Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

The Compensation Committee (the “Committee”) of the Board of Directors of IPG Photonics Corporation (the “Company”) has taken the actions described below relating to the compensation of the “named executive officers,” as such term is defined in Item 402(a)(3) of Regulation S-K, of the Company as of December 31, 2008 and certain other executive officers of the Company.

On February 23, 2010, the Committee approved targets and incentive payouts for the named executive officers and other executive officers under the Company’s Senior Executive Short-Term Incentive Plan (the “STIP”) for fiscal year 2010. Employees of the Company who are at least at the level of vice president or director are eligible to receive awards under the STIP.

The Committee approved two financial performance measures, net sales and earnings before interest and taxes (excluding equity-based compensation expenses and litigation expenses in excess of budgeted amounts), each as determined under the STIP, and assigned a 50% weighting factor to each performance measure. The Committee chose to focus on revenue growth and pretax profits so that our executive officers would be incentivized to deliver the types of growth that benefit our stockholders, namely increasing sales and profitability.

Upon the achievement of the objectives for each performance measure determined by the Compensation Committee, the Chief Executive Officer could receive a cash incentive payment ranging from 14% to 84% of his base salary, and other participants in the STIP could receive a cash incentive payment ranging from 9% to 56% of their respective base salaries, based upon achievement of the minimum to maximum objectives for both measures. The financial objectives are the same for all executive officers. No cash incentive payments would be made if the minimum objectives established by the Compensation Committee in 2010 are not met.

The Chief Executive Officer and the other Named Executive Officers are also eligible in 2010 under the STIP to receive awards of up to 19% and up to 13% of their respective base salaries, respectively, based upon their individual performance. Under the STIP, the Committee may make adjustments to our overall corporate performance goals and the ways that our actual performance results are calculated that may cause differences between the numbers used for our performance goals and the numbers reported in our financial statements. These adjustments may exclude all or a portion of both the positive or negative effect of external events that are outside the control of our executives, such as natural disasters, litigation or changes in accounting or taxation standards. These adjustments also may exclude all or a portion of both the positive or negative effect of unusual or significant strategic events that are within the control of our executives but that are undertaken with an expectation of improving our long-term financial performance, such as restructurings, acquisitions or divestitures.

On February 26, 2010, the Committee granted non-qualified stock options and restricted stock units under the 2006 Incentive Compensation Plan. The stock options have an exercise price equal to \$15.82 per share and expire on February 25, 2020. The table below sets forth the stock options and restricted stock units granted and the vesting terms for each named executive officer and certain other executive officers:
