UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2018 or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number 000-29480

HERITAGE FINANCIAL CORPORATION  
(Exact name of registrant as specified in its charter)

Washington (State or other jurisdiction of incorporation or organization)	91-1857900 (I.R.S. Employer Identification No.)
---	---

201 Fifth Avenue SW, Olympia, WA (Address of principal executive offices) (360) 943-1500 (Registrant's telephone number, including area code)	98501 (Zip Code)
--	---------------------

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer   
Non-accelerated filer  (Do not check if a smaller reporting company) Smaller reporting company   
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Indicate the number of shares outstanding of each of the issuer’s classes of common stock, as of the last practicable date:

As of July 31, 2018 there were 36,868,578 shares of the registrant's common stock, no par value per share, outstanding.

**FORWARD LOOKING STATEMENTS:**

This Quarterly Report on Form 10-Q ("Form 10-Q") may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements often include the words "believes," "expects," "anticipates," "estimates," "forecasts," "intends," "plans," "targets," "potentially," "probably," "projects," "outlook" expressions or future or conditional verbs such as "may," "will," "should," "would" and "could." These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated, including: our ability to successfully integrate any assets, liabilities, customers, systems, and management personnel from our recent mergers with Puget Sound Bancorp, Inc., and Premier Commercial Bancorp, into our operations and our ability to realize related revenue synergies and cost savings within expected time frames or at all, and any goodwill charges related thereto and costs or difficulties relating to integration matters, including but not limited to customer and employee retention, which might be greater than expected; the credit risks of lending activities, including changes in the level and trend of loan delinquencies and write-offs and changes in our allowance for loan losses and provision for loan losses that may be effected by deterioration in the housing and commercial real estate markets, which may lead to increased losses and nonperforming assets in our loan portfolio, and may result in our allowance for loan losses no longer being adequate to cover actual losses, and require us to increase our allowance for loan losses; changes in general economic conditions, either nationally or in our market areas; changes in the levels of general interest rates, and the relative differences between short and long term interest rates, deposit interest rates, our net interest margin and funding sources; risks related to acquiring assets in or entering markets in which we have not previously operated and may not be familiar; fluctuations in the demand for loans, the number of unsold homes and other properties and fluctuations in real estate values in our market areas; results of examinations of us by the bank regulators, including the possibility that any such regulatory authority may, among other things, initiate an enforcement action against the Company or our bank subsidiary which could require us to increase our allowance for loan losses, write-down assets, change our regulatory capital position, affect our ability to borrow funds or maintain or increase deposits, or impose additional requirements on us, any of which could affect our ability to continue our growth through mergers, acquisitions or similar transactions and adversely affect our liquidity and earnings; legislative or regulatory changes that adversely affect our business including but not limited to, the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 and implementing regulations, changes in regulatory policies and principles, or the interpretation of regulatory capital or other rules as a result of Basel III; our ability to control operating costs and expenses; increases in premiums for deposit insurance; the use of estimates in determining fair value of certain of our assets, which estimates may prove to be incorrect and result in significant declines in valuation; difficulties in reducing risk associated with the loans on our Condensed Consolidated Statements of Financial Condition; staffing fluctuations in response to product demand or the implementation of corporate strategies that affect our workforce and potential associated charges; disruptions, security breaches, or other adverse events, failures or interruptions in, or attacks on, our information technology systems or on the third-party vendors who perform several of our critical processing functions; our ability to retain key members of our senior management team; costs and effects of litigation, including settlements and judgments; our ability to implement our growth strategies; increased competitive pressures among financial service companies; changes in consumer spending, borrowing and savings habits; the availability of resources to address changes in laws, rules, or regulations or to respond to regulatory actions; adverse changes in the securities markets; inability of key third-party providers to perform their obligations to us; changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies or the Financial Accounting Standards Board ("FASB"), including additional guidance and interpretation on accounting issues and details of the implementation of new accounting methods; and other economic, competitive, governmental, regulatory, and technological factors affecting our operations, pricing, products and services and other risks detailed from time to time in our filings with the Securities and Exchange Commission including our Annual Report on Form 10-K for the year ended December 31, 2017.

The Company cautions readers not to place undue reliance on any forward-looking statements. Moreover, you should treat these statements as speaking only as of the date they are made and based only on information then actually known to the Company. The Company does not undertake and specifically disclaims any obligation to revise any

forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements. These risks could cause our actual results for future periods to differ materially from those expressed in any forward-looking statements by, or on behalf of, us, and could negatively affect the Company's operating results and stock price performance.

As used throughout this report, the terms "we", "our", "us", or the "Company" refer to Heritage Financial Corporation and its consolidated subsidiaries, unless the context otherwise requires.

HERITAGE FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(1) Description of Business, Basis of Presentation, Significant Accounting Policies and Recently Issued Accounting Pronouncements

(a) Description of Business

Heritage Financial Corporation ("Heritage" or the "Company") is a bank holding company that was incorporated in the State of Washington in August 1997. The Company is primarily engaged in the business of planning, directing and coordinating the business activities of its wholly-owned subsidiary, Heritage Bank (the "Bank"). The Bank is a Washington-chartered commercial bank and its deposits are insured by the Federal Deposit Insurance Corporation ("FDIC"). The Bank is headquartered in Olympia, Washington and conducts business from its 59 branch offices as of June 30, 2018 located throughout Washington State and the greater Portland, Oregon area. The Bank's business consists primarily of commercial lending and deposit relationships with small businesses and their owners in its market areas and attracting deposits from the general public. The Bank also makes real estate construction and land development loans, consumer loans and originates first mortgage loans on residential properties primarily located in its market areas.

On January 16, 2018, the Company completed the acquisition of Puget Sound Bancorp, Inc. ("Puget Sound"), the holding company for Puget Sound Bank, both of Bellevue, Washington ("Puget Sound Merger"). See Note (2) Business Combination for additional information on the merger.

On March 8, 2018, the Company entered into a definitive agreement to acquire Premier Commercial Bancorp, ("Premier Commercial") and its wholly-owned bank subsidiary, Premier Community Bank, both of Hillsboro, Oregon (the "Premier Merger"). The Premier Merger was completed on July 2, 2018. See Note (17) Subsequent Event for additional information on the merger.

(b) Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the accounting principles generally accepted in the United States ("U.S. GAAP") for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. It is recommended that these unaudited Condensed Consolidated Financial Statements and accompanying Notes be read with the audited Consolidated Financial Statements and the accompanying Notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 ("2017 Annual Form 10-K"). In management's opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018. In preparing the unaudited Condensed Consolidated Financial Statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures. Management believes that the judgments, estimates and assumptions used in the preparation of the financial statements are appropriate based on the facts and circumstances at the time. Actual results, however, could differ significantly from those estimates.

(c) Significant Accounting Policies

The significant accounting policies used in preparation of the Company's Condensed Consolidated Financial Statements are disclosed in the 2017 Annual Form 10-K. There have not been any material changes in the Company's significant accounting policies from those contained in the 2017 Annual Form 10-K, except for the accounting policy relating to revenue from contracts with customers adopted January 1, 2018, as discussed below.

Revenue from Contracts with Customers

Accounting Standards Codification Topic 606, Revenue from Contracts with Customers, ("ASC 606"), as amended, was adopted by the Company on January 1, 2018. ASC 606 applies to all contracts with customers to provide goods or

services in the ordinary course of business, except for contracts that are specifically excluded from its scope. The Company's revenues are primarily composed of interest income on financial instruments, such as loans and investment securities, which are excluded from the scope of ASC 606. Descriptions of our revenue-generating activities that are within the scope ASC 606, which are presented in Service Charges and Other Fees and Other Income on the Company's Condensed Consolidated Statement of Income, are as follows:

10

---

Table of Contents

**Service Charges on Deposit Accounts:** The Company earns fees from its deposit customers from a variety of deposit products and services. Non-transaction based fees such as account maintenance fees and monthly statement fees are considered to be provided to the customer under a day-to-day contract with ongoing renewals. Revenues for these non-transaction fees are earned over the course of a month, representing the period over which the Company satisfies the performance obligation. Transaction-based fees such as non-sufficient fund charges, stop payment charges and wire fees are recognized at the time the transaction is executed as the contract duration does not extend beyond the service performed.

**Wealth Management and Trust Services:** The Company earns fees from contracts with customers for fiduciary and brokerage activities. Revenues are generally recognized on a monthly basis and are generally based on a percentage of the customer's assets under management or based on investment or insurance solutions that are implemented for the customer.

**Merchant Processing Services and Debit and Credit Card Fees:** The Company earns fees from cardholder transactions conducted through third party payment network providers which consist of (i) interchange fees earned from the payment network as a debit card issuer, (ii) referral fee income, and (iii) ongoing merchant fees earned for referring customers to the payment processing provider. These fees are recognized when the transaction occurs, but may settle on a daily or monthly basis.

(d) Recently Issued Accounting Pronouncements

FASB ASU 2014-09, Revenue from Contracts with Customers, (as amended by FASB ASU 2015-14; FASB ASU 2016-08; FASB ASU 2016-10 and FASB ASU 2016-12), was issued in May 2014. Under this Accounting Standard Update ("ASU" or "Update"), the Financial Accounting Standards Board ("FASB") created a new Topic 606 which is in response to a joint initiative of FASB and the International Accounting Standards Board to clarify the principles for recognizing revenue and to develop a common revenue standard for U.S. GAAP and international financial reporting standards that would:

Remove inconsistencies and weaknesses in revenue requirements.

Provide a more robust framework for addressing revenue issues.

Improve comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets.

Provide more useful information to users of financial statements through improved disclosure requirements.

Simplify the preparation of financial statements by reducing the number of requirements to which an entity must refer.

The Company adopted the revenue recognition guidance, as amended, on January 1, 2018 using the modified retrospective approach. A significant amount of the Company's revenues are derived from interest income on financial assets, which are excluded from the scope of the amended guidance. With respect to noninterest income and related disclosures, the Company has identified and evaluated the revenue streams and underlying revenue contracts within the scope of the guidance. The Company did not identify any significant changes in the timing of revenue recognition when considering the amended accounting guidance. The adoption of the Update did not have a material impact on the Company's Condensed Consolidated Financial Statements, but the adoption did change certain disclosure requirements as described in Significant Accounting Policies above.

FASB ASU 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities (Subtopic 825-10), was issued in January 2016, to enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information. This Update contains several provisions, including but not limited to (1) requiring equity investments, with certain exceptions, to be measured at fair value with changes in fair value recognized in net income; (2) simplifying the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; (3) eliminating the requirement to disclose the method(s) and significant assumptions used to estimate fair value; and (4) requiring separate presentation of financial assets and liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statements. The Update also changes certain financial statement disclosure requirements, including requiring disclosures of the fair value of financial instruments be made on the basis of exit price. The Company adopted this Update effective January 1, 2018 using the cumulative catch-up transition

method. This change resulted in a cumulative adjustment of \$93,000 from accumulated other comprehensive loss, net to retained earnings for the unrealized gain related to the Company's equity security. The Company's processes and procedures utilized to estimate the fair value of loans receivable and certificate of deposit accounts for disclosure

Table of Contents

requirements were additionally changed due to adoption of this Update. Previously, the Company valued these items using an entry price notion. This ASU emphasized that these instruments be measured using the exit price notion; accordingly, the Company refined its calculation as part of adopting this Update. Prior period information has not been updated to conform with the new guidance. See the Condensed Consolidated Statements of Stockholders' Equity and Note (14) Fair Value Measurements.

FASB ASU 2016-02, Leases (Topic 842) was originally issued in February 2016, to increase transparency and comparability of leases among organizations and to disclose key information about leasing arrangements. The Update sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. The Update requires lessees to apply a dual approach, classifying leases as either a finance or operating lease. This classification will determine whether the lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term greater than 12 months regardless of their classification. All cash payments will be classified within operating activities in the statement of cash flows. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The Update is effective for public entities for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company anticipates adopting the Update on January 1, 2019. Upon adoption of the guidance, the Company expects to report increased assets and increased liabilities on its Condensed Consolidated Statements of Financial Condition as a result of recognizing right-of-use assets and lease liabilities related to certain banking offices and certain equipment under noncancelable operating lease agreements, which currently are not reflected in its Condensed Consolidated Statements of Financial Condition. During 2017, management developed its methodology to estimate the right-of use assets and lease liabilities. The Company anticipates electing an exclusion accounting policy for lease assets and lease liabilities for leases with a term of twelve months or less. The Company was committed to \$13.7 million of minimum lease payments under noncancelable operating lease agreements at June 30, 2018. The Company does not expect the adoption of this Update will have a significant impact to its Condensed Consolidated Financial Statements.

FASB ASU 2016-13, Financial Instruments: Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, was issued in June 2016. Commonly referred to as the current expected credit loss model ("CECL"), this Update requires financial assets measured at amortized cost basis to be presented at the net amount expected to be collected. The allowance for credit losses is a valuation account that is deducted from the amortized cost basis of the financial asset to present the net carrying value at the amount expected to be collected on the financial asset. The measurement of expected credit losses is based on relevant information about past events including historical experience, current conditions and reasonable and supportable forecasts that affect the collectibility of the reported amount. The amendment affects loans, debt securities, trade receivables, net investments in leases, off-balance-sheet credit exposures, reinsurance receivables and any other financial asset not excluded from the scope that have the contractual right to receive cash. The Update replaces the incurred loss impairment methodology, which generally only considered past events and current conditions, with a methodology that reflects the expected credit losses and required consideration of a broader range of reasonable and supportable information to estimate all expected credit losses. The Update additionally addresses purchased assets and introduces the purchased financial asset with a more-than-insignificant amount of credit deterioration since origination ("PCD"). The accounting for these PCD assets is similar to the existing accounting guidance of FASB ASC 310-30, Loans and Debt Securities Acquired with Deteriorated Credit Quality, for PCI assets, except the subsequent improvements in estimated cash flows will be immediately recognized into income, similar to the immediate recognition of subsequent deteriorations in cash flows. Current guidance only allows for the prospective recognition of these cash flow improvements. Because the terminology has been changed to a "more-than-insignificant" amount of credit deterioration, the presumption is that more assets might qualify for this accounting under the Update than those under current guidance. For public business entities, the Update is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years with early adoption permitted for fiscal years after December 15, 2018. An entity will apply the Update through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in

which the guidance is adopted. A prospective transition approach is required for debt securities. An entity that has previously applied the guidance of FASB ASC 310-30 will prospectively apply the guidance in this Update for PCD assets. A prospective transition approach should be used for PCD assets where upon adoption, the amortized cost basis should be adjusted to reflect the addition of the allowance for credit losses. The Company is anticipating adopting the Update on January 1, 2020. Upon adoption, the Company expects a change in the processes, internal controls and procedures to calculate the allowance for loan losses, including changes in assumptions and estimates to consider expected credit losses over the life of the loan versus the current accounting practice that utilizes the incurred loss model. The new guidance may result in an increase in the allowance for loan losses which will also reflect the new requirement to include the nonaccretable principal differences on PCI loans; however, the Company is still in the process of determining the magnitude of the increase and its impact on the Condensed Consolidated Financial Statements. In addition, the current

Table of Contents

accounting policy and procedures for other-than-temporary impairment on investment securities available for sale will be replaced with an allowance approach. During 2017, the Company's management created a CECL steering committee which has begun developing and implementing processes and procedures to ensure it is fully compliant with the amendments at the adoption date. To date, the CECL steering committee has selected a vendor to assist the Company in the adoption and has completed the implementation discovery sessions. The CECL steering committee is in the process of selecting appropriate methodologies and refining key data points in an effort to complete a mock CECL model by fourth quarter 2018.

FASB ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments, was issued in August 2016. The Update addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice. For public business entities, the guidance was effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years, and must be applied using a retrospective transitional method to each period presented. The Company adopted this Update on January 1, 2018. The adoption did not have a significant impact on its Condensed Consolidated Financial Statements as cash proceeds received from the settlement of bank-owned life insurance policies and cash payments for premiums on bank-owned life insurance policies were previously classified as cash inflows and outflows, respectively, from investing activities in the Condensed Consolidated Statements of Cash Flows.

FASB ASU 2017-04, Goodwill (Topic 350), was issued in January 2017 and eliminates Step 2 from the goodwill impairment test. Under the amendments, an entity should perform its goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. The loss recognized, however, should not exceed the total amount of goodwill allocated to that reporting unit. Additionally, an entity should consider income tax effects from any tax deductible goodwill on the carrying amount of the reporting unit when measuring the goodwill impairment loss, if applicable. The Update is effective for annual periods or any interim goodwill impairment tests beginning after December 15, 2019 using a prospective transition method and early adoption is permitted. The Company does not expect the Update will have a material impact on its Condensed Consolidated Financial Statements.

FASB ASU 2017-08, Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities was issued in March 2017 and changes the accounting for certain purchased callable debt securities held at a premium to shorten the amortization period for the premium to the earliest call date rather than to the maturity date. Accounting for purchased callable debt securities held at a discount does not change. The discount would continue to amortize to the maturity date. The Update is effective for reporting periods beginning after December 15, 2018, with early adoption permitted. The Company adopted this Update in January 2018. The adoption did not have a material impact on its Condensed Consolidated Financial Statements as the Company had been accounting for premiums as prescribed under this guidance.

FASB ASU 2017-09, Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting was issued in May 2017 to provide clarity as to when to apply modification accounting when there is a change in the terms or conditions of a share-based payment award. According to this Update, an entity should account for the effects of a modification unless the fair value, vesting conditions and balance sheet classification of the award is the same after the modification as compared to the original award prior to the modification. The Update was effective for reporting periods beginning after December 15, 2017. The Company adopted the Update on January 1, 2018. The adoption did not have a material impact on its Condensed Consolidated Financial Statements because no share-based payment award was modified during the six months ended June 30, 2018. The Company will apply this Update prospectively for any subsequent modifications of share-based payment awards.

FASB ASU 2018-02, Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income was issued to address the income tax accounting treatment of the stranded tax effects within other comprehensive income due to the prohibition of backward tracing due to an income tax rate change that was initially recorded in other comprehensive income. This issue came about from the enactment of the Tax Cuts and Jobs Act on December 22, 2017 ("Tax Cuts and Jobs Act") that changed the

Company's income tax rate from 35% to 21%. The Update changed current accounting whereby an entity may elect to reclassify the stranded tax effect from accumulated other comprehensive income to retained earnings. The Update is effective for periods beginning after December 15, 2018 although early adoption is permitted. The Company early adopted ASU 2018-02 effective December 31, 2017 and elected a portfolio policy to reclassify the stranded tax effects of the change in the federal corporate tax rate of the net unrealized gains on our available-for-sale investment securities from accumulated other comprehensive loss, net to retained earnings.

FASB ASU 2018-05, Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118 was issued to provide guidance on the income tax accounting implications of the Tax Cuts and Jobs Act, and allows for entities to report provisional amounts for specific income tax effects of the Tax Cuts and

Table of Contents

Jobs Act for which the accounting under ASC Topic 740 was not yet complete but a reasonable estimate could be determined. A measurement period of one-year is allowed to complete the accounting effects under ASC Topic 740 and revise any previous estimates reported. Any provisional amounts or subsequent adjustments included in an entity's financial statements during the measurement period should be included in income from continuing operations as an adjustment to tax expense in the reporting period the amounts are determined. The Company adopted this Update with the provisional adjustments as reported in the Consolidated Financial Statements on Form 10-K as of December 31, 2017. As of June 30, 2018, the Company did not incur any adjustments to the provisional recognition.

(2) Business Combination

On July 26, 2017, the Company, along with the Bank, and Puget Sound Bancorp, Inc. and its wholly owned subsidiary bank, Puget Sound Bank, jointly announced the signing of a definitive agreement. The Puget Sound Merger was effective on January 16, 2018. As of the acquisition date, Puget Sound merged into Heritage and Puget Sound Bank merged into Heritage Bank. The primary reason for the transaction was to create depth in the Company's geographic footprint consistent with its ongoing growth strategy, focused heavily on metro markets, and to achieve operational scale and realize efficiencies of a larger combined organization.

Pursuant to the terms of the definitive agreement, all outstanding Puget Sound restricted stock awards became immediately vested prior to the Puget Sound Merger and Puget Sound shareholders received 1.1688 shares of Heritage common stock per share of Puget Sound stock. Heritage issued an aggregate of 4,112,258 shares of its common stock based on the January 12, 2018 closing price of Heritage Common stock of \$31.80 for total fair value of common shares issued of \$130.8 million and paid cash of \$3,000 for fractional shares in the transaction for total consideration paid of \$130.8 million. Total consideration includes \$851,000 representing 26,741 shares which were forfeited by the Puget Sound shareholders to pay applicable taxes.

The Puget Sound Merger resulted in \$68.5 million of goodwill. This goodwill is not deductible for tax purposes. The Puget Sound Merger constitutes a business acquisition as defined by FASB ASC 805, Business Combinations. FASB ASC 805 establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired and the liabilities assumed. Heritage was considered the acquirer in this transaction. Accordingly, the preliminary estimates of fair values of the Puget Sound assets, including the identifiable intangible assets, and the assumed liabilities in the Puget Sound Merger were measured and recorded as of January 16, 2018. Fair values on the acquisition date are preliminary and represent management's best estimates based on available information and facts and circumstances in existence on the acquisition date. Fair values are subject to refinement for up to one year after the closing date of the acquisition as additional information regarding the closing date fair values becomes available. The Company expects to finalize the purchase price allocation by the third quarter of 2018 when the valuation of tax-related matters is complete.

Table of Contents

The preliminary fair value estimates of the assets acquired and liabilities assumed in the Puget Sound Merger were as follows:

	Puget Sound Merger (In thousands)
Assets	
Cash and cash equivalents	\$ 25,889
Interest earning deposits	54,247
Investment securities available for sale	80,353
Loans receivable	388,462
Premises and equipment, net	732
Federal Home Loan Bank stock, at cost	623
Bank owned life insurance	6,264
Accrued interest receivable	1,448
Prepaid expenses and other assets	1,354
Other intangible assets	11,270
Total assets acquired	\$ 570,642
Liabilities	
Deposits	\$ 505,885
Accrued expenses and other liabilities	2,504
Total liabilities acquired	\$ 508,389
Fair value of net assets acquired	\$ 62,253

A summary of the net assets purchased and the preliminary estimated fair value adjustments and resulting goodwill recognized from the Puget Sound Merger are presented in the following tables. Goodwill represents the excess of the consideration transferred over the estimated fair value of the net assets acquired and liabilities assumed.

	Puget Sound Merger (In thousands)
Cost basis of net assets on merger date	\$ 54,405
Consideration transferred	(130,773 )
Fair value adjustments:	
Investment securities	(348 )
Total loans receivable, net	1,400
Premises and equipment	(121 )
Other intangible assets	9,207
Prepaid expenses and other assets	(2,282 )
Deposits	(62 )
Accrued expenses and other liabilities	54
Goodwill recognized from the Puget Sound Merger	\$ (68,520 )

Table of Contents

The operating results of the Company for the three and six months ended June 30, 2018 include the operating results produced by the net assets acquired in the Puget Sound Merger since the January 16, 2018 merger date. The Company has considered the requirement of FASB ASC 805 related to the contribution of the Puget Sound Merger to the Company's results of operations. The table below presents only the significant results for the acquired business since the January 16, 2018 merger date:

	Three Months Ended <sup>(1)</sup> June 30, 2018 (In thousands)	Six Months Ended <sup>(1)</sup>
Interest income: Interest and fees on loans <sup>(2)</sup>	\$6,130	\$10,647
Interest income: Interest and fees on investments <sup>(3)</sup>	—	59
Interest income: Other interest earning assets	25	113
Interest expense	(180 )	(324 )
Provision for loan losses for loans	(350 )	(550 )
Noninterest income	109	257
Noninterest expense <sup>(4)</sup>	(2,092 )	(7,672 )
Net effect, pre-tax	\$3,642	\$2,530

<sup>(1)</sup> The Puget Sound Merger was completed on January 16, 2018.

<sup>(2)</sup> Includes the accretion of the discount on the purchased loans of \$1.1 million and \$1.5 million during the three and six months ended June 30, 2018, respectively.

<sup>(3)</sup> All securities were sold with trade date of January 16, 2018 and settlement dates on or before February 14, 2018.

<sup>(4)</sup> Excludes certain compensation and employee benefits for management as it is impracticable to determine due to the integration of the operations for this merger. Also includes certain merger-related costs incurred by the Company. The Company also considered the pro forma requirements of FASB ASC 805 and deemed it not necessary to provide pro forma financial statements as required under the standard as the Puget Sound Merger is not material to the Company. The Company believes that the historical Puget Sound operating results are not considered of enough significance to be meaningful to the Company's results of operations.

During the three and six months ended June 30, 2018, the Company incurred acquisition-related costs of approximately \$551,000 and \$5.0 million, respectively, related to the Puget Sound Merger.

**(3) Investment Securities**

As a result of the adoption of ASU 2016-01 on January 1, 2018, equity investments (except for investments accounted for under the equity method of accounting) are now measured at fair value, with changes in fair value recognized in earnings. These investments were previously measured at fair value, with changes in fair value recognized in accumulated other comprehensive loss. Accordingly, these securities are no longer classified as investment securities available-for-sale and their presentation is not comparable to the presentation as of December 31, 2017. See Note (1) Description of Business, Basis of Presentation, Significant Accounting Policies and Recently Issued Accounting Pronouncements, as well as Equity Securities section discussed below.

Table of Contents

## Available for sale investment securities

## (a) Securities by Type and Maturity

The amortized cost, gross unrealized gains, gross unrealized losses and fair values of investment securities available for sale at the dates indicated were as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	(In thousands)			
June 30, 2018				
U.S. Treasury and U.S. Government-sponsored agencies	\$52,256	\$ 42	\$(234)	\$52,064
Municipal securities	202,918	1,366	(1,262)	203,022
Mortgage-backed securities and collateralized mortgage obligations <sup>(1)</sup> :				
Residential	319,492	352	(7,722)	312,122
Commercial	257,858	141	(7,778)	250,221
Collateralized loan obligations	2,253	3	—	2,256
Corporate obligations	25,617	153	(80)	25,690
Other asset-backed securities	27,603	692	—	28,295
Total	\$887,997	\$ 2,749	\$(17,076)	\$873,670
December 31, 2017				
U.S. Treasury and U.S. Government-sponsored agencies	\$13,460	\$ 6	\$(24)	\$13,442

Total	\$420,762	\$(7,867)	\$196,616	\$(9,209)	\$617,378	\$(17,076)
December 31, 2017						
U.S. Treasury and U.S. Government-sponsored agencies	\$11,436	\$(24)	\$—	\$—	\$11,436	\$(24)
Municipal securities	39,298	(384)	26,509	(679)	65,807	(1,063)
Mortgage-backed securities and collateralized mortgage obligations <sup>(1)</sup> :						
Residential	175,847	(1,296)	66,380	(1,639)	242,227	(2,935)
Commercial	75,121	(700)	90,822	(2,361)	165,943	(3,061)
Corporate obligations	3,472	(44)	—	—	3,472	(44)
Total	\$305,174	\$(2,448)	\$183,711	\$(4,679)	\$488,885	\$(7,127)

<sup>(1)</sup> Issued and guaranteed by U.S. Government-sponsored agencies.

The Company has evaluated these investment securities available for sale as of June 30, 2018 and December 31, 2017 and has determined that the decline in their value is not other-than-temporary. The unrealized losses are primarily due to increases in market interest rates. The fair value of these securities is expected to recover as the securities approach their maturity date. None of the underlying issuers of the municipal securities and corporate obligations had credit ratings that were below investment grade levels at June 30, 2018 or December 31, 2017. The Company has the ability and intent to hold the investments until recovery of the securities' amortized cost, which may be the maturity date of the securities.

For the three and six months ended June 30, 2018 and 2017, there were no other-than-temporary charges recorded to net income.

Table of Contents

## (c) Realized Gains and Losses

The following table presents the gross realized gains and losses on the sale of securities available for sale for the three and six months ended June 30, 2018 and 2017.

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017	
	2018	2017	2018	2017
	(In thousands)			
Gross realized gains	\$18	\$117	\$122	\$117
Gross realized losses	—	—	(69)	—
Net realized gains	\$18	\$117	\$53	\$117

## (d) Pledged Securities

The following table summarizes the amortized cost and fair value of investment securities available for sale that are pledged as collateral for the following obligations at June 30, 2018 and December 31, 2017:

	June 30, 2018		December 31, 2017	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
	(In thousands)			
Washington and Oregon state to secure public deposits	\$197,047	\$193,946	\$206,377	\$206,425
Repurchase agreements	45,463	44,207	48,750	48,237
Other securities pledged	20,048	19,742	12,484	12,498
Total	\$262,558	\$257,895	\$267,611	\$267,160

## Equity Securities

The Company holds an equity security with a readily determinable fair value of \$162,000 and \$146,000 as of June 30, 2018 and December 31, 2017, respectively. As a result of the adoption of ASU 2016-01, this security is no longer classified as investment security available for sale and has been reclassified to prepaid expenses and other assets on the Company's Condensed Consolidated Statements of Financial Condition as of June 30, 2018. As such, its presentation is not comparable to the presentation as of December 31, 2017. The Company recorded the tax-effected unrealized gain on the equity security through an adjustment to accumulated other comprehensive loss, net and retained earnings in the Condensed Consolidated Statement of Stockholders' Equity during the six months ended June 30, 2018.

## (4) Loans Receivable

The Company originates loans in the ordinary course of business and has also acquired loans through FDIC-assisted and open bank transactions. Disclosures related to the Company's recorded investment in loans receivable generally exclude accrued interest receivable and net deferred fees or costs because they are insignificant.

Loans acquired in a business combination are further classified as "purchased" loans. Loans purchased with evidence of credit deterioration since origination for which it is probable that not all contractually required payments will be collected are accounted for under FASB ASC 310-30, Loans and Debt Securities Acquired with Deteriorated Credit Quality. These loans are identified as "PCI" loans. Loans purchased that are not accounted for under FASB ASC 310-30 are accounted for under FASB ASC 310-20, Receivables—Nonrefundable Fees and Other Costs, and are referred to as "non-PCI" loans.

Table of Contents

(a) Loan Origination/Risk Management

The Company categorizes loans in one of the four segments of the total loan portfolio: commercial business, one-to-four family residential, real estate construction and land development and consumer. Within these segments are classes of loans for which management monitors and assesses credit risk in the loan portfolios. The Company has certain lending policies and procedures in place that are designed to maximize loan income within an acceptable level of risk. Management reviews and approves these policies and procedures on a regular basis. A reporting system supplements the review process by providing management with frequent reports related to loan production, loan quality, concentrations of credit, loan delinquencies and nonperforming and criticized loans. The Company also conducts internal loan reviews and validates the credit risk assessment on a periodic basis and presents the results of these reviews to management. The loan review process complements and reinforces the risk identification and assessment decisions made by loan officers and credit personnel, as well as the Company's policies and procedures. A discussion of the risk characteristics of each loan portfolio segment is as follows:

Commercial Business:

There are three significant classes of loans in the commercial business portfolio segment: commercial and industrial, owner-occupied commercial real estate and non-owner occupied commercial real estate. The owner and non-owner occupied commercial real estate classes are both considered commercial real estate loans. As the commercial and industrial loans carry different risk characteristics than the commercial real estate loans, they are discussed separately below.

Commercial and industrial. Commercial and industrial loans are primarily made based on the identified cash flows of the borrower and secondarily on the underlying collateral provided by the borrower. The cash flows of borrowers, however, may not be as expected and the collateral securing these loans may fluctuate in value. Most commercial and industrial loans are secured by the assets being financed or other business assets such as accounts receivable or inventory and may include a personal guarantee; however, some short-term loans may be made on an unsecured basis. In the case of loans secured by accounts receivable, the availability of funds for the repayment of these loans may be substantially dependent on the ability of the borrower to collect amounts due from its customers. Commercial and industrial loans carry more risk than other loans because the borrowers' cash flow is less predictable, and in the event of a default, the amount of loss is potentially greater and more difficult to quantify because the value of the collateral securing these loans may fluctuate, may be uncollectible, or may be obsolete or of limited use, among other things. Commercial real estate. The Company originates commercial real estate loans primarily within its primary market areas. These loans are subject to underwriting standards and processes similar to commercial and industrial loans in that these loans are viewed primarily as cash flow loans and secondarily as loans secured by real estate properties. Commercial real estate lending typically involves higher loan principal amounts and payments on loans, and repayment is dependent on successful operation and management of the properties. The value of the real estate securing these loans can be adversely affected by conditions in the real estate market or the economy. There is little difference in risk between owner-occupied commercial real estate loans and non-owner occupied commercial real estate loans.

One-to-Four Family Residential:

The majority of the Company's one-to-four family residential loans are secured by single-family residences located in its primary market areas. The Company's underwriting standards require that single-family portfolio loans generally are owner-occupied and do not exceed 80% of the lower of appraised value at origination or cost of the underlying collateral. Terms of maturity typically range from 15 to 30 years. The Company sells most of its single-family loans in the secondary market and retains a smaller portion in its loan portfolio.

Real Estate Construction and Land Development:

The Company originates construction loans for one-to-four family residential and for five or more family residential and commercial properties. The one-to-four family residential construction loans generally include construction of custom homes whereby the home buyer is the borrower. The Company also provides financing to builders for the construction of pre-sold homes and, in selected cases, to builders for the construction of speculative residential property. Substantially all construction loans are short-term in nature and priced with variable rates of interest.

Construction lending can involve a higher level of risk than other types of lending because funds are advanced partially based upon the value of the project, which is uncertain prior to the project's completion. Because of the uncertainties inherent in estimating construction costs as well as the market value of a completed project and the effects of governmental regulation of real property, the Company's estimates with regard to the total funds required to complete a project and the related loan-to-value ratio may vary from actual results. As a result, construction loans often

20

---

Table of Contents

involve the disbursement of substantial funds with repayment dependent, in part, on the success of the ultimate project and the ability of the borrower to sell or lease the property or refinance the indebtedness. If the Company's estimate of the value of a project at completion proves to be overstated, it may have inadequate security for repayment of the loan and may incur a loss if the borrower does not repay the loan. Sources of repayment for these types of loans may be pre-committed permanent loans from approved long-term lenders, sales of developed property or an interim loan commitment from the Company until permanent financing is obtained. These loans are closely monitored by on-site inspections and are considered to have higher risks than other real estate loans due to their ultimate repayment being dependent upon successful completion of the construction project, interest rate changes, government regulation of real property, general economic conditions and the availability of long-term financing.

**Consumer:**

The Company originates consumer loans and lines of credit that are both secured and unsecured. The underwriting process for these loans ensures a qualifying primary and secondary source of repayment. Underwriting standards for home equity loans are significantly influenced by statutory requirements, which include, but are not limited to, a maximum loan-to-value percentage of 80%, collection remedies, the number of such loans a borrower can have at one time and documentation requirements. To monitor and manage consumer loan risk, policies and procedures are developed and modified, as needed. The majority of consumer loans are for relatively small amounts disbursed among many individual borrowers which reduces the credit risk for this type of loan. To further reduce the risk, trend reports are reviewed by management on a regular basis.

The Company also originates indirect consumer loans. These loans are for new and used automobile and recreational vehicles that are originated indirectly by selected dealers located in the Company's market areas. The Company has limited its purchase of indirect loans primarily to dealerships that are established and well-known in their market areas and to applicants that are not classified as sub-prime.

Loans receivable at June 30, 2018 and December 31, 2017 consisted of the following portfolio segments and classes:

	June 30, 2018	December 31, 2017
	(In thousands)	
Commercial business:		
Commercial and industrial	\$ 800,043	\$ 645,396
Owner-occupied commercial real estate	693,330	622,150
Non-owner occupied commercial real estate	1,187,548	986,594
Total commercial business	2,680,921	2,254,140
One-to-four family residential	92,518	86,997
Real estate construction and land development:		
One-to-four family residential	71,934	51,985
Five or more family residential and commercial properties	93,315	97,499
Total real estate construction and land development	165,249	149,484
Consumer	385,987	355,091
Gross loans receivable	3,324,675	2,845,712
Net deferred loan costs	3,613	3,359
Loans receivable, net	3,328,288	2,849,071
Allowance for loan losses	(33,972 )	(32,086 )
Total loans receivable, net	\$ 3,294,316	\$ 2,816,985

**(b) Concentrations of Credit**

Most of the Company's lending activity occurs within its primary market areas which are concentrated along the I-5 corridor from Whatcom County to Clark County in Washington State and Multnomah County in Oregon, as well as other contiguous markets. The majority of the Company's loan portfolio consists of (in order of balances at June 30, 2018) non-owner occupied commercial real estate, commercial and industrial and owner-occupied commercial real estate. As of June 30, 2018 and December 31, 2017, there were no concentrations of loans related to any single

industry in excess of 10% of the Company's total loans.

Table of Contents

## (c) Credit Quality Indicators

As part of the on-going monitoring of the credit quality of the Company's loan portfolio, management tracks certain credit quality indicators including trends related to (i) the risk grade of the loans, (ii) the level of classified loans, (iii) net charge-offs, (iv) nonperforming loans and (v) the general economic conditions of the United States of America, and specifically the states of Washington and Oregon. The Company utilizes a risk grading matrix to assign a risk grade to each of its loans. Loans are graded on a scale of 1 to 10. A description of the general characteristics of the risk grades is as follows:

Grades 1 to 5: These grades are considered "pass grade" and include loans with negligible to above average but acceptable risk. These borrowers generally have strong to acceptable capital levels and consistent earnings and debt service capacity. Loans with the higher grades within the "pass" category may include borrowers who are experiencing unusual operating difficulties, but have acceptable payment performance to date. Increased monitoring of financial information and/or collateral may be appropriate. Loans with this grade show no immediate loss exposure.

Grade 6: This grade includes "Watch" loans and is considered a "pass grade". The grade is intended to be utilized on a temporary basis for pass grade borrowers where a potentially significant risk-modifying action is anticipated in the near term.

Grade 7: This grade includes "Other Assets Especially Mentioned" ("OAEM") loans in accordance with regulatory guidelines and is intended to highlight loans with elevated risks. Loans with this grade show signs of deteriorating profits and capital, and the borrower might not be strong enough to sustain a major setback. The borrower is typically higher than normally leveraged, and outside support might be modest and likely illiquid. The loan is at risk of further decline unless active measures are taken to correct the situation.

Grade 8: This grade includes "Substandard" loans in accordance with regulatory guidelines, which the Company has determined have a high credit risk. These loans also have well-defined weaknesses which make payment default or principal exposure likely, but not yet certain. The borrower may have shown serious negative trends in financial ratios and performance. Such loans may be dependent upon collateral liquidation, a secondary source of repayment or an event outside of the normal course of business. Loans with this grade can be placed on accrual or nonaccrual status based on the Company's accrual policy.

Grade 9: This grade includes "Doubtful" loans in accordance with regulatory guidelines, and the Company has determined these loans to have excessive credit risk. Such loans are placed on nonaccrual status and may be dependent upon collateral having a value that is difficult to determine or upon some near-term event which lacks certainty. Additionally, these loans generally have a specific valuation allowance or have been partially charged-off for the amount considered uncollectible.

Grade 10: This grade includes "Loss" loans in accordance with regulatory guidelines, and the Company has determined these loans have the highest risk of loss. Such loans are charged-off or charged-down when payment is acknowledged to be uncertain or when the timing or value of payments cannot be determined. "Loss" is not intended to imply that the loan or some portion of it will never be paid, nor does it in any way imply that there has been a forgiveness of debt. Numerical loan grades for loans are established at the origination of the loan. Loan grades are reviewed on a quarterly basis, or more frequently if necessary, by the credit department. The Bank follows the FDIC's Uniform Retail Credit Classification and Account Management Policy for subsequent classification in the event of payment delinquencies or default. Typically, an individual loan grade will not be changed from the prior period unless there is a specific indication of credit deterioration or improvement. Credit deterioration is evidenced by delinquency, direct communications with the borrower, or other borrower information that becomes known to management. Credit improvements are evidenced by known facts regarding the borrower or the collateral property.

The loan grades relate to the likelihood of losses in that the higher the grade, the greater the loss potential. Loans with a pass grade may have some estimated inherent losses, but to a lesser extent than the other loan grades. The OAEM loan grade is transitory in that the Company is waiting on additional information to determine the likelihood and extent of the potential loss. The likelihood of loss for OAEM graded loans, however, is greater than Watch graded loans because there has been measurable credit deterioration. Loans with a Substandard grade are generally loans for which the Company has individually analyzed for potential impairment. For Doubtful and Loss graded loans, the

Company is almost certain of the losses, and the outstanding principal balances are generally charged-off to the realizable value.

Table of Contents

The following tables present the balance of the loans receivable by credit quality indicator as of June 30, 2018 and December 31, 2017.

	June 30, 2018				
	Pass	OAEM	Substandard	Doubtful/Loss	Total
	(In thousands)				
Commercial business:					
Commercial and industrial	\$731,265	\$23,559	\$ 45,219	\$ —	\$800,043
Owner-occupied commercial real estate	656,991	16,402	19,937	—	693,330
Non-owner occupied commercial real estate	1,161,596	10,972	14,980	—	1,187,548
Total commercial business	2,549,852	50,933	80,136	—	2,680,921
One-to-four family residential	91,264	—	1,254	—	92,518
Real estate construction and land development:					
One-to-four family residential	70,499	267	1,168	—	71,934
Five or more family residential and commercial properties	93,258	57	—	—	93,315
Total real estate construction and land development	163,757	324	1,168	—	165,249
Consumer	381,341	—	4,121	525	385,987
Gross loans receivable	\$3,186,214	\$51,257	\$ 86,679	\$ 525	\$3,324,675
	December 31, 2017				
	Pass	OAEM	Substandard	Doubtful/Loss	Total
	(In thousands)				
Commercial business:					
Commercial and industrial	\$597,697	\$19,536	\$ 28,163	\$ —	\$645,396
Owner-occupied commercial real estate	595,455	12,668	14,027	—	622,150
Non-owner occupied commercial real estate	955,450	10,494	20,650	—	986,594
Total commercial business	2,148,602	42,698	62,840	—	2,254,140
One-to-four family residential	85,762	—	1,235	—	86,997
Real estate construction and land development:					
One-to-four family residential	49,925	537	1,523	—	51,985
Five or more family residential and commercial properties	96,404	707	388	—	97,499
Total real estate construction and land development	146,329	1,244	1,911	—	149,484
Consumer	349,590	—	4,976	525	355,091
Gross loans receivable	\$2,730,283	\$43,942	\$ 70,962	\$ 525	\$2,845,712

Potential problem loans are loans classified as OAEM or worse that are currently accruing interest and are not considered impaired, but which management is monitoring because the financial information of the borrower causes concern as to their ability to meet their loan repayment terms. Potential problem loans may include PCI loans as these loans continue to accrete loan discounts established at acquisition based on the guidance of FASB ASC 310-30. Potential problem loans as of June 30, 2018 and December 31, 2017 were \$101.5 million and \$83.5 million, respectively.

Table of Contents

## (d) Nonaccrual Loans

Nonaccrual loans, segregated by segments and classes of loans, were as follows as of June 30, 2018 and December 31, 2017:

	June 30, December 31, 2018 2017 (In thousands)	
Commercial business:		
Commercial and industrial	\$8,376	\$ 3,110
Owner-occupied commercial real estate	4,690	4,090
Non-owner occupied commercial real estate	2,169	1,898
Total commercial business	15,235	9,098
One-to-four family residential	77	81
Real estate construction and land development:		
One-to-four family residential	1,084	1,247
Consumer	127	277
Nonaccrual loans	\$16,523	\$ 10,703

PCI loans are not included in the nonaccrual loan table above because these loans are accounted for under FASB ASC 310-30, which provides that accretable yield is calculated based on a loan's expected cash flow even if the loan is not performing under its contractual terms.

## (e) Past due loans

The Company performs an aging analysis of past due loans using the categories of 30-89 days past due and 90 or more days past due. This policy is consistent with regulatory reporting requirements.

The balances of past due loans, segregated by segments and classes of loans, as of June 30, 2018 and December 31, 2017 were as follows:

	June 30, 2018		Total Past Due	Current	Total
	30-89 Days	90 Days or Greater			
	(In thousands)				
Commercial business:					
Commercial and industrial	\$3,719	\$ 4,122	\$ 7,841	\$792,202	\$800,043
Owner-occupied commercial real estate	129	868	997	692,333	693,330
Non-owner occupied commercial real estate	1,501	3,238	4,739	1,182,809	1,187,548
Total commercial business	5,349	8,228	13,577	2,667,344	2,680,921
One-to-four family residential	—	—	—	92,518	92,518
Real estate construction and land development:					
One-to-four family residential	—	309	309	71,625	71,934
Five or more family residential and commercial properties	—	—	—	93,315	93,315
Total real estate construction and land development	—	309	309	164,940	165,249
Consumer	1,634	53	1,687	384,300	385,987
Gross loans receivable	\$6,983	\$ 8,590	\$ 15,573	\$3,309,102	\$3,324,675

Table of Contents

	December 31, 2017		Total Past Due	Current	Total
	30-89 Days	90 Days or Greater			
	(In thousands)				
Commercial business:					
Commercial and industrial	\$2,993	\$ 1,172	\$ 4,165	\$641,231	\$645,396
Owner-occupied commercial real estate	1,277	1,225	2,502	619,648	622,150
Non-owner occupied commercial real estate	870	3,314	4,184	982,410	986,594
Total commercial business	5,140	5,711	10,851	2,243,289	2,254,140
One-to-four family residential	513	—	513	86,484	86,997
Real estate construction and land development:					
One-to-four family residential	84	1,331	1,415	50,570	51,985
Five or more family residential and commercial properties	40	—	40	97,459	97,499
Total real estate construction and land development	124	1,331	1,455	148,029	149,484
Consumer	1,939	687	2,626	352,465	355,091
Gross loans receivable	\$7,716	\$ 7,729	\$ 15,445	\$2,830,267	\$2,845,712

There were no loans 90 days or more past due that were still accruing interest as of June 30, 2018 or December 31, 2017, excluding PCI loans.

## (f) Impaired loans

Impaired loans include nonaccrual loans and performing troubled debt restructured ("TDR") loans. The balances of impaired loans as of June 30, 2018 and December 31, 2017 are set forth in the following tables.

	June 30, 2018		Total Recorded Investment	Unpaid Contractual Principal Balance	Related Specific Valuation Allowance
	Recorded Investment With No Specific Valuation Allowance	Recorded Investment With Specific Valuation Allowance			
	(In thousands)				
Commercial business:					
Commercial and industrial	\$5,716	\$ 12,238	\$ 17,954	\$ 18,825	\$ 1,706
Owner-occupied commercial real estate	930	11,254	12,184	12,493	1,724
Non-owner occupied commercial real estate	4,662	5,923	10,585	10,558	784
Total commercial business	11,308	29,415	40,723	41,876	4,214

Consumer	160	282	442	466	54
Total	\$10,399	\$ 27,060	\$ 37,459	\$ 39,334	\$ 3,355

The average recorded investment of impaired loans for the three and six months ended June 30, 2018 and 2017 are set forth in the following table.

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017	
(In thousands)				
Commercial business:				
Commercial and industrial	\$17,299	\$6,925	\$15,534	\$8,742
Owner-occupied commercial real estate	12,643	3,278	12,622	3,760
Non-owner occupied commercial real estate	10,426	11,252	10,366	11,274
Total commercial business	40,368	21,455	38,522	23,776
One-to-four family residential	293	312	295	315
Real estate construction and land development:				
One-to-four family residential	1,116	2,636	1,159	2,781
Five or more family residential and commercial properties	—	1,067	215	1,070
Total real estate construction and land development	1,116	3,703	1,374	3,851
Consumer	381	235	401	260
Total	\$42,158	\$25,705	\$40,592	\$28,202

For the three and six months ended June 30, 2018 and 2017, no interest income was recognized subsequent to a loan's classification as nonaccrual. For the three and six months ended June 30, 2018, the Bank recorded \$360,000 and \$686,000, respectively, of interest income related to performing TDR loans. For the three and six months ended June 30, 2017, the Bank recorded \$281,000 and \$646,000, respectively, of interest income related to performing TDR loans.

Table of Contents

## (g) Troubled Debt Restructured Loans

A TDR loan is a restructuring in which the Bank, for economic or legal reasons related to a borrower's financial difficulties, grants a concession to the borrower that it would not otherwise consider. TDR loans are considered impaired and are separately measured for impairment under FASB ASC 310-10-35, whether on accrual ("performing") or nonaccrual ("nonperforming") status. The Company has more stringent definitions of concessions and impairment measures for PCI loans as these loans have known credit deterioration and are generally accreting income at a lower discounted rate as compared to the contractual note rate based on the guidance of FASB ASC 310-30.

The majority of the Bank's TDR loans are a result of granting extensions of maturity on troubled credits which have already been adversely classified. The Bank grants such extensions to reassess the borrower's financial status and to develop a plan for repayment. The second most prevalent concessions are certain modifications with extensions that also include interest rate reductions. Certain TDR loans were additionally re-amortized over a longer period of time. These modifications would all be considered a concession for a borrower that could not obtain similar financing terms from another source other than from the Bank.

The financial effects of each modification will vary based on the specific restructure. For the majority of the Bank's TDR loans, the loans were interest-only with a balloon payment at maturity. If the interest rate is not adjusted and the modified terms are consistent with other similar credits being offered, the Bank may not experience any loss associated with the restructure. If, however, the restructure involves forbearance agreements or interest rate modifications, the Bank may not collect all the principal and interest based on the original contractual terms. The Bank estimates the necessary allowance for loan losses on TDR loans using the same guidance as used for other impaired loans.

The recorded investment balance and related allowance for loan losses of performing and nonaccrual TDR loans as of June 30, 2018 and December 31, 2017 were as follows:

	June 30, 2018		December 31, 2017	
	Performing TDRs	Nonaccrual TDRs	Performing TDRs	Nonaccrual TDRs
	(In thousands)			
TDR loans	\$25,957	\$ 6,761	\$26,757	\$ 5,193
Allowance for loan losses on TDR loans	2,492	726	2,635	379

The unfunded commitment to borrowers related to TDR loans was \$1.0 million and \$1.2 million at June 30, 2018 and December 31, 2017, respectively.

Loans that were modified as TDR loans during the three and six months ended June 30, 2018 and 2017 are set forth in the following table:

	Three Months Ended June 30,			
	2018	2017		
	Number of Contracts	Outstanding Principal Balance (1)(2)	Number of Contracts	Outstanding Principal Balance (1)(2)
	(Dollars in thousands)			
Commercial business:				
Commercial and industrial	9	\$ 2,981	5	\$ 3,439
Owner-occupied commercial real estate	1	570	—	—
Non-owner occupied commercial real estate	—	—	1	947

Total TDR loans	26	\$ 9,250	18	\$ 7,822

Number of contracts and outstanding principal balance represent loans which have balances as of period end as  
 (1) certain loans may have been paid-down or charged-off during the three and six months ended June 30, 2018 and 2017.

Includes subsequent payments after modifications and reflects the balance as of period end. As the Bank did not forgive any principal or interest balance as part of the loan modification, the Bank's recorded investment in each  
 (2) loan at the date of modification (pre-modification) did not change as a result of the modification (post-modification), except when the modification was the initial advance on a one-to-four family residential real estate construction and land development loan under a master guidance line. There were no advances on these types of loans during the three and six months ended June 30, 2018 and 2017.

Certain loans included in the table above may have been previously reported as TDR loans. The Bank typically grants shorter extension periods to continually monitor these TDR loans despite the fact that the extended date might not be the date the Bank expects sufficient cash flow from these borrowers. The Bank does not consider these modifications a subsequent default of a TDR as new loan terms, specifically new maturity dates, were granted. The potential losses related to these loans would have been considered in the period the loan was first reported as a TDR loan and are adjusted, as necessary, in the current period based on more recent information. The related specific valuation allowance at June 30, 2018 was \$738,000 for loans that were modified as TDR loans during the three and six months ended June 30, 2018.

Loans that were modified during the previous twelve months that subsequently defaulted during the three and six months ended June 30, 2018 and 2017 are set forth in the following table:

	Three Months Ended June 30,			
	2018	2017		
	Outstanding Number of Contracts (1)	Outstanding Principal Balance (2)	Outstanding Number of Contracts (1)	Outstanding Principal Balance (2)
	(Dollars in thousands)			
Commercial business:				
Commercial and industrial	4	\$ 2,725	—	\$ —
Total commercial business	4	2,725	—	—
Consumer	—	—	3	36
Total	4	\$ 2,725	3	\$ 36

Consumer	—	3 36
Total	8 \$ 3,854	4 \$ 270

During the three and six months ended June 30, 2018, two loans and six loans, respectively, defaulted because they were past their modified maturity dates, and the borrowers have not subsequently repaid the credits. The Bank has chosen not to extend the maturities on these loans. In addition, during the three and six months ended June 30, 2018, two loans and two loans, respectively, defaulted because the borrowers were more than 90 days delinquent on their scheduled loan payments. The Bank had no specific valuation allowance at June 30, 2018 related to the credits which defaulted during the six months ended June 30, 2018.

During the three and six months ended June 30, 2017, three loans and four loans, respectively, defaulted because the borrowers were more than 90 days delinquent on their scheduled loan payments.

**(h) Purchased Credit Impaired Loans**

The Company acquired certain loans and designated them, as appropriate, as PCI loans, which are accounted for under FASB ASC 310-30. No loans acquired in the Puget Sound Merger effective January 16, 2018 were considered PCI.

Table of Contents

The following table reflects the outstanding principal balance and recorded investment of the PCI loans at June 30, 2018 and December 31, 2017:

	June 30, 2018		December 31, 2017	
	Outstanding	Recorded	Outstanding	Recorded
	Principal Investment		Principal Investment	
	(In thousands)			
Commercial business:				
Commercial and industrial	\$7,307	\$ 3,819	\$8,818	\$ 2,912
Owner-occupied commercial real estate	9,737	8,605	12,230	11,515
Non-owner occupied commercial real estate	12,545	11,033	14,295	13,342
Total commercial business	29,589	23,457	35,343	27,769
One-to-four family residential	3,701	3,833	4,120	5,255
Real estate construction and land development:				
One-to-four family residential	107	391	841	89
Five or more family residential and commercial properties	193	11	2,361	2,035
Total real estate construction and land development	300	402	3,202	2,124
Consumer	2,932	4,160	3,974	5,455
Gross PCI loans	\$36,522	\$ 31,852	\$46,639	\$ 40,603

On the acquisition dates, the amount by which the undiscounted expected cash flows of the PCI loans exceeded the estimated fair value of the loan is the “accretable yield.” The accretable yield is then measured at each financial reporting date and represents the difference between the remaining undiscounted expected cash flows and the current carrying value of the PCI loans.

The following table summarizes the accretable yield on the PCI loans for the three and six months ended June 30, 2018 and 2017.

Three Months Ended June 30, 2018	2017	Six Months Ended June 30, 2018	2017
