Affiliated Companies Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as Affiliated Companies in Section 2(a)(3) of the Investment Company Act of 1940.

Security Transactions and Investment Income Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to shareholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Company has a nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Benefits are based on length of service and compensation during the last five years of employment. The Company's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Company deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. During the three months ended March 31, 2006, the Company did not contribute to the plans. The Company does not anticipate making any contributions to the plans in 2006.

The following table aggregates the components of the plans' net periodic pension cost for the three months ended March 31, 2006:

6. Stock-Based Compensation

The Stock Option Plan adopted in 1985 (1985 Plan) permits the issuance of stock options and stock appreciation rights for the purchase of up to 2,610,146 shares of the Company's Common Stock at the fair market value on the date of grant. The exercise price of the options and related stock appreciation rights is reduced by the per share amount of capital gains paid by the Company during subsequent years. Options are exercisable beginning not less than one year after the date of grant and stock appreciation rights are exercisable beginning not less than two years after the date of grant. The stock appreciation rights allow the holders to surrender their rights to exercise their options and receive cash or shares in an amount equal to the difference between the option exercise price and the fair market value of the Common Stock at the date of surrender. All options terminate 10 years from the date of grant if not exercised. With the adoption of the 2005 Equity Incentive Compensation Plan (2005 Plan) at the 2005 Annual Meeting, no further grants will be made under the 1985 Plan, although unexercised awards granted in 2004 and prior years remain outstanding.

A summary of option activity under the 1985 Plan as of March 31, 2006, and changes during the period then ended, is presented below:

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost recognized for the three months ended March 31, 2006 was \$113,312.

The 2005 Equity Incentive Compensation Plan (2005 Plan) permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 3,413,131 shares of the Company's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of awards earned contingent on achievement of certain performance targets. If performance targets are not achieved, all or a portion of the performance-based awards are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. The Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards were granted at fair market value on grant date. The number of shares of Common Stock which remains available for future grants under the Plan at March 31, 2006 is 3,342,818 shares.

The Company pays dividends and dividend equivalents on outstanding awards, which are charged to net assets when paid. Dividends and dividend equivalents paid on restricted awards that are later forfeited are reclassified to compensation expense.

A summary of the status of the Company's awards granted as of March 31, 2006, and changes during the period then ended is presented below:

Awards	Shares/Units	Weighted Average Grant-Date Fair Value
Balance at December 31, 2005	21,441	\$ 12.57

Balance at March 31, 2006 (includes 39,602 performance-based awards and 28,465 nonperformance-based awards)	68,067	\$ 12.81

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, no compensation cost is recognized and any recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the period ending March 31, 2006 were \$57,246. The total compensation costs for restricted stock units granted to non-employee directors for the period ended March 31, 2006 were \$28,175. As of March 31, 2006, there were total unrecognized compensation costs of \$704,666 related to nonvested share-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 2.33 years.

7. Expenses

The aggregate remuneration paid or accrued during the three months ended March 31, 2006 to officers and directors amounted to \$1,303,008, of which \$95,258 was paid or accrued as fees to directors who were not officers.

8. Portfolio Securities Loaned

The Company makes loans of securities to brokers, secured by cash deposits, U.S. Government securities, or bank letters of credit. The Company accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Company also continues to receive interest or dividends on the securities loaned. The loans are secured at all times by collateral of at least 102% of the fair value of the securities loaned plus accrued interest. Gain or loss in the fair value of the securities loaned that may occur during the term of the loan will be for the account of the Company. At March 31, 2006, the Company had securities on loan of \$18,768,540 and held collateral of \$19,229,896, consisting of an investment trust fund which may invest in money market instruments, commercial paper, repurchase agreements, U.S. Treasury Bills, and U.S. agency obligations.
