PROXY STATEMENT FOR THE 2006 ANNUAL MEETING OF SHAREHOLDERS

Information Concerning Voting and Solicitation

General

You are invited to attend our Annual Meeting of Shareholders on June 1, 2006 beginning at 11:00 a.m., Eastern Daylight Time, at the Radisson Hotel Valley Forge, King of Prussia, Pennsylvania (the Annual Meeting).

These proxy materials are provided in connection with the solicitation by the Board of Directors of InterDigital Communications Corporation (the Company, we, or our), a Pennsylvania corporation, of proxies to be voted at our Annual Meeting and at any adjournment or postponement.

This Notice of Annual Meeting, Proxy Statement and proxy card and 2005 Annual Report are being mailed to shareholders on approximately April 28, 2006.

Shareholders Entitled to Vote at the Annual Meeting

Holders of record of the Company's Common Stock at the close of business on April 10, 2006, are entitled to vote their shares at the Annual Meeting and any adjournment or postponement. As of that date, there were 54,828,749 shares of Common Stock outstanding and entitled to vote. Each share of Common Stock entitles the holder to one vote. Votes will not be cumulated in the election of directors. The names of shareholders of record entitled to vote at the Annual Meeting will be available at the Annual Meeting.

Quorum and Required Vote

The presence, in person or by proxy, of the holders of a majority of the shares entitled to vote is necessary for every matter to be voted on at the Annual Meeting. Proxies marked as abstaining and broker non-votes will be treated as present at the Annual Meeting for purposes of a quorum but will not be voted and will have no effect on matters to be voted upon at the Annual Meeting. A broker non-vote occurs when a bank, broker or other holder of record holding shares for a beneficial owner does not vote on a particular proposal because it does not have discretionary voting power for that particular item and has not received instructions from the beneficial owner.

Directors are elected by a plurality of the votes cast. Approval of all other matters presented at the Annual Meeting requires the affirmative vote of a majority of the votes cast by shareholders present, in person or by proxy, at the Annual Meeting.

Shareholders of Record and Beneficial Owners

If your shares are registered directly in your name with the Company's transfer agent, American Stock Transfer & Trust Company (AST), you are considered, with respect to those shares, the shareholder of record. The Notice of Annual Meeting, Proxy Statement and proxy card and 2005 Annual Report have been sent directly to you by AST on behalf of the Company.

If your shares are held in a stock brokerage account or by a bank or other holder of record, you are considered the beneficial owner of shares held in street name. The Notice of Annual Meeting, Proxy Statement and voting instruction and 2005 Annual Report have been forwarded to you by your broker, bank or other holder of record who is considered, with respect to those shares, the shareholder of record. As the beneficial owner, you have the right to direct your broker, bank or other holder of record on how to vote your shares by using the voting instruction form included in the mailing or by following their instructions for voting by telephone or on the Internet.

The Company will pay the cost of solicitation of proxies by the Board of Directors. Proxies may be solicited by mail, electronic mail, personal interview, telephone, telegraph or facsimile. In addition, we have retained W.F. Doring & Co. to aid in the solicitation of proxies for a fee of approximately \$7,000, plus expenses. Banks, brokerage houses and other institutions, nominees and fiduciaries will be requested to forward the proxy materials to beneficial owners in order to solicit authorizations for the execution of proxies. We will, upon request, reimburse such banks, brokerage houses and other institutions, nominees and fiduciaries for their expenses in forwarding such proxy materials to the beneficial owners of the Company's Common Stock. In addition, our directors, officers and employees may solicit proxies by such methods without additional remuneration.

Tabulation of the Votes

A representative of our transfer agent, American Stock Transfer & Trust Company, will tabulate the votes and act as judge of election at the Annual Meeting.

Shareholder Proposals

Shareholders may make proposals to be considered at the 2007 Annual Meeting of Shareholders (2007 Annual Meeting) provided that, in addition to meeting the shareholder eligibility requirements of the Securities and Exchange Commission's (SEC) rules governing such proposals, the proposal is received not later than December 31, 2006, at the Company's principal executive offices, 781 Third Avenue, King of Prussia, Pennsylvania 19406-1409, Attention: Corporate Secretary. In accordance with the Company's By-Laws, no business may be brought before the 2007 Annual Meeting unless specified in the notice of meeting or otherwise brought before the meeting by or at the direction of the Board of Directors or brought by a shareholder who has delivered notice to the Company (containing certain information specified in the By-Laws) not earlier than March 4, 2007 or later than April 3, 2007. The form of proxy issued with our 2007 Proxy Statement will confer discretionary authority to vote for or against any valid proposal made by a shareholder at our 2007 Annual Meeting and which is not included in our proxy statement. However, such discretionary authority may not be exercised if the shareholder proponent has not provided to our Corporate Secretary notice of such proposal within the time frames set forth above, and certain other conditions provided for in the SEC's rules have not been satisfied.

senior management. The Compensation Committee is also responsible for preparing an annual report on executive compensation in accordance with applicable securities regulations to be included in the Company's proxy statement. The Compensation Committee is guided in the execution of its primary functions by the Board of Directors' philosophy that the interests of key leadership should be aligned with the long-term interests of the Company and its shareholders. A copy of the Compensation Committee's Charter is available on the Company's website at: http://www.interdigital.com/corp_gov_comp_comm_charter.shtml.

A copy of the Nominating Committee's Charter is available on the Company's website at: http://www.interdigital.com/corp_gov_nominating_comm_charter.shtml.

Nominating Process

The Nominating Committee will consider nominees recommended by shareholders, that are presented within the time frames, and that are accompanied by the information required by the Company's By-Laws. To date, the Board of Directors has not received any recommendations from shareholders requesting a candidate be considered for inclusion on the Board of Directors' slate of nominees in the proxy statement. The Board of Directors does not have a separate policy for addressing shareholder recommended nominees, however, the Board has determined that if such a recommendation were received it would be considered in the same manner that all director candidates are considered, provided it is submitted in accordance with the requirements in the Company's By-Laws. Specifically, candidates are evaluated and recommended to the Board of Directors by the Nominating Committee. Among the factors considered are a nominee's experience at policy-making levels in areas relevant to the Company's business, level of personal and professional ethics, integrity and values, and ability to serve the long-term interests of shareholders. Additional considerations include the size and diversity of experience of the Board of Directors as an operating body. The Board of Directors also believes that at least one of its members must meet the criteria for an audit committee financial expert as defined by SEC rules and that a majority of its members meet the definition of an independent director under Nasdaq rules.

Historically, the Nominating Committee has engaged search firms to assist it in finding new independent Board members. The role of the search firms was to identify and screen potential candidates and, with respect to persons in whom the Nominating Committee was interested, provide background information and references.

Shareholder Communications with the Board of Directors

The Board of Directors provides a process for shareholders to send communications to the Board or any of its directors which is described on the corporate governance section of the Company's website at <http://www.interdigital.com>. The website provides a link enabling shareholders to send communications by e-mail. All such communications are compiled by the Communications & Investor Relations Department of the Company and submitted, as appropriate, to the Board of Directors or specified directors on a periodic basis. Any complaints relating to accounting, internal accounting controls or auditing matters may be made confidentially and must be in writing addressed to the Office of the Ombudsman, P.O. Box 60814, King of Prussia, Pennsylvania 19406-1409.

Annual Board Retainer:	\$25,000
Committee Chairs:	\$15,000 / \$30,000 for Audit Committee Chair
Committee Membership:	\$5,000

Annual RSU Grant	
(awarded to all Outside Directors at each annual meeting**):	2,000 RSUs (vesting in full one year from grant date)

* Restricted stock unit.

** For so long as an Outside Director has stock options vesting pursuant to a grant made under the previous director compensation plan (a program, discontinued in December 2003, which provided a grant of 48,000 options upon election, vesting 16,000 at each subsequent annual meeting), he will not be entitled to the Annual RSU Grant.

All cash payments are based on service for a full year and pro rata payments are made for service of less than one year. The Company also reimburses Outside Directors for certain expenses incurred in attending Board of Directors and committee meetings and travel on behalf of the Company.

In January 2006, the Compensation Committee, with Mr. Campagna recusing himself, adopted an amendment to the compensation program for Outside Directors to provide for an annual grant of 10,000 RSUs to be made to the Company's independent Chairman of the Board. The first such award was made to Mr. Campagna in January 2006. These RSUs vest one year after their grant date (subject to certain rights of acceleration), are forfeitable if he ceases to serve as a director before vesting, have no voting rights, and are not deemed to be outstanding shares.

Stock ownership guidelines applicable to the Outside Directors are set at a target of three times their annual cash retainer. All Outside Directors were in compliance with such guidelines at December 31, 2005.

Executive officers, directors and greater than ten percent shareholders (collectively, the Reporting Persons) are additionally required to furnish the Company with copies of all Section 16(a) forms they file.

To the Company's knowledge, based solely on review of the copies of such reports furnished to the Company and written representations of the Reporting Persons that no other reports were required with respect to fiscal year ending December 31, 2005, the Reporting Persons complied with Section 16(a) filing requirements.

General

The Compensation Committee of our Board of Directors (the "Committee") has overall responsibility for the establishment, modification and implementation of executive compensation and benefit programs of the Company. Primary duties include: adopting compensation plans, setting annual salaries for executive officers, determining bonus and other direct and indirect benefits for executive officers and other employees, and administering Company equity incentive plans including the grant of awards under such plans to all eligible persons. The Committee is comprised solely of independent directors, as prescribed by the Committee's Charter.

Compensation Philosophy

The Committee's overall philosophy is that the Company's executive compensation program should aim to create shareholder value. The Committee believes that shareholder value can be created through a compensation program that aligns management compensation to the Company's performance, attracts and retains highly qualified management, rewards executives who contribute to the long-term success of the Company and aligns the long-term equity interests of management with those of shareholders. To that end, the Committee has implemented: (i) a Long-Term Incentive Plan ("LTIP") providing cash awards tied directly to achievement of longer-term strategic goals, (ii) the use of Restricted Stock Units (i.e., nontransferable rights to acquire Common Stock or "RSUs") as a vehicle for long-term equity compensation and retention, (iii) annual bonuses tied to both corporate and personal performance and paid, in part, in equity, and (iv) stock ownership guidelines.

Compensation Practices

The Committee reviews corporate performance of the prior year on an annual basis as part of its approval of the annual compensation of the Company's executive officers and Chief Executive Officer. The Committee evaluates and rates Company performance against each of the corporate goals for the year. While achievement of corporate goals is the primary driver of annual cash compensation, individual performance is also considered. The Committee also approves corporate goals for the ensuing year. Long-term corporate performance (currently measured over a three and one-half year cycle and subsequently over three-year cycles) is used in awarding compensation to executives under the Company's LTIP, as described below.

Since 2002, the Committee has primarily used grants of restricted stock (i.e., shares with time-based restrictions on transferability) and RSUs to provide long-term incentives to executive officers and to focus executives on shareholder value. In the Committee's view, RSUs are also a useful retention vehicle in executive compensation, and have the added benefit of reducing share dilution in that the number of shares awarded is generally less than the number of option shares that would customarily be granted. Stock options have been

Table of Contents

limited to new hire grants and, until 2004, the Company's Inventor Compensation Policy. The Inventor Compensation Policy was revised in 2004 to provide that awards to inventors be made in cash rather than options.

Base salaries for executive officers are generally set at a median level relative to companies of similar size within the telecom industry. Additional considerations include individual performance, contributions, skills and attributes. As part of its review of salaries, the Committee periodically considers survey data provided by outside compensation consultants. Additional benchmarking data has been reviewed when assessing the compensation of executives performing certain key functions for the Company which are less common to the industry peer group.

As part of its process of approving salary adjustments and bonuses of executive officers, the Committee reviews other components of executive compensation such as potential payouts under the LTIP, potential value of RSU awards upon vesting and total annual cash compensation. Tally sheets setting forth the above information were prepared for the Committee's review and consideration.

Executive Compensation

The principal elements of executive compensation are: base salary, annual bonus, and awards of RSUs and performance-based cash awards under the Company's Long Term Compensation Program. Perquisites have not been a significant component of executive compensation.

Base Salary

It is the Committee's practice to meet throughout the course of the year to review executive compensation, and meet at least annually to review and approve salary increases for executive officers, including the Chief Executive Officer. The Committee's policy is generally to set and maintain competitive base salaries for each executive officer, including the Chief Executive Officer, for equivalent jobs with similarly situated employers. Additional considerations in the review of base salaries and approval of annual increases for fiscal 2005 included individual officer's contributions and the Company's performance during the prior fiscal year. Base salary adjustments for individual performance of executive officers other than the Chief Executive Officer in 2005 were based primarily upon recommendations from the Chief Executive Officer.

All current executive officers received a percentage increase to their salaries in 2005. The salaries paid for the past three years to Named Officers are shown in the Summary Compensation Table on page 14.

Annual Bonus

The Committee uses the Company-wide Annual Employee Bonus Plan to drive achievement toward specified goals and give employees a stake in the performance of the Company. Annual bonuses awarded under this plan to executive officers, including the Chief Executive Officer, are based on two factors: the Company's actual results measured against its annual corporate goals, and individual performance appraisals. Each executive officer is assigned a target bonus representing a percentage of salary based on such individual's position with the Company. The target level bonuses range from 57% of base salary for the Chief Executive Officer to 40% of base salary for other executive officers. If the Company achieves certain target business performance results and the executive achieves certain target appraisal ratings, the executive will be paid the target bonus. If actual results vary from such targets, the bonus paid may be adjusted up or down to reflect the variation. In keeping with our philosophy to align the interests of executive officers with the interests of our shareholders, 30% of an executive officer's bonus is generally paid in shares of restricted stock. These shares are restricted as to transferability for a two-year period, but are not forfeitable. The shares have full voting power and the right to receive dividends. Due to the restriction on transferability of the shares, the Committee provides additional cash compensation in the form of a tax gross-up to cover each executive officer's tax liability associated with the restricted stock grant.

Table of Contents

Corporate goals for 2005 consisted of cash flow targets, corporate development and technology development milestones, strengthening of the organization, and results in key litigation and arbitration proceedings. The Committee scored performance against the 2005 corporate goals in the aggregate at 94%. Consistent with the terms of the corporate goals established in 2005, payment of approximately 4% of the Named Officers 2005 annual bonus is contingent upon previously established conditions. This portion of their bonus is forfeitable if the officer's employment terminates prior to achievement. Individual performance measures for executive officers other than the Chief Executive Officer are based partially upon recommendations from the Chief Executive Officer and partially on the Committee's view of the individual's performance. Annual bonuses for each Named Officer are approved following a weighing of the corporate performance score together with the Committee's measure as to each executive's individual performance.

Long-Term Incentives

In 2004, we initiated our Long-Term Compensation Program (the Program) which is comprised of (1) time-based RSU awards designed to both attract and retain qualified management and provide long-term equity compensation, and (2) an LTIP designed to reward management for long-term corporate performance. The Program operates in cycles. RSUs granted to executive officers generally vest in full, three years from date of grant. Cash awards under the LTIP portion of the Program are also generally based on three year cycles as more fully described below and under the Long-Term Incentive Plan Table at page 17. Any cash award is based upon long-term performance goals approved by the Committee at targets set as a percentage of base salary.

Equity

In addition to receiving 30% of their 2005 bonuses in the form of restricted stock, all current executive officers including the Chief Executive Officer received awards of RSUs under the Company's Long-Term Compensation Program. On January 1, 2005 each of the Named Officers received an RSU award under the Program based on a percentage of base salary at the time of grant, as more fully described in the Summary Compensation Table.

Cash Awards

The LTIP, instituted in 2004, as part of our Long-Term Compensation Program, provides performance-based cash awards to the Chief Executive Officer, executive officers and other managerial level employees based on the Company's achievement of certain performance goals established by the Committee for each program cycle. These goals are established as a percentage of base salary (as in effect at the start of each LTIP cycle) and a payout under the LTIP is based on the Company's achievement of such goals. The payout may exceed or be less than the targeted percentage of base salary depending on the Company's achievement of the goals, or no payout may be made if the Company fails to meet the minimum performance goals for the cycle.

The LTIP operates in overlapping cycles the first of which was completed on January 1, 2006. A payout was made shortly thereafter. The second cycle, which originally covered the period January 1, 2005 to January 1, 2008, was revised by the Committee in June 2005 to cover a three and one-half year period beginning July 1, 2005 to January 1, 2009 (Cycle 2). The Named Officers received a pro rata cash payment covering the period of time from January 1, 2005 to June 30, 2005 (Interim Period) as reported in the Summary Compensation Table. Subsequent cycles are intended to be overlapping three-year cycles, beginning on January 1, 2008 and recurring every other year thereafter. Information regarding targeted payouts to Named Officers under Cycle 2 is set forth on page 17.

Perquisites and other benefit programs

Selective perquisites were given to former executive officers in 2005. Dr. Briancon, who served as Chief Technology Officer of the Company until October 2005, received an allowance in connection with housing.

Table of Contents

Executive officers also participate in benefit programs available to employees generally such as health and dental insurance, life insurance, 401(k) matching and profit sharing, and a cash perk program which entitles employees, on an annual basis, to 3.5% of their annual salary (collectively, Employee Benefit Programs).

Chief Executive Officer Compensation

We follow the same basic principles described above with respect to executive officer compensation in evaluating and approving the compensation of the Chief Executive Officer. Mr. Goldberg served as Chief Executive Officer of the Company until May 2005 at which time Mr. Merritt was appointed Chief Executive Officer.

Adjustments to Mr. Goldberg's base salary and the individual portion of his bonus for 2005 took into account individual performance and assessment by the Chairman of the Board of Directors. Consideration was given to the successes achieved by the Company during 2004. Under the terms of our Annual Employee Bonus Plan, Mr. Goldberg's target bonus, as Chief Executive Officer, was 57% of base salary. His target awards under each of the LTIP and RSU award portion of our long-term compensation program was 120% of base salary. When the Committee revised Cycle 2 of the LTIP in June 2005, Mr. Goldberg received a pro rata portion of the payment made for the Interim Period. While use of perks has been limited at the Company, Mr. Goldberg, as Chief Executive Officer, received a car allowance and reimbursement for limited personal expenses. Mr. Goldberg also participated in the Employee Benefit Programs. In connection with his termination of employment as Chief Executive Officer, Mr. Goldberg and the Company entered into a severance agreement providing for payments consistent with his employment agreement. See Named Officer Employment and Severance Agreements .

In approving Mr. Merritt's compensation when he became the Company's Chief Executive Officer in May 2005, the Committee considered the compensation of the prior Chief Executive Officer and Mr. Merritt's experience and knowledge of the Company's business. His annual bonus target and target awards under each of the LTIP and RSU award portion of our Long-Term Compensation Program are the same as those applied to Mr. Goldberg; and, he was awarded a pro rata increase in the number of RSUs previously awarded to him under the then current cycles of the Long-Term Compensation Program to meet the award band applicable to the Chief Executive Officer. In connection with his promotion, Mr. Merritt was awarded 10,000 RSUs vesting over three years. Mr. Merritt does not receive a car allowance but receives compensation under the Employee Benefit Programs as described above. In December 2005, the Committee awarded Mr. Merritt a discretionary bonus of \$25,000 for his performance as Chief Executive Officer.

Stock Ownership Guidelines

Effective January 2004, the Committee established minimum stock ownership guidelines for senior officers and Outside Directors which are expected to be met within five years of the date such individuals become subject to the guidelines. The guidelines were established with the advice of independent compensation consultants. Compliance is monitored by the Committee on an annual basis. Qualifying ownership includes common stock (including that held through the Company's 401(k)), restricted stock and RSUs. The Chief Executive Officer's target ownership is set at an amount of Company stock equal in value to four times his current annual base salary. Other executives are expected to own Company stock approximately equivalent in value to a specified multiple of either one or two times their current annual base salary.

Section 162(m) Tax Matters

Section 162(m) of the Internal Revenue Code generally limits the Company's tax deduction for compensation to its Chief Executive Officer and other executive officers to \$1,000,000 per person in any tax year. Qualified performance based compensation is not subject to the deduction limit if specified requirements

Table of Contents

are met. The Committee considers the effects of Section 162(m) when implementing compensation plans and generally seeks to preserve the tax deductibility of compensation to executive officers, to the extent that this objective does not impair the operation and effectiveness of the Company's compensation programs. No Named Officer received non-deductible compensation in 2005, however, the Committee believes it is important to maintain flexibility to make adjustments in the Company's Long Term Compensation Program, despite the fact that in the future certain amounts paid to executives in excess of \$1,000,000 may not be deductible.

The following table sets forth information concerning the annual, long-term and certain other compensation paid to each person who served as Chief Executive Officer of the Company during the fiscal year ended December 31, 2005, and the Company's other four most highly compensated executive officers each of whose total annual salary and bonus exceeded \$100,000 in 2005 and one person who would have been one of the four most highly compensated executive officers but for the fact he was no longer serving at year end (collectively, the "Named Officers"). All said compensation was paid for services rendered to the Company and its subsidiaries during fiscal years 2005, 2004 and 2003.

bonus awarded him under the Bonus Plan. The remainder represents an interim payment made in connection with the restructuring of the Company's LTIP, as further described in footnote 6 to this Table (Mr. Merritt: \$27,925; Mr. Fagan: \$20,625; Mr. Lemmo: \$20,588; Mr. Miller: \$14,200; Mr. Shay: \$16,433; Mr. Goldberg: \$28,995; and Dr. Briancon: \$21,893).

- (3) As permitted by SEC rules, no amounts are shown in the Table with respect to certain perquisites where such amounts, in the aggregate, do not exceed the lesser of 10% of the total annual salary and bonus of the Named Officer, or \$50,000. The Company has elected, however, to disclose such information for all Named Officers for 2005. Mr. Goldberg's other annual compensation for 2005 included an allowance for a car valued at \$13,353, and a reimbursement for personal expenses valued at \$1,048. Dr. Briancon's other annual compensation consisted of \$4,320 allowance for temporary housing. Messrs. Merritt, Fagan, Lemmo, Miller and Shay each received tax reimbursements associated with restricted stock received as part of their 2005 annual bonus in the amounts of \$37,779, \$21,941, \$20,556, \$20,464 and \$ 19,667, respectively.
- (4) Amounts reported for 2005 represent the value of RSUs granted under the Company's 1999 Restricted Stock Plan as part of our Long Term Compensation Program (Program). RSU awards were made January 1, 2005, the beginning of the second cycle of the Program, and vest in-full on January 1, 2008 (the 2005-2008 cycle). The number of RSUs granted was calculated based on a percentage of base salary of the participant on the award date divided by the Company's closing share price on the date preceding the RSU award (\$22.10 on December 31, 2004). The RSU award is time-based and is forfeitable in the event of a termination of employment for cause prior to the applicable payout date. For the 2005-2008 cycle, the percentages of base salary on which the RSU awards are based for Messrs. Merritt, Fagan, Lemmo, Miller, Shay, Goldberg and Briancon are 100%, 90%, 90%, 80%, 80%, 120%, and 90%, respectively. Amounts reported for Messrs. Goldberg and Briancon in 2004 and 2005 reflect pro rata reductions in awards in connection with their terminations of employment. The amount listed for Mr. Merritt in 2005 includes an award made in connection with his promotion to Chief Executive Officer on May 5, 2005 as well as pro rata increases in his awards under the 2004-2006 cycle and 2005-2008 cycle under the Program to reflect the change in his eligible award band from 100% to 120% of base salary. The amount of each of the foregoing RSU awards is included in the amounts set forth in footnote 5 below.
- (5) As of December 31, 2005, the Named Officers' aggregate holdings in shares of restricted stock and in RSUs is as follows: Mr. Merritt, 3,459 shares of restricted stock and 44,732 RSUs; Mr. Fagan, 3,062 shares of restricted stock and 20,209 RSUs; Mr. Lemmo, 3,157 shares of restricted stock and 20,155 RSUs; Mr. Miller, 2,388 shares of restricted stock and 13,952 RSUs; Mr. Shay, 2,764 shares of restricted stock and 16,113 RSUs; Mr. Goldberg, 0 shares of restricted stock and 14,405 RSUs; and Dr. Briancon, 3,755 shares of restricted stock and 11,616 RSUs. The aggregate value of each Named Officer's restricted stock and RSU holdings (calculated by multiplying the dollar value of each award on the date of grant) is as follows: Mr. Merritt, \$864,584; Mr. Fagan, \$467,997; Mr. Miller, \$329,026; Mr. Lemmo, \$469,291; Mr. Shay, \$379,918; Mr. Goldberg, \$265,100; and Dr. Briancon, \$295,165. RSUs entitle the holder to receive a dividend equivalent should any dividend be paid on our Common Stock.
- (6) The Company's Long-Term Incentive Plan (LTIP) is structured to generally have three year performance cycles, one of which was scheduled to cover the period of January 1, 2005 to January 1, 2008. Effective June 30, 2005 the Compensation Committee revised the LTIP to begin a new 3 1/2 year cycle covering the period July 1, 2005 to January 1, 2009. In connection therewith eligible participants received a pro rata payment for the six months which had elapsed under the cycle that had begun January 1, 2005 (Interim Payout). The Interim Payout made to the Named Officers are reported under Annual Compensation Bonus.
- (7) For fiscal 2005, the components of the amounts reported in this column are outlined below.

Named Officer Employment and Severance Agreements

Edgar Filing: INTERDIGITAL COMMUNICATIONS CORP - Form DEF 14A

Each of the current Named Officers has entered into an employment agreement with the Company (each, an Employment Agreement , and collectively, the Employment Agreements) that provides severance pay benefits, among other things, in certain events of termination of employment. The Employment Agreements provide that, in the event the executive s employment is terminated by the Company without cause or in the

Table of Contents

case of voluntary termination by the executive with good reason (as each term is defined in the Employment Agreements), the Company generally must pay severance up to one year's salary and continuation of medical and dental benefits (eighteen months for salary and benefit continuation in the case of the Chief Executive Officer) and that the Company may enforce up to a one-year covenant-not-to-compete. In addition, these Employment Agreements (with the exception of Mr. Merritt's) provide that, in the case of voluntary termination by the executive without good reason, the Company generally may elect to pay severance of up to one year's salary and continuation of medical and dental benefits during which time the individual is subject to non-compete provisions. The Employment Agreements also provide a one-year covenant-not-to-compete without payment of severance following termination by the Company for cause. In the event of a voluntary or involuntary termination of the executive's employment within one year after a change of control (which term is generally defined as the acquisition, including by merger or consolidation, or by the issuance by the Company, of its securities, by one or more persons in one transaction or a series of related transactions, of more than fifty percent of the voting power represented by the outstanding stock of the Company or a sale of substantially all the assets of the Company), the Employment Agreements provide that the executive would generally receive two years salary and the immediate vesting of all stock options and restricted stock and Restricted Stock Unit (RSU). The Employment Agreements also provide that if any amount payable to the officers is subject to a federal excise tax imposed on excess parachute payments, the officer shall be entitled to a cash payment sufficient to indemnify him for such tax.

Under the terms of his Amended and Restated Employment Agreement, Mr. Merritt's service as a director of the Company is conditioned upon his retention as Chief Executive Officer. Mr. Merritt's Employment Agreement also provides for the payment of 50% of his target bonus in the event his employment is terminated by the Company without cause or in the event he voluntarily terminates his employment for good reason or in the event of a voluntary or involuntary termination of his employment within one year after a change of control. Mr. Merritt is also subject to a one-year covenant-not-to-compete regardless of the reason for termination and independent of any obligation the Company may have to pay severance.

Under the terms of his Severance Agreement, Mr. Goldberg is paid a continuation of base salary and COBRA group health insurance premiums, in an amount equal to 18 months less applicable withholding taxes. In addition, he received a pro-rata portion of both his LTIP cash award and restricted stock unit awards under the two Long-Term Compensation Program cycles in effect at the termination of his employment, the elimination of any further restriction on transferability on previously awarded shares of restricted stock, outplacement services, payment of 50% of his target bonus in cash, the continued payment of his automobile lease in the amount of \$741.23 per month for 30 months and ownership of cell phone and computer equipment previously provided by the Company. Consistent with Company practice with respect to other employees upon termination, Mr. Goldberg also was paid accrued and unused vacation. Certain of the rights, duties, and obligations of Mr. Goldberg under his Employment Agreement are incorporated into the Severance Agreement and survive his termination of employment including a covenant-not-to-compete. In addition, the Severance Agreement provides for a general release by Mr. Goldberg.

Under the terms of his Severance Agreement, Mr. Briancon is paid a continuation of base salary and COBRA group health insurance premiums, in an amount equal to 12 months less applicable withholding taxes. In addition, he received a pro-rata portion of his 2005 annual bonus in exchange for relinquishing his rights to any payout under Cycle 2 of the LTIP, a pro-rata portion of any cash award to be made under the first cycle of the LTIP, a pro-rata portion of the RSU awards granted under the two Program cycles in effect at the date of his termination, such pro-rated awards to be calculated under the terms of the Program with vesting on January 1, 2006, and outplacement services. Consistent with Company practice with respect to other employees upon termination, Dr. Briancon was paid for accrued and unused vacation. Certain of the rights, duties, and obligations of Dr. Briancon under his Employment Agreement are incorporated into the Severance Agreement and survive his termination of employment, including a covenant-not-to-compete. In addition, the Severance Agreement provides for a general release by Dr. Briancon.

Table of Contents

The Employment Agreements (executed between May 1997 and May 2005) provide for the payment of annual salaries to said Named Officers that may be increased from time-to-time. Current salaries paid pursuant to the Employment Agreements are: Mr. Merritt, \$400,000; Mr. Fagan, \$285,450; Mr. Lemmo, \$284,107; Mr. Miller, \$225,993; and Mr. Shay, \$256,114.

award incentive cycle began on July 1, 2005 and will end on January 1, 2009 (Cycle 2). Subsequent Program cycles are intended to be overlapping three-year cycles, beginning on January 1, 2008 and recurring every other year thereafter. The LTIP cash award is based on the Company's achievement of certain performance goals established by the Compensation Committee of the Board of Directors for each cycle. The target awards are calculated as a percentage of base salary (as in effect at the start of each Program cycle) and a payout is based on achievement of the goals associated with the respective Program cycle. The payout may exceed or be less than the targeted award depending on the Company's achievement of the goals, or no payout may be made if the Company fails to meet the minimum performance goals for the LTIP cycle. For Cycle 2, these goals consist of (i) achieving patent licensing/technology solution revenue coverage from a targeted percentage of the 3G market on terms and conditions consistent with the Company's strategic plan; (ii) generating free cash flow, of a targeted monetary amount, over years 2006 through 2008; and (iii) creating new business opportunity for the Company beyond the 3G baseband market. For Cycle 2, the percentages of base salary on which the LTIP award is based for Messrs. Merritt, Fagan, Lemmo, Miller, and Shay are 120%, 90%, 90%, 80% and 80%, respectively, however, the estimated future payouts disclosed above also reflect the fact that Cycle 2 is a three and one-half year cycle rather than a three year cycle. Participants will earn a pro rata portion of their awards under the Program in the event of death, disability, or retirement or if the Company terminates their employment without cause. Mr. Goldberg was no longer employed at the Company when Cycle 2 began and accordingly was ineligible for an LTIP award. Mr. Briancon relinquished his rights to a payout under Cycle 2 in connection with his severance agreement.

**SHAREHOLDER PROPOSAL CONCERNING ANNUAL
ELECTION OF DIRECTORS**

(Proposal No. 2)

Mr. Michael Cohen, c/o SEC Law Firm, 11693 San Vicente Blvd., Suite 357, Los Angeles, CA 90049, the owner of 39,000 shares of the Company's common stock has proposed the adoption of the following resolution and in support of his proposal has furnished the following statement which is exactly as it was provided to us:

Stockholder Resolution Elect Each Director Annually

Shareholders recommend that each and every director be elected annually to serve a one-year term of office. This proposal recommends that our company's governing documents, including the bylaws, be amended accordingly in a prompt and timely manner. The unexpired terms of Directors shall be cancelled in favor of annual elections for all Directors as soon as possible.

Proponent's Supporting Statement:

Shareholders passed a similar proposal last year by an overwhelming majority and to date there has been no apparent action by management to implement annual elections of Directors to serve a one-year term of office. Currently, the company elects Directors to a classified Board, with elections for each individual Director taking place only once every three years, for a three-year term.

This resolution recommending annual election of all Directors is intended to promote increased accountability of Directors, reduced entrenchment of management, and increased shareholder value in the event of offers to purchase the company.

This resolution addresses the main concerns about classified boards as summarized by Ted Allen(1), Managing Editor of Institutional Shareholder Services, as follows: The ability to elect directors is the single most important use of the shareholder franchise, according to ISS and many investors. ISS believes that all directors should be accountable on an annual basis. A classified board can entrench management and effectively preclude most takeover bids or proxy contests. ISS has not reviewed or endorsed this particular shareholder proposal at the time of submittal; however, ISS may do so subsequently.

Board of Directors Statement in Opposition

In accordance with the Company's Amended and Restated Articles of Incorporation, the Company has three classes of directors, with members of each class elected to three-year terms. The classes are staggered so that the Company's shareholders vote for the election of one class of directors every year. Under the Articles of Incorporation and the Pennsylvania Business Corporation Law, the implementation of this proposal, even if approved at the annual meeting of shareholders, could not proceed because the Board does not have the power to shorten the term of incumbent directors. Further the proposal could not be implemented unless (i) the Board endorses a resolution amending the Articles of Incorporation to implement the proposal and (ii) *at least 80%* of our shareholders entitled to vote on the matter subsequently vote in favor of the amendment. Approval of this shareholder proposal at the annual meeting does not require the Board to endorse such a resolution.

Table of Contents

Notwithstanding the potential procedural impediments to the proposal, your Board has determined that declassification is not in the best interests of the Company and our shareholders for the reasons set forth below.

Under the current system, after each election, at least two-thirds of the Board of Directors will have had prior experience and familiarity with the Company's business. This enables the Company to remain focused on its long term objectives. Continuity and long term focus are particularly important in our business where technology and product development can have long cycles and patent licensing strategies and related legal disputes are complex.

A classified Board of Directors also serves as an important tool for resisting an unsolicited takeover of the Company on terms that are not advantageous to the Company's shareholders. The staggered system permits a more orderly process for directors to consider any and all alternatives to maximize shareholder value by encouraging those who may seek to acquire control of the Company to initiate such actions through the Board of Directors. Absent a classified Board of Directors, a potential acquirer could gain control of the Company by replacing a majority of the Board of Directors with its own slate of nominees at a single annual meeting by a simple plurality of votes cast, and without paying any premiums to the Company's shareholders.

There is no issue of entrenched management at the Company. During the last twelve months, the Board has appointed a new Chief Executive Officer, terminated the employment of a member of the executive staff, appointed a new individual responsible for the Company's patent licensing program, and eliminated an executive position which is no longer required by the Company's current operating structure and business.

Lastly, there seems to be no empirical evidence that a classified board structure enhances directors' accountability to shareholders. All directors are required by law to uphold their fiduciary duties to the Company and its shareholders, regardless of whether they serve terms of one year or three years. Further, this Board has instituted corporate governance guidelines that enhance accountability, such as assuring that the Board is composed of a majority of independent directors and its committees are composed solely of independent directors. There is also a process for shareholders to send communications to the Board.

The Board does not take lightly the vote results received on a stockholder proposal, particularly a proposal that raises important governance concerns. Last year a resolution calling for the annual election of directors received the approval of 29% of the outstanding shares entitled to vote or 66% of the shares that voted. However, even if the Board of Directors had determined that it would be in the best interests of the Company to support the proponent's proposal, both Pennsylvania law and the Company's governing document prevent this proposal from being implemented as presented.

This proposal could not be implemented as presented because unexpired terms of the Company's directors may not be unilaterally cancelled under the Pennsylvania Business Corporation Law. In addition, the Company's By-Laws provide that to remove a director from office without cause, shareholders holding at least 80% of the outstanding stock of the Company entitled to vote must approve such removal.

Further, neither management nor the Board of Directors can unilaterally change the provisions of the Company's Articles of Incorporation or By-Laws which provide for a classified board. To implement the proposal, both the Board of Directors and shareholders holding at least 80% of the outstanding voting stock of the Company would have to approve such amendments. Although the Board of Directors would consider such amendments in the event this proposal is approved, the Board of Directors remains subject to its fiduciary duty to consider independently whether it believes the declassification of the Board of Directors to be in the best interests of the Company and its shareholders generally.

FOR THE FOREGOING REASONS, THE BOARD OF DIRECTORS RECOMMENDS THAT THE SHAREHOLDERS VOTE AGAINST PROPOSAL NO. 2 REGARDING THE ANNUAL ELECTION OF DIRECTORS.

Audit Committee Report

The Audit Committee of the Board of Directors (the "Committee") is composed of four directors whom the Board of Directors has determined meet the independence and financial literacy and sophistication requirements of the Nasdaq National Market ("Nasdaq") listing standards, the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act") and U.S. Securities and Exchange Commission ("SEC") regulations. The Committee has, for many years, been composed entirely of non-management directors. The Committee acts pursuant to a written charter ("Charter") which was adopted by the Company's Board of Directors and is subject to annual review. A copy of the Charter is attached to this Proxy Statement as Appendix A.

As more fully described in the Charter, the Committee oversees the Company's financial reporting process on behalf of the Board of Directors. In fulfilling our oversight responsibilities, we have reviewed and discussed with management the Company's audited consolidated financial statements for the year ended December 31, 2005, including a discussion of the acceptability and appropriateness of significant accounting principles and management's assessment of the effectiveness of the Company's internal controls over financial reporting. Management has represented to us that the Company's consolidated financial statements were prepared in accordance with accounting principles, generally accepted in the United States and considered appropriate in the circumstances to present fairly the Company's financial position, results of operations and cash flows. We have also reviewed and discussed with PricewaterhouseCoopers LLP ("PwC"), the Company's independent registered public accounting firm, their evaluation of the Company's internal controls over financial reporting and other business matters. Further, we have discussed with PwC the matters required to be discussed with the independent auditor by Statement on Auditing Standards No. 61, as amended by Statement on Auditing Standards No. 90, (Codification of Statements on Auditing Standards, AU §380) which includes, among other items, matters related to the conduct of the audit of the Company's financial statements.

This Committee has also received and reviewed the written disclosures and the letter from PwC required by the Independence Standards Board Standard No.1 (Independence Discussions with Audit Committees), which relates to the accountant's independence from the Company and its related entities, and has discussed with PwC their independence from the Company.

Based on the reviews and discussions with management and the independent accounting firm referred to above, we recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005 for filing with the SEC.

To be ratified, the appointment must be approved by the affirmative vote of a majority of the votes cast by shareholders present at the Annual Meeting, in person or by proxy, and entitled to vote.

Representatives from PwC will be present at the Annual Meeting to make a statement, if they so desire, and will be available to respond to appropriate questions.

Audit Committee Pre-Approval Policy for Audit and Non-Audit Services of Independent Registered Public Accounting Firm

The Audit Committee's policy requires that it pre-approve all audit and non-audit services and related fees to be performed by the Company's independent registered public accounting firm in order to assure that the provision of such services does not impair the independent auditors' independence. Unless a type of service to be provided by the independent registered public accounting firm has received general pre-approval, it will require specific pre-approval by the Audit Committee. Also, proposed services exceeding pre-approved cost levels require specific pre-approval.

Consistent with the rules established by the SEC, proposed services to be provided by the Company's independent registered public accounting firm will be evaluated by grouping the service fees under one of the following four categories: *Audit Services*, *Audit-Related Services*, *Tax Services* and *All Other Services*. All proposed services shall be discussed and approved by the Company's Audit Committee. In order to render approval, the Audit Committee shall have available a schedule of services and fees approved by category for the current year for reference and specific detail must be provided. The Audit Committee will not pre-approve services related only to the broad categories noted above.

The Audit Committee has delegated pre-approval authority to its Chairperson for cases where independent auditor services must be expedited. The Company's management shall provide the Audit Committee with reports of all pre-approved services and related fees by category incurred during the current fiscal year with forecasts of additional services anticipated during the year.

All of the Audit-Related Fees, Tax Fees and All Other Fees described above were approved by the Company's Audit Committee.
