The E.W. Scripps Company
Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Summary of Significant Accounting Policies

As used in the Notes to Condensed Consolidated Financial Statements, the terms “Scripps,” “Company,” “we,” “our,” or “us” may, depending on the context, refer to The E.W. Scripps Company, to one or more of its consolidated subsidiary companies, or to all of them taken as a whole.

Basis of Presentation — The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. The interim financial statements should be read in conjunction with the audited consolidated financial statements, including the notes thereto included in our 2017 Annual Report on Form 10-K. In management's opinion, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the interim periods have been made.

Results of operations are not necessarily indicative of the results that may be expected for future interim periods or for the full year.

Nature of Operations — We are a diverse media enterprise, serving audiences and businesses through a portfolio of local and national media brands. All of our media businesses provide content and advertising services via digital platforms, including the Internet, smartphones and tablets. Our media businesses are organized into the following reportable business segments: Local Media, National Media and Other. Additional information for our business segments is presented in the Notes to Condensed Consolidated Financial Statements.

In the fourth quarter of 2017, we began the process to divest our radio business. As such, we have classified the radio segment as held for sale in our Condensed Consolidated Balance Sheets and reported its results as discontinued operations in our Condensed Consolidated Statements of Operations. For additional information on our radio business, see Note 16.

Use of Estimates — Preparing financial statements in accordance with accounting principles generally accepted in the United States of America requires us to make a variety of decisions that affect the reported amounts and the related disclosures. Such decisions include the selection of accounting principles that reflect the economic substance of the underlying transactions and the assumptions on which to base accounting estimates. In reaching such decisions, we apply judgment based on our understanding and analysis of the relevant circumstances, including our historical experience, actuarial studies and other assumptions.

Our financial statements include estimates and assumptions used in accounting for our defined benefit pension plans; the periods over which long-lived assets are depreciated or amortized; the fair value of long-lived assets, goodwill and indefinite lived assets; the liability for uncertain tax positions and valuation allowances against deferred income tax assets; the fair value of assets acquired and liabilities assumed in business combinations; and self-insured risks. While we re-evaluate our estimates and assumptions on an ongoing basis, actual results could differ from those estimated at the time of preparation of the financial statements.

Nature of Products and Services — The following is a description of principal activities from which we generate revenue.

Core Advertising — Core advertising is comprised of sales to local and national customers. The advertising includes a combination of broadcast air time, as well as digital advertising. Pricing of advertising time is based on audience size and share, the demographic of our audiences and the demand for our limited inventory of commercial time.

Advertising time is sold through a combination of local sales staff and national sales representative firms. Digital revenues are primarily generated from the sale of advertising to local and national customers on our local television websites, smartphone apps, tablet apps and other platforms.

Political Advertising — Political advertising is generally sold through our Washington D.C. sales office. Advertising is sold to presidential, gubernatorial, Senate and House of Representative candidates, as well as for state and local issues. It is also sold to political action groups (PACs) or other advocacy groups.

Retransmission Revenues — We earn revenue from retransmission consent agreements with multi-channel video programming distributors (“MVPDs”) in our markets. The MVPDs are cable operators and satellite carriers who pay us to offer our programming to their customers. We also receive fees from over-the-top virtual MVPDs such as YouTubeTV, DirectTV Now

F-7

and Sony Vue. The fees we receive are typically based on the number of subscribers in our local market and the contracted rate per subscriber.

Other Products and Services — We derive revenue from sponsorships and community events through our Local Media segment. Our National Media segment offers subscription services for access to premium content to its customers. Our podcast business acts as a sales and marketing representative and earns commission for its work.

Refer to Note 12. Segment Information for further information, including revenue by significant product and service offering.

Revenue Recognition — Revenue is measured based on the consideration we expect to be entitled to in exchange for promised goods or services provided to customers, and excludes any amounts collected on behalf of third parties.

Revenue is recognized upon transfer of control of promised products or services to customers.

Advertising revenue is recognized, net of agency commissions, over time primarily as ads are aired or impressions are delivered and any contracted audience guarantees are met. We apply the practical expedient to recognize revenue at the amount we have the right to invoice, which corresponds directly to the value a customer has received relative to our performance. For advertising sold based on audience guarantees, audience deficiency may result in an obligation to deliver additional advertisements to the customer. To the extent that we do not satisfy contracted audience ratings, we record deferred revenue until such time that the audience guarantee has been satisfied.

Retransmission revenues are considered licenses of functional intellectual property and are recognized at the point in time the content is transferred to the customer. MVPDs report their subscriber numbers to us generally on a 30- to 90-day lag. Prior to receiving the MVPD reporting, we record revenue based on estimates of the number of subscribers, utilizing historical levels and trends of subscribers for each MVPD.

Refer to Note 2. Recently Adopted and Issued Accounting Standards for further information on the adoption of the new revenue recognition standard.

Contract Balances — Timing of revenue recognition may differ from the timing of invoicing to customers. We record a receivable when revenue is recognized prior to invoicing, or unearned revenue when revenue is recognized subsequent to invoicing.

Payment terms may vary by contract type, although our terms generally include a requirement of payment within 30 to 90 days. In instances where the timing of revenue recognition differs from the timing of invoicing, we have determined our contracts do not include a significant financing component. The primary purpose of our invoicing terms is to provide customers with simplified and predictable ways of purchasing our products and services, not to receive financing from our customers.

The allowance for doubtful accounts reflects our best estimate of probable losses inherent in the accounts receivable balance. We determine the allowance based on known troubled accounts, historical experience and other currently available evidence. Allowance for doubtful accounts totaled \$2.2 million at June 30, 2018 and \$1.9 million December 31, 2017.

We record unearned revenue when cash payments are received in advance of our performance. We generally require amounts payable under advertising contracts with political advertising customers to be paid in advance. Unearned revenue totaled \$7.5 million at June 30, 2018 and is expected to be recognized within revenue over the next 12 months. Unearned revenue totaled \$7.4 million at December 31, 2017.

Assets Recognized from the Costs to Obtain a Contract with a Customer — We recognize an asset for the incremental costs of obtaining a contract with a customer if we expect the benefit of those costs to be longer than one year. We apply and use the practical expedient in the revenue guidance to expense costs as incurred for costs to obtain a contract when the amortization period is one year or less. This expedient applies to advertising sales commissions since advertising contracts are short-term in nature. In addition, we also may provide inducement payments to secure carriage agreements with distributors of our content. These inducement payments are capitalized and amortized to expense over the term of the distribution contract. Capitalized costs to obtain a contract with a customer totaled \$10.3 million at June 30, 2018 and \$8.0 million at December 31, 2017 and are included within miscellaneous assets of our condensed consolidated balance sheets. Amortization of these costs totaled \$0.3 million for the year-to-date period of 2018.

Use of Other Practical Expedients — For our arrangements that have an original duration of one year or less, we use the practical expedient applicable to such arrangements and do not consider the time value of money. In addition, we do not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts for which we recognize revenue at the amount to which we have the right to invoice for services performed.

F-8

Share-Based Compensation — We have a Long-Term Incentive Plan (the “Plan”) which is described more fully in our 2017 Annual Report on Form 10-K. The Plan provides for the award of incentive and nonqualified stock options, stock appreciation rights, restricted stock units (RSUs) and unrestricted Class A Common shares and performance units to key employees and non-employee directors.

Share-based compensation costs totaled \$2.9 million for the second quarter of 2018 and 2017. Year-to-date share-based compensation costs totaled \$6.3 million and \$8.7 million in 2018 and 2017, respectively.

Earnings Per Share (“EPS”) — Unvested awards of share-based payments with rights to receive dividends or dividend equivalents, such as our RSUs, are considered participating securities for purposes of calculating EPS. Under the two-class method, we allocate a portion of net income to these participating securities and, therefore, exclude that income from the calculation of EPS for common stock. We do not allocate losses to the participating securities.

The following table presents information about basic and diluted weighted-average shares outstanding:

2. Recently Adopted and Issued Accounting Standards

Recently Adopted Accounting Standards — In August 2016, the FASB issued new guidance related to classification of certain cash receipts and payments in the statement of cash flows. This new guidance was issued with the objective of reducing diversity in practice around eight specific types of cash flows. The new guidance was effective for us January 1, 2018 and did not have an impact on our condensed consolidated statements of cash flows.

In January 2016, the FASB issued new guidance on the recognition and measurement of financial instruments. This guidance primarily affects the accounting for equity method investments, financial liabilities under the fair value option and the presentation and disclosure requirements for financial instruments. The new standard was effective for us on January 1, 2018 and did not have an impact on our condensed consolidated financial statements.

In May 2014, the FASB issued a new standard related to revenue recognition. Under this standard, revenue is recognized when a customer obtains control of promised goods or services in an amount that reflects the consideration the entity expects to be entitled to in exchange for those goods or services. The standard creates a five-step process that requires entities to exercise judgment when considering the terms of the contract(s) and all relevant facts and circumstances. In addition, the standard requires expanded footnote disclosure.

We adopted this standard on January 1, 2018, using the full retrospective method. Regarding our advertising contracts, which comprised 65% of 2017 operating revenues, the contracts are short-term in nature with transaction price consideration agreed upon in advance. Revenue on broadcast advertising spots continue to be recognized when

commercials are aired. Online advertising revenue earned through the display of digital advertisements across various digital platforms typically take the form of an impression-based contract, fixed fee time-based contract or transaction-based contract. Revenue continues to be recognized evenly over the contract term for fixed fee contracts where a minimum number of impressions or click-throughs is not guaranteed. Revenue is recognized as the service is delivered for impression and transaction-based contracts.

F-9

Retransmission revenue, which comprised 30% of 2017 operating revenues, is recognized under the licensing of intellectual property guidance in the standard, which did not result in a change to our previous revenue recognition.

The only identified impacts of the standard were to record certain revenue transactions on a gross basis that were previously recorded on a net basis and to no longer recognize barter revenue and expense related to syndicated programming.

Adoption of this standard on January 1, 2018 using the full retrospective method required us to adjust certain previously reported results. The following tables present the impact of adoption of the standard on our condensed consolidated statements of operations:

(in thousands)	Three Months Ended June 30, 2017		
	As Previously Reported	Adjustments for Adoption of New Revenue Standard	As Adjusted

Other expenses	87,693	—	87,693
Total costs and expenses	\$363,870	\$ 4,639	\$368,509

Adoption of the new revenue recognition standard had no impact on our condensed consolidated balance sheets, condensed consolidated statements of comprehensive income (loss), condensed consolidated statements of cash flows or condensed consolidated statements of equity.

In February 2018, the FASB issued new guidance that permits companies to reclassify the disproportionate tax effect in accumulated other comprehensive income ("AOCI") caused by the Tax Cuts and Jobs Act of 2017. We have adopted this guidance as of December 31, 2017. The impact of the adoption was to reclassify \$19.4 million of tax effects related to our defined benefits plans from AOCI to retained earnings.

F-10

Recently Issued Accounting Standards — In June 2016, the FASB issued new guidance that changes the impairment model for most financial assets and certain other instruments. For trade and other receivables, held-to-maturity debt securities, loans and other instruments, entities will be required to use a new forward-looking “expected loss” model that will replace today’s “incurred loss” model, which generally will result in the earlier recognition of allowances for losses. For available-for-sale debt securities with unrealized losses, entities will measure credit losses in a manner similar to current practice, except that the losses will be recognized as an allowance. The guidance is effective in 2020 with early adoption permitted in 2019. We are currently evaluating the impact of this guidance on our condensed consolidated financial statements, as well as the timing of adoption.

In February 2016, the FASB issued new guidance on the accounting for leases. Under this guidance, lessees will be required to recognize a lease liability and a right-of-use asset for all leases (with the exception of short-term leases) at the commencement date. The new guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018. In March 2018, the FASB approved amendments to create an optional transition method. The amendments provide an option to implement the new leasing standard through a cumulative-effect adjustment in the period of adoption without having to restate the comparative periods presented. We are currently evaluating the impact of this guidance on our condensed consolidated financial statements, but expect a significant increase in the assets and liabilities recorded on the condensed consolidated balance sheets.

3. Acquisitions

Katz

On October 2, 2017, we acquired the Katz networks for \$292 million, which is net of a 5.33% noncontrolling interest we owned prior to the acquisition date. Katz owns and operates four national television networks — Bounce, Grit, Escape and Laff. The acquisition was funded through the issuance of a new term loan B. Katz is included as part of our National Media segment.

Pending the finalization of asset valuations, the following table summarizes the preliminary fair values of the assets acquired and the liabilities assumed:

(in thousands)

Assets:	
Cash	\$21,372
Accounts receivable	44,306
Current portion of programming	47,120
Intangible assets	32,300
Goodwill	209,572
Programming (less current portion)	74,998
Other assets	1,395
Total assets acquired	431,063
Accounts payable and accrued liabilities	29,339
Current portion of programming liabilities	46,376
Programming liabilities	53,036
Net purchase price	\$302,312

Of the \$32 million allocated to intangible assets, \$8 million was assigned to trade names with a life of 10 years and \$24 million was assigned to advertiser relationships with a life of 5 years.

The goodwill of \$210 million arises from being able to enter into the market for established over-the-air networks. The goodwill was allocated to our National Media segment. We treated the transaction as an asset acquisition for income tax purposes with a step-up in the assets acquired. The goodwill is deductible for income tax purposes.

F-11

Pro forma results of operations

Pro forma results of operations, assuming the Katz acquisition had taken place at the beginning of 2017, are presented in the following table. The pro forma information includes the historical results of operations of Scripps and Katz, as well as adjustments for additional depreciation and amortization of the assets acquired and additional interest expense related to the financing of the transaction. The pro forma information does not include efficiencies, cost reductions or synergies expected to result from the acquisition. The unaudited pro forma financial information is not necessarily indicative of the results that actually would have occurred had the acquisition been completed at the beginning of the period.

(in thousands, except per share data) (unaudited)	Three Months Ended June 30, 2017	Six Months Ended June 30, 2017
Operating revenues	\$254,342	\$487,630
Income from continuing operations, net of tax	7,864	5,326
Income per share from continuing operations attributable to the shareholders of The E.W. Scripps Company:		
Basic	\$0.10	\$0.06
Diluted	0.10	0.06

4. Asset Write-Downs and Other Charges and Credits

Income from continuing operations includes the following:

2018 - In the second quarter, costs associated with our previously announced restructuring totaled \$2.3 million. For the six months ended June 30, 2018 these restructuring costs totaled \$6.1 million.

2017 - In the second quarter, we sold our newspaper syndication business, resulting in a gain of \$3.0 million.

In the second quarter, there was a \$2.5 million reduction to the Midroll earn out provision resulting in other income.

5. Income Taxes

We file a consolidated federal income tax return, consolidated unitary tax returns in certain states and other separate state income tax returns for our subsidiary companies.

The income tax provision for interim periods is generally determined based upon the expected effective income tax rate for the full year and the tax rate applicable to certain discrete transactions in the interim period. To determine the annual effective income tax rate, we must estimate both the total income (loss) before income tax for the full year and the jurisdictions in which that income (loss) is subject to tax. The actual effective income tax rate for the full year may differ from these estimates if income (loss) before income tax is greater than or less than what was estimated or if the allocation of income (loss) to jurisdictions in which it is taxed is different from the estimated allocations. We review and adjust our estimated effective income tax rate for the full year each quarter based upon our most recent estimates of income (loss) before income tax for the full year and the jurisdictions in which we expect that income will be taxed.

The effective income tax rate for the six months ended June 30, 2018 and 2017 was 92% and (23)%, respectively. On December 22, 2017, the U.S. government enacted comprehensive tax legislation referred to as the Tax Cuts and Jobs

Act (the "Tax Act"). The Tax Act significantly revises the future ongoing U.S. corporate income tax by, among other things, lowering U.S. corporate income tax rates. The U.S. federal statutory rate was 21% in the second quarter 2018 and 35% in the second quarter 2017, impacting the comparability of the income tax provision between those periods. We made a preliminary estimate of the impact of the Tax Act on our deferred taxes in our 2017 consolidated financial statements. There were no changes to that provisional estimate during the second quarter of 2018.

Other differences between our effective income tax rate and the U.S. federal statutory rate are the impact of state taxes, non-deductible expenses, release of reserves for uncertain tax positions and excess tax benefits or expense on share-based compensation (\$0.7 million expense and \$2.4 million benefit in 2018 and 2017, respectively).

F-12

Deferred tax assets totaled \$17.5 million at June 30, 2018, which includes the tax effect of state net operating loss carryforwards. We recognize state net operating loss carryforwards as deferred tax assets, subject to valuation allowances. At each balance sheet date, we estimate the amount of carryforwards that are not expected to be used prior to expiration of the carryforward period. The tax effect of the carryforwards that are not expected to be used prior to their expiration is included in the valuation allowance.

6. Restricted Cash

At June 30, 2018 and December 31, 2017, our cash and cash equivalents included \$5.1 million held in a restricted cash account on deposit with our insurance carrier. This account serves as collateral, in place of an irrevocable stand-by letter of credit, to provide financial assurance that we will fulfill our obligations with respect to cash requirements associated with our workers' compensation self-insurance. This cash is to remain on deposit with the carrier until all claims have been paid or we provide a letter of credit in lieu of the cash deposit.

7. Goodwill and Other Intangible Assets

Goodwill consisted of the following:

(in thousands)	Local Media	National Media	Total
Gross balance as of December 31, 2017	\$708,133	\$315,133	\$1,023,266
Accumulated impairment losses	(216,914)	(50,403)	(267,317)

8. Long-Term Debt

Long-term debt consisted of the following:

(in thousands)	As of June 30, 2018	As of December 31, 2017
Variable rate credit facility	\$—	\$—
Senior unsecured notes	400,000	400,000
Term loan B	297,750	299,250
Unsecured subordinated notes	2,656	2,656

Less: Debt issuance costs	(8,091)	(8,631)
Less: Current portion	(5,656)	(5,656)
Net carrying value of long-term debt	\$686,659	\$687,619
Fair value of long-term debt *	\$679,425	\$703,572

* Fair value of the Senior Notes and the term loan B were estimated based on quoted private market transactions and are classified as Level 1 in the fair value hierarchy. The fair value of the unsecured subordinated notes is determined based on a discounted cash flow analysis using current market interest rates of comparable instruments and is classified as Level 2 in the fair value hierarchy.

Senior Unsecured Notes

On April 28, 2017, we issued \$400 million of senior unsecured notes ("the Senior Notes"), which bear interest at a rate of 5.125% per annum and mature on May 15, 2025. The proceeds of the Senior Notes were used to repay our term loan B, for the payment of the related issuance costs and for general corporate purposes. The Senior Notes were priced at 100% of par value and interest is payable semi-annually on May 15 and November 15. Prior to May 15, 2020, we may redeem the Senior Notes, in whole or in part, at any time, or from time to time, at a price equal to 100% of the principal amount of the Senior Notes, plus accrued and unpaid interest, if any, to the date of redemption, plus a "make-whole" premium, as set forth in the Senior Notes indenture. In addition, on or prior to May 15, 2020, we may redeem up to 40% of the Senior Notes, using proceeds of equity offerings. If we sell certain of our assets or have a change of control, the holders of the Senior Notes may require us to repurchase some or all of the notes. The Senior Notes are also guaranteed by us and the majority of our subsidiaries. The Senior Notes contain covenants with which we must comply that are typical for borrowing transactions of this nature.

We incurred approximately \$7.0 million of deferred financing costs in connection with the issuance of the Senior Notes, which are being amortized over the life of the Senior Notes. Additionally, we wrote off \$2.4 million of deferred financing costs associated with our old term loan B to interest expense in the second quarter of 2017.

Term Loan B

On October 2, 2017, we issued a \$300 million term loan B which matures in October 2024. We amended term loan B on April 4, 2018, reducing the interest rate by 25 basis points. Following the amendment, interest is payable on term loan B at a rate based on LIBOR, plus a fixed margin of 2.00%. Interest will reduce to a rate of LIBOR plus a fixed margin of 1.75% if the company's total net leverage, as defined by the amended agreement, is below 2.75. Term loan B requires annual principal payments of \$3 million.

Our Financing Agreement also includes a provision that in certain circumstances we must use a portion of excess cash flow to repay debt. As of June 30, 2018, we were not required to make any additional principal payments for excess

cash flow.

Under a previous financing agreement, we had a \$400 million term loan B that matured in November 2020. We repaid the term loan B in 2017 with the proceeds of our Senior Notes.

As of June 30, 2018 and December 31, 2017, the interest rate on the term loan B was 4.09% and 3.82%, respectively. The weighted-average interest rate on the term loan B was 3.97% for the six months ended June 30, 2018.

Revolving Credit Facility

On April 28, 2017, we amended and restated our \$100 million revolving credit facility ("Revolving Credit Facility"), increasing its capacity to \$125 million and extending the maturity to April 2022. Interest is payable on the Revolving Credit Facility at rates based on LIBOR, plus a margin based on our leverage ratio, ranging from 1.75% to 2.50%.

The Revolving Credit Facility includes maintaining a net leverage ratio when we have outstanding borrowings on the facility, as well as other restrictions on payments (dividends and share repurchases). Additionally, we can make acquisitions as long as the pro forma net leverage ratio is less than 5.5 to 1.0.

We granted the lenders pledges of our equity interests in our subsidiaries and security interests in substantially all other personal property including cash, accounts receivables, and equipment.

Commitment fees of 0.30% to 0.50% per annum, based on our leverage ratio, of the total unused commitment are payable under the Revolving Credit Facility.

Unsecured Subordinated Notes

The unsecured subordinated promissory notes bear interest at a rate of 7.25% per annum, payable quarterly. The remaining principal payment of \$2.7 million will be paid in the third quarter of 2018.

9. Other Liabilities

Other liabilities consisted of the following:

(in thousands)	As of June 30, 2018	As of December 31, 2017
Employee compensation and benefits	\$20,424	\$ 18,520
Programming liability	55,318	54,641

11. Employee Benefit Plans

We sponsor two noncontributory defined benefit pension plans, as well as two non-qualified Supplemental Executive Retirement Plans ("SERPs"). Both of the defined benefit pension plans and the SERPs have frozen the accrual of future benefits.

F-14

We sponsor a defined contribution plan covering substantially all non-union and certain union employees. We match a portion of employees' voluntary contributions to this plan.

The components of the employee benefit plans expense consisted of the following:

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Interest cost	\$5,925	\$6,486	\$11,850	\$12,971

Net periodic benefit cost — continuing operations	\$3,237	\$5,306	\$7,262	\$11,560

We contributed \$1.7 million to fund current benefit payments for our SERPs and \$6.6 million for our defined benefit pension plans during the six months ended June 30, 2018. During the remainder of 2018, we anticipate contributing an additional \$4.8 million to fund the SERPs' benefit payments and an additional \$10.8 million to fund our qualified defined benefit pension plans.

12. Segment Information

We determine our business segments based upon our management and internal reporting structures, as well as the basis that our chief operating decision maker makes resource allocation decisions.

Effective December 31, 2017, we realigned our businesses into a new internal organization and began reporting to reflect this new structure. Under the new structure, we have the following reportable segments: Local Media, National Media and Other. We have recast the operating results for all periods to reflect this change.

Our Local Media segment includes our local broadcast stations and their related digital operations. It is comprised of fifteen ABC affiliates, five NBC affiliates, two FOX affiliates and two CBS affiliates. We also have two MyTV affiliates, one CW affiliate, one independent station and three Azteca America Spanish-language affiliates. Our Local Media segment earns revenue primarily from the sale of advertising to local, national and political advertisers and retransmission fees received from cable operators, telecommunications companies and satellite carriers. We also receive retransmission fees from over-the-top virtual MVPDs such as YouTubeTV, DirectTV Now and Sony Vue.

Our National Media segment includes our collection of national brands. Our national brands include Katz, Midroll, Newsy and other national brands. These operations earn revenue primarily through the sale of advertising.

We allocate a portion of certain corporate costs and expenses, including information technology, certain employee benefits and shared services, to our business segments. The allocations are generally amounts agreed upon by management, which may differ from an arms-length amount. Corporate assets are primarily cash and cash equivalents, restricted cash, property and equipment primarily used for corporate purposes and deferred income taxes.

Our chief operating decision maker evaluates the operating performance of our business segments and makes decisions about the allocation of resources to our business segments using a measure called segment profit. Segment profit excludes interest, defined benefit pension plan expense, income taxes, depreciation and amortization,

impairment charges, divested operating units, restructuring activities, investment results and certain other items that are included in net income (loss) determined in accordance with accounting principles generally accepted in the United States of America.

13. Capital Stock

Capital Stock — We have two classes of common shares, Common Voting shares and Class A Common shares. The Class A Common shares are only entitled to vote on the election of the greater of three or one-third of the directors and other matters as required by Ohio law.

Share Repurchase Plan — Shares may be repurchased from time to time at management's discretion. In November 2016, our Board of Directors authorized a repurchase program of up to \$100 million of our Class A Common shares. The authorization currently expires on March 1, 2020. Shares can be repurchased under the authorization via open market purchase or privately negotiated transactions, including accelerated stock repurchase transactions, block trades, or pursuant to trades intending to comply with rule 10b5-1 of the Securities Exchange Act of 1934. For the six months ended June 30, 2017, we repurchased \$6.3 million of shares at prices ranging from \$16.82 to \$23.01 and for the six months ended June 30, 2018, we repurchased \$4.4 million of shares at prices ranging from \$13.29 to \$16.86 per share. At June 30, 2018, \$78.2 million remained under this authorization.

15. Noncontrolling Interest

A noncontrolling owner holds a 30% interest in our venture to develop, produce and air our lifestyle daytime talk show. In April 2017, on the formation of the venture, the noncontrolling owner made a \$2.1 million non-cash contribution to the venture. The contribution included the rights to the show concept, contractual rights with the show's talent, as well as other pre-production items.

16. Assets Held for Sale and Discontinued Operations

Radio Divestiture

In the fourth quarter of 2017, we began the process to divest our radio business. Our radio business consists of 34 radio stations in eight markets. We have classified the radio segment as held for sale in our condensed consolidated balance sheets and reported its results as discontinued operations in our condensed consolidated statements of operations.

During the first quarter of 2018, we recorded a \$20 million non-cash impairment charge to write-down the goodwill of our radio business to fair value. For the second quarter of 2018, operating results of our discontinued radio operations include a \$5.9 million charge to adjust the carrying value of our radio business assets to sale prices agreed to with buyers for our Tulsa and Milwaukee stations and estimated values of the remaining stations.

The following table presents a summary of the radio assets held for sale included in our condensed consolidated balance sheets.

On June 22, 2018, we entered into a definitive agreement to sell our five Tulsa, OK radio stations for \$12.5 million. The transaction is subject to, among other things, FCC approval and other customary closing conditions, and is expected to close in the fourth quarter of 2018.

We also entered into a Local Marketing Agreement (“LMA”) on June 22, 2018 with the acquirer of the Tulsa radio stations. Under the terms of this agreement, the acquiring entity will pay us a monthly LMA fee and will also reimburse us for certain station expenses, as defined in the agreement, in exchange for the right to program and sell advertising from the stations' inventory of broadcast time. The LMA became effective on July 30, 2018.

In the third quarter of 2018, we entered into a definitive agreement to sell our two Milwaukee, WI radio stations for \$16.0 million. The transaction is subject to, among other things, FCC approval and other customary closing conditions, and is expected to close in the fourth quarter of 2018.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Overview

The E.W. Scripps Company ("Scripps") is a diverse media enterprise, serving audiences and businesses through a portfolio of local and national media brands. Our Local Media division is one of the nation's largest independent TV station ownership groups, with 33 television stations in 24 markets and a reach of nearly one in five U.S. television households. We have affiliations with all of the "Big Four" television networks. In our National Media division, we operate national media brands including podcast industry-leader Midroll, next-generation national news network Newsy, and four over-the-air multicast networks called the Katz networks. We also operate an award-winning investigative reporting newsroom in Washington, D.C., and serve as the longtime steward of one of the nation's largest, most successful and longest-running educational programs, the Scripps National Spelling Bee.

At the end of 2017, we began a comprehensive restructuring of our local and national media brands to position the Company for improved performance and continued growth. We began a deep analysis of our operating divisions and corporate cost structure, our non-core assets and the opportunities for our national content brands. We are committed to improving operating performance in our local media business, supporting the growth ahead with our national media businesses and serving our audiences with news and information across all media platforms.

In the fourth quarter of 2017, we began the process to sell our radio station group. Our radio business consists of 34 radio stations in eight markets. To date in 2018, we have entered into definitive agreements for the sale of 7 radio stations in our Tulsa, OK and Milwaukee, WI markets. These transactions are subject to, among other things, FCC approval and other customary closing conditions, and are expected to close in the fourth quarter of 2018. We expect to finalize definitive agreements for the remaining 27 stations in the third quarter of 2018.

During the first quarter of 2018, the Board of Directors approved the initiation of a regular quarterly dividend. In both the first and second quarter of 2018, there was a 5 cent per share dividend paid to shareholders on record as of March 1, 2018 and June 15, 2018, respectively. Dividends paid totaled \$4.1 million for the three months ended June 30, 2018 and \$8.2 million for the six months ended June 30, 2018. We currently expect that quarterly cash dividends will continue to be paid in the future. Future dividends are, however, subject to our earnings, financial condition and capital requirements.

Results of Operations

The trends and underlying economic conditions affecting the operating performance and future prospects differ for each of our business segments. Accordingly, you should read the following discussion of our consolidated results of operations in conjunction with the discussion of the operating performance of our business segments that follows.

In the fourth quarter of 2017, we began the process to divest our radio business. We have classified the radio segment as held for sale in our condensed consolidated balance sheets and reported its results as discontinued operations in our condensed consolidated statements of operations.

Katz was acquired on October 2, 2017. The inclusion of operating results from this business for the periods subsequent to the acquisition impacts the comparability of our consolidated and segment operating results.

Operating revenues increased 31.1% for the second quarter of 2018 and 29.6% for the first half of 2018. Higher retransmission and political revenues in our Local Media group and the inclusion of Katz revenues within our National Media group contributed to the year-over-year revenue increases. Revenues from Katz were \$47.0 million in the second quarter of 2018 and \$89.6 million for the first half of 2018.

Employee compensation and benefits increased 8.0% for the second quarter of 2018 and 5.8% for the first half of 2018, primarily driven by the expansion of our National Media group, including the addition of Katz. This increase was partially offset by employee cost savings attributed to restructuring activities initiated in the fourth quarter of 2017.

Programming expense increased 71.7% for the second quarter of 2018 and 71.4% for the first half of 2018, primarily due to higher network affiliation fees reflecting contractual rate increases, the costs of producing our original programming show,

F-21

Pickler & Ben, as well as additional programming costs from Katz, which were \$23.1 million in the second quarter of 2018 and \$45.1 million in the first half of 2018.

Other expenses increased 35.9% for the second quarter of 2018 and 33.2% for the first half of 2018. The inclusion of Katz in 2018 contributed \$9.7 million of the increase in other expenses for the second quarter of 2018 and \$17.6 million of the increase for the first half of 2018. Increases in marketing and promotion costs for our national brands, Newsy and Midroll, also contributed to the increase in other expenses in the second quarter and year-to-date periods of 2018.

Depreciation and amortization of intangibles increased primarily as a result of the Katz acquisition.

Restructuring costs of \$2.3 million for the second quarter of 2018 and \$6.1 million for the first half of 2018 reflect severance, outside consulting fees and other costs associated with our previously announced changes in management and operating structure.

Interest expense increased for the second quarter and year-to-date periods of 2018, primarily due to the new debt issued to finance the Katz acquisition and the higher interest rate on the senior secured notes that were issued in April 2017. Interest expense for the respective periods of 2017 includes a \$2.4 million write-off of loan fees associated with the refinancing of our term loan B in the second quarter 2017.

Miscellaneous, net for the second quarter and year-to-date periods of 2017 includes a \$3.0 million gain from the sale of our newspaper syndication business and other income of \$2.5 million resulting from an adjustment to the purchase price earn out for Midroll.

The effective income tax rate was 92% and (23)% for the six months ended June 30, 2018 and 2017, respectively. The enactment of the Tax Cuts and Jobs Act in December 2017 lowered the U.S. corporate income tax rate. The U.S. federal statutory rate was 21% in the second quarter of 2018 and 35% in the second quarter of 2017, impacting the comparability of the income tax provision between those periods. Other differences between our effective income tax rate and the U.S. federal statutory rate are the impact of state taxes, non-deductible expenses, release of reserves for uncertain tax positions and excess tax benefits or expense on share-based compensation (\$0.7 million expense and \$2.4 million benefit in 2018 and 2017, respectively).

Business Segment Results — As discussed in the Notes to Condensed Consolidated Financial Statements, our chief operating decision maker evaluates the operating performance of our business segments using a measure called segment profit. Segment profit excludes interest, defined benefit pension plan expense, income taxes, depreciation and amortization, impairment charges, divested operating units, restructuring activities, investment results and certain other items that are included in net income (loss) determined in accordance with accounting principles generally accepted in the United States of America.

Items excluded from segment profit generally result from decisions made in prior periods or from decisions made by corporate executives rather than the managers of the business segments. Depreciation and amortization charges are the result of decisions made in prior periods regarding the allocation of resources and are, therefore, excluded from the measure. Generally, our corporate executives make financing, tax structure and divestiture decisions. Excluding these items from measurement of our business segment performance enables us to evaluate business segment operating performance based upon current economic conditions and decisions made by the managers of those business segments in the current period.

We allocate a portion of certain corporate costs and expenses, including information technology, certain employee benefits and shared services to our business segments. The allocations are generally amounts agreed upon by management, which may differ from an arms-length amount. Corporate assets are primarily cash and cash equivalents, restricted cash, property and equipment primarily used for corporate purposes and deferred income taxes.

Effective December 31, 2017, we realigned our businesses into a new internal organization and began reporting to reflect this new structure. Under the new structure we have the following reportable segments: Local Media, National Media and Other. We have recast operating results for all periods to reflect this change.

Local Media — Our Local Media segment includes our local broadcast stations and their related digital operations. It is comprised of fifteen ABC affiliates, five NBC affiliates, two FOX affiliates and two CBS affiliates. We also have two MyTV affiliates, one CW affiliate, one independent station and three Azteca America Spanish-language affiliates. Our Local Media segment earns revenue primarily from the sale of advertising to local, national and political advertisers and retransmission fees received from cable operators, telecommunications companies and satellite carriers. We also receive retransmission fees from over-the-top virtual MVPDs such as YouTubeTV, DirectTV Now and Sony Vue. National television networks offer affiliates a variety of programs and sell the majority of advertising within those programs. In addition to network programs, we broadcast internally produced local and national programs, syndicated programs, sporting events and other programs of interest in each station's market. News is the primary focus of our locally produced programming.

The operating performance of our Local Media group is most affected by local and national economic conditions, particularly conditions within the automotive, services and retail categories, and by the volume of advertising purchased by campaigns for elective office and political issues. The demand for political advertising is significantly higher in the third and fourth quarters of even-numbered years.

Operating results for our Local Media segment were as follows:

(in thousands)	Three Months Ended			Six Months Ended

Segment profit	\$53,368	9.5 %	\$48,736	\$84,987	4.8 %	\$81,087
Revenues						

Total Local Media revenues increased 5.9% for the second quarter of 2018 and 4.3% for the first half of 2018. Higher retransmission revenues and higher political advertising from an even year election cycle contributed to the increase in revenues. The increase in retransmission revenues was primarily attributed to contractual rate increases. In the second quarter and year-to-date periods of 2018, political advertising revenues were \$14.9 million and \$17.5 million, respectively, leading to some displacement of core advertising revenues, which declined 6.1% for the second quarter of 2018 and 3.1% for the year-to-date period of 2018 compared with the respective periods in 2017. Improvement in our services, retail, media and home improvement categories was offset by weakness in our auto, food and communications categories. Following the acquisition of Katz on October 2, 2017, we no longer receive carriage fees from the Katz networks, which primarily represents the decrease in other revenues for the second quarter and year-to-date periods of 2018.

Costs and expenses

Employee compensation and benefits were relatively flat for both the second quarter and year-to-date periods of 2018 compared with 2017.

Programming expense increased 19.5% for the second quarter of 2018 and 18.9% for the year-to-date period of 2018 compared with 2017 due to higher network affiliation fees as well as the costs of producing our original programming show, Pickler & Ben. Network affiliation fees increased \$5.9 million for the second quarter of 2018 and \$11.5 million for the year-to-date period of 2018 compared with the respective periods in 2017. Network affiliation fees have been increasing industry-wide

F-24

due to higher rates on renewals, as well as contractual rate increases, and we expect that they may continue to increase over the next several years.

Lower marketing and promotion costs contributed to the decrease in other expenses for both the second quarter and year-to-date periods of 2018 compared with 2017.

National Media — Our National Media segment is comprised of the operations of our national media businesses, including over-the-air networks, Katz; our podcast business Midroll; next-generation national news network Newsy; and other national brands. Our National Media group earns revenue primarily through the sale of advertising. Operating results for our National Media segment were as follows:

Katz was acquired on October 2, 2017. The inclusion of operating results from this business for the periods subsequent to the acquisition impacts the comparability of our National Media segment operating results.

Revenues

National Media revenues increased \$55.2 million for the second quarter of 2018 and \$106.2 million for the first half of 2018. Excluding the results of Katz, revenues increased \$8.2 million for the second quarter of 2018 and \$16.6 million for the first half of 2018, primarily driven by increased revenues from Midroll and Newsy. Increases in Midroll's revenues reflect advertising growth from existing podcasts as well as the addition of new titles to its portfolio of podcasts. Newsy's revenues increased primarily from the growth of advertising on over-the-top platforms as well as revenues from its expansion into cable in the fourth quarter of 2017.

Costs and expenses

Employee compensation and benefits doubled for the second quarter and year-to-date periods of 2018 due to the impact of Katz, as well as the hiring of personnel to support the growth of our National Media businesses.

Programming expense includes the amortization of programming for Katz, podcast production costs and other programming costs. The increase in programming expense for the second quarter and year-to-date periods of 2018 is primarily due to the inclusion of Katz's programming costs and additional programming costs for our podcast business. Programming costs for Katz were \$23.1 million for the second quarter of 2018 and \$45.1 million for the first half of 2018.

Other expenses of \$21.4 million in the second quarter of 2018 and \$37.2 million in the first half of 2018 include \$9.7 million and \$17.6 million, respectively, attributable to Katz. The remaining increase in other expenses for the second quarter and year-to-date periods of 2018 is primarily attributed to marketing and promotion costs incurred for our national brands.

Shared services and corporate

We centrally provide certain services to our business segments. Such services include accounting, tax, cash management, procurement, human resources, employee benefits and information technology. The business segments are allocated costs for such services at amounts agreed upon by management. Such allocated costs may differ from amounts that might be negotiated at arms-length. Costs for such services that are not allocated to the business segments are included in shared services and corporate costs. Shared services and corporate also includes unallocated corporate costs, such as costs associated with being a public company. During 2018, we incurred \$3.3 million in costs related to our proxy contest.

Liquidity and Capital Resources

Our primary source of liquidity is our available cash and borrowing capacity under our revolving credit facility.

Operating activities

Cash flows from operating activities for the six months ended June 30 are as follows:

(in thousands)	Six Months Ended June 30,	
	2018	2017
Cash Flows from Operating Activities:		
Income from continuing operations, net of tax	\$85	\$4,122
Adjustments to reconcile net income (loss) from continuing operations to net cash flows from operating activities:		
Depreciation and amortization	30,802	27,642
(Gain)/loss on sale of property and equipment	651	62
Programming assets and liabilities	(6,237)	3,681
Deferred income taxes	2,055	(51)

Net cash provided by operating activities from continuing operations	17,617	22,996
Net cash provided by operating activities from discontinued operations	4,939	5,999
Net operating activities	\$22,556	\$28,995

The \$5.4 million decrease in cash provided by operating activities from continuing operations was primarily attributed to the year-over-year net cash impact from increased programming investment of \$9.9 million, \$5.8 million of cash outlay related to our previously discussed restructuring initiatives and \$11.6 million of higher interest payments year-over-year. These items were partially offset by a \$13.2 million increase in segment profit year-over-year, as well as changes in working capital accounts.

Investing activities

Cash flows from investing activities for the six months ended June 30 are as follows:

(in thousands)	Six Months Ended	
	2018	2017
Cash Flows from Investing Activities:

Net cash used in investing activities from discontinued operations	(685)	(547)
Net investing activities	\$(29,851)	\$(6,495)

In 2018 and 2017, we used \$29 million and \$6 million, respectively, in cash for investing activities from continuing operations. The majority of the increase was attributed to \$3.9 million of cash expended to acquire cable and satellite carriage rights for Newsy, as well as an increase in capital expenditures of \$17.3 million. A significant portion of the increase in capital expenditures is attributed to \$9.7 million of capital expenditures incurred in 2018 related to the FCC repacking process. Additionally, National Media's capital expenditures increased \$5.5 million as a result of the expansion of our national brands.

Congress authorized the FCC to conduct so-called “incentive auctions” to auction and re-purpose broadcast television spectrum for mobile broadband use. In the repacking process associated with the auction, the FCC has reassigned some stations to new post-auction channels. We do not expect reassignment to new channels to have a material impact on our stations' broadcast signals as viewed in their markets. We received letters from the FCC in February 2017, notifying us that 17 of our stations have been assigned to new channels. The legislation authorizing the incentive auction and repack provides the FCC with up to a \$2.75 billion fund to reimburse reasonable costs incurred by stations that are reassigned to new channels in the repack. We expect the FCC fund will be sufficient to cover the costs we would expect to incur for the repack and that our only potential funding risks would be limited to any disagreements with the FCC over reimbursement of expenditures incurred. Reimbursements provided by the FCC are recognized as the cash is received.

We expect to spend approximately \$55 million through the end of 2020, of which, \$12.6 million has been spent to date and approximately \$10 million is expected to be incurred over the remaining periods of 2018.

Financing activities

Net cash used in financing activities from continuing operations	\$(15,685)	\$(7,203)

In 2018 and 2017, we used \$16 million and \$7 million in cash for financing activities from continuing operations, respectively. The primary factors impacting our cash flows from financing activities are described below.

F-27

Our current share repurchase program allows the purchase of up to \$100 million of our Class A Common shares through March 1, 2020. Shares can be repurchased under the authorization via open market purchase or privately negotiated transactions, including accelerated stock repurchase transactions, block trades, or pursuant to trades intending to comply with rule 10b5-1 of the Securities Exchange Act of 1934. We repurchased \$4.4 million of shares during the first six months of 2018 and \$6.3 million of shares during the first six months of 2017. At June 30, 2018, \$78.2 million remains available for repurchase under our share repurchase program.

In the first and second quarter of 2018, we initiated and paid a 5 cent per share dividend to shareholders on record as of March 1, 2018 and June 15, 2018, respectively. Total dividend payments to shareholders of our common stock for the six months ended June 30, 2018 were \$8.2 million. We currently expect that quarterly cash dividends will continue to be paid in the future. Future dividends are, however, subject to our earnings, financial condition and capital requirements.

In 2018, we received \$1.9 million of proceeds from the exercise of employee stock options compared with \$1.5 million in 2017. We have not issued any stock options since 2008.

On April 28, 2017, we issued \$400 million of senior unsecured notes ("the Senior Notes"), which bear interest at a rate of 5.125% per annum and mature on May 15, 2025. The proceeds of the Senior Notes were used to repay our term loan B, for the payment of the related issuance costs and for general corporate purposes.

On April 28, 2017, we also amended and restated our \$100 million revolving credit facility ("Revolving Credit Facility"), increasing its capacity to \$125 million and extending the maturity to April 2022. Interest is payable on the Revolving Credit Facility at rates based on LIBOR, plus a margin based on our leverage ratio ranging from 1.75% to 2.50%. There were no borrowings under the revolving credit agreement in any of the periods presented. The revolving credit agreement includes certain financial covenants which we were in compliance with at June 30, 2018, and December 31, 2017.

On October 2, 2017, we issued a \$300 million term loan B which matures in October 2024. We amended term loan B on April 4, 2018, reducing the interest rate by 25 basis points. Following the amendment, interest is payable on term loan B at a rate based on LIBOR, plus a fixed margin of 2.00%. Interest will reduce to a rate of LIBOR plus a fixed margin of 1.75% if the company's total net leverage, as defined by the amended agreement, is below 2.75. Term loan B requires annual principal payments of \$3 million.

Our financing agreement includes the maintenance of a net leverage ratio if we borrow more than 20% on the Revolving Credit Facility. The term loan B requires that if we borrow additional amounts or make a permitted acquisition that we cannot exceed a stipulated net leverage ratio on a pro forma basis at the date of the transaction. We were in compliance with all financial covenants in the financing agreement at June 30, 2018, and December 31, 2017.

Our financing agreement also includes a provision that in certain circumstances we must use a portion of excess cash flow, as defined, to repay debt. As of June 30, 2018, we were not required to make additional principal payments for excess cash flow.

Other

We expect to contribute approximately \$15.6 million during the remainder of 2018 to fund our defined benefit pension plans and our SERPs in order to meet our funding requirements under the provisions of the Pension Funding Equity Act of 2004 and the Pension Protection Act of 2006.

We expect that our cash, cash from operating activities and available borrowing capacity will be sufficient to meet our operating and capital needs over the next 12 months.

Off-Balance Sheet Arrangements and Contractual Obligations

Off-Balance Sheet Arrangements

There have been no material changes to the off-balance sheet arrangements disclosed in our 2017 Annual Report on Form 10-K.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”) requires us to make a variety of decisions that affect reported amounts and related disclosures, including the selection of appropriate accounting principles and the assumptions on which to base accounting estimates. In reaching such decisions, we apply judgment based on our understanding and analysis of the relevant circumstances, including our historical experience, actuarial studies and other assumptions. We are committed to incorporating accounting principles, assumptions and estimates that promote the representational faithfulness, verifiability, neutrality and transparency of the accounting information included in the financial statements.

Note 1 to the Consolidated Financial Statements included in our 2017 Annual Report on Form 10-K describes the significant accounting policies we have selected for use in the preparation of our financial statements and related disclosures. An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made and if different estimates that reasonably could have been used or changes in estimates that are likely to occur could materially change the financial statements. We believe the accounting for acquisitions, goodwill and indefinite-lived intangible assets, income taxes and pension plans to be our most critical accounting policies and estimates. A detailed description of these accounting policies is included in the Critical Accounting Policies section of Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2017 Annual Report on Form 10-K.

Recent Accounting Guidance

Refer to Note 2 – Recently Adopted and Issued Accounting Standards of the Notes to Condensed Consolidated Financial Statements (Part I, Item 1 of this Form 10-Q) for further discussion.

Quantitative and Qualitative Disclosures About Market Risk

Earnings and cash flow can be affected by, among other things, economic conditions and interest rate changes. We are also exposed to changes in the market value of our investments.

Our objectives in managing interest rate risk are to limit the impact of interest rate changes on our earnings and cash flows and to reduce overall borrowing costs.

The following table presents additional information about market-risk-sensitive financial instruments:

(in thousands)	As of June 30, 2018		As of December 31, 2017	
	Cost Basis	Fair Value	Cost Basis	Fair Value
Financial instruments subject to interest rate risk:				
Variable rate credit facility	\$—	\$—	\$—	\$—

Unsecured subordinated notes	2,656	2,547	2,656	2,637
Long-term debt, including current portion	\$700,406	\$679,425	\$701,906	\$703,572
Financial instruments subject to market value risk:				
Investments held at cost	\$4,212	(a)	\$4,603	(a)

(a) Includes securities that do not trade in public markets so the securities do not have readily determinable fair values. We estimate that the fair value of these securities approximates their carrying value. There can be no assurance that we would realize the carrying value upon sale of the securities.

Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Scripps management is responsible for establishing and maintaining adequate internal controls designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America (“GAAP”). The Company’s internal control over financial reporting includes those policies and procedures that:

1. pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and the directors of the Company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company’s assets that could have a material effect on the financial statements.

All internal control systems, no matter how well designed, have inherent limitations, including the possibility of human error, collusion and the improper overriding of controls by management. Accordingly, even effective internal control can only provide reasonable but not absolute assurance with respect to financial statement preparation.

Further, because of changes in conditions, the effectiveness of internal control may vary over time.

The effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) was evaluated as of the date of the financial statements. This evaluation was carried out under the supervision of and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures are effective.

There were no changes to the Company's internal controls over financial reporting (as defined in Exchange Act Rule 13a-15(f)) during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. We implemented internal controls to ensure we adequately evaluated our contracts and properly assessed the impact of the new accounting standard related to revenue recognition on our financial statements to facilitate its adoption on January 1, 2018. There were no significant changes to our internal controls over financial reporting due to the adoption of the new standard. We acquired the Katz networks on October 2, 2017 and have excluded this business from management's reporting on internal control over financial reporting, as permitted by SEC guidance, for the quarter ended June 30, 2018. Katz has total assets of approximately \$428 million, or 20% of our total assets as of June 30, 2018 and revenues of \$90 million, or 17% of our total revenues for the six months ended June 30, 2018.
