I. Operating Results and Financial Conditions

2015 Third Quarter in Review

Looking back at the global economy in the third quarter of 2015, the U.S. economy continued recovering smoothly as employment conditions steadily improved. As for Europe, Western European countries led a steady economic recovery. In contrast, China s economic slowdown grew more prominent while Southeast Asian countries also faced slowdowns owing to the further depreciation of local currencies. As for the Japanese economy, improvements were seen in corporate earnings and employment conditions also continued to recover. As a result, the global economy overall continued to realize moderate growth despite some weakness in China and Southeast Asia.

As for the markets in which Canon operates amid these conditions, sales of office multifunction devices (MFDs) and laser printers increased gradually thanks to strong demand for color models in developed countries, although demand for monochrome models declined due to the economic slowdown in China and Southeast Asia. As for cameras, demand for both interchangeable-lens digital cameras and digital compact cameras continued to decline compared with last year. Additionally, demand for inkjet printers also decreased slightly from the previous year due to sluggish market conditions in China and Southeast Asia, although demand for semiconductor lithography equipment increased, fueled by continued customer investment.

During the third quarter, despite a gradual recovery in sales of interchangeable-lens digital cameras in Japan and Europe, severe conditions continued in other regions while sales volume for digital compact cameras decreased compared with the same period of the previous year. As for office MFDs and laser printers, although sales of color machines were strong, sales of monochrome models were sluggish. Looking at semiconductor lithography equipment and flat panel display (FPD) lithography equipment, unit sales for the quarter exceeded those for the same period of the previous year, supported by favorable market conditions. Consequently, benefitting from the boost provided by the acquisition of Axis and the positive effect of favorable currency exchange rates, third quarter net sales increased 6.1% year on year to \(\frac{\pma}{2}\)925.8 billion. Net sales for the nine months ended September 30, 2015 totaled \(\frac{\pma}{2}\),757.6 billion, a year-on-year increase of 3.4%. The gross profit ratio for the third quarter rose 1.2 points year on year to 50.7% thanks to ongoing cost-cutting activities and highly profitable new products, and the gross profit ratio for the first nine months also increased by 0.7 points to 51.2%, remaining at a high level. Operating expenses increased 9.0% year on year to ¥392.0 billion owing to such factors as the increase in foreign-currency-denominated operating expenses after conversion into yen due to the depreciation of the yen, along with the impact of the acquisition of Axis and an increase in R&D expenses related to new products. As a result, third-quarter operating profit increased by 7.6% to ¥77.3 billion. Other income (deductions) decreased by ¥11.6 billion due to foreign currency exchange losses, leading to a year-on-year decline in income before income taxes of 7.7% to \(\frac{1}{2}\)74.0 billion, and a decrease in net income attributable to Canon Inc. of 15.6% to ¥49.2 billion. Operating profit for the first nine months of the year decreased by 6.4% to \(\frac{4}{2}48.2\) billion while income before income tax decreased by 13.7% to \(\frac{4}{2}38.5\) billion, and net income attributable to Canon Inc. for the first nine months decreased by 19.0% to ¥151.3 billion.

Basic net income attributable to Canon Inc. shareholders per share for the third quarter was \(\frac{\pmathbf{4}}{4}\)5.03, a decrease of \(\frac{\pmathbf{7}}{7}\).64 compared with the corresponding quarter of the previous year, and \(\frac{\pmathbf{1}}{1}\)38.56 for the first nine months of 2015, a year-on-year decrease of \(\frac{\pmathbf{2}}{2}\)8.54.

Results by Segment

Looking at Canon's third-quarter performance by business unit, within the Office Business Unit, as for office MFDs, despite strong sales around the world of new small-office/home-office color A3 (12 x18) imageRUNNER ADVANCE C3300-series models, which feature high image quality, user-friendliness and robust productivity, and the color A4 (letter and legal-sized) imageRUNNER ADVANCE C350/C250 lineup, total sales volume decreased, mainly due to weak sales of monochrome models in the Asian market. Among high-speed continuous-feed printers and wide-format printers, the new Océ-produced VarioPrint i300, Canon's first high-speed sheet-fed color inkjet press, gained favorable reviews. As for laser printers, although total sales volume declined due to weak sales of monochrome models, sales of color machines increased compared with the same period of last year while sales of consumables enjoyed solid growth supported by demand in developed countries. As a result, coupled with the positive effect of favorable currency exchange rates, sales for the business unit totaled ¥510.7 billion, a year-on-year increase of 5.9%, while operating profit totaled ¥67.2 billion, a year-on-year increase of 16.2%. Sales for the combined first nine months of the year totaled ¥1,576.8 billion, growing 4.2% year on year, while operating profit totaled ¥218.3 billion, dipping 0.1% year on year.

Within the Imaging System Business Unit, although total sales volume of interchangeable-lens digital cameras declined due to market shrinkage, sales of interchangeable-lens digital cameras increased from the same period of the previous year in Japan and Europe owing to healthy demand for such new models as the EOS 5DS, EOS 5DS R, EOS Rebel T6i/EOS 750D, EOS Rebel T6s/EOS 760D and EOS M3. As for digital compact cameras, while sales volume declined amid the ongoing contraction of the market due to the effects of the growing popularity of smartphones, profitability improved thanks to the growing ratio of high-added-value models featuring high image quality and high-magnification zoom capabilities, such as the new PowerShot SX710 HS and PowerShot G3 X. As for inkjet printers, although printer unit sales volume declined from the same period of the previous year owing to the sluggish market in Southeast Asia, sales increased slightly thanks to strong sales of consumables. As a result, sales for the business unit decreased by 4.2% to \(\frac{4}{3}02.5\) billion, while operating profit totaled \(\frac{4}{4}1.7\) billion, a decline of 3.8%. Sales for the combined first nine months of the year totaled \(\frac{4}{8}97.7\) billion, a year-on-year decrease of 4.6%, while operating profit totaled \(\frac{4}{1}1.3\) billion, declining 11.0% year on year.

In the Industry and Others Business Unit, within the semiconductor lithography equipment segment, ongoing strong investment by manufacturers led to healthy sales of lithography systems for memory devices, image sensors and power semiconductor devices. The FPD lithography equipment market also enjoyed strong demand. As a result, unit sales of semiconductor lithography equipment and FPD lithography equipment for the quarter significantly exceeded those for the same period of the previous year. Consequently, along with the impact of the acquisition of Axis, which was consolidated in the second quarter, sales for the business unit increased 43.1% year on year to ¥138.8 billion while operating profit increased by ¥5.6 billion to ¥0.6 billion. Sales for the combined first nine months of the year totaled ¥358.4 billion, a year-on-year increase of 27.1%, while the operating loss totaled ¥10.3 billion owing to upfront investment into next-generation technologies.

Cash Flow

During the first nine months of 2015, cash flow from operating activities totaled \(\frac{4}{3}30.8\) billion, declining \(\frac{4}{6}7.7\) billion compared with the same period of the previous year due to the decrease in profit along with an increase in inventory. Cash flow from investing activities increased \(\frac{4}{1}33.1\) billion year on year to \(\frac{4}{3}364.5\) billion, mainly due to the payment for the acquisition of Axis. Accordingly, free cash flow totaled negative \(\frac{4}{3}3.7\) billion, a decrease of \(\frac{4}{2}200.8\) billion compared with the corresponding year-ago period.

Cash flow from financing activities recorded an outlay of ¥210.0 billion, mainly arising from the dividend payout.

Owing to these factors, as well as the negative impact of foreign currency translation adjustments, cash and cash equivalents decreased by \$263.3 billion to \$581.2 billion from the end of the previous year.

Outlook

As for the outlook in the fourth quarter, the pace of recovery in the U.S. is expected to grow stronger as employment conditions improve, while projections for the European economy point to a gradual recovery, mainly in such Western European countries as the U.K. and Germany, despite the uncertainty surrounding Russia and other developing countries in the region. With regard to the Japanese economy, the outlook indicates a gradual recovery trend, although one lacking in strength. Conversely, within the Asian economy, beginning with China, the slowdown has been growing more pronounced with a quick recovery becoming increasingly unlikely. Overall, however, the global economy is expected to move toward a modest recovery led by the U.S. and Europe.

In the businesses in which Canon is involved, although demand for office MFDs and laser printers is expected to continue to grow in developed countries, sales in China and Southeast Asia will likely face prolonged stagnation. As for interchangeable-lens digital cameras, despite the strong recovery in Japan, the U.S. and Western Europe, the market is expected to shrink due to the deterioration of the economies in the Asian region and other factors. While the digital compact camera market is also expected to shrink, demand for high-added-value models featuring high image quality and high-magnification zoom capabilities is expected to grow steadily. Looking at inkjet printers, sales are forecast to decline slightly year on year due to weak market conditions in Asian countries. Within the industrial equipment market, the outlook calls for an increase in demand for semiconductor lithography equipment compared with the previous year as manufacturers are expected to boost capital outlays, as well as increased demand for FPD lithography equipment as device manufacturers boost capital investment for larger-size LCD panels offering higher levels of resolution.

With regard to currency exchange rates for the fourth quarter, on which the Company s performance outlook is based, Canon anticipates exchange rates of ¥120 to the U.S. dollar and ¥135 to the euro, representing a depreciation of approximately ¥15 against the U.S. dollar and an appreciation of approximately ¥6 against the euro compared with the annual average rates of the previous year.

Upon taking into consideration the sudden economic slowdown in China and elsewhere across Asia as well as other developing countries, along with the negative impact on sales and gross profit due to a revised foreign exchange rate assumption, Canon projects full-year consolidated net sales in 2015 of \(\frac{\frac{1}{3}}{3},820.0\) billion, a year-on-year increase of 2.5%; operating profit of \(\frac{1}{3}65.0\) billion, a year-on-year increase of 0.4%; income before income taxes of \(\frac{1}{3}55.0\) billion, a year-on-year decrease of 7.4%; and net income attributable to Canon Inc. of \(\frac{1}{2}25.0\) billion, a year-on-year decrease of 11.7%.

This document contains forward-looking statements with respect to future results, performance and achievements that are subject to risk and uncertainties and reflect management s views and assumptions formed by available information. All statements other than statements of historical fact are statements that could be considered forward-looking statements. When used in this document, words such as anticipate, believe, estimate, expect, intend, may, plan, project or should and similar expressions, as they relate to Canon, are intended to identify forward-looking statements. Many factors could cause the actual results, performance or achievements of Canon to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, changes in general economic and business conditions, changes in currency exchange rates and interest rates, introduction of competing products by other companies, lack of acceptance of new products or services by Canon s targeted customers, inability to meet efficiency and cost reduction objectives, changes in business strategy and various other factors, both referenced and not referenced in this document. A detailed description of these and other risk factors is included in Canon s annual report on Form

20-F, which is on file with the United States Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein. Canon does not intend or assume any obligation to update these forward-looking statements.

13. OVERSEAS PRODUCTION RATIO*

2015 2014 YTD Year

Overseas

production ratio 48% 45%

*From the 2nd quarter of 2015, the method used to calculate the overseas production ratio has changed. The distinctions between domestic and overseas of parts supplied overseas from Japan as well as other adjustments have been made to more accurately reflect the underlying reality. Past figures have been adjusted to conform to the new method of calculation.

14. NUMBER OF EMPLOYEES
