RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks described below and the other information in this prospectus and any other filings we may make with the United States Securities and Exchange Commission in the future before investing in our common stock. If any of the following risks occur, our business, operating results and financial condition could be seriously harmed. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment. An investment in our common stock may involve additional risks and uncertainties not described below.

WE FACE INTENSE COMPETITION AND MAY BE UNABLE TO COMPETE SUCCESSFULLY WITH OUR COMPETITORS.

The telecommunications industry is highly competitive, rapidly evolving and subject to constant technological change and to intense marketing by different providers of functionally similar services. There are many companies in the United States and in Canada engaged in the sale of telecommunication services. Since there are few, if any, substantial barriers to entry, except in those markets that have not been subject to governmental deregulation, we expect that new competitors are likely to enter our markets. Most, if not all, of our competitors are significantly larger and have substantially greater market presence and longer operating history as well as greater financial, research and development, manufacturing, technical, operational, marketing, personnel and other resources than us.

Our use of VOIP technology should enable us to provide customers with

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form S-3

competitive pricing for their telecommunications needs. Nevertheless, there can be no assurance that we will be able to successfully compete with major carriers including other VOIP telephony providers and traditional phone companies, in present and prospective markets. These markets include Venezuela, Mexico, Brazil, the Caribbean, Malaysia and Australia. In particular, we do not know what level of growth to expect in the telecommunications industry, and particularly in those Voice over Internet Protocol markets in which GlobeTel operated.

Our business strategy is to provide competitive pricing from small to mid-sized businesses and individuals to increase our customer base and pursuing large multi-national corporations which operate in a number of our markets. We are dependent upon local independent affiliates or partners in each market for sales and marketing, customer service and technical support to terminate and originate our IP telephony services. This marketing strategy should minimize our dependency on any single market and/or group of customers and lessen our costs and expedite our entry into markets. There can be no assurance that we will be able to successfully compete in our present and prospective markets.

Our competition also includes large telecommunications equipment manufacturers as well as small independent value added resellers/integrators in each market, which includes every major city in the United States. All of the large telecommunications equipment manufacturers that compete with us are significantly larger, have substantially greater market presence and longer operating history as well as greater financial, technical, operational, marketing, personnel and other resources than we do.

IF WE ARE UNABLE TO COLLECT RECEIVABLES FROM OUR TWO LARGEST CUSTOMERS, OUR ASSETS, REVENUES AND CASH FLOW WILL BE ADVERSELY AFFECTED.

The majority of our revenues and assets are dependent upon three major customers. While we believe that our receivables from our major customers are collectible, the inability to collect these receivables, should it happen, would materially adversely affect our assets, revenues and cash flow in the future.

ISSUANCE OF ADDITIONAL SHARES WILL HAVE A DILUTIVE EFFECT ON HOLDINGS OF EXISTING STOCKHOLDERS.

We presently have commitments to issue additional common shares as per the terms of the four series of preference shares outstanding. Additionally, we have a contingent commitment to issue an additional 200 million shares pursuant to our agreement with Sanswire Technologies. Additionally, we could issue some or

3

all of our authorized but unissued shares, and in some cases we could do that without stockholder approval, diluting the holdings of existing stockholders. Also, issuance of additional shares could under some circumstances make more difficult, or frustrate, a hostile takeover of GlobeTel.

WE DEPEND ON OUR INTELLECTUAL PROPERTY, AND IF WE ARE UNABLE TO PROTECT OUR INTELLECTUAL PROPERTY, WE MAY BE UNABLE TO COMPETE AND OUR BUSINESS MAY FAIL.

Our products rely on our proprietary technology, and we expect that future technological advancements made by us will be critical to sustain market acceptance of our products. Therefore, we believe that the protection of our intellectual property rights is, and will continue to be, important to the success of our business. Consequently, our ability to compete effectively will depend, in part, on our ability to protect our proprietary technology, system designs and manufacturing processes. Unauthorized parties may attempt to copy or

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form S-3

otherwise obtain and use our products or technology. Monitoring unauthorized use of our intellectual property is difficult, and we cannot be certain that the steps we may take will prevent unauthorized use of our technology. In addition, the measures we undertake may not be sufficient to adequately protect our proprietary technology and may not preclude competitors from independently developing products with functionality or features similar to those of our product.

We have obtained an authority as an international telecommunications carrier under Section 214 of the Communications Act by the Federal Communications Commission. Our practice has been to enter into relationships with established licensed carriers in each market, as opposed to becoming a licensed carrier ourselves.

OUR FUTURE PLANS COULD BE HARMED IF WE ARE UNABLE TO ATTRACT OR RETAIN KEY PERSONNEL.

If we develop a prototype that we believe is marketable, we will require a significant increase in the number of employees. Our future success, therefore, will depend, in part, on attracting and retaining additional qualified management and technical personnel. We do not know whether we will be successful in hiring or retaining qualified personnel. Our inability to hire qualified personnel on a timely basis, or the departure of key employees, could harm our expansion and commercialization plans.

We have at present 64 full-time employees, including our executive officers. We do not believe that we will have difficulty in hiring and retaining qualified individuals in the field of Internet telephony, although the market for skilled technical personnel is highly competitive.

Additionally, we are reliant a small number of people with in-depth knowledge of our Stratellite project. It is not known what type of delays would ensue should key members of the Stratellite team become unavailable.

WE ARE DEPENDENT ON THIRD PARTY SUPPLIERS FOR THE DEVELOPMENT AND SUPPLY OF KEY COMPONENTS FOR OUR PRODUCTS. IF THOSE SUPPLIERS ARE UNABLE TO PROVIDE SUFFICIENT COMPONENTS, OUR BUSINESS WILL SUFFER.

Although all equipment used by us is provided by major suppliers and is readily available, software to operate the network is commercially available from software suppliers and equipment suppliers, and we have the technical expertise and ability to develop in-house software as needed for network applications and new telecommunications products, a current or future supplier's failure to develop and supply components to us, or the quantity needed, will harm our ability to manufacture our product. In addition, to the extent the processes that our suppliers use to manufacture components are proprietary, we may be unable to obtain comparable components from alternative suppliers. We use equipment from all major telecommunication equipment manufacturers such as Cisco, Motorola and Newbridge Networks, among others.

4

THE MARKET PRICE OF OUR EQUITY SECURITIES MAY FLUCTUATE.

The market price of our common stock may fluctuate significantly in response to numerous factors, some of which are beyond our control, including the following:

- o actual or anticipated fluctuations in our operating results;

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form S-3

- o changes in market valuations of other technology companies, particularly those that sell products used in telecommunication services;
- o announcements by us or our competitors of significant technical innovations, acquisitions, strategic partnerships, joint ventures or capital commitments;
- o introduction of technologies or product enhancements that reduce the need for VoIP systems;
- o the loss of one or more key suppliers; and
- o departures of key personnel.

OUR STOCK PRICE MAY BECOME VOLATILE DUE TO A NUMBER OF FACTORS, SUBJECTING US TO THE POSSIBILITY OF LITIGATION THAT MAY BE COSTLY AND DRAIN OUR RESOURCES.

Our stock price may be volatile due to numerous factors, including those listed above. In addition, the stock market has recently experienced extreme volatility that often has been unrelated to the performance of particular companies. These market fluctuations may cause our stock price to fall regardless of our performance. In the past, companies that have experienced volatility in the market price of their stock have been the subject of securities class action litigation. Such litigation often results in substantial costs and a diversion of management's attention and resources and, should we become involved in such litigation, could harm our business, prospects, and results of operations or financial condition.

EXISTING OR PROBABLE GOVERNMENTAL REGULATIONS MAY ADVERSELY AFFECT OUR BUSINESS

In February 1997, the United States and approximately 70 other countries of the World Trade Organization ("WTO") signed an agreement committing to open their telecommunications markets to competition and foreign ownership beginning in January 1998. These countries account for approximately 90% of world telecommunications traffic. The WTO agreement provides us, and all companies in our industry, with significant opportunities to compete in markets where access was previously either denied or extremely limited. However, the right to offer telecommunications services is subject to governmental regulations and therefore our ability to establish ourselves in prospective markets is subject to the actions of the telecommunications authorities in each country. In the event that new regulations are adopted that limit the ability of companies such as us to offer VOIP telephony services and other services, we could be materially adversely affected.

5

USE OF PROCEEDS

The following table sets forth the name of each selling shareholder, the number of shares owned by each of the respective selling shareholders, the number of shares that may be offered under this prospectus and the number of shares of our common stock owned by the selling shareholders after this offering is completed. None of the selling shareholders has, or within the past three years has had, any position, office or other material relationship with us. The number of shares in the column "Number of Shares Being Offered" represents all of the shares that a selling shareholder may offer under this prospectus. The selling shareholders may sell some, all or none of their shares. We are unable to determine the exact amount of shares that actually will be sold. The shares offered by this prospectus may be offered from time to time by the selling shareholders. We currently have no agreements, arrangements or understandings with the selling shareholders regarding the sale of any of the shares.

Beneficial ownership is calculated in accordance with the rules of the Securities and Exchange Commission. In computing the number of shares beneficially owned by a person, shares of common stock subject to options or warrants held by that person that are currently exercisable or become exercisable within 60 days following June 13, 2005, are deemed outstanding. Unless otherwise indicated, the persons and entities named in the table have sole voting and investment power with respect to all shares beneficially owned, subject to community property laws where applicable.

PLAN OF DISTRIBUTION

The Selling Stockholders and any of their pledgees, donees, transferees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of Common Stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The Selling Stockholders may use any one or more of the following methods when selling shares:

- * ordinary brokerage transactions and transactions in which the broker-dealer solicits Investors;
- * block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- * purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- * an exchange distribution in accordance with the rules of the applicable exchange;
- * privately negotiated transactions;
- * to cover short sales made after the date that this Registration Statement is declared effective by the Commission;

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form S-3

- * broker-dealers may agree with the Selling Stockholders to sell a specified number of such shares at a stipulated price per share;
- * through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- * a combination of any such methods of sale; and
- * any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. The Selling Stockholders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved.

In connection with the sale of our common stock or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The Selling Stockholders may also sell shares of our common stock short and deliver these securities to close out their short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

Upon the Company being notified in writing by a Selling Stockholder that any material arrangement has been entered into with a broker-dealer for the sale of Common Stock through a block trade, special offering, exchange distribution or secondary distribution or a purchase by a broker or dealer, a supplement to this prospectus will be filed, if required, pursuant to Rule 424(b) under the Securities Act, disclosing (i) the name of each such Selling Stockholder and of the participating broker-dealer(s), (ii) the number of shares involved,

9

(iii) the price at which such the shares of Common Stock were sold, (iv) the commissions paid or discounts or concessions allowed to such broker-dealer(s), where applicable, (v) that such broker-dealer(s) did not conduct any investigation to verify the information set out or incorporated by reference in this prospectus, and (vi) other facts material to the transaction. In addition, upon the Company being notified in writing by a Selling Stockholder that a donee or pledge intends to sell shares of Common Stock, a supplement to this prospectus will be filed if then required in accordance with applicable securities law.

The Selling Stockholders also may transfer the shares of Common Stock in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The Selling Stockholders and any broker-dealers or agents that are

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form S-3

involved in selling the shares may be deemed to be "underwriters" within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Discounts, concessions, commissions and similar selling expenses, if any, that can be attributed to the sale of Securities will be paid by the Selling Stockholder and/or the purchasers. Each Selling Stockholder has represented and warranted to the Company that it acquired the securities subject to this registration statement in the ordinary course of such Selling Stockholder's business and, at the time of its purchase of such securities such Selling Stockholder had no agreements or understandings, directly or indirectly, with any person to distribute any such securities.

There can be no assurance that any Selling Stockholder will sell any or all of the shares of Common Stock registered pursuant to this Registration Statement, of which this prospectus forms a part.

If a Selling Stockholder uses this prospectus for any sale of the Common Stock, it will be subject to the prospectus delivery requirements of the Securities Act. The Selling Stockholders will be responsible to comply with the applicable provisions of the Securities Act and Exchange Act, and the rules and regulations thereunder promulgated, including, without limitation, Regulation M, as applicable to such Selling Stockholders in connection with resales of their respective shares under this Registration Statement.

The Company is required to pay all fees and expenses incident to the registration of the shares, but the Company will not receive any proceeds from the sale of the Common Stock. The Company and the Selling Stockholders have agreed to indemnify each other against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Once sold under a Registration Statement, of which this prospectus forms a part, the shares of Common Stock will be freely tradable in the hands of persons other than the Company's affiliates."

INDEMNIFICATION OF OFFICERS AND DIRECTORS AND DISCLOSURE OF COMMISSION POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITIES.

Insofar as indemnification for liabilities arising under the Act may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

ITEM 15. INDEMNIFICATION OF OFFICERS AND DIRECTORS

The Company's Certificate of Incorporation includes certain provisions permitted pursuant to the Delaware General Corporation Law ("DGCL") whereby officers and directors of the Company shall be indemnified against certain liabilities to the Company or its shareholders. The Certificate of Incorporation also limits to the fullest extent permitted by the DGCL a director's liability to the Company or its stockholders for monetary damages for breach of fiduciary duty of care as a director, including gross negligence, except liability for (i) breach of the director's duty of loyalty to the Company or its shareholders, (ii) acts or omissions not in good faith or which involve intentional misconduct or knowing violation of the laws, (iii) under Section 174 of the DGCL (relating to unlawful payments of dividends or unlawful stock repurchases or redemptions) or (iv) any transaction from which the director derives an improper personal benefit. This provision of the Company's Certificate of Incorporation has no effect on the availability of equitable remedies, such as injunction or rescission. The Company believes that these provisions will facilitate the Company's ability to continue to attract and retain qualified individuals to serve as directors and officers of the Company.

Limitations on Liability of Directors.

Under Section 145 of the Delaware General Corporation Law, a corporation may indemnify a director, officer, employee or agent of the corporation (or a person who is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise) against expenses (including attorneys' fees),

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form S-3

judgments, fines and amounts paid in settlement actually and reasonably incurred by the person if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. In the case of an action brought by or in the right of a corporation, the corporation may indemnify a director, officer, employee or agent of the corporation (or a person who is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise) against expenses (including attorneys' fees) actually and reasonably incurred by him if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification may be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent a court finds that, in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses as the court shall deem proper.

We have adopted a provision which requires us to indemnify and hold harmless any person involved in any action, suit or proceeding because that person is or was a director or officer of ours. This provision does not, however, require us to indemnify an officer or director in a proceeding they initiate without the authorization of our directors.

II-1

Insurance for Directors and Officers.

Under Delaware law, a corporation may obtain insurance on behalf of its directors and officers against liabilities incurred by them in those capacities. We have adopted a provision that permits us to maintain insurance to protect us and our directors and officers against expenses, liabilities and losses whether or not we would have the power to indemnify these persons under Delaware law. We have in place directors' and officers' liability and company reimbursement liability insurance policy.
