required to respond to the collection of information contained in Form N-CSR unless the Form displays a currently valid Office of Management and Budget ("OMB") control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. ss. 35.

ITEM 1. REPORTS TO STOCKHOLDERS.

The Annual Report to Stockholders follows.

Dear Fellow Shareholders:

Performance Review--Your Fund had a total return (market price change plus income) of 1.4% for the fourth quarter, resulting in a -3.0% total return for calendar year 2002. In comparison, the S&P Utilities Index had a total return of 4.9% for the quarter and -29.9% for the year. A composite of the S&P Utilities Index and the Lehman Utility Bond Index, reflecting the stock and bond ratio of the Fund, had a total return of 3.8% for the quarter and -21.9% for the year.

For a broader perspective on the 2002 relative performance of the Utility Indexes cited above, the S&P 500 Index and the Dow Jones Industrial Average had total returns for the year of -15.0% and -22.1%, respectively. As an alternative comparison, Lipper Analytical Services calculations show the following equity sector mutual fund total returns for the year: Utility -23.8%, Telecommunications -41.3%, Equity Income -16.3%, and Large-Capitalization Value -20.0%.

During the fourth quarter of 2002, your Fund paid three monthly 6.5 cent dividends. The 6.5 cent per share monthly rate, without compounding, would be 78 cents annualized, or a 7.88% common stock dividend yield based on the December 31, 2002 closing price of \$9.90 per share. That yield compares favorably with the quarter-end yields of 5.18% on the Dow Jones Utility Index and 5.05% on the S&P Utilities Index.

Feeling for the Bottom--Calendar year 2002 marked the third consecutive year of broad equity market declines--an event that has not occurred since the period from 1939 to 1941. Although a fourth year of negative equity returns is statistically unlikely, we feel it is more appropriate to base investment expectations on fundamental considerations.

During the latter half of 2000 and the first three quarters of 2001, the U.S. economy was weakening. Many companies were responding to significant overcapacity in an environment of declining demand for capital goods and high inventories. Businesses acted to cut production, employment declined, consumer and investor sentiment fell, and equity prices remained under pressure. The domestic economic environment was exacerbated by weakness in economies globally and the U.S. entered a recession in 2001.

In response, the Federal Reserve embarked on a series of interest rate reductions that took the federal funds rate from 6.50% at the end of 2000 to 1.25% at the end of 2002. Cutting short-term interest rates lowers borrowing costs, which encourages households to purchase autos, homes, and furnishings. Typically in turn, inventories are drawn down and businesses add employees and equipment to meet the rising demand. The stock market usually anticipates the increase in business activity and share prices rise.

Edgar Filing: DNP SELECT INCOME FUND INC - Form N-CSR

Data indicate that an economic recovery began during 2002, albeit at an uneven pace and with certain sectors still very depressed. Although consumer spending remains resilient, business spending is depressed, unemployment stubbornly high, and the stock market undecided. The current economic malaise and the potential for geopolitical uncertainties to depress near-term economic activity will likely keep the Federal Reserve in an accommodative posture for the bulk of the year. However, we believe that the Federal Reserve's current monetary policy will eventually result in stronger economic growth and higher stock prices in the future.

Both the telecommunications and electric and gas industries have experienced a "recession" of their own over the past two years. While intertwined with general economic conditions, industry-specific issues have hurt the performance of these two sectors. In the telecom sector, the late 1990s were a time of boom spending for the

deployment of fiber optic capacity. The investment markets were willing to provide capital for anticipated growth in Internet demand and unproven business plans. Simultaneously, regulation mandated a competitive environment for a broad range of communication services, enhancing choice to the consumer but cutting corporate profit margins to the bone. Many competitive local carriers failed, and the accounting irregularities and eventual Chapter 11 filing of long distance carrier and internet backbone provider WorldCom Inc. further slashed sector valuations.

In the power sector, valuations have been hurt by the increased business risk of debt-financed corporate investments outside the traditional regulated utility businesses. These investments generally focused on power generation and energy trading and marketing for the wholesale market. The diversification strategies were designed to enhance shareholder value in an increasingly competitive market, but by and large failed miserably. As in the telecommunications sector, the power industry had a notable bankruptcy--Enron Corp.

With both telecommunications and power industries experiencing problems, credit rating agencies and investors wearied of unfulfilled strategic promises. Weak operating performance led to a precipitous decline in aggregate credit quality and ratings, and limitations on availability of capital to fund industry needs. Access to capital, if available at all, became more and more expensive and liquidity concerns and legal investigations culminated in full-blown liquidity and credit rating crises.

These crises have taught companies valuable lessons. For the power group, that means unwinding trading and marketing operations and returning to their core competencies of the generation and distribution of power. For the communications group that means cost management and capital expenditure reductions, possible asset sales, and improved balance sheets. We believe that although companies still need to resolve many issues, performance in these sectors and the market's view of these sectors should improve valuations in the future.

A more thorough analysis of industry trends and outlooks will appear in our next quarterly letter based on Fund analysts' annual presentation to the Board of Directors.

President Bush's Dividend Tax Proposal--Early in January President Bush proposed a "growth and jobs plan" that would cut taxes in order to stimulate economic growth. The largest component of the plan proposes the elimination of the double taxation of dividends. Under current tax law, corporations pay

Edgar Filing: DNP SELECT INCOME FUND INC - Form N-CSR

dividends from after-tax income and individuals pay income tax on dividends received. The proposed plan would permit shareholders to exclude dividend income from taxable income, and would provide an increase in the tax basis of shares of stock for taxable income retained by a corporation.

An important theme in the President's rationale for this proposal is the belief that if tax rates on dividends were lower, corporations would be likely to pay them more generously, and investors would find stocks more attractive. Increased funding would then flow to corporations through the stock market, and the resulting availability of capital would encourage investment and growth. Economic growth in turn, typically increases employment and raises the standard of living for the average American.

The President's proposal must still navigate the political process and, if passed by Congress, would almost certainly be in a negotiated and compromised form. We would point out, however, that the current proposal would permit mutual funds to pass through qualifying dividends tax-free to their shareholders, and that the proposal does not alter your Fund's primary objective of current income.

2

Board of Directors Meeting -- At the December Board of Directors' meeting, the Board declared the following monthly dividends:

Cents Per Share	Record Date	Payable Date
6.5 cents	December 31	January 10
6.5 cents	January 31	February 10
6.5 cents	February 28	March 10

At the regular February Board of Directors' meeting, the Board declared the following monthly dividends:

Cents Per Share	Record Date	Payable Date
6.5 cents	March 31	April 10
6.5 cents	April 30	May 12
6.5 cents	May 30	June 10

Automatic Dividend Reinvestment Plan and Direct Deposit Service--The Fund has a dividend reinvestment plan available to all registered shareholders. Those shareholders whose shares are held for them by a brokerage house or nominee in "street-name" may not participate in the Fund's automatic dividend reinvestment plan. For such shareholders desiring automatic dividend reinvestment, we suggest you contact your broker or other nominee.

As an added service, without cost to the shareholder, the Fund offers direct deposit service through electronic funds transfer to all registered shareholders currently receiving a monthly dividend check. This service is offered through The Bank of New York. For more information and/or an authorization form on automatic dividend reinvestment or direct deposit, please

Edgar Filing: DNP SELECT INCOME FUND INC - Form N-CSR

contact The Bank of New York (1-877-381-2537 or <http://stock.bankofny.com>).

Visit us on the Web--You can obtain the most recent shareholder financial report and dividend information at our web site, which has a new home address, <http://www.dnpselectincome.com>.

We appreciate your interest in DNP Select Income Fund Inc., and we will continue to do our best to be of service to you.

REPORT OF INDEPENDENT AUDITORS

To the Stockholders and Board of Directors of
DNP Select Income Fund Inc.:

We have audited the accompanying balance sheet of DNP Select Income Fund Inc. (a Maryland corporation) (formerly Duff & Phelps Utilities Income Inc.), including the schedule of investments, as of December 31, 2002, and the related statements of operations, changes in net assets, cash flows and the financial highlights for the year then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit. The statement of changes in net assets and the financial highlights of DNP Select Income Fund Inc., as of December 31, 2001, and for the four years in the period then ended, were audited by other auditors who have ceased operations. Those auditors expressed an unqualified opinion on those financial statements in their report dated February 5, 2002.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of securities owned as of December 31, 2002, by correspondence with the custodian and brokers or by other appropriate audit procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2002 financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of DNP Select Income Fund Inc. at December 31, 2002, the results of its operations, its cash flows, the changes in its net assets and the financial highlights for the year then ended, in conformity with accounting principles generally accepted in the United States.

(1) SIGNIFICANT ACCOUNTING POLICIES:

DNP Select Income Fund Inc. (the "Fund", formerly Duff & Phelps Utilities Income Inc.) was incorporated under the laws of the State of Maryland on

Edgar Filing: DNP SELECT INCOME FUND INC - Form N-CSR

November 26, 1986. The Fund commenced operations on January 21, 1987, as a closed-end diversified management investment company registered under the Investment Company Act of 1940. The primary investment objectives of the Fund are current income and long-term growth of income. Capital appreciation is a secondary objective.

The following are the significant accounting policies of the Fund:

(a) The market values for securities are determined as follows: Equity securities traded on a national securities exchange or traded over-the-counter and quoted on the NASDAQ System are valued at last sales prices. Fixed income securities and any other securities for which it is determined that market prices are unavailable or inappropriate are valued at a fair value using a procedure determined in good faith by the Board of Directors which includes the use of a pricing service. Each money market instrument having a maturity of 60 days or less is valued on an amortized cost basis, which approximates market value.

(b) No provision is made for Federal income taxes since the Fund has elected to be taxed as a "regulated investment company" and has made such distributions to its shareholders deemed necessary to be relieved of all Federal income taxes under provisions of current Federal tax law. The Fund intends to utilize provisions of Federal income tax laws which allow a realized capital loss to be carried forward for eight years following the year of loss and offset such losses against any future realized gains. At December 31, 2002, the Fund had tax capital loss carry forwards of \$199,205,932 which expire beginning on December 31, 2003. For the period November 1, 2002 through December 31, 2002 the Fund incurred net realized capital losses of \$181,983,140. The Fund intends to treat these losses as having occurred on January 1, 2003.

At December 31, 2002, on a tax basis, the Fund had undistributed net investment income of \$2,103,117; and based on a \$2,792,953,260 tax cost of investments, gross unrealized appreciation of \$139,857,445 and unrealized depreciation of \$126,699,675. The difference between the book basis and tax basis of distributable earnings are primarily a result of tax deferral of wash sale losses, the accretion of discount and amortization of premiums.

(c) The accounts of the Fund are kept on the accrual basis of accounting. Security transactions are recorded on the trade date. Realized gains or losses from sales of securities are determined on the specific identified cost basis. Dividend income is recognized on the ex-dividend date. Interest income and expense are recognized on the accrual basis. Discounts and premiums on securities are amortized over the lives of the respective securities for book purposes. Discounts and premiums are not amortized for tax purposes.

(d) The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Edgar Filing: DNP SELECT INCOME FUND INC - Form N-CSR

(e) As required, effective January 1, 2002, the Fund has adopted the classification requirement of EITF D-98, Classification and Measurement of Redeemable Securities. EITF D-98 requires that preferred stock be presented separately at liquidation preference on the balance sheet. Accordingly, certain reclassifications have been made to the statement of operations, statements of changes in net assets and financial highlights for all periods presented. The adoption of EITF D-98 had no impact on the net asset value of the common stock of the Fund.

(2) MANAGEMENT ARRANGEMENTS:

The Fund has engaged Duff & Phelps Investment Management Co. (the "Adviser") to provide professional investment management services for the Fund and has engaged J. J. B. Hilliard, W. L. Lyons, Inc. (the "Administrator") to provide administrative and management services for the Fund. The Adviser receives a quarterly fee at an annual rate of .60% of the average weekly net assets of the Fund up to \$1.5 billion and .50% of average weekly net assets in excess thereof. The Administrator receives a quarterly fee at annual rates of .25% of average weekly net assets up to \$100 million, .20% of average weekly net assets from \$100 million to \$1 billion, and .10% of average weekly net assets over \$1 billion. For purposes of the foregoing calculations, "average weekly net assets" is defined as the sum of (i) the aggregate net asset value of the Fund's common stock (ii) the aggregate liquidation preference of the Fund's preferred stock and (iii) the aggregate proceeds to the Fund of commercial paper issued by the Fund. Directors of the Fund not affiliated with the Adviser receive a fee of \$25,000 per year plus \$2,000 per board meeting, plus \$1,500 per committee meeting attended. Committee Chairmen receive an additional fee of \$5,000 per year. Transfer agent and custodian fees are paid to The Bank of New York.

(3) DIVIDENDS:

The Board of Directors has authorized the following distributions to common stockholders from investment income in 2002:

Record Date	Payable Date	Dividend Per Share
-----	-----	-----
01-31-02	02-11-02	\$.065
02-28-02	03-11-02	.065
03-29-02	04-10-02	.065
04-30-02	05-10-02	.065
05-31-02	06-10-02	.065
06-28-02	07-10-02	.065

Record Date	Payable Date	Dividend Per Share
-----	-----	-----
07-31-02	08-12-02	.065
08-30-02	09-10-02	.065
09-30-02	10-10-02	.065
10-31-02	11-12-02	.065
11-29-02	12-10-02	.065
12-31-02	01-10-03	.065

Edgar Filing: DNP SELECT INCOME FUND INC - Form N-CSR

The tax basis for all distributions was ordinary income.

18

DNP SELECT INCOME FUND INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
December 31, 2002

(4) CAPITAL STOCK TRANSACTIONS:

The Fund may purchase shares of its own stock in open market or private transactions, from time to time and in such amounts and at such prices (not exceeding \$100,000 plus accumulated and unpaid dividends in the case of the Fund's remarketed preferred stock and less than net asset value in the case of the Fund's common stock) as management may deem advisable. Since any such purchases of the Fund's common stock would be made at prices below net asset value, they would increase the net asset value per share of the remaining shares of common stock outstanding. The Fund has not purchased any shares of its common stock.

Transactions in common stock and paid-in surplus during 2002 and 2001 were as follows:

	Shares	Amount
	-----	-----
For the year ended December 31, 2002:		
Beginning capitalization.....	213,521,241	\$1,910,025,460
Dividend reinvestment.....	2,648,274	25,906,297
	-----	-----
Total capitalization.....	216,169,515	\$1,935,931,757
	=====	=====
For the year ended December 31, 2001:		
Beginning capitalization.....	210,935,760	\$1,883,430,234
Dividend reinvestment.....	2,585,481	26,595,226
	-----	-----
Total capitalization.....	213,521,241	\$1,910,025,460
	=====	=====

(5) REMARKETED PREFERRED STOCK:

In 1988, the Fund issued 5,000 shares of Remarketed Preferred Stock ("RP") in five series of 1,000 shares each at a public offering price of \$100,000 per share. The underwriting discount and other expenses incurred in connection with the issuance of the RP were recorded as a reduction of paid-in surplus on common stock. Dividends on the RP are cumulative at a rate which was initially established for each series at its offering. Since the initial offering of each series, the dividend rate on each series has been reset every 49 days by a remarketing process. Dividend rates ranged from 1.389% to 1.950% during the year ended December 31, 2002.

The RP is redeemable at the option of the Fund on any dividend payment date at a redemption price equal to \$100,000 per share, plus accumulated and unpaid dividends. The Fund is required to maintain certain asset coverage with respect

Edgar Filing: DNP SELECT INCOME FUND INC - Form N-CSR

to the RP, and the RP is subject to mandatory redemption if that asset coverage is not maintained. Each series of RP is also subject to mandatory redemption on a date certain as follows: Series A--November 28, 2012; Series B--November 18, 2015; Series C--November 7, 2018; Series D--December 22, 2021; and Series E--December 11, 2024.

In general, the holders of the RP and of the Common Stock have equal voting rights of one vote per share, except that the holders of the RP, as a class, vote to elect two members of the Board of Directors, and separate class votes are required on certain matters that affect the respective interests of the RP and the Common Stock. The RP has a liquidation preference of \$100,000 per share plus accumulated and unpaid dividends.

19

DNP SELECT INCOME FUND INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
December 31, 2002

(6) COMMERCIAL PAPER:

The Board of Directors has authorized the Fund to issue up to \$200,000,000 of Commercial Paper Notes (the "Notes") in minimum denominations of \$100,000 with maturities up to 270 days. The Notes generally will be sold on a discount basis, but may be sold on an interest-bearing basis. The Notes are not redeemable by the Fund nor are they subject to voluntary prepayment prior to maturity. The aggregate amount of Notes outstanding changes from time to time. The Notes are unsecured, general obligations of the Fund. The Fund has entered into a credit agreement to provide liquidity. The Fund is able to request loans under the credit agreement of up to \$100,000,000 at any one time, subject to certain restrictions. Interest rates on the Notes ranged from 1.38% to 2.28% during the year ended December 31, 2002. At December 31, 2002, the Fund had Notes outstanding of \$197,955,439.

(7) INVESTMENT TRANSACTIONS:

For the year ended December 31, 2002, purchases and sales of investment securities (excluding short-term securities) were \$4,730,302,349 and \$4,687,847,271, respectively.

The Fund may lend portfolio securities to a broker/dealer. Loans are required to be secured at all times by collateral at least equal to the market value of securities loaned. The Fund receives a portion of the income earned on the securities held as collateral and continues to earn income on the loaned securities. Security loans are subject to the risk of failure by the borrower to return the loaned securities in which case the Fund could incur a loss. At December 31, 2002, the Fund had loaned portfolio securities with a market value of \$496,031,247 to a broker/dealer and received \$511,238,875 of cash collateral. This cash was invested in securities as shown in the Schedule of Investments.

Information about Directors and Officers of the Fund

Set forth below are the names and certain biographical information about the directors and officers of the Fund. Directors are divided into three classes and are elected to serve staggered three-year terms. Except as indicated in the table, directors are elected by the holders of the Fund's common stock. The officers are elected at the annual meeting of the board of directors of the Fund.
