LETTER TO SHAREHOLDERS

June 2009

W. Douglas Munn

President and Chief Executive Officer

Dear Shareholder:

We are pleased to provide the Semiannual Report for Evergreen Global Dividend Opportunity Fund for the six-month period ended April 30, 2009 (the “period”).

Volatility continued to dominate trading patterns through the end of 2008, as losses mounted within the equity markets. Weak economic data, falling profit forecasts, and uncertainty about the auto industry compounded worries about the credit crisis and led to increased selling, which spared few equity categories. In early 2009, layoff announcements accelerated; further pressuring personal consumption and business investment. The fixed income markets worried about deflation during the period, evidenced by investor willingness to accept virtually nothing for short-term loans to the government. Concerns about federal spending also increased, with yields climbing for longer-term U.S. Treasuries during the first quarter of 2009. International markets were hit hard as economies in both developed and emerging countries struggled. Equity markets were affected by the weakness in economic data and corporate profits, although during April 2009, stocks rallied off their March 2009 lows with international and small cap stocks leading the gains. However, given the still unresolved issues of credit availability, rising unemployment, declining home values, looming auto bankruptcies, and the possibility for more bank re-capitalizations, we believe investors need to prepare for a potential re-test of the March 2009 lows in the coming months.

The unprecedented economic and financial turmoil has been met with an unprecedented policy response, as the Federal Reserve Board, the U.S. Treasury, the Federal Deposit Insurance Corporation and the Federal Housing Administration have allocated more than \$11 trillion to combat the crisis. Perhaps most important, the Public-Private Investment Program (the “PPIP”) has been designed to help rid banks of toxic assets from their balance sheets. The measures taken to address this crisis have merely treated the symptoms, but the announcement of this program gets to the root cause: the distressed assets on (and off) bank balance sheets. The PPIP is designed to use government subsidies to attract private purchases of currently illiquid mortgage-related loans and securities held by banks. As a market returns for these assets, banks will be positioned to improve capital ratios, increase lending activity, and potentially buy their way out of the increasingly restrictive Troubled Asset Relief Program. We believe that the successful implementation of this program is critical for a sustainable expansion to ensue. As the lagged effects of the massive policy response take hold, we look for pent-up consumer demand to combine with government spending to help push Gross Domestic Product back into positive territory by the fourth quarter of 2009.

LETTER TO SHAREHOLDERS continued

During the period, managers of Evergreen Global Dividend Opportunity Fund pursued a strategy seeking a high level of income as a primary objective, with a secondary objective of long-term capital growth. This closed-end fund sought investments in the stocks of domestic and foreign companies with either above-average dividend yields or the potential to increase their dividends. To add to the fund's potential income, the fund also wrote call options on U.S. and foreign securities indexes.

As we look back over the extraordinary series of events during the period, we believe it is important for all investors to keep perspective and remain focused on their long-term goals. We continue to urge investors to work with their financial advisors to pursue fully diversified strategies in order to participate in future market gains and limit the risks of potential losses. Investors should keep in mind that the economy and the financial markets have had long and successful histories of adaptability, recovery, innovation and growth. Proper asset allocation decisions can have significant impacts on the returns of long-term portfolios.

NOTES TO FINANCIAL STATEMENTS (unaudited)

1. ORGANIZATION

Evergreen Global Dividend Opportunity Fund (the “Fund”) was organized as a statutory trust under the laws of the state of Delaware on December 21, 2006 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income. The Fund’s secondary objective is long-term growth of capital.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates.

a. Valuation of investments

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded. Non-listed equity securities are valued using evaluated prices determined by an independent pricing service which takes into consideration such factors as similar security prices, spreads, liquidity, benchmark quotes and market conditions. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers who use prices provided by market makers or estimates of fair market value obtained from yield data relating to investments or securities with similar characteristics.

Foreign securities traded on an established exchange are valued at the last sales price on the exchange where the security is primarily traded. If there has been no sale, the securities are valued at the mean between bid and asked prices. Foreign securities may be valued at fair value according to procedures approved by the Board of Trustees if the closing price is not reflective of current market values due to trading or events occurring in the foreign markets between the close of the established exchange and the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. The value of foreign securities may be adjusted if such movements in the U.S. market exceed a specified threshold.

Portfolio debt securities acquired with more than 60 days to maturity are fair valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of fair market value obtained from yield data relating to investments or securities with similar characteristics.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

Short-term securities of sufficient credit quality with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates fair value.

Investments in open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current fair value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

b. Foreign currency translation

All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of portfolio securities and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for that portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on investments.

c. Options

The Fund is subject to interest rate risk, equity price risk and foreign currency exchange rate risk in the normal course of pursuing its investment objectives through its investments in options. The Fund may write covered put or call options. When a Fund writes an option, an amount equal to the premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options, which expire unexercised, are recognized as realized gains from investments on the expiration date. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in calculating the realized gain or loss on the sale. If a put option is exercised, the premium reduces the cost of the security purchased. The Fund, as a writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

The Fund may also purchase call or put options. The premium is included in the Statement of Assets and Liabilities as an investment which is subsequently adjusted to the current market value of the option. Premiums paid for purchased options which expire are recognized as realized losses from investments on the expiration date. Premiums paid for purchased options which are exercised or closed are added to the amount paid or offset against the proceeds on the underlying security to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

Options traded on an exchange are regulated and terms of the options are standardized. Options traded over the counter expose the Fund to counterparty risk in the event the counterparty does not perform. This risk is mitigated by having a master netting arrange-

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

ment between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

d. Short sales

The Fund may sell a security it does not own in anticipation of a decline in the market value of that security (short sale). When the Fund makes a short sale, it must borrow the security sold short and deliver it to the buyer. The Fund is then obligated to replace the security borrowed by purchasing the security at the market price at the time of replacement. Any interest or dividends accrued on such borrowed securities during the period of the loan is recorded as an expense on the Statement of Operations. To borrow the security, the Fund may be required to pay a premium, which would decrease the proceeds of the security sold. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the closing of a short sale if the market price at the closing is less than or greater than, respectively, the proceeds originally received. Until the short sale is closed or the borrowed security is replaced, the Fund maintains a segregated account of cash or liquid securities, the dollar value of which is at least equal to the market value of the security at the time of the short sale.

e. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date or in the case of some foreign securities, on the date when the Fund is made aware of the dividend. Foreign income and capital gains realized on some securities may be subject to foreign taxes, which are accrued as applicable.

f. Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required. The Fund's income and excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal, Massachusetts and Delaware revenue authorities.

g. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

3. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC ("EIMC"), a subsidiary of Wells Fargo & Company ("Wells Fargo"), is the investment advisor to the Fund and is paid an annual fee of 0.95% of the Fund's average daily total assets. Total assets consist of the net

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

assets of the Fund plus borrowings, reverse repurchase agreements, dollar rolls or the issuance of debt securities.

Crow Point Partners, LLC is the investment sub-advisor to the Fund and is paid by EIMC for its services to the Fund.

On October 3, 2008, Wells Fargo and Wachovia Corporation (“Wachovia”) announced that Wells Fargo agreed to acquire Wachovia in a whole company transaction that would include all of Wachovia’s banking and other businesses. In connection with this transaction, Wachovia issued preferred shares to Wells Fargo representing approximately a 40% voting interest in Wachovia. Due to its ownership of preferred shares, Wells Fargo may have been deemed to control EIMC. If Wells Fargo was deemed to control EIMC, then the existing advisory agreement between the Fund and EIMC and the sub-advisory agreement between EIMC and the Fund’s sub-advisor would have terminated automatically in connection with the issuance of preferred shares. To address this possibility, on October 20, 2008 the Board of Trustees approved an interim advisory agreement with EIMC and an interim sub-advisory agreement with the sub-advisor with the same terms and conditions as the existing agreements, which became effective upon the issuance of the preferred shares. EIMC’s receipt of the advisory fees under the interim advisory agreement was subject to the approval by shareholders of the Fund of a new advisory agreement with EIMC.

On December 31, 2008, Wachovia merged with and into Wells Fargo and as a result of the merger, EIMC became a subsidiary of Wells Fargo. After the merger, a new interim advisory agreement with the same terms and conditions between the Fund and EIMC went into effect.

Shareholders approved the new advisory agreement between the Fund and EIMC on February 12, 2009. In addition, on the same date, shareholders also approved a new sub-advisory agreement with the sub-advisor.

The Fund may invest in money market funds which are advised by EIMC. Income earned on these investments is included in income from affiliated issuers on the Statement of Operations.

EIMC also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. EIMC is paid an annual administrative fee of 0.05% of the Fund’s average daily total assets.

The Fund has placed a portion of its portfolio transactions with brokerage firms that are affiliates of Wells Fargo. During the six months ended April 30, 2009, the Fund paid brokerage commissions of \$10,489 to Wachovia Securities, LLC, a broker-dealer affiliated with Wells Fargo.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued**4. CAPITAL SHARE TRANSACTIONS**

The Fund has authorized an unlimited number of shares with no par value. For the six months ended April 30, 2009 and the year ended October 31, 2008, the Fund did not issue any new shares.

5. INVESTMENT TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were \$319,650,699 and \$363,673,563, respectively, for the six months ended April 30, 2009.

On November 1, 2008, the Fund implemented Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* ("FAS 157"). FAS 157 establishes a single authoritative definition of fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 establishes a fair value hierarchy based upon the various inputs used in determining the value of the Fund's investments. These inputs are summarized into three broad levels as follows:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of April 30, 2009, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

Valuation Inputs	Investments in Securities	Other Financial Instruments*
Level 1 – Quoted Prices	\$ 272,813,692	\$ 0
Level 2 – Other Significant Observable Inputs	175,420,188	0
Level 3 – Significant Unobservable Inputs	0	(1,935,310)
Total	\$ 448,233,880	\$ (1,935,310)

* Other financial instruments include written options.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Other Financial Instruments
Balance as of November 1, 2008	\$ 0
Realized gain (loss)	0
Change in unrealized gains or losses	233,480
Net purchases (sales)	(2,168,790)

Change in unrealized gains or losses included in earnings relating to securities still held at April 30, 2009	\$ 233,480

On April 30, 2009, the aggregate cost of securities for federal income tax purposes was \$548,049,061. The gross unrealized appreciation and depreciation on securities based on tax cost was \$5,021,484 and \$104,836,665, respectively, with a net unrealized depreciation of \$99,815,181.

As of October 31, 2008, the Fund had \$193,584,375 in capital loss carryovers for federal income tax purposes with \$9,081,249 expiring in 2015 and \$184,503,126 expiring in 2016.

6. DERIVATIVE TRANSACTIONS

During the six months ended April 30, 2009, the Fund had written option activities as follows:

	Number of Contracts	Premiums Received
Options outstanding at October 31, 2008	2,999	\$3,375,556
Options written	46,441	15,877,674

◦ Valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

As of April 30, 2009, the Fund had segregated \$880,000 as cash collateral for outstanding written options.

The fair value, realized gains or losses and change in unrealized gains or losses on derivative instruments are reflected in the appropriate financial statements.

7. DEFERRED TRUSTEES' FEES

Each Trustee of the Fund may defer any or all compensation related to performance of his or her duties as a Trustee. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts is based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

8. CONCENTRATION OF RISK

The Fund may invest a substantial portion of its assets in an industry and, therefore, may be more affected by changes in that industry than would be a comparable mutual fund that is not heavily weighted in any industry.

9. REGULATORY MATTERS AND LEGAL PROCEEDINGS

The Evergreen funds, EIMC and certain of EIMC's affiliates are involved in various legal actions, including private litigation and class action lawsuits, and are and may in the future be subject to regulatory inquiries and investigations.

EIMC and Evergreen Investment Services, Inc. ("EIS") have reached final settlements with the Securities and Exchange Commission ("SEC") and the Securities Division of the Secretary of the Commonwealth of Massachusetts ("Commonwealth") primarily relating

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

to the liquidation of Evergreen Ultra Short Opportunities Fund (“Ultra Short Fund”). The claims settled include the following: first, that during the period February 2007 through Ultra Short Fund’s liquidation on June 18, 2008, Ultra Short Fund’s former portfolio management team failed to properly take into account readily available information in valuing certain non-agency residential mortgage-backed securities held by the Ultra Short Fund, resulting in the Ultra Short Fund’s net asset value (“NAV”) being overstated during the period; second, that EIMC and EIS acted inappropriately when, in an effort to explain the decline in Ultra Short Fund’s NAV, certain information regarding the decline was communicated to some, but not all, shareholders and financial intermediaries; third, that the Ultra Short Fund portfolio management team did not adhere to regulatory requirements for affiliated cross trades in executing trades with other Evergreen funds; and finally, that from at least September 2007 to August 2008, EIS did not preserve certain text and instant messages transmitted via personal digital assistant devices. In settling these matters, EIMC and EIS have agreed to payments totaling \$41,125,000, up to \$40,125,000 of which will be distributed to eligible shareholders of Ultra Short Fund pursuant to a methodology and plan approved by the regulators. EIMC and EIS neither admitted nor denied the regulators’ conclusions.

Three purported class actions have also been filed in the U.S. District Court for the District of Massachusetts relating to the same events; defendants include various Evergreen entities, including EIMC and EIS, and Evergreen Fixed Income Trust and its Trustees. The cases generally allege that investors in the Ultra Short Fund suffered losses as a result of (i) misleading statements in Ultra Short Fund’s registration statement and prospectus, (ii) the failure to accurately price securities in the Ultra Short Fund at different points in time and (iii) the failure of the Ultra Short Fund’s risk disclosures and description of its investment strategy to inform investors adequately of the actual risks of the fund.

EIMC does not expect that any of the legal actions, inquiries or settlement of regulatory matters will have a material adverse impact on the financial position or operations of the Fund to which these financial statements relate. Any publicity surrounding or resulting from any legal actions or regulatory inquiries involving EIMC or its affiliates or any of the Evergreen Funds could result in reduced sales or increased redemptions of Evergreen fund shares, which could increase Evergreen fund transaction costs or operating expenses or have other adverse consequences on the Evergreen funds, including the Fund.

10. NEW ACCOUNTING PRONOUNCEMENT

In April 2009, FASB issued FASB Staff Position No. FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (“FAS 157-4”). FAS 157-4 provides additional guidance for determining fair value when the volume and level of activity for an asset or a liability have significantly decreased and identifying transactions that are not orderly. FAS 157-4 requires enhanced disclosures about the inputs and valuation tech-

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

nique(s) used to measure fair value and a discussion of changes in valuation techniques and related inputs, if any, during the period. In addition, the three-level hierarchy disclosure and the level three roll-forward disclosure will be expanded for each major category of assets. Management of the Fund does not believe the adoption of FAS 157-4 will materially impact the financial statement amounts, but will require additional disclosures. FAS 157-4 is effective for interim and annual reporting periods ending after June 15, 2009.

11. SUBSEQUENT DISTRIBUTION

On May 15, 2009, the Fund declared distributions from net investment income of \$0.50 per common share payable on July 1, 2009, to shareholders of record on June 15, 2009.

ADDITIONAL INFORMATION (unaudited)**ANNUAL MEETING OF SHAREHOLDERS**

On February 12, 2009, the Annual Meeting of shareholders of the Fund was held to consider the following proposals. The results of the proposals are indicated below.

The votes recorded at the meeting, by proposal, were as follows:

Proposal 1 — Election of Trustees:

	Net Assets Voted “For”	Net Assets Voted “Withheld”
Charles A. Austin III	\$ 305,059,420	\$ 15,413,256
Carol A. Kosel	\$ 305,678,572	\$ 14,794,104

Richard J. Shima	\$ 305,257,434	\$ 15,215,242

Proposal 2a — To consider and act upon a new investment advisory agreement with Evergreen Investment Management Company, LLC:

Net assets voted “For”	\$ 223,115,537
Net assets voted “Against”	\$ 10,506,977
Net assets voted “Abstain”	\$ 9,230,709

Proposal 2b — To consider and act upon a new sub-advisory agreement with Crow Point Partners, LLC:

Net assets voted “For”	\$ 221,634,218

Net assets voted “Abstain”	\$ 10,154,951

AUTOMATIC DIVIDEND REINVESTMENT PLAN (unaudited)

All shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (“the Plan”). Pursuant to the Plan, unless a shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (“Plan Agent”), in additional shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as “dividends”) payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares. The shares are acquired by the Plan Agent for the participant’s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized shares from the Fund (“newly issued shares”) or (ii) by purchase of outstanding shares on the open market (“open market purchases”) on the New York Stock Exchange or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the shares is equal to or less than the market price per share plus estimated brokerage commissions (“market premium”), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued shares to be credited to the participant’s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (“market discount”), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent’s open market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

- 1 The Board of Trustees is classified into three classes of which one class is elected annually. Each Trustee serves a three-year term concurrent with the class from which the Trustee is elected. Each Trustee oversaw 77 Evergreen funds as of December 31, 2008. Correspondence for each Trustee may be sent to Evergreen Board of Trustees, P.O. Box 20083, Charlotte, NC 28202.
- 2 It is possible that Mr. Pettit may be viewed as an “interested person” of the Evergreen funds, as defined in the 1940 Act, because of his law firm’s previous representation of affiliates of Wells Fargo & Company (“Wells Fargo”), the parent to the Evergreen funds’ investment advisor, EIMC. The Trustees are treating Mr. Pettit as an interested trustee for the time being.
- 3 Mr. Wagoner is an “interested person” of the Evergreen funds because of his ownership of shares in Wells Fargo & Company, the parent to the Evergreen funds’ investment advisor.
- 4 The address of the Officer is 200 Berkeley Street, Boston, MA 02116.
