Non-income producing security for the period ended May 31, 2007.

Non-income producing security. Security is currently in default.

Variable rate security. The rate shown is the rate as of May 31, 2007.

¶Step coupon bond. Indicates security that has a zero coupon that remains in effect until a predetermined date at which time the stated interest rate becomes effective.

«Step coupon bond. Coupon increases/decreases periodically based on a predetermined schedule. Stated rate in effect at May 31, 2007.

^Zero coupon security. The rate shown is the yield at the time of purchase.

=Security is being fair valued in accordance with the Fund's fair valuation policy. At May 31, 2007, the aggregate amount of fair valued securities equaled \$130,263, which represented 0.08% of the Fund's net assets. See Note 1 in Notes to Financial Statements.

«Senior Secured Loans generally pay interest at rates which are periodically redetermined by reference to a base lending rate plus a premium. These base lending rates are generally (i) the prime rate offered by one or more United States banks, (ii) the lending rate offered by one or more European banks such as the London Inter-Bank Offered Rate (LIBOR) and (iii) the certificate of deposit rate. Senior Secured Loans may be subject to restrictions on resale.

[]Restricted Security. Investment in a security not registered under the Securities Act of 1933, as amended. This security has certain restrictions on resale which may limit its liquidity. At May 31, 2007, the aggregate amount of the restricted security equaled \$0 or 0.00% of the Fund's net assets. See Note 9 in Notes to Financial Statements.

@Illiquid security. At May 31, 2007, the aggregate amount of illiquid securities equaled \$0, which represented 0.00% of the Fund's net assets. See Note 9 in Notes to Financial Statements.

#Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended. At May 31, 2007, the aggregate amount of Rule 144A securities equaled \$21,822,690, which represented 13.37% of the Fund's net assets. See Note 9 in Notes to Financial Statements.

*Fully or partially on loan.

Asset coverage per \$1,000 of debt outstanding at end of period	\$4,741	\$4,577	\$4,073	\$4,044	\$3,743

1 Ratios and portfolio turnover have been annualized and total return has not been annualized.

2 The average shares outstanding method has been applied for per share information.

3 Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purpose of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

4 Adjusted average net assets excludes debt outstanding.

See accompanying notes

15

Notes to financial statements

Delaware Investments Dividend and Income Fund, Inc.

May 31, 2007 (Unaudited)

Delaware Investments Dividend and Income Fund, Inc. (the "Fund") is organized as a Maryland corporation and is a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's shares trade on the New York Stock Exchange under the symbol DDF.

The investment objective of the Fund is to seek high current income. Capital appreciation is a secondary objective.

1. Significant Accounting Policies

The following accounting policies are in accordance with U.S. generally accepted accounting principles and are consistently followed by the Fund.

Security Valuation Equity securities, except those traded on the Nasdaq Stock Market, Inc. (Nasdaq), are valued at the last quoted sales price as of the time of the regular close of the New York Stock Exchange (NYSE) on the valuation date. Securities traded on the Nasdaq are valued in accordance with the Nasdaq Official Closing Price, which may not be the last sales price. If on a particular day an equity security does not trade, then the mean between the bid and the asked prices will be used. U.S. Government and agency securities are valued at the mean between the bid and asked prices. Long-term debt securities are valued by an independent pricing service and such prices are believed to reflect the fair value of such securities. Short-term debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Securities lending collateral is valued at amortized cost, which approximates value. Other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of the Fund's Board of Directors. In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures, or with respect to foreign securities, aftermarket trading or significant events after local market trading (e.g., government actions or pronouncements, trading volume or volatility on markets, exchanges among dealers, or news events).

In September 2006, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 157 "Fair Value Measurements" (Statement 157). Statement 157 establishes a framework for measuring fair value in generally accepted accounting principles, clarifies the definition of fair value within that framework, and expands disclosures about the use of fair

27

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

value measurements. Statement 157 is intended to increase consistency and comparability among fair value estimates used in financial reporting. Statement 157 is effective for fiscal years beginning after November 15, 2007. Management does not expect the adoption of Statement 157 to have an impact on the amounts reported in the financial statements.

Federal Income Taxes □ The Fund intends to continue to qualify for federal income tax purposes as a regulated investment company and make the requisite distributions to shareholders. Accordingly, no provision for federal income taxes has been made in the financial statements.

On July 13, 2006, the FASB released FASB Interpretation No. 48 □Accounting for Uncertainty in Income Taxes□ (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are □more-likely-than-not□ of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. Recent SEC guidance allows implementing FIN 48 in fund net asset value calculations as late as the fund's last net asset value calculation in the first required financial statement reporting period. As a result, the Fund will incorporate FIN 48 in its semiannual report on May 31, 2008. Although the Fund's tax positions are currently being evaluated, management does not expect the adoption of FIN 48 to have a material impact on the Fund's financial statements.

Distributions □ The Fund has a managed distribution policy. Under the policy, the Fund declares and pays monthly distributions and is managed with a goal of generating as much of the distribution as possible from ordinary income (net investment income and short-term capital gains). The balance of the distribution then comes from long-term capital gains to the extent permitted and, if necessary, a return of capital. The current annualized rate is \$0.96 per share. The Fund continues to evaluate its monthly distribution in light of ongoing economic and market conditions and may change the amount of the monthly distributions in the future.

Borrowings □ The Fund issues short-term commercial paper at a discount from par. The discount is amortized as interest expense over the life of the commercial paper using the straight-line method (See Note 7).

Repurchase Agreements □ The Fund may invest in a pooled cash account along with members of the Delaware Investments® Family of Funds pursuant to an exemptive order issued by the Securities and Exchange Commission. The aggregate daily balance of the pooled cash account is invested in repurchase agreements secured by obligations of the U.S. government. The respective collateral is held by the Fund's custodian bank until the maturity of the respective repurchase agreements. Each repurchase agreement is at least 102% collateralized. However, in the event of default or bankruptcy by the counterparty to the agreement, realization of the collateral may be subject to legal proceedings.

Use of Estimates □ The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

16

1. Significant Accounting Policies (continued)

Other □ Expenses directly attributable to the Fund are charged directly to the Fund. Other expenses common to various funds within the Delaware Investments® Family of Funds are generally allocated amongst such funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Discounts and premiums on non-convertible debt securities are amortized to interest income over the lives of the respective securities. Distributions received from investments in Real Estate Investment Trusts (REITs) are recorded as dividend income on the ex-dividend date, subject to reclassification upon notice of the character of such distributions by the issuer.

Subject to seeking best execution, the Fund may direct certain security trades to brokers who have agreed to rebate a portion of the related brokerage commission to the Fund in cash. There were no commission rebates during the six months ended May 31, 2007. In general, best execution refers to many factors, including the price paid or received for a security, the commission charged, the promptness and reliability of execution, the confidentiality and placement accorded the order, and other factors affecting the overall benefit obtained by the Fund on the transaction. DMC, as defined below, and its affiliates have previously and may in the future act as an investment advisor to mutual funds or separate accounts affiliated with the administrator of the commission recapture program described above. In addition, affiliates of the administrator act as consultants in helping institutional clients choose investment advisors and may also participate in other types of businesses and provide other services in the investment management industry.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

The Fund may receive earnings credits from its custodian when positive cash balances are maintained, which are used to offset custody fees. The expense paid under this arrangement is included in custodian fees on the Statement of Operations with the corresponding expense offset shown as □Expense paid indirectly.□

2. Investment Management, Administration Agreements and Other Transactions with Affiliates

In accordance with the terms of its investment management agreement, the Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.55%, which is calculated daily based on the adjusted average weekly net assets.

Delaware Service Company, Inc. (DSC), an affiliate of DMC, provides accounting and administration services. The Fund pays DSC a monthly fee computed at the annual rate of 0.04% of the Fund's adjusted average weekly net assets for accounting and administration services.

For purposes of the calculation of investment management fees and administration fees, adjusted average weekly net assets does not include the commercial paper liability.

At May 31, 2007, the Fund had liabilities payable to affiliates as follows:

Investment management fee payable to DMC	\$94,402
Accounting and administration fees and other expenses payable to DSC	34,517
Other expenses payable to DMC and affiliates*	8,160

*DMC, as part of its administrative services, pays operating expenses on behalf of the Fund and is reimbursed on a periodic basis. Such expenses include items such as printing of shareholder reports, fees for audit, legal and tax services, stock exchange fees, custodian fees and directors' fees.

As provided in the investment management agreement, the Fund bears the cost of certain legal and tax services, including internal legal and tax services provided to the Fund by DMC and/or its affiliates' employees. For the six months ended May 31, 2007, the Fund was charged \$3,732 for internal legal and tax services provided by DMC and/or its affiliates' employees.

Certain officers of DMC, DSC and DDLP are officers and/or directors of the Fund. These officers and directors are paid no compensation by the Fund.

During the six months ended May 31, 2007, Thomas H. Chow was appointed co-portfolio manager of the Fund. Mr. Chow assumed responsibility for managing the high yield fixed income holdings of the Fund. Mr. Chow works with Babak Zenouzi, Damon J. Andres, D. Tysen Nutt, Jr., Jordan L. Irving, Anthony A. Lombardi, Robert A. Vogel, Jr., Nikhil G. Lalvani, and Nashira S. Wynn in making day-to-day decisions for the Fund.

3. Investments

For the six months ended May 31, 2007, the Fund made purchases of \$51,329,343 and sales of \$51,911,581 of investment securities other than short-term investments.

At May 31, 2007, the cost of investments for federal income tax purposes has been estimated since the final tax characteristics cannot be determined until fiscal year end. At May 31, 2007, the cost of investments was \$199,200,804. At May 31, 2007, the net unrealized appreciation was \$34,094,389 of which \$35,383,678 related to unrealized appreciation of investments and \$1,289,289 related to unrealized depreciation of investments.

Notes to financial statements

Delaware Investments Dividend and Income Fund, Inc.

4. Dividend and Distribution Information

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. Additionally, net short-term gains on sales of investment securities are treated as ordinary income for federal income tax purposes. The tax character of dividends and distributions paid during the six months ended May 31, 2007 and the year ended November 30, 2006 was as follows:

	Six Months Ended 5/31/07*	Year Ended 11/30/06
Ordinary income	\$4,049,255	\$ 6,915,192
Long-term capital gains	3,965,469	5,252,912
Total	\$8,014,724	\$ 12,168,104

*Tax information for the six months ended May 31, 2007 is an estimate and the tax character of dividends and distributions may be redesignated at fiscal year end.

5. Components of Net Assets on a Tax Basis

The components of net assets are estimated since final tax characteristics cannot be determined until fiscal year end. As of May 31, 2007, the estimated components of net assets on a tax basis were as follows:

Shares of beneficial interest	\$127,105,252
Undistributed long-term capital gains	2,018,629
Unrealized appreciation of investments	34,094,389
Net assets	\$163,218,270

The differences between book basis and tax basis components of net assets are primarily attributable to tax deferral of losses on wash sales, treatment of contingent payment debt instruments and tax treatment of market discount and premium on debt instruments.

For financial reporting purposes, capital accounts are adjusted to reflect the tax character of permanent book/tax differences. Reclassifications are primarily due to tax treatment of market discounts and premiums on certain debt instruments and tax treatment of contingent payment debt instruments. Results of operations and net assets were not affected by these reclassifications. For the six months ended May 31, 2007, the Fund recorded an estimate of these differences since the final tax characteristics cannot be determined until fiscal year end.

Undistributed net investment income	\$ 2,755,838
Accumulated realized loss	(2,559,845)
Paid-in capital	(195,993)

6. Capital Stock

Shares obtained under the Fund's dividend reinvestment plan are purchased by the Fund's transfer agent, Mellon Investor Services, LLC, in the open market. There were no shares issued under the Fund's dividend reinvestment plan for the six months ended May 31, 2007 and year ended November 30, 2006.

On May 21, 2007, the Fund's Board of Directors approved a tender offer for shares of the Fund's common stock. The tender offer authorized the Fund to purchase up to 5% of its issued and outstanding shares at a price equal to the Fund's net asset value at the close of business on the New York Stock Exchange on July 2, 2007, the first business day following the expiration of the offer. The tender offer commenced on June 1, 2007 and expired on June 29, 2007. In connection with the tender offer, the Fund purchased 550,462 shares of capital stock at a total cost of \$7,943,167. The tender was oversubscribed, and all tenders of the shares were subject to pro-ration (at a ratio of approximately 0.529105872) in accordance with the terms of the tender offer.

On May 18, 2006, the Fund's Board of Directors approved a tender offer for shares of the Fund's common stock. The tender offer authorized the Fund to purchase up to 5% of its issued and outstanding shares at a price equal to the Fund's net asset value at the close of business on the New York Stock Exchange on July 3, 2006, the first business day following the expiration of the offer. The tender offer commenced on June 2, 2006 and expired on June 30, 2006. In connection with the tender offer, the Fund purchased 579,434 shares of capital stock at a total cost of \$7,463,110. The tender was oversubscribed, and all tenders of the shares were subject to pro-ration (at a ratio of approximately 0.775731221) in accordance with the terms of the tender offer.

The Fund did not purchase any shares under the Share Repurchase Program during the period ended May 31, 2007 and the year ended November 30, 2006.

7. Commercial Paper

As of May 31, 2007, \$44,000,000 (par value) of commercial paper was outstanding with an amortized cost of \$43,631,603. The weighted average discount rate of commercial paper outstanding at May 31, 2007 was 5.30%. The average daily balance of commercial paper outstanding during the six months ended May 31, 2007 was \$43,704,644 at a weighted discount rate of 5.28%. The maximum amount of commercial paper outstanding at any time during the year was \$44,000,000. In conjunction with the issuance of the commercial paper, the Fund entered into a line of credit arrangement with J.P. Morgan Chase for \$30,000,000. Interest on borrowings is based on market rates in effect at the time of borrowing. The commitment fee is computed at the rate of 0.10% per annum on the unused balance. For the six months ended May 31, 2007, the Fund was charged fees of \$70,744 which is included in [commercial paper fees] on the Statement of Operations. During the six months ended May 31, 2007, there were no borrowings under this arrangement.

8. Securities Lending

The Fund, along with other funds in the Delaware Investments® Family of Funds, may lend its securities pursuant to a security lending agreement (Lending Agreement) with J.P. Morgan Chase. Initial security loans made pursuant to the Lending Agreement are required to be secured by U.S. government obligations and/or cash collateral not less than 102% of the value of the securities issued in the United States. With respect to each loan, if the aggregate value of the collateral held on any business day is less than the aggregate value of the securities which are the subject of such loan, the borrower will be notified to provide additional collateral not less than the applicable collateral requirements. Cash collateral received is invested in fixed income securities, with a weighted average maturity not to exceed 90 days, rated in one of the top two tiers by Standard & Poor's Ratings Group or Moody's Investors Service, Inc. or repurchase agreements collateralized by such securities. However, in the event of default or bankruptcy by the lending agent, realization and/or retention of the collateral may be subject to legal proceedings. In the event the borrower fails to return loaned securities

18

8. Securities Lending (continued)

and the collateral received is insufficient to cover the value of the loaned securities and provided such collateral shortfall is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund, or at the discretion of the lending agent, replace the loaned securities. The Fund continues to record dividends on the securities loaned and is subject to change in value of the securities loaned that may occur during the term of the loan. The Fund has the right under the Lending Agreement to recover the securities from the borrower on demand. The security lending agent and the borrower retain a portion of the earnings from the collateral investments. The Fund records security lending income net of such allocation.

At May 31, 2007, the value of the securities on loan was \$27,427,088, for which cash collateral was received and invested in accordance with the Lending Agreement. Such investments are presented on the Statement of Net Assets under the caption [Securities Lending Collateral.]

9. Credit and Market Risk

The Fund invests in high-yield fixed income securities, which carry ratings of BB or lower by Standard & Poor's Ratings Group and/or Ba or lower by Moody's Investors Service, Inc. Investments in these higher yielding securities, are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Fund may invest up to 10% of its total assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair the Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, the Fund's Board of Directors has delegated to DMC the day-to-day functions of determining whether individual securities are liquid for purposes of the Fund's limitation on investments in illiquid assets. Rule 144A and illiquid securities have been identified on the Statement of Net Assets.

The Fund invests in REITs and is subject to some of the risks associated with that industry. If the Fund holds real estate directly as a result of defaults or receives rental income directly from real estate holdings, its tax status as a regulated investment company may be jeopardized. There were no direct holdings during the six months ended May 31, 2007. The Fund's REIT holdings are also affected by interest rate changes, particularly if the REITs it holds use floating rate debt to finance their ongoing operations.

10. Contractual Obligations

The Fund enters into contracts in the normal course of business that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

Delaware Investments® Dividend and Income Fund, Inc.

Board Consideration of Delaware Investments Dividend and Income Fund, Inc. Investment

Advisory Agreement

At a meeting held on May 16-17, 2007 (the "Annual Meeting"), the Board of Directors, including a majority of disinterested or independent Directors, approved the renewal of the Investment Advisory Agreement for the Delaware Investments Dividend and Income Fund, Inc. (the "Fund"). In making its decision, the Board considered information furnished throughout the year at regular Board meetings, including reports detailing Fund performance, investment strategies and expenses, as well as information prepared specifically in connection with the renewal of the investment advisory contract. Information furnished specifically in connection with the renewal of the Investment Advisory Agreement with Delaware Management Company ("DMC") included materials provided by DMC and its affiliates ("Delaware Investments") concerning, among other things, the level of services provided to the Fund, the costs of such services to the Fund, economies of scale and the financial condition and profitability of Delaware Investments. In addition, in connection with the Meeting, the Board separately received and reviewed in mid-January 2007 independent historical and comparative reports prepared by Lipper Inc. ("Lipper"), an independent statistical compilation organization. The Lipper reports compared the Fund's investment performance and expenses with those of other comparable mutual funds. The Board requested and received certain information regarding management's policy with respect to advisory fee levels and its philosophy with respect to breakpoints; the structure of portfolio manager compensation; the investment manager's profitability; and any constraints or limitations on the availability of securities in certain investment styles which might inhibit DMC's ability to fully invest in accordance with Fund policies.

In considering information relating to the approval of the Fund's advisory agreement, the independent Directors received assistance and advice from and met separately with independent counsel. While attention was given to all information furnished, the following discusses under separate headings the primary factors taken into account by the Board in its contract renewal considerations.

NATURE, EXTENT AND QUALITY OF SERVICE. Consideration was given to the services provided by Delaware Investments to the Fund and its shareholders. In reviewing the nature, extent and quality of services, the Board emphasized reports furnished to it throughout the year at regular Board meetings covering matters such as the compliance of portfolio managers with the investment policies, strategies and restrictions for the Fund, the compliance of management personnel with the Code of Ethics adopted throughout the Delaware Investments Family of Funds complex and the adherence to fair value pricing procedures as established by the Board. The Board noted that it was pleased with the current staffing of the Fund's investment advisor and the emphasis placed on research in the investment process. Favorable consideration was given to DMC's efforts to maintain, and in some instances increase, financial and human resources committed to fund matters. The Board was satisfied with the nature, extent and quality of the overall services provided by Delaware Investments.

INVESTMENT PERFORMANCE. The Board considered the investment performance of DMC and the Fund. The Board placed significant emphasis on the investment performance of the Fund in view of its importance to shareholders. While consideration was given to performance reports and discussions with portfolio managers at Board meetings throughout the year, particular weight was given to the Lipper reports furnished for the Annual Meeting. The Lipper reports prepared for the Fund showed the investment performance of its shares in comparison to a group of similar funds as selected by Lipper (the "Performance Universe"). A fund with the highest performance ranked first, and a fund with the lowest ranked last. The highest/best performing 25% of funds in the Performance Universe make up the first quartile; the next 25% the second quartile; the next 25% the third quartile; and the lowest/worst performing 25% of funds in the Performance Universe make up the fourth quartile. Comparative annualized performance for the Fund was shown for the past one-, three-, five-, and ten-year periods ended December 31, 2006. The Board also considered comparative annualized performance for the Fund for the same periods ended October 31, 2006. The performance comparison presented below is based upon the December 31, 2006 information. The Board noted its objective that the Fund's performance for the periods considered be at or above the median of its Performance Universe. The following paragraph summarizes the performance results for the Fund and the Board's view of such performance.

The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end income and preferred stock funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one-, three-, five-, and ten-year

periods was in the first quartile. The Board was very satisfied with performance.

20

COMPARATIVE EXPENSES. The Board considered expense comparison data for the Delaware Investments® Family of Funds as of October 31, 2006. Management provided the Board with information on pricing levels and fee structures for the Fund. The Board focused particularly on the comparative analysis of the management fees and total expense ratios of the Fund and the effective management fees and expense ratios of a group of similar leveraged closed-end funds as selected by Lipper (the "Expense Group"). In reviewing comparative costs, the Fund's contractual management fee and the actual management fee incurred by the Fund were compared with the contractual management fees (assuming all funds in the Expense Group were similar in size to the Fund) and actual management fees (as reported by each fund) of other funds within the Expense Group, taking into account any applicable breakpoints and fee waivers. The Fund's total expenses were also compared with those of its Expense Group. The Board also considered fees paid to Delaware Investments for non-management services. The Board noted its objective to limit the Fund's total expense ratio to an acceptable range as compared to the median of the Expense Group. The following paragraph summarizes the expense results for the Fund and the Board's view of such expenses.

The expense comparisons for the Fund showed that its actual management fee and total expenses were ranked first (lowest) of the four funds in the Expense Group. The Board was satisfied with the management fees and total expenses of the Fund in comparison to its Expense Group as shown in the Lipper report.

MANAGEMENT PROFITABILITY. The Board considered the level of profits, if any, realized by Delaware Investments in connection with the operation of the Fund. In this respect, the Board reviewed the Investment Management Profitability Analysis that addressed the overall profitability of Delaware Investments' business in providing management and other services to each of the individual funds and the Delaware Investments Family of Funds as a whole. Specific attention was given to the methodology followed in allocating costs for the purpose of determining profitability. Management stated that the level of profits of Delaware Investments, to a certain extent, reflected operational cost savings and efficiencies initiated by Delaware Investments. The Board considered Delaware Investments' efforts to improve services provided to fund shareholders and to meet additional regulatory and compliance requirements resulting from recent SEC initiatives. The Board also considered the extent to which Delaware Investments might derive ancillary benefits from fund operations, including the potential for procuring additional business as a result of the prestige and visibility associated with its role as service provider to the Delaware Investments Family of Funds and the benefits from allocation of fund brokerage to improve trading efficiencies. The Board found that the level of management fees was reasonable in light of the services rendered and the profitability of Delaware Investments.

ECONOMIES OF SCALE. As a closed-end fund, the Fund does not issue shares on a continuous basis. Fund assets increase only to the extent that the value of the underlying securities in the Fund increase. Accordingly, the Board determined that the Fund was not likely to experience significant economies of scale due to asset growth and, therefore, a fee schedule with breakpoints to pass the benefit of economies of scale on to shareholders was not likely to provide the intended effect.

21

About the organization

This semiannual report is for the information of Delaware Investments® Dividend and Income Fund, Inc. shareholders. The figures in this report represent past results that are not a guarantee of future results. The return and principal value of an investment in the Fund will fluctuate so that shares, when sold, may be worth more or less than their original cost.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may, from time to time, purchase shares of its Common Stock on the open market at market prices.

Description of Material Conflicts of Interest

Individual portfolio managers may perform investment management services for other accounts similar to those provided to the Funds and the investment action for each account and Fund may differ. For example, an account or Fund may be selling a security, while another account or Fund may be purchasing or holding the same security. As a result, transactions executed for one account may adversely affect the value of securities held by another account. Additionally, the management of multiple accounts and Funds may give rise to potential conflicts of interest, as a portfolio manager must allocate time and effort to multiple accounts and Funds. A portfolio manager may discover an investment opportunity that may be suitable for more than one account or Fund. The investment opportunity may be limited, however, so that all accounts for which the investment would be suitable may not be able to participate. The Manager has adopted procedures designed to allocate investments fairly across multiple accounts.

A portfolio manager's management of personal accounts also may present certain conflicts of interest. While the Manager's Code of Ethics is designed to address these potential conflicts, there is no guarantee that it will do so.

Compensation Structure

Each portfolio manager's compensation consists of the following:

Base Salary. Each named portfolio manager receives a fixed base salary. Salaries are determined by a comparison to industry data prepared by third parties to ensure that portfolio manager salaries are in line with salaries paid at peer investment advisory firms.

Bonus. Each portfolio manager is eligible to receive an annual cash bonus which is based on quantitative and qualitative factors. The amount of the pool for bonus payments is first determined by mathematical equation based on assets, management fees and expenses, including fund waiver expenses, for registered investment companies, pooled vehicles, and managed separate accounts. Generally, approximately 50% of the bonus is quantitatively determined. For investment companies, each manager is compensated according the Fund's Lipper peer group percentile ranking on a one-year and three-year basis. For managed separate accounts the portfolio managers are compensated according to the composite percentile ranking in consultant databases. There is no objective award for a fund that falls below the 50th percentile for a given time period. There is a sliding scale for investment companies that are ranked above the 50th percentile. The managed separate accounts are compared to Callan and other databases. The remaining 20% portion of the bonus is discretionary as determined by Delaware and takes into account subjective factors.

Deferred Compensation. Each named portfolio manager is eligible to participate in the Lincoln National Corporation Executive Deferred Compensation Plan, which is available to all employees whose income exceeds a designated threshold. The Plan is a non-qualified unfunded deferred compensation plan that permits participating employees to defer the receipt of a portion of their cash compensation.

Stock Option Incentive Plan/Equity Compensation Plan: Portfolio managers may be awarded options to purchase common shares of Delaware Investments U.S., Inc. pursuant to the terms the Delaware Investments U.S., Inc. Stock Option Plan (non-statutory or [non-qualified] stock options). In addition, certain managers may be awarded restricted stock units, or [performance shares], in Lincoln. Delaware Investments U.S., Inc., is an indirect subsidiary of DMH and, therefore, of Lincoln.

The Delaware Investments U.S., Inc. Stock Option Plan was established in 2001 in order to provide certain investment personnel of the Manager with a more direct means of participating in the growth of the investment manager. Under the terms of the plan, stock options typically vest in 25% increments on a four-year schedule and expire ten years after issuance. Options are awarded from time to time by the investment manager in its full discretion. Option awards may be based in part on seniority.

Portfolio managers who do not participate in the Delaware Investments U.S., Inc. Stock Option Plan are eligible to participate in Lincoln's Long-Term Incentive Plan, which is designed to provide a long-term incentive to officers of Lincoln. Under the plan, a specified number of performance shares are allocated to each unit and are awarded to participants in the discretion of their managers in accordance with recommended targets related to the number of employees in a unit that may receive an award and the number of shares to be awarded. The performance shares have a three year vesting schedule and, at the end of the three years, the actual number of shares distributed to those who received awards may be equal to, greater than or less than the amount of the award based on Lincoln's achievement of certain performance goals relative to a pre-determined peer group.

Other Compensation: Portfolio managers may also participate in benefit plans and programs available generally to all employees.

Ownership of Securities

As of March 31, 2007, the Funds' portfolio managers owned the following amounts of Fund shares:

Portfolio Manager	Dollar Range Of Fund Shares Owned ¹

Item 11. Controls and Procedures

The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures within 90 days of the filing of this report and have concluded that they are effective in providing reasonable assurance that the information required to be disclosed by the registrant in its reports or statements filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

There were no significant changes in the registrant's internal control over financial reporting that occurred during the second fiscal quarter of the period covered by the report to stockholders included herein (i.e., the registrant's second fiscal quarter) that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits

(a) (1) Code of Ethics

Not applicable.

(2) Certifications of Principal Executive Officer and Principal Financial Officer pursuant to Rule 30a-2 under the Investment Company Act of 1940 are attached hereto as Exhibit 99.CERT.

(3) Written solicitations to purchase securities pursuant to Rule 23c-1 under the Securities Exchange Act of 1934.

Not applicable.

(b) Certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 are furnished herewith as Exhibit 99.906CERT.
