An additional 540,000 common shares were issued on February 3, 2003 at \$15.00 per share. On February 13, 2003, the Fund issued 2,441 preferred shares at \$25,000 per share.

### SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Funds in the preparation of their financial statements. These policies are in conformity with generally accepted accounting principles ("GAAP").

#### Investment Valuation

Municipal bonds are valued by an independent pricing service, taking into consideration yield, liquidity, risk, credit quality, coupon, maturity, type of issue and any other factors or market data the pricing service deems relevant. Short-term securities are valued at the prices provided by an independent pricing service. However, short-term securities with remaining maturities of 60 days or less at the time of purchase may be valued at amortized cost, which approximates fair market value. Securities for which no quotations are readily available are valued at fair value as determined in good faith using methods approved by the Board of Trustees (the "Trustees").

## **Investment Income, Expenses and Distributions**

Interest income and expenses are accrued daily. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and paid weekly. The dividend rate for both the Federated Premier Municipal Income Fund and Federated Premier Intermediate Municipal Income Fund at May 31, 2003 was 1.230%. Non-cash dividends included in dividend income, if any, are recorded at fair value.

## **Premium and Discount Amortization**

All premiums and discounts on fixed income securities are amortized/accreted for financial statement purposes.

## **Federal Taxes**

It is the Funds' policy to comply with the Subchapter M provision of the Internal Revenue Code (the "Code") and to distribute to shareholders each year substantially all of their income. Accordingly, no provisions for federal tax are necessary.

## **When-Issued and Delayed Delivery Transactions**

The Funds may engage in when-issued or delayed delivery transactions. The Funds record when-issued securities on the trade date and maintain security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked to market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

## **Restricted Securities**

Restricted securities are securities that may only be resold upon registration under federal securities laws or in transactions exempt from such registration. In some cases, the issuer of restricted securities has agreed to register such securities for resale, at the issuer's expense either upon demand by the Funds or in connection with another registered offering of the securities. Many restricted securities may be resold in the secondary market in transactions exempt from registration. Such restricted securities may be determined to be liquid under criteria established by the Trustees. The Funds will not incur any registration costs upon such resale. The Funds' restricted securities are valued at the price provided by dealers in the secondary market or, if no market prices are available, at the fair value as determined in good faith by the using methods approved by the Trustees.

## **Swap Contracts**

The Funds may enter into swap contracts. A swap is an exchange of cash payments between a Fund and another party, which is based on a specific financial index. The value of the swap is adjusted daily and the change in value is recorded as unrealized appreciation or depreciation. When a swap contract is closed, the Fund recognizes a realized gain or loss. The swap contracts entered into by the Funds are on a forward selling basis. For the period ended May 31, 2003, the Funds had no realized gains on swap contracts.

Risks may arise upon entering into these agreements from the potential inability of the counterparties to meet the terms of their contract and from unanticipated changes in the value of the financial index on which the swap agreement is based. The Funds use swaps for hedging purposes to reduce their exposure interest rate fluctuations.

For the period ended May 31, 2003, the Funds had the following open swap contracts:

<b>Expiration</b>	<b>Notional Principal Amount</b>	<b>Swap Contract Fixed Rate</b>	<b>Current Market Fixed Rate</b>	<b>Unrealized Depreciation</b>

DEPRECIATION

**Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets, liabilities, expenses and revenues reported in the financial statements. Actual results could differ from those estimated.

**Other**

Investment transactions are accounted for on a trade date basis.

**SHARES OF BENEFICIAL INTEREST**

The Declaration of Trust permits the Trustees to authorize an unlimited number of par value common shares (\$0.01 per share).

## INVESTMENT ADVISER FEE AND OTHER TRANSACTIONS WITH AFFILIATES

### Investment Adviser Fee

The Funds have entered into an Investment Management Agreement (the "Agreement") with Federated Investment Management Company (the "Adviser") to serve as investment manager to the Funds. Pursuant to the Agreement, each Fund pays the Adviser an annual management fee, payable daily, at the annual rate of 0.55% of each Fund's managed assets.

In order to reduce fund expenses, the Adviser has contractually agreed to waive a portion of its investment adviser fee at the annual rate of 0.20% of the average daily value of each Fund's managed assets, not inclusive of any assets attributable to any preferred shares that may be issued, from the commencement of operations through December 31, 2007, and for a declining amount thereafter through December 31, 2010.

### Administrative Fee

Federated Services Company ("FServ"), under the Administrative Services Agreement, provides the Fund with administrative personnel and services. The fee paid to FServ is based on a scale that ranges from 0.150% to 0.075% of the average aggregate daily net assets of all funds advised by subsidiaries of Federated Investors, Inc., subject to a \$125,000 minimum per portfolio and \$30,000 per each additional class. FServ may voluntarily choose to waive any portion of its fee. FServ can modify or terminate this voluntary waiver at any time at its sole discretion.

### Portfolio Accounting Fees

FServ maintains the Funds' accounting records for which it receives a fee. The fee is based on the level of each Fund's average daily net assets for the period, plus out-of-pocket expenses.

## Organizational Expenses

Each Fund has agreed to pay organizational and offering expenses of up to \$0.03 per common share. The Adviser has agreed to pay organizational expenses and offering costs of each Fund that exceed \$0.03 per common share.

## Interfund Transactions

During the year ended May 31, 2003, the Funds engaged in purchase and sale transactions with funds that have a common investment adviser (or affiliated investment advisers), common Directors/Trustees, and/or common Officers. These purchase and sale transactions complied with Rule 17a-7 under the Act and were as follows:

	<b>Purchases</b>	<b>Sales</b>
Federated Premier Municipal Income Fund	\$51,577,250	\$77,210,000
<hr/>		
Federated Premier Intermediate Municipal Income Fund	\$68,777,250	\$88,909,245
<hr/>		

## General

Certain of the Officers and Trustees of the Funds are Officers and Directors or Trustees of the above companies.

## PREFERRED SHARE OFFERING

On February 13, 2003, Federated Premier Municipal Income Fund and Federated Premier Intermediate Municipal Income Fund offered and currently have outstanding 2,147 and 2,441 Auction Market Preferred Shares ("AMPS"), respectively. The AMPS are redeemable at the option of the Funds at the redemption price of \$25,000 per share plus an amount equal to accumulated, but unpaid dividends thereon through the redemption date.

Whenever AMPS are outstanding, common shareholders will not be entitled to receive any distributions from the Funds unless all accrued dividends on preferred shares have been paid, the Funds satisfy the 200% asset coverage requirement and certain other requirements imposed by any Nationally Recognized Statistical Ratings Organizations ("NRSROs") rating the preferred shares have been met. Should these requirements not be met, or should dividends accrued on the AMPS not be paid, the Funds may be restricted in their ability to declare dividends to common shareholders or may be required to redeem certain of the AMPS. At May 31, 2003, there were no such restrictions on the Funds.

## INVESTMENT TRANSACTIONS
