**ITEM 5. OTHER EVENTS**

On June 15, 2003, we entered into a definitive agreement to acquire Advanced Business Fulfillment, Inc., a privately held company based in St. Louis, Missouri. Advanced Business Fulfillment, which we refer to as ABF, provides healthcare paid-claims communication services for third party administrators and health insurers.

We have agreed to pay \$110 million in cash at closing for all of the outstanding capital stock of ABF and have agreed to pay up to an additional \$150 million beginning in April 2004 if certain milestones are achieved. The additional payment may be made over a three year period in WebMD common stock or, at our option in certain circumstances, in cash.

The completion of the acquisition is conditioned upon the expiration or termination of the waiting period under the Hart-Scott-Rodino Act and is subject to other customary conditions. We expect to complete the transaction in the early part of the third quarter of 2003.

ABF provides services that allow health benefits administrators to outsource print-and-mail activities by sending an electronic feed to ABF. ABF then creates a customized processing rule set for the administrator and integrates a Web-based suite of management tools to facilitate the distribution of checks, remittance advice, and explanations of benefits (EOB). ABF augments our WebMD Envoy segment's existing capabilities for remittance advice and EOB and complements its broad suite of print and electronic transaction services. For the year ended December 31, 2002, ABF reported revenues of \$63 million and pre-tax income of \$8 million. ABF provides services to more than 300 healthcare payers.
