**PROXY STATEMENT
FOR
ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD ON JULY 16, 2008**

INTRODUCTION AND VOTING PROCEDURES

The accompanying proxy card is solicited by and on behalf of our Board of Directors for use at the annual meeting of shareholders we will hold at the time and place and for the purposes set forth in the foregoing notice. The approximate date on which we will mail this proxy statement and the accompanying proxy card to our shareholders is June 16, 2008.

Shares represented by properly executed proxies will be voted at the meeting in accordance with the directions given. If no direction is indicated, we will vote such shares for the election of the Board's eight nominees for director and for ratification of the appointment of Grant Thornton as the Company's independent registered public accounting firm.

The Board of Directors is not aware of any other matter to be presented for consideration at the meeting. If any other matter is properly presented for action at the meeting, the proxy holders represented by properly executed proxies will vote the proxies in accordance with their best judgment in such matters. Such proxy holders may also, in their discretion, vote such proxies to adjourn the meeting or to recess the meeting from time to time.

Any shareholder who returns a proxy has the right to change or revoke the proxy at any time before the vote is taken at the meeting:

By delivering to our Chief Executive Officer, Robert E. Ritchey, at Intervoice, Inc., at 17811 Waterview Parkway, Dallas, Texas 75252 a signed written notice of revocation, bearing a date later than the date of the proxy, stating that the proxy is revoked;

By attending the meeting and voting in person (the shareholder's attendance at the meeting will not, by itself, revoke the proxy—the shareholder must vote in person at the meeting to revoke a prior proxy);

By submitting a later-dated proxy card;

If the shareholder voted by telephone or the Internet, by voting at a later time by telephone or the Internet on or before 5:30 p.m., Central Daylight Time, on July 15, 2008; or

If the shareholder has instructed a broker, bank or other nominee to vote the shareholder's shares, by following the directions received from the broker, bank or other nominee to change those instructions.

VOTING SECURITIES AND PRINCIPAL SHAREHOLDERS

Only holders of record of Common Stock at the close of business on May 30, 2008, the record date for the meeting, are entitled to notice of and to vote at the meeting or any adjournment(s) thereof. The presence of a majority of the Common Stock outstanding on the record date is necessary to constitute a quorum. On the record date for the meeting, there were issued and outstanding 39,037,741 shares of Common Stock. At the

meeting, each shareholder of record on the record date will be entitled to one vote per share. Our Articles of Incorporation deny cumulative voting rights. The following table sets forth certain summary information with respect to the only shareholders who are known to us to be the beneficial owners of more than five percent of the outstanding shares of Common Stock as of May 30, 2008.

Name and Address of Beneficial Owner	Number of Shares Beneficially Owned	Percent of Class
Franklin Resources, Inc., Franklin Templeton Portfolio Advisors, Inc., Charles B. Johnson, and Rupert H. Johnson, Jr. One Franklin Parkway San Mateo, CA 94403-1906	1,956,055 (1)	5.01%

1) A Schedule 13G dated February 4, 2008 was filed by Franklin Resources, Inc., Charles B. Johnson, Rupert H. Johnson, Jr., and Franklin Templeton Portfolio Advisors, Inc., disclosing that they may be deemed to beneficially own 1,956,055 shares of Common Stock. The Schedule 13G indicates that Franklin Templeton Portfolio Advisors Inc. holds sole voting and dispositive power for all 1,956,055 shares.

VOTING PROCEDURES AND TABULATION

We will appoint one or more inspectors of election to act at the meeting and to make a written report of the results of the meeting. Prior to the meeting, the inspectors will sign an oath to perform their duties in an impartial manner and

to the best of their abilities. The inspectors will ascertain the number of shares outstanding and the voting power of each of such shares, determine the shares represented at the meeting and the validity of proxies and ballots, count all votes and ballots and perform certain other duties as required by law. The inspectors will tabulate the number of votes cast for or withheld as to the vote on each nominee for director and for, against or abstained from the proposal to ratify the appointment of Grant Thornton as our independent registered public accounting firm.

With regard to the election of directors, votes may be cast in favor of or withheld from each nominee. Votes that are withheld from a nominee will have the same effect as a vote cast against such nominee. Directors are elected by a majority of the shares of Common Stock of the Company present in person or by proxy at the meeting and entitled to vote.

The proposal to ratify the appointment of Grant Thornton as our independent registered public accounting firm for the fiscal year ending February 28, 2009 must be approved by a majority of the shares of Common Stock present or represented and voting on the proposal at the meeting. If a shareholder marks a ballot or proxy card to abstain from voting on the proposal to ratify the appointment of Grant Thornton, it will have the same effect as voting against the proposal.

If we receive a properly executed proxy with no indication of the manner in which to vote shares on a particular proposal, we will vote the shares in accordance with the recommendation of the Board of Directors for such proposal, in the case of the eight nominees for election to the Board of Directors, FOR the election of the eight nominees and, in the case of the proposal to ratify the appointment of Grant Thornton, FOR the ratification of the appointment of Grant Thornton.

Brokers who hold shares in street name for customers are required to vote as the beneficial owners instruct. A broker non-vote occurs when a broker does not have discretionary voting power with respect to a proposal and has not received instructions from the beneficial owner. Brokers are not permitted to vote on non-discretionary items if they have not received instructions from the beneficial owners. Brokers are permitted to indicate a broker non-vote on non-discretionary items absent instructions from the beneficial owner. Broker non-votes are treated as shares that are present and entitled to vote for purposes of determining whether a quorum is present at the meeting. Broker non-votes relating to a proposal are not counted as votes cast with respect to that proposal.

PROPOSAL 1. ELECTION OF DIRECTORS

The operation of our business and affairs is managed by and under the direction of the Board of Directors, which exercises all of our corporate powers and establishes broad corporate policies. Under our Bylaws, we must have at least three and no more than eleven director positions on the Board of Directors as from time to time fixed and determined by a vote of a majority of the directors serving at the time of such vote. The number of director positions presently constituting the Board is eight. The eight directors who are elected at the meeting will serve until the next annual meeting of shareholders and until their successors have been duly elected and qualified, or until their earlier resignation or removal. The eight nominees are the current directors of the Company: David W. Brandenburg, Timothy W. Harris, James A. Milton, Gerald F. Montry, George C. Platt, Donald B. Reed, Robert E. Ritchey and Michael J. Willner. During the fiscal year ended February 29, 2008, the Board of Directors held 24 meetings, including at least two sessions attended by only the outside members of the Board. Each of the nominees who was a director in fiscal 2008 attended at least 75% of the aggregate of the total number of meetings of the Board of Directors during his tenure as a director and the total number of meetings of any committees of the Board of Directors on which he served during such period. We encourage our board members to attend our annual meetings of shareholders. All of our board members attended last year's annual meeting with the exception of Michael J. Willner, who missed the meeting due to a prior commitment.

Directors are elected by a majority of the shares of Common Stock of the Company present in person or by proxy at the meeting and entitled to vote. Votes may be cast in favor of or withheld from each nominee. All properly submitted and un-revoked proxies will be voted for the nominees selected by the Board of Directors except where authorization so to vote is withheld. Votes that are withheld from a nominee will have the same effect as a vote cast against such nominee. If any nominee becomes unable or unwilling to serve (which is not presently foreseen), the persons designated as proxies will have full discretion to cast votes for another person designated by the Board. **THE BOARD RECOMMENDS THAT SHAREHOLDERS VOTE FOR THE ELECTION OF ITS EIGHT NOMINEES.**

BOARD REPRESENTATION AND GOVERNANCE AGREEMENT THAT DICTATED THE SLATE OF NOMINEES FOR DIRECTOR FOR LAST YEAR'S ANNUAL MEETING BUT NOT FOR THIS YEAR'S ANNUAL MEETING

In connection with the resolution of a proxy solicitation that was initiated by David W. Brandenburg seeking to have seven of his nominees elected to the Board of Directors at our 2007 annual meeting of shareholders, we entered into a Board Representation and Governance Agreement (the "Governance Agreement") on June 22, 2007 with Mr. Brandenburg. Pursuant to the Governance Agreement, three of the seven incumbent directors resigned from the Board of Directors on June 22, 2007. The Governance Agreement was approved by the Board of Directors following the resignation of the three incumbent directors. Under the terms of the Governance Agreement, we agreed to appoint Mr. Brandenburg, and two of his nominees, Michael J. Willner and Timothy W. Harris, as directors (collectively, the "New Directors") to fill the three vacancies created by the resignations of the incumbent directors, and agreed to cause the slate of nominees standing for election at the 2007 annual meeting to include the New Directors as well as the four remaining incumbent directors, Gerald F. Montry, George C. Platt, Donald B. Reed and Robert E. Ritchey. The New Directors and remaining incumbents were elected at the annual meeting of shareholders held on July 23, 2007. On June 9, 2008 Mr. Brandenburg executed a waiver under the Governance Agreement to permit the Board of Directors to increase the number of Board positions from seven to eight and to appoint James A. Milton to fill the vacancy resulting from the additional position on the Board. In addition to stipulating the persons to serve as our directors through the 2008 annual meeting of shareholders, the Governance Agreement also stipulated which directors would serve on each committee of the Board through the 2008 annual meeting and certain other agreements between us and Mr. Brandenburg.

The Governance Agreement did not obligate us to cause the slate of nominees for election at the 2008 annual meeting of shareholders, or any subsequent annual meeting, to include the New Directors, other incumbent directors or any other persons. We filed the Governance Agreement with the Securities and Exchange Commission on June 25, 2007 as an exhibit to a Current Report on Form 8-K.

AUDIT COMMITTEE OF
THE BOARD OF DIRECTORS

COMPENSATION OF DIRECTORS

Annual Retainers and Meeting Fees. All directors who are not also our employees receive an annual retainer of \$20,000 for serving as a director. The Chairman of the Board, who is not an employee, receives an annual retainer of \$50,000 for serving the Board as Chairman. The Chairman of the Audit Committee and Chairman of the Compensation Committee receive annual retainers of \$10,000 and \$5,000, respectively. The directors are also reimbursed for travel, lodging and related expenses incurred in attending Board and committee meetings and for certain legal expenses. Directors who are not also our employees receive a fee of \$1,500 per day for each Board, committee or subcommittee meeting attended in person, and \$750 per day for each such meeting attended by phone conference, provided that no director will receive attendance fees with respect to more than two meetings which occur on the same day and no director will receive a fee for a meeting if the only item of business at the meeting is a resolution to approve minutes of prior meetings.

Equity Based Incentive Awards. In addition to the compensation set forth above, each non-employee director is eligible to receive equity based incentive awards under the 2007 Stock Incentive Plan. The Board did not grant stock options or any other form of equity compensation to any directors during fiscal 2008.

Freeze on Board Compensation During Fiscal 2008. During the second quarter of fiscal 2008, the Board froze compensation for our directors until our performance improved or the Board determines that other circumstances dictated that it would be appropriate to increase or offer additional compensation. The freeze precluded increases in annual retainers and meeting fees and new grants of equity compensation.

Termination of Freeze on Board Compensation During Fiscal 2009. During the first quarter of fiscal 2009, the Board terminated the freeze on director compensation. The primary reasons for terminating the freeze on director compensation were to provide the Board with discretionary authority to offer competitive compensation programs to attract and retain qualified directors and grant equity compensation to directors to further align their interests with the interests of shareholders.

Committees of the Board of Directors

The Board of Directors has established committees to address certain specific areas of the Board's responsibility. These committees include the Audit Committee, Compensation Committee, Nominating Committee, Executive Committee, and Finance and Strategic Planning Committee. The composition and chairmanships of these committees through the date of the 2008 annual meeting of shareholders is subject to the Governance Agreement. For more information regarding the Governance Agreement, see "Election of Directors". The Governance Agreement does not dictate the composition and chairmanships of committees after the 2008 annual meeting of shareholders. The Board of Directors has determined that David W.

Brandenburg, Timothy W. Harris, Gerald F. Montry, Donald B. Reed and Michael J. Willner are independent directors under Rule 4200(a)(15) of the NASDAQ listing standards.

The Audit Committee, which held 15 meetings during fiscal 2008, has the primary responsibility to ensure the integrity of the financial information we report. Its functions include: (a) the appointment, compensation and oversight of independent auditors; (b) reviewing the scope of the annual audit to be performed by the independent auditors prior to commencement of the audit; (c) reviewing the results of those audits; (d) reviewing the organization and scope of our internal system of audit and financial controls; (e) meeting periodically with management and the independent public accountants to review financial, accounting and internal control matters; (f) meeting periodically with the independent public accountants to discuss the results of their audit work and their opinions as to the adequacy of internal accounting controls and the quality of financial reporting; and (g) all other functions set forth in the Company's Audit Committee Charter. The Audit Committee Charter is available to shareholders on our website, <http://www.Intervoice.com>. The Company's Board of Directors has determined that two members of the Audit Committee, Gerald F. Montry and Timothy W. Harris, are audit committee financial experts. Its current members are Gerald F. Montry, Chairman, Timothy W. Harris and Donald B. Reed.

The Compensation Committee, which held 12 meetings during fiscal 2008, has the authority to determine and approve all the terms of the employment, compensation and benefits payable to executive officers of the Company, including those executive officers who are also directors. Our management is from time to time directed by the Compensation Committee to review certain compensation matters and make recommendations to the Compensation Committee concerning such matters. The Compensation Committee has the authority to administer and grant equity based awards under the 2007 Stock Incentive Plan. The Compensation Committee also has authority to administer stock options and other awards previously granted under the 2005 Stock Incentive Plan, 2003 Stock Option Plan, the 1999 Stock Option Plan, and the 1998 Non-Qualified Stock Option Plan. The Compensation Committee Charter is available to shareholders on our website, <http://www.Intervoice.com>. The Compensation Committee is composed of Donald B. Reed, Chairman, Timothy W. Harris and Michael J. Willner.

The Nominating Committee, which met six times during fiscal 2008, has the function to identify and propose to the full Board of Directors nominees to fill vacancies on the Board of Directors. The Nominating Committee Charter is available to shareholders on our website, <http://www.Intervoice.com>. Pursuant to the Nominating Committee Charter, the Nominating Committee of the Board of Directors will consider director candidates recommended by our shareholders. In order for the Nominating Committee to consider a potential nominee, shareholders must submit in writing (which shall not include e-mail) the following information to the Chairman of the Nominating Committee no later than the last day of our fiscal year before the annual meeting of shareholders at which directors are to be elected: the name of the shareholder, contact information for the shareholder, number of shares of Common Stock owned by the shareholder, name of the registered owner of the Common Stock (if different from the shareholder), name of the person recommended for director, brief biography of the person recommended for director, qualifications of the person recommended for director, and whether the person recommended for director consents to being named in the proxy statement as a nominee for director. The Nominating Committee requires our directors to possess certain minimum qualifications. A director must have substantial or significant business or professional experience or an understanding of technology, finance, marketing, financial reporting, international business or other disciplines relevant to our business. A director must not have any conflicts of interest stemming from his or her institutional or other affiliations that would preclude, or have the appearance of precluding, such director from performing his or her duties and responsibilities as one of our directors, including without limitation, such director's duties of loyalty, honesty, and confidentiality, and the duty not to usurp corporate opportunities. The Nominating Committee also considers a wide variety of qualities and skills in its selection of directors, including: economic, technical, scientific, academic, financial, accounting, legal, marketing or other expertise applicable to our business; leadership or substantial achievement in their particular fields; demonstrated ability to exercise sound business judgment; integrity and high moral and ethical character; potential to contribute to the diversity of viewpoints, backgrounds, or experiences of the Board as a whole; capacity and desire to represent the balanced, best interests of the shareholders as a whole and not primarily a special interest group or constituency; ability to work well with others; high degree of interest in our business; dedication to our success; commitment to the responsibilities of a director; and international

business or professional experience. The Committee utilizes a variety of methods for identifying and evaluating nominees for director, and there are no differences in the manner in which the Committee evaluates director nominees based on whether the nominee is recommended by a shareholder. The Committee is to identify the candidates for director nominees in consultation with other members of the Board and management, through the use of search firms or other advisors, or through

- 10 -

recommendations submitted by shareholders. In order to find qualified nominees for the Board, we have paid, and in the future could pay, fees to a search firm or other advisor to assist in identifying and evaluating nominees for director. The current members of the Nominating Committee are Timothy W. Harris, Chairman, David W. Brandenburg and Donald B. Reed.

The Executive Committee, which did not meet during fiscal 2008, may, to the extent permitted by law, exercise the power of the Board of Directors when the Board is not in session. It also has the responsibility for reviewing long-range plans, capital expenditure programs, acquisitions and general corporate financing matters and making related recommendations to the Board of Directors. Its current members are David W. Brandenburg, Chairman, Robert E. Ritchey and George C. Platt.

The Finance and Strategic Planning Committee, which held four meetings during fiscal 2008, was formed in order to oversee and to provide consultation and recommendations to the Board and management concerning our financing requirements and strategic direction. The activities overseen by the Committee include our strategic plan, our annual business plan, mergers and acquisitions, commercial lending arrangements, the issuance of equity, debt and convertible securities, stock buy-backs, and similar financing and strategic activities. Its current members are Michael J. Willner, Chairman, Timothy W. Harris, Gerald F. Montry and George C. Platt.

Communication with Directors

Shareholders can send communications to the Board of Directors by delivering them in writing (which shall not include e-mail) to The Board of Directors, Intervoice, Inc., 17811 Waterview Parkway, Dallas, Texas 75252. When we receive a shareholder communication addressed to the Board we will forward it to the Chairman of the Board unless the communication is addressed to the Chairman of the Nominating Committee of the Board, the Chairman of the Compensation Committee of the Board, or the Chairman of the Audit Committee of the Board, in which case we will forward the communication to the appropriate committee chairman.

Compensation Committee Interlocks and Insider Participation

None of the members of the Compensation Committee during fiscal 2008 was an officer or employee of the Company or any of our subsidiaries, was formerly an officer of the Company or any of our subsidiaries, or had any other relationship that would require disclosure in this proxy statement. None of our executive officers serves as a member of the compensation committee of another entity (or other board committee performing equivalent functions, or in the absence of such committee, the entire board of directors for such other entity), one of whose executive officers served as director of the Company. Nor did any executive officer of the Company serve as a director of another entity, one of whose executive officers served on the Compensation Committee of the Company.

PROPOSAL 2. TO RATIFY APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

On April 23, 2008, the Audit Committee of the Board of Directors appointed Grant Thornton LLP (Grant Thornton) as our independent registered public accounting firm for the fiscal year ending February 28, 2009. The Audit Committee is responsible for appointing our independent registered public accounting firm, and shareholder ratification is not required for the appointment of Grant Thornton to become or remain effective. However, the appointment is submitted for ratification at our 2008 annual meeting of shareholders with a view towards soliciting the opinion of the shareholders, which the Audit Committee will take into consideration in future deliberations. If the appointment of Grant Thornton as our independent registered public accounting firm is not ratified at the annual meeting of shareholders, the Audit Committee will consider the engagement of another independent registered public accounting firm, but will not be obligated to do so. The Audit Committee may terminate the engagement of Grant Thornton as our independent registered public accounting firm without the approval of our shareholders if the Audit Committee determines it is necessary or appropriate to terminate their engagement. We expect that representatives of Grant Thornton will attend the annual meeting to respond to questions and will have an opportunity to make a statement if they desire to do so.

The Board of Directors recommends that you vote FOR the ratification of Grant Thornton as our independent registered public accounting firm for the fiscal year ending February 28, 2009.

EXECUTIVE COMPENSATION COMPENSATION DISCUSSION AND ANALYSIS

We have a basic philosophy to offer compensation programs to our executives that reward the creation of shareholder value and attract, retain and motivate a highly qualified executive management team. With respect to our Chief Executive Officer, Chief Financial Officer, and the other three most highly-compensated executive officers, which we collectively refer to as the Named Executives, this Compensation Discussion and Analysis describes our compensation philosophy and objectives, the process for establishing the compensation programs for the Named Executives, and the policies and practices to administer such programs.

Compensation Objectives

The compensation programs specific to our Named Executives are administered by the Compensation Committee. The members of the Compensation Committee are non-employee directors who are independent under Rule 4200(a)(15) of the NASDAQ listing standards. The Compensation Committee designs and maintains compensation programs consistent with our executive compensation philosophy to achieve the following objectives:

To attract, retain and motivate highly qualified executives by offering compensation programs that are competitive with programs offered by companies in our peer group.

To link performance and executive pay by tying bonus amounts paid to executives to achievement of key objectives under corporate and/or departmental annual business plans.

To link performance and executive pay by considering achievement of key objectives under corporate and departmental business plans for the preceding fiscal year in determining any salary adjustments, cash bonuses and long-term incentive award amounts.

To reward the creation of long-term shareholder value through long-term incentive compensation awards, and encourage significant stock ownership to further align executive interests with the interests of our shareholders.

In pursuit of these objectives, the Compensation Committee believes that the compensation packages provided to the Named Executives should include both cash and equity-based compensation, with an emphasis on performance-based pay.

Process for Establishing Compensation

The Compensation Committee has overall responsibility for the compensation of the Named Executives. In conducting an annual performance review and determining appropriate compensation levels for our Chief Executive Officer, the Compensation Committee meets in executive session outside the presence of our Chief Executive Officer and other members of our executive management team. With respect to the compensation levels for other Named Executives, the Compensation Committee considers input and recommendations from our Chief Executive Officer, President and Chief Operating Officer, Senior Vice President of Human Resources and Real Estate and, when appropriate, other members of the executive management team. Performance reviews for our Chief Executive Officer and each other Named Executive are based on their performance against previously determined objectives under corporate and departmental business plans for the preceding fiscal year. With the exception of our Chief Executive Officer, all of the Named Executives have departmental business plans with departmental objectives. While our Chief Executive Officer and other members of the executive management team may make recommendations concerning salary adjustments, cash bonus programs or award amounts for Named Executives, the Compensation Committee can exercise its discretion to modify or reject any recommendations from executives.

In designing compensation programs and determining compensation levels, the Compensation Committee and our executive management team are assisted by independent compensation consultants who conduct, or assist our human resources department in conducting, an annual review of our salaries, cash bonus opportunities, total cash compensation, long term incentives and total direct compensation for the Named Executives. During fiscal 2008, the Compensation Committee engaged Hay Group, Inc., a global human resources consulting firm, to provide the Compensation Committee with relevant market data and alternatives to consider when making compensation decisions for our Named Executives.

In making compensation decisions, the Compensation Committee compares each element of total direct compensation (base salaries, cash bonus opportunities, total cash compensation, long term incentives) against a peer group of 32 publicly traded companies in the software industry against which the Compensation Committee believes we compete in the market for executive talent, which we collectively refer to as the Compensation Peer Group. Even though the surveys we use refer to these companies as software companies, some of the companies are similar to us in that they offer bundled solutions comprised of hardware, software and services. Composition of the Compensation Peer Group is periodically reviewed and revised by the Compensation Committee. In addition to industry considerations, the Compensation Committee selects companies for the Compensation Peer Group based on their annual revenues and market capitalization. Our annual revenues are slightly below the median revenues of the Compensation Peer Group because the Compensation Committee has included some larger companies against which they believe we compete to fill senior executive positions.

To benchmark compensation for each of our Named Executives, we normally access data from two key resources: an executive compensation survey reflective of the Compensation Peer Group and proxy statements and other public filings for the companies in our Compensation Peer Group. To supplement the compensation data and analysis we obtain for our Compensation Peer Group, we access data from a compensation survey for the entire software industry for any executive positions or compensation programs for which we lack clear comparable data from the Compensation Peer Group. In reviewing compensation survey data for the entire software industry, we focus on data for software companies with annual revenues similar to ours. Sources of data for compensation surveys and analysis include Aon/Radford surveys for our Compensation Peer Group and the software industry. The Compensation Peer Group is currently comprised of the following companies:

Actuate Corp	Entrust Inc	Openwave
Advent Software	Epicor	Pegasystems, Inc
Ariba	I2 Technologies	Polycom
Authorize.net Holdings	Informatica Corp	Progress Software
Bookham Technology	Interactive Intelligence	Radiant Systems Inc
Borland Software	Kana Software	S1 Corp
Chordiant	Kronos	Salesforce.com
Comverse	MSC Software Company	Tekelec
CSG Systems	NeuStar	Vignette
Eclipsys Corp	Novatel Wireless	Websense
Emageon	Nuance	

The Normal Compensation Mix for the Named Executives

To compete in the market for executive talent, the Compensation Committee generally targets total direct compensation (i.e., base salary, annual cash incentives and value of long-term equity incentives) for the Named Executives at or approaching the 50th percentile of the Compensation Peer Group. In targeting total direct compensation at the 50th percentile we recognize that market data available for the Compensation Peer Group are not always directly comparable to the specific compensation programs we offer or to the positions and responsibilities for some of our Named Executives. The limitations on obtaining comparable market data can limit the precision of our assessment of the 50th percentile of the Compensation Peer Group for a compensation decision. In addition to considering levels of compensation suggested by market data to make compensation decisions, the Compensation Committee may also consider other relevant factors discussed below for each element of the total compensation mix. The allocation between cash and non-cash compensation is based on the practices of our Compensation Peer Group and the Compensation Committee's determination of the appropriate mix among base pay, annual cash incentives and long-term equity incentives to encourage retention and performance. Generally, the elements of the compensation mix for any fiscal year include:

Base salary;

Annual cash bonuses;

Long-term incentive compensation; and

Broad-based benefits programs.

Freeze on Executive Compensation for Fiscal 2008

During the first quarter of fiscal 2008, the Compensation Committee resolved to freeze compensation for our executive officers until the Company's performance improved or the Compensation Committee determined that other circumstances dictated that it would be appropriate to increase or offer additional compensation. The freeze included any new bonus arrangements, salary adjustments and equity-based compensation awards. The only exceptions to the freeze on executive compensation were bonus arrangements made available to one or more of our principal sales executives to provide an incentive for sales bookings, revenues and/or contribution margins.

The Compensation Mix for the Named Executives for Fiscal 2008

The freeze on executive compensation during fiscal 2008 reduced the elements of compensation made available to our Named Executives. As a result of the freeze on executive compensation, the elements of the compensation mix for fiscal 2008 included:

Base salary;

Cash bonuses available only to principal sales executives to provide an incentive for sales bookings, revenues and/or contribution margins; and

Broad-based benefits programs.

Termination of Freeze on Executive Compensation for Fiscal 2009

During the first quarter of fiscal 2009, the Compensation Committee terminated the freeze on executive compensation. The principal reason to terminate the freeze on executive compensation is to provide cash bonus programs and equity based compensation awards that will provide an incentive to executive officers to achieve key corporate objectives that will create shareholder value. In light of the freeze on salary adjustments during fiscal 2008, the Compensation Committee believes that certain salary increases for executive officers made in accordance with its compensation policies and objectives are appropriate during fiscal 2009. But the Compensation Committee also believes that, with the exception of salary increases due to promotions, such salary increases should generally be made in modest amounts until our financial performance improves or other circumstances dictate that larger salary increases are appropriate.

As a result of the Compensation Committee's decision to terminate the freeze on executive compensation, the Committee currently anticipates that the elements of the compensation mix for fiscal 2009 will generally include the elements of compensation made available to Named Executives prior to fiscal 2008. For a summary of the elements of compensation generally made available to Named Executives, see the discussion above captioned "The Normal Compensation Mix for the Named Executives".

Base Salary

We establish the base salary of each Named Executive based on consideration of the 50th percentile pay levels of the Compensation Peer Group. We also consider other relevant factors for each Named Executive such as achievement of previously determined objectives under his or her departmental business plan for the preceding fiscal year, individual performance review, the internal equity of the executive's base salary as compared to salaries of our other executives, and the level of the executive's experience in his or her current position. In reviewing base salaries for our Named Executives, we believe it is also appropriate to consider our performance against key objectives under our corporate business plan for the preceding fiscal year, including objectives related to revenue and earnings targets. Base salary adjustments are subject to terms and conditions under the Named Executive's employment agreements. Employment agreements with our Named Executives generally include a provision for an annual review of the executive's base salary and limit our ability to reduce the base salary below the level set forth in the contract.

The freeze on executive compensation instituted by the Compensation Committee during fiscal 2008 included a freeze on salary adjustments for our Named Executives and other executive officers. As a result of the freeze on executive compensation, the salaries of the Named Executives were not changed during Fiscal 2008. Although the Compensation Committee believes that competitive base salaries are necessary to attract

and retain a highly qualified executive team, it feels that a significant portion of executive compensation should be based on pay-for-performance.

Annual Cash Bonuses

It is our general practice to provide Named Executives an opportunity to earn cash bonus amounts under programs that reward attainment of key objectives under corporate and/or departmental annual business plans. The objectives that underlie cash bonus programs may vary between fiscal years and between the Named Executives, but generally include objectives that reward attainment of targeted revenues and earnings. In setting the bonus amounts a Named Executive is eligible to earn for achieving specified objectives, the Compensation Committee generally targets bonus levels at the 50th percentile of the Compensation Peer Group and published survey data. Bonus opportunities for achieving objectives are generally established as a percentage of an executive's base salary. Executives can sometimes earn reduced bonus amounts if a minimum level of performance against an objective is achieved. Executives can sometimes also earn increased bonus amounts for performance in excess of the level of performance targeted under an objective. The decision as to whether to offer a cash bonus program to Named Executives for any fiscal year, the type and funding of any program offered, and the objectives that underlie any program, are subject to the discretion of the Compensation Committee and its assessment of general and industry specific conditions existing during the applicable period. In determining the amount of bonus that a Named Executive is eligible to earn under a bonus program, the Compensation Committee may also exercise discretion based on its assessment of the executive's contribution and accountability for the objectives that are the subject of the bonus, the internal equity of the executive's bonus opportunity as compared to bonus opportunities for our other executives, and any other factors the Compensation Committee considers relevant. We do not have a formal policy regarding the adjustment or recovery of payments or other awards (other than as required by law) if relevant performance measures are restated or otherwise adjusted.

Due to the freeze on executive compensation, the Compensation Committee did not offer a cash bonus plan for Named Executives during fiscal 2008, other than a cash bonus opportunity available to our principal sales executive for Europe, the Middle East, Africa and Asia, Frank Sherlock, our Senior Vice President and Managing Director EMEA, to provide an incentive for him to achieve the sales bookings, revenues and operating margin targets for his territory. Mr. Sherlock is our only principal sales executive who is also a Named Executive.

For certain reasons discussed above under the discussion captioned "Termination of Freeze on Executive Compensation for Fiscal 2009" the Compensation Committee decided to lift its freeze on executive bonus programs and adopted the 2009 Annual Incentive Compensation Plan (the "Fiscal 2009 AICP"). The Fiscal 2009 AICP will expire on February 28, 2009.

The Fiscal 2009 AICP, is similar to the Company's Fiscal 2007 AICP which was the most recent annual cash bonus program made available to the Named Executives. The Fiscal 2007 AICP expired on February 28, 2007. As with the Fiscal 2007 AICP, bonus opportunities under the Fiscal 2009 AICP are based on our performance against targeted amounts of adjusted operating income, or AOI, and annual revenues, and are subject to minimum threshold levels of performance against the targeted amounts. The principal difference between the Fiscal 2007 AICP and Fiscal 2009 AICP is that under the Fiscal 2007 AICP the entire bonus opportunity was based on our performance against the targeted amount of AOI for the entire fiscal year and targeted annual revenues. Under the Fiscal 2009 AICP part of the bonus opportunity is based on our achievement of targeted amounts of AOI for each quarter. To achieve "one hundred percent of plan", we must achieve all targeted amounts under the Fiscal 2009 AICP. As with the Fiscal 2007 AICP, the amount of the bonus earned under the Fiscal 2009 AICP will increase or decrease in accordance with a sliding scale based upon the amount, if any, the actual AOI and revenues are less than or greater than the amounts targeted under the plan. In order for plan participants to earn bonuses in excess of bonuses payable to them at one hundred percent of plan, we would have to over achieve the targeted amounts of annual AOI and/or annual revenues. Both the Fiscal 2007 AICP and Fiscal 2009 AICP define AOI as operating income excluding non-recurring acquisition costs, stock compensation expenses, and any other expenses the Compensation Committee, in its discretion, determines are unusual or non-recurring. For purposes of determining whether we achieve the revenue target, the Compensation Committee may, in its discretion, exclude any revenues it determines are unusual or non-recurring. As was the case with the Fiscal 2007 AICP, targeted revenues and AOI under the Fiscal 2009 AICP reflect the amounts of revenues and AOI budgeted in our corporate business plan for the fiscal year. The principal reason why the Compensation

Committee decided to tie part of the bonus opportunity under the Fiscal 2009 AICP to the quarterly AOI and annual revenues, is to provide an incentive for the Named

- 15 -

Executives to achieve the quarterly amounts of AOI targeted under the annual business plan. Basing part of the bonus opportunity on our quarterly AOI will also provide our Named Executives an incentive to achieve our targeted amounts of quarterly AOI even if it appears unlikely we will achieve our targeted annual AOI. The Compensation Committee believes that obtainment of the targeted revenues and AOI will be challenging but achievable. A more detailed discussion of the terms of the Fiscal 2009 AICP, the Company's performance against the targeted amounts for fiscal 2009, and any bonuses earned by the Named Executives, will be included in the Compensation Discussion and Analysis for next year's proxy statement.

One of our Named Executives, Frank Sherlock, Senior Vice President and Managing Director of the EMEA, functions as our principal sales executive for Europe, the Middle East, Africa and Asia (the EMEA). In his capacity as the principal sales executive for our EMEA operations during fiscal 2008, Mr. Sherlock had an opportunity to earn the following bonuses for achieving objectives under his departmental business plan for the EMEA; 24.5% of his base salary for achievement of departmental targeted revenues; 24.5% of his base salary for achievement of departmental targeted sales bookings; and 21% of his base salary for achievement of the departmental targeted contribution margin. Sales bookings include purchase orders for sales of our products and related implementation services that are included in our reported solutions backlog, in addition to orders for maintenance services and managed services that are not included in our reported solutions backlog for the reasons discussed in the Management, Discussion and Analysis section of our Quarterly Reports on Form 10-Q and Annual Reports on Form 10-K. Contribution margin under a departmental business plan refers to gross margin less certain departmental expenses.

At the time the corporate business plan and associated departmental business plans in support of the corporate business plan were approved, the Compensation Committee believed that Mr. Sherlock's obtainment of the revenue, sales bookings and contribution margin targets would be challenging but achievable. Subject to his achievement of the minimum threshold amounts under his bonus plan, bonus amounts payable to Mr. Sherlock increased or decreased in accordance with a sliding scale based upon the amount, if any, actual revenues, bookings and contribution margins, were greater than or less than the targeted amounts. Based on our results from operations for the EMEA during fiscal 2008, Mr. Sherlock earned a bonus equal to \$166,255 or 69% of his base salary. Approximately 44% and 40% of the aggregate bonus earned by Mr. Sherlock were attributable to sales bookings and revenues, respectively. The sales bookings and revenues bonuses paid to Mr. Sherlock were supported by a 6% and a 22% year to year increase to his territory's solutions backlog and revenues, respectively.

In addition to the cash bonus opportunities under formal cash bonus programs, the Compensation Committee may choose to reward extraordinary performance and achievements by awarding discretionary bonuses to the Named Executives and other executives from time to time. Discretionary bonuses were not awarded to any Named Executives for or during fiscal 2008.

Long-Term Incentive Compensation

It is the Compensation Committee's general practice to make a grant of long-term incentive compensation to our Named Executives during each fiscal year. We believe that offering long-term incentive awards will aid in the retention of our Named Executives and serve to align their interests with those of our shareholders. As with other elements of our total compensation program, we consider award levels at the 50th percentile of the Compensation Peer Group and published survey data. In determining the level of award for a Named Executive the Compensation Committee also considers other relevant factors such as achievement of previously determined objectives under his or her departmental business plan for the preceding fiscal year, the executive's performance review, and the internal equity of the level of award granted to the executive compared to awards granted to our other executives. In reviewing the award levels for our Named Executives, we believe it is also appropriate to consider our performance against key objectives under the corporate business plan for the preceding fiscal year, including objectives related to revenue and earnings targets, and whether our financial performance during the preceding fiscal year has benefited our shareholders through any meaningful appreciation in the market price for our common stock. In administering our equity compensation programs, we closely monitor the level of dilution that can result from equity awards to our executives and other employees and believe it is appropriate to consider the dilutive effect of our aggregate equity awards during any fiscal year.

Historically, the Compensation Committee has emphasized equity-based compensation for our executives in the form of stock option grants. However, as a result of Financial Accounting Standard No. 123R, the evolving landscape of equity-based compensation, and our desire to limit the aggregate number of shares granted under our equity compensation plans to help reduce dilution to our shareholders, the Compensation

- 16 -

Committee is considering alternative forms of long-term incentive compensation for our Named Executives and other employees. The 2007 Stock Incentive Plan provides a number of alternatives for granting long-term incentive compensation, including options, stock appreciation rights, restricted stock, restricted stock units, performance awards and other incentive awards. The Compensation Committee is considering several alternatives, including awarding restricted stock units or awarding a mix of stock options and restricted stock units. During fiscal 2008, the Compensation Committee approved awards of restricted stock units and awards of a mix of restricted stock units and stock options to employees who were not Named Executives. The Compensation Committee will continue to review and consider alternative equity-based compensation practices that are less dilutive to our shareholders than our traditional practices. As compared to our traditional stock option award practices, certain of these alternative equity-based compensation practices would reduce the amount of compensation expense recognized in the Company's income statements, which would in turn increase net income.

Due to the freeze on executive compensation during fiscal 2008, the Compensation Committee did not grant stock options or other equity awards to the Named Executives during fiscal 2008. For certain reasons discussed above under the caption "Termination of Freeze on Executive Compensation for Fiscal 2009," the Compensation Committee decided to lift its freeze on equity based compensation awards to executive officers. For fiscal 2009, the Compensation Committee may in the exercise of its discretion decide to grant equity based compensation to some or all of the Named Executives under our 2007 Stock Incentive Plan consistent with the Committee's compensation objectives and procedures regarding the timing of grants of options and restricted stock units. The Committee's procedures concerning the timing of grants of equity compensation is discussed below under the caption "Timing of Grants of Options and Restricted Stock Units."

Broad-Based Benefits Programs

We offer certain broad-based benefits programs that include benefits such as health, dental, disability and life insurance, health care savings accounts, paid vacation time and company contributions to our Employee Savings Plan (which is a 401(k) plan). Benefits under such programs are provided to all employees in accordance with practices within the marketplace and are a necessary element of compensation in attracting and retaining employees. In addition to our broad-based health program, we pay for an annual physical exam for each of our vice presidents, including the Named Executives. All vice presidents and certain other management level employees in our United Kingdom subsidiary, including the Managing Director of the EMEA who is a Named Executive, receive a car allowance. There are no additional benefits programs for our Named Executives.

Executive Employment Agreements

Each of the Named Executives has entered into an employment agreement with us. The Compensation Committee believes employment agreements should not include provisions that would obligate a potential acquirer of the Company to make large payouts to the Named Executives simply because a change in control has occurred. Because of this concern, the occurrence of a change in control event alone will not trigger any payment obligations to the Named Executives under their respective employment agreements. With the exception of the employment agreement with our Senior Vice President and Managing Director of the EMEA, Frank Sherlock, each of the employment agreements includes provisions that can under certain conditions trigger payment obligations upon termination of the Named Executive's employment. Our contractual obligation to make payments to a Named Executive following the termination of his employment is subject to certain conditions including execution of a general release agreement and adherence to non-compete and non-disparagement provisions. With the exception of Mr. Sherlock's agreement, each of the employment agreements includes payment obligations in the event the Named Executive's employment is terminated by us without Cause (as defined in their respective employment agreements). The employment agreements with our Chief Executive Officer, President and Chief Operating Officer and Chief Financial Officer also provide for payments if the executive dies or if he terminates his employment for Good Reason (as defined in their respective employment agreements). The agreements with these three Named Executives further provide for the payment of gross-up benefits if the executive becomes liable for an excess parachute excise tax in connection with a change in control. Excess parachute excise tax can have widely divergent and unexpected effects based on an executive's personal compensation history. The gross-up benefits are intended to provide an equal level of change in control benefits without regard to the effect of the excise tax. Because we commit to employ a Named Executive for the term

set forth in the applicable employment agreement, we believe it is appropriate to incur payment obligations if the executive's employment is terminated without Cause during the

- 17 -

term of the agreement. Based on similar considerations, we believe it is appropriate to incur a payment obligation if the Named Executive terminates his employment for Good Reason.

A more detailed discussion of our obligation under certain conditions to make payments to Named Executives following the termination of their employment, including any termination of their employment following a change in control, is set forth below in the section entitled Agreements with Executive Officers.

Long Term Incentive Plan Change in Control Provisions

Under the terms of our 2007 Stock Incentive Plan (and prior equity incentive plans), awards are generally subject to special provisions upon the occurrence of change in control transactions (as defined in each plan) unless otherwise provided in the applicable award agreement. Awards under the 2007 Stock Incentive Plan and prior equity incentive plans are not limited to the Named Executives, and the Compensation Committee has broad discretion to authorize equity-based awards to other employees of the Company and its subsidiaries. Under our 2007 Stock Incentive Plan, if a change in control occurs and a participant is involuntarily terminated other than for cause or the participant voluntarily terminates for good reason, in either case during the period beginning 90 days before a corporate change and ending one year after a corporate change, any outstanding stock options, restricted stock, restricted stock units, and other plan awards would generally become immediately fully vested and exercisable. Awards granted under our equity incentive plans that were in effect before the 2007 Stock Incentive Plan are subject to the terms of the equity incentive plans as in effect when the awards were granted. Under the 2005 Stock Incentive Plan, if a change in control occurs and a participant is involuntarily terminated other than for cause or the participant voluntarily terminates for good reason, in either case within one year after a change in control as defined in the plan, any outstanding stock options, restricted stock, restricted stock units, and other plan awards would generally become immediately fully vested and exercisable. Under the 1998 Stock Option Plan, the 1999 Stock Option Plan, and the 2003 Stock Option Plan, in the event of a corporate change, there is no termination of service requirement and all outstanding options will become exercisable in full and all restrictions imposed on any common stock that may be delivered upon exercise of those options will be deemed satisfied. We believe the provision of these change in control benefits is generally consistent with market practice among our peers, is a valuable executive talent retention incentive and is consistent with the objectives of our overall executive compensation program.

Timing of Grants of Options and Restricted Stock Units

As previously discussed, due to the freeze on executive compensation equity compensation was not granted to any of the Named Executives during fiscal 2008. In fiscal 2007, the Compensation Committee granted stock options to our Named Executives the day after our annual meeting of shareholders. It has been the practice of the Compensation Committee to hold a meeting the day of, or day after, our annual meeting of shareholders to authorize a grant of stock options for our executive officers at an exercise price equal to the market price of our common stock on the date the option grants are approved.

During fiscal 2008 the Compensation Committee adopted formal procedures with respect to the grant of stock options and restricted stock units to all executive officers, which includes the Named Executives. The procedures apply to all grants of stock options and restricted stock units to executive officers, including, new hire grants, continuing grants and annual grants. They do not apply to grants made to executive officers at such time, if any, as they may become new-hire employees of the Company in connection with our acquisition of another business. The procedures include the following:

New Hire Grants of Stock Options and Restricted Stock Units. We endeavor to grant stock options and restricted stock units to newly hired executives with grant dates effective soon after we have provided current information concerning the results from operations for our most recent fiscal quarter or fiscal year and our outlook for the future. In effect, we consider these time periods, which we refer to as the Interim Periods, between when we have recently provided such current information, to begin the day after the third business day following our definitive earnings release for our preceding fiscal quarter and to end the day before the third business day following a definitive earnings release for the next fiscal quarter. Accordingly, any stock options or restricted stock units approved during an Interim Period by our Compensation Committee for a newly hired executive will be granted on the third business day after our next definitive quarterly or annual earnings announcement. For example, if the Compensation Committee authorized a grant to a new-hire executive officer on October 20th and the executive officer started employment on November 20th

and the third business day following the definitive earnings release for the fiscal quarter ended November 30th is December 23rd, the grant date would be December 23rd. If the new-hire executive officer started employment on October 10th but

- 18 -

the Compensation Committee did not authorize the grant until after December 23rd, the grant date would be the third business day following the definitive earnings release for the fiscal quarter ending February 28th or 29th.

Annual Grants of Stock Options and Restricted Stock Units. If the Compensation Committee determines to authorize regularly scheduled annual grants of restricted stock units or stock options or a mix of stock options and restricted stock units for any fiscal year, such grants will be made on the first business day after the date of our annual meeting of shareholders, and the Compensation Committee will authorize such grants on the first business day following the annual meeting of shareholders or on any date that occurs during the 60 calendar day period preceding the first business day after the annual meeting.

Continuing Grants of Stock Options and Restricted Stock Units. In addition to the regularly scheduled annual grants of stock options and restricted stock units, the Compensation Committee may grant stock options and/or restricted stock units to executive officers for retention, promotion or special bonus reasons. The procedure for continuing grants is similar to the procedure for new hire grants. Any continuing grant of stock options or restricted stock units authorized during an Interim Period will be granted on the third business day after our next quarterly earnings release.

Additional Procedures. The Compensation Committee recognizes that the timing and basis for authorizing any continuing grants may inherently involve more discretion than the timing of new hire or annual grants. Because of the greater degree of discretion inherent in continuing grants, the Compensation Committee will discuss the basis and timing of any continuing grants to executive officers during a preceding fiscal year in the Compensation Discussion and Analysis section of the annual proxy statement. The Compensation Committee further recognizes that in rare instances there may be substantial and justifiable reasons for deviating from certain procedures outlined above. In the rare instance that the Compensation Committee may have determined it was appropriate to deviate from the procedures outlined above during a preceding fiscal year with respect to our Named Executives, the terms of the deviation and the basis for the deviation will be discussed in the Compensation Discussion and Analysis section of the annual proxy statement.

Exercise Price of Stock Options. In all instances, the exercise price for stock options is set at the market price of our common stock on the grant date. Under the express terms of the 2007 Stock Incentive Plan, the market price is defined as the closing price of our common stock on the grant date.

Stock Ownership Guidelines

The Compensation Committee has not established required levels of stock ownership for the Named Executives or other executive officers, but it has established stock ownership guidelines. These guidelines provide for each executive officer to hold a number of shares of our common stock with an aggregate market value that equates to a specified multiple of the executive's base salary. The guidelines currently range from four times base salary for the Chief Executive Officer to two times base salary for senior vice presidents who are executive officers. The value of each executive's share holdings for purposes of the guidelines is based on the greater of the current market price of our common stock or the market price on the date the executive purchased the shares. Even though some executive officers hold a number of shares at or above the number of shares specified under the guidelines, the Compensation Committee recognizes that newer executive officers or employees who were recently promoted to executive officer positions may require some period of time to achieve the guideline amounts. The guidelines therefore contemplate a five-year transition period for acquiring a number of shares with the specified market value. The Compensation Committee monitors and considers each executive's progress toward achieving the levels of share ownership specified in the guidelines in determining grants of equity awards.

Tax Deductibility and Executive Compensation

Section 162(m) of the Internal Revenue Code generally limits the corporate deduction for compensation paid to the Chief Executive Officer and three other highest paid Named Executives (other than the Chief Financial Officer) to \$1 million per individual, unless certain requirements are met which establish that compensation as performance-based. The Compensation Committee has considered the impact of Section 162(m) and attempts, to the extent practical, to implement compensation policies and practices that maximize the potential income tax deductions available to us by qualifying such policies and practices as performance-based compensation exempt from the Section 162(m) deduction limitation.

The Compensation Committee will continue to review and modify our compensation practices and programs as necessary to ensure our ability to attract and retain key executives while taking into account the deductibility of compensation payments. Awards of stock options and stock appreciation rights made under the 2007 Stock Incentive Plan (and previously made under our 2005 Stock Incentive Plan and other shareholder-approved stock plans) are designed generally to meet the performance-based compensation exception to the Section 162(m) deduction limitation. Performance awards granted under the 2007 Stock Incentive Plan may be designed to meet the performance-based compensation exception to Section 162(m).

For fiscal 2008, Section 162(m) of the Internal Revenue Code did not limit our deduction for compensation paid to our Chief Executive Officer and other Named Executives who are subject to the deduction limitation.

Our Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the compensation committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

AGREEMENTS WITH EXECUTIVE OFFICERS

Employment Agreement with Robert E. Ritchey. Effective as of December 1, 2004, Robert E. Ritchey, our Chief Executive Officer, entered into a new employment agreement with us. The initial term of his agreement was scheduled to expire on February 29, 2008. Effective February 28, 2008, the Company and Mr. Ritchey entered into an amendment to renew and extend his employment agreement through August 31, 2008 on substantially the existing terms. The amendment also acknowledged that Mr. Ritchey's title had changed from President and Chief Executive Officer to Chief Executive Officer. The employment agreement provides that Mr. Ritchey will receive an annual base salary of \$395,000 and may participate in any annual incentive bonus programs applicable to his position.

Under his employment agreement, Mr. Ritchey is required to not compete with us while he renders services and for a period of two years following the end of his employment. The agreement further provides that we can terminate Mr. Ritchey's employment for death, for Cause, or for Inability to Perform (as such terms are defined in the agreement). Upon six months prior written notice, we may also terminate his employment without Cause. Mr. Ritchey may terminate his employment for Good Reason (as defined in the agreement) unless we are able to remedy the circumstances constituting Good Reason within 30 days after Mr. Ritchey notifies us of such circumstances. If Mr. Ritchey dies, we will pay his designated beneficiary any accrued and unpaid salary plus a lump sum equivalent to six months' base salary. In the event that Mr. Ritchey had died on February 29, 2008, his beneficiary would have received a lump sum payment equal to \$197,500. If his employment is terminated for Cause or for his Inability to Perform, we will have no liability for further payments to Mr. Ritchey other than payment of any unpaid portion of his base salary through the date of termination.

If Mr. Ritchey's employment is terminated by us for any reason other than death, Inability to Perform, or Cause, or if Mr. Ritchey terminates his employment for Good Reason, in either event prior to a Corporate Change (as defined in his agreement), we will continue to pay him an amount equal to his base salary and matching contributions on premiums for our group health insurance for 18 months following the end of his employment. To receive such payments following the termination of his employment, Mr. Ritchey must, within 60 days, sign a general release agreement. If, following the termination of Mr. Ritchey's employment we determine in our reasonable judgment that he has violated any of his obligations of confidentiality, noncompetition or nondisparagement, we will stop making payments to him and require him to repay any prior payments. In addition, we may suspend such payments if Mr. Ritchey is arrested or indicted for any felony or similar criminal offense, or any violation of federal or state securities laws, or a civil enforcement action is brought against him by a regulatory agency for actions or omissions related to his employment with us, or if we reasonably believe that he committed an act or omission that would have entitled us to terminate his employment for Cause. If Mr. Ritchey is found guilty or enters into a plea agreement, consent decree, or similar

arrangement with respect to a civil or criminal proceeding, or if the Board determines that he has committed such an act or omission, we will stop making monthly payments to him and require him to repay all prior payments. If any such civil or criminal proceedings do not result in a finding of guilt or an entry of a plea arrangement or consent decree or similar arrangement, or the Board determines that Mr. Ritchey has not committed such an act or omission, we will pay Mr. Ritchey any monthly payments that were suspended, with interest, and continue to make all remaining payments. In the event that the Company had terminated Mr. Ritchey's employment without Cause or he voluntarily terminated his employment for Good Reason, in either case prior to a Corporate Change, Mr. Ritchey would have been entitled to 18 monthly payments in the aggregate amount of \$592,500 and matching contributions on premiums for our group health insurance for such 18 month period in the aggregate amount of \$17,363.

Following a Corporate Change and for a period of two years thereafter, if Mr. Ritchey's employment is terminated for any reason other than death, Inability to Perform, Cause, or termination by Mr. Ritchey for Good Reason, we will pay him a lump sum amount (the Change in Control Amount) equal to his then-current base salary and the amount of annual incentive bonus which he received in the Company's last fiscal year multiplied by 2.99. Any lump sum payment resulting from a termination of Mr. Ritchey's employment following a Corporate Change will generally occur six months after his date of separation. The agreement also provides that, if the Change in Control Amount is subject to certain federal excise taxes, we will gross-up the Change in Control Amount such that Mr. Ritchey will receive a net amount after such taxes, equal to the Change in Control Amount that he would have received had such taxes not been imposed. If the Company had terminated Mr. Ritchey's employment without Cause or he had voluntarily terminated his employment with Good Reason on February 29, 2008, and this was within 24 months of a Corporate Change of the Company, Mr. Ritchey would have been entitled to receive a lump sum payment equal to \$1,181,050, matching contributions on premiums for our group health insurance in the aggregate amount of \$17,363 and a tax gross-up amount of \$448,711.

Certain information on potential payments Mr. Ritchey and the other Named Executives could receive under their employment agreements, and the amounts they could potentially receive under their stock option agreements with us, following a termination of their employment is set forth in the tables below under the captions Potential Payments and Benefits Upon Termination Without a Change in Control and Potential Payments and Benefits Upon Termination With a Change in Control.

Employment Agreements with Craig E. Holmes and James A. Milton. Effective as of May 8, 2006, we entered into new employment agreements with Craig Holmes, our Executive Vice President and Chief Financial Officer and James Milton, our President and Chief Operating Officer. During fiscal 2008, the initial two year terms of the agreements were extended through May 8, 2009. The new employment agreements did not increase or otherwise modify the base salaries of \$350,000 and \$262,500 payable to Messrs. Milton and Holmes, respectively, and did not offer them any additional cash bonus or equity based incentive opportunities. As with Mr. Ritchey, each of them is eligible to earn a cash bonus under any bonus plan applicable to their position.

The employment agreements with Messrs. Milton and Holmes require that the executive not compete with us while he renders services under his agreement and for a period of 18 months following the end of his employment. The agreements further provide that we may terminate the executive's employment for death, for Cause, or for Inability to Perform (as such terms are defined in the agreements). Upon three months prior written notice, we may terminate the executive's employment without Cause. The executive may terminate his employment for Good Reason (as defined in the agreements), unless we are able to remedy the circumstances constituting Good Reason within 30 days after the executive notifies us of such circumstances. If the executive dies, we will pay his designated beneficiary any accrued and unpaid base salary plus a lump sum equivalent to six months' base salary. In the event that Messrs. Milton and Holmes had died on February 29, 2008, their designated beneficiaries would have received lump sum payments of \$175,000 and \$131,250, respectively. If the executive is terminated for Cause or for his Inability to Perform, we will have no liability for further payments to him other than payment of any accrued and unpaid of his base salary through the date of termination.

If the executive's employment is terminated by us for any reason other than death, Inability to Perform, or Cause, or if the executive resigns for Good Reason, in either case prior to a Change in Control (as such terms are defined in their agreements), we will continue to pay his base salary for 18 months following the end of his employment if, within

60 days, he signs a general release agreement. In addition to paying his salary for 18 months we will continue to make matching contributions toward the payment of the executive's premiums for our group health insurance coverage for a period of up to 15 months. If, in our reasonable judgment, the executive after the termination of his employment violates any of his obligations of confidentiality,

- 24 -

noncompetition or nondisparagement, our obligation to make monthly payments will end. In addition, we may suspend such payments if the executive is arrested or indicted for any felony or similar criminal offense, or any violation of federal or state securities laws, or a civil enforcement action is brought against him by a regulatory agency for actions or omissions related to his employment with us, or if we reasonably believe he committed an act or omission that would have entitled us to terminate his employment for Cause. If the executive is found guilty or enters into a plea agreement, consent decree, or similar arrangement with respect to a civil or criminal proceeding, or if the Board determines that he has committed such an act or omission, our obligation to make any additional monthly payments will end and the executive will repay to us any prior payments. If any such civil or criminal proceedings do not result in a finding of guilt or an entry of a plea arrangement or consent decree or similar arrangement, or the Board determines that the executive has not committed such an act or omission, we will pay the executive any monthly payments that were suspended, with interest, and continue to make all remaining payments. In the event that the Company had terminated Mr. Milton's employment without Cause or he voluntarily terminated his employment for

Good Reason, in either case prior to a Change in Control, Mr. Milton would have been entitled to 18 monthly payments in the aggregate amount of \$525,000 and matching contributions on premiums for our group health insurance for a 15 month period in the aggregate amount of \$20,967. In the event that the Company had terminated Mr. Holmes employment without Cause or he voluntarily terminated his employment for Good Reason, in either case prior to a Change in Control, Mr. Holmes would have been entitled to 18 monthly payments in the aggregate amount of \$393,750 and matching contributions on premiums for our group health insurance for a 15 month period in the aggregate amount of \$20,967.

Following a Corporate Change (as defined in the agreements) and for a period of 18 months thereafter, if the employment of Messrs. Milton or Holmes is terminated for any reason other than death, Inability to Perform, Cause, or termination by the executive for Good Reason, we will pay him a lump sum amount (the Change in Control Amount) equal to 2.00 times the sum of his then-current base salary and the amount of annual incentive bonus he received for the last fiscal year (as determined in accordance with his agreement). The payment will generally occur six months after his date of separation. The agreement also provides that, if the Change in Control Amount is subject to certain federal excise taxes, we will gross-up the Change in Control Amount such that the executive will receive a net amount after such taxes, equal to the Change in Control Amount that he would have received had such taxes not been imposed. If the Company had terminated Mr. Milton's employment without Cause or he had voluntarily terminated his employment with Good Reason on February 29, 2008, and this was within 18 months of a Change in Control of the Company, Mr. Milton would have been entitled to receive a lump sum payment equal to \$700,000 and matching contributions on premiums for our group health insurance in the aggregate amount of \$20,967, for a total value of \$720,967. If the Company had terminated Mr. Holmes' employment without Cause or he had voluntarily terminated his employment with Good Reason on February 29, 2008, and this was within 18 months of a Change in Control of the Company, Mr. Holmes would have been entitled to receive a lump sum payment equal to \$525,000 and matching contributions on premiums for our group health insurance in the aggregate amount of \$20,967, for a total value of \$545,967.

Certain information on potential payments Messrs. Milton and Holmes and the other Named Executives could receive under their employment agreements, and the amounts they could potentially receive under their stock option agreements with us, following a termination of their employment is set forth in the tables below under the captions

Potential Payments and Benefits Upon Termination Without a Change in Control and Potential Payments and Benefits Upon Termination With a Change in Control.

Employment Agreement with Francis G. Sherlock. Mr. Sherlock has an employment agreement with our subsidiary in the United Kingdom which was entered into by Mr. Sherlock when he joined Brite Voice Systems Group Limited on April 15, 1998. Brite Voice Systems Group Limited, now known as Intervoice Limited, was acquired by us in June of 1999. Mr. Sherlock's employment agreement covers his employment within our UK operations and sets out the policies under which his employment is governed. Mr. Sherlock's employment agreement does not set out his annual salary but it does provide for severance notice in the event his employment is terminated for reasons other than gross misconduct. Based on Mr. Sherlock's tenure with us, Mr. Sherlock is currently entitled to receive nine weeks notice if we terminate his employment.

Certain information on potential payments Mr. Sherlock and the other Named Executives could receive under their employment agreements, and the amounts they could potentially receive under their stock option agreements with us, following a termination of their employment is set forth in the tables below under the captions Potential Payments and Benefits Upon Termination Without a Change in Control and Potential Payments and Benefits Upon Termination With a Change in Control . Mr. Sherlock s employment agreement does not govern the amount of cash severance he is entitled to receive upon a termination of his employment

before or after a change in control. Any cash severance Mr. Sherlock would be entitled to receive upon a termination of his employment would be governed by certain statutory requirements in the United Kingdom and certain policies and procedures of our United Kingdom subsidiary, Intervoice Limited, applicable to all employees on a nondiscriminatory basis.

Employment Agreement with Kenneth A. Goldberg. Effective March 1, 2007, we entered into an employment agreement with Kenneth Goldberg, Senior Vice President of Marketing, Alliances and Corporate Development. The initial term of the agreement will end on February 28, 2009. The new employment agreement did not modify Mr. Goldberg's annual base salary of \$230,000 or his eligibility to participate in any annual incentive bonus program we may offer our executive officers, including the Named Executives. The new agreement also did not provide for Mr. Goldberg to receive any additional equity-based compensation.

The employment agreement requires Mr. Goldberg to not work for one of our competitors, disparage us, solicit employees to terminate their employment, or solicit customers or vendors to terminate their business with us, during the term of the agreement and for a period of 12 months (24 months with respect to non-solicitation of employees) following the end of his employment. Under the agreement we may terminate Mr. Goldberg's employment for death, for Cause, or for Inability to Perform (as such terms are defined in his agreement). Upon 90 days prior notice we may also terminate his employment without Cause. If Mr. Goldberg dies we will pay any accrued and unpaid salary to his designated beneficiary. If we terminate Mr. Goldberg's employment for Cause or for Inability to Perform, we will have no liability for further payments other than payment of any accrued and unpaid base salary through the date specified in the notice of termination. If we terminate Mr. Goldberg's employment for any reason other than death, Inability to Perform, or Cause, we will continue to pay his base salary and matching contributions for his group health insurance for 12 months following the end of his employment, provided he signs a general release agreement. In the event that the Company had terminated Mr. Goldberg's employment without Cause or he voluntarily terminated his employment for Good Reason on February 29, 2008, Mr. Goldberg would have been entitled to 12 monthly payments in the aggregate amount of \$230,000 and matching contributions on premiums for our group health insurance for such 12 month period in the aggregate amount of \$16,773.

If, in our reasonable judgment, Mr. Goldberg violates any obligations of confidentiality, non-competition, non-solicitation or non-disparagement after his employment is terminated, our obligation to make monthly payments under his agreement will end. In addition, we may suspend such payments if he is arrested or indicted for any felony or similar criminal offense, or he violates any federal or state securities laws, or a civil enforcement action is brought against him by a regulatory agency for actions or omissions related to his employment with us, or if we reasonably believe he has committed an act or omission that would have entitled us to terminate his employment for Cause. If Mr. Goldberg is found guilty or enters into a plea agreement, consent decree, or similar arrangement with respect to a civil or criminal proceeding, or if the Board determines that he committed such an act or omission, we will stop making monthly payments under his agreement and require him to repay any prior payments. If any such civil or criminal proceedings do not result in a finding of guilt or an entry of a plea arrangement or consent decree or similar arrangement, or the Board determines that he has not committed such an act or omission, we will pay him any monthly payments that were suspended, with interest, and continue to make all remaining payments. Following a Corporate Change (as defined in his agreement) with less than one year remaining under the agreement, the term of the agreement will automatically extend through the first anniversary of the date of the Corporate Change.

Certain information on potential payments Mr. Goldberg and the other Named Executives could receive under their employment agreements, and the amounts they could potentially receive under their stock option agreements with us, following a termination of their employment is set forth in the tables below under the captions Potential Payments and Benefits Upon Termination Without a Change in Control and Potential Payments and Benefits Upon Termination With a Change in Control .

Stock Option Agreements with the Named Executives. The Compensation Committee has from time to time granted stock options under our equity compensation plans to each of the Named Executives under terms set forth in a stock option agreement between us and the Named Executive. The stock option agreements are generally subject to special provisions upon the occurrence of change in control transaction, as defined in the equity compensation plan under which the stock option was granted. The change in control provisions under our 2007 Stock Incentive Plan and

prior equity compensation plans are discussed under the caption Long Term Incentive Plan Change in Control Provisions in the Compensation Discussion and Analysis.

The following table provides quantitative disclosure of the estimated payments that would be made to the Named Executives under their employment agreements, as well as the amounts our Named Executives would receive under their stock option agreements upon exercise of all their vested stock options (to the extent not previously exercised) on February 29, 2008, the last business day of our fiscal 2008, assuming that:

Each Named Executive's employment with us was terminated on February 29, 2008 and was not in connection with an event which constituted a change in control or corporate change under any employment agreement or stock option agreement;

The base salary earned by each Named Executive for his services to us through February 29, 2008 has been fully paid to such Named Executive; and

To the extent not otherwise terminated in connection with the Named Executive's termination, each of the Named Executives exercised all vested stock options (to the extent not previously exercised) and sold the underlying shares at the closing price for shares of our common stock on the NASDAQ Global Select Market on February 29, 2008 which was \$7.07.

CERTAIN TRANSACTIONS AND DIRECTOR INDEPENDENCE

The Board of Directors has determined that David W. Brandenburg, Michael J. Willner, Timothy W. Harris, Gerald F. Montry and Donald B. Reed are independent directors under Rule 4200(a)(15) of the NASDAQ listing standards.

For information concerning agreements between the Company and each of Robert E. Ritchey, James A. Milton, Craig E. Holmes, Francis G. Sherlock and Kenneth A. Goldberg see the section Agreements with Executive Officers. For information concerning an agreement between us and David W. Brandenburg, see the discussion captioned Board Representation and Governance Agreement that Dictated the Slate of Nominees for Director for Last Year's Annual Meeting But Not for this Year's Annual Meeting. Under the terms of the Governance Agreement, we reimbursed Mr. Brandenburg \$380,000 for certain fees and expenses, including legal fees and expenses, incurred by him in connection with his proxy solicitation.

Related Party Transaction Policy. The Board of Directors has adopted a written Related Party Transaction Policy (the Policy). The purpose of the Policy is to describe the procedures used to review, approve or ratify and disclose, if necessary, any transaction or series of transactions, that would require disclosure under Item 404(a) of Regulation S-K of the Securities and Exchange Commission, in which (i) the aggregate amount involved will or may be expected to exceed \$120,000 in any calendar year, (ii) we are or will be a participant and (iii) a related person has or will have a direct or indirect material interest. For purposes of the Policy, a related person is each member of the Board of Directors, each executive officer, any nominee for director, and any security holder known to us to own of record or beneficially 5% of our Common Stock, or any member of their immediate family.

Once a related party transaction is presented, the Audit Committee or another independent committee of the Board must review the transaction for approval or ratification. In determining whether to approve or ratify a related party transaction, the Audit Committee or other independent committee, as applicable, will consider all relevant facts and circumstances, including the following factors:

the nature of the related person's interest in the transaction;

the material terms of the transaction, including the amount involved and type of transaction;

the importance to the related person and to us,

whether the transaction would impair the judgment of a director or executive officer to act in the best interest of the Company and its shareholders; and

any other matters the Audit Committee deems appropriate.

No director may participate in any discussion, approval or ratification of a transaction in which he or she is a related person, except that the director will provide all material information concerning the transaction to the Audit Committee or such other designated independent committee.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

We are not aware of any executive officer or director who failed to file on a timely basis a report required under Section 16(a) of the Exchange Act to disclose a transaction or holdings involving our securities. In making this representation, we are relying on written representations of our current and former executive officers and directors.

AUDITORS

The Audit Committee appointed the firm of Grant Thornton as our independent registered public accounting firm for the fiscal year ending February 29, 2009. See Proposal 2. To Ratify the Appointment of Independent Registered Public Accounting Firm for a discussion of a proposal to ratify the appointment of Grant Thornton.

During the fiscal year ended February 29, 2008, Grant Thornton provided audit services to us including an examination of our financial statements and an examination of our internal control over financial reporting. Grant Thornton has advised us that no material relationship exists between Grant Thornton or any of its partners and us and that it is independent from us in all respects. The Audit Committee of the Board of

Directors has considered the non-audit services provided to us by Grant Thornton and believes such are compatible with maintaining such firm's independence.

On July 17, 2007 Ernst & Young LLP, our independent registered public accounting firm, advised us that they were resigning effective as of such date. Ernst & Young's resignation was voluntary and not recommended or approved by our Board of Directors or Audit Committee.

Ernst & Young's reports on our financial statements for the years ended February 28, 2007 and 2006 did not contain an adverse opinion or disclaimer of opinion, nor were such reports qualified or modified as to uncertainty, audit scope or accounting principles. In addition, during the years ended February 28, 2007 and 2006 and the subsequent interim periods preceding Ernst & Young's resignation, there were no disagreements between us and them on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure which, if not resolved to their satisfaction, would have caused them to make reference to the subject matter of the disagreements in connection with its report. There were no reportable events as that term is described in Item 304(a)(1)(v) of Regulation S-K

Representatives of Grant Thornton are expected to attend the 2008 annual meeting. These representatives will have the opportunity to make a statement at the meeting if they desire to do so and will also be available to respond to appropriate questions.

FEES OF AUDITOR

The fees billed by Grant Thornton for professional services rendered to the Company and its subsidiaries for the fiscal year ended February 29, 2008, and for professional services rendered by Ernst & Young LLP for the fiscal year ended February 28, 2007 were as follows:

	2007		2008	
Audit Fees (a)	\$1,274,914	91.8%	\$674,085	99.6%
Audit-Related Fees (b)	60,361	4.3%	0	0.0%
Tax Fees (c)	54,106	3.9%	3,000	0.4%
All Other Fees	0	0.0%	0	0.0%
Total	\$1,389,381	100.0%	\$677,082	100.0%

(a) Fees for audit services billed for fiscal years 2007 and 2008 consisted of the audits of our annual consolidated financial statements (including audits of our internal control over financial reporting), reviews of its quarterly consolidated financial statements, consents and

other services related to Securities and Exchange Commission matters, and statutory audits of certain foreign subsidiaries.

- (b) Fees for audit-related services in fiscal 2007 consisted primarily of services related to previously disclosed pending litigation and compliance matters. Grant Thornton did not render audit related services in fiscal 2008.

- (c) Tax fees billed in fiscal years 2007 and 2008 included fees for tax compliance services performed for the Company, including compliance services related to various foreign subsidiaries and certain personnel on expatriate assignments, and tax advice regarding doing business in certain foreign

countries.

Under the Audit Committee's pre-approval policies, all services provided by Ernst & Young and Grant Thornton during the fiscal years ended February 28 2007 and February 29, 2008, respectively, were approved by the Audit Committee or the Chairman of the Audit Committee.

Such proposals must also meet the other requirements of the rules of the Securities and Exchange Commission relating to shareholder proposals.

To aid in the solicitation of proxies, the Company may employ Georgeson Shareholder Services, a proxy solicitation firm in New York, New York, to solicit proxies from brokers, banks, nominees, institutional holders and individual holders for use at the meeting at a fee of approximately \$7,000, plus out-of-pocket expenses. The Company will provide, by first class mail or other equally prompt means, a copy of the information that is incorporated by reference in the proxy statement, without charge, to each person to whom a proxy statement is delivered upon written or oral request within one day of receipt of such request.
