Notes to Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation**General**

The accompanying unaudited Consolidated Financial Statements have been prepared in conformity with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities Exchange Act of 1934. Accordingly, they do not include all of the information and footnotes necessary for fair presentation of financial position, results of operations and cash flows in conformity with U.S. generally accepted accounting principles. Operating results from interim periods are not necessarily indicative of results that may be expected for the fiscal year as a whole. The Company is subject to seasonal patterns that generally affect the wireless device industry. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates, but management does not believe such differences will materially affect Brightpoint, Inc.'s financial position or results of operations. The Consolidated Financial Statements reflect all adjustments considered, in the opinion of management, necessary to fairly present the results for the periods. Such adjustments are of a normal recurring nature.

For further information, including the Company's significant accounting policies, refer to the audited Consolidated Financial Statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008. As used herein, the terms Brightpoint, Company, we, our and us mean Brightpoint, Inc. and consolidated subsidiaries.

Earnings Per Share

Basic earnings per share is based on the weighted average number of common shares outstanding during each period, and diluted earnings per share is based on the weighted average number of common shares and dilutive common share equivalents outstanding during each period. The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations (in thousands, except per share data):

Brightpoint, Inc.**Notes to Consolidated Financial Statements****Recently Issued Accounting Pronouncements**

In December 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard (SFAS) 141 (R). This statement amends SFAS 141, *Business Combinations*, and provides revised guidance for recognizing and measuring identifiable assets and goodwill acquired, liabilities assumed, and any noncontrolling interest in the acquiree. It also provides disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The provisions of SFAS 141(R) were effective for the Company on January 1, 2009. The adoption of SFAS 141(R) did not have a material impact on its financial statements since the provisions of SFAS 141 (R) are applied prospectively.

In December 2007, the FASB issued SFAS 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB 51*. SFAS 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It also amends certain of ARB 51's consolidation procedures for consistency with the requirements of SFAS 141(R). The provisions of SFAS 160 were effective for the Company on January 1, 2009. The adoption of SFAS 160 did not have a material impact on its financial statements.

Other Comprehensive Income (Loss)

The components of comprehensive income (loss) for the three months ended March 31, 2009 and 2008 are as follows (in thousands, net of tax):

	Three Months Ended March 31,	
	2009	2008
Net income (loss)	\$ (3,073)	\$ 914
Unrealized loss on derivative instruments	(24)	(721)
Unrealized loss on marketable securities		(1,334)
Net loss attributable to noncontrolling interest		(139)

Comprehensive (loss) income	\$ (12,254)	\$ 36,251

Derivative Instruments and Hedging Activities

On January 1, 2009, the Company adopted the provisions of SFAS 161, *Disclosures about Derivative Instruments and Hedging Activities*. SFAS 161 enhances disclosures about derivative and hedging activities. The Company is exposed to certain risks relating to its ongoing business activities. The primary risks managed by the use of derivative instruments are interest rate risk and foreign currency fluctuation risk. Interest rate swaps are entered into in order to manage interest rate risk associated with the Company's variable rate borrowings. Forward contracts are entered into to manage the foreign currency risk associated with various commitments arising from trade accounts receivable, trade accounts payable and fixed purchase obligations. The volume and impact to the Consolidated Balance Sheets and Statements of Operations is immaterial. The Company holds the following types of derivatives at March 31, 2009 that have been designated as hedging instruments under SFAS 133:

Derivative

Interest rate swap

Risk Being Hedged

Cash flows of interest payments on variable rate debt

Derivatives are held only for the purpose of hedging such risks, not for speculation. Generally, the Company enters into hedging relationships such that the cash flows of items and transactions being hedged are expected to be offset by corresponding changes in the values of the derivatives. At March 31, 2009, a hedging relationship exists related to \$65.0 million of the Company's variable rate debt. The swap is accounted for as a cash flow hedge under SFAS 133.

This interest rate swap transaction effectively locks in a fixed interest rate for variable rate interest payments that are expected to be made from April 1, 2009 through January 31, 2012. Under the terms of the swap, the Company will pay a fixed rate and will receive a variable rate based on the three month USD LIBOR rate plus a

6

Brightpoint, Inc.**Notes to Consolidated Financial Statements**

credit spread. There was no ineffective portion of the interest rate swaps included in the results of operations for the three months ended March 31, 2009. The unrealized loss associated with effective portion of the interest rate swaps included in other comprehensive income was immaterial for the three months ended March 31, 2009.

The fair value of interest rate swaps in the Consolidated Balance Sheets is \$4.7 million. The fair value of the interest rate swap maturing within one year is included in *Accrued expenses* in the Consolidated Balance Sheets. The fair value of the interest rate swap maturing after one year is included in *Other long-term liabilities* in the Consolidated Balance Sheets.

Fair Value of Financial Instruments

SFAS 157, *Fair Value Measurements*, defines fair value, provides guidance for measuring fair value and requires certain disclosures. SFAS No. 157 discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). The statement utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

The following table summarizes the bases used to measure certain financial assets and financial liabilities at fair value on a recurring basis in the balance sheet (in thousands):

	Balance at	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)
	March 31, 2009		
Financial instruments classified as assets			
Forward foreign currency contracts	\$ 28	\$	\$ 28
Financial instruments classified as liabilities			
Interest rate swaps	\$4,703	\$	\$ 4,703
Forward foreign currency contracts	1,190		1,190

The Company adopted the provisions of SFAS 157 with respect to its non-financial assets and liabilities during the first quarter of 2009. However, there were no non-financial assets or liabilities requiring initial measurement or subsequent remeasurement during the first quarter of 2009.

2. Acquisitions

Effective December 31, 2008, the Company acquired the assets of Bradian Warehousing and Distribution (Pty), Ltd. for \$1.4 million. In addition, the Company agreed to contingent cash earn out payments based upon certain operating performance measures which may be payable for each of the three fiscal years after acquisition. The total earn out payments will in no event exceed 20.5 million South African Rand (approximately \$2.1 million as of March 31, 2009).

On April 28, 2008, the Company acquired the assets of Hugh Symons Group Ltd.'s wireless distribution business for \$0.6 million (0.3 million pounds sterling) and the value of inventory at the date of closing. In addition, the Company

7

Brightpoint, Inc.**Notes to Consolidated Financial Statements**

agreed to contingent cash earn out payments based upon certain operating performance measures which may be payable on the first, second and third anniversary of closing. The total earn out payments shall in no event exceed 3.6 million pounds sterling (approximately \$5.1 million as of March 31, 2009).

3. Restructuring

In February 2009, the Company announced that it initiated its 2009 Spending and Debt Reduction Plan. Included in this plan is a global workforce reduction of 220 positions.

Europe Realignment

The balance at December 31, 2008 relates to the plan to realign the Company's European operations that was announced on June 30, 2008. Reserve activity for the realignment of the Company's Europe operations and for the workforce reduction included in the 2009 Spending and Debt Reduction Plan for the three months ended March 31, 2009 is as follows (in thousands):

	Employee Terminations	Lease Termination Costs	Total
Balance at December 31, 2008	\$ 3,325	\$ 3,445	\$ 6,770
Restructuring charge	4,831	(232)	4,599
Foreign currency translation	(93)	(224)	(317)
Total activity:	8,063	2,989	11,052
Less:			
Cash usage	(3,012)	(358)	(3,370)
Non-cash usage			
Balance at March 31, 2009	\$ 5,051	\$ 2,631	\$ 7,682

Restructuring charge was \$4.6 million for the three months ended March 31, 2009. The restructuring charge consists of the following:

\$4.8 million of severance charges in connection with the global workforce reduction announced as part of the Company's 2009 Spending and Debt Reduction Plan. The Company reduced its workforce by approximately 130 positions in its EMEA division in the first quarter of 2009.

A \$0.4 million charge associated with the exit of our headquarters facility in Europe.

A \$0.8 million benefit associated with the favorable settlement of the operating lease of the Company's redundant warehouse and office facility in Germany.

\$0.1 million of other charges associated with our 2009 Spending and Debt Reduction Plan.

Americas Realignment

In addition to the realignment of the Company's European operations discussed above, the Company also began initiatives to better leverage its cost structure in the Americas region. The Americas realignment includes severance for employees in our Americas operations (\$0.6 million) as well as a benefit related to the closure of the Company's distribution facility in Reno, Nevada (\$0.1 million). The Company reduced its workforce by approximately 20 positions in its Americas division in the first quarter of 2009.

Brightpoint, Inc.**Notes to Consolidated Financial Statements**

Reserve activity for the realignment of the Company's Americas operations for the three months ended March 31, 2009 is as follows (in thousands):

	Employee Terminations	Lease Termination Costs	Total
Balance at December 31, 2008	\$ 236	\$ 897	\$ 1,133
Restructuring charge	599	(112)	487
Foreign currency translation			
Total activity:	835	785	1,620
Less:			
Cash usage	(835)	(92)	(927)
Non-cash usage			
Balance at March 31, 2009	\$	\$ 693	\$ 693

The Company reduced its global workforce by approximately 150 positions during the first quarter of 2009. Most of this reduction came during the latter half of the first quarter. The Company will continue to reduce its workforce to achieve the previously stated target of at least 220 positions. Most of the remaining reductions in workforce will occur throughout the second quarter and will result in additional material severance charges.

In addition, the Company expects to exit certain programs, channels and/or countries that do not meet its profitability targets. As a result of exiting underperforming programs, channels and/or countries in its EMEA region, the Company would expect to incur additional restructuring charges. The Company will provide updates on these activities and related estimated charges, which could be material, as appropriate throughout the year.

4. Discontinued Operations

The consolidated statements of operations reflect the reclassification of the results of operations of the Company's operations in Poland and Turkey as well as its locally branded PC notebook business in Slovakia to discontinued operations for all periods presented in accordance with U.S. generally accepted accounting principles. The Company abandoned its Poland and Turkey operations in the first quarter of 2009, and it abandoned the locally branded PC notebook business in the third quarter of 2008. There were no material impairments of tangible or intangible assets related to these discontinued operations. Discontinued operations for the three months ended March 31, 2009 and 2008 are as follows (in thousands):

	Three Months Ended March 31, 2009 2008	
Revenue	\$ 1,677	\$ 19,978
Income (loss) from discontinued operations before income taxes	\$ (1,096)	\$ (3,067)
Income tax expense (benefit)		(801)
Loss from discontinued operations	\$ (1,096)	\$ (2,266)

Gain on disposal of discontinued operations (1)	1,098	
Total discontinued operations, net of income taxes	\$ 2	\$ (2,266)

(1) Gain on disposal of discontinued operations includes a \$1.2 million gain related to a cumulative currency translation adjustment associated with the abandonment of the Poland business.

Notes to Consolidated Financial Statements

5. Borrowings

At March 31, 2009, the Company and its subsidiaries were in compliance with the covenants in each of its material credit agreements. Interest expense includes interest on outstanding debt, charges for accounts receivable factoring programs, fees paid for unused capacity on credit lines and amortization of deferred financing fees.

The table below summarizes the borrowing capacity that was available to the Company as of March 31, 2009 (in thousands):

	Gross Availability	Outstanding	Letters of Credit & Guarantees	Net Availability
Global Term Loans	\$ 134,745	\$ 134,745	\$	\$
Global Credit Facility	300,000	1,357	608	298,035
Other	51,600	1,859	2,890	46,851
Total	\$486,345	\$137,961	\$ 3,498	\$344,886

The Company had \$0.3 million of other borrowings outstanding at March 31, 2009. These borrowings were not under any of the Company's credit agreements.

During April 2009, the Company made additional principal payments of approximately \$35.0 million on its Global Term Loans. With these payments, the Company has no required principal payments on its Global Term Loans until September 2011.

Additional details on the above available borrowings are discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

6. Guarantees

In accordance with FIN 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*, guarantees are recorded at fair value and disclosed, even when the likelihood of making any payments under such guarantees is remote.

The Company has issued certain guarantees on behalf of its subsidiaries with regard to lines of credit. Although the guarantees relating to lines of credit are excluded from the scope of FIN 45, the nature of these guarantees and the amounts outstanding are described in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

The Company has entered into indemnification agreements with its officers and directors, to the extent permitted by law, pursuant to which the Company has agreed to reimburse its officers and directors for legal expenses in the event of litigation and regulatory matters. The terms of these indemnification agreements provide for no limitation to the maximum potential future payments. The Company has a directors and officers insurance policy that may, in certain instances, mitigate the potential liability and payments.

7. Operating Segments

The Company has operations centers and/or sales offices in various countries including Australia, Austria, Belgium, Colombia, Denmark, Finland, France, Germany, Guatemala, India, Italy, the Netherlands, New Zealand, Norway, Portugal, Russia, Singapore, Slovakia, South Africa, Spain, Sweden, Switzerland, the United Arab Emirates, the United Kingdom and the United States. All of the Company's operating entities generate revenue from the distribution of wireless devices and accessories and/or the provision of logistic services. During the third quarter of 2008, the Company reclassified its operating entities in South Africa and the United Arab Emirates into the Europe reporting segment from the Asia-Pacific reporting segment. The Europe reporting segment has been renamed the Europe Middle East and Africa reporting segment (EMEA). Segment information as of and for the three months

Brightpoint, Inc.**Notes to Consolidated Financial Statements**

ended March 31, 2008 has been reclassified to conform to this presentation. The Company identifies its reportable segments based on management responsibility of its three geographic divisions: the Americas, Asia-Pacific, and EMEA. The Company's operating components have been aggregated into these three geographic reporting segments. The Company evaluates the performance of and allocates resources to these segments based on income from continuing operations before income taxes (excluding corporate selling, general and administrative expenses and other unallocated expenses). A summary of the Company's operations by segment is presented below (in thousands) for the three months ended March 31, 2009 and 2008:

8. Legal Proceedings and Contingencies

LN Eurocom

On June 11, 2008 LN Eurocom (LNE) filed a lawsuit in the City Court of Frederiksberg, Denmark against Brightpoint Smartphone A/S and Brightpoint International A/S, each a wholly owned subsidiary of the Company (collectively,

Smartphone). The lawsuit alleges that Smartphone breached a contract relating to call center services performed or to be performed by LNE. The total amount now claimed is approximately 13 million DKK (approximately \$2.3 million as of March 31, 2009). Smartphone disputes this claim and intends to defend this matter vigorously.

Brightpoint, Inc.
Notes to Consolidated Financial Statements

Fleggaard group of companies

The former headquarters of Dangaard Telecom was in premises rented from a member of the Fleggaard group of companies, which was a former shareholder of Dangaard Telecom. A fire in March 2006 caused by another tenant in the building destroyed the headquarters and Dangaard Telecom had to leave the building while awaiting renovation of its space. Because of Fleggaard's failure to renovate the space, Dangaard Telecom terminated the lease. Fleggaard has disputed the lease termination and has claimed \$1.4 million in damages. Dangaard Telecom continues to dispute this claim and intends to defend this matter vigorously.

Norwegian tax authorities

Dangaard Telecom's subsidiary, Dangaard Telecom Norway AS Group, received notice from the Norwegian tax authorities regarding tax claims in connection with certain capital gains. The Norwegian tax authorities have claimed \$2.7 million. Dangaard Telecom Norway AS Group has disputed this claim; however, The Norwegian Tax Authorities ruled against Dangaard Telecom Norway AS in April 2008. The case is currently pending before the Tax Appeal Board. The former shareholders of Dangaard Telecom agreed to indemnify Dangaard Holding with respect to 80% of this claim when Dangaard Holding acquired Dangaard Telecom, and Dangaard Holding agreed in the purchase agreement with the Company to transfer and assign these indemnification rights to the Company (or enforce them on our behalf if such transfer or assignment is not permitted).

German tax authorities

Dangaard Telecom's subsidiary, Dangaard Telecom Germany Holding GmbH, received notice from the German tax authorities regarding tax claims in connection with the deductibility of certain stock adjustments and various fees during the period 1998 to 2002. Dangaard Telecom Germany Holding GmbH agreed to pay part of the claim, and the current amount in dispute is \$1.8 million. Dangaard Telecom Germany Holding GmbH continues to dispute this claim and intends to defend this matter vigorously. The former shareholders of Dangaard Telecom are obliged to indemnify Dangaard Holding with respect to any such tax claims. Due to the claim's limited size, however, it will be below an agreed upon threshold, therefore the indemnification would not be activated by this claim if no other claims for indemnification have been or are asserted.

ECP South Perry Road, LLC

ECP South Perry Road, LLC (ECP) filed a complaint against the Company claiming \$0.8 million in damages allegedly arising from the Company's alleged violations of (i) a lease agreement between the Company and ECP's predecessor-in-interest for certain real property located in Hendricks County, Indiana (the Leased Premises), and (ii) Indiana's Uniform Fraudulent Transfer Act. The Company denies any and all liability in this matter and is defending the action vigorously. Further, the Company has filed a counterclaim against ECP alleging constructive eviction from the Leased Premises and seeking declaratory judgment from the court and monetary damages (including attorney's fees) from ECP.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.
OVERVIEW AND RECENT DEVELOPMENTS

This discussion and analysis should be read in conjunction with the accompanying Consolidated Financial Statements and related notes. Our discussion and analysis of the financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in conformity with U.S. generally accepted accounting principles. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of any contingent assets and liabilities at the financial statement date and reported amounts of revenue and expenses during the reporting period. On an on-going basis we review our estimates and assumptions. Our estimates were based on our historical experience and various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ from those estimates but we do not believe such differences will materially affect our financial position or results of operations. Our critical accounting estimates, the estimates we believe are most important to the presentation of our financial statements and require the most difficult, subjective and complex judgments are outlined in our Annual Report on Form 10-K for the year ended December 31, 2008, and have not changed significantly. Certain statements made in this report may contain forward-looking statements. For a description of risks and uncertainties relating to such forward-looking statements, see the cautionary statements contained in Exhibit 99.1 to this report and our Annual Report on Form 10-K for the year ended December 31, 2008. Brightpoint, Inc. is a global leader in the distribution of wireless devices and accessories and provision of customized logistic services to the wireless industry. We have operations centers and/or sales offices in various countries including Australia, Austria, Belgium, Colombia, Denmark, Finland, France, Germany, Guatemala, India, Italy, the Netherlands, New Zealand, Norway, Portugal, Russia, Singapore, Slovakia, South Africa, Spain, Sweden, Switzerland, the United Arab Emirates, the United Kingdom and the United States. We provide customized integrated logistic services including procurement, inventory management, software loading, kitting and customized packaging, fulfillment, credit services and receivables management, call center and activation services, website hosting, e-fulfillment solutions and other services within the global wireless industry. Our customers include mobile network operators, mobile virtual network operators (MVNOs), resellers, retailers and wireless equipment manufacturers. We distribute wireless communication devices and we provide value-added distribution and logistic services for wireless products manufactured by companies such as High Tech Computer Corp., Kyocera, LG Electronics, Motorola, Nokia, Samsung, Siemens, Sony Ericsson and UTStarcom.

The consolidated statements of operations reflect the reclassification of the results of operations for our Poland and Turkey operations and our locally branded PC notebook business in Slovakia to discontinued operations for all periods presented in accordance with U.S. generally accepted accounting principles. These businesses were previously reported in our EMEA reporting segment.

On February 9, 2009, we announced a plan to reduce forecasted spending for the year by approximately \$40 to \$45 million. This plan is comprised of \$12 to \$14 million of cost avoidance and \$28 to \$31 million of spending reductions. Simultaneously, we announced a plan to reduce average daily debt by approximately \$100 to \$150 million in 2009. The spending reduction measures included, among other things, a workforce reduction of at least 220 positions, or approximately 7% of our workforce. The majority of the foregoing reductions in spending are reflected in our 2009 first quarter results of operations as a reduction of selling, general, and administrative expenses.

Based on our progress through the first quarter of 2009, we believe that we are on track to realize the previously stated forecasted spending and cost avoidance targets as well as our debt reduction targets for 2009. For the first quarter of 2009 selling general and administrative (SG&A) expenses were \$52.5 million, which represents a decrease of \$6.8 million (12%) from the fourth quarter of 2008. This sequential decrease in SG&A is substantially all related to the previously announced spending reduction and cost avoidance initiatives. Average daily debt outstanding for the first quarter of 2009 was \$216.0 million as compared to \$333.0 million for the fourth quarter of 2008 and \$513.0 million for the first quarter of 2008. At the end of April 2009, our total outstanding term debt was approximately \$100 million.

We continue to focus on optimizing our European operating and financial structure with the ultimate motivation of achieving our financial targets for the European region. We expect to exit certain programs, channels and/or countries that do not meet our financial targets. As a result of exiting underperforming programs, channels and/or countries in our European region, we would expect to incur additional restructuring charges. We will provide updates on these activities and related estimated charges, which could be material, as appropriate throughout the year.

Logistic services	1%	1%	(16%)	(2%)	(16%)
Total	(15%)	(13%)	(6%)	(6%)	(40%)

(1) Handset-based volume represents the percentage change in revenue due to the change in quantity of wireless devices sold through our distribution business and the change in quantity of wireless devices handled through our logistic services business.

(2) Average selling price represents the percentage change in revenue due to the change in the average selling price of wireless devices sold through our distribution business and the change in the

average fee per wireless device handled through our logistic services business.

- (3) Non-handset distribution revenue represents the percentage change in revenue from accessories sold, freight and non-voice navigation devices sold through our distribution business. Non-handset based logistic services revenue represents the percentage change in revenue from the sale of prepaid airtime, freight billed, and fee based services other than fees earned from wireless devices handled. Changes in non-handset based revenue do not include changes in reported wireless devices.

The following table presents the percentage changes in revenue for our Americas division by service line for the three months ended March 31, 2009 compared to the same period in the prior year, including the impact to revenue from changes in wireless devices handled, average selling price and foreign currency.

2009 Percentage Change in Revenue vs. 2008

Logistic services	(3%)	4%	(2%)	0%	(1%)
Total	(32%)	(1%)	(1%)	(2%)	(36%)

The decrease in handset based volume for the three months ended March 31, 2009 was primarily due to weaker market conditions in North America and Latin America as well as the loss of key customers due to industry consolidation compared to the same period in the prior year. The decrease in average selling price was due to a higher mix of lower priced handsets sold compared to the same period in the prior year due to higher demand for these products.

The decrease in wireless devices handled through logistic services for the three months ended March 31, 2009 was primarily due to the sale of certain assets in Colombia in the second quarter of 2008. Excluding the decrease in units handled resulting from the sale of these assets, revenue from wireless devices handled was flat compared to the prior year. The increase in average fulfillment fee per unit was primarily driven by a shift in mix between customers and services compared to the same period in the prior year.

Logistic services	13%	(5%)	(19%)	(8%)	(19%)
Total	(32%)	(3%)	(4%)	(6%)	(45%)

The decrease in wireless devices sold in our Asia-Pacific division for the three months ended March 31, 2009 was driven by foreign currency fluctuations that allowed traders from other regions to sell wireless devices into markets served by our Singapore business at lower prices than those available to us as well as fewer devices sold in India. The decrease in average selling price was driven by shift in mix to lower priced handsets compared to the same period in the prior year.

The increase in wireless devices handled through logistic services for the three months ended March 31, 2009 was primarily resulting from an increase in wireless devices handled for our largest customer in Australia and New

Zealand. The decrease in average fulfillment fee per unit was due primarily to an unfavorable mix of wireless devices handled compared to the same period in the prior year. The decrease in non-handset based logistic services revenue was primarily due to a decrease in repair services in India compared to the same period in the prior year.

Logistic services	2%	(1%)	(27%)	(3%)	(29%)
Total	3%	(24%)	(9%)	(8%)	(38%)

The increase in wireless devices sold and the decrease in average selling price for the three months ended March 31, 2009 were primarily due to a shift in mix towards lower priced handsets compared to the same period in the prior year. The decrease in non-handset based revenue was primarily due to a decrease in sales of non-handset based navigation devices in Germany.

Logistic services revenue for the three months ended March 31, 2009 decreased due to lower revenue from the sale of prepaid airtime in Sweden.

Gross Profit and Gross Margin

	2009	Three Months Ended March 31,		% of Total	Change
		% of Total	2008		
		(Amounts in 000s)

Gross profit	\$62,462	100%	\$88,647	100%	(30%)
					(0.7)
Distribution		4.2%		4.9%	points
					6.4
Logistic services		41.3%		34.9%	points
					1.3
Gross margin		8.8%		7.5%	points

The 1.3 percentage point increase in gross margin for the three months ended March 31, 2009 was driven by a 6.4 percentage point increase in gross margin from our logistic services business, partially offset by a 0.7 percentage point decrease in gross margin from our distribution business. The decrease in gross profit and gross margin from distribution was primarily driven by lower average selling prices for handsets and a shift in product mix compared to the same period in the prior year. The increase in gross margin from logistic services was driven by an improved cost structure resulting from the impact of spending reductions in our North America operations.

Selling General and Administrative (SG&A) Expenses

	Three Months Ended March 31,		
	2009	2008	Change
	(Amounts in 000s)		
SG&A expenses	\$52,473	\$69,754	(25%)
Percent of revenue	7.4%	5.9%	1.5 points

The decrease in SG&A expenses for the three months ended March 31, 2009 compared to the same period in the prior year was primarily due to the impact of cost reduction initiatives in 2008 and 2009. Approximately half of our cost avoidance savings relates to the suspension of non-executive staff cash bonuses for the first half of 2009. Therefore, the savings related to this cost avoidance initiative may not recur during the second half of 2009 if we begin accruing these bonuses in the third quarter of 2009.

SG&A expenses were \$59.3 million for the three months ended December 31, 2008. The \$6.8 million decrease for the three months ended March 31, 2009 was primarily due to the previously announced spending reduction and cost avoidance initiatives.

As a percent of revenue, SG&A expenses increased 1.5 percentage points for the three months ended March 31, 2009. In addition, SG&A as a percent of revenue was negatively impacted by the lower than expected revenue resulting from overall weakness in the markets in which we operate. SG&A expenses included \$1.7 million of non-cash stock based compensation expense for the three months ended March 31, 2009 compared to \$1.6 million for the same period in the prior year.

Amortization Expense

Amortization expense was \$3.7 million for the three months ended March 31 2009 compared to \$4.7 million for the same period in the prior year. The decrease in amortization expense for the three months ended March 31, 2009

compared to the same period in the prior year was primarily due to fluctuations in foreign currencies for the intangible assets acquired in the 2007 acquisition of Dangaard Telecom.

Restructuring Charge

Restructuring charge was \$5.1 million for the three months ended March 31, 2009. The restructuring charge primarily consists of severance charges in connection with the global workforce reduction announced as part of our previously announced 2009 Spending and Debt Reduction Plan. We reduced our global workforce by approximately 150 positions during the first quarter of 2009. Most of this reduction came during the latter half of the first quarter. Restructuring charge for the three months ended March 31, 2008 consists of \$3.2 million associated with the exit of our redundant warehouse and office facility in Germany as well as \$0.4 million of severance costs to terminate employees of our redundant operations in Germany and Norway.

We expect to incur additional severance charges in the second quarter of 2009 as we continue to reduce our workforce to achieve our previously stated reduction target of at least 220 positions.

In addition, we expect to exit certain programs, channels and/or countries that do not meet our profitability targets. As a result of exiting underperforming programs, channels and/or countries in our EMEA region, we would expect to incur additional restructuring charges. We will provide updates on these activities and related estimated charges, which could be material, as appropriate throughout the year.

Asia-Pacific	1.6%	2.3%	points (2.1)
EMEA	(1.6%)	0.5%	points (0.7)
Total	0.2%	0.9%	points

Operating income in our Americas division increased \$4.5 million for the three months ended March 31, 2009 primarily due to the impact of cost reductions in 2008 and cost avoidance initiatives in 2009. The increase in operating income as a percent of revenue of 4.8 percentage points for the three months ended March 31, 2009 was driven by an increase in gross margin from an improved cost structure resulting from the impact of spending reductions in our North America operations.

Operating income in our Asia-Pacific division decreased \$4.9 million and 0.7 percentage points as a percent of revenue for the three months ended March 31, 2009 primarily due to lower profitability from devices sold to customers served by our Singapore business as well as lower profitability from our business in India.

Operating income in our EMEA division decreased \$8.8 million and 2.1 percentage points as a percent of revenue for the three months ended March 31, 2009 primarily due to overall weakness in the markets in which we operate as well as \$4.6 million of restructuring charges in connection with our 2009 Spending and Debt Reduction Plan.

Operating loss from our corporate function was relatively flat for the three months ended March 31, 2009 compared to the same period in the prior year.

Interest, net

The components of interest, net are as follows:

	Three Months Ended March 31,		Change
	2009	2008	
	(Amounts in 000s)		
Interest expense	\$3,096	\$ 7,887	(61%)
Interest income	(331)	(1,225)	(73%)
Interest, net	\$2,765	\$ 6,662	(58%)

Interest expense includes interest on outstanding debt, charges for accounts receivable factoring programs, fees paid for unused capacity on credit lines and amortization of deferred financing fees.

The decrease in interest expense for the three months ended March 31, 2009 compared to the same period in the prior year was primarily due to lower average daily debt outstanding as well as lower interest rates on our US Dollar denominated debt compared to the same period in the prior year. Average daily debt outstanding for the first quarter of 2009 was \$216.0 million compared to average daily debt outstanding of \$513.0 million for the first quarter of 2008.

Other (Income) Expense

Other expense was \$2.8 million for the three months ended March 31, 2009 compared to other income of \$0.8 million for the same period in the prior year. The increase in other expense was primarily due to foreign currency transaction losses. Other expense for the three months ended March 31, 2008 includes a \$0.9 million loss from the sale of shares of Tescro, Inc. common stock resulting from a privately negotiated transaction with Tescro, Inc. to sell these shares.

Income Tax Expense (Benefit)

	Three Months Ended March 31,		Change
	2009	2008

Income tax expense (benefit)	\$(1,372)	\$1,490	(192%)
Effective tax rate	30.8%	31.9%	(1.1) points

Income tax benefit for the first quarter of 2009 was \$1.4 million resulting in an effective tax rate of 30.8% compared to an effective tax rate of 31.9% for the same period in the prior year. The effective income tax rate is lower than the US statutory rate due to the mix of income between tax jurisdictions.

Discontinued Operations

The consolidated statements of operations reflect the reclassification of the results of operations of our Poland and Turkey businesses and of our locally branded PC notebook business in Slovakia to discontinued operations for all periods presented in accordance with U.S. generally accepted accounting principles. We abandoned our Poland and Turkey businesses in the first quarter of 2009, and we abandoned the locally branded PC notebook business in the third quarter of 2008. Details of discontinued operations for the three months ended March 31, 2009 and 2008 are as follows (in thousands):

Loss from discontinued operations	\$ (1,096)	\$ (2,266)
Gain on disposal of discontinued operations (1)	1,098	
Total discontinued operations, net of income taxes	\$ 2	\$ (2,266)

(2) Gain on disposal of discontinued operations includes a \$1.2 million gain related to a cumulative currency translation adjustment associated with the abandonment of the Poland business.

LIQUIDITY AND CAPITAL RESOURCES**Liquidity Analysis**

We measure liquidity as the sum of total unrestricted cash and unused borrowing availability, and we use this measurement as an indicator of how much access to cash we have to either grow the business through investment in new markets, acquisitions, or through expansion of existing service or product lines or to contend with adversity such as unforeseen operating losses potentially caused by reduced demand for our products and services, material

uncollectible accounts receivable, or material inventory write-downs. The table below shows our liquidity calculation.

(Amounts in 000s)	March 31, 2009	December 31, 2008	% Change
Unrestricted cash	\$ 53,200	\$ 56,632	(6%)
Unused borrowing availability	344,886	344,609	
Liquidity	\$398,086	\$401,241	(1%)

Funds generated by operating activities, available unrestricted cash, and our unused borrowing availability continue to be our most significant sources of liquidity. However, we may not have access to all of the unused borrowing availability because of covenant restrictions in our credit agreements. We believe funds generated from the expected results of operations and available unrestricted cash will be sufficient to finance strategic initiatives for the remainder of 2009. In addition, our unused borrowing availability can be used for additional working capital needs and investment opportunities. There can be no assurance, however, that we will continue to generate cash flows at or above current levels or that we will be able to maintain our ability to borrow under our credit facilities.

Consolidated Statement of Cash Flows

We use the indirect method of preparing and presenting our statements of cash flows. In our opinion, it is more practical than the direct method and provides the reader with a good perspective and analysis of the Company's cash flows.

	Three months ended		Change
	March 31		
	2009	2008	
	(Amounts in 000s)		
Net cash provided by (used in):			
Operating activities	\$ 35,812	\$ 98,409	\$(62,597)
Investing activities	(5,037)	(6,627)	1,590
Financing activities	(33,376)	(102,581)	69,205
Effect of exchange rate changes on cash and cash equivalents	(744)	(608)	(136)
Net decrease in cash and cash equivalents	\$ (3,345)	\$ (11,407)	\$ 8,062

Net cash provided by operating activities was \$35.8 million for the three months ended March 31, 2009 compared to \$98.4 million for the same period in the prior year. This change is primarily due to \$59.2 million less cash provided by working capital compared to the same period in the prior year. At the end of 2007, a large customer within our EMEA division experienced IT difficulties resulting in \$62.2 million of anticipated payments in the fourth quarter of 2007 being delayed into the first quarter of 2008. Had this payment been received in 2007, net cash provided by operating activities would have been \$36.2 million for the three months ended March 31, 2008.

Net cash used for investing activities was \$5.0 million for the three months ended March 31, 2009 compared to \$6.6 million for the same period in the prior year. The change is primarily due to \$2.1 million less cash used for capital expenditures.

Net cash used in financing activities was \$33.4 million for the three months ended March 31, 2009 compared to \$102.6 million for the same period in the prior year. This change is primarily due to \$70.5 million of lower repayments of borrowings during the three months ended March 31, 2009 as a result of debt reduction initiatives in 2008 and 2009.

Cash Conversion Cycle

A key source of our liquidity is our ability to invest in inventory, sell the inventory to our customers, collect cash from our customers and pay our suppliers. We refer to this as the cash conversion cycle. For additional information regarding this measurement and the detailed calculation of the components of the cash conversion cycle, please refer to our Annual Report on Form 10-K for the year ended December 31, 2008.

	Three Months Ended	
	March 31, 2009	March 31, 2008
Days sales outstanding in accounts receivable	32	33
Days inventory on-hand	29	38
Days payable outstanding	(46)	(42)
Cash Conversion Cycle Days	15	29

For the three months ended March 31, 2009, the cash conversion cycle decreased to 15 days from 29 days for the same period in the prior year. The decrease in the cash conversion cycle was primarily due to a reduction in aged

inventory on-hand at March 31, 2009.

Borrowings

The table below summarizes the borrowing capacity that was available to us as of March 31, 2009 (in thousands):

	Gross Availability	Outstanding	Letters of Credit & Guarantees	Net Availability
Global Term Loans	\$ 134,745	\$ 134,745	\$	\$
Global Credit Facility	300,000	1,357	608	298,035
Other	51,600	1,859	2,890	46,851
Total	\$486,345	\$137,961	\$ 3,498	\$344,886

We also had \$0.3 million of other borrowings outstanding at March 31, 2009. These borrowings were not under any of our credit agreements.

During April 2009, we made additional principal payments of approximately \$35.0 million on our Global Term Loans. With these payments, we have no required principal payments on our Global Term Loans until September 2011.

At March 31, 2009 we were in compliance with the covenants in each of our material credit agreements. Our Global Credit Facility contains two financial covenants that are sensitive to significant fluctuations in earnings: a maximum leverage ratio and a minimum interest coverage ratio. The leverage ratio is calculated at the end of each fiscal quarter, and is calculated as total debt (including guarantees and letters of credit) divided by trailing twelve month bank adjusted earnings before interest, taxes, depreciation and amortization (bank adjusted EBITDA). It may not exceed 3.0 at the end of any fiscal quarter. As of March 31, 2009, our leverage ratio was 1.4. The interest coverage ratio is also calculated as of the end of each fiscal quarter, and is calculated as trailing twelve month bank adjusted EBITDA divided by trailing twelve month net cash interest expense. The interest coverage ratio may not fall below 4.0 as of the end of any fiscal quarter. As of March 31, 2009, our interest coverage ratio was 6.7.

We believe that we will continue to be in compliance with our debt covenants for the remainder of 2009. However, there continues to be a great deal of uncertainty regarding the current economic downturn and the impact it will have on the wireless device industry during 2009. Due to this uncertainty, there is always the possibility that economy will decline faster than we can react with spending and debt reduction, which increases the risk of not complying with our debt covenants. We expect the spending reductions and debt reductions we achieved in 2008, combined with our 2009 Spending and Debt Reduction Plan, will allow us to be in compliance with these debt covenants in 2009. However, if we are not able to reduce spending or debt enough to offset a significant unforeseen decline in market conditions, there can be no assurances that we will remain in compliance with our debt covenants throughout the next three fiscal quarters.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our exposure to market risk since the disclosure in our Form 10-K for the year ended December 31, 2008.

Item 4. Controls and Procedures.

The Company, under the supervision and with the participation of its management, including its Principal Executive Officer and Principal Financial Officer has evaluated the effectiveness of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer have concluded that the Company's disclosure controls and procedures are effective.

There has been no change in the Company's internal control over financial reporting during the most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

The Company is from time to time involved in certain legal proceedings in the ordinary course of conducting its business. While the ultimate liability pursuant to these actions cannot currently be determined, the Company believes these legal proceedings will not have a material adverse effect on its financial position or results of operations. For more information on legal proceedings, see Note 8 Legal Proceedings and Contingencies, in the Notes to Consolidated Financial Statements.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2008, which could materially affect our business, financial condition or future results. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
