions readers that forward-looking statements, including, without limitation, those relating to the Company's future business prospects, revenues, working capital, liquidity, capital needs, interest costs, and income, are subject to certain risks and uncertainties that could cause actual results to differ materially from those indicated in the forward-looking statements, due to several important factors herein identified. These factors include the Company's ability to find suitable acquisition properties at favorable terms, financing, licensing, business conditions, risks of downturn in economic conditions generally, satisfaction of closing conditions such as those pertaining to licensure, availability of insurance at commercially reasonable rates, and changes in accounting principles and interpretations, among others, and other risks and factors identified from time to time in the Company's reports filed with the Securities and Exchange Commission (SEC).

Overview

The following discussion and analysis addresses (i) the Company's results of operations for the three months ended March 31, 2011 and 2010, and (ii) liquidity and capital resources of the Company, and should be read in conjunction with the Company's consolidated financial statements contained elsewhere in this report and the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

The Company is one of the largest operators of senior living communities in the United States. The Company's operating strategy is to provide quality senior living services to its residents, while achieving and sustaining a strong, competitive position within its chosen markets, as well as to continue to enhance the performance of its operations. The Company provides senior living services to the elderly, including independent living, assisted living, skilled nursing and home care services.

As of March 31, 2011, the Company operated 77 senior living communities in 23 states with an aggregate capacity of approximately 11,000 residents, including 25 senior living communities that the Company owned, 7 senior living communities in which the Company had an ownership interest, and 45 senior living communities that the Company leased. As of March 31, 2011, the Company also operated one home care agency.

Significant Financial and Operational Highlights

The Company's operating strategy is to provide quality senior living communities and services to its residents, while achieving and sustaining a strong, competitive position within its chosen markets, as well as to continue to enhance the performance of its operations. The Company provides senior living services to the elderly, including independent living, assisted living, skilled nursing and home care services. Many of the Company's communities offer a continuum of care to meet its residents' needs as they change over time. This continuum of care, which integrates independent living and assisted living and is bridged by home care through independent home care agencies or the Company's home care agency, sustains residents' autonomy and independence based on their physical and mental abilities. The Company primarily derives its revenue by providing senior living and healthcare services to the elderly and operating senior living communities under joint venture arrangements. Despite challenging economic conditions, when comparing the first quarter of fiscal 2011 to the first quarter of fiscal 2010, the Company has been able to increase total revenues approximately \$11.9 million, or 24.9%, of which approximately 95.1% were derived from resident and healthcare services during the first quarter of fiscal 2011 compared to 89.5% during the first quarter of fiscal 2010.

During the first quarter of fiscal 2011, the Company was able to repay \$1.0 million of its outstanding mortgage debt obligations, further reducing its exposure to the volatility in the credit markets. These repayments enabled the Company to reduce interest expense by approximately \$145,000, or 5.1%, during the first quarter of fiscal 2011 when compared to the first quarter of fiscal 2010.

The senior living industry continues to be impacted by unfavorable conditions in the housing, credit, and financial markets, generally resulting in lower than anticipated operating results. During the first quarter of fiscal 2011 and

throughout fiscal 2010, in response to these conditions, the Company has continued to focus on maintaining an emphasis on occupancy increases, improvement in rental

rates, expense management and growth in net operating income per unit, conversions of existing units to higher levels of care, and other opportunities to enhance cash flow and shareholder value.

Joint Venture Transactions and Management Contracts

As of March 31, 2011, the Company managed 7 communities owned by joint ventures in which the Company has a minority interest. For communities owned by joint ventures, the Company typically receives a management fee of 5% of gross revenues.

The Company's joint venture management fees are primarily based on a percentage of gross revenues. As a result, the cash flow and profitability of such contracts to the Company are more dependent on the revenues generated by such communities and less dependent on net cash flow than for owned or leased communities. The management contracts are generally terminable only for cause or upon the sale of a community, subject to the Company's right to offer to purchase such community.

SHPII/CSL Transactions

In November 2004, the Company formed SHPII/CSL with SHPII. SHPII/CSL was owned 95% by SHPII, a fund managed by Prudential, and 5% by the Company. Effective as of November 30, 2004, SHPII/CSL acquired the Spring Meadows Communities which currently comprise 628 units with a combined capacity of 758 residents. The Company contributed \$1.3 million for its interests in SHPII/CSL and accounted for its investment in SHPII/CSL under the equity method of accounting.

The Company was party to a series of property management agreements (the "SHPII/CSL Management Agreements") with SHPII/CSL, which collectively owned and operated the Spring Meadows Communities. The SHPII/CSL Management Agreements extended until various dates through November 2014. The SHPII/CSL Management Agreements generally provided for management fees of 5% of gross revenue plus reimbursement for costs and expenses related to the communities.

On April 8, 2011, SHPII/CSL closed the sale of the four senior living communities to Health Care REIT, Inc. ("HCN"). Upon closing the sale, the Company leased the four senior living communities from HCN. The Company received proceeds, including incentive distributions, from the sale by SHPII/CSL of approximately \$17.0 million, compared to its original investment of approximately \$1.3 million. After closing costs and taxes, the Company received net proceeds of approximately \$11.5 million from the transaction. The gain realized from the sale will be deferred and amortized as a reduction in facility rent expense over the life of the initial lease term. The Company may receive additional proceeds after the joint ventures settle their customary post-closing costs.

SHPIII Transactions

In May 2007, the Company and SHPIII formed SHPIII/CSL Miami to develop a senior housing community in Miamisburg, Ohio. Under the joint venture and related agreements, the Company earns development and management fees and may receive incentive distributions. The senior housing community opened in August 2008 and currently consists of 101 independent living units and 45 assisted living units with a capacity of 196 residents. The Company contributed \$0.8 million to SHPIII/CSL Miami for its 10% interest and accounts for its investment in SHPIII/CSL Miami under the equity method of accounting.

In November 2007, the Company and SHPIII formed SHPIII/CSL Richmond Heights to develop a senior housing community in Richmond Heights, Ohio. Under the joint venture and related agreements, the Company earns development and management fees and may receive incentive distributions. The senior housing community opened in April 2009 and currently consists of 96 independent living units and 45 assisted living units with a capacity of 197 residents. The Company has contributed \$0.8 million to SHPIII/CSL Richmond Heights for its 10% interest and accounts for its investment in SHPIII/CSL Richmond Heights under the equity method of accounting.

In December 2007, the Company and SHPIII formed SHPIII/CSL Levis Commons to develop a senior housing community near Toledo, Ohio. Under the joint venture and related agreements, the Company earns development and management fees and may receive incentive distributions. The senior housing community opened in April 2009 and currently consists of 101 independent living units and 45 assisted living units with a capacity of 197 residents. The Company has contributed \$0.8 million to SHPIII/CSL Levis Commons for its 10% interest and accounts for its investment in SHPIII/CSL Levis Commons under the equity method of accounting.

The Company is party to a series of property management agreements (the SHPIII/CSL Management Agreements) with SHPIII/CSL Miami, SHPIII/CSL Richmond Heights, and SHPIII/CSL Levis Commons (collectively SHPIII/CSL), which joint ventures are

owned 90% by SHPIII, a fund managed by Prudential Investment Management, Inc. (Prudential Investment) and 10% by the Company, which collectively own and operate SHPIII/CSL. The SHPIII/CSL Management Agreements are for initial terms of ten years from the date the certificate of occupancy was issued and currently extend until various dates through January 2019. The SHPIII/CSL Management Agreements generally provide for management fees of 5% of gross revenue plus reimbursement for costs and expenses related to the communities.

Facility Lease Transactions

The Company currently leases 45 senior living communities from certain REITs and accounts for each of the leases as an operating lease. The lease terms are generally for 10-15 years with renewal options for 5-15 years at the Company's option. Under these agreements the Company is responsible for all operating costs, maintenance and repairs, insurance and property taxes. The following table summarizes each of the Company's lease agreements (dollars in millions):

Lease concessions of \$0.6 million relate to the HCP transaction on May 31, 2006, and of \$2.0 million relate to the HCN/Signature Transaction on September 10, 2010.

Three Months Ended March 31, 2011 Compared to the Three Months Ended March 31, 2010*Revenues.*

Total revenues were \$59.8 million for the three months ended March 31, 2011, compared to \$47.9 million for the three months ended March 31, 2010, representing an increase of \$11.9 million or 24.9%. This increase in revenue is primarily the result of an increase in resident and healthcare revenue of \$14.0 million offset by a decrease in affiliated management services revenue of \$0.3 million and a decrease in community reimbursement revenue of \$1.8 million.

The increase in resident and healthcare revenue primarily results from an increase of \$5.8 million from the consolidation of eight communities previously owned by Midwest Portfolio Holdings, L.P. (Midwest I) and Midwest Portfolio Holdings II, L.P. (Midwest II), each of which were joint ventures between the Company and GE Healthcare Financial Services, that were sold to HCN and leased back by the Company in April 2010, an increase of \$7.4 million from the addition of the leasehold interests in 12 communities acquired in a lease transaction with HCN and Signature Assisted Living of Texas, LLC (the HCN/Signature Transaction), in September 2010, and an increase in occupancy of 0.4% and average monthly rental rates of 1.5% at the

Company's other consolidated communities.

The decrease in affiliated management services revenue of \$0.3 million primarily results from the sale of the eight communities owned by Midwest I and Midwest II to HCN and leased back by the Company in April 2010.

Community reimbursement revenue is comprised of reimbursable expenses from non-consolidated communities that the Company operates under long-term management agreements. The decrease in community reimbursement revenue primarily results from the consolidation of the eight communities previously owned by Midwest I and Midwest II which were sold to HCN and subsequently leased back by the Company in April 2010.

Table of Contents

Expenses.

Total expenses were \$54.6 million in the first quarter of fiscal 2011 compared to \$43.8 million in the first quarter of fiscal 2010, representing an increase of \$10.8 million, or 24.6%. This increase is primarily the result of a \$7.7 million increase in operating expenses, a \$5.0 million increase in facility lease expense, and a \$0.1 million increase in depreciation and amortization expense offset by a \$0.2 million decrease in general and administrative expenses and a \$1.8 million decrease in community reimbursement expense.

The increase in operating expenses primarily results from an increase of \$3.3 million from the consolidation of eight communities previously owned by Midwest I and Midwest II that were sold to HCN and leased back by the Company in April 2010, an increase of \$4.0 million from the addition of the leasehold interests in 12 communities from the HCN/Signature Transaction in September 2010, and an increase in operating costs at the Company's other consolidated communities of \$0.4 million.

The increase in facility lease expense primarily results from an increase of \$1.7 million from the consolidation of eight communities previously owned by Midwest I and Midwest II that were sold to HCN and leased back by the Company in April 2010, an increase of \$2.7 million from the addition of the leasehold interests in 12 communities from the HCN/Signature Transaction in September 2010, which includes amortization of \$0.5 million for in-place lease costs, and an increase of \$0.6 million for contingent annual rental rate escalations for certain existing leases.

Depreciation and amortization expense increased \$0.1 million primarily as a result of an increase in depreciable assets at the Company's consolidated communities.

General and administrative expenses decreased \$0.2 million primarily due to a decrease in employee benefit claims paid, which resulted in lower health insurance costs to the Company.

Community reimbursement expense represents payroll and administrative costs paid by the Company for the benefit of non-consolidated communities and joint ventures. The decrease in community reimbursement expense primarily results from the consolidation of the eight communities previously owned by Midwest I and Midwest II which were sold to HCN and subsequently leased back by the Company in April 2010.

Other income and expense.

Interest income reflects interest earned on the investment of cash balances and interest earned on escrowed funds. Interest income increased primarily due to slightly higher interest rates in fiscal 2011 compared to fiscal 2010.

Interest expense decreased \$0.1 million in the first quarter of fiscal 2011 when compared to the first quarter of fiscal 2010 primarily due to less debt outstanding during the first quarter of fiscal 2011 when compared to the first quarter of fiscal 2010.

Other (expense) income in the first quarters of fiscal 2011 and 2010 relates to the Company's equity in the net (losses) earnings of unconsolidated affiliates, which represents the Company's share of the net (losses) earnings on its investments in joint ventures.

Provision for income taxes.

Provision for income taxes for the first quarter of fiscal 2011 was \$1.0 million, or 43.3% of income before taxes, compared to a provision for income taxes of \$0.5 million, or 42.9% of income before taxes, for the first quarter of fiscal 2010. The effective tax rates for the first quarters of fiscal 2011 and 2010 differ from the statutory tax rates due to state income taxes and permanent tax differences. The Company is impacted by the Texas Margin Tax (TMT) and Michigan Business Tax (MBT), which effectively impose taxes on modified gross revenues for communities within the States of Texas and Michigan. The Company consolidated 29 Texas communities and two Michigan communities in the first quarter of fiscal 2011 and the TMT and MBT increased the overall provision for income taxes.

Management regularly evaluates the future realization of deferred tax assets and provides a valuation allowance, if

considered necessary, based on such evaluation. At March 31, 2011, no valuation allowance was considered necessary based on this evaluation.

Table of Contents*Net income.*

As a result of the foregoing factors, the Company reported net income of \$1.3 million for the three months ended March 31, 2011, compared to a net income of \$0.7 million for the three months ended March 31, 2010.

Liquidity and Capital Resources

The impact of the current economic environment could result in decreases in the fair value of assets, slowing of transactions, and tightening liquidity and credit markets. These impacts could make securing debt for acquisitions or refinancings for the Company, its joint ventures, or buyers of the Company's properties more difficult or on terms not acceptable to the Company. Additionally, the Company may be more susceptible to being negatively impacted by operating or performance deficits based on the exposure associated with certain development guarantees or lease coverage requirements.

In addition to approximately \$29.9 million of unrestricted cash balances on hand as of March 31, 2011, the Company's principal sources of liquidity are expected to be cash flows from operations and from SHPIII/CSL Miami, SHP III/CSL Richmond Heights, SHPIII/CSL Levis Commons, SHPII/CSL, debt refinancings, and/or proceeds from the sale of assets, including net proceeds from the sale of the Spring Meadows Communities to HCN on April 8, 2011. The Company expects its available cash and cash flows from operations and from SHPIII/CSL Miami, SHP III/CSL Richmond Heights, SHPIII/CSL Levis Commons, SHPII/CSL, and proceeds from the sale of assets, including net proceeds from the sale of the Spring Meadows Communities to HCN on April 8, 2011, to be sufficient to fund its short-term working capital requirements. The Company's long-term capital requirements, primarily for acquisitions and other corporate initiatives, could be dependent on its ability to access additional funds through joint ventures and the debt and/or equity markets. The Company, from time to time, considers and evaluates transactions related to its portfolio including refinancings, purchases and sales, reorganizations and other transactions. There can be no assurance that the Company will continue to generate cash flows at or above current levels or that the Company will be able to obtain the capital necessary to meet the Company's short and long-term capital requirements.

In summary, the Company's cash flows were as follows (in thousands):

	Three Months Ended March 31,	
	2011	2010
Net cash provided by operating activities	\$ 3,968	\$ 7,277
Net cash used in investing activities	(1,817)	(1,331)
Net cash used in financing activities	(3,458)	(1,264)
Net (decrease) increase in cash and cash equivalents	\$ (1,307)	\$ 4,682

Operating Activities.

The net cash provided by operating activities for the first quarter of fiscal 2011 primarily results from net income of \$1.3 million, net non-cash charges of \$5.1 million, a decrease in property tax and insurance deposits of \$1.5 million, and a decrease in prepaid expenses and other of \$1.1 million offset by an increase in accounts receivable of \$0.2 million, an increase in other assets of \$2.2 million, a decrease in accounts payable of \$0.7 million, a decrease in accrued expenses of \$1.7 million, and an increase in federal and state income taxes receivable of \$0.2 million. The Company's primary market risk is exposure to changes in interest rates on debt and lease instruments. As of March 31, 2011, the Company had \$173.7 million in outstanding debt comprised solely of fixed rate debt instruments. In addition, as of March 31, 2011, the Company had \$397.2 million in future lease obligations with contingent rent increases on certain leases based on changes in the consumer price index or certain operational performance measures. Changes in interest rates would affect the fair market values of the Company's fixed rate debt instruments, but would not have an impact on the Company's earnings or cash flows. Increases in the consumer price index could have an effect on future facility lease expense if the leased community exceeds the contingent rent escalation thresholds set forth in each of the Company's lease agreements.
