NEW YORK - June 16, 2004 - The Bear Stearns Companies Inc. (NYSE:BSC) today reported earnings per share (diluted) of \$2.49 for the second quarter ended May 31, 2004, up 21.5% from \$2.05 per share for the second quarter of 2003. Net income for the second quarter of 2004 was \$347.8 million, up 24.0% from \$280.4 million for the second quarter of 2003. Net revenues for the 2004 second quarter were \$1.7 billion, up 17.8% from \$1.5 billion for the 2003 second quarter. The annualized return on common stockholders' equity for the second quarter of 2004 was 19.6% and 20.4% for the trailing 12-month period ended May 31, 2004.

"I am extremely pleased to report that Bear Stearns posted excellent results for the second quarter and record results the first half of 2004," said James E. Cayne, chairman and chief executive officer. "This success highlights the diversity of our business mix and the sustainability of the underlying earnings power of this franchise. We saw robust activity across the fixed income businesses and steady improvement in clearing, wealth management and many of the equity areas. Our dedication to comprehensively serving our clients' needs enables us to drive shareholder value and to continue to produce industry-leading returns."

A brief discussion of the firm's business segments follows:

CAPITAL MARKETS

Capital Markets net revenues for the second quarter of 2004 were \$1.35 billion, up 14.7% from \$1.18 billion for the quarter ended May 31, 2003.

- o Institutional Equities net revenues were \$252.0 million, up 33.1% from \$189.3 million for the second quarter of 2003. Revenues increased in the domestic and international equity sales and trading areas reflecting higher market volumes and increased market share. A decline in customer activity levels and reduced market volatility had a negative effect on equity derivative, risk arbitrage and convertible arbitrage revenues. The results of Bear Wagner Specialists, LLC were reported on a consolidated basis for the first time in the first quarter of 2004. This change in reporting increased the 2004 second quarter net revenues by approximately \$50 million compared to the prior year quarter.
- o Fixed Income net revenues were a record \$844.4 million, up 10.4% from \$765.2 million in the comparable prior year quarter. Fixed Income reported its best ever quarterly results with the mortgage area operating at record levels and the interest rate product areas continuing to provide strong results. Mortgage related revenues were driven by active customer flow in the ARMs, non-agency and commercial mortgage markets. In the credit businesses, the high yield and corporate bond trading areas experienced lower levels of activity from prior year record levels as credit spreads widened during the quarter.
- o Investment Banking net revenues were \$254.9 million in the second quarter of 2004, up 14.1% from the \$223.4 million in the comparable prior year period. Equity underwriting continued to show improvement, while merger and acquisition advisory fees were on par with the prior year quarter.

GLOBAL CLEARING SERVICES

Second quarter 2004 Global Clearing Services net revenues were \$223.7 million, up 19.4% from \$187.4 million in the second quarter of 2003. Average customer

margin debt balances for the quarter ended May 31, 2004 were \$46.7 billion, up 18.2% from \$39.5 billion in the prior year quarter. Increased customer activity, particularly in the prime brokerage area, was evident as higher margin debt, customer short, and stock borrow balances drove revenue growth.

WEALTH MANAGEMENT

Wealth Management net revenues for the quarter ended May 31, 2004 were \$176.5 million, up 41.9% from \$124.4 million in the second quarter of 2003.

- o Private Client Services net revenues were \$117.3 million, an increase of 28.7% from \$91.1 million in the 2003 second quarter. This revenue growth was fueled by the rebound in the equity markets, increased customer trading volume and the hiring of high producing brokers.
- o Asset Management net revenues grew 78.1% to \$59.2 million for the second quarter of 2004 from \$33.3 million in the prior year's quarter. Excluding revenues of \$21.5 million from the sale of certain mutual funds assets to The Dreyfus Corporation, Asset Management revenues increased 13.5% to \$37.7 million. Assets under management increased to \$27.3 billion on May 31, 2004 from \$24.4 billion on May 31, 2003. Excluding assets transferred to Dreyfus, assets under management increased 29.5% from the second quarter of 2003.

EXPENSES

- o Compensation as a percentage of net revenues was 49.9% in the second quarter of 2004 as compared with 47.3% for the second quarter of 2003. Year to date compensation to net revenues was 49.5% for 2004 versus 48.7% for 2003.
- o Non-compensation expenses were \$352.0 million for the quarter ended May 31, 2004, an increase of 2.8% from \$342.4 million in the 2003 quarter. The ratio of non-compensation expenses to net revenues was 20.4% in the second quarter 2004 versus 23.4% in the prior year quarter. The increase in non-compensation expenses is primarily attributable to the consolidation of the results of Bear Wagner Specialists, LLC in the May 2004 income statement.

The pre-tax profit margin increased to 29.7% in the quarter ended May 31, 2004 from 29.3% in the 2003 second quarter.

As of May 31, 2004, total capital, including stockholders' equity and long-term borrowings, was approximately \$40.0 billion. Book value as of May 31, 2004 was \$53.38 per share, based on 144.3 million shares outstanding.
