PEOPLES FINANCIAL CORPORATION AND SUBSIDIARIES
 SELECTED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 For the Six Months Ended June 30, 2006 and 2005

1. The accompanying unaudited condensed consolidated financial statements have been prepared with the accounting policies in effect as of December 31, 2005 as set forth in the Notes to the Consolidated Financial Statements of Peoples Financial Corporation and Subsidiaries (the Company). In the opinion of Management, all adjustments necessary for a fair presentation of the condensed consolidated financial statements have been included and are of a normal recurring nature. The accompanying unaudited consolidated financial statements have been prepared also in accordance with the instructions to Form 10-Q and Rule 10-01 of Regulations S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.
2. The results of operations for the six months ended June 30, 2006, are not necessarily indicative of the results to be expected for the full year. Per share data is based on the weighted average shares of common stock outstanding of 5,548,403 and 5,551,781 for the six months ended June 30, 2006 and 2005, respectively.
3. At June 30, 2006 and 2005, the total recorded investment in impaired loans amounted to \$451,000 and \$443,000, respectively. The average recorded investment in impaired loans amounted to approximately \$453,000 and \$445,000 at June 30, 2006 and 2005, respectively. The amount of that recorded investment in impaired loans for which there is a related allowance for loan losses was \$451,000 at June 30, 2006. The allowance for losses related to these loans amounted to approximately \$289,000 at June 30, 2006. The amount of interest not accrued on these loans amounted to approximately \$10,000 and \$11,000 for the six months ended June 30, 2006 and 2005, respectively.
4. Transactions in the allowance for loan losses were as follows:

	For the Six Months Ended June 30, 2006	For the Year Ended December 31, 2005	For the Six Months Ended June 30, 2005
Balance, beginning of period	\$ 10,966,022	\$ 6,569,614	\$ 6,569,614

Table of Contents

5. The Company has defined cash and cash equivalents to include cash and due from banks. The Company paid \$6,873,000 and \$3,226,000 for the six months ended June 30, 2006 and 2005, respectively, and \$7,390,000 for the twelve months ended December 31, 2005, for interest on deposits and borrowings. Income tax payments of \$2,855,000 and \$2,943,000 were made during the six months ended June 30, 2006 and 2005, respectively, and \$4,856,000 for the twelve months ended December 31, 2005. Loans transferred to other real estate amounted to \$41,000 for the six months ended June 30, 2006 and \$88,000 for the twelve months ended December 31, 2005. The income tax effect on the accumulated other comprehensive income was \$(614,000) and \$(167,000) at June 30, 2006 and 2005, respectively.

6. Securities with gross unrealized losses at June 30, 2006, aggregated by investment category and length of time that individual securities have been in a continuous loss position are as follows (in 000 s):

	Less Than Twelve Months		Over Twelve Months		Total	
	Fair Value	Gross Unrealized Loss	Fair Value	Gross Unrealized Loss	Fair Value	Gross Unrealized loss
U. S. Treasury	\$ 77,273	\$ 438	\$ 19,546	\$ 434	\$ 96,819	\$ 872
U. S. Govt. Agencies	170,851	1,503	84,495	2,974	255,346	4,477
States and political subdivisions	8,896	200	5,872	286	14,768	486
FHLMC preferred stock			2,429	646	2,429	646
Total	\$ 257,020	\$ 2,141	\$ 112,342	\$ 4,340	\$ 369,362	\$ 6,481

Management evaluates securities for other-than-temporary impairment on a monthly basis. Consideration is given to the length of time and the extent to which the fair value has been less than cost, the fact that the Company's securities are primarily issued by U. S. Treasury and U. S. Government Agencies, the cause of the decline in value, the intent and ability of the Company to hold these securities until maturity and that the Company has traditionally held virtually all of its securities, including those classified as available for sale, until maturity. Any sales of available for sale securities, which have been infrequent and immaterial, have been for liquidity purposes. The Company has also carefully considered the specific issues related to the valuation of the FHLMC preferred stock. As a result of these evaluations, the Company has determined that the declines summarized in the table above are not deemed to be other-than-temporary.

Table of Contents

7. On April 29, 2005, a loan in amount of \$5,533,000, which had been classified as an impaired loan, paid off. During 2005, the Company recognized interest income of approximately \$900,000, which included accrued interest previously charged-off and interest not accrued while this credit was on nonaccrual. A recovery of charged-off principal of \$962,000 and the reversal of a specific reserve of \$650,000 also relate to this event.

8. Certain reclassifications, which had no effect on prior year net income, have been made to the prior period statements to conform to current year presentation.

Report of Independent Registered Public Accounting Firm

Board of Directors
Peoples Financial Corporation
Biloxi, Mississippi

We have reviewed the accompanying condensed consolidated balance sheets of Peoples Financial Corporation as of June 30, 2006, June 30, 2005 and December 31, 2005, and the related condensed consolidated statements of income, shareholder's equity, and cash flows for the six months ended June 30, 2006 and June 30, 2005. These interim financial statements are the responsibility of the company's management.

We conducted our review in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with United States generally accepted accounting principles for interim financial statements.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Peoples Financial Corporation as of December 31, 2005, and the related consolidated statements of income, shareholder's equity, and cash flows for the year then ended (not presented herein); and in our report dated January 24, 2006, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2005, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Table of Contents**Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following presents Management's discussion and analysis of the consolidated financial condition and results of operations of Peoples Financial Corporation and Subsidiaries (the Company) for the six months ended June 30, 2006 and 2005. These comments highlight the significant events and should be considered in combination with the Condensed Consolidated Financial Statements included in this report on Form 10-Q.

Forward-Looking Information

Congress passed the Private Securities Litigation Act of 1995 in an effort to encourage corporations to provide information about a company's anticipated future financial performance. This act provides a safe harbor for such disclosure which protects the companies from unwarranted litigation if actual results are different from management expectations. This report contains forward-looking statements and reflects industry conditions, company performance and financial results. These forward-looking statements are subject to a number of factors and uncertainties which could cause the Company's actual results and experience to differ from the anticipated results and expectations expressed in such forward-looking statements.

Overview

During the first six months of 2006, net income was \$5,090,000, as compared with \$5,119,000 for the first six months of 2005. Total assets reached \$879,000,000 at June 30, 2006, with investments increasing 62% and total deposits increasing 45% at June 30, 2006 as compared with June 30, 2005. Earnings for the first six months of 2006 included primarily income from operations, with net interest income increasing from \$11,721,000 for the first six months of 2005 to \$15,012,000 for the first six months of 2006. Earnings for the first six months of 2005 included the following non-recurring items: income of \$538,000, net of taxes, as a result of the PULSE EFT Association Exchange, a negative provision for losses on loans of \$999,000, net of taxes, and a loss on the sale of securities of \$292,000, net of taxes.

During the first six months of 2006, the Company continued its post-Katrina recovery efforts. Construction at our damaged D Iberville, Bay St. Louis and Downtown Gulfport branch facilities has been completed. Management has maintained its efforts in evaluating its loan portfolio, especially with respect to potential losses on loans as a result of the impact of Hurricane Katrina. See Provision for Loan Losses for further discussion of potential losses from Katrina. The Company also continues to refine its disaster recovery plans to ensure that we are able to recover our operations and continue to serve our customers in the event of any disaster scenario.

The following compares financial highlights for the six months ended June 30, 2006 and 2005:

For the six months ended June 30,	2006	2005
Net income per share	\$.92	\$.92
Book value per share	\$ 16.26	\$ 16.11
Return on average total assets	1.17%	1.63%
Allowance for loan losses as a % of loans, net of unearned discount	2.75%	1.71%

Table of Contents**Financial Condition****Held to Maturity Securities**

Held to maturity securities increased \$116,557,000 at June 30, 2006, compared with June 30, 2005, as a result of the management of the Company's liquidity position. Funds available from the increase in deposits and non-deposit products have been largely invested in U. S. Treasury and U. S. Government Agency securities and classified as held to maturity. The Company continues to monitor its investment in bonds issued by municipalities which have been affected by Hurricane Katrina. At June 30, 2006, Management has determined that no provision for loss on these investments is required. Gross unrealized gains for held to maturity securities were \$50,000 and \$145,000 at June 30, 2006 and 2005, respectively. Gross unrealized losses were \$394,000 and \$17,000 at June 30, 2006 and 2005, respectively. The following schedule reflects the mix of the held to maturity investment portfolio at June 30, 2006 and 2005:

June 30,	2006 Amount	%	2005 Amount	%
U. S. Treasury	\$ 58,607,734	44%	\$ 9,889,402	62%
U. S. Government agencies	68,000,000	51%		
States & political subdivisions	5,989,203	5%	6,150,703	38%
Totals	\$ 132,596,937	100%	\$ 16,040,105	100%

Available for Sale Securities

Available for sale securities increased \$29,821,000 at June 30, 2006, compared with June 30, 2005, in the management of the Company's liquidity position, as discussed above. The Company continues to monitor its investment in bonds issued by municipalities which have been affected by Hurricane Katrina. At June 30, 2006, Management has determined that no provision for loss on these investments is required. Gross unrealized gains were \$93,000 and \$341,000 and gross unrealized losses were \$6,087,000 and \$2,243,000 at June 30, 2006 and 2005, respectively. The following schedule reflects the mix of available for sale securities at June 30, 2006 and 2005:

June 30,	2006 Amount	%	2005 Amount	%
U. S. Treasury	\$ 43,175,580	17%	\$ 82,372,974	38%

Table of Contents

Loans

Loans increased \$53,500,000 at June 30, 2006, as compared with June 30, 2005. Loan volume has remained basically stable since the third quarter of 2005, as new loans have been offset by loan payoffs since Hurricane Katrina as customers receive insurance proceeds and funds from other sources. However, since March 31, 2006, loans have increased \$47 million and it is anticipated that loan demand will continue to be robust throughout 2006 as the local economy recovers.

Accrued Interest Receivable

Accrued interest receivable increased \$2,780,000 at June 30, 2006, as compared with June 30, 2005, due to an increase in interest earning assets and the rate earned on these assets.

Other Assets

Other assets increased \$3,333,000 at June 30, 2006, as compared with June 30, 2005, primarily due to an increase in deferred taxes on unrealized losses on available for sale securities and non-deductible provisions for loan losses.

Deposits

Total deposits increased \$194,002,000 at June 30, 2006, as compared with June 30, 2005. Typically, significant increases or decreases in total deposits and/or significant fluctuations among the different types of deposits from quarter to quarter are anticipated by Management as customers in the casino industry and county and municipal areas reallocate their resources periodically. Since Hurricane Katrina, the Company has realized a significant increase in demand and savings deposits and jumbo CD s as municipal customers receive federal and state funding and commercial and personal customers begin receiving insurance proceeds, SBA loans and other forms of assistance. Based on previous post-hurricane experience and expectations with respect to the time frame for reconstruction, the Company anticipates that deposits will continue at or near their present level throughout the remaining quarters of 2006.

Federal Funds Purchased and Securities Sold Under Agreements to Repurchase

Federal funds purchased and securities sold under agreements to repurchase increased \$17,594,000 at June 30, 2006, as compared with June 30, 2005, as a result of the reallocation of funds by certain commercial customers between deposit and non-deposit products.

Other Liabilities

Other liabilities increased \$1,155,000 at June 30, 2006, as compared with June 30, 2005. This increase is primarily due to an increase in liabilities related to deferred compensation plans.

Shareholders Equity and Capital Adequacy

Strength, security and stability have been the hallmark of the Company since its founding in 1985 and of its bank subsidiary since its founding in 1896. A strong capital foundation is fundamental to the continuing prosperity of the Company and the security of its customers and shareholders. One measure of capital adequacy is the primary capital ratio which was 11.60% at June 30, 2006, as compared with 15.22% at June 30, 2005. These ratios are well above the regulatory minimum of 6.00%. Management continues to emphasize the importance of maintaining the appropriate capital levels of the Company.

Table of Contents**RESULTS OF OPERATIONS****Net Interest Income**

Net interest income, the amount by which interest income on loans, investments and other interest earning assets exceeds interest expense on deposits and other borrowed funds, is the single largest component of the Company's income. Management's objective is to provide the largest possible amount of income while balancing interest rate, credit, liquidity and capital risk. The following schedule summarizes net interest earnings and net yield on interest earning assets:

Net Interest Earnings and Net Yield on Interest Earning Assets

Six Months Ended June 30, (In thousands, except percentages)	2006	2005
Total interest income (1)	\$ 22,206	\$ 15,158
Total interest expense	6,981	3,226
Net interest earnings	\$ 15,225	\$ 11,932
Net yield on interest earning assets (2)	3.94%	4.28%

(1) All interest earned is reported on a taxable equivalent basis using a tax rate of 34% in 2006 and 2005.

(2) Interest income in 2005 includes \$900,000 received in 2005 for prior years. See Note 7. Net yield would have been 3.96% without this interest.

The schedule on page 18 provides an analysis of the change in total interest income and total interest expense for the six months ended June 30, 2006 and 2005. The positive change in interest income is generally attributable to the change in interest rates earned on the loan portfolio, which at 60% variable, favorably reprices for the Company each time prime increases. Interest income has also been affected by the increase in volume of the investment portfolio. It should be noted that loan interest income in 2005 includes the recovery of previously charged off interest and the receipt of interest that would have been earned had the credit not been on nonaccrual. This interest amounted to approximately \$900,000.

Changes in interest expense, while impacted by changes in volume related to savings and interest-bearing demand accounts, were impacted by the increase in the cost of funds during this time period.

Provision for Loan Losses

Management continuously monitors the Company's relationships with its loan customers, especially those in concentrated industries such as gaming and hotel/motel, as well as the exposure for out of area loans, and their direct and indirect impact on its operations. A thorough analysis of current economic conditions and the quality of the loan portfolio is conducted on a quarterly basis. Management utilizes these analyses, with special emphasis on the impact of Hurricane Katrina on the loan portfolio and underlying collateral, in determining the adequacy of its allowance for loan losses at June 30, 2006. In determining potential loan losses as a result of Hurricane Katrina since August 2005, the Company has evaluated its commercial and residential loan portfolios separately. This on-going analysis has been enhanced by the completion of a detailed evaluation of the impact of Katrina on the residential loan portfolio during the second quarter of 2006.

The Company has identified no additional significant potential losses as a result of Hurricane Katrina since its initial evaluation in September 2005. Management continues its evaluation in recognition of the extraordinary impact of Katrina on its trade area, attempting to quantify potential losses in accordance with its established methodology.

Additionally, Management has considered the historical data available from the impact of other natural disasters on the Mississippi Gulf Coast and other coastal communities, including the length of time between the storm's landfall and identification of all losses. Although almost one year has passed, much uncertainty remains regarding the impact of federal assistance, settlement of insurance claims and the rate of economic recovery in the Company's trade area. Another key issue, the availability and affordability of insurance, may also create future loan related problems. Management believes that it is reasonably possible that the actual amount of potential loan losses as a result of Hurricane Katrina may be less than what was estimated in September 2005, but this amount cannot be reasonably estimated.

The Company recorded a provision of \$77,000 during the first six months of 2006 which relates to potential losses on overdrawn deposit accounts.

Service Charges on Deposit Accounts

Service charges on deposit accounts decreased \$421,000 for the six months ended June 30, 2006, as compared with the six months ended June 30, 2005, primarily due to lost fee income as a result of Hurricane Katrina.

Loss on Sale of Securities

The Company realized a loss from the sale of available for sale securities during the second quarter of 2005 of \$443,000. The proceeds of these sales were used to fund loan demand.

Salaries and Employee Benefits

Salaries and employee benefits increased \$482,000 for the first six months of 2006 as compared with the first six months of 2005. The Company offered increased salaries to its employees in order to reward performance and retain personnel with the local, post-Katrina competitive employment conditions and ever increasing health insurance costs.

Table of Contents

Net Occupancy

Net occupancy expense increased \$409,000 for the first six months ended June 30, 2006 as compared with the first six months of 2005, as a result of the increase in property insurance premiums.

Extraordinary Gain

An extraordinary gain of \$538,000, net of taxes, was recorded as a result of the PULSE EFT Association Exchange during the first six months of 2005.

LIQUIDITY

Liquidity represents the Company's ability to adequately provide funds to satisfy demands from depositors, borrowers and other commitments by either converting assets to cash or accessing new or existing sources of funds. Management monitors these funds requirements in such a manner as to satisfy these demands and provide the maximum earnings on its earning assets. Deposits, payments of principal and interest on loans, proceeds from maturities of investment securities and earnings on investment securities are the principal sources of funds for the Company. Since Hurricane Katrina, the Company's deposits and non-deposit accounts have increased significantly, as discussed previously. Management carefully monitors its liquidity needs, particularly relating to these potentially volatile deposits. The Company is currently investing in short-term U. S. Treasury and Agency Securities. It is anticipated that loan demand will be funded in future quarters from the maturity of these investments.

Item 4: Controls and Procedures

As of June 30, 2006, an evaluation was performed under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer of the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15e)). Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to ensure that the information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no changes in the Company's internal control over financial reporting that occurred during the period ended June 30, 2006 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
