ITEM 1.01 ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT

On February 25, 2008, the United States (U.S.) Bankruptcy Court for the Southern District of New York (the Court) issued an order authorizing Delphi Corporation (Delphi or the Company) to dispose of its global steering and halfshaft businesses (the Steering Business) pursuant to the terms of a Purchase and Sale Agreement (the Purchase Agreement) with a wholly-owned entity of Platinum Equity, LLC, Steering Solutions Corporation (Platinum), and a Transaction Facilitation Agreement with General Motors Corporation (GM) (the Transaction Agreement) after conclusion of a sale hearing held February 21, 2008. Also on February 21, 2008, the Court scheduled a March 19, 2008 hearing on the sale motion as it pertains to certain proposed contracts to be assumed and/or assigned that are covered by unresolved objections. On December 10, 2007, Delphi announced that it had filed a motion in the Court seeking authority to enter into the Purchase Agreement and the Transaction Agreement and on December 20, 2007, the Court approved bidding procedures authorizing Delphi to commence an auction under section 363 of the Bankruptcy Code to dispose of the Steering Business. Delphi plans to conclude the sale as soon as all regulatory approvals, including those required to be obtained pursuant to the Hart-Scott-Rodino Antitrust Improvements Act of 1976, have been received. In 2007, Delphi recognized a charge of \$507 million related to the assets held for sale of the Steering Business, including \$26 million of curtailment loss on pension benefits for impacted employees. Delphi expects net proceeds from the sale and related Transaction Agreement to approximate \$250 million.

As of December 31, 2007, the Steering Business together with Delphi's interiors and closures product lines (Interiors and Closures Business) were reported as discontinued operations in the consolidated statement of operations and statement of cash flows. Previously recognized impairment charges recorded with respect to these businesses are included in the loss from discontinued operations during 2007. The assets and liabilities of the Steering and Interiors and Closures Businesses are reported in assets and liabilities held for sale in the consolidated balance sheet. The results of prior periods were restated to reflect this presentation. For more information see the Company's audited consolidated financial statements for the period ended December 31, 2007, and the notes thereto included in its 2007 Annual Report on Form 10-K as filed with the U.S. Securities and Exchange Commission (the SEC) on February 19, 2008.

The following description of the principal terms of the Purchase Agreement and Transaction Agreement is qualified in its entirety by the complete copy of those agreements which are attached as Exhibit 99(a) hereto and incorporated by reference herein.

Pursuant to the terms of the Purchase Agreement, Delphi will transfer to Platinum substantially all of the assets of its Steering Business, including manufacturing operations, intellectual property, customer and supplier contracts and interests in joint ventures. In addition, Platinum has agreed to retain substantially all employees dedicated to the business, and it is anticipated that the senior leadership of the global business will transfer to Platinum. Delphi would receive approximately \$447 million worth of consideration under the proposed transactions, comprised of approximately \$190 million in assumed liabilities and estimated restructuring costs. GM is providing financial support for the sale pursuant to the Transaction Agreement, under which GM is making certain commitments to Delphi in connection with the sale, including providing \$257 million of total cash consideration at closing for working capital, and agreeing to reimburse Delphi for certain expenses of the sale, which includes payments Delphi will make to Platinum under the Purchase Agreement to cover certain separation and transaction related costs, which may be up to \$65 million.

ITEM 2.05 COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES

See disclosure under Item 1.01 regarding Delphi's planned divestiture of its Steering Business and the recognition of a charge of \$507 million, including \$26 million of curtailment loss on pension benefits for impacted employees, during the year ended December 31, 2007.
