## TOP TANKERS REPORTS SECOND QUARTER AND FIRST HALF 2005 FINANCIAL RESULTS

ATHENS, GREECE (August 4, 2005) ... TOP Tankers Inc (NasdaqNM:TOPT) today announced operating results for the second quarter and first half of 2005.

For the three months ended June 30, 2005, the Company reported net income of \$13,552,000, or \$0.49 per share, compared with net income of \$5,709,000, or \$0.95 per share, for the second quarter of 2004. The weighted average number of basic and diluted shares used in the computations was 27,830,990 and 6,000,000 for the second quarter of 2005 and 2004 respectively. For the three months ended June 30, 2005, operating income was \$19,200,000, compared with \$6,486,000 for the second quarter of 2004. EBITDA(1) for the second quarter of 2005 was \$33,128,000, compared with \$8,999,000 for previous year's second quarter. Voyage revenues for the second quarter of 2005 were \$56,329,000, compared to \$17,428,000 recorded for the second quarter of the previous year.

For the six months ended June 30, 2005, TOP Tankers reported net income of \$32,673,000, or \$1.17 per share, compared to \$6,953,000, or \$1.16 per share, for the first half of 2004. The weighted average number of basic and diluted shares used in the computations was 27,830,990 and 6,000,000 for the first half of 2005 and 2004 respectively. For the six-month period ended June 30, 2005, operating income was \$40,175,000, compared with \$8,084,000 for the first half of 2004. EBITDA for the first six months of 2005 was \$62,847,000, compared to \$12,035,000 for the same period last year. Voyage revenues for the six month period ended June 30, 2005, were \$103,620,000, compared to \$25,156,000 recorded for the first half of 2004.

Evangelos J. Pistiolis, President and Chief Executive Officer of TOP Tankers Inc, commented, "We have entered the summer period, typically the season for low rate especially for crude oil tankers. Still, despite the decline in crude oil tanker-charter rates compared to last year, we are still experiencing a strong rate environment, which we consider very promising for the remainder of 2005."

-----  
1 EBITDA represents earnings before interest, taxes, depreciation and amortization. EBITDA does not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by GAAP, and our calculation of EBITDA may not be comparable to that reported by other companies. EBITDA is included in this press release because it is a basis upon which we assess our liquidity position and because we believe that it presents useful information to investors regarding our ability to service and/or incur indebtedness.

TOP TANKERS REPORTS 2nd QUARTER AND FIRST HALF 2005 FINANCIAL RESULTS

FLEET REPORT

As of June 30, 2005, the Company's fleet size was 23 vessels, or 2.0 million dwt, up from seven vessels, or 0.45 million dwt, on June 30, 2004. During the second quarter of 2005, the Company took delivery of two double-hull Suezmax tankers and two double-hull product tankers.

On July 13, 2005, the Company sold the M/T Fearless to a third party. The expected gain of approximately \$10 million will be recognized in the third quarter of 2005.

On August 3, 2005, the Company announced the sale of the handymax tankers M/T Restless and M/T Sovereign and their immediate leaseback to the Company for a period of seven years. The lease is a bareboat charter, with TOP Tankers performing the operational and commercial management of the vessels.

## Edgar Filing: TOP TANKERS INC. - Form 6-K

The Company expects to generate a gain of approximately \$7.0 million, which will be amortized over the seven year lease period. The bareboat charter rate is \$11,600 per ship per day and both vessels will continue their time charter contracts with Vitol and Glencore for their remaining period of two and four years respectively. The Company believes this sale and leaseback qualifies as an operational lease under the U.S. GAAP.

### FLEET DEPLOYMENT

During the second quarter of 2005, the Company had approximately 70 percent of the fleet's net operating days on long-term employment contracts. The Company announced on June 24, 2005, the signing of a new employment agreement for a Suezmax tanker. On July 13, the Company also announced that it sold the M/T Fearless. In total, 18 of the Company's 22 tankers will be on time-charter contracts with an average term in excess of three years. All but two of these time charters include profit-sharing agreements.

The Company has secured approximately 73 percent of the estimated working days for 2005 and 78 percent for 2006 under time charter contracts. At the same time, the four Suezmaxes operating in the spot market, together with the profit-sharing component of the time-charter contracts, expose approximately 63 percent of the Company's estimated working days for 2005 and 49 percent for 2006 to potentially higher spot rates.

All of the Company's profit-sharing contracts settle on a quarterly basis and the potentially generated profit is presented in the financial statements for the corresponding period. Each settlement is full and final (except for voyages in progress and demurrages) and does not depend on average rates of future periods.

### SUEZMAX FLEET:

During the second quarter of 2005, five of the Company's Suezmax tankers operated in the spot market, earning on average approximately \$40,209 per vessel per day on a time-charter equivalent (TCE) basis.

During the second quarter of 2005, four of the Company's Suezmax tankers entered into time-charter agreements:

Three Suezmax tankers entered into two-year time-charter agreements with Glencore SA, one of the world's largest oil traders. Pursuant to these agreements, the M/T Stopless, M/T Timeless and M/T Flawless will earn base rates per day of \$28,000 during the term of the contracts. Should a vessel generate revenue in excess of its base rate over the duration of the contract, TOP Tankers will receive 100 percent of the first \$7,000 per day in excess of the base rate, up to \$35,000 per day, and 50 percent of the excess thereafter.

One Suezmax tanker entered into a five-year time-charter contract with Hyundai Merchant Marine. The M/T Faultless will earn \$37,000 per day during the first two years of the time-charter contract, \$36,000 per day for the third year and \$35,000 per day for the remaining two years through the expiration of the contract.

One Suezmax tanker entered into a time charter contract with Petroleos de Venezuela S.A. The M/T Priceless, which substituted the reported M/T Noiseless, will earn \$38,100 per day for a period of three years, and the charterers have the option to extend the contract for an additional four-year period.

During the second quarter of 2005, the vessels under time charter earned on average approximately \$32,195 per vessel per day on a TCE basis.

## Edgar Filing: TOP TANKERS INC. - Form 6-K

### HANDYMAX FLEET:

All of the Company's Handymax tankers operate under long-term employment agreements with Glencore and Vitol that provide for a base rate and additional profit-sharing.

Four of these contracts are with Glencore and have a base rate of \$14,500 per day. Should a vessel generate revenue in excess of its base rate over the duration of the contract, TOP Tankers receives 100 percent of the first \$500 per day in excess of the base rate and 50 percent of the excess thereafter. The Company extended these two-year time charter contracts by three years. The new three-year contracts will commence immediately upon the expiration of the current contracts. The base rates per day for the new three-year periods will be \$14,000. Should a vessel generate revenue in excess of the base rates over the duration of these contracts, TOP Tankers will receive 100 percent of the first \$500 per day in excess of the base rate and 50 percent of the excess thereafter.

The Company has also entered into five-year employment agreements with Glencore for all four of its double-hull Handymax tankers delivered in March and April 2005. Pursuant to these time charter agreements, the M/T Taintless, M/T Dauntless, M/T Soundless and M/T Topless will earn a base rate of \$17,000 per day during the first year of their respective contracts. Should a vessel generate revenue in excess of its base rate over the first year of the contract, TOP Tankers will receive 30 percent of the excess. From the second year through the expiration of these contracts, the base rates per day will be \$16,250. Should a vessel generate revenue in excess of its base rate per day during this period, TOP Tankers will receive 100 percent of the first \$1,000 in excess of its base rate and 50 percent of the excess thereafter.

Six Handymax vessels have been chartered to Vitol at a base rate of \$14,250 per day until December 31, 2005, at a base rate of \$13,250 per day from January 1, 2006, until expiration of the contracts in February or March of 2007, as well as a profit-sharing provision based on the actual rate that the charterer generates from the vessel. Under the profit sharing provision, the Company receives, on a quarterly basis, the first \$250 per day (until December 31, 2005) and the first \$1,250 per day (from January 1, 2006, until expiration of the contracts) that the charterer generates from the vessel in excess of the base rate and 50 percent of the excess thereafter above \$14,500 per day. Following the sale of the M/T Fearless, there are five vessels chartered to Vitol.

During the second quarter of 2005, including the profit-sharing allocated to the Company from these profit-sharing agreements, the Handymax fleet, earned on average approximately \$19,536 per vessel per day on a TCE basis.

The following table presents the Company's fleet list and the employment agreements:

### ABOUT TOP TANKERS INC

TOP Tankers Inc is an international provider of worldwide seaborne transportation services of bulk commodities. The Company operates a fleet of 22 tankers transporting crude oil and refined petroleum products. The fleet under management consists of nine double-hull Suezmax tankers and 13 double-hull Handymax tankers, with a total carrying capacity of approximately 2.0 million dwt of which 95.2 percent are sister ships. Eighteen of the Company's 22 tankers are on time charter contracts with an average term of over three years with all but two of the time charters including profit-sharing agreements.

### FORWARD-LOOKING STATEMENTS

Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in our records and other data available from third parties. Although TOP Tankers believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, TOP Tankers cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including changes in charterhire rates and vessel values, failure of a seller to deliver one or more vessels, failure of a buyer to accept delivery of a vessel, inability to procure acquisition financing, changes in demand for oil and petroleum products, the effect of changes in OPEC's petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers, scheduled and unscheduled drydocking, changes in our voyage and operating expenses, including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations including requirements for double-hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists.

Risks and uncertainties are further described in reports filed by TOP Tankers with the US Securities and Exchange Commission.
