SECTION I ABOUT THIS PROXY STATEMENT

Why did I receive a Notice Regarding the Internet Availability of Proxy Materials?

In accordance with rules of the Securities and Exchange Commission (SEC), instead of mailing printed copies of our proxy materials, we are furnishing the proxy materials to our stockholders via the Internet. This process will save the Company some of the cost of printing and mailing the proxy materials and will reduce the impact of our annual stockholder meetings on the environment. Accordingly, on or about March 17, 2015, we mailed to our stockholders a Notice Regarding the Internet Availability of Proxy Materials (the Notice). If you received a Notice, you will not receive a printed copy of the proxy materials unless you request one. The Notice provides instructions on how to access the proxy materials for Capital One s 2015 Annual Stockholder Meeting (the Annual Meeting) via the Internet, how to request a printed set of proxy materials and how to vote your shares.

What is the purpose of the proxy materials?

The Board of Directors of Capital One is providing you these materials in connection with the solicitation by Capital One s Board of Directors of proxies to be voted at the Annual Meeting. All stockholders who held shares as of the close of business on March 5, 2015 (the record date), are entitled to attend the Annual Meeting and to vote on the items of business outlined in this proxy statement. If you choose not to attend the Annual Meeting, you may vote your shares via the Internet, by telephone or by mail.

How do I access the proxy materials?

The Notice provides instructions regarding how to view our proxy materials for the Annual Meeting online. As explained in greater detail in the Notice, to view the proxy materials and to vote, you will need to visit www.proxyvote.com and have available your 16-digit control number(s) contained on your Notice.

How do I request paper copies of the proxy materials?

You may request paper copies of the 2015 proxy materials by following the instructions listed at www.proxyvote.com, by telephoning 1-800-579-1639 or by sending an e-mail to sendmaterial@proxyvote.com.

What is the difference between a record holder and a holder of shares in street name?

You are a record holder if you hold shares of Capital One common stock directly in your name through Capital One s transfer agent, Computershare Trust Company, N.A. (Computershare).

If you hold shares of Capital One common stock through a broker, bank, trust or other nominee, then you are a holder of shares in street name. As a result, you must instruct the broker, bank, trust or other nominee about how to vote your shares. Under the rules of the New York Stock Exchange (NYSE), if you do not provide such instructions, the firm that holds your shares will have discretionary authority to vote your shares only with respect to routine matters, as described below.

Can I attend the Annual Meeting?

If you held shares of Capital One common stock as of the close of business on March 5, 2015, you may attend the Annual Meeting. Because seating is limited, only you and a guest may attend the meeting. Admission to the meeting is on a first-come, first-served basis. Registration begins at 9:00 a.m. You must present a valid government-issued picture identification and proof of Capital One stock ownership as of the record date. If you hold Capital One stock in street name, you must also bring a copy of a brokerage statement reflecting your stock ownership as of the record date. If you plan to attend as the proxy of a stockholder, you must present a legal proxy (described below). Cameras, recording devices and other electronic devices are not permitted.

On March 5, 2015, there were _____ shares of Capital One s common stock issued and outstanding.

Time for Voting Your Shares By Internet, By Telephone or By Mail

You may vote via the Internet or by telephone up until 11:59 PM Eastern Daylight Time on April 29, 2015. If you vote by mail, your proxy card must be received by April 29, 2015.

In Person

If you are a record holder of shares of Capital One common stock, you may vote in person at the Annual Meeting. A record holder must present a valid government-issued picture identification and, if the shares are held in the name of an entity, evidence of valid authorization from that entity in order to attend the meeting. Stockholders of record also may be represented by another person at the Annual Meeting by executing a legal proxy designating that person as the proxy holder. Each stockholder may appoint only one proxy holder or representative to attend the Annual Meeting on his or her behalf. See **Can I attend the Annual Meeting?** above for more information regarding attending the Annual Meeting.

If you hold your shares of Capital One common stock in street name, you must bring a valid government-issued picture identification and a copy of a statement reflecting your stock ownership as of the record date in order to attend the meeting. You must also obtain a legal proxy from your broker, bank, trust or other nominee and present it to the inspector of elections with your ballot to be able to vote at the Annual Meeting. To request a legal proxy, please follow the instructions at www.proxyvote.com.

What if I hold my shares in street name and I do not provide my broker, bank, trustee or other nominee with instructions about how to vote my shares?

You may instruct your broker, bank, trustee or other nominee on how to vote your shares using the methods described above. If you do not vote via the Internet or by telephone and do not return your voting instructions to the firm that holds your shares prior to the Annual Meeting, the firm has discretion to vote your shares only with respect to Item 2 on the proxy card, which is considered a routine matter under NYSE rules. The election of

Table of Contents

members of the Board of Directors and Items 3, 4 and 5 are not considered routine matters, and the firm that holds your shares will not have discretionary authority to vote your shares for these Items if you do not provide instructions using one of the methods described above. Therefore, you are encouraged to return your voting instructions so that your shares are voted for non-routine matters at the Annual Meeting. If you hold shares in several different accounts, you must provide voting instructions for each account in order to authorize all of your shares to be voted.

How do I vote my 401(k) shares?

If you participate in the Capital One Associate Savings Plan, you may vote the number of shares equivalent to your interest in the Capital One Pooled Stock Fund as credited to your account on the record date. You will receive instructions on how to vote your shares via e-mail from Broadridge. The trustee of the Associate Savings Plan will vote your shares in accordance with your duly executed instructions if they are received by April 27, 2015. If you do not send instructions, the trustee will not vote the share equivalents credited to your account.

Can I revoke my proxy or change my vote?

Yes, you may revoke any proxy that you previously granted or change your vote by:

submitting another timely vote via the Internet, by telephone or by mailing a new proxy card or voting instruction form;

attending the Annual Meeting and voting in person; or

if you are a record holder, giving written notice of revocation to the Corporate Secretary, Capital One Financial Corporation, 1680 Capital One Drive, McLean, VA 22102.

Your new vote or revocation must be submitted in accordance with the timeframes above under Time for Voting Your Shares By Internet, By Telephone or By Mail.

What constitutes a quorum?

A quorum of stockholders is necessary to transact business at the Annual Meeting. A quorum exists if the holders of a majority of the voting power of Capital One's outstanding shares entitled to vote generally in the election of directors are present in person or represented by proxy. Abstentions and broker non-votes will be counted in determining if there is a quorum, but neither will be counted as votes cast.

What is a broker non-vote?

As described above, under NYSE rules, if you hold your shares in street name and you do not submit voting instructions to the firm that holds your shares, the firm has discretionary authority to vote your shares only with respect to routine matters. For non-routine matters, which include the election of directors and Items 3, 4 and 5, if you

do not submit voting instructions, the firm that holds your shares will not have discretion to vote your shares. This is called a broker non-vote.

Who will count the vote?

Votes will be tabulated by Broadridge. The Board of Directors has appointed a representative of American Elections Services, LLC to serve as the Inspector of Elections.

Will a list of stockholders be made available?

Capital One will make a list of stockholders available at the Annual Meeting and, for ten days prior to the meeting, at our offices located at 1680 Capital One Drive in McLean, Virginia. Please contact Capital One's Corporate Secretary at (703) 720-1000 if you wish to inspect the list of stockholders prior to the Annual Meeting.

Table of Contents

How much did the solicitation cost?

Capital One will pay the costs of the solicitation. We have retained Georgeson Inc. to assist us in the solicitation of proxies for an aggregate fee of \$12,500, plus reasonable out-of-pocket expenses. In addition to Capital One soliciting proxies via the Internet, by telephone and by mail, our directors, officers and employees may solicit proxies on our behalf, without additional compensation.

What is householding?

Under SEC rules, a single package of Notices may be sent to any household at which two or more stockholders reside if they appear to be members of the same family unless contrary instructions have been received. Each stockholder continues to receive a separate Notice within the package. This procedure, referred to as householding, reduces the volume of duplicate materials stockholders receive and reduces mailing expenses. Stockholders may revoke their consent to future householding mailings or enroll in householding by contacting Broadridge toll free at 1-800-542-1061 or by writing to Broadridge, Household Department, 51 Mercedes Way, Edgewood, NY 11717. Capital One will deliver promptly, upon written or oral request, a separate copy of the proxy materials to any stockholder at a shared address to which a single copy was delivered. Stockholders who wish to receive a separate set of proxy materials now should contact Broadridge at the same phone number or mailing address.

What vote is necessary to approve each item?

All stockholders of record are entitled to one vote per share of common stock held for each nominee for director and for each other matter presented for a vote at the meeting.

Item 1 requests your vote for the election of ten candidates for director. Richard D. Fairbank, Patrick W. Gross, Ann Fritz Hackett, Lewis Hay, III, Benjamin P. Jenkins, III, Pierre E. Leroy, Peter E. Raskind, Mayo A. Shattuck III, Bradford H. Warner and Catherine G. West will each be elected as a director of Capital One if a majority of the votes cast in his or her election is voted in favor of such election. Capital One also maintains a majority voting policy, which requires that any director who fails to receive a majority of votes cast in favor of his or her election tender a resignation for the Board's consideration. Cumulative voting for the election of directors is not permitted. For more information regarding Capital One's director nomination process see page 15.

Item 2, the ratification of the Audit Committee's selection of Ernst & Young LLP as independent auditors of the Company for 2015, will be approved if a majority of the votes cast on the proposal are voted in favor of the proposal.

Item 3, the advisory approval of Capital One's 2014 Named Executive Officer compensation, will be approved if a majority of the votes cast on the proposal are voted in favor of the proposal.

Item 4, amending Capital One's Restated Certificate of Incorporation to allow stockholders to request special meetings of the stockholders, will be approved if a majority of the shares of common stock outstanding are voted in favor of the proposal;

Item 5, the stockholder proposal regarding special meetings of the stockholders, will be approved if a majority of votes cast on the proposal are voted in favor of the proposal.

As described under "How do I vote?" on page 2, under NYSE rules, if you hold your shares in street name and you do not submit voting instructions to the broker, bank, trust or other nominee that holds your shares, the firm will only have discretionary authority to vote your shares with respect to Item 2. If you do not submit voting instructions, the firm that holds your shares will not have discretion to vote your shares with respect to Items 1, 3, 4 and 5. Abstentions and broker non-votes are not considered "votes cast" and thus do not have an effect on the outcome of the vote as to Items 1, 2, 3 and 5. With respect to Item 4, abstentions and broker non-votes will have the same effect as a vote against the proposal.

Table of Contents

What are the Board of Directors' recommendations?

If you properly submit a proxy without giving specific voting instructions, the individuals named as proxy holders will vote in accordance with the recommendations of the Board of Directors as follows:

FOR the election of Richard D. Fairbank, Patrick W. Gross, Ann Fritz Hackett, Lewis Hay, III, Benjamin P. Jenkins, III, Pierre E. Leroy, Peter E. Raskind, Mayo A. Shattuck III, Bradford H. Warner and Catherine G. West, as directors of Capital One (see page 75);

FOR the ratification of the Audit Committee's selection of Ernst & Young LLP as independent auditors of the Company for 2015 (see page 76);

FOR the advisory approval of Capital One's 2014 Named Executive Officer compensation (see page 78);

FOR the approval of the amendment to Capital One's Restated Certificate of Incorporation to allow stockholders to request special meetings of the stockholders (see page 79); and

AGAINST the stockholder proposal regarding special meetings of the stockholders (see page 83).

Although the proposed amendment to Capital One's Restated Certificate of Incorporation on page 79 and the stockholder proposal on page 83 concern the same subject matter, the terms and effects of each proposal differ. You should carefully read the descriptions of each proposal, and Capital One's statement in opposition to the stockholder proposal. Stockholders may vote on both the proposed amendment to Capital One's Restated Certificate of Incorporation and the stockholder proposal, and approval of the proposed amendment to Capital One's Restated Certificate of Incorporation is not conditioned on approval or disapproval of the stockholder proposal.

The Board of Directors is not aware of any other matter that will be presented at the Annual Meeting. If any other matter is properly presented at the Annual Meeting, the persons named on the accompanying proxy card will, in the absence of stockholder instructions to the contrary, vote such proxy at their discretion.

SECTION II CORPORATE GOVERNANCE AT CAPITAL ONE

Corporate Governance Guidelines and Code of Business Conduct and Ethics

Capital One is dedicated to strong and effective corporate governance principles and practices. The Board of Directors has adopted Corporate Governance Guidelines to formalize the Board's governance practices and to provide its view of effective governance. Our Corporate Governance Guidelines embody many of our long-standing practices, policies and procedures, which collectively form a corporate governance framework that promotes the long-term interests of our stockholders, ensures responsible decision-making and accountability, and fosters a culture that allows our Board and management to pursue Capital One's strategic objectives. The Board reviews and periodically updates these principles and practices as legal, regulatory, and best practice developments evolve.

The Board has also adopted Capital One's Code of Business Conduct and Ethics (the Code of Conduct), which applies to Capital One directors and associates, including Capital One's Chief Executive Officer (CEO), Chief Financial Officer, Principal Accounting Officer and other persons performing similar functions. The Code of Conduct reflects Capital One's commitment to honesty, fair dealing and integrity and guides the ethical actions and working relationships of Capital One's directors, officers and associates with investors, current and potential customers, fellow associates, competitors, governmental entities, the media and other third parties with whom Capital One has contact.

The Board of Directors believes that these policies, principles and practices are vital to the future success and growth of Capital One and create a foundation for the ethical and effective functioning of the Board of Directors, its committees and Capital One as a whole. They are also critical to preserving the trust of our stakeholders, including stockholders, associates, customers, suppliers, governmental entities and the general public. Capital One's Corporate Governance Guidelines and the Code of Conduct, each as amended from time to time, are available free of charge on the Corporate Governance page of Capital One's Internet site at www.capitalone.com under About Us/Investors. Capital One will disclose on its website any amendment to the Corporate Governance Guidelines or the Code of Conduct, or any waiver under the Code of Conduct granted to any of its directors or executive officers.

Board Structure and Committee Composition

The Board of Directors oversees Capital One's business and directs its management. The Board of Directors does not involve itself with the day-to-day operations and implementation of Capital One's business. Instead, the Board of Directors meets periodically with management to review Capital One's performance, risks and business strategy. Directors also regularly consult with management outside of formal meetings to keep themselves informed about Capital One's progress.

The Board of Directors met thirteen times during 2014. Each incumbent director attended at least 75% of the aggregate of the meetings of the Board of Directors and the committees occurring during the year while they were members. In accordance with our Corporate Governance Guidelines and New York Stock Exchange Listing requirements, the Board has executive sessions of non-management directors without senior management on a regularly scheduled basis and no less than two times per year. In addition, at least one executive session of only independent directors without senior management is held annually. In 2014, the Board met these requirements and the number of times non-management directors held executive sessions without senior management present exceeded the standard set forth in the Corporate Governance Guidelines. During these executive sessions, the non-management

directors or independent directors, as the case may be, have complete access to such members of the Company's senior executive management as they may request, including the Chief Financial Officer, General Counsel, Chief Risk Officer, Chief Internal Auditor, Chief Credit Review Officer and Chief Compliance Officer.

Capital One expects all of its directors to attend the Annual Meeting. In 2014, all ten directors were present at the meeting.

Table of Contents

Leadership Structure of the Board of Directors

Our Board has carefully considered the critical issue of Board leadership and believes that the leadership structure must be considered in the context of Capital One's specific circumstances, culture, strategic objectives and challenges. The diverse backgrounds and experiences of our directors provide the Board with broad perspectives from which to determine the leadership structure that is best for Capital One and the long-term interests of Capital One's stockholders and other stakeholders. Our Corporate Governance Guidelines allow the roles of Chair and CEO to be filled by the same or different individuals, a policy which appropriately provides the Board with the flexibility to determine Capital One's current leadership structure.

Mr. Fairbank founded Capital One and has served as CEO since shortly before Capital One's initial public offering in late 1994 and Chair since early 1995. Given Mr. Fairbank's role in the formation and growth of Capital One, the Board strongly believes that it is in the Company's best interest to have him serve as the Chair and CEO, particularly given the Board's recognition and implementation of strong independent leadership on the Board through an active and empowered Lead Independent Director and independent Board committee structure. Importantly, the Corporate Governance Guidelines provide for a Lead Independent Director who supports the Board in assuring effective governance in managing the affairs of the Board and Capital One. The Lead Independent Director is elected annually by the independent directors and is currently Ms. Hackett. The Lead Independent Director performs the following responsibilities:

With respect to executive sessions:

- organizes and presides over executive sessions;
- sets the agendas for and leads executive sessions; and
- is responsible for soliciting feedback for and engaging the CEO on executive sessions;

With respect to Board meetings and agendas:

- presides at all meetings of the Board at which the Chair of the Board is not present;
- has the authority to call meetings of the independent directors;
- approves meeting agendas for the Board;
- approves information sent to the Board; and
- approves meeting schedules and works with the Chair of the Board and committee chairpersons to assure that there is sufficient time for discussion of all agenda items;

With respect to other responsibilities related to the independent directors:

- facilitates discussion among the independent directors on key issues and concerns outside of Board meetings;
- serves as liaison between the Chair of the Board and the independent directors;
- facilitates teamwork and communication among the independent directors; and
- in a crisis, calls together the independent directors to establish appropriate Board leadership responsibility;
- and

With respect to performance assessments:

- leads the performance assessment of the CEO;
- facilitates the Board's engagement with the CEO and CEO succession planning; and
- leads the Board's self-assessment and recommendations for improvement, if any.

In addition, if requested by major stockholders, the Lead Independent Director ensures that he or she is available for consultation and direct communication.

The Board of Directors has four standing committees: Audit, Risk, Compensation, and Governance and Nominating. Each of the Audit, Compensation, and Governance and Nominating Committees is composed solely of independent directors, and all four standing committees are led by a separate, independent chair. Detailed information on each committee is contained below under Committees of the Board of Directors.

We believe that our existing Board leadership structure provides the most effective governance framework that allows our company to benefit from Mr. Fairbank's knowledge and leadership while appropriately maintaining strong independent and effective oversight of our business and affairs as demonstrated by our empowered Lead

Table of Contents

Independent Director, independent key committees that oversee the Company's operations, risks, performance and business strategy, experienced and committed directors, and frequent executive sessions without management in attendance. This structure demonstrates for our associates, customers, stockholders, investors, regulators and other stakeholders that Capital One's Board of Directors is committed to engaged, independent leadership and performance of its responsibilities. The Board of Directors believes that combining the Chair and CEO positions takes advantage of the talent and knowledge of Mr. Fairbank as the founder of Capital One and effectively combines the responsibilities for strategy development and execution with management of day-to-day operations. It also reduces the potential for confusion or duplication of efforts and provides clear leadership for Capital One. The Board of Directors believes that the combination of the Chair and the CEO roles, together with its strong governance practices, including its supermajority of independent directors and its clearly defined Lead Independent Director responsibilities, provides an appropriate balance among strategy development, operational execution and independent oversight of Capital One.

Board's Role in Succession Planning

The Board is responsible for ensuring that a succession plan for the CEO exists. The succession plan is reviewed annually by the Board. Each year, as part of its succession planning process, the Board reviews the senior executive team's experience, skills, competencies and potential to assess which executives possess or have the ability to develop the attributes that the Board believes necessary to lead and achieve the Company's goals. Among other steps taken to promote this process, the two levels of executives below the CEO, which include all of the CEO's direct reports, often attend Board meetings and present to the Board, providing the Board numerous opportunities to interact with our senior management and assess their leadership capabilities. There is also available, on a continuing basis, the CEO's recommendation as to a successor should the CEO become unexpectedly unable to serve. The Board also reviews the CEO's successor recommendations on an annual basis.

Board's Role in Risk Oversight

The Board of Directors believes that effective risk management and control processes are critical to Capital One's safety and soundness, our ability to predict and manage the challenges that Capital One and the financial services industry face and, ultimately, Capital One's long-term corporate success. Management is responsible for implementing Capital One's risk assessment and management functions and for reporting to the Board of Directors with respect to the management of risk. The Board of Directors, in turn, both directly and through its committees, is responsible for overseeing management's risk functions. The Board approves the Company's strategic direction and overall risk appetite. The enterprise-wide risk management framework defines the Board's appetite for risk taking and enables senior management to understand, manage and report on risk. The risk management framework is implemented enterprise wide and includes all eight risk categories: Strategic, Legal, Market, Liquidity, Operational, Reputation, Compliance and Credit. Management has worked to develop risk appetite statements with accompanying metrics which are meaningful to the organization and reflect the aggregate level and types of risk Capital One is willing to accept in order to achieve its business objectives, clarifying both risks the Company is actively taking and risks that are purposely avoided.

The Risk Committee oversees Capital One's enterprise-wide risk management framework, including policies and practices established by management to identify, assess, measure and manage key risks facing Capital One across the eight risk categories identified above, as set forth in its charter. In addition, the Risk Committee oversees management's specific responsibilities with respect to identification and management of, and planning for, Capital One's market, liquidity, operational and credit risks. The Audit Committee is responsible for risk oversight with respect to compliance by Capital One with legal and regulatory requirements. In addition, the Audit Committee reviews and discusses generally the policies and practices that govern the processes by which key risk exposures are identified, assessed, managed and controlled on an enterprise-wide basis and meets jointly with the Risk Committee to

assess Capital One's enterprise-wide risk management framework. The Risk Committee oversees that the Chief Risk Officer, and other members of management, as applicable, review with the Compensation Committee the risks that Capital One's incentive compensation programs, such as its senior executive, corporate incentive and other material incentive compensation programs, may pose as more fully described below under Risk Assessment of Compensation Policies and Practices.

Table of Contents

The Chief Risk Officer, Chief Financial Officer, Chief Internal Auditor, Chief Credit Review Officer and General Counsel each meet with, or provide reports to, Capital One's Risk Committee at least once per quarter as well as separately with the Risk Committee throughout the year on a periodic basis without other members of management present. The Risk Committee also meets on a periodic basis with the Chief Compliance Officer without other members of management present. The Chief Risk Officer also meets at least annually with the full Board of Directors to review the Company's enterprise risk profile. In addition, the Audit Committee meets on a periodic basis with the Chief Compliance Officer and meets at least quarterly with the Chief Financial Officer to discuss Capital One's financial results and financial forecasts. Throughout the year, strategic presentations and line of business updates to the Board of Directors or its committees typically include reports on risk management.

Corporate Audit Services provides independent and objective assurance services and advice and guidance regarding risk management and control practices to provide that risk management, internal controls and governance systems are adequate and functioning on a consistent and reliable basis. The Chief Internal Auditor reports organizationally to the Audit Committee of the Board of Directors, which has the authority to hire and compensate the Chief Internal Auditor and to terminate his or her employment. The Chief Credit Review Officer reports organizationally to the Risk Committee of the Board of Directors, which has the authority to hire and compensate the Chief Credit Review Officer and to terminate his or her employment. The Chief Risk Officer reports directly to both the Risk Committee and the CEO.

Risk Assessment of Compensation Policies and Practices

The Compensation Committee actively oversees all of our compensation policies and practices, including our incentive compensation policies and practices, to monitor that such policies and practices encourage balanced risk-taking, are compatible with effective controls and risk management and align with our business strategy. In 2014, the Company continued to participate in the horizontal review of incentive compensation practices that the Federal Reserve Board began in 2010 with respect to the incentive compensation practices at 25 large banking organizations. The purpose of the review has been to assess the incentive compensation practices at these organizations and their compliance with the interagency guidance on sound incentive compensation practices issued by the Federal Reserve Board and other bank regulators in June 2010. We believe that the Compensation Committee's active oversight, together with the Company's interactions and discussions with its regulators, has further enhanced the Company's risk management and control processes with respect to incentive compensation at the Company. In January 2012, the Compensation Committee adopted an Incentive Compensation Governance Policy applicable to all Company employees that governs incentive compensation decisions and provides the framework for oversight of the design of incentive compensation programs, which it reviews and re-approves annually. In the context of setting executive compensation, the Compensation Committee assessed each of the named executive officers against one or more performance objectives specifically designed to evaluate the degree to which the executive balanced risks inherent in his or her role and also implemented additional risk-balancing features for certain equity awards, as described in more detail in the Compensation Discussion and Analysis beginning on page 31.

The Compensation Committee reviews the Company's named executive officer and other senior executive compensation programs as well as any other material incentive compensation programs. During the course of these reviews, the Compensation Committee discusses the Company's most significant risks, including the Company's status with respect to managing those risks and the relationship of those risks to applicable compensation programs. The review includes discussion and analysis of risk-balancing features embedded in these incentive compensation programs and other actions taken by the Company designed to achieve conformance with regulatory guidance and appropriately balance risk. The Compensation Committee also discusses these programs with the Company's Chief Risk Officer, Chief Human Resources Officer and the Compensation Committee's independent compensation consultant, as appropriate. Based on these discussions, the Compensation Committee believes that these compensation

programs are consistent with safety and soundness and operate in a manner that appropriately balances risk.

Director Independence

The Board of Directors has assessed whether each of its non-management members is independent under Capital One's Director Independence Standards. These standards, which have been adopted by the Board of Directors as part of Capital One's Corporate Governance Guidelines, reflect, among other things, the director independence requirements set forth in the listing standards of the NYSE and other applicable legal and regulatory rules, and describe certain relationships that the Board has determined to be immaterial for purposes of determining director independence. As noted above, Capital One's Corporate Governance Guidelines, including the Director Independence Standards, are available on the Corporate Governance page of Capital One's Internet site at www.capitalone.com under About Us/Investors. The Board of Directors has determined that each of Mr. Gross, Ms. Hackett, Mr. Hay, Mr. Jenkins, Mr. Raskind, Mr. Shattuck, Mr. Warner and Ms. West is independent under these standards.

Related Person Transactions

Capital One's policies and procedures for the review, approval or ratification of related person transactions are set forth in the charter of the Governance and Nominating Committee, Capital One's Code of Conduct and internal written procedures. The charter of the Governance and Nominating Committee requires the Committee to review on an annual basis any transactions involving Capital One and any of its directors, executive officers or their immediate family members and, as appropriate, to consider potential conflicts of interest or the appearance of potential conflicts of interest, as well as issues relating to director independence. The Governance and Nominating Committee performs this review each year based on the information provided by each director and executive officer on an annual questionnaire and through a review of Capital One's internal systems for payments or other transactions that could indicate the presence of a related person transaction. In developing its assessment and recommendation regarding related person transactions to the Board of Directors, the Governance and Nominating Committee relies upon criteria set forth in the Code of Conduct to evaluate activities or relationships that may create a conflict of interest, including potential related person transactions. In addition to specific prohibitions, these criteria include the extent to which the proposed relationship would be authorized and permitted (or prohibited) by Capital One policies, as well as the potential perspective of third parties regarding such relationships.

Internal written procedures require that any potential conflict of interest, including related person transactions involving any of Capital One's directors or executive officers, be reviewed by the General Counsel (in the case of a director) and by either the General Counsel or Chief Human Resources Officer (in the case of an executive officer). If the reviewer believes that such relationship could create a conflict of interest or require disclosure as a related person transaction, a second review is conducted by the disinterested members of the Governance and Nominating Committee (in the case of a director) or by the CEO (in the case of other executive officers).

From time to time in the ordinary course of its business, Capital One issues loans to directors, executive officers and/or nominees for director, or to a director's, executive officer's or director nominee's immediate family member, including persons sharing the household of such director, executive officer or director nominee (other than a tenant or employee). Such loans are made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with persons not related to the Company and do not involve more than the normal risk of collectability or present other unfavorable features.

Mr. Leroy is the former Executive Chairman and Chief Executive Officer of a company in which Mr. Leroy continues to hold a significant financial interest. Such company, through a majority owned subsidiary, receives payments from other companies that provide and are expected to continue to provide certain services to Capital One, which payments

are based on the extent of Capital One's dealings with such other companies. In 2014, the amount of payments received by such companies that were attributable to Capital One's business was approximately \$1.19 million. These dealings are continuing in 2015, although Capital One does not have information on the amounts to date that are attributable to its business.

Committees of the Board of Directors

In order to assist it in fulfilling its functions, the Board of Directors conducts business through four standing committees: the Audit Committee, the Risk Committee, the Compensation Committee and the Governance and Nominating Committee. Pursuant to Capital One's Corporate Governance Guidelines and applicable law, the Audit, Compensation, and Governance and Nominating Committees are comprised solely of independent directors, the Audit and Compensation Committees are comprised solely of directors who satisfy the NYSE's heightened independence requirements for audit and compensation committee members, respectively, and all four standing committees are led by a separate, independent chair. The Chair of each committee determines the frequency, length and agenda of meetings for his or her committee in accordance with such committee's charter, in consultation with other members of the committee and with appropriate members of management, and establishes an annual calendar of topics for consideration by the committee. In January 2015, each of the Audit, Risk, Compensation, and Governance and Nominating Committees and the Board of Directors approved the respective committee's charter. Copies of the charter of each committee are available free of charge on the Corporate Governance page of Capital One's Internet site at www.capitalone.com under About Us/Investors. Table of Contents

of Annual Stockholder Meeting. Capital One's Corporate Governance Guidelines also require that a copy of the information provided to the Corporate Secretary relating to the proposed nominee must be delivered to the Chair of the Governance and Nominating Committee.

Director candidates, other than current directors, may be interviewed by the Chair of the Governance and Nominating Committee, other directors, the CEO and/or other members of senior management. The Committee considers the criteria described below, as well as the results of interviews and any background checks the Committee deems appropriate, in making its recommendation to the Board of Directors. The Committee also considers current directors for re-nomination in light of the criteria described below and their past and potential contributions to the Board of Directors.

Consideration of Director Nominees

All director candidates, including incumbent directors and those recommended by stockholders, are evaluated using the same criteria. These criteria are as follows:

Candidates will represent diversity of experience and should possess a strong educational background, substantial tenure and breadth of experience in leadership capacities, and business and financial acumen; Candidates may also be selected for their background relevant to Capital One's business strategy, their understanding of the intricacies of a public company, their international business background and their experience in risk management; and

Other relevant criteria may include a reputation for high personal and professional ethics, integrity and honesty, good character and judgment, the ability to be an independent thinker and diversity along a variety of dimensions, including the candidate's professional and personal experience, background, perspective and viewpoint.

The Governance and Nominating Committee and the Board of Directors believe that diversity along multiple dimensions, including opinions, skills, perspectives, personal and professional experiences and other differentiating characteristics, is an important element of its nomination recommendations. The Board of Directors considers each nominee in the context of the Board as a whole, with the objective of assembling a Board that can best maintain the success of Capital One's business. Although the Board of Directors does not have a formal diversity policy, the Governance and Nominating Committee and the Board periodically review the Board's membership in light of Capital One's business model and strategic objectives, consider whether the directors possess the requisite skills, experience and perspectives to oversee the Company in achieving those goals, and may seek additional directors from time to time as a result of its considerations.

Capital One's Corporate Governance Guidelines provide that a director shall not be eligible for election to the Board upon reaching the age of 72. The Board may waive this requirement if it deems that it is in the best interests of the Company and its stockholders to issue a waiver.

In 2014, Capital One contracted with a third-party director search firm to identify, evaluate and verify references for potential director candidates and with a third-party to perform various background verification services for director candidates, including those related to federal and state criminal background checks, employment and education verification and credit reporting.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires that Capital One's executive officers and directors, and persons that beneficially own more than 10% of Capital One's common stock, file certain reports of beneficial ownership of the common stock and changes in such ownership with the SEC and provide copies of these reports to Capital One. As a matter of practice, members of our staff assist our executive officers and directors in preparing initial ownership reports and reporting ownership changes and typically file these reports on their behalf. Based solely on our review of the copies of such forms in our possession and written representations furnished to us, we believe that in 2014 each of the reporting persons complied with these filing requirements except the Company discovered that a timely report filed in 2008 for Robert M. Alexander, the Company's Chief Information Officer, underreported one of his equity award holdings as a result of an administrative error by the Company, which was subsequently corrected on a Form 5 filed in 2015.

SECTION IV DIRECTOR COMPENSATION

Director Compensation Objectives

The Board of Directors approves the compensation for non-management directors, based on recommendations made by the Compensation Committee. The Board of Directors has designed the director compensation program to achieve four primary objectives:

- Attract and retain talented directors with the skills and capabilities to perpetuate Capital One's success;
- Fairly compensate directors for the work required in a company of Capital One's size and scope;
- Recognize the individual roles and responsibilities of the directors; and
- Align directors' interests with the long-term interests of Capital One stockholders.

Management directors do not receive compensation for their service on the Board of Directors. In 2014, Mr. Fairbank was Capital One's only management director.

Director Compensation Procedures

The Compensation Committee reviews the compensation program for Capital One's non-management directors on an annual basis. F.W. Cook provides competitive compensation data and program recommendations to the Compensation Committee for review. Please see the discussion under "Compensation Committee" "Compensation Committee Consultant" in the "Corporate Governance at Capital One" section on page 14 for further information on the role and responsibilities of F.W. Cook. The competitive compensation data includes the compensation (cash, equity and other benefits) of non-management directors within Capital One's peer comparator group. Please see the discussion under "Market Data" in the "Compensation Discussion and Analysis" section on page 46 for further information on the selection of the peer comparator group. The Compensation Committee considers this information, as well as F.W. Cook's recommendations, and finalizes a proposed compensation structure. The proposed structure is then reviewed and approved by the full Board of Directors, typically in April or May of each year.

Based on their review of competitive market data and guidance from F.W. Cook in the second quarter of 2014, the Compensation Committee determined that the director compensation program described below meets the objectives listed above.

Director Compensation Structure

On May 1, 2014, the Board of Directors approved a compensation program for Capital One's non-management directors for the period from May 1, 2014 until Capital One's 2015 Annual Meeting that is similar to the program for the preceding year. The compensation program consists of an annual cash retainer of \$90,000 as well as cash retainers for committee service detailed in the notes to the table below. Each non-management director serving on May 1, 2014 also received an annual award of restricted stock units of Capital One common stock (RSUs) on such date, valued at \$170,003. Lastly, the Lead Independent Director received a cash retainer of \$25,000. Ms. Hackett was the Lead

Independent Director in 2014.

Other Benefits

Under the Capital One Financial Corporation Non-Employee Directors Deferred Compensation Plan, non-management directors may voluntarily defer all or a portion of their cash compensation and receive deferred income benefits. Participants in the plan have the opportunity to direct their individual deferrals among seventeen different investments available through the plan. Directors that elected a deferral will begin to receive their deferred income benefits in cash when they cease serving as directors, upon certain other distribution events specified in the plan, or at such earlier time as is authorized by the Compensation Committee. Upon a change of control, Capital One will pay to each director within thirty days of the change of control a lump sum cash payment equal to such director's account balance as of the date of the change of control. In 2014, Messrs. Jenkins and Hay elected to defer their cash compensation under this plan. A list of the different investments available can be found under "Capital One's Voluntary Non-Qualified Deferred Compensation Programs" on page 63.

Table of Contents

Capital One offered non-management directors the opportunity to direct a contribution of up to \$10,000 annually from Capital One to a charitable organization of their choice. Each non-management director serving on May 1, 2014 elected to make such a charitable contribution in 2014.

Directors also receive reimbursements for certain board-related expenses including, among other things, external educational seminars and travel-related costs incurred to attend Board meetings. Such reimbursements are not included as compensation for the directors in the table below.

Stock Ownership Requirements

Capital One requires non-management directors to retain all shares underlying RSUs granted to them by Capital One until their service with the Board of Directors ends, pursuant to the terms of their respective grant agreements. The Board of Directors may grant an exception for any case where this requirement would impose a financial hardship on a director. No directors have been granted an exception to this requirement for any outstanding awards of RSUs.

SECTION V COMPENSATION DISCUSSION AND ANALYSIS

Introduction

Capital One's executive compensation program is designed to attract, retain and motivate leaders who have the ability to foster strong business results and promote the long-term success of the Company. The Compensation Committee of the Board of Directors (the Committee) is responsible for, among other matters, developing, approving, monitoring and managing the compensation of all of our executive officers, including the named executive officers defined below. Final decisions regarding the compensation of our executive officers, including our Chief Executive Officer, are made by our independent directors. This Compensation Discussion and Analysis will review the compensation of the CEO, Richard D. Fairbank, and the following executive officers for 2014:

Stephen S. Crawford, Chief Financial Officer
Ryan M. Schneider, President, Card
John G. Finneran, Jr., General Counsel and Corporate Secretary
Sanjiv Yajnik, President, Financial Services

As used throughout this proxy statement, the NEOs means the four executive officers listed above, and the named executive officers means the CEO and the NEOs, collectively.

2014 Company Performance

In 2014, Capital One delivered strong financial performance and distributed significant capital to our shareholders. We returned to growth in our Credit Card business and continued to prudently grow our Auto and Commercial Banking businesses. We improved the quality of our franchise and laid a solid foundation to position Capital One as a digital leader. We continued to generate capital on a strong trajectory, maintaining our common stock dividend in 2014 and positioning ourselves to complete our announced \$2.5 billion share repurchase program by the end of the first quarter 2015. Key financial results for 2014 included:

\$4.4 billion in net income, or \$7.59 per common share (fully diluted), with return on tangible common equity ranking fourth among our peer comparator group;
Pre-provision earnings of \$10.1 billion;
Common equity Tier 1 capital ratio as calculated under the Basel III Standardized Approach of 12.46% as of December 31, 2014;
Strong credit risk performance, with a net charge-off rate of 1.72% for 2014;
Credit Card net income of \$2.5 billion; Domestic Card loan growth of 6.1% from the end of 2013;
Solid financial and operating results in the Auto business, with new loan originations of \$20.9 billion; and
Solid loan growth of 13.1% in our Commercial Banking business from the end of 2013.

The Committee believes that the actions taken by the named executive officers throughout 2014 contributed greatly to the Company's results and have positioned the Company well to deliver strong, sustainable financial performance over the long-term.

Important Aspects of Our Executive Compensation Programs

The Committee believes that our named executive officer compensation programs balance risk and financial results, reward named executive officers for their achievements, promote our overall compensation objectives and encourage appropriate, but not excessive, risk-taking. The following are some of the highlights of our compensation program:

Capital One's executive compensation programs consist primarily of a variety of long-term, equity-based compensation vehicles. See Compensation Components on page 34 for more details on the specific components of the CEO and NEO compensation programs.

Since 1997, the CEO's compensation program has consisted entirely of equity awards and other incentive awards with payouts deferred for three years in lieu of any salary, retirement plan contributions or other traditional forms of compensation.

Table of Contents

We do not pay cash bonuses to the NEOs. Instead, we grant equity-based awards following the end of the year based on Company and individual performance during the year.

Beginning in January 2015, vesting for all equity awards granted to named executive officers will not automatically accelerate upon a change of control but instead will require a so-called “double trigger” for accelerated vesting. The vesting of such awards will accelerate only in the event of a qualifying termination of the named executive officer within the two years following a change of control. See “Potential Payments Upon Termination or Change of Control” Change of Control on page 67 for more information.

We have eliminated excise tax gross-up provisions from our executive officer change of control agreements. All executive officer change of control agreements containing an excise tax gross-up that previously were entered into have expired as of the date of this proxy statement and have been replaced with new agreements that do not provide for an excise tax gross-up. See “Change of Control Agreements” on page 48 for more information.

We have designed our incentive compensation programs such that they continue to appropriately balance risk and do not jeopardize the safety and soundness of Capital One. See “Risk Assessment of Compensation Policies and Practices” in the “Corporate Governance at Capital One” section on page 9 for more information.

The awards granted to our named executive officers include the following provisions that are designed to further enhance alignment between pay and performance and balance risks:

**Performance-
Based Vesting
Provisions**

Since January 2012, we have included performance-based vesting provisions as part of each stock option, restricted stock and stock-settled RSU award to the named executive officers and each cash-settled RSU award to the CEO. These provisions will reduce the total value delivered to the executive at vesting if the Company does not meet certain performance thresholds during the three-year vesting period. The total value can be reduced to zero if the performance metric is not met for all three years in the performance period.

**Performance
Share Reduction**

Each performance share award to the named executive officers since January 2012 provides that the total value delivered at vesting will be reduced if for any year in the three-year performance period the Company does not achieve positive Adjusted ROA. The total value can be reduced to zero if the metric is not met for all three years in the performance period. These terms are in addition to the performance metric relative to a comparator group.

**Clawback
Provisions**

Each incentive award to the named executive officers since January 2013 is subject to clawback provisions that allow the Committee to seek recovery of all unvested portions of the awards in the event there has been misconduct resulting in a violation of law or Company policy and the named executive officer committed the misconduct or failed in his or her responsibility to manage or monitor the applicable conduct or risks.

**Financial
Restatement**

Since January 2011, each performance share award to the named executive officers has included clawback provisions that allow the Company to recover shares under the award following a financial restatement.

Clawback

See “Additional Performance Conditions and Recovery Provisions” on page 44 for more details.

Capital One does not distinguish the terms and conditions of compensation and awards between the NEOs and all other executive officers. All of the terms and features described above, including the clawback and performance-based vesting provisions, apply to awards granted to all executive officers and not just the named executive officers.

Our Compensation Objectives

Capital One's executive compensation program has four primary objectives.

Table of Contents

Strongly link rewards with both business and individual performance while appropriately balancing risk

Capital One emphasizes pay-for-performance at all organizational levels. Typically, as an executive's level of responsibility increases, so does the proportion of the executive's pay that is subject to performance criteria. Therefore, the named executive officers have the highest relative portion of their pay directly linked to Company and individual performance, as compared to other associates. Awards made in January 2015 for the 2014 performance year were based on Company and individual performance, as well as on the demonstration of specific leadership competencies assessed through a comprehensive performance management process that included an individual assessment against one or more performance objectives specifically designed to evaluate the degree to which the executive balanced risks inherent in his or her role. The Chief Human Resources Officer and the Chief Risk Officer reviewed these assessments, with the Chief Auditor also reviewing the risk assessment for the Chief Risk Officer, and the Committee considered the assessments in making its determinations regarding individual performance and compensation levels.

Ensure that total compensation rewards performance over multiple time horizons

Our compensation programs are structured to encourage our executives to deliver strong results over the short-term while making decisions that create sustained value for our stockholders over the long-term. For 2014, approximately 78% of the CEO's total compensation is equity-based and at-risk to the performance of the Company's stock price, and 100% of his compensation is deferred for a three-year period. For the NEOs in 2014, approximately 80% of total target compensation was provided through equity-based vehicles which were all at-risk to the performance of the Company's stock price and subject to vesting over multiple time horizons. The use of deferred, equity-based compensation vehicles with multi-year vesting terms advances our goal of aligning the ultimate value realized by the named executive officers with the performance of the Company's stock over time because the value of these compensation vehicles increases and decreases based on the performance of the Company's stock price.

Attract, retain and motivate top executive talent

To attract, retain and motivate exceptional leaders, we believe that compensation opportunities at Capital One must be competitive with the marketplace for talent. The Committee and the independent directors strive to preserve a competitive pay mix and total target compensation values in the executive compensation program, as well as provide competitive total rewards based on our selected peer group.

Align our executives' interests with those of our stockholders

The Committee and the independent directors remain committed to designing incentive compensation programs that reward individual and corporate performance and that are aligned with the creation of stockholder value over the long-term. Because the majority of named executive officer compensation is delivered through deferred, equity-based vehicles that vest over multiple time horizons, the named executive officers have a significant stake in the success of the Company. In addition, we established specific stock ownership policies that the named executive officers must meet on an annual basis and stock retention provisions applicable to certain equity awards.

Consideration of 2014 Say on Pay Vote and Stockholder Engagement

The Committee and the Board of Directors value the input of our stockholders and strive to foster a constructive dialogue with stockholders on matters of executive compensation and corporate governance. At our 2014 Annual Meeting of Stockholders, our stockholders supported our executive compensation program by approving our

non-binding advisory vote on executive compensation (2014 Say on Pay) with a higher percentage of votes cast than at any prior meeting. Though the Committee recognized the 2014 Say on Pay vote reflected strong support for the Company's executive compensation programs, the Committee remains committed to stockholder engagement. In 2014, we continued to strengthen our outreach to stockholders to ensure that we maintain strong lines of communication with our stockholders and that the perspectives of our stockholders are shared with the Committee and the Board of Directors. To that end, since the 2014 Annual Meeting of Stockholders, we continued direct engagement and discussions with stockholders representing approximately 50% of our

Table of Contents

outstanding shares. The Committee continues to actively oversee our stockholder engagement with respect to executive compensation matters and has considered stockholder feedback in approving year-end incentive awards for 2014 and structuring and approving the 2015 compensation programs for the named executive officers.

Compensation Components***CEO Compensation***

In 2014, as in past years, the Committee granted equity awards to the CEO at the beginning of the year that are designed to provide an incentive to focus on longer term performance. The Committee also established the opportunity for the CEO to receive an additional year-end incentive award based on the Committee's evaluation of the Company's performance and the CEO's contributions over the year. All of the CEO's awards are subject to a three-year deferred vesting or payout.

The table below summarizes the elements of compensation that the Committee approved for the 2014 performance year for the CEO.

NEO Compensation

The NEOs traditionally receive a mix of cash and equity-based compensation. As noted above, we do not pay cash bonuses to the NEOs for annual performance. Instead, following the end of the year the Committee may grant a variety of equity-based awards based on the Committee's evaluation of Company and individual performance during the past year. All of these equity-based awards are subject to deferred vesting over a three-year period.

Chief Executive Officer Compensation

Goals and Principles

The Committee's top priority is to align the interests of the CEO with the interests of our stockholders by directly linking his awards with the Company's performance and his contributions to that performance over appropriate

Table of Contents

time horizons. The Committee believes that the CEO's compensation should be at-risk based on his and the Company's performance. Each year the Committee approves the form, timing and amount of CEO compensation and makes recommendations to the independent directors for final approval. The Committee takes into account the CEO's historical performance and how to most effectively align the CEO's interests with the interests of our stockholders over the appropriate time horizons, support safety and soundness and appropriately balance risk. The Committee and the independent directors have the flexibility to adjust compensation decisions from year to year to take into account the Company's performance and evolving market practices.

2014 CEO Compensation Decisions

In January 2014, the Committee and the independent directors reviewed the compensation structure utilized since 2009 for Mr. Fairbank and determined that for 2014 the compensation program would continue to consist of equity awards granted at the beginning of the year plus an opportunity for an additional year-end incentive award based on the Company's actual performance for 2014. In this manner, the CEO's compensation continues to be completely at-risk based on the Company's and Mr. Fairbank's performance. The Committee and independent directors determined that the compensation program structured in this manner remained appropriate for Mr. Fairbank in 2014 given that the compensation program aligns Mr. Fairbank's compensation with the Company's performance over the appropriate time horizons and supports the Company's executive compensation goals and principles. The Committee and the independent directors determined, however, to change the mix of the vehicles for the 2014 CEO compensation program, reducing the proportion of total target compensation represented by stock options, increasing the year-end incentive opportunity to 30% of the CEO's total target compensation program and introducing a stock-settled RSU award. In addition, the Committee and the independent directors determined to reduce the maximum value of Mr. Fairbank's year-end incentive opportunity to one and a half times the target value from two times the target value for prior year-end incentive opportunities. The Committee and the independent directors made these decisions after taking into account the perspectives of stockholders, proxy advisory firms, the Federal Reserve and other federal banking regulators. After considering various factors as described below, without giving particular weight to any specific factor, the Committee and the independent directors determined that a total target compensation amount of \$17.5 million was appropriate for Mr. Fairbank's 2014 compensation program.

When determining the structure and total target compensation amount for Mr. Fairbank's 2014 compensation program, as well as the value for each component of the award, the Committee considered Mr. Fairbank's and the Company's performance during 2013 relative to the financial, operating, safety and soundness and strategic performance factors described below under Year-End Incentive Opportunity. In addition, the Committee and the independent directors considered the Company's performance in 2013 relative to the peer comparator companies' performance in 2013, the structure and amount of compensation awarded to the chief executive officers of the peer comparator companies and the structure and amount of Mr. Fairbank's compensation awards in prior years. The Committee and the independent directors also considered the Company's risk profile and the time horizon over which the deferred, equity-based vehicles will vest, as well as the fact that the ultimate value of Mr. Fairbank's deferred, equity-based awards will depend on the Company and Mr. Fairbank's performance over time.

Performance Share Award

In January 2014, based on the above determination by the Committee and the independent directors, Mr. Fairbank was granted an award of performance shares under which he may receive from 0% to 150% of a target number of 123,309 shares of the Company's common stock based on the Company's performance over the three-year period from January 1, 2014 through December 31, 2016. The Company's performance will be assessed on the basis of Adjusted ROA relative to a comparator group consisting of companies in the KBW Bank Index, excluding custody banks (the KBW Index). The Committee believes that the KBW Index is an appropriate index against which to assess the

Company's performance because its members are principally lending businesses similar to the Company. Moreover, under the performance share reduction feature of this award, the number of shares issued at settlement will be reduced if the Company's Adjusted ROA for one or more fiscal years completed during the performance period is not positive, no matter how well it compares to the peer group. If the Company's Adjusted ROA is not positive for all three fiscal years in the performance period,

Table of Contents

Mr. Fairbank will forfeit the entire award of performance shares. Thus, although the award had a grant date value of \$8,750,007, the number of shares that Mr. Fairbank ultimately receives, if any, will be solely dependent on the Company's performance over the performance period. The performance share award also is subject to certain clawback provisions. See [Performance Share Reduction](#) and [Financial Restatement Clawbacks](#) on page 45 for more information.

After the end of the three-year performance period, the Committee will certify the Company's performance and issue the corresponding number of shares of the Company's common stock, if any, in accordance with the table below.

		Relative Metric: Adjusted ROA		
		³ 75th	50th	< 20th
		Percentile	Percentile	Percentile
Number of years with positive Adjusted ROA:	Three	150%	100%	0%
	Two	125%	83%	0%
	One	100%	67%	0%
	None	0%	0%	0%

The table above shows potential payouts based on specific Company performance results. Payouts will range between the values shown above for performance that falls between the performance results shown in the table.

Stock Option Award

In January 2014, Mr. Fairbank also received a grant of 108,944 non-statutory stock options at an exercise price of \$70.96 per share (which was the fair market value of the Company's common stock on the date of grant). The benefits to Mr. Fairbank of the stock options are deferred, as the options cannot be exercised until February 15, 2017 and will expire ten years after the date of grant. The option grant had a fixed grant date value of \$1,750,000; however, the ultimate value Mr. Fairbank realizes, if any, is solely dependent on the long-term appreciation in the Company's stock price. Mr. Fairbank can only realize value from the stock options if and to the extent the Company's stock price increases after the date of grant and the market value of the stock exceeds the exercise price at some point after the three-year vesting period when the options are exercised. The stock option award is also subject to performance-based vesting conditions and clawback provisions, each as described in more detail under [Additional Performance Conditions and Recovery Provisions](#) beginning on page 44.

Stock-Settled RSU Award

In January 2014, Mr. Fairbank also received a grant of 24,662 stock-settled RSUs. The stock-settled RSU grant had a fixed grant date value of \$1,750,016. The stock-settled RSU award vests in full on February 15, 2017 and is subject to performance-based vesting conditions and clawback provisions, each as described in more detail under [Additional Performance Conditions and Recovery Provisions](#) beginning on page 44.

Table of Contents**Year-End Incentive Opportunity**

A portion of Mr. Fairbank's 2014 compensation award consisted of an opportunity for a year-end incentive award based on the Company's actual performance in 2014. The award had a target value of \$5,250,000, but the ultimate value of the award was determined based on the Committee's evaluation of the Company's performance during 2014 and Mr. Fairbank's contributions to that performance relative to the financial, operating, safety and soundness and strategic factors shown below (which were evaluated on a qualitative basis without any specific pre-established targets).

Financial Performance	Operating Performance	Safety and Soundness	Strategic Performance
Operating earnings	Revenue generation	Capital adequacy	CEO leadership and performance
Earnings per share	Expense management	Risk management and compliance	of executive team
Return on tangible capital	Operating effectiveness	Credit loss management	Capital management
	Customer satisfaction	Underwriting quality	Progress toward achievement of long-term strategy
		Balance sheet management	Execution against corporate imperatives
			Recruitment and development of world class talent
			Disciplined investment in infrastructure
			Corporate reputation and community engagement
			Preservation of corporate culture and values

In January 2015, the Committee considered the Company's performance on both a quantitative and qualitative basis, including the results described under "2014 Company Performance" on page 31. In particular, the Committee considered:

Capital One's strong financial results in 2014, particularly the solid growth in earnings per share and the Company's return on tangible common equity relative to the peer comparator group;

Management's success in delivering \$10.1 billion in pre-provision earnings, tightly managing costs while investing in growth and positioning the Company for future earnings growth potential;

The return to growth in Domestic Card and continued prudent growth in the Auto and Commercial Banking businesses, all while maintaining focus on resiliency and managing credit losses across the Company;

The Company's return of substantial capital to stockholders in 2014, maintaining the common stock dividend from the end of 2013 and significantly increasing share repurchases coming out of the 2014 Comprehensive Capital Analysis and Review (CCAR) cycle;

Ending 2014 with a Common Equity Tier 1 Capital ratio of 12.46%, even with increased capital distribution and growth in Card and other loan portfolios;

The Company's total shareholder return (TSR) of 9.5% in 2014, outperforming the KBW Bank Index;

The Company's continued progress enhancing its compliance and risk management programs across the enterprise, reflecting investments in talent and infrastructure;

The significant progress on positioning Capital One as a digital leader, including recruiting great digital talent, building foundational infrastructure, simplifying our core systems and applications, introducing new products and features, enhancing design and data capabilities, and re-inventing processes, operations and governance designed to ensure the Company has the agility to get to market quickly and securely; and

The CEO's leadership in building Capital One's powerful national brand, with a strategic focus on products and services designed to build an enduring customer franchise.

Table of Contents

The Committee considered these factors in light of the challenges still facing management to position Capital One to deliver superior and sustainable returns, including the Company's ongoing work to meet rising regulatory expectations across the financial services industry. The Committee also considered the Company's one-year TSR of 9.5% and noted that it ranked at the median for the peer comparator group in 2014. The Committee also considered the Company's three- and five-year TSR of 102.0% and 124.9%, respectively.

The Committee also took into account peer comparator group CEO compensation levels, the different tenures of each of the peer companies' CEOs as compared to Mr. Fairbank's tenure as the CEO of Capital One, and the varying degrees of success those CEOs have had in leading their respective companies.

After considering all of the above factors together, in January 2015 the Committee and the independent directors approved awards for Mr. Fairbank totaling \$7,350,006. The Committee and the independent directors determined to award that amount using two vehicles: (i) an award of 39,221 restricted stock units (RSUs), which had a total grant date value of \$2,940,006, and (ii) a deferred cash bonus in the amount of \$4,410,000. The award of RSUs will vest in full on February 15, 2018, will settle in cash based on the Company's average stock price over the fifteen trading days preceding the vesting date, and is subject to performance-based vesting provisions. The cash bonus is mandatorily deferred for three years into the Company's Voluntary Non-Qualified Deferred Compensation Plan and will pay out in the first calendar quarter of 2018. Both the award of RSUs and the deferred cash bonus are subject to clawback provisions. The performance-based vesting provisions applicable to the RSUs and the clawback provisions applicable to both awards are described in more detail under *Additional Performance Conditions and Recovery Provisions* beginning on page 44.

CEO Compensation by Performance Year

Below is a table showing Mr. Fairbank's compensation awards as they are attributable to the performance years indicated.

Performance Year	Cash Salary	Deferred Cash Bonus	Cash-Settled RSUs	Stock-Settled Awards	Option Awards	Total
2014	\$0	\$4,410,000	\$2,940,006	\$10,500,022	\$1,750,000	\$19,600,028
2013	\$0	\$2,843,750	\$2,843,793	\$8,750,044	\$4,375,012	\$18,812,599
2012	\$0	\$2,187,500	\$2,187,525	\$8,750,008	\$4,375,009	\$17,500,042

The table above is presented to show how the Committee views compensation actions and to which year the compensation awards relate. This table differs substantially from the Summary Compensation Table on page 53 required for purposes of this proxy statement and is therefore not a substitute for the information required in that table. There are two principal differences between the Summary Compensation Table and the table above:

The table above reports equity-based awards as compensation for the performance year for which they were awarded, even if the award was granted in one year based on performance for the prior year. As a result, the cash-settled RSU award granted to the CEO in January 2015 for the 2014 performance year, for example, is shown in the table above as 2014 compensation. The Summary Compensation Table reports equity-based awards only in the year in which they were granted.

The Summary Compensation Table reports the change in pension value and non-qualified deferred compensation earnings and all other compensation. These amounts are not a result of current year compensation determinations and are not shown above.

Additional Pay Elements

As part of the CEO compensation program, the Committee and the independent directors also approved certain other programs intended to support Mr. Fairbank's productivity and well-being. These include:

Executive term life insurance with a benefit level of \$5 million;
The ability to participate in a comprehensive voluntary annual health screening;
Office supplies and other maintenance for Mr. Fairbank's home office;
The use of a driver who also provides for Mr. Fairbank's personal security; and
The monitoring and maintenance of an electronic home security system.

Table of Contents

Additional details on these programs can be found in the *Named Executive Officer Compensation* section beginning on page 52.

2015 CEO Compensation Decisions

In January 2015, the Committee and the independent directors reviewed the compensation structure utilized in 2014 for Mr. Fairbank and determined that the structure for the 2015 CEO compensation program would be the same, consisting of equity awards granted at the beginning of the year plus an opportunity for an additional year-end incentive award based on the Company's actual performance for 2015. In this manner, the CEO's compensation will continue to be completely at-risk based on the Company's and Mr. Fairbank's performance. The Committee and the independent directors continue to believe that the compensation program aligns Mr. Fairbank's compensation with the Company's performance over the appropriate time horizons and supports the Company's executive compensation goals and principles. The Committee and the independent directors determined that for Mr. Fairbank's 2015 compensation program a total target compensation amount of \$17.5 million, the same total target compensation for 2014, was appropriate.

Based on this framework, in January 2015 the Committee and the independent directors granted to Mr. Fairbank a performance share award under which he may receive from 0% to 150% of a target number of 116,729 shares of the Company's common stock based on the Company's performance over the three-year period from January 1, 2015, through December 31, 2017. Mr. Fairbank also received a grant of 115,812 non-statutory stock options at an exercise price of \$74.96 per share (which was the fair market value of the Company's common stock on the grant date) and a grant of 23,346 stock-settled RSUs. The Committee also determined that Mr. Fairbank will have an opportunity to receive an award in late 2015 or early 2016. Any such award will consist of deferred cash, an equity-based award or both and will pay out or vest after a three-year deferral period. The Committee and the independent directors will have absolute discretion to determine whether to make the award, the form of the award and the value of the award relative to the target amount of \$5,250,000, and will base these determinations on the Committee's evaluation of the Company's performance in 2015 relative to the same financial, operating, safety and soundness and strategic factors described earlier under *2014 CEO Compensation Decisions - Year-End Incentive Opportunity*. The maximum value of the award, if granted, will not exceed one and a half times the target value. The Company expects that any such award will be subject to performance-based vesting and clawback provisions similar to provisions applicable to the 2014 year-end incentive opportunity.

The terms of the performance share, stock option and stock-settled RSU awards granted to Mr. Fairbank in January 2015 are substantially similar to the terms described earlier under *2014 CEO Compensation Decisions*, including the application of performance-based vesting and clawback provisions. See *Additional Performance Conditions and Recovery Provisions* on page 44 for more details.

NEO Compensation***Goals and Principles***

As with the CEO, the Committee seeks to align the interests of the NEOs with the interests of our stockholders by directly linking compensation to performance over the appropriate time horizons while supporting safety and soundness and appropriately balancing risk. The Committee annually reviews and approves the compensation structure for all of our executive officers, including those who are ultimately reported as NEOs, and makes recommendations to the independent directors for final approval. The Committee takes into account each NEO's

historical performance, individual roles and responsibilities and contributions expected from each NEO in the future as well as the recommendations of the CEO, including his assessment of each NEO's performance. In determining 2014 NEO compensation, the Committee also considered the specific factors discussed below. Final decisions regarding NEO compensation are made by the independent directors.

2014 NEO Compensation Decisions

The 2014 NEO compensation program approved by the Committee and the independent directors was designed to be consistent with the Company's pay-for-performance philosophy and is generally consistent with the 2013

Table of Contents

compensation program. Base salary remains a smaller portion of total target compensation than equity based vehicles, and cash bonuses are not included in the 2014 NEO compensation program. The Committee believes that this pay mix serves to balance stockholder interests while effectively rewarding and motivating key talent.

Based on the above framework, the Committee and the independent directors then determined the 2014 total target compensation for each NEO by considering the following factors:

- Each NEO's performance relative to the Company's strategic objectives;
- Capital One's historical performance;
- The role and qualifications of each NEO (for example, the NEO's scope of responsibility, experience and tenure and the demonstration of competencies consistent with the Company's values and the ability to deliver strong, sustainable business results);
- Appropriate internal pay differentials and the desire to foster teamwork and collaboration;
- Historical pay levels;
- Available role-specific market compensation data from peer comparator companies;
- Available information on the structure of compensation packages for senior executives at peer comparator companies;
- Market trends in executive compensation (for example, current rates of pay and the prevalence and types of incentive vehicles); and
- The overall structure of the compensation program.

Base Salaries

For the 2014 performance year, the Committee chose to defer a significant portion of each NEO's base salary until the end of the year. Rather than award each NEO a base salary entirely in cash, the 2014 base salary for NEOs was delivered in a mix of cash (approximately 20% of total target compensation) and RSUs that settled in cash on February 15, 2015 (approximately 15% of total target compensation). In this way, the 2014 compensation program further deferred cash compensation for each NEO and placed it at risk to the performance of the Company's stock price for the entire performance year.

In January 2014, the Committee and the independent directors approved 2014 base salaries for the NEOs, including the portion of base salary delivered as RSUs, ranging from \$1,588,056 to \$2,655,071. Individual details for each NEO are provided in the table below showing compensation by performance year.

Year-End Incentive Awards

In addition to base salary, in January 2015 the Committee determined to award each NEO various equity-based incentive awards as a reward for Company and individual performance in 2014.

Cash-Settled RSU Awards

In January 2015, the Committee and the independent directors approved awards of cash-settled RSUs for the NEOs ranging from \$942,247 to \$1,575,060, representing a payout at 140% of the target award values established by the Committee in January 2014. Individual details for each NEO are provided in the table below showing compensation by performance year. The Committee and the independent directors determined that these awards were appropriate in light of the Company's performance as described under "Year-End Incentive Opportunity" on page 38 in connection with the determinations by the Committee and the independent directors relating to the CEO's year-end incentive awards.

Equity Incentive Awards

In January 2015, the Committee and the independent directors awarded various equity incentive awards to the NEOs for the 2014 performance year. At Capital One, equity incentive awards are linked to performance in two ways:

The size of the award is based on each NEO's individual performance assessment for the year just completed; and
The ultimate value of the award is dependent on Capital One's performance over time.

Table of Contents

Equity incentive awards are designed to emphasize elements that are of particular importance to Capital One given the Company's unique goals and continually evolving business strategies and objectives. In determining the actual amounts to be awarded to each NEO, the Committee considered each NEO's contribution to the Company's performance for 2014 as well as the individual performance of each NEO. The Committee also received input from the CEO on his assessment of each NEO's individual performance and his recommendations for compensation of the NEOs. The CEO also assessed each NEO's performance against one or more specific objectives designed to evaluate the degree to which the NEO balanced risks inherent in the NEO's role. These assessments included the use of both quantitative and qualitative risk measures and were reviewed by the Chief Human Resources Officer and the Chief Risk Officer before being presented to the Committee and the independent directors for their consideration.

The equity incentive awards consisted of stock-settled RSUs, performance share awards and stock options. The terms of the performance share awards are substantially similar to the terms of the performance share awards granted to our CEO, as described earlier under 2015 CEO Compensation Decisions. The NEO stock options and stock-settled RSUs vest ratably in one-third increments starting on the first anniversary of the grant date and are subject to performance-based vesting and clawback provisions as discussed below under Additional Performance Conditions and Recovery Provisions on page 44. The stock options have an exercise price of \$74.96 per share, which was the fair market value of the Company's common stock on the date of grant.

Mr. Crawford, the Company's Chief Financial Officer, was awarded 60,664 non-statutory stock options, 27,515 stock-settled RSUs and a target amount of 16,509 performance shares with a total grant date value for all three awards of \$4,216,715. The Committee and the independent directors determined to grant these awards based upon Mr. Crawford's leadership in managing the Company's balance sheet in 2014, particularly the Company's capital generation and distribution. The Committee and the independent directors also considered Mr. Crawford's continued leadership in driving well-managed processes within the Company's finance operations and across the enterprise and his positioning of Capital One for Basel-related and other regulatory initiatives, as well as his contributions providing strategic market advice and enhancing transparency and communication to investors.

Mr. Schneider, President, Card, was awarded 46,374 non-statutory stock options, 21,034 stock-settled RSUs and a target amount of 12,620 performance shares with a total grant date value for all three awards of \$3,223,447. The Committee and the independent directors determined to grant these awards based upon the strong performance of the Credit Card business in 2014, particularly the year-over-year growth driving increased net income for Domestic Card with strong return on assets while maintaining focus on resiliency, as well as his leadership positioning the Domestic Card business for future strong performance and managing the partnership business. The Committee and the independent directors also considered Mr. Schneider's leadership implementing the Company's digital agenda while continuing to enhance the compliance and risk management programs within the business.

Mr. Finneran, General Counsel and Corporate Secretary, was awarded 31,660 non-statutory stock options, 15,956 stock-settled RSUs and a target amount of 9,574 performance shares with a total grant date value for all three awards of \$2,392,134. The Committee and the independent directors determined to grant these awards based upon Mr. Finneran's management of the Company's engagement with a broad range of regulators and other stakeholders in an environment of heightened regulatory scrutiny and examination. In addition, the Committee and the independent directors considered his leadership enhancing the Corporation's governance framework in 2014, his success in managing the Company's litigation portfolio and his implementation of well-managed processes across his organization.

Mr. Yajnik, the Company's President, Financial Services, was awarded 29,688 non-statutory stock options, 14,962 stock-settled RSUs and a target amount of 8,977 performance shares with a total grant date value for all three awards of \$2,243,074. The Committee and the independent directors determined to grant these awards based upon the strong

performance of the Auto business in 2014, including growth in originations, as well as his leadership managing credit risk in Auto and Home Loans. The Committee and the independent directors also considered Mr. Yajnik's success implementing a comprehensive process improvement program and enhanced technological solutions across both businesses.

(1) For 2014, includes cash-settled restricted stock units (restricted stock unit portion of base salary granted in January 2014 and restricted stock units granted in January 2015).

(2) For 2014, includes stock-settled restricted stock units and performance share award granted in January 2015. This table is presented to show how the Committee views compensation actions and to which year the compensation awards relate, but it differs substantially from the Summary Compensation Table on page 53 required for purposes of this proxy statement and is therefore not a substitute for the information required in that table. There are two principal differences between the Summary Compensation Table and the above table:

The table above reports equity-based awards as compensation for the performance year for which they were awarded, even if the award was granted in one year based on performance for the prior year. As a result, the cash-settled RSU, stock option, stock-settled RSU and performance share awards granted in January 2015 for the 2014 performance year, for example, are shown in the above table as 2014 compensation. The Summary Compensation Table reports equity-based awards only in the year in which they were granted.

The Summary Compensation Table reports the change in pension value and non-qualified deferred compensation earnings and all other compensation. These amounts are not a result of current year compensation determinations and are not shown above.

Additional Pay Elements

The Committee provides certain other programs intended to support the NEOs' productivity, well-being and security. These programs provide some level of personal benefit and are not generally available to all associates. For 2014, these included the following:

The ability to participate in a comprehensive voluntary annual health screening;
Executive term life insurance with a benefit level of approximately \$5 million;
An automobile lease; and
The monitoring and maintenance of an electronic home security system.

The Committee has determined that the nature and value of these programs are comparable to those offered to similarly situated executives at our peers. Additional details on these programs can be found in the Named Executive Officer Compensation section beginning on page 52.

2015 NEO Compensation Decisions

For 2015, the Committee and the independent directors approved an NEO compensation program that is substantially similar to the 2015 program. The plan consists of multiple compensation vehicles that directly link the NEOs compensation with the Company's performance over multiple time horizons, align the NEOs interests with the interests of the Company's stockholders, support safety and soundness and encourage appropriate risk-taking.

Table of Contents

Additional Performance Conditions and Recovery Provisions

The awards granted to our named executive officers include the following provisions that are designed to further enhance alignment between pay and performance and balance the risks that our incentive compensation programs might otherwise encourage:

- Performance-based vesting provisions;
- Performance share reduction;
- Clawback provisions; and
- Financial restatement clawbacks.

These terms and conditions apply to incentive awards granted to every executive officer and not just to the named executive officers.

Performance-Based Vesting Provisions

The ultimate value that our named executive officers receive from equity-based incentive awards is tied to our stock price performance over the vesting period. The Committee nevertheless determined that these awards should be subject to additional performance conditions so that the value received by the executives is also conditioned upon the Company continuing to meet certain operating performance thresholds. The vesting of awards subject to performance-based vesting provisions is conditioned upon the Company meeting specific performance thresholds for each and every fiscal year ending in the three-year vesting period. Any forfeitures will be cumulative over the three-year vesting period. In this manner, regardless of our executives' past performance and of our stock price performance, the awards subject to performance-based vesting remain at risk of complete forfeiture over the three-year vesting period.

Since January 2012, performance-based vesting provisions have applied to the following awards:

- All named executive officer stock option awards;
- All named executive officer restricted stock and stock-settled RSUs; and
- All CEO cash-settled RSUs.

In setting the threshold operating performance conditions, the Company took into account discussions with federal bank regulators. These performance conditions do not present any upside potential for the named executive officers' compensation but instead create an additional at-risk element to the compensation that has been awarded to them. Imposing these additional performance conditions is designed to further reflect our approach of balancing risk and performance over the long-term.

For awards granted in January 2014 and 2015, vesting is conditioned on the Company achieving positive Core Earnings. If Core Earnings are not positive for any fiscal year in the vesting period, the named executive officer will automatically forfeit 50% of one-year's worth of vesting (i.e., one-sixth of the total award). In addition, the Committee will determine the extent to which any named executive officer was accountable for the outcome and, based on such determination, the Committee will decide whether any or all of the remaining 50% of one-year's worth of vesting will also be forfeited. The Committee may also decide to delay the vesting of the applicable portion of the award not so forfeited. For the NEOs, these determinations will be made each year prior to the scheduled vesting date, based on the Core Earnings for the fiscal year ended prior to such vesting date. For the CEO, these determinations will be made

prior to the scheduled vesting date at the end of the three-year vesting period, taking into account Core Earnings for each fiscal year within the period.

Core Earnings focuses on whether profits are being generated by our basic business, as opposed to other factors that may not reflect business fundamentals. The terms of the applicable award agreements define Core Earnings to mean the Company's net income available to common stockholders, excluding, on a tax-adjusted basis, the impact of (i) impairment or amortization of intangible assets, (ii) the build or release of the allowance for loan and lease losses, calculated as the difference between the provision for loan and lease losses and charge-offs, net of recoveries, and (iii) the change in the combined uncollectible finance charge and fee reserve. The Committee believes that Core Earnings is an appropriate performance metric to employ for these performance-based vesting provisions because the metric captures major operational costs and risks to the Company's

Table of Contents

business, including charge-offs, operating expenses, market and competitive risks and costs to maintain adequate levels of capital and liquidity. Because the metric is based on net income available to common stockholders, it also includes the impact of discontinued operations.

Performance Share Reduction

As described above, the performance share awards granted to the named executive officers since January 2012 employ Adjusted ROA as the performance metric, with the Company's performance assessed on the basis of Adjusted ROA relative to a comparator group consisting of companies in the KBW Index. Each of these performance share awards is subject to reduction in the event that the Company's Adjusted ROA for any fiscal year in the three-year performance period is not positive. These reductions will occur regardless of how well the Company's Adjusted ROA compares to its peers in the KBW Index. If the Company does not achieve positive Adjusted ROA for one year in the performance period, the total number of shares issued on the vesting date will be reduced by one-sixth. If the Company does not achieve positive Adjusted ROA for two years in the performance period, the total number of shares issued on the vesting date will be reduced by one-third. If the Company does not achieve positive Adjusted ROA for any of the three years in the performance period, the named executive officers will forfeit the entire award. In this manner, even if we outperform compared to the comparator group, the performance share awards are at risk of complete forfeiture if we do not achieve a threshold level of performance on an absolute basis.

Adjusted ROA means the ratio, expressed as a percentage, of (a) the Company's net income available to common stockholders, excluding, on a tax-adjusted basis, the impact of impairment or amortization of intangible assets to (b) the Company's average tangible assets for the period. This metric is intended to reflect our earnings capacity by focusing on a component of our net income relative to our tangible assets. For the January 2014 awards, the credit portion of other than temporary impairment of the securities portfolio is also excluded, on a tax-adjusted basis, from the Company's net income available to common stockholders for purposes of determining Adjusted ROA.

Clawback Provisions

Capital One has included clawback provisions in certain equity awards since 2011. Beginning with awards granted in January 2013, every incentive award granted to our executive officers, including our named executive officers, includes a clawback provision designed to provide the Committee the opportunity to recover compensation previously awarded in the event the clawback is triggered. Under these clawback provisions, the Committee will determine the amount of compensation to recover in the event that the Committee determines (i) there has been misconduct resulting in either a violation of law or of Company policy that in either case causes significant financial or reputational harm to the Company and (ii) either the executive committed the misconduct or failed in his or her responsibility to manage or monitor the applicable conduct or risks. The portions of all applicable incentive awards that are unvested at the time the Committee makes a determination to exercise the clawback provisions will be subject to recovery and at risk of complete forfeiture.

In the event the Committee exercises the clawback provisions in the future, the Company intends to disclose the aggregate amount that the Committee has determined to recover, so long as the underlying event has already been publicly disclosed in the Company's filings with the SEC. This disclosure would appear in the proxy following any such determination by the Committee and would provide the aggregate amount of recovery for each event if there is more than one applicable event.

Financial Restatement Clawbacks

All performance share awards to our executive officers beginning in January 2011 include a clawback that is triggered in the event of a financial restatement by the Company within three years of the vesting of the award if the executive would have been entitled to fewer shares on the vesting date as a result of the restatement. This restatement clawback is designed to recoup the shares awarded to the executive or, in the event the executive has sold or otherwise transferred the shares, the net proceeds from that sale or transfer.

Table of Contents

Criteria and Process for Compensation Decisions

The Committee considers a number of factors in making compensation decisions with respect to the named executive officers. The Committee relies on a range of objective data including Company performance data, peer comparator group performance data, historical pay information, data on specific market practices and trends and other relevant points of information to inform its business judgment.

Use of Outside Consultants for CEO Compensation

The Committee engages F.W. Cook to assist in the design of the CEO compensation program. F.W. Cook assists the Committee in a number of ways, including proposing and evaluating a peer comparator group, gathering relevant compensation data from the peer comparator companies, discussing relevant market trends and context and developing recommendations on possible plan designs. Please see the discussion under Compensation Committee Compensation Committee Consultant in the Corporate Governance at Capital One section beginning on page 14 for additional information about F.W. Cook.

Use of Outside Consultants for NEO Compensation

The Chief Human Resources Officer and other members of the Company's Human Resources department assist the CEO in developing compensation recommendations to the Committee for the NEOs. The Human Resources department typically uses multiple surveys as sources of market compensation data. F.W. Cook also provides additional market reference points that the Committee and the independent directors use when evaluating NEO compensation. Other outside consultants provide information to the Human Resources department regarding market practices and trends and research reports and provide subject matter expertise on specific concepts and technical issues related to executive compensation. However, these outside consultants do not recommend either the form or amount of compensation that is to be paid to the NEOs. The Human Resources department is responsible for analyzing the information obtained from the outside consultants and presenting it to the CEO. The CEO then considers all of the information provided by the Human Resources department and the Chief Human Resources Officer and makes his compensation recommendations for the NEOs to the Committee and the independent directors.

Management does not have a contractual arrangement with any compensation consultant to determine or recommend compensation programs for the NEOs. A consultant from F.W. Cook is present at Committee meetings during which CEO and NEO compensation is discussed and provides market data as well as an outsider's perspective regarding CEO and NEO compensation practices. F.W. Cook has no other engagement with, and performs no other services for, Capital One besides the services described above.

Market Data

The Committee reviews pertinent data from a group of peer comparator companies within the financial services industry. These organizations are intended to represent the marketplace of companies with whom Capital One competes for business and for executive talent.

F.W. Cook plays a lead role in evaluating the peer comparator group on an annual basis. Each year, a consultant from F.W. Cook presents a comprehensive report to the Committee that highlights size, scope and performance information from the peer comparator companies across a variety of metrics. The Committee specifically considers the Company's percentile rank versus peer comparator companies across the following financial metrics:

Revenue;
Assets;
Market value;
Net income available to common stockholders;
U.S. deposits;
Loans held for investment;
Diluted earnings per share growth;
Return on tangible common equity;

Table of Contents

Adjusted ROA;
 Tier 1 common capital ratio;
 Charge-off rate;
 Ratio of stock price to tangible book value;
 Ratio of stock price to earnings; and
 Total stockholder return.

After reviewing this information, the Committee recommends a final peer comparator group to the independent directors for approval. The peer comparator group is adjusted each year, as appropriate, so that the size, scope, performance and business focus of the peer comparator companies reflect Capital One's competitive environment. After the peer comparator group was significantly adjusted in 2009 due to considerable consolidation within the peer comparator group caused by the turmoil in the financial sector, the same peer group has been used for competitive analysis when the Committee approved the 2010 through 2014 compensation programs and target award values.

American Express	Fifth Third Bancorp	Regions Financial
Bank of America Corporation	J.P. Morgan Chase	SunTrust Banks
BB&T Corporation	KeyCorp	U.S. Bancorp
Citigroup	PNC Financial Services	Wells Fargo & Company

Typically, compensation data from the peer comparator group is used to inform the Committee's determination of the total compensation target values for the named executive officers. As of December 31, 2014, Capital One was positioned at or near the median of the peer comparator group in terms of total assets, revenues, net income, market value and ratio of price to tangible book value.

For purposes of designing the 2015 compensation programs, however, the Committee determined to adjust the peer comparator group by removing KeyCorp and including Discover Financial Services. The Committee believes that the revised peer comparator group better reflects the competitive environment for the Company, particularly the performance and business focus of the companies in the peer comparator group and the competition for talent, and made this determination after considering, among other things, stockholder feedback as described earlier under Consideration of 2014 Say on Pay Vote.

Tally Sheets

In addition to considering market data from our peer comparator group (when available), the Committee also considers information contained on total compensation tally sheets for the CEO and each NEO. The tally sheets summarize multiple components of current and historical compensation, as well as the potential value of post-termination arrangements. The tally sheets are just one point of information used by the Committee in the process of determining CEO and NEO compensation. They help the Committee understand the historical context that is relevant to current compensation decisions, such as the CEO and each NEO's accumulated equity value. The tally sheets also help the Committee assess the potential downstream consequences of its decisions, such as the potential value to be received by the CEO and each NEO upon separation due to a change of control, retirement or other termination scenarios.

Other Compensation Arrangements

Pension and Non-Qualified Deferred Compensation Plans

Capital One does not currently have any active pension plans for the CEO or the NEOs. We offer a voluntary, non-qualified deferred compensation plan that restores participating NEOs to the level of savings they would have achieved if they had not been impacted by IRS limits governing our qualified 401(k) plan. It also allows the NEOs to defer additional pre-tax compensation in order to save for retirement.

Capital One annually reviews programs and practices at our peer comparator companies and across the financial services industry. We also review changes in the legal and regulatory environment pertaining to retirement

Table of Contents

programs. Each of our named executive officers participated in Capital One's Voluntary Non-Qualified Deferred Compensation Plan (the Plan) in 2014. Details of the Plan can be found under Capital One's Voluntary Non-Qualified Deferred Compensation Programs on page 63.

Employment Agreements

Capital One typically does not enter into defined term employment agreements with the named executive officers in order to maintain maximum flexibility in establishing separation terms at the appropriate time and considering then current circumstances. The Committee retains full discretion to approve employment agreements on an exception basis and has done so for exceptional circumstances in the past.

Change of Control Agreements

Each named executive officer is a party to an agreement providing certain benefits if their employment terminates in connection with a change of control. The Committee determined that such agreements were appropriate based on their prevalence within the banking and financial services industry and given the dynamic nature of merger and acquisition activity among these institutions.

The change of control agreements define compensation and benefits payable to named executive officers in certain merger and acquisition scenarios, giving them some degree of certainty regarding their individual outcomes in these circumstances. The Committee believes these agreements allow the named executive officers to remain neutral and consider a full range of decisions that are focused on maximizing stockholder value. The change of control agreements are also intended to allow Capital One's businesses to operate with minimal disruption in the event of a change of control by providing each named executive officer with an incentive to remain in his leadership roles up to and beyond the transaction date. The named executive officers are only entitled to benefits under the agreements if their employment is actually terminated as a result of (or in anticipation of) certain merger and acquisition scenarios.

Both eligibility for participation and the structure of payments under these agreements are designed to be aligned with market practice in the banking and financial services industry. This is designed so that our stockholders are not faced with disproportionate severance costs that may impair potential merger opportunities. It also supports our ability to attract and retain talented executives by providing them with a competitive level of benefit.

Projections of potential payouts to the named executive officers under these agreements are included in the total compensation tally sheets reviewed by the Committee on an annual basis. Although the potential change of control payouts do not necessarily impact annual decisions on CEO and NEO pay, reviewing this information allows the Committee to fully understand the downstream implications of its decisions and the resulting impact to the Company and its stockholders.

Our change of control agreements for executive officers no longer provide for excise tax gross-up payments. On March 1, 2011, Capital One delivered notice to all executive officers that their change of control agreements, which included excise tax gross-up provisions, would not be renewed. The Committee and the independent directors also approved a new form of change of control agreement to be used after March 1, 2011 for new hires, promotions and renewals which does not provide for an excise tax gross-up. Accordingly, all executive officer change of control agreements providing for a potential excise tax gross-up after a change of control have expired and been replaced with the new form of agreement that does not provide for an excise tax gross-up.

Post-Employment Compensation Practices

The CEO has no employment or severance arrangement with the Company other than the change of control agreement as described above. If an NEO separates from Capital One, he or she is entitled to receive the amounts set forth in the Company's Executive Severance Plan, which provides for a payment of up to 30% of the NEO's current target total compensation plus partially subsidized health, dental and vision benefits through COBRA and outplacement services. The Committee may exercise its business judgment in approving additional amounts in light of all relevant circumstances, including the NEO's term of employment, past accomplishments, reasons for separation from the Company, potential risks and the NEO's willingness to restrict his or her future action(s),

Table of Contents

such as through an agreement not to compete or solicit the Company's customers or employees. Capital One has asked certain NEOs to enter into various agreements that contain restrictive covenants related to confidentiality, non-competition, non-solicitation and ownership of work product. For additional information, please see *Restrictive Covenants* in the *Named Executive Officer Compensation* section beginning on page 65. Each of the NEOs also has a change of control agreement as described above. Upon retiring from the Company, employees are generally entitled to receive certain retiree medical benefits.

Other Aspects of Executive Compensation***Stock Ownership and Retention Requirements***

Consistent with their responsibilities to our stockholders, the executive officers are required to maintain a significant financial stake in the Company. To this end, the CEO and the NEOs must own shares of Capital One stock with a fair market value of at least the following annual cash salary multiples:

Role	Salary Multiple
CEO	5X
Other NEOs and Executive Officers	3X

Given that the CEO's compensation program does not include a base salary, his ownership requirement is based on a notional salary established by the Committee and the independent directors, which is currently \$1,000,000.

Ownership requirements may be fulfilled using the following shares:

- Shares owned without restriction;
- Unvested restricted stock;
- Unvested stock-settled RSUs;
- Shares acquired through the Associate Stock Purchase Plan; and
- Shares owned through Capital One's 401(k) Plan.

The Committee annually reviews the guidelines and monitors the named executive officers' compliance with them. New executive officers are given two years from the date of promotion to or appointment as an executive officer to comply with these requirements. In the event that an executive officer is not in compliance with these requirements, the Committee has the right to take action, including reducing the executive officer's compensation. The named executive officers are currently in compliance with this requirement.

In addition, beginning in January 2011, the Company implemented stock retention requirements for certain equity awards made to the named executive officers. For equity awards granted in January 2015, throughout each executive's term of employment with Capital One, and for all shares that are acquired during the one-year period following termination of employment, each executive must hold 50% of the after-tax net shares acquired under performance share and stock-settled RSU awards for one year. These stock ownership and retention requirements apply to all of our

executive officers.

Prohibition of Hedging and Speculative Trading Activities

All of Capital One's executive officers are prohibited from engaging in short sales, hedging transactions or speculative trading in derivative securities of Capital One stock and from using their Capital One stock in a margin account or pledging Capital One stock as collateral for a loan.

Equity Grant Practices

Capital One strives to maintain equity grant practices that demonstrate high standards of corporate governance. Annual incentive awards are approved by the Committee and the independent directors (or by delegated authority to the Chief Human Resources Officer for certain employees who are not executive officers) at regularly scheduled meetings in the first quarter of each year. The date of grant is the actual date on which the Committee approves the awards. The Committee may grant awards of restricted stock, restricted stock units, stock options or other equity awards outside of the annual incentive cycle. The Committee has delegated

Table of Contents

authority to the CEO to award restricted stock and to the Chief Human Resources Officer to award stock-settled and cash-settled RSUs (but not options or other equity awards) to employees who are not executive officers, subject to a maximum amount of \$2 million for any employee in any one year. These awards are designed to be used for new hires and for special programs designed by management to incentivize and reward current employees of the Company. The Committee reviews all grants made by delegation at least once per year.

With respect to awards of stock options, the exercise price is always the Fair Market Value of the Company's stock on the date of grant. Under the terms of our 2004 Stock Incentive Plan, Fair Market Value is equal to the closing price of the Company's common stock on the date of grant.

The Company does not seek to time equity grants to take advantage of material non-public information and in no event is the grant date set to a date that is prior to the date of approval.

Tax Considerations

The Committee carefully considers the tax impacts of its compensation programs on the Company, as well as on its executives. To maintain flexibility in compensating executive officers, the Committee does not require all compensation to be paid or awarded in a tax-deductible manner. However, it is the Committee's intent to maximize tax deductibility to the extent reasonable, provided the Company's programs remain consistent with the Company's overall executive compensation objectives.

With respect to the named executive officers (other than the Chief Financial Officer), Section 162(m) of the Internal Revenue Code limits the federal tax deduction for compensation paid to the executive to \$1 million. Amounts in excess of \$1 million are also eligible for the deduction if the compensation qualifies as performance-based. The Company's 2004 Stock Incentive Plan provides for the establishment of specific performance thresholds to be tied to equity-based awards that may allow these awards to qualify as performance-based for the purposes of 162(m).

The Company expects that the award of stock options and performance shares to the CEO and NEOs in 2014 will be deductible as performance-based compensation. The vesting of restricted stock units granted to the CEO and stock-settled RSUs granted to the NEOs in January 2014 is contingent upon the achievement of performance-based vesting conditions. Specifically, the CEO and NEOs would receive these awards as long as the Company achieves a Core Earnings ROA of better than or equal to negative two percent (-2%) for the applicable fiscal year. As further described in Additional Performance Conditions and Recovery Provisions Performance-Based Vesting Provisions beginning on page 44, additional vesting conditions also apply that could further limit the vesting of these awards.

For purposes of the above performance metric, Core Earnings ROA means the ratio, expressed as a percentage, of (A) the Company's Core Earnings for the 2014 fiscal year to (B) the Company's average total assets for the period. Core Earnings has the same meaning as described earlier under Additional Performance Conditions and Recovery Provisions Performance-Based Vesting Provisions beginning on page 44.

In February 2014, the Committee and the independent directors established a performance threshold that the Company had to meet in order for the following awards to executive officers of the Company, including the named executive officers, for the 2014 performance year to be granted: performance share awards, RSUs (other than the RSUs representing a portion of base salary) and the deferred cash bonus to the CEO. Under the threshold, the CEO and NEOs would receive these awards only if the Company achieved positive Core Earnings ROA from Continuing Operations for the 2014 fiscal year. For purposes of this performance metric, Core Earnings ROA from Continuing Operations means the ratio, expressed as a percentage, of (A) the Company's Core Earnings from Continuing Operations for the 2014 fiscal year to (B) the Company's average total assets for the period. Core Earnings from

Continuing Operations means the Company's net income from continuing operations, excluding, on a tax-adjusted basis, the impact of (i) impairment or amortization of intangible assets, (ii) the build or release of the allowance for loan and lease losses, calculated as the difference between the provision for loan and lease losses and charge-offs, net of recoveries, and (iii) the change in the combined uncollectible finance charge and fee reserve.

Table of Contents

The Company's Core Earnings ROA from Continuing Operations for fiscal year 2014 was positive. Therefore, the Company expects the awards made in January 2015 to be tax-deductible as performance-based compensation.

SECTION VI NAMED EXECUTIVE OFFICER COMPENSATION

The Summary Compensation Table below provides information concerning compensation for the fiscal years ended December 31, 2014, 2013 and 2012 for the named executive officers.

As discussed under **Chief Executive Officer Compensation** in the **Compensation Discussion and Analysis** section beginning on page 35, 78% of the CEO's total compensation is equity-based and at-risk to the performance of the Company's stock price, with 100% of his compensation deferred for a three-year period. Amounts shown in the table below for the CEO for 2014 represent stock options, performance shares, and stock-settled RSUs granted in January 2014 and a deferred cash bonus awarded in January 2015 for 2014 performance. The CEO also was granted cash-settled RSUs in January 2015 for the 2014 performance year, which are not shown in the table below. Amounts shown in the **Stock Awards** column for 2014 also include cash-settled RSUs granted to the CEO in January 2014 for the 2013 performance year.

As discussed under **NEO Compensation** beginning on page 40, under the NEOs' 2014 compensation program, base salary comprised approximately 35% of NEO total target compensation. Each NEO received a portion of his or her 2014 base salary in cash that was paid throughout the year and a portion in cash-settled RSUs that were granted in January 2014 and settled in cash in February 2015. These cash-settled RSUs are included in the table below in the **Stock Awards** column for 2014. For the NEOs, amounts shown for 2014 in the table below also include stock options, performance shares, stock-settled RSUs, and cash-settled RSUs granted in January 2014 for the 2013 performance year. The NEOs also were granted equity awards in January 2015 for the 2014 performance year, which are not shown in the table below. The NEOs were not eligible for cash bonuses for 2014.

Amounts paid to the CEO and the NEOs in 2014 for other compensation and benefit programs are listed under the **Change in Pension Value and Non-Qualified Deferred Compensation Earnings** and **All Other Compensation** columns. The details of these program amounts are provided in the footnotes.

Please see the footnotes to the table below for an additional explanation regarding compensation attributable to each performance year. Further information on the timing of awards under the 2014 compensation programs for the CEO and the NEOs can be found under **Compensation Components** in the **Compensation Discussion and Analysis** section beginning on page 34.

Table of Contents**2014 Grants of Plan-Based Awards Table**

The Grants of Plan-Based Awards table provides details on equity incentive plan awards granted in 2014 including stock options, performance shares, cash-settled RSUs and stock-settled RSUs.

The columns reporting Estimated Future Payouts Under Equity Incentive Plan Awards, All Other Stock Awards and All Other Option Awards relate to Capital One's equity-based incentive awards to the named executive officers.

For the CEO in 2014, the awards are comprised of stock options, performance shares, and stock-settled RSUs granted in January 2014 as part of the CEO's 2014 compensation program and cash-settled RSUs granted in January 2014 for 2013 performance.

The stock options become exercisable on February 15, 2017 and expire in ten years.

The performance shares will be issued based on the Company's Adjusted ROA over the three-year period from January 1, 2014 through December 31, 2016, relative to the KBW Bank Sector index, excluding custody banks.

The total value delivered at vesting will be reduced if for any of the years in the three-year performance period the Company does not achieve positive Adjusted ROA, regardless of how well the Company compares to its peers in the KBW Bank Sector index over the performance period. See 2014 CEO Compensation Decisions in the

Compensation Discussion and Analysis section beginning on page 36 for more details on the performance share awards. Dividend equivalents are accrued on the performance shares at the same time as dividends are paid out to the Company's other stockholders and are paid out as additional shares only on the performance shares that actually vest based on the results certified by the Compensation Committee.

The cash-settled RSUs and stock-settled RSUs vest in full on February 15, 2017. The cash-settled RSUs settle in cash based on the average closing price of the Company's common stock for the 15 trading days preceding the vesting date. Dividend equivalents are accrued on the cash-settled and stock-settled RSUs at the same time as dividends are paid to the Company's other stockholders and are paid at the time of vesting, adjusted for performance-based vesting results.

For the NEOs in 2014, the awards are comprised of stock options, performance shares, cash-settled RSUs, and stock-settled RSUs granted in January 2014 for the 2013 performance year and cash-settled RSUs granted in January 2014 as a portion of 2014 base salary (as described under Base Salaries in the Compensation Discussion and Analysis section on page 41).

The stock options become exercisable in three equal annual installments, beginning on February 15 of the year after the date of grant, and expire in ten years.

The terms of the performance shares for the NEOs are substantially the same as the terms of the CEO's performance shares described above. Dividend equivalents are accrued on the performance shares at the same time as dividends are paid to the Company's other stockholders and are paid out as additional shares only on the performance shares that actually vest based on the results certified by the Compensation Committee.

The stock-settled RSUs vest in three equal annual installments beginning on February 15 of the year after the date of grant. Dividend equivalents are accrued on the stock-settled RSUs at the same time as dividends are paid to the Company's other stockholders and are paid at the time of vesting, adjusted for performance-based vesting results. The cash-settled RSUs representing a portion of base salary vested in full on January 1, 2015 and settled in cash on February 15, 2015 (the Payment Date) based on the average closing price of the Company's common stock for the 15 trading days preceding the payment date. The other cash-settled RSUs vest in three equal annual installments beginning on February 15 of the year after the date of grant and settle in cash based on the average closing price of the Company's common stock for the 15 trading days preceding the vesting date. Dividend equivalents are paid on

the cash-settled RSUs at the same rate and at approximately the same time as dividends are paid to the Company's other stockholders.

Table of Contents

Each award of stock-settled RSUs (as well as cash-settled RSUs for the CEO) and stock options reported below is also subject to performance-based vesting provisions tied to core earnings that will reduce the total number of shares delivered at vesting if the Company does not achieve certain performance thresholds during the three-year vesting period. See [Additional Performance Conditions and Recovery Provisions](#) in the [Compensation Discussion and Analysis](#) section beginning on page 44 for more details on the performance-based vesting provisions.

- (1) The value realized is the pre-tax value of the shares (market price less the exercise price) received.
- (2) The value realized for awards other than certain cash-settled RSUs and performance shares is the number of shares multiplied by the closing price of the Company's common stock on the vesting date, as reported by the NYSE Composite Transaction Tape. For performance shares, the value also reflects the accrued dividends paid out as additional shares on the date the performance share award results are certified by the Compensation Committee. Except for cash-settled RSUs that were vested and released in connection with tax withholding on January 30, 2014, the value realized for all other cash-settled RSUs and amount paid is the number of shares multiplied by the closing price of the Company's common stock for the 15 trading days preceding the vesting date, in accordance with the terms of the applicable awards. The value included in the table above that was realized from cash-settled RSUs was as follows: \$10,186,459 for Mr. Fairbank, \$54,710

for Mr. Crawford, \$1,710,848 for Mr. Schneider, \$1,607,667 for Mr. Finneran, and \$1,424,777 for Mr. Yajnik.

Table of Contents**Pension Benefits*****Capital One Programs***

Prior to November 1995, Capital One offered a Cash Balance Pension Plan (CBPP) and an Excess Cash Balance Plan (Excess CBPP) to all full-time salaried associates and certain executive officers. Both of these programs were frozen in December 1995; however, interest credits continue to accrue on plan balances on a quarterly basis for the CBPP and on a monthly basis for the Excess CBPP. The CBPP crediting rate changes annually based on the average annual yield of 5-year Treasury Securities for the preceding 12 months ending October of the prior year (1.04% annual average for 2014). The Excess CBPP interest crediting rate changes monthly based on the Wall Street Journal Prime Rate (3.3% annual average for 2014).

Messrs. Fairbank and Finneran participated in these programs. The estimated annual payouts upon retirement in the CBPP and the Excess CBPP as of December 31, 2014, are \$1,950 and \$5,996, respectively, for Mr. Fairbank, and \$1,371 and \$945, respectively, for Mr. Finneran. These projected benefits assume interest credits under the CBPP to be 2.65% credited quarterly and under the Excess CBPP to be 3.85% credited monthly. Accounts in either plan are distributed after separation from service. Distribution options from the CBPP plan are lump sum (eligible for rollover to another qualified plan or personal IRA) or an annuity option. The Excess CBPP will be distributed in the same form as the CBPP, as a lump sum (not eligible for rollover) or as an annuity. Since the CBPP and Excess CBPP are account-based defined benefit plans, years of service are not tracked.

Capital One's Voluntary Non-Qualified Deferred Compensation Programs

Capital One offers its Voluntary Non-Qualified Deferred Compensation Plan (VNQDCP) to eligible associates.

In 2014, our NEOs could elect to contribute up to 50% of the cash portion of their respective base salaries and up to 100% of the restricted stock unit portion of their respective base salaries on a tax-deferred basis. Messrs. Crawford, Schneider, Finneran, and Yajnik participated in the program in 2014.

In 2014, 100% of the CEO's deferred cash bonus was mandatorily deferred for three years under the VNQDCP and will pay out in lump sum in the first quarter of 2016. The CEO does not receive company contributions under the VNQDCP.

In addition to participant deferrals, Capital One makes contributions under the VNQDCP. Company contributions vest immediately when posted to the VNQDCP. Participants in the VNQDCP have the option to direct their individual deferrals among seventeen different investment offerings made available by the plan: Fidelity Retirement Money Market Portfolio, Blackrock Bond Index Fund, PIMCO Total Return Fund Institutional, Dodge & Cox Balanced Fund, Dodge & Cox Stock Fund, T. Rowe Price Institutional Large Cap Value Fund, Northern Small Cap Value Fund, Fidelity Spartan S&P 500 Index Fund, Blackrock Small Cap Index Fund, Fidelity Capital Appreciation Fund, T. Rowe Price Institutional Large Cap Growth Fund, The Hartford Mid Cap Fund, The Hartford Small Company Fund, Blackrock ACWI ex-US Index Fund, Dodge & Cox International Stock Fund, Vanguard Total World Stock Index, and Lazard Emerging Markets Equity.

Individual investment returns experienced in 2014 were as follows: Mr. Fairbank 4.95% or \$182,199, Mr. Crawford 1.71% or \$5,743, Mr. Schneider 0.01% or \$22, Mr. Finneran 4.85% or \$120,768 and Mr. Yajnik 7.22% or \$64,323. Distributions under the VNQDCP may be made to participants according to their respective elected schedule for distribution in accordance with plan terms. The distribution schedules available under the plan include lump sum and 5, 10 or 15 year annual installments. Distributions occur based upon the following events: termination of employment, death, disability, in-service distribution election or change of control.

Prior to December 31, 2005, Capital One offered its executives an Excess Savings Plan (ESP). The plan was frozen as of December 31, 2005; no additional participants are permitted to enter the plan, and no compensation is taken into account after this date. Messrs. Fairbank, Schneider, Finneran, and Yajnik participated in the ESP and, as such, returns on these investments are reported for 2014. Effective January 1, 2008, the ESP was merged into the VNQDCP, and participants in the ESP have the option to direct their individual investments among the same offerings as the VNQDCP. Individual investment returns experienced in 2014 were as follows: Mr. Fairbank 13.66% or \$51,878, Mr. Schneider 0.01% or \$13, Mr. Finneran 13.66% or \$158,066, and Mr. Yajnik 4.69% or \$13,088.

(1) Reflects executive contributions made for 2014. Mr. Fairbank's executive contribution under the VNQDCP was a mandatory deferral of the deferred cash bonus awarded in January 2014 for 2013 performance, which was reported in the 2013 Summary Compensation Table. For Messrs. Crawford, Schneider, Finneran, and Yajnik, all executive contributions under the VNQDCP were made in the form of base salary deferrals, and are reported in the 2014 Summary Compensation Table.

(2) Registrant contributions are also included in the amounts reported as Company Contributions to Defined Contribution Plans in footnote 8 to the Summary Compensation Table.

- (3) Includes earnings on total assets in the VNQDCP and the ESP.
- (4) All the amounts shown in this column, other than earnings on deferred compensation, were included in compensation amounts reported in prior years for those executives that were NEOs in such prior years and in the amounts required to be reported pursuant to the then applicable rules. Of these balances, the following amounts were included in compensation amounts reported in the Summary Compensation Tables in prior year proxy statements beginning with the 2007 proxy statement: Mr. Fairbank \$2,187,500; Mr. Crawford \$210,138; Mr. Schneider \$617,715; and Mr. Finneran \$1,642,463.
- (5) Includes the value of restricted stock units that were granted to Mr. Fairbank in December 2003, subject to Capital One's earnings per share performance relative to its comparator group over a three-year period from January 1, 2004 through December 31, 2006 (the Performance Period). On March 2, 2007, the independent directors of the Board certified, following the end of the Performance Period, the achievement of the performance target. Because the Company ranked in the 76th percentile for the Performance Period relative to the comparator group, Mr. Fairbank acquired the right to receive 241,680 shares of Capital One's common stock on March 31, 2007. Delivery of these shares is deferred until the end of Mr. Fairbank's employment with the Company. Similar to other deferred compensation, Mr. Fairbank neither acquired these shares nor realized any value from these shares in 2014.

Potential Payments Upon Termination or Change of Control

Overview

The disclosure in the table below illustrates payouts that the named executive officers could receive under certain hypothetical termination scenarios. Actual circumstances resulting in the departure of a named executive officer cannot be predicted and may differ from the assumptions used in the information outlined below. The Company has adopted plans providing certain standards governing named executive officer separation payments (reflected in the table below) in order to protect the Company's interests in the event of an acquisition as well as to provide competitive benefits to senior executives.

The Compensation Committee reviews each executive officer's separation on a case by case basis and exercises its business judgment, with the approval of the independent directors, to customize the terms of such separations in consideration of the relevant circumstances, including:

- The reasons for the separation;
- Market competitive practices for comparable separation scenarios;
- Potential benefits to the Company, such as retaining its competitive advantage, maintaining a positive reputation internally and externally, and preserving its ability to recruit highly talented executives;
- The executive's tenure and contributions to the Company's success;
- The executive's willingness to provide legal waivers and/or enter into agreements not to compete with the Company or to solicit the Company's employees or customers; and
- The resulting impact of the separation terms on the Company and its stockholders.

Restrictive Covenants

Capital One maintains a competitive advantage in part through the intellectual property developed and utilized by our senior executives. Capital One has asked certain NEOs to enter into various agreements that contain restrictive covenants related to confidentiality, non-competition, non-solicitation and ownership of work product, as described below.

Standard Non-Competition Agreement

Under Capital One's standard non-competition agreement program, NEOs may be restricted as to what competitive services they may provide to an entity following separation from Capital One, typically for a period of up to two years. In recognition of these restrictions, the agreement calls for payments to be made to the NEO during periods of enforcement of the non-competition restrictions, subject to certain circumstances and conditions. Messrs. Crawford, Schneider, and Yajnik are parties to standard non-competition agreements.

For 2014, potential payments following termination under the standard non-competition agreement are 15% of the NEO's target total compensation for each year of enforcement and up to eighteen months of subsidized health insurance premiums and administrative fees under COBRA if the NEO elects such coverage, subject to certain terms and conditions. For voluntary terminations, the previously described payments are only made for the second year of enforcement. In the case of the NEO's involuntary termination for any reason other than death, disability or cause, the payments are made in two lump sums, the first following termination and the second upon completion of the enforcement period. However, there are no payments under the non-competition agreement if benefits are payable under a change of control agreement. Payments related to the non-competition agreement are separate from any

severance payments that may be made upon the NEO's departure. However, severance payments are typically offset in part by payments related to the non-competition agreement so that total payment amounts are consistent with the program's intent.

Confidentiality, Work Product and Non-Solicitation of Employee Agreement

Messrs. Crawford, Schneider, and Yajnik are parties to confidentiality, work product and non-solicitation of employee agreements. The confidentiality provisions of these agreements generally provide that at all times during and following employment with the Company, the NEO may not use for personal benefit or the benefit of others, or divulge to others, any of Capital One's confidential information, except as expressly authorized by Capital One or required by legal process.

Table of Contents

Further, the NEO, upon separation from Capital One, shall return any and all of Capital One's confidential information to Capital One.

Generally, under the non-solicitation of employee provisions of these agreements, for a period of two years following separation from Capital One, the NEO shall not directly or indirectly solicit or induce any associate of Capital One to become employed by any person or entity engaged in competition with Capital One, hire or engage any associate of Capital One to provide services to a competitor, or directly or indirectly solicit or induce any associate of Capital One to end his or her employment based on confidential information the NEO learned about the employee while they were employed by Capital One.

Payments under Certain Termination Scenarios

Upon separation from the Company, the named executive officers, regardless of the reason for termination, receive certain earned, but previously unpaid, payments, such as accrued but unused vacation pay and amounts earned and vested under the Company's qualified and non-qualified retirement programs. In addition, cash-settled RSUs granted to NEOs after the end of a performance year continue to vest according to the original provisions upon separation for any reason other than cause because these are deferred awards attributable to prior performance and are intended to replace cash bonuses, which would otherwise already have been paid to an executive.

Voluntary Termination

An NEO who voluntarily terminates employment with Capital One may receive payments related to non-competition covenants (described above, if applicable) and any contractual payments to which the NEO may otherwise be entitled. Cash-settled RSUs granted to NEOs at the beginning of a performance year representing a portion of base salary are pro-rated and continue to vest according to their original terms upon voluntary termination. In addition, an NEO has the ability following separation to exercise vested but unexercised options for 3 months following voluntary termination.

Involuntary Termination Without Cause

An NEO whose employment with Capital One is terminated involuntarily, for performance or job elimination, is entitled to receive the amounts set forth in the Company's Executive Severance Plan. For 2014, potential payments under the Executive Severance Plan were 30% of total target compensation. If an NEO's Non-Competition Agreement is enforced, payments under the Executive Severance Plan will be offset by any amounts paid under the Non-Competition Agreement and the NEO will be eligible for (i) an additional payment of up to 90% of the severance payments in exchange for executing a release of claims against the Company, as well as (ii) continued coverage through broad-based and executive life insurance programs, outplacement services and any contractual payments to which the NEO may otherwise have been entitled. Cash-settled RSUs granted to NEOs at the beginning of the performance year representing a portion of base salary are pro-rated and continue to vest according to their original terms upon an involuntary termination. Performance shares granted to NEOs will vest on a pro-rata basis if an involuntary termination without cause occurs during the performance period. In addition, named executive officers have the ability following separation to exercise vested but unexercised options for two years. If a named executive officer's employment with Capital One is terminated as a result of death or disability, his unvested stock options, restricted stock and restricted stock units will vest in full and his performance shares will vest on a pro-rata basis based on actual Company performance during the performance period.

Termination for Cause

Generally, an NEO whose employment with Capital One is terminated for cause receives no additional benefits but is required to comply with any applicable restrictive covenants related to confidentiality, non-competition, non-solicitation of employees or customers, and ownership of work product, as described above. Cash-settled RSUs granted to NEOs at the beginning of the performance year representing a portion of base-salary are pro-rated and continue to vest according to their original terms upon a termination for cause because these are deferred awards representing base salary that would otherwise already have been paid to an executive. In addition, if terminated for cause, named executive officers have the ability following separation to exercise vested but unexercised options for 3 months.

Table of Contents

Payments upon Retirement

As with all executives who are eligible for retirement, named executive officers who retire from Capital One may receive the following amounts: payments related to non-competition covenants as if they had terminated voluntarily (described above); partially subsidized participation in retiree medical coverage (including dependents as applicable), provided that the executive became eligible to retire on or before December 31, 2012; coverage through the executive life insurance program (at a reduced benefit); and any contractual payments to which he or she may otherwise be entitled.

Upon retirement, shares of restricted stock, all restricted stock units (other than cash-settled RSUs representing a portion of base-salary, which vest pro-rata) and stock options continue to vest according to their original terms, which, for shares of restricted stock, stock-settled restricted stock units (all restricted stock units for the CEO) and stock options granted on or after 2012, also includes performance-based vesting provisions. In addition, performance shares granted to named executive officers will continue to vest after retirement, except the 2014 performance share grant to the CEO which would be forfeited if he retired on or before December 31, 2014. For stock options granted on or before December 1, 2005, the executive has one year from the date of retirement to exercise vested but unexercised options. For stock options granted after December 1, 2005 and prior to January 1, 2010 the executive has the earlier of five years from the date of retirement or the expiration of the option term to exercise vested but unexercised options. For stock options granted on or after January 1, 2010 the executive has until the expiration of the option term to exercise vested but unexercised options.

Change of Control

Each named executive officer is a party to an agreement (a *Change of Control Agreement*) that provides for certain payments in the event his or her employment is terminated within two years following (or in anticipation of) a change of control, either involuntarily without cause or voluntarily for good reason. Amounts payable in each of these scenarios are outlined below.

In the agreements, a change of control occurs if one or more of the following events take place: (i) an acquisition of 20% or more of Capital One's common stock or the combined voting power of the voting securities by a person or group, (ii) certain changes in the majority of the Board of Directors, (iii) consummation of a reorganization, merger, share exchange or consolidation or similar transaction, sale of all assets or the acquisition of another company, except where all or substantially all of Capital One's stockholders receive 50% or more of the stock of the resulting company, at least a majority of the board of directors of the resulting company were incumbent board members, and no person owns 20% or more of the resulting company who did not own such stock immediately before the business combination or (iv) approval by stockholders of a complete liquidation or dissolution of Capital One.

All named executive officer Change of Control Agreements providing for a potential excise tax gross-up after a change of control have expired and have been replaced with new Change of Control Agreements that do not provide for an excise tax gross-up.

Involuntary Termination For Cause

Named executive officers terminated involuntarily for cause following a change of control receive no additional benefits.

Voluntary Termination With Good Reason or Involuntary Termination Without Cause

For 2014, the potential payments that the named executive officers could receive under certain termination scenarios are based on a percentage of target total compensation. For the CEO, the potential payments are based on a multiple of his notional salary and cash bonus (as described below). As of December 31, 2014, if a change of control of Capital One occurs, then following a voluntary termination with good reason or involuntary termination without cause, a named executive officer may receive certain benefits as outlined below:

The CEO will be entitled to receive:

- i A lump-sum payment of 2.5 times the sum of his current notional salary and the Highest Annual Bonus, which is the highest of (i) the target annual bonus for the year in which the change of

Table of Contents

control occurs (or the mid-point if no target is established), (ii) the target annual bonus for the year immediately before the year the change of control occurs (or midpoint if no target is established), or (iii) the annual bonus paid or payable for the most recently completed fiscal year; and

- i The cash value, prorated through the date of termination, of the Highest Annual Bonus.

An NEO will be entitled to receive:

- i The cash value, prorated through the date of termination, of the current year's target annual incentive award, whether in the form of cash or equity-based compensation; and
- i 112.5% of the highest of (i) the NEO's current target total compensation, (ii) the NEO's target total compensation for the prior year, or (iii) the NEO's actual total compensation for the prior year.

The CEO or an NEO will also be entitled to receive:

- i An amount equal to the employer contributions under the Company's qualified and non-qualified retirement, healthcare and life insurance programs for 2.5 years as well as access to such healthcare and life insurance plans for the named executive officer (and dependents as applicable);
- i Service credit of 2.5 years for purposes of determining vesting under any supplemental or excess defined contribution plan and eligibility under any applicable retiree medical plan;
- i Outplacement services of up to \$30,000 for one full year (the named executive officer must begin to take advantage of the services within one year of the date of termination); and
- i Any contractual payments to which the named executive officer may otherwise have been entitled.

Beginning in January 2015, all equity awards granted to named executive officers will require a so-called "double trigger" for accelerated vesting in connection with a change of control. Upon a change of control, all equity awards continue to vest according to their original schedule. The vesting of such awards will only accelerate if a named executive officer is involuntarily terminated without cause or voluntarily terminates for good reason within the two years following a change of control. All outstanding equity grants awarded prior to January 2015 vest in full immediately upon a change of control.

Richard D. Fairbank

Mr. Fairbank receives no regular base salary. In light of this, for 2014, Mr. Fairbank's payment in the event of a termination following a change of control was based on a notional salary of \$1 million and his Highest Annual Bonus. The Committee reviews and establishes the notional salary amount on an annual basis, based on market trends related

to CEO compensation and recommendations provided by F.W. Cook. Mr. Fairbank is a party to a Change of Control Agreement.

Stephen S. Crawford, Ryan M. Schneider, John G. Finneran, Jr., and Sanjiv Yajnik

Messrs. Crawford, Schneider, Finneran, and Yajnik are generally eligible for the same payments upon termination, and are all party to a Change of Control Agreement. For 2014, these payments were calculated based on their 2014 target total compensation values. Messrs. Crawford, Schneider and Yajnik are party to a standard Non-Competition Agreement and a Confidentiality, Work Product and Non-Solicitation of Employee Agreement.

- * Represents potential payments and benefits upon change of control for involuntary termination without cause or voluntary for good reason. Acceleration and Continuation of Equity Awards represents the value of equity where vesting is accelerated upon change of control, assuming, where applicable, that all performance metrics have been achieved at their target level.

The table above is intended to reflect potential payments to named executive officers across a range of potential separation scenarios, assuming the change of control or separation occurred on December 31, 2014.

The amounts shown in the table above do not include payments and benefits that are provided on a non-discriminatory basis to salaried employees generally upon termination of employment. The named executive officers also are eligible to receive certain pension benefits and certain qualified and non-qualified deferred compensation amounts upon termination. These amounts are outlined in the 2014 Pension Benefits Table on page 62 and the 2014 Non-Qualified Deferred Compensation Table on page 64, respectively, and are not included in the table above.

Other amounts not included in the table above are the following:

Accrued salary, bonus and vacation pay as of the date of termination; and
Welfare benefits generally available to all retirees, including retiree medical programs.

- (1) Represents cash amounts paid for severance or in relation to enforcement of non-competition covenants as described under Restrictive Covenants beginning on page 65. In cases where the executive is eligible for both types of payments, non-competition amounts typically offset severance amounts in whole or in part. Cash-settled restricted stock unit awards granted after the end of a performance year are included in the Acceleration and Continuation of Equity Awards column. Messrs. Schneider and Yajnik would receive a reduction in CIC severance payments in order to meet safe harbor limitations, which is reflected in the cash severance amounts reported above.
- (2) Represents the value of projected contributions to retirement plans during the severance period.

Table of Contents

- (3) Represents the value of equity where vesting is accelerated or continued by the triggering event. For stock options, this represents the in-the-money value. For stock awards, this represents the fair market value of the shares on December 31, 2014. Most currently unvested equity awards held by our retirement eligible executives will continue to vest according to their original terms following retirement, which includes a voluntary or involuntary termination not for cause after a named executive officer becomes eligible for retirement. Messrs. Fairbank, Finneran, and Yajnik were the only named executive officers eligible for retirement as of December 31, 2014.

- (4) Represents the value of potential payments made on the executive's behalf for continuation of medical and welfare benefits during the severance period. Includes programs such as medical, dental, insurance, outplacement services and related benefits. Only includes programs that are specific to the named executive officers; does not include the value of programs generally available to all employees upon separation from the Company.

- (5) Named executive officers are not eligible for excise tax gross-ups.

- (6) Most currently unvested equity awards will be treated in a similar manner following a named executive officer's termination of employment for death or disability. Due to differences in the vesting provisions of performance shares, the value of the acceleration and continuation of unvested equity awards for each named executive officer following the termination of his employment for death or disability on December 31, 2014 would have been: \$72,331,945 for Mr. Fairbank, \$17,435,017 for Mr. Crawford, \$11,460,892 for Mr. Schneider, \$10,667,583 for Mr. Finneran, and \$9,885,569 for Mr. Yajnik.

- (2) The 1999 Directors Plan, which is described below, was terminated in April 2009 and has not been approved by Capital One stockholders. In conjunction with the acquisition of Hibernia National Bank (Hibernia) in November 2005, Capital One assumed three existing Hibernia stock incentive plans. In conjunction with the acquisition of North Fork Bancorporation (North Fork) in December 2006, Capital One assumed fifteen existing North Fork stock incentive plans. Options outstanding under these plans were converted to Capital One options outstanding and are included in the amounts reported in this row. As of December 31, 2014, one Hibernia plan had options outstanding and two North Fork plans had options outstanding. All remaining Hibernia and North Fork options will expire by December 2015. There are no shares available for future issuance under the Hibernia or North Fork plans.
- (3) Does not reflect restricted stock units and performance shares because they have no exercise price.

- (4) Excludes purchase rights accruing under the 2002 Associate Stock Purchase Plan and 1,382,229 issued and unvested outstanding shares of restricted stock under the 2004 Stock Incentive Plan. Includes 2,189,443 shares, representing the maximum number of shares issuable pursuant to outstanding performance share awards under the 2004 Stock Incentive Plan and 1,431,066 shares subject to outstanding restricted stock units under the 2004 Stock Incentive Plan. Excludes shares of restricted stock, to be settled in cash, under the 2004 Stock Incentive Plan. Also excludes dividend equivalents accrued with respect to performance shares which are paid in shares at the time the underlying performance shares are issued and only with respect to the number of performance shares that actually vest.
- (5) Includes 54,456 outstanding restricted stock units under the 1999 Directors Plan.
- (6) Represents 21,529,289 shares available for future issuance under the 2004 Stock Incentive Plan; and 8,257,747 shares available for future issuance under the 2002 Associate Stock Purchase Plan as shares purchased voluntarily by Capital One associates through regular payroll deductions and a company match.
- (7) There are no shares available for future issuance under the equity compensation plans not approved by security holders.

Description of Non-Security Holder Approved Equity Compensation Plans

Set forth below is a brief description of the material features of each Capital One equity compensation plan that was adopted without the approval of Capital One's security holders and that had grants outstanding or shares available for issuance as of December 31, 2014.

Table of Contents

1999 Directors Plan

The 1999 Directors Plan was adopted by the Board on April 29, 1999, and terminated on April 28, 2009. The plan authorized a maximum of 825,000 shares of Capital One's common stock for the grant of non-qualified stock options, restricted stock and restricted stock units to members of the Board who were not otherwise employed by Capital One or any subsidiary of Capital One at the time an award was granted. The number of shares available for issuance under the plan included shares granted under the plan subject to options that expired or otherwise terminated unexercised and shares forfeited pursuant to restrictions on restricted stock or deferred stock. The plan is administered by the Board.

The exercise price of stock options granted under the plan could not be less than the fair market value, as defined in the 1999 Directors Plan, of Capital One common stock on the date of grant. The maximum term of each stock option was ten years, and vesting schedules were determined at the time of grant. The Board could, in its discretion, grant options that by their terms became fully exercisable upon a change of control, as defined in the 1999 Directors Plan.

The Board could award restricted stock to eligible directors. During the restricted period, a director cannot dispose of any restricted shares and must forfeit any restricted shares granted to such director if he or she ceases to be a member of the Board. The Board had the authority to establish the terms and conditions upon which these restrictions will lapse. The Board could also, at any time, accelerate the time at which any or all restrictions would lapse or remove any and all such restrictions. Subject to any applicable restrictions, a participant who received an award of restricted stock would have all of the rights of a stockholder with respect to the shares subject to the award, including but not limited to the right to vote the shares and the right to receive all dividends and other distributions paid with respect to the shares.

The Board could award restricted stock units to eligible directors under the plan. The Board has the authority to establish, in its discretion, the length of the vesting period; any restrictions with respect to an award of restricted stock units and the terms and conditions upon which restrictions, if any, shall lapse.

The Board has retained the right to cancel any awards outstanding under the plan in exchange for a cash payment equal to any such award's value as of the date of cancellation.

Currently, no shares are available for issuance under this plan other than shares subject to outstanding equity awards under the plan.

In carrying out its responsibilities, the Audit Committee met a total of twelve times during 2014. Pursuant to Capital One's Corporate Governance Principles and applicable law, the Audit Committee is comprised solely of independent directors.

In discharging its oversight responsibility, the Audit Committee has reviewed and discussed Capital One's audited financial statements for the fiscal year ended December 31, 2014, and the assessment of the effectiveness of Capital One's internal control over financial reporting, with management and Ernst & Young LLP (Ernst & Young), Capital One's independent auditors. The Audit Committee has also discussed with Ernst & Young the matters required to be discussed under the rules adopted by the Public Company Accounting Oversight Board. In addition, the Audit Committee has received the written disclosures and the letter from Ernst & Young required by the applicable requirements of the Public Company Accounting Oversight Board regarding Ernst & Young's communications with the Audit Committee concerning independence and has discussed with Ernst & Young their independence from Capital One. Based on its review and discussions with management and Ernst & Young, and pursuant to a delegation of authority from the Board of Directors, the Audit Committee has approved the inclusion of the audited financial statements in Capital One's Annual Report on Form 10-K for the fiscal year ending December 31, 2014, for filing with the SEC.

The Audit Committee: Bradford H. Warner (Chair and Audit Committee Financial Expert)
 Benjamin P. Jenkins, III
 Peter E. Raskind (Audit Committee Financial Expert)
 Catherine G. West

The foregoing Report of the Audit Committee shall not be deemed to be soliciting material or filed with the SEC and is not incorporated by reference into any of Capital One's previous or future filings with the SEC, except as otherwise explicitly specified by Capital One in any such filing.

SECTION X ELECTION OF DIRECTORS (ITEM 1 ON PROXY CARD)

All of Capital One's directors are elected at each annual meeting of stockholders and hold such office until the next annual meeting of stockholders, and until their successors are duly elected and qualified. Each nominee has consented to serve a one-year term. Information about the proposed nominees for election as directors is set forth under

Information about our Directors and Executive Officers in the Corporate Governance at Capital One section beginning on page 16 of this proxy statement.

In the event a nominee ceases to be available for election, the Board of Directors may designate a substitute as a nominee or reduce the size of the Board. If the Board designates a substitute nominee, proxies will be voted for the election of such substitute. As of the date of this proxy statement, the Board of Directors has no reason to believe that any of the nominees will be unable or unwilling to serve as a director.

The nominees for election this year are:

Richard D. Fairbank	Pierre E. Leroy
Patrick W. Gross	Peter E. Raskind
Ann Fritz Hackett	Mayo A. Shattuck III
Lewis Hay, III	Bradford H. Warner
Benjamin P. Jenkins, III	Catherine G. West

The Board of Directors unanimously recommends that you vote **FOR** each of these director nominees.

Table of Contents**SECTION XI RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS****(ITEM 2 ON PROXY CARD)**

The Audit Committee, pursuant to authority granted to it by the Board of Directors, is directly responsible for the appointment, compensation, retention and oversight of Capital One's independent auditors. The Audit Committee evaluates the independent auditors' qualifications, performance and independence at least annually and periodically considers whether to continue to retain our current independent auditor or engage another firm. In connection with applicable partner rotation requirements, the Audit Committee and its Chair are involved in considering the selection of Ernst & Young's new lead engagement partner.

For 2015, the Audit Committee has appointed the firm of Ernst & Young as independent auditors. Ernst & Young has served as Capital One's independent auditors since 1994. The members of the Audit Committee and the Board believe that the continued retention of Ernst & Young as Capital One's independent auditors is in the best interests of Capital One and its stockholders.

The Board of Directors is submitting this proposal to the vote of the stockholders as a matter of good corporate governance. If stockholders do not ratify the selection of Ernst & Young, the Audit Committee will reconsider their appointment as our independent auditors.

The fees billed for professional services provided by Ernst & Young for fiscal years 2014 and 2013 are shown in the following table:

Fees (dollars in millions)	2014	2013
Audit Fees	\$10.14	\$10.22
Audit-Related Fees	\$1.22	\$1.49
Tax Fees	\$0.26	\$0.32
All Other Fees	\$0.00	\$0.00

Audit fees include fees for the audit of our annual financial statements, the review of financial statements included in our quarterly reports on Form 10-Q and services that normally would be provided by the auditor in connection with statutory and regulatory filings or engagements and that generally only the independent auditor can provide. In addition to fees for an audit or review in accordance with generally accepted auditing standards, this category contains fees for comfort letters, statutory audits, consents and assistance with and review of documents filed with the SEC. Audit-related fees are assurance and related services that are reasonably related to the performance of the audit or review of our financial statements and traditionally are performed by the independent auditor, such as: employee benefit plan audits; due diligence related to mergers and acquisitions; internal control reviews; attestation services that are not required by statute or regulation; and consultation concerning financial accounting and reporting standards. Tax fees include corporate and subsidiary compliance, consulting, international and employee benefit services. All other fees would include fees for services that are not defined as Audit, Audit-related or Tax and are not specifically prohibited by the SEC.

The Audit Committee is responsible for overseeing the amount of Audit fees paid to Ernst & Young. The Audit Committee has reviewed the fees paid to Ernst & Young and has considered whether the fees paid for non-Audit services are compatible with maintaining Ernst & Young's independence. The Audit Committee also adopted policies

and procedures to approve services provided by Ernst & Young in accordance with the Sarbanes-Oxley Act of 2002 and rules of the SEC promulgated thereunder. These policies and procedures involve annual pre-approval by the Audit Committee of the types of services to be provided by Capital One's independent auditor and fee limits for each type of service on both a per engagement and aggregate level. Additional service engagements that exceed these pre-approved limits must be submitted to the Audit Committee for further pre-approval. Under the policy adopted by the Audit Committee, Tax fees are limited to 25% of combined Audit and Audit-related fees, and services that would fall under the category "All Other Fees" are prohibited. Capital One's policy, for administrative ease, allows for a \$25,000 *de minimis* exception to the pre-approval procedures; however, any services provided pursuant to this exception must be approved at the next meeting of the Audit

Committee. Additionally, Capital One has established policies to provide for adherence to Sarbanes-Oxley Act requirements relating to the rotation of partners engaged in Capital One's audit by the independent auditors.

Representatives of Ernst & Young are expected to be present at the Annual Meeting. They will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

The Board of Directors unanimously recommends that you vote **FOR** the ratification of Ernst & Young LLP as Capital One's independent auditors for 2015.

**SECTION XII ADVISORY APPROVAL OF CAPITAL ONE S 2014 NAMED EXECUTIVE OFFICER
COMPENSATION**

(ITEM 3 ON PROXY CARD)

We are offering to our stockholders a non-binding advisory vote on our 2014 Named Executive Officer compensation, including the compensation of our Chief Executive Officer, pursuant to Section 14A of the Securities and Exchange Act of 1934. While the vote is non-binding, the Board of Directors values the opinions that stockholders express through their votes and in any additional dialogue. The Board of Directors will consider the outcome of the vote when making future compensation decisions.

As discussed in the Compensation Discussion and Analysis section beginning on page 31, our Board of Directors generally has provided compensation programs for the CEO and the NEOs that are competitive with the market, performance-based and transparent and that align with our stockholders' interests over multiple time horizons. Our CEO and NEO compensation programs generally have consisted primarily of performance-based incentive opportunities, including multiple types of equity instruments with multi-year vesting schedules. The ultimate value of the equity-based awards made to our CEO and the NEOs is subject to Capital One's sustained performance over time, both on an absolute basis and relative to our peers.

For 2014, approximately 78% of the CEO's total compensation is equity-based and at-risk to the performance of the Company's stock price, and 100% of his compensation is deferred for a three-year period. As discussed under NEO Compensation on page 34, under the 2014 NEO compensation program approximately 80% of total target compensation was provided through equity-based vehicles which were all at-risk based on the performance of the Company's stock price and subject to vesting over multiple time horizons.

Additional information relevant to your vote can be found in the Compensation Discussion and Analysis section of this proxy statement on pages 31 to 51 and in the Named Executive Officer Compensation section on pages 52 to 70.

We ask for your advisory vote on the following resolution:

Resolved, that Capital One's stockholders hereby provide their advisory approval of the 2014 Named Executive Officer compensation as disclosed pursuant to the rules of the SEC in the Compensation Discussion and Analysis, the Summary Compensation Table, the other compensation tables and the related notes and narratives in this proxy statement.

The Board of Directors unanimously recommends that you vote **FOR** advisory approval of our 2014 Named Executive Officer compensation as disclosed in this proxy statement.

The Board of Directors has resolved to hold annual advisory votes on executive compensation. Accordingly, the next advisory vote on executive compensation will occur at the 2016 Annual Meeting, unless the Board of Directors modifies its policy on the frequency of holding such advisory votes.

SECTION XIII APPROVAL OF AMENDMENT TO CAPITAL ONE S RESTATED CERTIFICATE OF INCORPORATION TO ALLOW STOCKHOLDERS TO REQUEST SPECIAL MEETINGS OF THE STOCKHOLDERS

(ITEM 4 ON PROXY CARD)

Overview

The Board of Directors recommends that Capital One s stockholders approve an amendment to Capital One s Restated Certificate of Incorporation (the Certificate) to allow one or more stockholders who own at least 25% of the Company s common stock and who satisfy certain procedures to require that the Company call a special meeting of the stockholders (the Proposed Certificate Amendment). Stockholders do not presently have the ability to require that the Company call a special meeting of the stockholders.

The Proposed Certificate Amendment

If the Proposed Certificate Amendment is approved by stockholders, the Certificate will provide that the Company is required to call a special meeting of the stockholders upon the written request of one or more stockholders who:

own shares representing 25% or more of the voting power of the then outstanding Voting Stock¹ entitled to vote on the matter or matters to be brought before the proposed special meeting,

continue to satisfy that level of stock ownership for such period as set forth in the Amended and Restated Bylaws (the Bylaws), as amended from time to time, and

provide the information regarding the stockholder(s) requesting the special meeting and the proposed special meeting, and satisfy such additional procedures, as provided for in the Bylaws from time to time.

As discussed further below, the Proposed Certificate Amendment utilizes a net long definition of stock ownership for purposes of determining whether stockholders requesting a special meeting satisfy the 25% ownership threshold. Under the net long definition, a person will be deemed to own only those shares of outstanding Voting Stock as to which the person possesses both (i) full voting and investment rights pertaining to the shares and (ii) the full economic interest in (including the opportunity for profit and risk of loss on) such shares, which terms may be further defined in the Bylaws from time to time.

The Board of Directors unanimously recommends that you vote **FOR** the Proposed Certificate Amendment.

Purpose and Effect of the Proposed Certificate Amendment

The Proposed Certificate Amendment is a result of the Board of Directors ongoing review of our corporate governance principles and consideration of the stockholder proposal discussed below. In developing the Proposed Certificate Amendment, the Board of Directors (including all members of the Governance and Nominating Committee) carefully considered the implications of amending our Certificate to allow stockholders to request that the Company call a special meeting.

The Board of Directors recognizes that providing stockholders the ability to require that the Company call special meetings is viewed by some stockholders as an important corporate governance practice. However, special meetings of the stockholders can cause the Company to incur substantial expenses and can be potentially disruptive to its business operations and to long-term stockholder interests. Accordingly, the Board of Directors believes that special meetings of the stockholders should be extraordinary events that should not be held in close proximity to an annual meeting or when the matters to be addressed have been recently considered or are planned to be considered at another meeting. The Board of Directors would continue to have the ability to call special meetings of the stockholders in other instances when, in the exercise of their fiduciary obligations, they determine appropriate.

In light of these considerations, the Board of Directors believes that it strikes an appropriate balance between enhancing stockholder rights and adequately protecting stockholder interests to provide that stockholders who

- ¹ References in this discussion to votes of the outstanding shares and to the Voting Stock mean the outstanding shares of capital stock of the Company entitled to vote generally in the election of directors. Currently, Capital One common stock is the only class or series of Voting Stock outstanding.

Table of Contents

satisfy a 25% net long ownership threshold and comply with certain additional procedures and limitations have the ability to request that the Company call a special meeting.

In determining to utilize a 25% ownership threshold, the Board of Directors noted that the 25% ownership standard is the most prevalent standard among its peer companies that allow stockholders to call special meetings, and that a number of the Company's institutional stockholders have in the past expressed support for a 25% ownership standard for stockholders to be able to request a special meeting of the stockholders. The Board of Directors determined to adopt a net long definition of ownership because it believes that only stockholders with full and continuing economic interest and voting rights in our Voting Stock should be entitled to request that the Company call a special meeting.

As a result, the Board of Directors has considered the matter, and upon recommendation of the Governance and Nominating Committee, adopted resolutions setting forth the Proposed Certificate Amendment, declared such amendment advisable and unanimously resolved to submit such amendment to our stockholders for consideration and to recommend that stockholders vote **FOR** the Proposed Certificate Amendment.

Related Changes to the Bylaws

The Proposed Certificate Amendment authorizes the Bylaws (1) to specify the information required to be provided in connection with a stockholder's request to call a special meeting, (2) to set forth continuing ownership requirements and additional procedures and conditions applicable to stockholders' ability to request that the Company call a special meeting, and (3) to define ownership for purposes of the net long ownership standard under the Proposed Certificate Amendment. Accordingly, the Board of Directors has amended Article II of our Bylaws, contingent upon stockholder approval and implementation of the Proposed Certificate Amendment, to address these provisions.

Information Provisions.

The Bylaw amendment requires any special meeting request to set forth the same information regarding the business to be conducted at the meeting and regarding any director candidate to be nominated at the meeting that is required to be provided by a stockholder who proposes to introduce such business or to make director nominations at an annual meeting of stockholders. Any stockholder or beneficial owner who is seeking to call the special meeting or who solicits other stockholders to support calling the special meeting also must provide the same information as to its ownership of the Company's stock and its interest in the matters proposed to be voted on at the special meeting that is required of a stockholder who proposes to introduce such business or to make director nominations at an annual meeting of stockholders. Each stockholder supporting the special meeting request must provide information as to the number of shares of the Company's stock that it owns.

Ownership Provisions.

The Bylaw amendment elaborates on the net long ownership definition included in the Proposed Certificate Amendment by providing that borrowed or hedged shares do not count toward the 25% ownership threshold. However, holding shares through a nominee and the practice of share lending will not be deemed to interrupt ownership of shares that otherwise are deemed to be owned under this standard. Stockholders requesting a special meeting must hold the requisite number of shares through the date of the special meeting and provide updated ownership information at the record date and shortly before the date of the special meeting of stockholders.

Additional Provisions.

The Bylaw amendment sets forth certain procedural requirements that the Board believes are appropriate to avoid duplicative or unnecessary special meetings. Under these provisions, a special meeting request is not valid if:

the proposed meeting relates to an item of business that is not a matter on which stockholders are authorized to act under, or that involves a violation of, applicable law;

the proposed meeting relates to an item of business that is the same or substantially similar to any item of business that was voted on at a meeting of stockholders occurring within 90 days preceding the earliest dated request for a special meeting; or

Table of Contents

an otherwise valid special meeting request is submitted within the 90 days preceding the anniversary of the prior year's annual meeting.

Under the Bylaw amendment, if stockholders who requested a special meeting revoke the request or cease to own 25% of the Voting Stock, the Company is not required to hold the special meeting of the stockholders.

The Stockholder Proposal

As described below in Section XIV, Capital One has been notified that a stockholder intends to present a proposal for consideration at the Annual Meeting (the Stockholder Proposal) that also addresses stockholders' ability to call special meetings of the stockholders. Although the Proposed Certificate Amendment and the Stockholder Proposal concern the same subject matter, the terms and effects of each proposal differ. Stockholders may vote on both the Proposed Certificate Amendment and the Stockholder Proposal, and approval of the Proposed Certificate Amendment is not conditioned on approval or disapproval of the Stockholder Proposal. Among the differences between the Proposed Certificate Amendment and the Stockholder Proposal are the following:

The Proposed Certificate Amendment is binding. If the Proposed Certificate Amendment is approved, our Certificate and Bylaws will be amended, thereby providing stockholders the ability to have the Company call a special meeting of the stockholders. In contrast, the Stockholder Proposal is not binding; approval of the Stockholder Proposal requests that the Board consider the matter but does not amend either the Certificate or the Bylaws.

For the reasons discussed above, the Board provided in the Proposed Certificate Amendment that one or more stockholders who hold in the aggregate at least 25% of the Company's Voting Stock can request that the Company call a special meeting of the stockholders. The Stockholder Proposal requests that holders in the aggregate of 20% of our outstanding common stock be given the power to call a special meeting of the stockholders, but does not specifically address why it believes that a 20% threshold is appropriate.

The Proposed Certificate Amendment sets forth procedures for stockholders to request a special meeting of the stockholders which, as explained above, the Board has determined are in the interests of our stockholders. The Stockholder Proposal does not address such terms.

Neither the Proposed Certificate Amendment nor the Stockholder Proposal affect the Board of Directors' existing authority to call special meetings of stockholders.

You should carefully read the descriptions of each proposal, and Capital One's statement in opposition to the Stockholder Proposal, in considering the Proposed Certificate Amendment and the Stockholder Proposal.

Additional Information

The general description of the Proposed Certificate Amendment set forth above is qualified in its entirety by reference to the text of the Proposed Certificate Amendment, which is attached as Appendix A to these proxy materials. In addition, the text of the Bylaw amendment, which can be amended from time to time, is attached as Appendix B to these proxy materials. Additions to the Certificate and the Bylaws are indicated by double underlining and deletions to the Certificate and the Bylaws are indicated by strike outs. Complete copies of the current Certificate and Bylaws are available on the Corporate Governance page of Capital One's Internet site at www.capitalone.com under About Us/Investors.

The Proposed Certificate Amendment is binding. If approved, the Proposed Certificate Amendment will become effective upon the filing of a Certificate of Amendment to Capital One's Certificate with the Secretary of State of the

State of Delaware. If the Proposed Certificate Amendment is not approved by the requisite vote, then the Proposed Certificate Amendment will not be filed with the Secretary of State of the State of Delaware, the Bylaw amendment will not become effective and our stockholders will not have the ability to request that the Company call a special meeting of stockholders. Approval of the Proposed Certificate Amendment is not conditioned on approval or disapproval of the Stockholder Proposal.

SECTION XIV STOCKHOLDER PROPOSAL REGARDING SPECIAL MEETINGS OF THE STOCKHOLDERS

(ITEM 5 ON PROXY CARD)

Capital One has been notified that John Chevedden, 2215 Nelson Avenue, No. 205, Redondo Beach, CA 90278, intends to present a proposal for consideration at the Annual Meeting (the Stockholder Proposal) that addresses stockholders ability to call special meetings of the stockholders. Mr. Chevedden has submitted documentation indicating that he is the beneficial owner of no fewer than 100 shares of Capital One common stock. The Stockholder Proposal will be voted on at the Annual Meeting only if properly presented by or on behalf of Mr. Chevedden.

In a different proposal that is described above in Section XIII, the Board of Directors is recommending that Capital One s stockholders approve an amendment to Capital One s Certificate to allow one or more stockholders owning at least 25% of the Company s Voting Stock to require that the Company call a special meeting of the stockholders, which we refer to as the Proposed Certificate Amendment. **Although the Proposed Certificate Amendment and the Stockholder Proposal concern the same subject matter, the terms and effects of each proposal differ.**

You should carefully read the descriptions of each proposal, and Capital One s statement in opposition to the Stockholder Proposal, in considering the Proposed Certificate Amendment and the Stockholder Proposal. Stockholders may vote on both the Proposed Certificate Amendment and the Stockholder Proposal, and approval of the Proposed Certificate Amendment is not conditioned on approval or disapproval of the Stockholder Proposal. **The Board of Directors is recommending a vote FOR the Proposed Certificate Amendment (Item 4) and AGAINST the Stockholder Proposal described below (Item 5).**

Mr. Chevedden has submitted the following resolution:

Special Shareowner Meetings

Resolved, Shareowners ask our board to take the steps necessary (unilaterally if possible) to amend our bylaws and each appropriate governing document to give holders in the aggregate of 20% of our outstanding common stock the power to call a special shareowner meeting. This proposal does not impact our board s current power to call a special meeting.

Special meetings allow shareowners to vote on important matters, such as electing new directors that can arise between annual meetings. Shareowner input on the timing of shareowner meetings is especially important when events unfold quickly and issues may become moot by the next annual meeting. This proposal topic won more than 70% support at Edwards Lifesciences and SunEdison in 2013. Vanguard sent letters to 350 of its portfolio companies asking them to consider providing the right for shareholders to call a special meeting.

A shareholder right to call a special meeting and to act by written consent are 2 complimentary ways to bring an important matter to the attention of management and shareholders outside the annual meeting cycle. This is important because there could be 15 months between annual meetings. A shareholder right to call a special meeting is one method to equalize the absence of a shareholder right to act by written consent at Capital One.

An added incentive to vote for this proposal is our clearly improvable corporate governance and performance as summarized in 2014:

GMI Ratings, an independent investment research firm, said Richard Fairbank received \$26 million in 2013 Total Realized Pay. GM said Capital One had not disclosed specific, quantifiable performance target objectives for Mr. Fairbank. Capital One paid long-term incentives to executives without requiring the company to perform above the median of its peer group. GMI rated Capital One D for accounting. GMI said multiple related party transactions and other potential conflicts of interest involving our company's board or senior managers should be reviewed in greater depth, as such practices raise concerns regarding potential self-dealing or abuse.

Table of Contents

Director Patrick Gross received our highest negative votes again. Mr. Gross had 19-years long tenure which can result in low independence and served on 5 public boards which can be a sign of over-extension. Nonetheless Mr. Gross was on our executive pay and nomination committees. In August 2014, Capital One said it received subpoenas from the New York District Attorney's Office as part of a money-laundering probe.

Returning to the core topic of this proposal from the context of our clearly improvable corporate governance, please vote to protect shareholder value:

Special Shareowner Meetings Proposal 5

Statement in Opposition to the Stockholder Proposal

The Board of Directors recommends that stockholders vote **AGAINST** the Stockholder Proposal in light of the Proposed Certificate Amendment set forth in Section XIII. The Board of Directors recognizes that providing stockholders the ability to request that the Company call special meetings is viewed by some stockholders as an important corporate governance practice. However, special meetings of the stockholders can cause the Company to incur substantial expenses and can be potentially disruptive to the Company's business operations and to long-term stockholder interests. Accordingly, the Board of Directors believes that special meetings of the stockholders should be extraordinary events. In addition, the Board of Directors believes that a small minority of stockholders should not be entitled to utilize the mechanism of special meetings for their own interests, which may not be shared more broadly by stockholders of the Company. Likewise, the Board of Directors believes that only stockholders with full and continuing economic interest in our Voting Stock and full voting rights should be entitled to request that the Company call a special meeting.

Capital One is dedicated to strong and effective corporate governance principles that promote the long-term interests of our stockholders, allow for responsible decision-making and accountability, and foster a culture that reflects the Company's high standards of independence, transparency and stockholder rights. In recommending votes against the Stockholder Proposal, the Board believes that it is important to consider not only the Proposed Certificate Amendment but also the Company's current governance practices, including that:

- A majority voting standard applies for the election of directors in uncontested elections;
- All directors stand for election annually;
- The Board of Directors has empowered and elected a strong and active Lead Independent Director; and
- Key governance committees of the Board of Directors are chaired by and comprised solely of independent directors.

In addition, in 2014, our stockholders approved amendments to Capital One's Certificate that had been recommended by the Board of Directors to adopt a majority voting standard in place of the supermajority voting standards applicable to certain stockholder actions. These practices reflect the Board of Directors' commitment to carefully considered corporate governance standards that operate for the benefit of all stockholders.

In the Proposed Certificate Amendment, the Board of Directors is recommending that Capital One's stockholders approve an amendment to Capital One's Certificate to allow one or more stockholders owning at least 25% of the Company's Voting Stock to require that the Company call a special meeting of the stockholders. In determining to utilize a 25% ownership threshold in the Proposed Certificate Amendment, the Board noted that the 25% ownership standard is the most prevalent standard among its peer companies, and that a number of the Company's institutional stockholders have in the past expressed support for a 25% ownership standard for stockholders to be able to request a

special meeting of the stockholders. In light of these considerations, the Board of Directors believes that it strikes an appropriate balance between enhancing stockholder rights and adequately protecting stockholder interests to provide that stockholders who satisfy a 25% net long ownership standard and comply with certain additional procedures and limitations have the ability to request that the Company call a special meeting.

The Board of Directors unanimously recommends that you vote AGAINST the Stockholder Proposal Regarding Special Meetings of the Stockholders
