## Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

### Organization

Konover Property Trust, Inc. (the "Company"), formerly FAC Realty Trust, Inc., was incorporated on March 31, 1993 as a self-advised and self-managed real estate investment trust (REIT). The Company is principally engaged in the acquisition, development, ownership and operation of retail shopping centers. The Company's revenues are primarily derived under real estate leases with national, regional and local retailing companies.

On March 31, 2001, the Company's owned properties consisted of:

1. 39 community shopping centers in nine states aggregating approximately 5,483,000 square feet;
2. Nine outlet centers in nine states aggregating approximately 1,977,000 square feet;
3. 16 Vanity Fair (VF) anchored centers in 12 states aggregating approximately 1,424,000 square feet;
4. Two centers with approximately 516,000 square feet that are held for sale; and
5. One center under development which is scheduled for completion in Fall 2001.

In addition, the Company had investments in:

- >> four joint-venture community centers/developments which will consist of 404,000 square feet;
- >> a land-development joint venture consisting of approximately 2,700 acres; and
- >> third-party management company with 6.9 million square feet under management or leasing contracts.

The weighted-average square feet of gross leasable area was 9.4 million square feet for the three months ended March 31, 2001 and 9.5 million square feet for the same period in 2000.

On December 17, 1997, following shareholder approval, the Company changed its domicile from the State of Delaware to the State of Maryland. The reincorporation was accomplished through the merger of FAC Realty, Inc. into its Maryland subsidiary, Konover Property Trust, Inc. (formerly FAC Realty Trust, Inc.). Following the reincorporation on December 18, 1997, the Company reorganized as an umbrella partnership real estate investment trust (an "UPREIT"). The Company then contributed to KPT Properties, L.P. (formerly FAC Properties, L.P.), a Delaware limited partnership (the "Operating Partnership"), all of its assets and liabilities. In exchange for the Company's assets, the Company received limited partnership interests ("Units") in the Operating Partnership in an amount and designation that corresponded to the number and designation of outstanding shares of capital stock of the Company at the time. The Company is the sole general partner of the Operating Partnership and owns a 97% interest as of March 31, 2001. As additional limited partners are admitted to the Operating Partnership in exchange for the contribution of properties, the Company's percentage ownership in the Operating Partnership will decline. As the Company issues additional shares of capital stock, it will contribute the proceeds for that capital stock to the Operating Partnership in exchange for a number of Units equal to the number of shares that the Company issues. The Company conducts all of its business and owns all of its assets through the Operating Partnership (either directly or through subsidiaries) such that a Unit is economically equivalent to a share of the Company's common stock.

## Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

An UPREIT may allow the Company to offer Units in the Operating Partnership in exchange for ownership interests from tax-motivated sellers. Under certain circumstances, the exchange of Units for a seller's ownership interest will enable the Operating Partnership to acquire assets while allowing the seller to defer the tax liability associated with the sale of such assets. Effectively, this allows the Company to use Units instead of stock to acquire properties, which provides an advantage over non-UPREIT entities.

The Company has a majority interest in two taxable subsidiaries, Sunset KPT Investment, Inc. and truefinds.com, Inc. under the laws of Delaware. Sunset KPT Investment, Inc. has the ability to develop properties, buy and sell

8

properties, provide equity to developers and perform third-party management, leasing and brokerage services. truefinds.com, Inc. attempted to commercialize an apparel-sizing technology. The operations of truefinds.com, Inc. have been suspended. The Company holds substantially all of the non-voting common stock of these taxable subsidiaries. Substantially all of the voting common stock is held by an officer of the Company and other related parties. Accordingly, these entities are accounted for under the equity method for investments. Additionally, these taxable subsidiaries are taxed as regular corporations.

### Basis of Presentation

The accompanying consolidated financial statements include the accounts of the Company, its subsidiaries and the Operating Partnership. All significant intercompany balances have been eliminated in consolidation.

Properties that are owned or owned less than 100% and are controlled by the Operating Partnership have been consolidated. Control is demonstrated by the ability of the Operating Partnership to manage, directly or indirectly, day-to-day operations, refinance debt and sell the assets of the entity that owns the property without the consent of the other owners and the inability of the other owners to replace the general partner or manager. Investments in ventures which represent noncontrolling ownership interests or where control is deemed temporary are accounted for using the equity method of accounting. These investments are recorded initially at cost and subsequently adjusted for net equity in income (loss) and cash contributions and distributions.

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (primarily consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month period ended March 31, 2001 are not necessarily indicative of results that may be expected for a full fiscal year. For further information, refer to the audited financial statements and accompanying footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2000.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

### Reclassification

Certain amounts from prior years were reclassified to conform with current-year presentation. These reclassifications had no effect on net loss or stockholders' equity as previously reported.

### 2. Significant Accounting Policies

#### Cash and cash equivalents

The Company considers highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

#### Basic and diluted income per share

Basic earnings per share is calculated by dividing the income applicable to common stockholders by the weighted-average number of shares outstanding. Diluted earnings per share reflects the potential dilution that could occur if options or warrants to purchase common shares were exercised and preferred stock was converted into common shares ("potential common shares").

For the three months ended March 31, 2001 and March 31, 2000, basic and dilutive earnings per share are computed based on a weighted average number of shares of 31,173,502 and 30,515,935, respectively. Potential dilutive common shares have been excluded from diluted earnings per share for the three months ended March 31, 2001 and

9

March 31, 2000 because their inclusion would be antidilutive.

#### Dividends

On March 7, 2001, the Company declared a \$0.125 per share quarterly dividend to shareholders of record as of March 30, 2001. The dividend totaling \$4.3 million was paid on April 10, 2001.

#### Comprehensive Income

Comprehensive income equals net income for all periods presented.

### 3. Investment in and Advances to Unconsolidated Entities

A summary of the Company's investments in and advances to unconsolidated entities at March 31, 2001 and December 31, 2000 is as follows (all investments in unconsolidated entities are accounted for under the equity method):

Entity	Location	Ownership	March 31, 2001
Community Center Ventures:			
Atlantic Realty LLC (2 community centers)	Apex and Pembroke, NC	50%	\$ 2,626
Park Place KPT LLC	Morrisville, NC	50%	6,615

Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

Falls Pointe KPT LLC	Raleigh, NC	50%	5,999
Taxable Subsidiaries (see Note 1):			
Sunset KPT Investment, Inc.		85%	9,357
truefinds.com, Inc.		95%	97
			-----
			\$ 24,694
			=====

The development of the properties in the entities listed above is subject to, among other things, completion of due diligence and various contingencies, including those inherent in development projects, such as zoning, leasing and financing. There can be no assurance that such development will be completed. All debt incurred by unconsolidated ventures is secured by their respective properties as well as various guarantees of the Company and by the Company's respective venture partners.

4. Reportable Segments

Management has determined under Statement of Financial Accounting Standards (SFAS) No. 131, "Disclosures about Segments of an Enterprise and Related Information", that it has four reportable segments: community centers, outlet centers, VF anchored centers, and centers held for sale/redevelopment/development (HRD). The outlet segment includes properties which generate a majority of their revenue from traditional outlet manufacturers and are destination oriented. The VF anchored segment includes properties that have less than \$1.5 million in total revenue, generate at least 20% of their revenue from VF and have less than 150,000 square feet. The Company evaluates performance and allocates resources based on the net operating income (NOI) of the Company's investment portfolio. The accounting policies of the reportable segments are the same as those described in the summary of significant accounting policies. The Company's reportable segments are business units that offer retail space to varied tenants and in varied geographical areas.

(All data in thousands)

	Community Centers	Outlet Centers	VF Centers	HRD	All other
Three months ended March 31, 2001:					
NOI	\$ 8,908	\$ 5,586	\$ 890	\$ 117	\$ (1
Total Assets	\$ 361,751	\$ 183,849	\$ 42,264	\$ 51,604	\$ 57,50

Total Assets	\$ 358,482	\$ 190,265	\$ 45,071	\$ 54,034	\$ 67,87

10

5. Severance and Other Related Costs

C. Cammack Morton resigned as an officer and director of the Company on March 6, 2001. In connection with his resignation, the Company and Mr. Morton entered into a Separation Agreement and General Release. Under the separation agreement, which was a complete settlement of Mr. Morton's rights under his

## Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

former employment agreement, the Company paid Mr. Morton \$2.5 million in cash and released him from the non-compete restrictions in his employment agreement. In addition, the parties agreed upon Mr. Morton's rights under various equity awards.

Mr. Morton agreed that his 225,851 vested in-the-money Repurchase Rights and 300,000 vested out-of-the-money Repurchase Rights would remain outstanding (and entitled to dividend equivalent rights) until April 1, 2002. He also agreed to the immediate cancellation of his remaining 391,299 in-the-money Repurchase Rights in exchange for an additional cash payment of \$900,000, of which the Company has already paid \$400,000 and will pay the remaining \$500,000 in January 2002. Mr. Morton also forfeited his interest in 140,000 out-of-the-money Repurchase Rights and 210,000 out-of-the-money stock options in exchange for \$35,000 in cash.

Patrick M. Miniutti's employment with the Company terminated on March 6, 2001, and he resigned from the Board of Directors on March 30, 2001. In complete settlement of all rights under his former employment agreement, Mr. Miniutti entered into a Separation and Settlement Agreement and General Release with the Company on March 30, 2001. Pursuant to the agreement, the Company paid a severance benefit to Mr. Miniutti consisting of \$1.5 million in cash (payable in five equal monthly installments) and the forgiveness of a \$125,000 loan. The Company also released Mr. Miniutti from the non-compete restrictions imposed by his employment agreement.

In addition, in exchange for the issuance of 259,545 shares of common stock (the "Settlement Shares"), Mr. Miniutti agreed to the cancellation of all rights (including dividend equivalent rights) with respect to all equity awards granted by the Company. The shares are issuable upon the earlier of April 1, 2002, the sale of 50% or more of the Company's voting securities, the liquidation or winding-up of the Company or the payment by Mr. Miniutti of an amount equal to the Company's tax withholding obligations on the Settlement Shares. Under the agreement, Mr. Miniutti is entitled to dividend equivalent payments with respect to the Settlement Shares (in lieu of his still-outstanding equity awards) for any record date occurring after March 30, 2001 but before the issuance of the Settlement Shares.

In addition to the \$5.1 million of severance noted above, the Company recorded a charge of \$0.8 million for additional severance and legal fees for Mr. Morton, Mr. Miniutti and eight other Company employees in the quarter ended March 31, 2001. The total severance and other related costs of \$5.9 million is partially offset by a \$0.9 million reduction in previously amortized stock compensation for Mr. Morton and Mr. Miniutti.

### 6. Related-Party Transactions

In 1998, the Company entered into an agreement with Konover & Associates South to take over the management and leasing of certain properties. In consideration of the assignment of the management and leasing agreements to the Company, the Company agreed to pay \$1.1 million in 1999, \$1.4 million in 2000 and \$1.3 million in 2001. The final \$1.4 million payment was made in January 2001. The chairman of the Board of Directors of the Company is an affiliate of Konover & Associates South.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion should be read with the selected financial data in this

## Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

section and the consolidated financial statements and notes in this report. Certain comparisons between the periods have been made on a percentage basis and on a weighted-average square-foot basis. Comparisons on a weighted-average square-foot basis adjust for square-footage added at different times during the year.

### Selected Financial Data

The following information should be read with the consolidated financial statements and notes thereto included in this report.

Industry analysts generally consider Funds From Operations ("FFO") an appropriate measure of performance for an equity REIT. FFO means net income before extraordinary items (computed in accordance with accounting principles generally accepted in the United States) excluding gains or losses on the sale of real estate plus real estate depreciation and amortization. Management believes that FFO, as defined herein, is an appropriate measure of the Company's operating performance because reductions for depreciation and amortization charges are not meaningful in evaluating the operating results of its properties, which have historically been appreciating assets.

"EBITDA" is defined as revenues less operating costs, including general and administrative expenses, before interest, depreciation and amortization and unusual items. As a REIT, the Company is generally not subject to Federal income taxes. Management believes that EBITDA provides a meaningful indicator of operating performance for the following reasons: (i) it is industry practice to evaluate the performance of real estate properties based on net operating income ("NOI"), which is generally equivalent to EBITDA; and (ii) both NOI and EBITDA are unaffected by the debt and equity structure of the property owner.

FFO and EBITDA (i) do not represent cash flow from operations as defined by generally accepted accounting principles, (ii) are not necessarily indicative of cash available to fund all cash flow needs and (iii) should not be considered as an alternative to net income for purposes of evaluating the Company's operating performance or as an alternative to cash flow as a measure of liquidity.

Other data that management believes is important in understanding trends in its business and properties are also included in the following table (in thousands, except per share data).

### Results Of Operations

Three Months Ended March 31, 2001 Compared to the Three Months Ended March 31, 2000

#### Net Income

The Company reported a net loss applicable to common stockholders of \$6.2 million, or \$(0.20) per common share, for the three months ended March 31, 2001. The same period in 2000 reflected net loss applicable to common stockholders of \$3.1 million, or \$(0.10) per common share. The elements having a material impact on the change are discussed below:

- >> The Company's NOI increased by \$0.4 million, or 3%, to \$15.5 million from \$15.1 million for the same period in 2000. This increase was partly attributable to a \$1.2 million lease buyout in the outlet segment. The lease buyout was partially offset by a decrease in NOI of \$0.6 million at the Company's Nashville center which is being held for sale, charges for certain tenant bankruptcies and an NOI decrease related to two properties sold in 2000.
- >> The Company recognized losses from its unconsolidated technology venture of \$2.4 million during the three months ended March 31, 2000. The operations of this venture ceased in December 2000.

## Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

- >> Net interest expense increased by \$1.5 million, or 24%, to \$7.8 million from \$6.3 million for the same period in 2000.
- >> The Company incurred severance and other related costs of \$5.0 million during the three months ended March 31, 2001.
- >> General and administrative expenses increased \$0.4 million primarily related to the Company's corporate office move.

### Earnings Before Interest, Taxes, Depreciation, and Amortization and Funds from Operations

EBITDA was \$8.5 million for the three months ended March 31, 2001, a decrease of \$5.0 million or 37%, from \$13.5 million for the same period in 2000. The decrease was primarily due to severance and other related costs incurred in 2001.

Funds from Operations ("FFO") for the three months ended March 31, 2001 decreased \$6.4 million, or 103%, to (\$0.2) million. The Company's FFO for the same period in 2000 was \$6.2 million. FFO decreased primarily as a result of:

- >> \$0.4 million increase in NOI, offset by
- >> an increase in net interest expense of \$1.5 million,
- >> an increase in general and administrative expenses of \$0.4 million; and
- >> \$5.0 million in severance and other related costs incurred in 2001.

### Tenant Income

Base rent decreased to \$17.1 million for the three months ended March 31, 2001 from \$17.7 million for the same period in 2000. This decrease is primarily due to a decrease in base rent of \$0.5 million at the company's Nashville center and decreases related to the two properties sold in May and September 2000.

During this same period, the Company's weighted-average square feet of gross leasable area in operation decreased 1%. Gross leasable area in operation decreased by 0.1 million square feet primarily related to the sale of two properties in May and September 2000.

Recoveries from tenants decreased for the three months ended March 31, 2001 to \$3.8 million compared to \$3.9 million in the same period of 2000. These recoveries represent contractual reimbursements from tenants of certain common area maintenance, real estate taxes and insurance costs. On a weighted-average square-foot basis, recoveries decreased 2% to \$0.40 for the three months ended March 31, 2001 when compared to \$0.41 for the same period in 2000. With respect to approximately 10% of the leased gross leasable area, the Company is obligated to pay all utilities and operating expenses.

16

### Other Income

Other income increased \$1.0 million to \$1.5 million in 2001 compared to \$0.5 million in 2000 primarily as a result of a lease buy out in the Company's outlet segment of \$1.2 million.

### Property Operating Expenses

Property operating costs decreased \$0.1 million, or 1%, to \$7.0 million in 2001 from \$7.1 million in the same period of 2000. The decrease in operating costs was principally due to the decrease in the weighted-average square feet in operation in 2001, which decreased 1% to 9.4 million square feet in 2001 from 9.5 million square feet in 2000. On a weighted-average square-foot basis, operating expenses remained constant at \$0.74 per weighted average square foot.

## Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

### General and Administrative Expenses

General and administrative expenses for the three months ended March 31, 2001 increased \$0.4 million, or 25%, to \$2.0 million in 2001 from \$1.6 million in 2000. General and administrative expense increased as a percentage of revenues to 8.8% from 7.2% in 2000. The increase in general and administrative expenses is primarily due to the Company's corporate office move.

### Severance and Other Related Costs

C. Cammack Morton resigned as an officer and director of the Company on March 6, 2001. In connection with his resignation, the Company and Mr. Morton entered into a Separation Agreement and General Release. Under the separation agreement, which was a complete settlement of Mr. Morton's rights under his former employment agreement, the Company paid Mr. Morton \$2.5 million in cash and released him from the non-compete restrictions in his employment agreement. In addition, the parties agreed upon Mr. Morton's rights under various equity awards.

Mr. Morton agreed that his 225,851 vested in-the-money Repurchase Rights and 300,000 vested out-of-the-money Repurchase Rights would remain outstanding (and entitled to dividend equivalent rights) only until April 1, 2002. He also agreed to the immediate cancellation of his remaining 391,299 in-the-money Repurchase Rights in exchange for an additional cash payment of \$900,000, of which the Company has already paid \$400,000 and will pay the remaining \$500,000 in January 2002. Mr. Morton also forfeited his interest in 140,000 out-of-the-money Repurchase Rights and 210,000 out-of-the-money stock options in exchange for \$35,000 in cash.

Patrick M. Miniutti's employment with the Company terminated on March 6, 2001, and he resigned from the Board of Directors on March 30, 2001. In complete settlement of all rights under his former employment agreement, Mr. Miniutti entered into a Separation and Settlement Agreement and General Release with the Company on March 30, 2001. Pursuant to the agreement, the Company paid a severance benefit to Mr. Miniutti consisting of \$1.5 million in cash (payable in five equal monthly installments) and the forgiveness of a \$125,000 loan. The Company also released Mr. Miniutti from the non-compete restrictions imposed by his employment agreement.

In addition, in exchange for the issuance of 259,545 shares of common stock (the "Settlement Shares"), Mr. Miniutti agreed to the cancellation of all rights (including dividend equivalent rights) with respect to all equity awards granted by the Company. The shares are issuable upon the earlier of April 1, 2002, the sale of 50% or more of the Company's voting securities, the liquidation or winding-up of the Company or the payment by Mr. Miniutti of an amount equal to the Company's tax withholding obligations on the Settlement Shares. Under the agreement, Mr. Miniutti is entitled to dividend equivalent payments with respect to the Settlement Shares (in lieu of his still-outstanding equity awards) for any record date occurring after March 30, 2001 but before the issuance of the Settlement Shares.

In addition to the \$5.1 million of severance noted above, the Company recorded a charge of \$0.8 million for additional severance and legal fees for Mr. Morton, Mr. Miniutti and eight other Company employees in the quarter ended March 31, 2001. The total severance and other related costs of \$5.9 million is partially offset by a \$0.9 million reduction in previously amortized stock compensation for Mr. Morton and Mr. Miniutti.

## Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

### Depreciation

Depreciation decreased to \$6.1 million for the three months ended March 31, 2001 compared to \$6.2 million in the same period of 2000. On a weighted-average square-foot basis, depreciation and amortization remained constant at \$0.65.

### Interest Expense

Interest expense for the three months ended March 31, 2001, net of interest income of \$0.5 million, increased by \$1.5 million, or 24%, to \$7.8 million compared to \$6.3 million, net of interest income of \$2.0 million, in the first three months of 2000. On a weighted-average basis, in the first three months of 2001, debt outstanding was \$401 million, and the average interest rate was 8.16%. This compares to \$366 million of outstanding debt and a 8.30% average interest rate in 2000. The Company capitalized \$0.6 million of interest costs associated with its development projects in the first three months of 2001 compared to \$1.0 million in the same period of 2000. Additionally, the impact to interest income is related to the accounting for preferred return income on real estate venture projects including Towne Centre in Mt. Pleasant, South Carolina, which is currently wholly owned by the Company.

### Liquidity and Capital Resources

#### Cash Flows

The Company's cash and cash equivalents balance at March 31, 2001 was \$4.2 million. Restricted cash, as reported in the financial statements, as of such date, was \$12.5 million. The restricted cash is an amount the Company was required to escrow in connection with various loans. The escrows are required to fund taxes, environmental and engineering work, recurring replacement costs and insurance.

Net cash provided by operating activities was \$0.3 million for the three months ended March 31, 2001. Net cash used in investing activities was \$5.9 million in that same period. The primary use of these funds included:

- >> \$5.5 million invested in income-producing properties, and
- >> \$0.9 million placed in restricted escrows, offset by
- >> \$0.4 million received from unconsolidated entities, and
- >> \$0.1 million collected on the repayment of a note receivable.

Net cash used in financing activities was \$0.9 million for the three months ended March 31, 2001. The primary transactions included:

- >> \$4.7 million for dividends paid,
- >> \$1.2 million for debt repayments, offset by
- >> \$5.0 million of net proceeds from debt on income-producing properties.

### Financing Activities

The Company's policy is to finance its activities with the source of capital believed by management to be most appropriate and provide the proper balance of equity and fixed and floating rate debt. Sources may include undistributed cash flow, borrowings from institutional lenders, equity issuances, and the issuance of debt securities on a secured or unsecured basis. The Company's philosophy is to use its Funds Available for Distribution as a key source of financing.

In December 1998, the Company completed a substitution and

## Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

recollateralization of its REMIC facility. This \$95 million facility was originally issued in May 1995 and was secured by 18 properties. The substitution was the first step in an effort by the Company to gain greater flexibility in the sale of assets that may no longer meet the Company's ongoing strategy. The REMIC balance as of March 31, 2001 was \$85.9 million, which was secured by 23 properties, and matures in June 2002 with the ability to prepay in December 2001.

An acquisition line of credit was put in place in early 1997 for \$150 million. The availability under this line was based upon a predetermined formula on the Net Operating Income of the properties that secure the facility. The \$150

18

million line was converted into a \$60 million term loan in June 2000 and is currently secured by nine properties plus an assignment of the excess cash flow of the REMIC facility referenced above. The loan expires the earlier of December 2002 or the termination of the REMIC facility.

On March 11, 1998, the Company closed on a \$75 million, 15-year permanent credit facility. The loan has an effective rate of 7.73% and is amortized on a 338-month basis. Eleven properties secure this facility. The proceeds were used to pay down borrowings outstanding on the \$150 million credit facility. The credit facility balance as of March 31, 2001, was \$66.0 million excluding a \$6.3 million unamortized interest premium.

The Company closed on a \$46.4 million 10-year mortgage loan on Mt. Pleasant's Towne Centre in conjunction with its purchase of its partner's interest in December 2000. The 30-year amortized loan bears interest at 7.58%. Certain escrows totaling approximately \$2.1 million are in place for leasing, earnout or tenant allowance. \$1.0 million of the cash held in escrow may be replaced with a letter of credit.

On January 11, 2000, the Company closed on a \$5 million credit facility with a bank. In March 2000, the available borrowings were increased by \$5 million to \$10 million. The credit facility has an interest rate of LIBOR plus 2%. The balance as of March 31, 2001 was \$10 million and matures on August 31, 2001. The credit facility is secured by a community center.

The Company has a \$2.5 million line of credit with a financial institution which expires on September 30, 2001. The line of credit is secured by one of the Company's income-producing properties and has an interest rate of prime plus 1/2%. There were no outstanding borrowings on this line of credit at March 31, 2001.

The Company may enter into additional mortgage indebtedness related to certain joint venture development projects. Generally, the Company's policy is to extend loans to unconsolidated entities only upon terms similar to those that would be made by third parties.

Any additional debt financing, including additional lines of credit, may be secured by mortgages on the Properties. Such mortgages may be recourse or non-recourse or cross-collateralized or may contain cross-default provisions. The Company does not have a policy limiting the number of mortgages that may be placed on, or the amount of indebtedness that may be secured by, any particular property; however, current mortgage financing instruments do limit additional indebtedness on such properties.

Lazard Transaction

## Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

On August 5, 1998, stockholders approved the sale of common stock to Prometheus Southeast Retail, LLC ("PSR"), an affiliate of Lazard Freres & Co., LLC, for \$200 million. As part of the Lazard transaction, the Company signed a Contingent Value Rights Agreement with PSR. Under this agreement, if PSR has not essentially doubled its investment (through stock appreciation and dividends) by January 1, 2004, the Company will be required to pay PSR, in cash or stock at its discretion, an amount necessary to achieve such a return, subject to a maximum payment of 4,500,000 shares or the cash value thereof.

### Current and Future Cash Needs

The Company's management anticipates that cash generated from operations as well as access to capital resources, including additional borrowings and issuances of debt or equity securities, will provide the necessary funds for operating expenses, interest expense on outstanding indebtedness, current and future severance payments, dividends and distributions in accordance with REIT federal income tax requirements, re-tenanting and lease renewal tenant improvement costs, capital expenditures to maintain the quality of its existing centers as well as development projects.

### Dividends

On March 7, 2001, the Company declared a \$0.125 per share quarterly dividend to shareholders of record as of March 30, 2001. The dividend totaling \$4.3 million was paid on April 10, 2001.

The Company will make determinations regarding its dividend distributions quarterly following review of the Company's financial results, capital availability, strategic objectives and REIT requirements. The Company's policy is to declare dividends in amounts at least equal to 90% of the Company's taxable income, which is the minimum dividend

19

required to maintain REIT status. Based upon previous losses, the Company will have approximately \$10.6 million of net operating loss carry forwards for income tax reporting purposes, which could result in no dividend payment requirement to maintain its REIT status in 2001. Given the Company's desire to maintain a reasonable funds from operations payout ratio, a reduction in dividend payments is possible.

### Economic Conditions

Inflation has remained relatively low during the past three years with certain segments of the economy experiencing disinflation, such as apparel sales. Disinflation in this market segment has slowed the growth of tenant sales, which adversely affects the Company's revenue due to lower percentage and overage rents on some properties. Any weakness in the overall retail environment as it relates to tenant sales volumes may have an impact on the Company's ability to renew leases at current rental rates or to re-lease space to other tenants. A decline in sales can effect renewal of tenant leases as well as the viability of the tenant, which could result in reduced revenue. Percentage and overage rent are directly impacted by sales volumes and represented 2% and 4% of the Company's total revenue for the three months ended March 31, 2001 and 2000, respectively. Continuation of this economic trend may affect the Company's operating centers' occupancy rate, rental rates, and concessions, if any, granted on new leases or re-releases of space. This in turn may cause fluctuations in the cash flow from the operation and performance of the operating centers.

## Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

### Disclosure Regarding Forward Looking Statements

Some of the information in this Quarterly Report on Form 10-Q may contain forward-looking statements. Such statements include, in particular, statements about our plans, strategies and prospects under the headings "Management's Discussion and Analysis of Financial Condition and Results of Operations." You can identify forward-looking statements by our use of forward-looking terminology such as "may," "will," "expect," "anticipate," "estimate," "continue," or other similar words. Although we believe that our plans, projections and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that our plans, projections or expectations will be achieved. When considering such forward-looking statements, you should keep in mind the following important factors that could cause our actual results to differ materially from those contained in any forward-looking statement:

- >> our markets could experience significant increases in development of retail properties;
- >> the financial condition of our tenants could deteriorate;
- >> the costs of our development projects could exceed our original estimates;
- >> we may not be able to complete development, acquisition or joint venture projects as quickly or on as favorable terms as anticipated;
- >> we may not be able to lease or release space quickly or on as favorable terms as old leases;
- >> we may have incorrectly assessed the environmental condition of our properties;
- >> an increase in interest rates would increase our debt service costs;
- >> we could lose key executive officers; and
- >> our markets may suffer decline in economic growth or increase in unemployment rates.

Given these uncertainties, we caution you not to place undue reliance on forward-looking statements. We undertake no obligation to disclose the results of any revisions to these forward-looking statements that may be made to reflect any future events or circumstances or to reflect the occurrence of unanticipated events.

20

### Item 3 - Quantitative and Qualitative Disclosures about Market Risk

The effects of potential changes in interest rates are discussed below. Our market risk discussion includes "forward-looking statements" and represents an estimate of possible changes in future earnings that would occur assuming hypothetical future movements in interest rates. These disclosures are not precise indicators of expected future results, but only indicators of reasonably possible results. As a result, actual future results may differ materially from those presented. See "Management's Discussion and Analysis of Results of Operations - Liquidity and Capital Resources," which provides information related to these financial instruments.

To meet in part long-term liquidity requirements, the Company borrows funds at a combination of fixed and variable rates. In addition, the Company has assumed fixed rate debt in connection with acquiring properties. The Company's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. Currently, the Company is party to an interest rate agreement which limits the

Edgar Filing: KONOVER PROPERTY TRUST INC - Form 10-Q

interest to a maximum of 10.66% on \$58.9 million of variable rate debt. As of March 31, 2001, the Company had approximately \$89.7 million of variable rate debt outstanding. If the weighted-average interest rate on this variable rate debt is 100 basis points higher or lower in 2001, our interest expense would be increased or decreased approximately \$0.2 million for the three months ended March 31, 2001. The Company has \$4.4 million of fixed rate debt maturing in 2001.

21

PART II

Item 1. Legal Proceedings

None

Item 2. Changes in Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

None

Item 5. Other Information

Although the Board of Directors has not yet set a date for the 2001 annual meeting, it is apparent that the meeting will be significantly later than the date used for last year's annual meeting. Currently, management expects a meeting date before August 25. As a result of the delayed meeting date, our bylaws allow a stockholder until May 25 to give advance written notice to the secretary of the Company of a proposal to be presented in connection with the annual meeting. We will consider any stockholder proposal received by this date for inclusion in the 2001 proxy materials.

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits

None

(b) Reports on Form 8-K

The Company filed an 8-K on March 7, 2001. The filing, dated March 6, 2001, reported under Item 5 the resignation of C. Cammack Morton as an officer and director of the Company and the appointment of J. Michael Maloney as Interim President and Chief Executive Officer.
