**FORM U-9C-3/A EXPLANATORY NOTE**

Amendment No. 1 to our quarterly report on Form U-9C-3 (Form U-9C-3/A) was filed to amend the quarterly report on Form U-9C-3 for the quarter ended September 30, 2004 of Northeast Utilities (NU), which was originally filed on November 23, 2004 (Original Form U-9C-3). Accordingly, this Form U-9C-3/A contains the complete text of Items 4, and Item 6, as amended. Unaffected items in the Original Form U-9C-3 have not been repeated in this Form U-9C-3/A.

Subsequent to the filing of the Form U-9C-3 for the quarter ended September 30, 2004, NU concluded that it incorrectly applied accrual accounting for certain natural gas contracts established by the Select Energy, Inc. (Select Energy) to mitigate the risk of electricity purchased in anticipation of winning certain levels of wholesale electric load in New England. The natural gas basis contracts were originally accounted for on the accrual basis. The natural gas futures and swaps contracts were accounted for as cash flow hedges with changes in fair value reflected in other comprehensive income (a component of shareholders' equity). However, subsequent to the filing of the third quarter report on Form U-9C-3, NU concluded that applying accrual accounting for the basis contracts was incorrect. The basis contracts should have been recorded at current fair value with changes in fair value impacting earnings. The fair value was a negative \$0.9 million at June 30, 2004 and at September 30, 2004 was a negative \$2.7 million. Purchased power, net interchange power and capacity expenses increased by \$1.8 million for the third quarter of 2004 and increased by \$2.7 million for the nine-month period ended September 30, 2004 as a result of the restatements. The futures and swaps contracts should not have been accounted for as cash flow hedges and should also have been recorded at fair value. The fair value was a positive \$2.7 million at June 30, 2004 and at September 30, 2004 was a negative \$71.1 million. These amounts have been removed from other comprehensive income (a component of shareholders' equity). Purchased power, net interchange power and capacity expenses increased by \$73.8 million for the third quarter and increased by \$71.1 million for the nine-month period ended September 30, 2004 as a result of the restatements. This Form U-9C-3/A reflects the change from accrual and hedge accounting to fair value accounting for the aforementioned natural gas derivative contracts. The net income impact of both of these restatements was a negative \$47 million for the third quarter and a negative \$45.9 million for the nine months ended September 30, 2004.

The natural gas contracts discussed above are accounted for at fair value with changes in fair value included in earnings. NU concluded that fair value or mark-to-market accounting should have been applied. To correct this error, NU and Select Energy restated their consolidated balance sheets as of September 30, 2004 and their consolidated statements of income/ operations for the three and nine months ended September 30, 2004.

This amendment does not otherwise reflect events occurring after the filing of the Original Form U-9C-3, which was filed on November 23, 2004. Such events include, among others, the events described in NU's current reports on Form 8-K filed after the filing of the Original Form U-9C-3. NU filed an amended report on Form 10-Q/A related to these issues on March 17, 2005.
