PetroChina Company Limited (the "Registrant") is furnishing under the cover of Form 6-K the Registrant's announcement of a summary of the 2007 Annual Report.

This announcement contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are, by their nature, subject to significant risks and uncertainties. These forward-looking statements include, without limitation, statements relating to:

- the Registrant's plan to continue to place top priority on resources exploration and development and further consolidate its leading position of the upstream business in China;
- the Registrant's plan to speed up modification of the strategic structure of its refinery and petrochemical business and to develop such business in an orderly and efficient manner;
- the Registrant's plan to enhance the construction of strategic pipelines and the domestic pipeline network; and
- the Registrant's other future plans and prospects.

Edgar Filing: PETROCHINA CO LTD - Form 6-K

These forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. Actual results may differ materially from information contained in these forward-looking statements as a result of a number of factors, including, without limitation:

- fluctuations in crude oil and natural gas prices;
- failure to achieve continued exploration success;
- failure or delay in achieving production from development projects;
- failure to complete the proposed acquisition of certain overseas assets as planned;
- change in demand for competing fuels in the target market;
- continued availability of capital and financing;
- general economic, market and business conditions;
- changes in policies, laws or regulations of the PRC and other jurisdictions in which the Registrant and its subsidiaries conduct business; and
- other factors beyond the Registrant's control.

We do not intend to update or otherwise revise the forward-looking statements in this announcement, whether as a result of new information, future events or otherwise. Because of these risks, uncertainties and assumptions, the forward-looking events and circumstances discussed in this announcement might not occur in the way we expect, or at all.

You should not place undue reliance on any of these forward-looking statements.

6 DIRECTORS' REPORT

6.1 DISCUSSION AND ANALYSIS OF THE OVERALL OPERATIONS DURING THE REPORTING PERIOD

6.1.1 Review of Results of Operations

In 2007, faced with new changes and new trends in the macro environment both domestically and globally, the Company upheld the guiding principle of scientific development and implemented firmly the three main strategies in the areas of resources, marketing and internationalisation of operations. The Company optimised production arrangements and strengthened operations and management. The Company's production and operating activities were conducted smoothly and its principal operations continued to expand in scale. Safety production and environmental protection improved steadily. The overall business strengths of the Company were enhanced markedly.

1. MARKET REVIEW

(1) Crude Oil Market Review

In 2007, on the whole, international crude oil prices continued to soar. In particular, since September 2007, oil prices broke the US\$80 per barrel and US\$90 per barrel marks, reaching nearly US\$100 per barrel by the end of the year. In general, market considered the surge in the crude oil prices was primarily due to factors including strong growth in demand, a decline in crude oil inventories, speculative activities, geopolitical instabilities in certain oil producing countries and continued weakening of the US dollars. The annual average prices for WTI, Brent and Minas crude oil were US\$72.16, US\$72.38 and US\$73.40 per barrel, respectively, representing an increase of US\$6.12, US\$7.32 and US\$8.16 per barrel, respectively, over the annual average prices in 2006. Corresponding to the rise in international crude oil prices, the average price for domestic crude oil in 2007 was higher than that of 2006.

According to the relevant statistics, domestic crude oil imports continued to increase in 2007 by 14.4% to a net total of 159 million tons compared with the previous year. Domestic crude oil output and the amount of crude oil processed reached 186 million tons and 306 million tons, respectively.

(2) Refined Products Market Review

In 2007, domestic refined product prices were still under the macro economic controls of the PRC Government, resulting in such prices were lower than the prices in the international market. Annual average ex-factory prices of domestic gasoline and diesel were RMB5,071 per ton and RMB4,653 per ton respectively, being RMB1,225 and RMB1,513 lower than the CIF per ton prices quoted in the Singapore market, respectively, while the maximum price difference reaching over RMB2,000 per ton in 2007. During the second half of 2007, international crude

14

Edgar Filing: PETROCHINA CO LTD - Form 6-K

oil prices rocketed and as a result, domestic refineries incurred heavy losses in processing. Production ceased in certain local refineries. Supply in the refined products market was once very tight. On November 1, 2007, the PRC Government raised the ex-factory prices of gasoline, diesel and aviation fuel by RMB500 per ton. Balance of demand and supply was basically restored after such price increase.

According to the relevant information, nominal consumption of domestic refined products increased by 6.9% to 186 million tons in 2007.

(3) Chemical Products Market Review

The PRC economy maintained steady and rapid growth in 2007 with an increase in the GDP of 11.4%. The rapid growth of the PRC economy has created a steady increase in the domestic demand for petrochemical products, including a 10.6% growth in the nominal consumption of plastic materials. Notwithstanding an increase in the production of petrochemical products in 2007 as a result of the commencement of production by certain newly installed facilities, amongst which the production capacity of polyethylene and polypropylene was increased by approximately 15% and 18% respectively as compared with those of the previous year, the overall increase in the supply of petrochemical products was moderate and limited and the supply remained relatively tight in the chemical products market as a result of the declining volume of import in chemical products. The prices of petrochemical products rocketed and the overall prices of petrochemical products were increased by 3.3% when compared with that of the previous year.

(4) Natural Gas Market Review

In 2007, the domestic natural gas market developed rapidly with strong growth in demand for natural gas. The external sales of natural gas reached 43.6 billion cubic metres, representing an increase of 22% as compared to that of the previous year. On August 30, 2007, the PRC Government promulgated the Policies on Natural Gas Utilisation in order to ease the supply-and-demand tension of natural gas, optimise the utilisation structure of natural gas and promote the idea of reducing energy consumption and emissions. In addition, with a view to guide the market towards a more rationalised consumption of natural gas and to narrow the difference between domestic natural gas prices and alternative energy prices, the PRC Government raised the basic ex-factory price of natural gas for industrial use by RMB400 per thousand cubic metre on November 10, 2007.

2. BUSINESS REVIEW

(1) Exploration and Production

In 2007, the Group stepped up oil and gas exploration in the PRC. Major breakthroughs of strategic significance were achieved through further geological research and emphasis on the application of new technologies, and concerted efforts on oil and gas exploration activities. In

particular, the Company discovered the Jidong Nanpu Oilfield which is with relatively high crude oil reserves. Moreover, significant progress was achieved during the oil and gas exploration in the Sichuan Basin, the Erdos Basin, the Songliao Basin and the Tarim Basin. With a better composition of orderly managed reserves, the Company has entered into the peak in the growth of reserves. In respect of overseas oil and gas exploration, new progress was made with

Edgar Filing: PETROCHINA CO LTD - Form 6-K

discovery of relatively high reserves in regions including Chad and Kazakhstan. In 2007, the Group achieved crude oil reserve replacement ratio of 1.104 and natural gas reserve replacement ratio of 3.238.

In the development of domestic oilfields, the policy of "steady development in the east, and rapid development in the west" was upheld. New ways in the exploration of oilfield and natural gas fields were actively adopted. The Company has extensively initiated works for the secondary recovery of mature oilfields so as to maintaining a steady oil and gas production through the deployment of various comprehensive measures including deepening fine reservoir characterisation, stabilising oil production by water-cut control, tertiary oil recovery and so forth, as well as actively promoting sophisticated technologies such as horizontal application and under-balanced drilling. The foundation for oil stabilization in the mature oilfields has been consolidated. The Company has also conducted overall assessment, planning and development building up the production capacity in new fields. In respect of regions outside China, various measures were adopted to slow down the reduction in the productivity of mature oilfields, strengthen the organisational operation and management of drilling and maintenance of wells and enhance the productivity of newly discovered wells. Through the above measures, in 2007, the total crude oil and natural gas output of the Group was 1,110.0 million barrels of oil equivalent, including 838.8 million barrels of crude oil and 1,627.0 billion cubic feet of marketable natural gas. In 2007, the lifting cost for the oil and gas operations of the Group was US\$7.75 per barrel, representing an increase of 15.0% from US\$6.74 per barrel in 2006.

SUMMARY OF OPERATIONS OF THE EXPLORATION AND PRODUCTION SEGMENT

	UNIT	2007	2006	YEAR-ON-YEAR CHANGE (%)
	-----	-----	-----	-----
Crude oil output	Million barrels	838.8	830.7	1.0

(2) Refining and Marketing

In 2007, faced with the growing demand in the market, the Group organised refining processing meticulously, scientifically modified refining arrangements, and optimised allocation of resources actively. Safe, steady, long-term, full-load and optimised production was achieved resulting from improvement of the production control management system. Crude oil

processing and production of key refined products reached a historically high level. In order to react to changes in the sales market proactively, resources were organised through various means. Production, transportation and distribution arrangements were enhanced and better co-ordinated. Allocation of resources was optimised. The scale of sales to end-users was expanded. The level of retail sales management and the quality of services were enhanced

Edgar Filing: PETROCHINA CO LTD - Form 6-K

continuously. All these have paved the way to form a strongly focused and highly efficient nationwide distribution network throughout the PRC, thereby ensuring a gradual stable market supply. The Group's refineries processed 823.6 million barrels of crude oil, approximately 80% of which was supplied by the Exploration and Production segment. The Group produced approximately 71.38 million tons of gasoline, diesel and kerosene and sold approximately 85.74 million tons of these products. The cash processing cost of the Group's refineries decreased from RMB169 per ton in 2006 to RMB155 per ton in 2007.

(3) Chemicals and Marketing

In 2007, the Group achieved economies of scale and steady operations in the Chemical and Marketing segment. Key technological and economic indicators improved continuously. Allocation of resources and production mix were further optimised. The production of chemical products and ethylene reached 15.55 million tons and 2.58 million tons, respectively.

SUMMARY OF OPERATIONS OF THE CHEMICALS AND MARKETING SEGMENT

OUTPUT OF KEY CHEMICAL PRODUCTS	UNIT	2007	2006	YEAR-ON-YEAR CHANGE (%)
-----	-----	-----	-----	-----
Ethylene	'000 ton	2,581	2,068	24.8

(4) Natural Gas and Pipeline

The Group proceeded with the construction of oil and gas pipelines on

Edgar Filing: PETROCHINA CO LTD - Form 6-K

schedule and in an orderly manner. A number of long-distance main pipelines, among them the Lanzhou-Yinchuan Gas Transmission Pipeline of the West-East Gas Pipeline, the Daqing-Harbin Gas Transmission Pipeline and the Dagang-Zaozhuang Refined Oil Pipeline, were completed during 2007. A nationwide gas pipeline network is being formed connecting the four gas zones of the Company. Despatch priority of natural gas was centralised which could ensure safety in the gas transmission. Natural gas sales business has leveraged the advantage of the nationwide gas pipeline network and achieved an overall balanced development in the production, transportation and marketing, thereby ensuring a safe and steady supply of natural gas in key cities and key customers.

SUMMARY OF OPERATIONS OF THE NATURAL GAS AND PIPELINE SEGMENT

6.1.2 Management Discussion and Analysis

The following discussion and analysis should be read in conjunction with the audited financial statements of the Group and the notes thereto set out in the 2007 Annual Report.

1. The financial data sets out below is extracted from the audited financial statements of the Group prepared under IFRS

(1) Consolidated Operating Results

For the twelve months ended December 31, 2007, profit before taxation of the Group was RMB204,381 million, representing an increase of 2.6% compared with the previous year. Net profit attributable to equity holders of the Company ("Net profit") was RMB145,625 million, representing an increase of 2.4% compared with the previous year. The main performance indicators of the Group have achieved record high again and the overall business strengths of the Group improved markedly. Major discoveries were made through the Group's oil and gas exploration. The oil and gas output reached another historical high in 2007. Production and marketing of refined products were steady, and the Group was able to effectively meet market demands. There was rapid progress in the development of natural gas pipelines, and construction of key projects was smooth. Development of the international operations of the Group has continued, paving the way for gradual expansion in the scale of the business of the Group's international operations.

18

For the twelve months ended December 31, 2007, the basic and diluted earnings per share attributable to equity holders of the Company were RMB0.81 (2006: RMB0.79).

Turnover Turnover increased 21.2% from RMB688,978 million for the twelve months ended December 31, 2006 to RMB835,037 million for the twelve months ended December 31, 2007. This was primarily due to the increases in the selling prices and changes in the sales volume of major products including crude oil, natural

Edgar Filing: PETROCHINA CO LTD - Form 6-K

gas and refined products, and the efforts made by the Group in expanding resources and developing markets by making use of the opportunities presented by persistently high prices in crude oil and petrochemical products in the international market. In addition, the increase of the sales of oil and gas products during the year also increased the turnover of the Group. The table below sets out the external sales volume and average realised prices for major products sold by the Group for 2006 and 2007 and percentages of change in the sales volume and average realised prices during these two years.

	SALES VOLUME ('000 TON)			AVERAGE REALISED PRICE (RMB)		
	2007	2006	PERCENTAGE OF CHANGE (%)	2007	2006	PERCENTAGE OF CHANGE (%)
Crude oil*	18,730	20,066	(6.7)	3,594	3,487	3.1
Natural gas (million cubic metre, RMB/'000 cubic metre)	43,570	35,715	22.0	693	678	2.2
Gasoline	27,003	23,899	13.0	5,168	5,035	2.6
Diesel	54,377	48,516	12.1	4,668	4,411	5.8

Lubricant	2,378	2,059	15.5	6,420	6,433	(0.2)

* The external sales volume of crude oil listed above is crude oil produced by the Company.

Operating Expenses Operating expenses increased 29.4% from RMB491,002 million for the twelve months ended December 31, 2006 to RMB635,182 million for the twelve months ended December 31, 2007, of which:

Purchases, Services and Other Expenses Purchases, services and other expenses increased 36.7% from RMB271,123 million for the twelve months ended December 31, 2006 to RMB370,740 million for the twelve months ended December 31, 2007. This was primarily due to (1) an increase in the purchase prices and purchase volume of crude oil, feedstock oil and refined products from external suppliers that resulted in the increase in the purchase costs; and (2) an increase in the lifting costs of oil and gas operations and the processing cost of the Group's refineries that resulted from the increase in prices of raw materials, fuel, energy and other production materials in the PRC as well as an expansion of the production scale of the Group. In addition, the increase in the purchase expenses also resulted from an increase in the refined product supply operations in 2007.

Employee Compensation Costs The remuneration paid by the Group in cash rose 15.3% or increased RMB3,752 million from RMB24,538 million to RMB28,290 million for 2007. Other employees' costs increased RMB7,703 million from RMB14,623 million to RMB22,326

million for 2007. As a result of the above increment, employees' compensation costs and benefits increased RMB11,455 million. This was primarily due to (1) an increase in the level of salaries and performance bonuses as a result of growth in the performance of the Group and the increase in the commodity price; (2) an

Edgar Filing: PETROCHINA CO LTD - Form 6-K

increase in the employees' compensation costs that resulted from the expansion of the scale of operations and the retail network of the Group; and (3) a sequential increase in the welfare expenses as a result of an increase in the salaries.

Exploration Expenses Exploration expenses increased 9.7% from RMB18,822 million for the twelve months ended December 31, 2006 to RMB20,648 million for the twelve months ended December 31, 2007. To further boost crude oil and natural gas resources, the Group undertook more exploration activities for crude oil and natural gas.

Depreciation, Depletion and Amortisation Depreciation, depletion and amortisation increased 8.5% from RMB61,388 million for the twelve months ended December 31, 2006 to RMB66,625 million for the twelve months ended December 31, 2007. This was primarily due to an increase in depreciation, depletion and amortisation that resulted from an increase in the average amount of property, plant and equipment and the average net value of oil and gas properties during 2007.

Selling, General and Administrative Expenses Selling, general and administrative expenses increased 19.3% from RMB43,235 million for the twelve months ended December 31, 2006 to RMB51,576 million for the twelve months ended December 31, 2007. This was primarily due to an increase in transportation, leasing, maintenance and other related costs that resulted from expansion in the production scale and business development.

Taxes other than Income Taxes Taxes other than income taxes increased 30.1% from RMB56,666 million for the twelve months ended December 31, 2006 to RMB73,712 million for the twelve months ended December 31, 2007. The increase was primarily due to a sharp increase in the payment of the special levy on the sale of domestic crude oil by the Group as international crude oil prices remained high throughout 2007.

Profit from Operations As a result of the factors discussed above, profit from operations increased 0.9% from RMB197,976 million for the twelve months ended December 31, 2006 to RMB199,855 million for the twelve months ended December 31, 2007.

Net Exchange Loss For the twelve months ended December 31, 2007, a net exchange loss of RMB866 million was recorded. For the twelve months ended December 31, 2006, there was net exchange gain of RMB74 million. The increase in the net exchange loss was primarily due to a combination of the effects of the appreciation of Renminbi against the United States Dollar and other currencies.

Net Interest Expenses Net interest expenses increased 39.1% from RMB1,154 million for the twelve months ended December 31, 2006 to RMB1,605 million for the twelve months ended December 31, 2007. The increase in net interest expenses was primarily due to an increase in

20

interest expenses recognised as a result of the accretion expense in relation to asset retirement obligations.

Profit Before Taxation Profit before taxation rose by 2.6% from RMB199,173 million for the twelve months ended December 31, 2006 to RMB204,381 million for the twelve months ended December 31, 2007.

Taxation Taxation decreased 1.3% from RMB49,776 million for the twelve

Edgar Filing: PETROCHINA CO LTD - Form 6-K

months ended December 31, 2006 to RMB49,152 million for the twelve months ended December 31, 2007. The decrease was primarily due to a reduction in the income tax of the Group for the twelve months ended December 31, 2007 as the Group reassessed its deferred taxes based on the enacted corporate income tax rate under the Corporate Income Tax Law of the PRC which came into effect on January 1, 2008.

Net Profit As a result of the factors discussed above, net profit increased 2.4% from RMB142,224 million for the twelve months ended December 31, 2006 to RMB145,625 million for the twelve months ended December 31, 2007.

(2) Segment Information

EXPLORATION AND PRODUCTION

Turnover

Turnover increased 11.1% from RMB421,340 million for the twelve months ended December 31, 2006 to RMB468,175 million for the twelve months ended December 31, 2007. The increase was primarily due to an increase in the prices and sales volume of crude oil and natural gas. The average realised crude oil price of the Group in 2007 was US\$65.27 per barrel, representing an increase of 9.1% from US\$59.81 per barrel compared with the previous year.

Operating Expenses

Operating expenses increased 29.8% from RMB201,480 million for the twelve months ended December 31, 2006 to RMB261,588 million for the twelve months ended December 31, 2007. The increase was primarily due to a sharp increase in the payment of the special levy on the sale of domestic crude oil by the Group as international crude oil prices remained high throughout 2007.

Profit from Operations

Profit from operations decreased 6.0% from RMB219,860 million for the twelve months ended December 31, 2006 to RMB206,587 million for the twelve months ended December 31, 2007. The Exploration and Production segment remains the main source of profit of the Group.

21

REFINING AND MARKETING

Turnover

Turnover rose 23.5% from RMB543,299 million for the twelve months ended December 31, 2006 to RMB670,844 million for the twelve months ended December 31, 2007. The increase was due to an increase in the realised selling prices of, and changes in the sales volume of, key refined products. The Refining and Marketing segment is the main source of external sales revenue of the Group.

Operating Expenses

Operating expenses increased 20.8% from RMB572,463 million for the twelve months ended December 31, 2006 to RMB691,524 million for the twelve months ended December 31, 2007. The increase was primarily due to an increase in the purchase costs of crude oil, feedstock oil and refined products from external suppliers, and an increase in the selling, general and administrative expenses. In addition, the increase in the operating expenses also resulted from an increase

Edgar Filing: PETROCHINA CO LTD - Form 6-K

in the level of refined product supply operations in 2007.

Loss from Operations

Loss from operations amounted to RMB20,680 million for the twelve months ended December 31, 2007, representing a reduction of RMB8,484 million for the twelve months ended December 31, 2006. The loss from the Refining and Marketing segment was primarily due to the control of the domestic prices of refined products by the PRC Government, as a result of which despite persistently high crude oil prices, prices of refined products were lower than that of the international market.

CHEMICALS AND MARKETING

Turnover

Turnover rose 24.1% from RMB82,791 million for the twelve months ended December 31, 2006 to RMB102,718 million for the twelve months ended December 31, 2007. The growth in turnover was primarily due to an increase in the selling prices and sales volume of certain chemical products.

Operating Expenses

Operating expenses increased 22.1% from RMB77,733 million for the twelve months ended December 31, 2006 to RMB94,887 million for the twelve months ended December 31, 2007. The increase was primarily due to an increase in the purchase costs for direct materials and selling, general and administrative expenses.

22

Profit from Operations

Profit from operations increased 54.8% from RMB5,058 million for the twelve months ended December 31, 2006 to RMB7,831 million for the twelve months ended December 31, 2007. Benefiting from the advantages created by the integration of production and marketing of chemical products, the volumes of production of high value-added and special products were increased to a great extent, and operating efficiency and profitability continued to improve in the Chemicals and Marketing segment.

NATURAL GAS AND PIPELINE

Turnover

Turnover increased 28.6% from RMB38,917 million for the twelve months ended December 31, 2006 to RMB50,066 million for the twelve months ended December 31, 2007. The increase was primarily due to an increase in the sales volume and selling prices of natural gas, and an increase in the volume of natural gas from pipeline transmission and the average price for pipeline transmission of natural gas.

Operating Expenses

Operating expenses increased 25.5% from RMB29,931 million for the twelve months ended December 31, 2006 to RMB37,571 million for the twelve months ended December 31, 2007. The increase was primarily due to an increase in the purchase costs of natural gas and an increase in depreciation charges.

Profit from Operations

Edgar Filing: PETROCHINA CO LTD - Form 6-K

Profit from operations increased 39.0% from RMB8,986 million for the twelve months ended December 31, 2006 to RMB12,495 million for the twelve months ended December 31, 2007. The natural gas and pipeline business grew rapidly and has become a new profit growth engine of the Group.

23

(3) Assets, Liabilities and Equity

The following table sets out the key items in the consolidated balance sheet of the Group:

	AS AT DECEMBER 31, 2007 RMB MILLION	AS AT DECEMBER 31, 2006 RMB MILLION	PERCENTAGE OF %
	-----	-----	-----
Total assets	1,060,131	872,163	21.6
Current assets	231,175	162,222	42.5
Non-current assets	828,956	709,941	16.8
Total liabilities	283,784	254,572	11.5
Current liabilities	198,095	179,879	10.1
Non-current liabilities	85,689	74,693	14.7
Equity attributable to equity holders of the Company	733,405	586,677	25.0
Share capital	183,021	179,021	2.2
Reserves	217,952	143,564	51.8
Retained earnings	332,432	264,092	25.9
Total equity	776,347	617,591	25.7

Total assets amounted to RMB1,060,131 million, representing an increase of 21.6% from that at the end of 2006, of which:

Current assets amounted to RMB231,175 million, representing an increase of 42.5% from the current assets as at the end of 2006. The increase in the current assets was primarily due to: an increase in cash, cash equivalents and time deposits with maturities over three months but within one year in the aggregate amount of RMB31,965 million resulting from a combination effect of the issuance of A shares by the Company and an increase in the investment activities expenditures of the Company; an increase in inventories of an amount of RMB12,429 million as a result of rising prices and volume of inventories; an increase in accounts receivable in the amount of RMB9,931 million as a result of the development of the principal operations and the increase in income from the principal operations of the Group and an increase in advances in the amount of RMB12,737 million as a result of an increase in investment expenditures.

Non-current assets amounted to RMB828,956 million, representing an increase of 16.8% from the non-current assets as at the end of 2006. The increase in non-current assets was primarily due to an increase in capital expenditures, resulting in an increase in property, plant and equipment (including fixed assets, oil and gas properties etc.) in the amount of RMB117,545 million.

Total liabilities amounted to RMB283,784 million, representing an increase of 11.5% from the total liabilities as at the end of 2006, of which:

Current liabilities amounted to RMB198,095 million, representing an

Edgar Filing: PETROCHINA CO LTD - Form 6-K

increase of 10.1% from the current liabilities as at the end of 2006. The increase in current liabilities was primarily due to an increase in procurement expenditure that resulted in an increase in accounts payable and accrued liabilities of RMB24,171 million.

24

Non-current liabilities amounted to RMB85,689 million, representing an increase of 14.7% from the non-current liabilities as at the end of 2006. The increase in non-current liabilities was primarily due to an increase in estimated liabilities of RMB6,280 million in relation to assets retirement obligations, and an increase in long-term borrowings of RMB4,054 million.

Equity attributable to the equity holders of the Company amounted to RMB733,405 million, representing an increase of 25.0% from the equity attributable to equity holders of the Company as at the end of 2006. The increase in equity attributable to the Company's equity holders was primarily due to an increase in the amount of the retained earnings and the issuance of A shares resulting in an increase in the share capital and reserves.

(4) Cash Flows

The primary sources of funds of the Group are cash generated from operating activities and short-term and long-term borrowings. The funds of the Group are mainly used for operating activities, capital expenditures, repayment of short-term and long-term borrowings and distribution of dividends to equity holders of the Company.

The table below sets forth the cash flows of the Group for the year ended December 31, 2007 and December 31, 2006 respectively and the amount of cash and cash equivalents as at the end of each year:

	YEAR ENDED DECEMBER 31,	
	2007	2006
	RMB MILLION	RMB MILLION
Net cash flows generated from operating activities	203,748	198,102
Net cash flows used for investing activities	(184,205)	(158,451)
Net cash flows used for financing activities	(2,648)	(71,739)
Currency translation differences	40	(258)
Cash and cash equivalents as at the end of year	65,494	48,559

NET CASH FLOWS GENERATED FROM OPERATING ACTIVITIES

The net cash flows of the Group generated from operating activities for the twelve months ended December 31, 2007 was RMB203,748 million, representing an increase of 2.9% compared with RMB198,102 million generated for the twelve months ended December 31, 2006. As at December 31, 2007, the Group had cash and cash equivalents of RMB65,494 million. The cash and cash equivalents were mainly denominated in Renminbi (approximately 88.9% were denominated in Renminbi, and approximately 11.1% were denominated in United States Dollars).

25

Edgar Filing: PETROCHINA CO LTD - Form 6-K

NET CASH FLOWS USED FOR INVESTING ACTIVITIES

The net cash flows of the Group used for investing activities for the twelve months ended December 31, 2007 was RMB184,205 million, representing an increase of 16.3% compared with RMB158,451 million used for the twelve months ended December 31, 2006. The net increase in cash flows used for investing activities was primarily due to an increase in capital expenditures paid in cash during the year.

NET CASH FLOWS USED FOR FINANCING ACTIVITIES

The net cash flows of the Group used for financing activities for the twelve months ended December 31, 2007 was RMB2,648 million, representing a decrease of RMB69,091 million compared with RMB71,739 million used for the twelve months ended December 31, 2006. The net decrease was primarily due to an increase in the amount of cash flows generated from financing activities of the Group as a result of the issuance of A shares by the Company during the year.

The net borrowings of the Group as at December 31, 2007 and December 31, 2006, respectively, are as follows:

	AS AT DECEMBER 31, 2007 RMB MILLION	AS AT DECEMBER 31, 2006 RMB MILLION
	-----	-----
Short-term borrowings (including current portion of long-term borrowings)	30,934	35,763
Long-term borrowings	39,688	35,634
	-----	-----
Total borrowings	70,622	71,397
	-----	-----
Less: Cash and cash equivalents	(65,494)	(48,559)
	-----	-----
Net borrowings	5,128	22,838
	=====	=====

Maturities of long-term borrowings of the Group are as follows:

	PRINCIPAL AS AT DECEMBER 31, 2007 RMB MILLION	PRINCIPAL AS AT DECEMBER 31, 2006 RMB MILLION
	-----	-----
To be repaid within one year	12,200	20,607
To be repaid within one to two years	5,754	11,797
To be repaid within two to five years	19,898	10,449
To be repaid after five years	14,036	13,388
	-----	-----
	51,888	56,241
	=====	=====

Of the total borrowings of the Group as at December 31, 2007, approximately 17.0% were fixed-rate loans and approximately 83.0% were floating-rate loans. Of

Edgar Filing: PETROCHINA CO LTD - Form 6-K

the borrowings as at December 31, 2007, approximately 67.4% were denominated in Renminbi, approximately 28.8% were denominated in United States Dollars, approximately 2.8% were denominated in Hong Kong Dollars, approximately 0.6% were denominated in Singapore Dollars,

26

approximately 0.3% were denominated in Euro and approximately 0.1% were denominated in Japanese Yen.

As at December 31, 2007, the gearing ratio of the Group (gearing ratio = interest-bearing debts/(interest-bearing debts + total equity)) was 8.3% (10.4% as at December 31, 2006).

(5) Capital Expenditures

For the twelve months ended December 31, 2007, capital expenditures of the Group increased 22.1% to RMB181,583 million from RMB148,746 million for the twelve months ended December 31, 2006. The increase in capital expenditures was primarily due to an increase in expenditures relating to crude oil and natural gas exploration and development, and construction of major petrochemical projects in 2007 as well as increases in the prices of steel, fuel oil, water, electricity and other production materials.

	FOR THE TWELVE MONTHS ENDED DECEMBER 31,

Total	181,583	100	148,746	100	207,900	100

* If investments related to geological and geophysical exploration costs were included, the capital expenditures and investments for the Exploration and Production segment for 2006 and 2007, and the estimates for the same in 2008 would be RMB114,520 million, RMB145,743 million and RMB143,200 million, respectively.

Exploration and Production

The majority of the Group's capital expenditures were related to the Exploration and Production segment. For the twelve months ended December 31, 2007, capital expenditures in relation to the Exploration and Production segment amounted to RMB134,256 million, including RMB23,914 million for oil and gas

Edgar Filing: PETROCHINA CO LTD - Form 6-K

exploration activities and RMB91,463 million for oil and gas development activities. The increase in capital expenditures was primarily due to an increase in expenditures relating to oil and gas exploration and development of new proven oilfields and gas fields which reflects the Group's goal to boost reserves and achieve steady growth of oil and gas output.

The Group anticipates that capital expenditures for the Exploration and Production segment for 2008 will amount to RMB132,300 million. Approximately RMB24,200 million will be used for oil and gas exploration, and RMB90,500 million will be used for oil and gas development. Exploration and development activities will mainly emphasise the overall control

27

of Jidong Nanpu region and other regions. Construction of new proven oilfields and gas fields will be carried out, while secondary recovery of and steady production of mature oilfields will also be emphasised.

Refining and Marketing

Capital expenditures for the Group's Refining and Marketing segment for the twelve months ended December 31, 2007 amounted to RMB26,546 million, including RMB6,580 million was used in the expansion of the highly efficient retail sales network of refined products and storage infrastructure facilities for oil products and RMB15,266 million was used in the reconstruction of refining facilities. The increase in these capital expenditures was primarily due to the construction and expansion of refining facilities.

The Group anticipates that capital expenditures for the Refining and Marketing segment for 2008 will amount to RMB23,000 million, of which approximately RMB16,100 million for construction and expansion of refining facilities, which mainly include the construction of large scale refining projects such as Dalian Petrochemical, Dushanzi Petrochemical, Guangxi Petrochemical and Fushun Petrochemical, and approximately RMB6,900 million for investments in the expansion of the sales network for refined products and construction of storage infrastructure facilities for oil products.

Chemicals and Marketing

Capital expenditures for the Chemicals and Marketing segment for the twelve months ended December 31, 2007 amounted to RMB8,165 million, which were used mainly for the construction and expansion of petrochemical facilities.

The Group anticipates that capital expenditures for the Chemicals and Marketing segment for 2008 will amount to RMB13,200 million, which are expected to be used primarily for the construction and expansion of petrochemical facilities including large scale ethylene projects such as Dushanzi Petrochemical, Daqing Petrochemical, Fushun Petrochemical and Sichuan Petrochemical.

Natural Gas and Pipeline

Capital expenditures in the Natural Gas and Pipeline segment for the twelve months ended December 31, 2007 amounted to RMB11,003 million. The Group incurred RMB8,980 million of these expenditures on the construction of long distance pipelines.

The Group anticipates that capital expenditures for the Natural Gas and Pipeline segment for 2008 will amount to RMB37,700 million, which are expected

Edgar Filing: PETROCHINA CO LTD - Form 6-K

to be used primarily for main oil and gas transmission projects such as the Lanzhou-Zhengzhou-Changsha refined oil pipeline project, the Second West-East Gas Pipeline project and associated gas storage facilities and LNG projects.

28

Others

Capital expenditures for Other segment (including research and development activities) for the twelve months ended December 31, 2007 were RMB1,613 million.

The Group anticipates that capital expenditures for Other segment for 2008 will amount to approximately RMB1,700 million, which are expected to be used primarily for research and development activities and for implementation of ERP and other information systems.

6.2 BUSINESS PROSPECT

Looking forward in 2008, the global economy will hopefully maintain steady growth, and the Chinese economy will maintain its rapid growth momentum. These will continue to fuel the demand for oil and natural gas and petrochemical products. Government regulations will become more stringent. The public will be more concerned with changes in crude oil prices and stability in oil and gas supply. Confronted with complicated and ever changing external environment, and ever increasing market competition, the Group will seek new growth engines positively in order to achieve good and rapid business developments, and continue to implement the three main strategies in the areas of resources, marketing and internationalisation of operations. The Group will continue to place top priority on resources exploration and development and further consolidate its leading position of the upstream business in China. The Group will speed up modification of the strategic structure of its refinery and petrochemical business and to develop such business in an orderly and efficient manner. Sales of refined products and petrochemical products could be improved to ensure market supply. Construction of strategic pipelines and the domestic pipeline network will be enhanced with a view to building up a diversified oil and gas supply system. The Group will continue to enhance international energy co-operation opportunities in order to be mutually benefited, and endeavour to achieve efficient and sustainable development of its overseas businesses.

In respect of exploration and production, the Group will continue to place top priority on resources exploration and development and further consolidate the leading position of its upstream business in China. The Group will stress

Edgar Filing: PETROCHINA CO LTD - Form 6-K

the parallel development of oil and gas exploration, carry out exploration at the key basins and focus on key preliminary exploration projects. Exploration of mature oilfields will be enhanced, and venture into the exploration of new oilfields will be pushed forward actively. The Group will endeavour to unearth sizeable and high quality reserves with a view to meet the annual reserves target. In oilfield exploration, emphasis will be placed on the overall development of new oilfields. The Group has extensively initiated works to achieve a steady oil and gas production in mature oilfields through the deployment of various comprehensive measures including conducting secondary recovery of mature oilfields, strengthening the descriptive analysis of reserves and unearthing potential resources. In natural gas exploration, emphasis will be placed on construction in key

31

gas regions, overall planning and development and production planning. Production capacity will be enhanced at a quicker pace so that rapid growth of natural gas production can be sustained.

In respect of refining and petrochemicals, the Group will speed up modification of the strategic structure of its refinery and petrochemical business to expedite and facilitate the construction of large-scale refinery and petrochemical bases and to develop such business in an orderly and efficient manner. The Group will strive to meet market requirements for refined products and petrochemical products necessitated by rapid growth in the economic and social developments by improving production organisation and management, arranging for resources processing in a scientific manner, and ensuring full load operation of refinery facilities and high load, safe and steady operation of petrochemical facilities. The Group will continue to improve different economic and technological indicators, optimise product mix, and improve market competitiveness.

In respect of the sale of refined products, the Group will further improve the refined products sales and distribution network and sales information system. Efforts will be made to explore profitable markets. Regulated management of service stations and regulated sales of refinery products will be strengthened with a view to increase the retail sales and daily sales of individual service station. The Group will endeavour to improve the marketing quality and operating efficiency of the sale of high quality lubricants business. Increasing efforts will be made to achieve overall balance of better resources allocation, optimisation and utilisation of resources in various markets in order to ensure supply of refined products in the domestic market.

In respect of natural gas and pipeline construction, the Group will continue to pursue actively key construction projects. Construction of the four major strategic oil and gas pipelines in the northwestern, northeastern and southwestern China as well as in the sea and the domestic trunk pipeline network will be sped up. Storage and transportation facilities and resources despatch capabilities will be improved. A nationwide pipeline network and supply system characterised by diversification of resources, flexible despatch priority and stable supply will be established. Overall balance of the allocation of natural gas resources will be enhanced. Linkage of production, transportation and marketing will be enhanced. Utilisation of gas will be optimised, and marketing efficacy could be boosted. Further studies on extended natural gas business will be conducted with a view to achieving secondary value-added benefits to the application of natural gas.

In respect of international operations, the Group will continue to enhance international energy co-operation opportunities in order to obtain mutual

benefits, and endeavour to achieve efficient and sustainable development of the scale of its overseas businesses. The Group will focus on oil and gas exploration, continue to expand the scale of reserves and speed up the pace of overseas businesses development. Subject to proper risk management, the Group will develop its current businesses steadily in the global market, continue to utilise various business forms, and gradually improving the allocation of resources of the Group to an international level.

32

In respect of safety and environmental protection, the Group will continue to adhere firmly to the principle of "prioritising of safety, environmental protection and people-orientation" and minimise potential risks in full force. The Group will promote the effective operation of the Health, Safety and Environment (HSE) management system. The Group will put its emphasis on energy saving, water saving and land saving and reducing emission of pollutants, and continue to improve efficiency in utilisation of resources.

In its future development, the Group will continue to emphasise two main guiding principles, namely, scientific development and social harmony. The Group will continue to conduct its business in a prudent and steady manner, thereby increasingly enhancing its corporate value and actively fulfilling its economic, environmental and social responsibilities to maximise returns to its equity holders, the society and its staff.

6.3 RISK FACTORS

During the course of its production and operations, the Group actively took various measures to avoid and mitigate all types of risks. However, in practice, it may not be possible to prevent all risks and uncertainties completely.

1. Industry Regulations and Tax Policies Risk

Like other oil and gas companies in China, the Group's operating activities are subject to extensive regulations and controls by the PRC Government. These regulations and controls, such as by way of issue of exploration and production licences, the imposition of industry-specific taxes and levies and the implementation of environmental policies and safety standards etc., are expected to have impact on the Group's operating activities. Any future changes in the PRC governmental policies in respect of oil and gas industry may also affect the Group's business operations.

Taxes and levies are one of the major external factors affecting the operations of the Group. The PRC Government is actively progressing taxation reform which may lead to changes in the taxes and levies relating to the operations of the Group, thereby affecting the operating results of the Company.

2. Price Fluctuations of Crude Oil and Refined Products Risk

The Group is engaged in a wide range of petroleum-related activities. The prices of crude oil and refined products in the international market are affected by various factors such as changes in global and regional politics and economy, the supply and demand conditions of crude oil and refined products and unexpected political events and disputes with international repercussions. The domestic crude oil price is determined with reference to international price of crude oil, and in 2006, the PRC established new refined products pricing mechanism based on macro economic controls. However, as affected by the macro economic controls in the PRC, the prices of domestic refined products were not adjusted in line with the prices in the

international market. The Group has not adopted any commodity derivative instruments to hedge against potential price fluctuations of crude oil and refined products. Therefore, the Group is exposed to general price fluctuations of oil and gas commodities in 2008 and thereafter.

3. Foreign Exchange Rate Risk

The Group conducts its business primarily in Renminbi. Currently, the PRC Government has implemented a regulated floating exchange rate regime based on market supply and demand with reference to a basket of currencies. However, Renminbi is still regulated in capital projects. The exchange rates of Renminbi are affected by domestic and international economic developments and political changes, and supply and demand for Renminbi. Future exchange rates of Renminbi against other currencies could vary significantly from the current exchange rates, hence affects the operating results and financial position of the Group.

4. Market Competition Risk

The Group has distinctive advantages in resources, and is occupying a leading position in the oil and gas industry in the PRC. At present, major competitors of the Group are other large domestic oil and petrochemical producers and sellers. With the gradual opening up of the domestic oil and petrochemical industry, certain large foreign oil and petrochemical companies have become competitors of the Group in certain regions and segments. The exploration and production business and natural gas and pipeline business of the Group have been in a leading position in China, but the refining and marketing business and the chemicals and marketing business of the Company are facing relatively keen competition.

5. Uncertainty of the Oil and Gas Reserves

According to industry characteristics and international customs, the crude oil and natural gas reserves data disclosed by the Group are estimates only. The Group has already engaged evaluation companies who are internationally recognised to evaluate the crude oil and natural gas reserves of the Group on a periodic basis. However, the reliability of reserve estimate depends on a number of factors, assumptions and variables, such as the quality and quantity of technical and economic data, the prevailing oil and gas prices applicable to the production of the Group etc., many of which are beyond the control of the Group and may be adjusted over time. Results of drilling, testing and exploration results after the date of the estimates may also result in revision to the reserves data of the Group.

6. Hidden Hazards Risks and Force Majeure Risk

Oil and gas exploration, development, storage and transportation and the production, storage and transportation of refined products and petrochemical products are faced with certain risks, which may cause unexpected or dangerous events, such as personal injuries or death, property damage, environmental damage and interruption of operations etc. With the expansion

Edgar Filing: PETROCHINA CO LTD - Form 6-K

of operations scale and regions, the safety risks faced by the Group also increase accordingly. Meanwhile, new regulations adopted in recent years set out higher standard for safety production. The Group has implemented a strict HSE management system and used its best endeavours to prevent the occurrence of various accidents. However, the Group cannot completely avoid potential financial losses caused by such contingent incidents. In addition, natural disasters such as earthquake, typhoon, tsunami and emergency public health events may cause losses to the properties and personnel of the Group, and may affect the normal operations of the Group.

CNPC has completed none of the necessary governmental procedures for the service stations located on collectively-owned land parcels and the conduct of relevant activities at the above parcels of land, service stations and buildings are not completed by the fact that the relevant land use right certificates and individual building ownership certificates have not been completed or the fact that the relevant governmental procedures have not been completed. The outcome of the above events will have a material adverse effect on the operating results and financial position of the Group.
	According to the Non-Competition Agreement entered into between CNPC and the Company on March 10, 2000, CNPC has undertaken to the Company that CNPC will not, and will procure its subsidiaries not to, develop, operate, assist in operating nor participate in any businesses by itself or jointly with another	At present, CNPC operated the following businesses which are identical or similar to the core businesses of the Group: 1. Overseas operations which are identical or similar to the core businesses of the Group. CNPC has overseas operations in relation to exploration and production of crude oil and natural gas as well as processing, storage and transportation of petroleum, chemical and other petroleum products. CNPC has oil and gas exploration and development operations in many overseas countries and regions. As the laws of the countries where ADS are listed prohibit

company within or outside the PRC that will compete with or lead to competition with the core businesses of the Group. According to the Agreement, CNPC has also granted to the Company pre-emptive rights to transaction with regards to part of its assets.

CNPC undertook that "for a period of 36 months commencing from the date of listing of the A shares of the Company on the Shanghai Stock Exchange, it will not transfer or entrust others for the management of the A shares which it holds, or allow such shares to be repurchased by the Company. However, certain

citizens from directly or indirectly financing or investing in oil and gas projects in certain countries, CNPC did not finance or invest in overseas oil and gas projects in certain countries to

2. The existing projects of CNPC (Hong Kong) Limited

Prior to the Company's listing on the Hong Kong Stock Exchange, CNPC (Hong Kong) Limited had three projects as follows: (1) Liaohe Oilfield in Liaohai; (2) Liaohe Oilfield in Liaohe; (3) Sukothai Oilfield in Thailand production right concession. After the establishment of the Company, CNPC (Hong Kong) Limited engaged in additional projects.

Upon establishment of the Company, CNPC's interests in CNPC (Hong Kong) Limited were not injected to the Company because CNPC (Hong Kong) Limited had businesses both in China and overseas prior consent of the independent shareholders of CNPC (Hong Kong) Limited, the overseas businesses of CNPC (Hong Kong) Limited will not be restructured as part of the restructuring of the

To date, compared to the Company, the total asset and revenue of CNPC (Hong Kong) Limited is relatively small. The operations of each of CNPC (Hong Kong) Limited and the Group will not constitute substantive competition with the Company.

3. Five sets of chemical production facilities

Five sets of chemical production facilities, namely, an alcohol facility, an acrylonitrile facility, a polybutadiene rubber facility, an acrylic fibre chemical facility and a styrene unit comprising of four styrene units have been wholly owned by the Company since the Company's establishment. Other than the advanced facility which has ceased production, the rest of the facilities are under normal operation.

Given the five sets of chemical production facilities are relatively small in scale, low in productivity and price as compared with similar facilities of the Group, they do not constitute substantive competition with the principal businesses of the Group.

4. Service stations wholly owned by CNPC or jointly owned by CNPC and third parties CNPC also owns a number of service stations (those service stations were not injected into the Company due to ambiguity in the ownership). Given the sales of refined products of these service stations are relatively small compared with that of the Company, they will not constitute substantive competition with the Company.

CNPC has not violated the relevant undertaking.

In accordance with the relevant PRC income tax rules and regulations, the PRC corporate income tax rate applicable to the Group is principally 33% (2006: 33%). Operations of the Group in certain regions in China have qualified for certain tax incentives in the form of reduced income tax rate to 15% through the year 2010 and accelerated depreciation of certain property, plant and equipment.

The tax on the Group's profit before taxation differs from the theoretical amount that would arise using the corporate income tax rate in the PRC applicable to the Group as follows:

On March 16, 2007, the National People's Congress approved the Corporate Income Tax Law of the PRC (the "new CIT Law"), which is effective from January 1, 2008. Under the new CIT Law, the corporate income tax rate applicable to the Group is reduced to 25% from January 1, 2008, replacing the previously applicable tax rate of 33%.

The management of the Group has reassessed its tax position in the year ended December 31, 2007 by reference to the enacted new CIT Law and accordingly a net decrease in deferred tax charge for the year ended December 31, 2007 of RMB3,758 million was recorded.

(iv) BASIC AND DILUTED EARNINGS PER SHARE

Basic and diluted earnings per share for the year ended December 31, 2007 have been computed by dividing profit for the year attributable to equity holders of the Company by the weighted average number of 179,700 million shares issued and outstanding for the year.

Basic and diluted earnings per share for the year ended December 31, 2006 have been computed by dividing profit for the year attributable to equity holders of the Company by the number of 179,021 million shares issued and outstanding for the year.

		=====	=====

Edgar Filing: PETROCHINA CO LTD - Form 6-K

- (1) Depletion for oil and gas properties is provided using the unit of production method under IFRS, while the straight-line method is used under CAS.
- (2) During the Restructuring in 1999, valuation was carried out on June 30, 1999 for assets and liabilities CNPC invested. Valuation results from China Enterprise Appraisals are all recognised in financial statements under CAS. However, in the financial statements under IFRS, revaluation

55

model is used in subsequent measurement by the Group only for fixed assets and oil and gas properties. Consequently, valuation results other than fixed assets and oil and gas properties are not recognised in the financial statements under IFRS.

- (3) As revaluation model is used in subsequent measurement for fixed assets and oil and gas properties by the Group under IFRS, revaluation should be carried out by independent appraisers regularly. In order to meet the requirement of IFRS, on September 30, 2003, a revaluation of the Group's refining and chemical production equipment was undertaken by a firm of independent valuers, China United Assets Appraiser Co., Ltd., in the PRC on a depreciated replacement cost basis. The result of revaluation is recognised in the financial statements under IFRS. However, fixed assets and oil and gas properties are measured by cost model under CAS. Consequently, these revaluation results are not recognised in the financial statements under CAS.
- (4) Under CAS, once recognised, the impairment loss for long-term assets, such as fixed assets, oil and gas properties, intangible assets and long-term equity investment, cannot be reversed in subsequent accounting periods. However, under IFRS, once changes have been indicated for various factors based on which impairment for long term assets was provided and make the recoverable amount higher than the carrying amount, the impairment loss recognised previously shall be reversed.
- (5) In accordance with the "Temporary regulation for safety expense financial management of high risk industry" from MOF of PRC, this safety fund has been accrued for the Group's oil and gas exploration, refinery and chemical production activities within PRC from January 1, 2007. This safety fund has been recognised into the Group's income statement. The accrued safety fund will be used for improving the safety conditions of production. As the Group did not have specific utilisation plan for this accrued safety fund as at December 31, 2007, it was reversed under IFRS.
- (6) The consequences of (1)-(5) and other differences between IFRS and CAS on deferred taxation.

9.3 EXPLANATION FOR CHANGES IN ACCOUNTING POLICY, ACCOUNTING ESTIMATE OR RECOGNITION POLICY AS COMPARED WITH THOSE FOR LAST ANNUAL REPORT

Applicable Not applicable

On January 1, 2007, the Group adopted the CAS. The financial statements of the Group for the year ended December 31, 2007 are the first set of annual financial statements prepared in accordance with CAS.

The Company is an H shares-listed company which, up to December 31, 2006,

Edgar Filing: PETROCHINA CO LTD - Form 6-K

used to prepare its consolidated financial statements in accordance with both the "Accounting System for Business Enterprises" issued on December 29, 2000 and the Accounting Standards for Business Enterprises and other regulations applicable that were issued before February 15, 2006 (the "old CAS") in China and the IFRS. According to the related regulations in CAS "Interpretation No.1", the comparative figures in respect of 2006 were retrospectively adjusted and restated to reflect these adjustments according to the differences between the standards under CAS and the old CAS, in addition to the retrospective adjustments required by article 5 to 19 of CAS 38 "Initial Implementation of Accounting Standards for Business Enterprises".

56

The main retrospective adjustments include:

- Equity investment differences arising from a business combination under common control and other credit equity investment differences of long-term equity investment under the equity method were written off.
- Goodwill arising from a business combination under common control was written off.
- Recognition of deferred tax assets and liabilities related to the temporary differences between the carrying amount of assets or liabilities and their tax bases, and the deductible loss and tax credits that can be carried forward.
- Long-term equity investments in subsidiaries are retrospectively adjusted in the Company's separate financial statements as if the subsidiaries have been accounted for at cost from the initial recognition.

9.4 NATURE, CORRECTED AMOUNT, REASON AND IMPACT OF MATERIAL ACCOUNTING ERROR

There is no material accounting error in the current reporting period.

9.5 CHANGES IN THE SCOPE OF CONSOLIDATION AS COMPARED WITH THOSE FOR LAST ANNUAL REPORT

Applicable Not applicable

On December 28, 2006, the Group acquired a 67% equity interest in PetroKazakhstan Inc. from CNPC International Limited, a subsidiary of CNPC for a consideration of RMB21,376 million. Pursuant to the shareholders' agreement in relation to the acquisition of PetroKazakhstan Inc., each shareholder had a veto right relating to certain financial and operating decisions, and the Group was therefore considered to have joint control over PetroKazakhstan Inc.. As such, in accordance with the Group's accounting policy, the Group accounted for its investment in PetroKazakhstan Inc. using the equity method of accounting from December 28, 2006.

On December 12, 2007, through a supplementary agreement between the Group and the minority shareholder of PetroKazakhstan Inc., the Group gained control over PetroKazakhstan Inc. from that date. Therefore, as of the date it acquired control over PetroKazakhstan Inc., December 12, 2007, the Group accounts for its investment in PetroKazakhstan Inc. as a subsidiary.

57

10 REPURCHASE, SALE OR REDEMPTION OF SECURITIES

The Company or any of its subsidiaries did not sell any securities of the Company, nor did it repurchase or redeem any of the securities of the Company during the twelve months ended December 31, 2007.

58

11 COMPLIANCE WITH THE MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS

The Company has adopted the Model Code for Securities Transactions for Directors of Listed Issuers contained in Appendix 10 of the Listing Rules (the "MODEL CODE"). The Company has made an inquiry with all its Directors and Supervisors. Each Director and Supervisor has confirmed to the Company that each of them has complied with the requirements set out in the Model Code.

59

12 COMPLIANCE WITH THE CODE ON CORPORATE GOVERNANCE PRACTICES

The Company is dedicated to enhancing the level of its corporate governance. The Company has complied with the code provisions under the Code on Corporate Governance Practices under the Listing Rules applicable during the year ended December 31, 2007, except that since May 20, 2007, the roles of the chairman and the president were held by the same person. Following the retirement of Mr Chen Geng, the then chairman of the Board, Mr Jiang Jiemin, who was the president and vice chairman of the Company, has since May 20, 2007 been appointed as the chairman of the Board concurrently with his role as the president of the Company. With his extensive experience in China's oil and gas industry and substantial knowledge of the operations and management of the Company, the Board believes that Mr Jiang will continue to provide strong leadership to the Board and facilitate the Company to implement its plans and strategies smoothly and effectively. The Board believes that such change in the management structure will not affect the operations and business development and corporate governance of the Company. In view of the importance of the role as the president, should there be a candidate with the suitable credentials, the Board will consider appointing a new president to comply with the relevant requirement under the Code on Corporate Governance Practices.

60

13 AUDIT COMMITTEE

The members of the audit committee of the Company formed pursuant to Appendix 14 of the Listing Rules include Mr Franco Bernabe, Mr Chee-Chen Tung, Mr Liu Hongru and Mr Gong Huazhang. The main responsibilities of the audit committee are the review and monitoring of the form of financial submissions and the internal control mechanism of the Group and giving advice to the Board of Directors.
