Item 2.02 Results of Operations and Financial Condition.

Item 7.01 Regulation FD Disclosure.

The information in this report furnished pursuant to Items 2.02 and 7.01, including Exhibit 99.1 and 99.2 attached hereto, shall not be deemed filed for the purposes of Section 18 of the Securities and Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section. It may only be incorporated by reference in another filing under the Exchange Act or the Securities Act of 1933, as amended, if such subsequent filing specifically references the information furnished pursuant to Items 2.02 and 7.01 of this report.

On July 18, 2013, Advanced Micro Devices, Inc. (the Company) announced its financial position and results of operations as of and for its fiscal quarter ended June 29, 2013 in a press release that is attached hereto as Exhibit 99.1. Attached hereto as Exhibit 99.2 is financial information and commentary by Devinder Kumar, Senior Vice President and Chief Financial Officer of the Company, regarding the Company's fiscal quarter ended June 29, 2013.

Commencing with the second fiscal quarter of 2013, the Graphics reportable segment has been renamed Graphics and Visual Solutions. The new reportable segment nomenclature provides greater clarity on the product lines that comprise the segment and reflects the growing importance of gaming and semi-custom offerings to the Company. There is no change to the composition of this reportable segment.

The Company's two reportable segments continue to be comprised of the following:

the Computing Solutions segment, which includes x86 microprocessors, as standalone devices or as incorporated as an accelerated processing unit (APU), chipsets, embedded processors and dense servers; and

the Graphics and Visual Solutions segment, which includes graphics, video and multimedia products developed for use in desktop and notebook computers, including home media PCs, professional workstations and servers as well as revenue received in connection with semi-custom products and development and game console royalties.

To supplement the Company's financial results presented on a U.S. GAAP (GAAP) basis, the Company's earnings release contains non-GAAP financial measures, including non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income (loss), non-GAAP net income (loss), non-GAAP earnings (loss) per share, Adjusted EBITDA, and non-GAAP free cash flow. The Company believes that this non-GAAP presentation makes it easier for investors to compare current and historical periods' operating results and that it assists investors in comparing the Company's performance across reporting periods on a consistent basis by excluding items that it does not believe are indicative of its core operating performance.

To derive non-GAAP gross margin for the Company for the second fiscal quarter of 2012, the Company excluded a charge related to a legal settlement with a third party.

To derive non-GAAP operating expenses, non-GAAP operating loss, non-GAAP net loss and non-GAAP loss per share for the Company for the second and first fiscal quarters of 2013, the Company excluded the amortization of acquired intangible assets and restructuring and other special charges, net.

To derive non-GAAP operating expenses for the Company for the second fiscal quarter of 2012, the Company excluded the amortization of acquired intangible assets.

To derive non-GAAP operating income, non-GAAP net income and non-GAAP earnings per share for the Company for the second fiscal quarter of 2012, the Company excluded the amortization of acquired intangible assets and a charge related to a legal settlement with a third party.

Specifically, these non-GAAP financial measures reflect adjustments based on the following:

Amortization of acquired intangible assets: Amortization of acquired intangible assets represents amortization expenses of acquired identifiable intangible assets in connection with the Company's acquisitions of ATI Technologies and SeaMicro, Inc. The Company excluded this item from the Company's GAAP operating expenses, GAAP operating income (loss), GAAP net income (loss) and GAAP earnings (loss) per share for all periods presented because these expenses are not indicative of ongoing operating performance.

Restructuring and other special charges, net: Restructuring and other special charges, net, recorded in the second fiscal quarter of 2013 primarily consisted of costs the Company incurred from the exit of a portion of the Company's facility in Sunnyvale, California, partially offset by the release of employee severance costs that were either (i) estimated at the time of the employees' separation and subsequently settled, or (ii) attributable to the subsequent retention of the employees due to changes in the business environment. Restructuring and other special charges, net, recorded in the first fiscal quarter of 2013 primarily consisted of a loss associated with the sale and leaseback of the Company's facility in Austin, Texas, partially offset by a gain on the sale and leaseback of one of the Company's buildings in Markham, Canada. The net charge primarily represented the difference between the sales proceeds and the carrying values of the properties sold. The Company excluded restructuring and other special charges, net, from the Company's GAAP operating expenses, GAAP operating loss, GAAP net loss and GAAP loss per share for the second and first fiscal quarters of 2013 because they are not indicative of ongoing operating performance.

Legal settlement: In the second fiscal quarter of 2012, management determined that it was probable a settlement would be reached with a third party and that the amount of the settlement was estimable. As a result, the Company recorded the estimated settlement amount of \$5 million in the second fiscal quarter of 2012 as a legal settlement. The Company excluded this charge from its GAAP gross margin, GAAP operating income, GAAP net income and GAAP earnings per share for the second fiscal quarter of 2012 because it is not indicative of ongoing operating performance.

In addition to the above non-GAAP financial measures, the Company presented Adjusted EBITDA in the earnings release as a supplemental measure of its performance. The Company determines its Adjusted EBITDA by adjusting operating income (loss) for depreciation and amortization, employee stock-based compensation expense and amortization of acquired intangible assets. In addition, the Company also included the following adjustments for the applicable periods:

for all periods presented, except for the second fiscal quarter of 2012, the Company also included an adjustment for restructuring and other special charges, net;

for the second fiscal quarter of 2012, the Company also included an adjustment related to a legal settlement with a third party; and

for the six months ended June 30, 2012, the Company also included adjustments for the limited waiver of exclusivity from GLOBALFOUNDRIES, a legal settlement with a third party and costs related to acquisition of SeaMicro, Inc.

The Company calculates and communicates Adjusted EBITDA in the financial schedules because the Company's management believes it is of importance to investors and lenders in relation to its overall capital structure and its ability to borrow additional funds. In addition, the Company presents Adjusted EBITDA because it believes this measure assists investors in comparing its performance across reporting periods on a consistent basis by excluding items that the Company does not believe are indicative of its core operating performance.

The Company's calculation of Adjusted EBITDA may or may not be consistent with the calculation of this measure by other companies in the same industry. Investors should not view Adjusted EBITDA as an alternative to the GAAP operating measure of operating income (loss) or GAAP liquidity measures of cash flows from operating, investing and financing activities. In addition, Adjusted EBITDA does not take into account changes in certain assets and liabilities as well as interest and income taxes that can affect cash flows.

The Company also presents non-GAAP free cash flow in the earnings release as a supplemental measure of its performance. Non-GAAP free cash flow for the Company was determined by adjusting GAAP net cash provided by (used in) operating activities for capital expenditures. The Company calculates and communicates non-GAAP free cash flow in the financial schedules because the Company's management believes it is of importance to investors to understand the nature of these cash flows. The Company's calculation of non-GAAP free cash flow may or may not be consistent with the calculation of this measure by other companies in the same industry. Investors should not view non-GAAP free cash flow as an alternative to GAAP liquidity measures of cash flows from operating activities. The Company has provided reconciliations within the press release and financial schedules of these non-GAAP financial measures to the most directly comparable GAAP financial measures.
