Identification No.)

Edgar Filing: PUMATECH INC - Form 8-K/A

2550 North First Street, San Jose, California 95131

(408) 321-7650

This Form 8-K/A is to amend Pumatech, Inc. (the Company) Form 8-K filed April 11, 2003, which was amended by the Company's Form 8-K/A filed June 10, 2003, by providing updated pro forma financial information through April 30, 2003 in connection with the acquisition by the Company of all of the outstanding shares of capital stock of Starfish Software, Inc., a California corporation (Starfish).

Item 7. Financial Statements and Exhibits.

a) Pro forma financial information.

The required pro forma financial information included in this Amended Current Report on Form 8-K/A, which gives effect to the acquisition of Starfish is as follows:

Pro Forma Financial Information

	Page
• <u>Unaudited Pro Forma Combined Condensed Financial Information</u>	2
• <u>Unaudited Pro Forma Combined Condensed Statement of Operations for the Nine Months Ended April 30, 2003</u>	3

• <u>Notes to the Unaudited Pro Forma Combined Condensed Statements of Operations</u>	5

UNAUDITED PRO FORMA COMBINED CONDENSED

FINANCIAL INFORMATION

The unaudited pro forma combined statements of operations for the nine months ended April 30, 2003, and for the year ended July 31, 2002, have been prepared to reflect the acquisition of all of the outstanding capital stock of Starfish Software, Inc. by Pumatech, Inc. which occurred on March 27, 2003 as previously reported by Pumatech on Form 8-K filed on April 11, 2003, as amended by Report on Form 8-K/A filed June 10, 2003. The acquisition has been accounted for using the purchase method of accounting.

On March 27, 2003, Pumatech acquired Starfish for cash consideration of approximately \$1,679,000. In addition, Pumatech is estimated to incur direct acquisition costs of approximately \$152,000. The estimated direct acquisition costs consist primarily of legal and accounting fees, and printing costs to be incurred by Pumatech which are directly related to the acquisition.

The unaudited pro forma combined condensed statement of operations for the nine months ended April 30, 2003 combines the unaudited historical condensed statements of operations of Pumatech for the nine months ended April 30, 2003 and Starfish for the eight months ended February 28, 2003. These statements give effect to the acquisition as if it had occurred on August 1, 2002. Since the acquisition took place on March 27, 2003, one month of Starfish results are included in the consolidated Pumatech results for the nine months ended April 30, 2003. The unaudited pro forma condensed statement of operations for the year ended July 31, 2002 combines the audited historical statement of operations of Pumatech for the year ended July 31, 2002 and the results of operations of Starfish for the twelve months ended June 30, 2002. These statements give effect to the acquisition as if it had occurred on August 1, 2001. The unaudited pro forma combined condensed financial statements do not include the realization of cost savings from operating efficiencies, synergies or other restructurings that may result from the acquisition.

The unaudited pro forma combined condensed financial statements are presented for illustrative purposes only and is not necessarily indicative of the operating results that would have occurred if the acquisition had been consummated at the beginning of the earliest period presented, nor is it necessarily indicative of future operating results. The pro forma adjustments are based upon information and assumptions available at the time of the filing of this document. The preliminary purchase price allocation for Starfish is subject to revision as more detailed analysis is completed and additional information on the fair values of Starfish's assets and liabilities becomes available. Any change in the fair value of the net assets of Starfish will change the amount of the purchase price allocable to goodwill. Final purchase accounting adjustments may differ materially from the pro forma adjustments presented herein.

The pro forma information should be read in conjunction with the accompanying notes thereto, Pumatech's historical consolidated financial statements and related notes thereto included in Pumatech's Annual Report on Form 10-K for the year ended July 31, 2002, and Quarterly Report on Form 10-Q for the quarter ended April 30, 2003, on file with the Securities and Exchange Commission, and Starfish's historical statements and related notes thereto included in this Form 8-K/A.

- (1) Starfish's results of operations for the twelve months ended June 30, 2002 were calculated by adding the results of operations for the six months ended December 31, 2001 to, and deducting the results of operations for the six months ended December 31, 2002 from, the results of operations for the twelve months ended December 31, 2002.

The accompanying notes are an integral part of these combined condensed financial statements.

Pumatech, Inc.

Notes to the Unaudited Pro Forma Combined Condensed Statements of Operations

1. Basis of Pro Forma Presentation

On March 27, 2003, Pumatech acquired Starfish for a purchase price of approximately \$1.8 million for the Starfish common stock outstanding upon the effective date of the acquisition. Pumatech will account for the acquisition under the purchase method of accounting.

The unaudited pro forma combined condensed statement of operations of Pumatech and Starfish for the nine months ended April 30, 2003 is presented as if the transaction had been consummated on August 1, 2002. The unaudited pro forma combined statement of operations for the nine months ended April 30, 2003 combines the results of operations of Pumatech for the nine months ended April 30, 2003 and Starfish's results of operations for the eight months ended February 28, 2003. Since the acquisition took place on March 27, 2003, one month of Starfish results are included in the consolidated Pumatech results for the nine months ended April 30, 2003. The unaudited pro forma combined condensed statement of operations of Pumatech and Starfish for the year ended July 31, 2002 is presented as if the transaction had been consummated on August 1, 2001. The unaudited pro forma combined statement of operations for the twelve months ended July 31, 2002 combines the results of operations of Pumatech for the twelve months ended July 31, 2002 and Starfish's results of operations for the twelve months ended June 30, 2002. Starfish's results of operations for the twelve months ended June 30, 2002 were calculated by adding the results of operations for the six months ended December 31, 2001, and deducting the results of operations for the six months ended December 31, 2002, to the results of operations for the twelve months ended December 31, 2002.

The unaudited pro forma combined condensed financial statements reflect an estimated purchase price of approximately \$1.8 million. The cash payment was determined based on the book value of assets acquired and liabilities assumed on the date of the acquisition. The cash payment is subject to adjustment as additional information on the fair values of Starfish's assets and liabilities becomes available. The estimated total purchase price is as follows (in thousands):

Cash	\$ 1,679
Estimated direct acquisition costs	152
	<hr/>
Total estimated purchase price	\$ 1,831
	<hr/>

Pumatech, Inc.**Notes to the Unaudited Pro Forma Combined Condensed Statements of Operations (Continued)**

The final purchase price is dependent on the actual assets acquired, liabilities assumed and actual direct acquisition costs. Under the purchase method of accounting, the total estimated purchase price is allocated to Starfish's net tangible and intangible assets based upon their estimated fair value as of the date of completion of the acquisition. Based upon the estimated purchase price and the preliminary valuation, the purchase price allocation, which is subject to change based on Pumatech's final analysis, is as follows (in thousands):

Tangible assets acquired	\$ 2,052
Amortizable intangible assets:	
Developed technology	735
Patents	220
Trademarks	57
Customer base	303
Customer contracts	78
In-process research and development (expensed)	442
	<u> </u>
Total amortizable intangible assets	1,835
	<u> </u>
Total assets acquired	3,887
Liabilities assumed	(5,357)
Goodwill	3,301
	<u> </u>
Net assets acquired	\$ 1,831
	<u> </u>

Approximately \$1.4 million of the estimated purchase price was allocated to amortizable intangible assets. It is estimated that the developed technology, patents, and customer base will be amortized on a straight-line basis over 4 years; the trademarks will be amortized on a straight-line basis over 3 years; and the customer contracts will be amortized on a straight-line basis over 9 months.

The in-process research and development of \$0.4 million is charged to operations on the acquisition date. The in-process research and development charge has not been included in the accompanying unaudited pro forma condensed combined statement of operations as it represents a non-recurring charge directly related to the acquisition. The in-process research and development consisted of technology that had not yet reached technological feasibility and had no alternative future use as of the date of acquisition. The value assigned to the acquired in-process research and development was determined by estimating the projects' percentage of completion and future cash flows or revenue contribution. Starfish's project for Mercury platform technology was identified as in-process research and development and deemed to be 70% complete on the date of acquisition. Its net cash flows were discounted utilizing a weighted average cost of capital of 30%, which, among other related assumptions, was believed to be reasonable. This discount rate takes into consideration the inherent uncertainties surrounding the successful development of the in-process research and development, the expected profitability levels of such technology, and the uncertainty of technological advances that could potentially impact the estimates described above.

Pumatech, Inc.

Notes to the Unaudited Pro Forma Combined Condensed Statements of Operations (Continued)

A preliminary estimate of \$3.3 million has been allocated to goodwill. Goodwill represents the excess of the purchase price over the fair value of the net tangible and intangible assets acquired. In accordance with Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets, goodwill will not be amortized and will be tested for impairment at least annually. The preliminary purchase price allocation for Starfish is subject to revision as more detailed analysis is completed and additional information on the fair values of Starfish's assets and liabilities becomes available. Any change in the fair value of the net assets of Starfish will change the amount of the purchase price allocable to goodwill. Final purchase accounting adjustments may therefore differ materially from the pro forma adjustments presented here.

2. Pro Forma Adjustments

Certain reclassifications have been made to conform Starfish's historical amounts to Pumatech's financial statement presentation.

The accompanying unaudited pro forma combined condensed financial statements reflect the following pro forma adjustments:

- (a) To reflect the decrease in interest income related to the cash payment for the acquisition of \$1.7 million.
- (b) To reflect amortization of the amortizable intangible assets resulting from the acquisition. The weighted average life of amortizable intangible assets approximates 4 years.
- (c) To reflect the elimination of in-process research and development.

3. Pro Forma Combined Net Loss Per Share

Shares used to calculate unaudited pro forma combined net loss per basic and diluted share were computed using Pumatech's weighted average shares outstanding during the respective periods.

4. Subsequent Event

In March 2003, in full settlement of its \$4.5 million line of credit borrowings, the Company assigned without recourse an account receivable to Motorola, Inc. in the amount of approximately \$750,000 and granted Motorola a royalty-free right to use the Company's software.

(c) Exhibits.

The following exhibits are filed with this Amended Current Report on Form 8-K/A:

Exhibit Number	Exhibit Description
23.1*	Consent of Independent Accountants
99.1*	Starfish Software, Inc. audited financial statements at December 31, 2002

* Previously filed as an exhibit to the Current Report on Form 8-K/A, filed with the Securities and Exchange Commission on June 10, 2003, and incorporated herein by reference.
