FORWARD LOOKING STATEMENTS

Statements made in this Form 10-QSB which are not purely historical are forward-looking statements with respect to the goals, plans, objectives, intentions, expectations, financial condition, results of operations, future performance and business of the Company. Forward-looking statements may be identified by the use of such words as "believes," "may," "will," "should," "intends," "plans," "estimates," or "anticipates" or other similar expressions.

Forward-looking statements involve inherent risks and uncertainties, and important factors (many of which are beyond our control) could cause actual results to differ materially from those set forth in the forward-looking statements. In addition to those specific risks and uncertainties set forth in the Company's reports currently on file with the SEC, some other factors that

Edgar Filing: UNITED GUARDIAN INC - Form 10QSB

may affect the future results of operations of the Company are: the development of products that may be superior to the those of the Company; changes in the quality or composition of the Company's products; lack of market acceptance of the Company's products; the Company's ability to develop new products; general economic or industry conditions; intellectual property rights; changes in interest rates; new legislation or regulatory requirements; conditions of the securities markets; the Company's ability to raise capital; changes in accounting principals, policies or guidelines; financial or political instability; acts of war or terrorism; and other economic, competitive, governmental, regulatory and technical factors that may affect the Company's operations, products, services and prices.

Accordingly, results actually achieved may differ materially from those anticipated as a result of such forward-looking statements, and those statements speak only as of the date they are made. The Company does not undertake, and specifically disclaims, any obligation to update any forward-looking statements to reflect events or circumstances occurring after the date of such statements.

OVERVIEW

The Company is a Delaware corporation that operates in two business segments. Its Guardian Laboratories Division ("Guardian") conducts research, product development, manufacturing and marketing of cosmetic ingredients, personal and health care products, pharmaceuticals, and specialty industrial products. The products manufactured by Guardian are marketed through marketing partners, distributors, direct advertising, mailings, and trade exhibitions. Its most important personal care product line is its LUBRAJEL(R) line of water based moisturizing and lubricating gels. It also sells two pharmaceutical products, which are distributed primarily through drug wholesalers and surgical supply houses. There are also indirect sales to the Veteran's Administration and other government agencies, and to some hospitals and physicians.

While the Company does have competition in the marketplace for some of its products, many of its products or processes are either unique in their field or have some unique characteristics, and therefore are not in direct competition with the products or processes of other pharmaceutical, chemical, or health care companies. Guardian's research and development department is actively working on the development of new products to expand the Company's personal care line.

11

The Company has been issued many patents and trademarks, and intends whenever possible to make efforts to obtain patents in connection with its product development program.

The Company's Eastern Chemical subsidiary distributes an extensive line of fine organic chemicals, research chemicals, test solutions, indicators, dyes and reagents. Eastern's products are marketed through advertising in trade publications and direct mailings and are sold both to distributors and directly to end users for use in a wide variety of applications. Since the Company's business activities and marketing efforts over the past several years have focused increasingly on the Guardian division, which the Company believes has greater growth potential, the Company has reduced Eastern's inventory levels in order to make the subsidiary more marketable in the event the Company decides to sell the Eastern operation at some future date. This has resulted in some reduction in sales for this division. Sales of this division have also declined as a result of increased competition from new and existing competitors that are making increased use of the the Internet as a selling tool.

Edgar Filing: UNITED GUARDIAN INC - Form 10QSB

Products manufactured by the Company are marketed worldwide through its extensive marketing and distribution arrangements. Currently approximately half of the Company's sales are to foreign customers.

The following discussion and analysis covers material changes in the financial condition of the Company since December 31, 2003, and a comparison of the results of operations for the three and six month periods ended June 30, 2004 and June 30, 2003. This discussion and analysis should be read in conjunction with "Management's Discussion and Analysis or Plan of Operation" included in the Company's Form 10-KSB for the year ended December 31, 2003.

RESULTS OF OPERATIONS

Gross revenue from operations

For the six month period ended June 30, 2004 net sales decreased \$327,006 (5.2%) versus the comparable period in 2003. The Guardian Laboratories division ("Guardian") had a sales decrease of \$315,803 (5.5%) while the Eastern Chemical subsidiary ("Eastern") had a sales decrease of \$11,203 (1.9%).

For the three month period ended June 30, 2004 net sales decreased \$76,576 (2.5%) versus the comparable period in 2003. Guardian sales decreased \$115,060 (4.0%) while Eastern sales increased \$38,484 (15%).

The decreases in Guardian's sales is believed to be due mainly to normal fluctuations in purchasing patterns of its customers. The six month decrease and three month increase in Eastern's sales is believed to be partially attributable to normal fluctuations in purchasing patterns of its customers, but the decrease may also be partially due to some loss of business due to the Company maintaining lower inventory levels as compared to the prior year.

12

Cost of sales

Cost of sales as a percentage of sales decreased to 43.4% for the six months ended June 30, 2004 from 48.3% for the comparable period ended June 30, 2003. For the three month period ended June 30 2004 compared to the three month period ended June 30, 2003 cost of sales as a percentage of sales decreased to 43.8% from 49.1%. These decreases are mainly due to a reduction in the capitalization of overhead for the six and three month periods in 2004 as compared to the comparable periods in the prior year.

Operating Expenses

Operating expenses increased \$84,679 (6.7%) for the six months ended June 30, 2004 compared to the comparable period in 2003. For the three month period ended June 30, 2004 operating expenses increased \$70,526 (11.2%) over the comparable period in 2003. Increases in expenses for the six month and three month periods were mainly due to increases in insurance costs and payroll related costs, including a bonus accrual.
