PROXY STATEMENT

Annual Meeting of Shareholders, April 22, 2004

This proxy statement is furnished to shareholders of Diebold, Incorporated (the Corporation) in connection with the solicitation by the Board of Directors of proxies that will be used at the 2004 annual meeting of shareholders on April 22, 2004, at 10:00 a.m., local time, or any adjournments thereof, for the purpose of considering and acting upon the matters referred to in the preceding notice of annual meeting and more fully discussed below. This proxy statement and accompanying form of proxy were first mailed to shareholders on or about March 10, 2004. Shares represented by a properly executed proxy will be voted as indicated on the proxy. Shareholders may revoke the authority granted by their proxies at any time before the exercise of the powers conferred thereby by notice in writing delivered to the Secretary of the Corporation; by submitting a subsequently dated proxy; or by attending the meeting, withdrawing the proxy and voting in person.

On February 27, 2004, the record date for the meeting, the outstanding voting securities of the Corporation consisted of 72,878,592 Common Shares, \$1.25 par value per share, all of one class. Each shareholder of record as of the close of business on February 27, 2004 will be entitled to one vote for each Common Share held on that date.

If a shareholder gives written notice to the President, any Vice President or Secretary at least forty-eight hours prior to the time fixed for holding the meeting that the shareholder desires that the voting for the election of directors shall be cumulative, and if an announcement of the giving of such notice is made upon convening of the meeting by the Chairman or Secretary or by or on behalf of the shareholder giving such notice, each shareholder will have cumulative voting rights. In cumulative voting, each shareholder may cast a number of votes equal to the number of shares owned multiplied by the number of directors to be elected and the votes may be cast for one nominee only or distributed among the nominees. In the event that voting at the annual meeting is to be cumulative, unless contrary instructions are received on the enclosed proxy, it is presently intended that all votes represented by properly executed proxies will be divided evenly among the candidates nominated by the Board of Directors. However, if voting in such manner would not be effective to elect all such nominees, such votes will be cumulated at the discretion of the Proxy Committee so as to maximize the number of such nominees elected. The results of shareholder voting at the annual meeting will be tabulated by the inspectors of elections appointed for the annual meeting. The Corporation intends to treat properly executed proxies that are marked abstain as present for purposes of determining whether a quorum has been achieved at the annual meeting but will not count any broker non-votes for such purpose. The director-nominees receiving the greatest number of votes will be elected. Votes withheld with respect to the election of directors will not be counted in determining the outcome of that vote. Abstentions with respect to the proposal to ratify the appointment of the independent auditors will not be counted for determining the outcome of that proposal. The Corporation does not anticipate receiving any broker non-votes at the annual meeting in light of the nature of the matters to be acted upon at the annual meeting; however, any broker non-votes received in respect of the ratification of the appointment of the independent auditors will not affect the voting on such proposal.

ELECTION OF DIRECTORS

The Board of Directors recommends that twelve nominees for director be elected at the annual meeting, each to hold office for a term of one year from the date of the annual meeting, and until the election and qualification of a successor. In the absence of contrary instruction, the Proxy Committee will vote the proxies for the election of the twelve nominees, who are Louis V. Bockius III, Christopher M. Connor, Richard L. Crandall, Eric C. Evans, Gale S. Fitzgerald, Phillip B. Lassiter, John N. Lauer, William F. Massy, Walden W. O Dell, Eric J. Roorda, W. R. Timken, Jr. and Henry D. G. Wallace. A substantial majority of the nominees is independent as required by the rules of the New York Stock Exchange. In addition, it is expected that all directors and nominees attend the annual meetings of shareholders unless there are extenuating circumstances for nonattendance. Ten of the twelve current directors attended the annual meeting of shareholders in 2003.

If for any reason any nominees are not available for election when the election occurs, the designated proxies, at their option, may vote for substitute nominees recommended by the Board of Directors. Alternatively, the Board of Directors may reduce the number of nominees. The Board of Directors has no reason to believe that any nominee will be unavailable for election when the election occurs.

CONSIDERATION OF DIRECTOR NOMINEES

Shareholder Nominees

The policy of the Board Governance Committee is to consider properly submitted shareholder nominations for candidates for membership on the Board as described below under Identifying and Evaluating Nominees for Directors. In evaluating such nominations, the Board Governance Committee seeks to achieve a balance of knowledge, experience and capability on the Board of Directors and to address the membership criteria set forth below under Director Qualifications. Any shareholder nominations proposed for consideration by the Board Governance Committee should include (1) complete information as to the identity and qualifications of the proposed nominee, including name, address, present and prior business and/or professional affiliations, education and experience, and particular fields of expertise, (2) an indication of the nominee's consent to serve as a director of the Corporation if elected, and (3) the reasons why, in the opinion of the recommending shareholder, the proposed nominee is qualified and suited to be a director of the Corporation, and should be addressed to Diebold, Incorporated, 5995 Mayfair Road, P.O. Box 3077, North Canton, Ohio 44720-8077, Attention: Corporate Secretary. See also Proposals of Shareholders on page 22 of this Proxy Statement.

Director Qualifications

In evaluating director nominees, the Board Governance Committee considers such factors as it deems appropriate, consistent with the Corporation's Corporate Governance Guidelines and other criteria established by the Board of Directors. The Board Governance Committee's goal in selecting directors for nomination to the Board of Directors is generally to seek to create a well-balanced team that combines diverse experience, skill and intellect of seasoned directors in order to enable the Corporation to pursue its strategic objectives. The Board Governance Committee has not reduced the qualifications for service on the Corporation's Board of Directors to a checklist of specific standards or specific, minimum qualifications, skills or qualities. Rather, the Corporation seeks, consistent with the vacancies existing on the Corporation's Board of Directors at any particular time and the interplay of a particular candidate's experience with the experience of other directors, to select individuals whose business experience, knowledge, skills, diversity, integrity, and global experience would be considered a desirable addition to the Board of Directors and any committees thereof. In addition, the Board Governance Committee annually conducts a review of incumbent directors using the same criteria as outlined above, in order to determine whether a director should be nominated for re-election to the Board of Directors.

The Board Governance Committee makes determinations as to director selection based upon the facts and circumstances at the time of the receipt of the director candidate recommendation. Applicable considerations include (1) whether the Board Governance Committee is currently looking to fill a new position created by an expansion of the number of directors, or a vacancy that may exist on the Board of Directors, (2) whether the current composition of the Board of Directors is consistent with the criteria described in the Corporation's

Table of Contents

Corporate Governance Guidelines, (3) whether the candidate submitted possesses the qualifications that are generally the basis for selection for candidates to the Board of Directors, and (4) whether the candidate would be considered independent under the rules of the New York Stock Exchange and the Corporation's standards with respect to director independence. Final approval of any candidate will be determined by the full Board of Directors.

Identifying and Evaluating Nominees for Directors

The Board Governance Committee utilizes a variety of methods for identifying and evaluating nominees for director. The Board Governance Committee regularly reviews the appropriate size of the Board and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Board Governance Committee considers various potential candidates for director. Candidates may come to the attention of the Board Governance Committee through current Board members, professional search firms, shareholders or other persons. As described above, the Board Governance Committee considers properly submitted nominations for candidates for the Board. Following verification of the recommending shareholder's status, recommendations are considered by the Board Governance Committee at a regularly scheduled meeting.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Donald R. Gant, a former director of the Corporation, was a member of the Compensation and Organization Committee until his retirement from the Board of Directors in April 2003. Mr. Gant formerly served as a director and officer for two of the Corporation's subsidiaries, but did not receive any additional compensation for serving in these capacities.

EXECUTIVE COMPENSATION

The following table provides information relating to the annual and long-term compensation for the years ended 2003, 2002, and 2001 for the named executive officers of the Corporation. - (1) The amounts reported for 2004 for Other Annual Compensation consist of amounts reimbursed to the named executive officers for tax liability on the following items: use of a Corporation automobile or cash in lieu thereof; supplemental executive life insurance, financial planning services, memberships and for dividend equivalents on incentive compensation. The All Other Compensation column presents amounts representing the dollar value of insurance premiums paid by the Corporation for the benefit of the executive and amounts contributed for 2003 under the Corporation's 401(k) Savings Plan respectively as follows: Mr. O Dell (\$1,611, \$5,468); Mr. Geswein (\$722, \$6,092); Mr. Hillock (\$421, \$5,775); Mr. Bucci (\$0, \$5,621) and Mr. O Brien (\$0, \$0) . The All Other Compensation column also includes an amount of \$66,926 for preferential interest earned but not paid in 2003 by Mr. O Dell on deferred compensation.
- (2) As of December 31, 2003 Mr. O Dell held a total of 14,040 restricted shares with a value as of that date of \$756,335 and 5,100 performance shares with a value of \$274,737; Mr. Geswein held a total of 2,670 restricted shares with a value as of that date of \$143,833 and 2,000 performance shares with a value of \$107,740; Mr. Hillock held a total of 4,560 restricted shares with a value as of that date of \$245,647 and 1,800 performance shares with a value of \$96,966; Mr. Bucci held a total of 4,560 restricted shares with a value as of that date of \$245,647 and 1,700 performance shares with a value of \$91,579. The column also reflects an award of 5,000 restricted shares made after the end of the year to Mr. O Brien. Dividends are paid on restricted shares at the same rate as paid to all shareholders, and dividend equivalents are paid on performance shares at the same rate.

**EMPLOYMENT CONTRACTS AND TERMINATION
OF EMPLOYMENT AND CHANGE-IN-CONTROL AGREEMENTS**

The Corporation entered into an employment agreement with Mr. O Dell when he joined the Corporation on November 1, 1999. This agreement provides for a term of employment of three years with automatic one-year renewals thereafter unless either party notifies the other at least twelve months before the scheduled expiration date that the term is not to renew. During the term of the agreement, Mr. O Dell is entitled to base salary of at least \$500,000 per year, and an annual bonus opportunity equal to 100% of his base salary. Mr. O Dell's agreement also provides for the payment of severance compensation in the event his employment terminates under certain circumstances, including two years' salary, bonus and specified benefits if his employment is terminated by the Corporation without cause.

The Corporation has entered into agreements with each of the named executive officers, and certain other executives, providing that in the event of any change in control of the Corporation through the acquisition of 20 percent or more of the outstanding voting securities of the Corporation, certain changes in the composition of the Corporation's Board of Directors, or by merger or consolidation of the Corporation into, or sale of substantially all of its assets to, another corporation, such persons would continue their employment with the Corporation in their present positions for a term of three years following such change in control. During such term of employment, each of the named executive officers would be entitled to receive base compensation and to continue to participate in incentive and employee benefit plans at levels no less favorable to him or her than prior to commencement of the term. In the event of the termination of such person's employment under certain circumstances after a change in control of the Corporation, such person would be entitled to receive a payment in the amount of approximately twice such person's prior base salary and to continue to participate in certain employee benefit plans for up to two years. In Mr. O Dell's case his employment agreement provides that he would be entitled to receive a payment of approximately three times his prior base salary and to continue to participate in certain employee benefit plans for up to two years. None of the agreements will become operative until a change in control of the Corporation has occurred, prior to which time the Corporation and such persons each reserve the right at any time, with or without cause, to terminate his or her employment relationship. The Corporation has established trusts to secure, among other things, the payment of amounts that may become payable pursuant to these agreements and to reimburse such persons for expenses incurred in attempting to enforce the Corporation's obligations pursuant to these agreements and certain other arrangements. These trusts will be funded only in connection with or in anticipation of a change in control of the Corporation.

The following table provides information relating to stock option grants for the year 2003 for the named executive officers of the Corporation. No stock appreciation rights were granted to the named executive officers or other optionees during 2003.

(1) The Commission authorizes the use of variations of the Black-Scholes option-pricing model for valuing executive stock options in its rules on executive compensation disclosure. The Corporation utilizes the Black-Scholes model to estimate the grant date present value of stock option grants. The following assumptions were used in calculating the Black-Scholes present value of the 2003 stock option grants: (a) an expected option term of four years for Messrs. O Dell, Geswein, Hillock and Bucci and five years for Mr. O Brien; (b) an interest rate of 2.63%, which is the interest rate for a zero-coupon U.S. government issue with a maturity of four years; (c) volatility of 41% calculated using the daily ending stock price for the equivalent period to the expected option term prior to grant date; and (d) a dividend yield of 1.73%, the average dividends paid annually over the last four years. There is no assurance that the value actually realized by an executive will be at or near the estimated Black-Scholes value. The actual value, if any, an executive may realize will depend on the excess of the stock price over the exercise price on the date the option is exercised. The Corporation does not advocate or necessarily agree that the Black-Scholes model can properly determine the value of an option.

(2) All option grants were new and not granted in connection with an option repricing transaction. The term of the options is ten years, and vesting occurs at the rate of 25% for Messrs. O Dell, Geswein, Hillock and Bucci and 20% for Mr. O Brien annually beginning one year from the date of grant or immediately in the event of a change in control. These options have a reload feature, under which an optionee can elect to pay the exercise price using previously owned shares and receive a new option at the then current market price for a number of shares equal to those surrendered. The reload feature is only available, however, if the optionee agrees to defer receipt of the balance of the option shares for at least two years. This feature was also made available to all outstanding stock options held by these individuals.

(3) The exercise or base price per share represents the average share value of the Corporation's Common Shares as of the date of grant.

LONG-TERM INCENTIVE PLANS AWARDS IN LAST FISCAL YEAR

The following table provides information relating to the long-term incentive awards that were made in the year 2003 under the 1991 Plan for the named executive officers.

Daniel J. O Brien	5,000	1/1/03-12/31/05	625	5,000	8,500

The table above presents information about performance shares awarded during the year pursuant to the 1991 Plan. Each performance share that is earned out entitles the holder to the then current value of one Common Share. Payouts of awards are tied to achievement of management objectives based upon three separate financial measures: return on total capital (weighted 25%), growth in earnings per share (weighted 50%) and relative total shareholder return (weighted 25%). All of the measures are calculated over the three-year period shown in the table above except relative total shareholder return which is calculated over the period from February 1, 2003 through January 31, 2006. No amount is payable unless the threshold amount is exceeded. The maximum award amount for any one measure, which can be up to 200% of the target amount, will be earned if the Corporation achieves the maximum performance measure, but the maximum award for all measures combined is

limited to 170% of the target amount.

PENSION PLAN TABLE

The named executive officers, excluding Mr. O'Brien, are eligible to participate in a qualified non-contributory defined benefit retirement plan (Qualified Retirement Plan). In addition, the named executive officers, excluding Mr. O'Brien, and nine additional executive officers participate in an unfunded non-qualified supplemental retirement plan (Supplemental Retirement Plan I). The Supplemental Retirement Plan I is henceforth closed to new participants. Prospectively, executives not currently participating in the Supplemental Retirement Plan I may be eligible to participate in the Supplemental Retirement Plan II.

QUALIFIED RETIREMENT PLAN

Benefit levels under the Qualified Retirement Plan are based on years of service (subject to a maximum of 30 years), final average compensation (which is a five-year average of the Salary and Bonus, as reflected in the Summary Compensation Table but limited to \$200,000 in 2003, retroactively applied back to 1994), and the participant's individual Covered Compensation as defined under the Internal Revenue Code.

SUPPLEMENTAL RETIREMENT PLAN I

The Supplemental Retirement Plan I provides a supplemental monthly retirement benefit so that a participant's total retirement benefit from the Qualified Retirement Plan and the Supplemental Retirement Plan I, plus one-half of the participant's anticipated Social Security benefit payable at age 62, equals 65% (prorated for less than 15 years of service) of the participant's final average compensation received from the Corporation during the highest five consecutive years of the last ten calendar years of employment. Compensation is defined for this purpose as Salary plus Bonus accrued for each such calendar year. The Supplemental Retirement Plan I benefits are payable at age 62 on a joint & survivor basis, if married, and a single life basis, if single at retirement. A participant may also elect, subject to the approval of the Compensation Committee of the Board, to receive benefits in the form of a lump sum payment at retirement. In no case will less than five years of benefit payments be made to the participant, his or her spouse and/or beneficiary, as applicable. Benefits are available to participants electing early retirement at age 60 (on a reduced basis) and who become disabled while employed. Benefits are also available to participants whose employment is involuntarily terminated with no service requirement. Reduced benefits (computed at 55% of final average compensation, rather than 65%) are available to participants who voluntarily terminate employment after completing 10 years of service. Accrued benefits under the Supplemental Retirement Plan I are fully vested in the event of a change in control of the Corporation. The Supplemental Retirement Plan I is now closed to new participants.

Table A sets forth the estimated annual benefits for both the Qualified Retirement Plan and the Supplemental Retirement Plan I upon retirement at age 62 to the executive officers who elect to retire and receive an annuity. The benefit amounts shown in this table are in addition to any benefits to which the participant might be entitled under the Social Security Act, and assume that the Supplemental Retirement Plan I and the Social Security Act continue unchanged and that one-half of each participant's anticipated Social Security benefit is \$8,532 per year at age 62.

SUPPLEMENTAL RETIREMENT PLAN II

The Supplemental Retirement Plan II provides a supplemental monthly retirement benefit so that a participant's total retirement benefit from the Qualified Retirement Plan and the Supplemental Retirement Plan II, plus one-half of the participant's anticipated Social Security benefit payable at age 65, equals 50% (prorated for less than 30 years of service) of the participant's final average compensation received from the Corporation during the highest five consecutive years of the last ten calendar years of employment. Compensation is defined for this purpose as Salary plus Bonus accrued for each such calendar year. The Supplemental Retirement Plan II benefits are payable at age 65 as a straight life annuity. Joint & survivor options are available on an actuarially equivalent basis. A participant may also elect, subject to the approval of the Compensation Committee of the Board, to receive benefits in the form of a lump sum payment at retirement. Benefits are available to participants electing early retirement at age 60 (on a reduced basis) and who become disabled while employed. Benefits are also available to participants whose employment is involuntarily terminated with no service requirement. Reduced benefits (computed as the excess of the benefit payable to the participant under the terms of the Qualified Retirement Plan without regard to statutory limits over the benefit payable under the terms of the Qualified Retirement Plan) are available to participants who voluntarily terminate employment after completing 10 years service. Accrued benefits under the Supplemental Retirement Plan II are fully vested in the event of a change in control of the Corporation. The Supplemental Retirement Plan II replaces the Supplemental Retirement Plan I for incoming eligible executives.

Table B sets forth the estimated annual benefits for both the Qualified Retirement Plan and the Supplemental Retirement Plan II upon retirement at age 65 to the executive officers who elect to retire and receive an annuity. The benefit amounts shown in this table are in addition to any benefits to which the participant might be entitled under the Social Security Act, and assume that the Supplemental Retirement Plan II and the Social Security Act continue unchanged and that one-half of each participant's anticipated Social Security benefit is \$10,704 per year at age 65.

As of December 31, 2003, the number of years of service for the named executive officers is as follows: Mr. O Dell, 11.4 years; Mr. Geswein 3.8 years; Mr. Hillock, 24.8 years; Mr. Bucci, 26.3 years; Mr. O Brien was not a participant in the Retirement Plan or either Supplemental Plans during 2003. The number of years of service for Mr. O Dell includes 7 years of service provided under his employment agreement upon commencing his employment by the Corporation, which are to be taken into account in determining his accrued benefit under the Supplemental Retirement Plan I upon any termination of employment. His Agreement also provides that he is fully vested in his accrued benefit under the Supplemental Retirement Plan I.

COMPENSATION COMMITTEE REPORT**ON EXECUTIVE COMPENSATION**

The Compensation Committee (the Committee) is comprised entirely of independent directors. The Committee's principal functions are to establish base salary levels, to determine and measure achievement of corporate and individual goals for the named executive officers and other executive officers under the Annual Incentive Plan, and to select the participants, assess achievement of objectives and determine awards under the 1991 Equity and Performance Incentive Plan, as Amended and Restated (the 1991 Plan). The Committee also reviews the management succession plan and any proposed changes to any benefit plans of the Corporation such as retirement plans, deferred compensation plans and 401(k) Savings Plans. The Committee's charter is available on the Corporation's web site at <http://www.diebold.com> or by written request to the Corporate Secretary.

The Committee periodically obtains studies prepared by independent compensation consultants and meets with them as necessary to review those studies. The Committee engaged an outside consultant to evaluate the entire executive compensation program during 2002 and used the results of this evaluation in setting compensation of the executive officers for 2003. This process included an in-depth review of compensation policies of companies similar to the Corporation in size and industry and included those companies with which the Corporation competes for talented executives. The companies selected for this purpose included some of the companies reflected in the Corporation's performance graph as well as some of the companies used as peer group companies for long-term incentive awards made to the executive officers. During 2003, the Committee obtained an additional independent study, which focused on updating this group of peer companies and also recommended changes in the management performance measures to be used for long-term compensation awards in 2004. The study also recommended replacing a portion of the Corporation's stock option program for non-executive officers with restricted stock units beginning in 2004.

Table of Contents

The Committee believes that the compensation for the named executive officers and the other executive officers should tie individual compensation to the performance of the Corporation. The Corporation currently has three basic elements in the compensation for its executive officers. These elements are (a) base salary compensation, (b) annual incentive compensation and (c) long-term incentive compensation. These elements of compensation recognize both individual and corporate performance. Annual incentive compensation provides incentive compensation which optimizes rewards for performance over a shorter period of performance, while long-term incentive compensation optimizes rewards for performance over a longer term based upon achievement of cumulative financial measures, usually over a three-year period. In addition, stock option grants result in a reward when the market value appreciates in relation to the option price. The Committee believes that the base salary should be set at or below median, and that total compensation should be at or above the median when the Corporation meets or exceeds its expectations and below when it does not. Further, a significant proportion of total compensation should be variable and dependent on the overall performance of the Corporation, and this objective can be achieved through appropriate design of long-term incentive compensation.

Base Salary Compensation

The base salary for all executive officers is reviewed annually, and the Committee's review process continues throughout the year. This review includes an analysis of past and expected future performance of the executive officers, as well as the responsibilities and qualifications of the executive officers individually and the performance of the Corporation in comparison with companies similar to the Corporation. As noted above, the Committee's compensation policy is to generally set base salary at or below median. In 2003 the Committee recommended modest increases in salaries.

Annual Incentive Compensation

The Annual Incentive Plan (Incentive Plan) recognizes the performance of the named executive officers, other executive officers and key managers who contribute to the Corporation's success. These participants have the greatest impact on the profitability of the Corporation. In general, the participants with the most significant responsibility have the greatest proportion of their cash compensation tied to the Incentive Plan. The performance criteria, which are described in more detail below, reflect a combination of corporate earnings per share and specific individual goals and objectives.

At the beginning of 2003, the Committee established annual performance goals for the Corporation which were based on earnings per share. The performance goals include threshold and maximum amounts for achievement and exclude any impact from pension expense. The Committee established the threshold at a level that required the Corporation to exceed by 6% the level of earnings per share achieved in 2002 before any payout could occur and with the maximum amount at 18% over 2002. At the same time, the Committee reviewed, amended and approved individual personal performance goals and objectives for the named executive officers. The Incentive Plan is generally weighted 50% on the Corporation achieving its earnings per share goal, and 50% on the achievement of the individual goals and objectives. Generally, no Incentive Plan compensation is paid if the Corporation does not achieve at least the threshold amount of its earnings per share goal even though an individual may have achieved his or her personal goals and objectives, but the Committee retains discretion to provide for a payment if the threshold limit is not met if circumstances warrant. At the end of the year, the Committee reviewed the performance of the Corporation and achievement of the personal goals and objectives for the named executive officers and other executive officers. The Committee then reviewed its findings and recommendations with the Board of Directors. In 2003 the Corporation did exceed the threshold level of its performance goals, and the executive officers received Incentive Compensation accordingly.

Long-Term Incentive Compensation

The 1991 Plan affords flexibility in the types of awards that can be made for a long-term period. In particular, certain awards tie the individual's performance to the performance of the Corporation. In 2003, as in prior years, the Committee used performance share grants for the performance period of January 1, 2003 through December 31, 2005. In accordance with the recommendations of the 2002 study described above, the

Table of Contents

performance measures were based on three separate financial measures: growth in earnings per share (weighted 50%), return on total capital (weighted 25%), and relative total shareholder return (weighted 25%).

In addition, during 2003 the Committee provided for stock option grants to the named executive officers and also to other executive officers. The number of option shares granted considered the recommendations of the Committee's compensation consultant, the target total compensation for the peer companies of the Corporation and the value of option grants as determined by means of the Black-Scholes option valuation method. The Committee also considers the mix of share and option awards in seeking to make the most effective use of equity compensation. For 2003 the Committee determined to fix the proportion of options to share awards at approximately 50/50.

The Committee continues to believe that stock options provide an essential competitive component in the executive compensation program. Stock options align the interests of the named executive officers and other executive officers most directly with those of the Corporation's shareholders since no benefit inures to the executive officers unless stock price appreciation occurs over a period of years. Information on the stock options granted to the named executive officers is included in the table entitled "Option Grants in Last Fiscal Year".

Stock Ownership Guidelines

Based upon information provided by the compensation consultant, stock ownership guidelines were established at the end of 1996 for the named executive officers and other executive officers. The Committee and the Board of Directors believe that it is important for each executive officer to have a substantial investment in the Corporation as such investment links an executive officer's interests with other shareholders. These guidelines set forth a specific target level of ownership based upon a multiple of base salary. The target levels are 4 times for group vice presidents and vice presidents, 6 times for executive vice presidents and senior vice presidents, 8 times for the president and chief operating officer and 10 times for the chairman of the board and the chief executive officer. The guidelines recommend that the executive officers reach their respective level within three to five years. Periodic adjustments may be considered, and discretion may be used in certain instances. It is expected that the target levels will be achieved from stock that is obtained by the executive officers through the various elements of the executive compensation program. In December 2003 the guidelines were revised so that holdings of restricted shares, deferred shares and shares held through the Corporation's 401(k) savings plan will be calculated on an after-tax basis, assuming an average rate of tax of 45%. The Committee reviews progress toward the target levels of ownership on an annual basis to determine whether all of the executive officers are at the requisite level of progress toward such target levels.

Chief Executive Officer Compensation

Mr. O'Dell's employment agreement sets his base salary at \$500,000 per year. It also provides for an annual incentive award opportunity under the Incentive Plan of 100% of base salary. The Committee set this percentage at 180% for 2003, and set his base salary at \$660,000 for 2003. There were no other changes in Mr. O'Dell's compensation during 2003. Mr. O'Dell received a payment under the Incentive Plan in the amount of \$807,200, which was determined in the same manner as the payments to the other executive officers. Mr. O'Dell received this amount because he achieved certain predetermined personal goals and objectives, including reduction in operating expenses as a percentage of sales and improvement of return on total capital and because he also met non-financial goals. With respect to long-term incentive compensation, Mr. O'Dell was granted a performance share grant in 2003 covering the performance period of January 1, 2003 through December 31, 2005. As stated previously, any earnout of shares will be based upon achievement of the three separate financial measures: growth in earnings per share, return on total capital, and relative total shareholder return. The payout for Mr. O'Dell is 2,500 shares at threshold, 20,000 shares at target and 34,000 shares at maximum. For the performance period of January 1, 2001 through December 31, 2003, the chief executive officer earned 26,400 shares, which was slightly less than the maximum level. The payout was in the form of shares. In addition, in 2003 Mr. O'Dell was granted a stock option for 60,000 shares at \$36.31 per share, which represented the average share price as of the date of grant. Additional information on his stock option is included in the table entitled "Option Grants in Last Fiscal Year". The Committee believes Mr. O'Dell's performance in 2003 was outstanding given the economy, the loss of the chief operating officer early in the year and the resulting excellent performance of the Corporation not only in

2003 but during the past four years. Additional details about the compensation provided under Mr. O Dell s employment agreement are described under Employment Contracts and Termination of Employment and Change-in-Control Agreements.

Compliance with Federal Tax Legislation

Federal tax legislation enacted in 1993 generally precludes the Corporation and other public companies from taking a tax deduction for compensation in excess of \$1 million which is not performance-based and is paid, or otherwise taxable, to the named executive officers. While preserving flexibility to take the necessary action to attract and retain key employees, the Corporation has taken steps that are intended to ensure the Corporation is not adversely affected by this federal tax legislation. These actions include a policy pursuant to which certain senior executive officers have entered into agreements to automatically defer amounts affected by the limitation until the limitation no longer applies.

The foregoing report on 2003 executive compensation was submitted by the Compensation Committee of the Corporation s Board of Directors and shall not be deemed to be soliciting material or to be filed with the Securities and Exchange Commission (the Commission) or subject to Regulation 14A promulgated by the Commission or Section 18 of the Securities Exchange Act of 1934. The names of the directors who serve on the Compensation Committee are set forth below:

In this transition year, the table and the graph below include both the old and new indices of peer companies. The comparison covers the five-year period starting December 31, 1998 and ended December 31, 2003. The comparisons in this graph are required by rules promulgated by the Commission and are not intended to forecast future performance of the Corporation's Common Shares.

REPORT OF AUDIT COMMITTEE

The Audit Committee is composed of independent members as defined in Section 303.01(B)(2)(a) and (3) of the New York Stock Exchange's listing standards that are currently in effect and Section 303A.02 of the New York Stock Exchange's listing standards that will be in effect as of the date of the annual meeting. The primary duties and responsibilities of the Committee are as follows: (a) monitor the adequacy of the Corporation's financial reporting process and systems of internal controls regarding finance, accounting and legal compliance, (b) monitor the independence and performance of the Corporation's outside auditors and internal auditing department, and (c) provide an avenue of communication among the outside auditors, management, the internal audit organization and the Board of Directors of the Corporation. The Board of Directors of the Corporation revised its Audit Committee Charter and such charter is attached as Appendix A to this proxy statement. Such charter is also available on the Corporation's web site at <http://www.diebold.com>.

The Audit Committee has reviewed and discussed with the Corporation's management and KPMG LLP, the Corporation's independent auditors, the audited financial statements of the Corporation contained in the Corporation's Annual Report to Shareholders for the year ended December 31, 2003. The Audit Committee has also discussed with the Corporation's independent auditors the matters required to be discussed pursuant to SAS No. 61 (Codification of Statements on Auditing Standards, *Communication with Audit Committees*).

The Audit Committee has received and reviewed the written disclosures and the letter from KPMG LLP required by Independence Standards Board Standard No. 1 (titled, *Independence Discussions with Audit Committees*), and has discussed with KPMG LLP its independence. The Audit Committee has also considered whether the provision of information technology services and other non-audit services to the Corporation by KPMG LLP is compatible with maintaining its independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Corporation's Annual Report on Form 10-K for the fiscal year ended December 31, 2003 filed with the Commission.

Table of Contents**RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS**

KPMG LLP acted as the Corporation's independent auditors during the past fiscal year, and has so acted since 1965.

The following table shows the fees billed to the Corporation for the audit and other services provided by KPMG LLP for fiscal 2003 and 2002.

	<u>2003</u>	<u>2002</u>
Audit Fees(1)	\$1,312,000	\$1,196,000
Audit-Related Fees(2)	60,000	69,000
Tax Fees(3)	759,000	246,000
All Other Fees	0	0
Total	\$2,131,000	\$1,511,000

- (1) Audit fees consist of fees billed for professional services rendered for the audit of the Corporation's annual financial statements and review of the interim financial statements included in quarterly reports and services that are normally provided by KPMG LLP in connection with statutory and regulatory filings.
- (2) Audit-Related Fees consist of fees billed primarily for employee benefit plan audits and other attestation services.
- (3) Tax Fees consist of fees billed for professional services rendered for tax compliance, tax advice and tax planning, both domestic and international. These services include assistance regarding federal, state and international tax compliance, acquisitions and international tax planning.

The Audit Committee's policy is to pre-approve all audit and non-audit services provided by the independent auditors. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The Audit Committee has delegated pre-approval authority to William F. Massy, Chair of the Audit Committee, when expedition of services is necessary, provided that Mr. Massy must report any decisions to pre-approve to the full Audit Committee at its next scheduled meeting. Since May 6, 2003, which was the date the Commission's rules regarding pre-approvals of audit and non-audit services became effective, less than 1% of the services rendered by the independent auditors under the categories Audit Fees, Audit Related Fees, and Tax Fees described above were approved by the Audit Committee after services were rendered pursuant to the de minimus exception established by the Commission.

The Audit Committee appointed KPMG LLP to examine the accounts and other records of the Corporation for the fiscal year ending December 31, 2004. The Board of Directors will present to the annual meeting a proposal that such appointment be ratified. Should the shareholders fail to ratify the appointment, the Audit Committee will reconsider its selection.

KPMG LLP has no financial interest, direct or indirect, in the Corporation or any subsidiary.

A representative of KPMG LLP is expected to be present at the annual meeting to make a statement if he or she desires to do so and to respond to appropriate questions.
