PROXY STATEMENT

Annual Meeting of Stockholders

April 20, 2004

The enclosed proxy is solicited on behalf of the Board of Directors of Calgon Carbon Corporation (the "Company") for use at the Annual Meeting of Stockholders to be held at 1:00 p.m., Eastern Daylight Saving Time, on Tuesday, April 20, 2004 at the principal executive office of the Company, 400 Calgon Carbon Drive, Pittsburgh, Pennsylvania. The accompanying Notice of Annual Meeting of Stockholders sets forth the purposes of the meeting.

The enclosed proxy may be revoked at any time before its exercise by giving written notice of revocation to the Secretary of the Company. The shares represented by proxies in the form solicited by the Board of Directors will be voted at the meeting. If a choice is specified on the proxy with respect to a matter to be voted upon, the shares represented by the proxy will be voted in accordance with that specification. If no choice is specified, the shares will be voted as stated below in this Proxy Statement.

It is expected that this Proxy Statement and the accompanying form of proxy will first be mailed to stockholders on or about March 15, 2004. The Company's Annual Report to Stockholders for 2003 is enclosed with this Proxy Statement but does not form a part of the proxy soliciting material. The cost of soliciting proxies will be borne by the Company. Following the original mailing of the proxy soliciting material, regular employees of the Company may solicit proxies by mail, telephone, telecopy, telegraph, electronic means and personal interview. The Company may also hire a proxy solicitation firm or may request brokerage houses and other nominees or fiduciaries to forward copies of the proxy soliciting material and 2003 Annual Report to beneficial owners of the stock held in their names, and the Company will reimburse them for reasonable out-of-pocket expenses incurred in doing so.

BOARD OF DIRECTORS AND COMMITTEES OF THE BOARD

The business of the Company is under general supervision of a Board of Directors as provided by the laws of Delaware, the Company's state of incorporation. The Board of Directors has established committees to assist it, consisting of the Executive Committee, the Compensation Committee, the Audit Committee and the Governance Committee.

Executive Committee. The Executive Committee consists of Messrs. McConomy (Chairman), Schofield and Weil. The Executive Committee, during the intervals between meetings of the Board, when prompt action is needed and it is impossible or inconvenient to convene a full meeting of the Board, may exercise limited powers granted by the Board of Directors in the management of the business and affairs of the Company.

Compensation Committee. The Compensation Committee consists of Messrs. Surma (Chairman), McConomy and Yohe. All members of the Compensation Committee are independent as defined by the New York Stock Exchange standards for director independence. The Compensation Committee's overall responsibility is to determine and implement the Company's general policies with respect to the compensation of its executive officers. The Compensation Committee determines the base salary payable to each executive officer, as well as the bonus, if any, payable to each executive officer, and to certain key employees, pursuant to the Company's Incentive Plan or otherwise. The Committee also administers the Company's Stock Option Plan and has the authority to grant options thereunder. Other matters related to the compensation of executive officers and key employees, such as the terms of employment contracts and certain employee benefits, are also reviewed by the Compensation Committee.

Audit Committee. The Audit Committee consists of Messrs. Cruickshank (Chairman) and Weil and Ms. Roberts. All members of the Audit Committee are independent, as defined by the New York Stock Exchange standards for director independence. Ms. Roberts has been designated by the Board of Directors as the Audit Committee's financial expert, as required by the Sarbanes-Oxley Act of 2002 and the SEC regulations thereunder. The Audit Committee operates under a charter adopted effective January 1, 2003, which is intended to comply with the requirements of the Sarbanes-Oxley Act of 2002 and the New York Stock Exchange corporate governance requirements. It is the responsibility of the Audit Committee to review and approve the Company's consolidated financial statements each year prior to their announcement to the public and their distribution to the stockholders in the Annual Report. Among other things, the Audit Committee consults with the Company's chief financial officer and his staff, and separately with the Company's independent auditors, as to risk assessment strategies, performance and scope of internal audit services, if any, the proposed audit plan, any difficulties encountered in carrying out the audit plan, significant decisions made in preparing the financial statements, any disagreements between management and the independent auditors as to the application of accounting principles or other matters, and the form and content of the notes to the financial statements and Management's Discussion and Analysis of the financial statements. The Audit Committee also reviews the Company's quarterly financial statements but does not customarily perform similar functions with respect to other financial statements which cover less than a full fiscal year. The Audit Committee reviews other financial reporting and accounting matters when requested to do so by management or the independent auditors, and satisfies itself that the Company's systems of internal accounting and financial controls, and disclosure controls and procedures, are functioning adequately and reliably. The Audit Committee believes that the independent auditors are ultimately accountable to the Board of Directors and the Audit Committee as representatives of the shareholders. In this connection the Audit Committee discusses with the independent auditors the quality, as well as the acceptability, of the Company's accounting principles as applied in its financial reporting. The Audit Committee periodically reviews the independent auditors' qualifications as well as all relationships between the Company and the independent auditors which might impact the objectivity and independence of the independent auditors. Each year the Audit

Committee evaluates the performance of the independent auditors and recommends to the Board of Directors the retention or, if appropriate, replacement of the independent auditors. The Audit Committee also investigates and reports to the Board as to any alleged breach of law or of the Company's internal policies which is brought to its attention and carries out other assignments given to it from time to time by the Board.

Governance Committee. The Governance Committee consists of Messrs. Schofield (Chairman), Weil and Yohe. Each of such directors are independent as determined under the New York Stock Exchange standards for director independence. The Governance Committee is responsible for the functioning of the Board and its committees, with the goal of causing the Board and its committees to satisfactorily address the major issues related to the performance and well-being of the Company. Among the duties of the Governance Committee is to review the size and composition of the Board of Directors and to make recommendations with respect to nominations for election or appointment of Directors. A current copy of the charter of the Governance Committee is available to stockholders at the Company's website at www.calgoncarbon.com.

The Governance Committee follows the guidelines of the Company and examines, among other things, the following qualifications and skills of director candidates: their business or professional experience, their integrity and judgment, their records of public service, their ability to devote sufficient time to the affairs of the Company, the diversity of backgrounds and experience they will bring to the Board, and the needs of the Company from time to time. The Committee also believes that all nominees should be individuals of substantial accomplishment with demonstrated leadership capabilities.

The Governance Committee principally will use third party search firms to identify potential candidates for director, using the criteria described above. The Governance Committee will consider nominees recommended by stockholders provided that stockholders submit the names of nominees and the other information required by Section 1.08 of the by-laws of the Company in writing to the Secretary of the Company. Such information should be received no later than January 20, 2005 with respect to nominations for election at the 2005 Annual Meeting of Stockholders.

During 2003, the Compensation Committee held 3 meetings, the Governance Committee held 2 meetings, the Audit Committee held 5 meetings, and the Executive Committee held 5 meetings. The Board of Directors held 8 meetings during 2003.

Compensation of Directors

Board and Committee Fees. Directors who are full-time employees of the Company or a subsidiary receive no additional compensation for services as a member of the Board or any committee of the Board. In 2003, Directors who were not employees of the Company received an annual retainer of \$20,000 for Board service. The retainer fees are payable in cash or Common Stock of the Company as described below. In 2003, non-employee Directors also received a fee of \$1,800 for each Board meeting attended and \$1,800 for each committee meeting attended on a day separate from a Board meeting. In 2003 the Chairman of each Committee received a retainer of \$5,000, with the Chairman of the Audit Committee instead receiving a retainer of \$7,500, and each Committee member other than the Chairman received a retainer of \$3,000 (with the members of the Audit Committee instead receiving a retainer of \$5,000). Non-employee Directors received a fee of \$700 for each Committee meeting attended on the same day as a Board meeting and \$1,500 or \$1,800 for telephonic meetings depending on the degree of preparation required. Directors working on special projects were paid \$1,800 per day for such services. The Company anticipates that Board and Committee fees will remain the same for 2004.

The Board has also implemented a cap on the amount of compensation which can be received by a Director in one year for retainer fees, plan compensation and regularly scheduled Board and Committee meetings. In general, a Director should not receive more than \$70,000 (\$75,000 for Audit Committee members) of such compensation in a year. If a Director does receive more than such amount, he or she would have future phantom stock plan or stock option plan grants reduced by such excess amount.

1999 Phantom Stock Plan. The 1999 Phantom Stock Plan provides each non-employee director with phantom stock with a value upon issuance of \$7,000 each year. No actual stock of the Company is issued under this plan. Instead, each director is credited on the day following the Annual Meeting of Stockholders, in an account maintained for the purpose, with the fair market value of shares of the Company's Common Stock equal to \$7,000. Directors are also credited with the fair market value of shares equal to the amount of the cash dividends which would have been paid if the phantom stock were actual Common Stock. As the actual fair market value of the Company's Common Stock changes, the credited value of the director's phantom stock will change accordingly. When the director leaves the Board for any reason, including death or disability, the director will be entitled to be paid, in cash, the entire amount then credited in the account.

1997 Directors' Fee Plan. The 1997 Directors' Fee Plan provides Directors with payment alternatives for retainer (but not meeting) fees payable as a member of the Board or as the Chairman of any committee. Pursuant to the Plan, Directors are permitted to receive their retainer fees in a current payment of cash or in a current payment of shares of Common Stock of the Company based upon the fair market value of the Common Stock upon the date of payment of the fee, or to defer payment of the retainer fees for subsequent payment of shares of Common Stock pursuant to a stock deferral election. Payment of Common Stock placed in a deferred stock account will be made in the calendar year following the calendar year during which a Director ceases to be a Director of the Company, including by reason of death or disability.

1993 Non-Employee Directors' Stock Option Plan. The 1993 Non-Employee Directors' Stock Option Plan, as amended in 1997, provides for an annual grant on the day following the Annual Meeting of Stockholders of option shares equal to a number of shares which will result in a Black-Scholes calculated value of \$25,000 on the date of grant. The options vest and become exercisable six months after the date of grant and, in general, expire ten years after the date of grant. There are previously issued options outstanding under the pre-1997 Plan, all of which have option prices in excess of the fair market value of the Common Stock on December 31, 2003.

ELECTION OF DIRECTORS

The Board of Directors, acting pursuant to the bylaws of the Company, has determined that the number of Directors constituting the full Board of Directors shall be eight at the present time. The Board is to be divided into three classes of nearly equal size. One such class is elected every year at the Annual Meeting for a term of three years.

The Board of Directors has, upon recommendation of the Governance Committee, nominated John S. Stanik for election as a Director in the Class of 2006, and Robert W. Cruickshank, Thomas A. McConomy, and Julie S. Roberts for reelection as Directors in the Class of 2007, each of them has agreed to serve if elected. Mr. Stanik will hold office until the 2006 Annual Meeting of Stockholders, Messrs. Cruickshank and McConomy and Ms. Roberts will hold office until the 2007 Annual Meeting of Stockholders, or until the Director's prior death, disability, resignation or removal. Proxies are solicited in favor of these nominees and will be voted for them unless otherwise specified.

If any nominee becomes unable or unwilling to serve as a Director, it is intended that the proxies will be voted for the election of such other person, if any, as shall be designated by the Board of Directors.

Information concerning the nominees for Director and the other Directors who will continue in office after the meeting is set forth below, together with information concerning the Company's executive officers who are not Directors.

Ms. Geroni has been the Vice President, Investor Relations, Corporate Communications and Human Resources with the Company since October 2002. Prior thereto, Ms. Geroni was the Director, Investor Relations and Corporate Communications with the Company.

Mr. Majoor has been the Senior Vice President, Europe since November 2002. He was Vice President Global Marketing of the Company in October 2001, and Sales Director of Chemviron Carbon from January 2001 to September 2001. Prior thereto, he held various positions with Arizona Chemical and Arizona Chemical Europe, which are manufacturers of specialty chemicals derived from wood.

Mr. Mocniak has been Vice President, General Counsel and Secretary of the Company since February 2003. Prior thereto he was Vice President, General Counsel and Secretary of Fansteel Inc., a specialty metals manufacturer.

Mr. O'Brien has been the Senior Vice President Global Business Development of the Company since January 2000. Mr. O'Brien was President of the Company's Advanced Separation Technologies subsidiary from January 1999 until January 2000.

EXECUTIVE COMPENSATION

The Compensation Committee consists of at least three Directors who are not employees of the Company. One of the functions of the Compensation Committee is to review the compensation of the Company's executive officers and methodology by which such compensation is derived. The Compensation Committee then makes recommendations to the Board of Directors on such matters, except for the granting of stock options, which is done by the Committee alone.

The following is the report of the members of the 2003 Compensation Committee, Messrs. Surma (Chairman), McConomy and Yohe, concerning 2003 compensation of the Company's executive officers.

Compensation Committee Report on Executive Compensation

General policies with respect to executive compensation

The Compensation Committee's policies with respect to executive compensation are intended to achieve three principal goals.

First, they are intended to achieve base compensation levels sufficient to attract and retain talented and dedicated executive officers. To accomplish this, the Committee periodically compares the Company's base salaries with those currently paid for similar positions by other companies. The Committee also reviews the total compensation package available to executive officers to ensure it remains competitive.

Second, the compensation policies are intended to provide a direct link between both individual performance and performance of the Company as a whole, with the officer's compensation. This is done through bonuses available to executive officers.

Third, the compensation policies are intended to provide executive officers with the opportunity to acquire an equity stake in the Company through the granting of stock options. These options are granted at full market prices and with delayed vesting provisions.

In the past, the Committee's general philosophy was that salaries for the Company's executive officers should be somewhat less than the median salaries paid by other companies for comparable positions, so that the potential compensation of an executive officer in a particular year would be more heavily weighted toward incentive

compensation such as bonus and stock options. However, the Committee has decided that in order to be competitive in attracting and maintaining highly qualified executives, salaries for the Company's executive officers should, over time, be equal to the median salaries paid by other companies for comparable positions. This change in philosophy will be applied to decisions regarding executive base compensation beginning in 2004.

Compensation in 2003

Salary. In 2003, base salaries were designed to be at levels at or slightly below those of executive officers of comparable companies. However, beginning in 2004, base salaries will be designed to be equal to executive officers of comparable companies. The Committee considers a number of factors in its discretion and does not determine base salaries by any formula or objective basis or solely by any specific subjective measure. The Committee also uses consultants from time to time in this area.

In 2003, the Committee increased the salaries of certain executives by a significant amount to reflect a change in position and responsibility.

Bonus. The incentive compensation system is intended to provide a direct link between an executive's bonus and performance. The incentive compensation system used in 2003 was based on results in the areas of sales, gross margin percentage, operating expenses, operating cash flow, and OSHA recordable incident rates. Executives also had specific performance objectives that influenced their bonuses. Executives had the opportunity to receive up to twenty percent of their base salary. The plan also provided for bonuses greater than twenty percent based on the Company's annual operating income target being exceeded. Based on the performance of the Company and the individual being evaluated, the Committee granted the bonuses set forth in the summary compensation table in 2003.

Effective in 2004, the Committee adopted new criteria under the incentive compensation plan. The plan rewards results based on annual operating income and operating cash flow. The Chief Executive Officer can receive up to fifty percent of his base salary and the other executive officers can receive up to 40% of his or her base salary if the plan is met for the two targets and the executive's performance is deemed satisfactory, which is a subjective determination.

Stock Options. Under the terms of the Company's Stock Option Plan adopted in 1985 and amended in 1999, the Committee determines which employees will be granted stock options, the number of options granted, the rate and period of vesting, and other relevant terms.

In determining whether to grant options, the Committee takes into account the number of outstanding options, the market price of the Company's Common Stock, the performance of the Company and its prospects, potential dilution which could result from exercise of options, and the benefits of linking the employees' incentive to the market price of the stock. These matters are at the discretion of the Committee, and are not determined by any formula or weighting of particular factors.

In determining whether to grant options to a particular individual, the Committee considers the individual's level of responsibility, the relationship between successful individual effort and Company results, incentive compensation programs of other companies, the number of unexercised options held by the individual, and other relevant factors.

In 2003, the Committee granted 83,000 options to employees. Executive officers received a total of 75,000 options, which currently remain outstanding.

The Stock Option Plan makes stock appreciation rights, payable in cash, and restricted shares available for grant, but the Committee has not made any such grants to current executive officers.

Compensation of the Chief Executive Officer in 2003

John S. Stanik was appointed Interim President and Chief Executive Officer on February 25, 2003, and was elected President and Chief Executive Officer on April 22, 2003. Mr. Stanik received a base pay of \$300,000 in 2003. Based upon results under the Company's incentive compensation plan, Mr. Stanik was paid a \$42,000 bonus attributable to 2003; \$12,000 was paid in 2003, and the balance was paid in 2004. Mr. Stanik received 25,000 stock options in 2003, one half of which are to vest in 2004 and one half of which are to vest in 2005. These options reflected the Committee's desire to link a major portion of Mr. Stanik's future compensation to increases in the market price of the Company's Common Stock and thus directly benefit stockholders.

Mr. Stanik succeeded James A. Cederna, who resigned from his position as the Company's President and Chief Executive Officer in February 2002. Under the terms of his contract, Mr. Cederna received a salary of \$83,334 and a severance payment of \$1,825,000 in 2003.

Tax Policy

If an executive officer's compensation from the Company were to exceed \$1 million in any taxable year (which the Committee does not now expect), the excess over \$1 million, with certain exceptions, would not be deductible by the Company, under Section 162(m) of the Internal Revenue Code of 1986, as amended. The Committee is aware of this rule, and will take it into account if the \$1 million limit is ever applicable. One exception to the disallowance of such deductions under Section 162(m) involves compensation paid pursuant to stockholder-approved compensation plans that are performance-based. The Company's Stock Option Plan contains provisions which are intended to cause grants of stock options under such plan (after April 1999) to be eligible for this performance-based exception (so that compensation upon exercise of such options should be deductible under the Code). Payments of cash compensation to executives (and certain other benefits which could be awarded under the plan, such as restricted stock) are not at present eligible for this performance-based exception.

Employment Agreements

The executive officers of the Company have entered into employment agreements with the Company. The agreements provide for a base salary and for bonus compensation as determined by the Company. The agreements generally provide for continued employment of the officers until terminated by the Company with or without cause. Officers terminated without cause are entitled to severance compensation: twenty-four months base salary in the case of the Chief Executive Officer, and eighteen months base salary, for all other executive officers (Severance Period). Equivalent benefits are provided during the Severance Period until such time as the officer is reemployed and provided equivalent benefits by the next employer. The agreements also contain change in control provisions pursuant to which, if a change in control (as defined in the agreements) occurs, the officer is permitted to terminate employment on a date which is within the period beginning on the first anniversary

Edgar Filing: CALGON CARBON CORPORATION - Form DEF 14A

of such change in control and ending ninety days thereafter. If an officer terminates his or her employment as provided above, if the Company terminates the officer other than as a termination for cause within three years after the change in control, or if the officer terminates his or her employment for good reason (as defined in the agreements), the Company is required to pay a lump sum equal to: (i) three years of the officer's base salary; plus (ii) the officer's average annual bonus payable with respect to the most recent three full bonus plan years ending on the date of the change in control; and (iii) the matching contributions that would have been credited to the officer under the Company's 401(k) Plan for the three years following the effective date of termination of the officer's employment. For such period the officer will receive equivalent benefits as were provided at the time of

termination and any then unvested stock benefits held by the employee will vest. The Company will pay an additional amount equal to excise taxes, interest and penalties imposed on severance payments by Section 4999 of the Internal Revenue Code of 1986 plus a gross-up payment to reimburse the officer for the tax imposed on the additional payment. The agreements also contain confidentiality and non-compete provisions.

Pension Benefits

The Company's Retirement Plan for Salaried Employees is a non-contributory defined benefit pension plan. In addition, the Company has a Supplemental Retirement Plan, which is applicable to certain employees selected by the Board of Directors, designed to supplement retirement benefits under the Retirement Plan for Salaried Employees which have been limited by various Internal Revenue Code provisions. At present no executive officers participate in such Supplemental Retirement Plan. The following table shows the estimated annual pension benefits which would be payable under the above-stated plans in the form of a single life annuity, for various levels of average annual compensation and years of service, based upon retirement at age 65 in the calendar year 2003, before any reduction to take account of benefits payable by the Company's former owner, Merck & Co., Inc. (by agreement with Merck, benefits payable under Company plans are reduced by the benefit amounts payable to the individual by Merck, which are computed utilizing a 2.5% compensation increase assumption).

- (1) Under Section 415 of the Internal Revenue Code of 1986, the amount of annual benefits which may be paid under the Retirement Plan for Salaried Employees to any employee may not exceed \$160,000 during 2003 and \$165,000 during 2004 and under Section 401(a)(17) of the Code the amount of annual compensation of each employee taken into account under such plan for any year may not exceed \$200,000 during 2003 and \$205,000 during 2004. These limitations have not been reflected in the table.

Other than the reduction with respect to Merck benefits discussed above, the benefits payable under the plans are not subject to any deduction for Social Security or other offset amounts. Covered compensation for purposes of the chart above includes salary and incentive awards which are reported in the "bonus" column of the summary compensation table. As of December 31, 2003, Messrs. Stanik, Fishburne, O'Brien and Mocniak had twelve, three, thirty and one years of service, respectively, under the plans.

INDEPENDENT AUDITORS

Report of the Audit Committee

The charter of the Audit Committee was adopted by the Board of Directors effective February 6, 2003 and is reviewed annually by the Committee. The Committee's mission is to be the principal means by which the Board of Directors oversees management's preparation and public disclosure of financial information about the Company. The objective is to make available to the public financial statements and other financial information that is of high quality, accurate, complete, timely, fairly presented, and complying with all applicable laws and accounting standards.

In overseeing the audit process for the year 2003, the Audit Committee obtained from Deloitte & Touche LLP, the Company's independent auditors, their letter required by Independence Standard No. 1, Independence Discussions with Audit Committees, describing all relationships between the auditors and the Company that might, in their opinion, bear on their independence. In that letter Deloitte & Touche LLP stated that in their judgment they are, in fact, independent. The Committee discussed with the auditors the contents of that letter and concurred in the judgment of independence.

The Committee reviewed with the auditors their audit plan, audit scope and identification of audit risks. Subsequently, the Audit Committee reviewed and discussed the audited financial statements of the Company as of and for the year ended December 31, 2003, first with both management and the independent auditors, and then with the auditors alone. This discussion covered the quality, not just the acceptability, of the Company's financial reporting practices and the completeness and clarity of the related financial disclosures. The Committee also received and discussed, with and without management present, all communications from Deloitte & Touche LLP required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, Communications with Audit Committees.

The Audit Committee then recommended to the Board of Directors that the audited financial statements be approved by the Board, be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2003, for filing with the Securities and Exchange Commission, and be included in the Company's annual report to stockholders for the year 2003.

In periodic meetings with the Company's financial management and the independent auditors, the Audit Committee discussed and approved quarterly interim financial information prior to its release to the public. The Committee also performed the other functions required of it by its charter.

Management is responsible for the Company's financial reporting process including its systems of internal controls, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. The Company's independent auditors are responsible for auditing those financial statements. Our responsibility is to monitor and review these processes. It is not our duty or our responsibility to plan or conduct audits or manage the system of internal controls of the Company. Therefore, we have relied on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States of America and on the opinions of the independent auditors included in their report on the Company's financial statements.

Ratification of Appointment of Independent Auditors

The Audit Committee has appointed Deloitte & Touche LLP as independent auditors to audit the financial statements of the Company and its subsidiaries for 2004. Deloitte & Touche LLP audited the financial statements of the Company and its subsidiaries in 2003.

The Board of Directors recommends a vote for the ratification of the appointment of Deloitte & Touche LLP and unless otherwise directed therein, the proxies solicited by the Board will be voted FOR the ratification of the appointment of Deloitte & Touche LLP. In the event the stockholders fail to ratify the appointment, the Audit Committee will consider such vote in its decision to appoint independent auditors for 2005.

Representatives of Deloitte & Touche LLP are expected to be present at the Annual Meeting. They will have the opportunity to make statements if they desire to do so and will be available to respond to appropriate questions.

Certain Fees

Audit Fees

The following is a summary of fees billed by Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu and their respective affiliates (collectively Deloitte) for professional services rendered for the fiscal year ended December 31, 2002 and December 31, 2003.

	Fiscal Year Ended December 31, 2003	Fiscal Year Ended December 31, 2002
Audit Fees	\$ 537,305	\$ 431,321
Audit-Related Fees	57,533	52,970
Tax Fees	257,870	268,592
Other Fees	0	0
Total	\$ 852,708	\$ 752,883

Audit Fees

Consist of fees billed for professional services rendered for the audit of the Company's consolidated financial statements and review of the interim consolidated financial statements included in quarterly reports and services that are normally provided by Deloitte in connection with statutory and regulatory filings or engagements.

Audit-Related Fees

Edgar Filing: CALGON CARBON CORPORATION - Form DEF 14A

Consist of fees billed for professional consultation services with respect to the Sarbanes-Oxley Act, pension audits, and due diligence relating to certain transactions.

Tax Fees

Consist of fees billed for professional services for tax compliance, tax advice and tax planning. These services include assistance regarding federal, state and foreign country tax compliance, preparation of returns, and acquisitions and dispositions tax planning.

Other Fees

Deloitte did not perform any services for the Company during fiscal years ended December 31, 2003 or December 31, 2002 other than the services described under Audit Fees, Audit-Related Fees and Tax Fees.

Policy for Approval of Audit and Non-Audit Fees

In accordance with the Sarbanes-Oxley Act, the Audit Committee pre-approved all audit and non-audit related consulting services provided by the Company's external audit firm. During 2003 the Audit Committee pre-approved the types of non-audit services which Deloitte was to perform during the balance of the year and the anticipated range of fees for each of these categories. In order to deal with the pre-approval process in the most efficient manner, the Audit Committee will employ pre-approval policies in 2004 that comply with applicable Securities and Exchange Commission regulations. The Chairman of the Audit Committee has the authority to approve work on behalf of the entire committee. A Summary of all non-audit related spending is provided to the Audit Committee on a quarterly basis.

The Audit Committee believes that the provision of the above services by Deloitte is compatible with maintaining Deloitte's independence.

CORPORATE GOVERNANCE

Access to Directors

The stockholders of the Company may communicate in writing to the Board of Directors by sending such communication to the Board or a particular Director in care of Michael J. Mocniak, Corporate Secretary, at the Company's principal office. At present, such communications will be directly forwarded to the Board or such particular Director, as applicable. The presiding independent Director for executive sessions of non-management Directors is Ms. Roberts. The stockholders of the Company may communicate in writing with Ms. Roberts in the manner described above.

Determination of Independence

The Board has determined that all of the directors except Mr. Stanik are independent, as defined in the New York Stock Exchange listing standards, which become effective for the Company on the date of the 2004 Annual Meeting (the "NYSE Standards"). In making this determination, the Board evaluated the following relationships and found that those relationships were not material, as defined by the NYSE Standards, because they would not interfere with the individual's exercise of independent judgment:

Mr. Thomas McConomy is the owner of approximately 10.9% of the outstanding Common Stock of the Company. In accordance with the commentary to the Rule 303A.02(a) of the NYSE Standards, the ownership of even a significant amount of stock is not a bar to an independence finding. The Board concurs with this conclusion in the case of Mr. McConomy. Further, Mr. McConomy's brother James H. McConomy is a partner of a law firm that is paid fees by the Company for services. The fees paid do not exceed the threshold at which Mr. Thomas McConomy can no longer be considered independent, as described in Rule 303A.02(b)(v).

Attendance of Meetings by Directors

The Corporate Governance Guidelines of the Company state that all directors are expected to attend each Annual Meeting of Stockholders, as well as Board and applicable committee meetings, except in unavoidable circumstances. All directors attended the 2003 Annual Meeting of Stockholders.

Committee Charters and Corporate Governance Guidelines

A current copy of the charters of the committees of the Board of Directors and the Corporate Governance Guidelines are available to stockholders at the Company's website www.calgoncarbon.com.

VOTE REQUIRED

The one nominee for election as Director in the Class of 2006 and the three nominees for election as Directors in the Class of 2007 at the Annual Meeting who receive the greatest number of votes cast for the election of Directors of their class at that meeting by the holders of the Company's Common Stock, present in person or represented by proxy at the meeting and entitled to vote at that meeting, a quorum being present, shall become Directors at the conclusion of the tabulation of votes.

The proposal to ratify the independent auditors will be adopted if a majority of the shares present in person or by proxy vote for the proposal. Since the total shares voted for, against, or abstain are counted to determine the minimum votes required for approval, if a stockholder abstains from voting, it has the same legal effect as voting against. If a broker limits the number of shares voted on the proposal on its proxy card or indicates that the shares represented by the proxy card are not being voted on the proposal, it is considered a broker non-vote. Broker non-votes are counted for purposes of determining a quorum but are not counted as a vote or used to determine the favorable votes required to approve the proposal.

OTHER BUSINESS

The Board of Directors does not know of any other business to be presented to the Annual Meeting of Stockholders. If any other matters properly come before the meeting, however, the persons named in the enclosed form of proxy will vote the proxy in accordance with their best judgment.

STOCKHOLDER PROPOSALS

If any stockholder wishes to present a proposal to be acted upon at the 2005 Annual Meeting of Stockholders, the proposal must be received by the Secretary of the Company by November 16, 2004 to be considered for inclusion in the Company's Proxy Statement and form of proxy relating to the 2005 Annual Meeting. The 2005 Annual Meeting is tentatively scheduled for April 19, 2005.

Section 1.08 of the by-laws of the Company requires that any shareholder intending to present a proposal for action at an Annual Meeting must give written notice of the proposal, containing the information specified in such Section 1.08, so that it is received by the Company not later than the notice deadline determined under such Section 1.08. This notice deadline will generally be 60 days prior to the anniversary of the date of the Company's Proxy Statement for the Annual Meeting for the previous year, or January 15, 2005 for the Company's Annual Meeting in 2005. Any shareholder proposal received by the Secretary of the Company after January 15, 2005 will be considered untimely under Rule 14a-4(c)(1) promulgated by the Securities and Exchange Commission under the Securities Exchange Act of 1934.
